

CORPORATION OF CALCUTTA.

Re-publication of the Final Electoral Rolls (after revision for the year 1958-59) of the Constituencies (Nos. 1 to 13) of the Corporation of Calcutta.

EE

NOTICE

In compliance with sub-section (2) of Section 52 of the Calcutta Municipal Act, 1951. (West Bengal Act XXIII of 1951), as amended, and in compliance with Rule 30(1) of the Calcutta Municipal Electoral (Preparation and Publication and Revision and Republication of Electoral Rolls) Rules, 1952, made thereunder, the electoral rolls of all the constituencies (Nos. 1 to 75) of the Corporation of Calcutta have been revised in the year 1958-59 and the Final Electoral Rolls after revision are republished this day, the 6th January, 1959, at the places specified below for public inspection.

A complete copy of the electoral roll for each of the constituencies can be inspected at the office of the Registering Authority, Election Department, Central Municipal Office, Calcutta, during office hours and copies of such roll are available for purchase from the Records Department at the Central Municipal Office. The price of the electoral roll for a constituency is As. 2 only per page subject to a maximum price of Rs. 5 per roll.

CENTRAL MUNICIPAL OFFICE,
Election Department,
The 6th January, 1959.

H. DAS GUPTA,
Registering Authority.

Calcutta Municipal Service Commission

USHANATH SEN

BORN in 1895, at Jamalpur, Bihar, COUNCILLOR USHANATH SEN, was the second son of his father late Shri Purnakam Sen. After graduating in Science he was inspired to take the honourable profession of teaching and became a Demonstrator in Physics in the St. Xavier's College, Calcutta. Since then he had been a resident of the Kidderpore area, south-western part of the city.

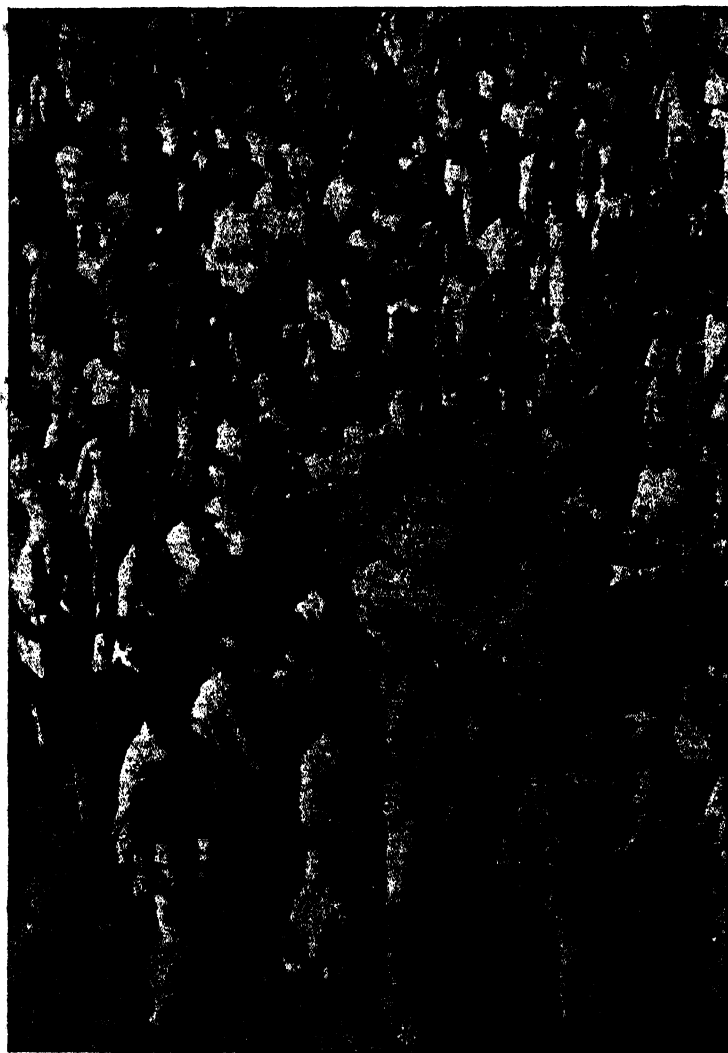

Later on, the young law graduate was allured to his own profession and joined the Alipore Bar in 1925. But this did not satisfy him fully and service to the people became his life's motto. He began to take interest in political, cultural and social activities of the locality he lived. Gradually, he came to be intimately associated with many of the local organizations and public institutions. In course of time this paved his way towards a larger field of public activities.

Elected for the first time in 1952 to the Corporation, Shri Sen soon became its important member. Because of his special interest in one of Corporation's principal activities, the once ideal teacher was elected as the Chairman of the Standing Education Committee. Later on he was an important member of the Standing Finance Committee. He was a member of many of the Special Committees appointed by the Corporation from time to time. By his sober and wise counsel he won the heart of the House. He was the Vice-President of the Congress Municipal Association and one of the leaders in the House.

His sudden passing away has caused a great shock to all. The mourning was widespread throughout the city.

LAST JOURNEY

Among those who attended the funeral were the Mayor, Dr. T. Sen, Councillors A. Maitra, Dr. P. K. Sen Gupta, Dr. P. K. Roy Choudhury, Raj S. Mitra, B. Ghosh, M. Sanyal, B. N. Banerjee, N. N. Banerjee, and others including a number of Corporation officials.

USHANATH SEN

DEATH has silenced an active life. With the passing away of Councillor Usha Nath Sen the city has lost a man who was needed most at this juncture of city's changing phase. Death's sudden approach was most shocking to all. He was on his desk in his Kidderpore residence, till late hours in the night when suddenly the end came. Thus it may be said he died in harness.

SHRI SEN was the Vice-President of the Congress Municipal Association. For one term he was the Leader of the Party he belonged to, and with sufficient ties of loyalty and outstanding ability he had served his own Party. His leadership was never questioned because of his cool judgment. He was not a man impetuous as he never allowed himself to be carried by hot sentiments.

SERVICES rendered by him to the Corporation were immense and would be remembered for a considerable time to come. The Council Chamber reverberated with his voice when he stood up to speak on the subject he liked. Alas that voice will not be heard any more! As one of the senior members, he was often chosen to guide the House. Occasionally he was called upon to preside over its deliberations but he never exercised his will upon others, rather left them to pursue their own. His amiable nature and profound knowledge in civic matters had enabled him to earn love and respect from all the members in the House as well as in the administration.

THE CITIZENS of Calcutta, particularly the people of Kidderpore, loved and adored him. They took him as their own because they found in him the man who loved to serve them. And if he could be spared in the Corporation for a longer term he could, we are sure, make more lasting contributions to the people whom he represented.

"The Calcutta Municipal Gazette" had always been an object of his love and appreciation. Its pages have many times been adorned by illuminative and illustrative articles from his pen. With his death this civic organ has missed one of its strongest supporters, an ardent admirer and an impartial critic.

Corporation Condolences The Death

ANNOUNCING the sad incident before the House on the afternoon of the 26th December last, the Mayor, Dr. Triguna Sen, in a soft voice said :—

"Friends! We mourn the death of a colleague and a comrade, who was sitting in our midst the other day, within this Chamber. With shocking suddenness he has left us all plunged in bewildered sorrow. It is an irreparable sense of personal loss to all of us. **SHRI USHANATH SEN**—Our beloved Ushada—breathed his last this morning. Even last evening he attended invitations, and parties, walked about in his Ward accosting friends in his usual manner. And no one could dream that he would be snatched away from us so soon.

The House passed a Condolence motion then recording 'the Corporation's deep sense of sorrow and irreparable loss at the sudden passing away of Shri Sen, a Councillor of great probity and wisdom, and a most lovable figure universally respected for his winning manners and excellence of character.'

The Corporation also extended its most sincere and heartfelt sympathy and condolences to the members of the bereaved family.

Paying tributes to his memory on behalf of the House, the Mayor continued :—

"Shri Sen was a man of whom it could be truly said that none could have any ill-will or ill-feeling towards him. Courteous, amiable, quiet, himself a man of peace and a peace-maker among others, he was universally loved and respected by fellow members in this House, by the employees of the Corporation, and by the citizens at large. Particularly to the rate-payers of Kidderpore, he was a beloved friend. We have witnessed thousands of people eagerly rushing to his residence for a last 'Darshan' of him this morning—thousands belonging to all castes, creeds and communities.

Speaking of his personal feelings at that juncture Dr. Sen said—

"Shri Sen's passing away is a stunning blow to me. In all matters relating to the Corporation where I am a new man, his sober and sage counsels and guidance were my great help and support. A man of few words Usha Babu was sober and wise in judgment. Even the members sitting on the opposite held him in high esteem. For pouring oil on troubled waters, for smoothening and straightening out knotty points of difference, his services were invaluable. I mourn the loss of a great well-wisher and a friend, philosopher and guide.

"I am sure, we all of us in this House feel that his disappearance has created a void which would be difficult to fill in.

Councillor Anil Maitra, leader of the opposition party, said that Shri Sen's death was as painful as the death of an elder brother.

Councillor Dr. P. K. Sen Gupta said that his sorrow was too deep to express in words. He prayed for the eternal peace of Shri Sen's soul.

Paying homage to his memory Councillor B. K. Banerjee referred to Shri Sen's keen interest for the welfare of the rate-payers of Calcutta.

Shri P. C. Majumdar, I.A.S. (Retd.), Chief Executive Officer, said that Shri Sen was not only very lovable to his colleagues but also to the officers and employees of the Corporation.

Councillors Shyamal Kumar Dutta, Chandra Sekhar Bhowmick, Sudhangsu Mitra, Panna Lal Das and Samar Rudra also paid eloquent tributes to the memory of their esteemed colleague.

The Calcutta Corporation's offices, workshops and schools remained closed on the 26th December last, as a mark of respect to the memory of Shri Sen.

WIDE MOURNING THROUGHOUT THE CITY

Besides the Corporation there were wide mournings throughout the city. The meetings of the Corporation Standing Committees, scheduled to be held during the week that followed his death, were adjourned as a mark of respect to his memory. Condolence motions were passed in those meetings.

ALIPORE BAR ASSOCIATION

The Bar Association, Alipore, in a meeting held on the 2nd January last, expressed its deep sense of sorrow at the sudden and untimely demise of Shri Usha Nath Sen, an important member of the Association.

CORPORATION EMPLOYEES MOURNED THE DEATH

At a largely attended meeting on the 27th December last, the employees of the Corporation mourned the death. The meeting was held under the auspices of the Block Sirocars' Association, in the Kumar Singh Hall, central part of the city.

Shri Abinash Chandra Bhattacharyya, who presided paid eloquent tributes to his memory.

SRADH CEREMONY

The Sradh Ceremony of the late Councillor Sen was duly performed at his residence at 9/1, Ramnath Paul Road, Kidderpore, on Sunday, the 4th January. Many distinguished citizens attended the ceremony including the Mayor, Dr. Triguna Sen, the Sheriff of Calcutta, Alderman G. Ban, several other Aldermen and Councillors, and Corporation officials.

A CORRIGENDUM

The Draft Estimates of the Corporation Budget for 1959-60, as prepared by the Chief Executive Officer, was presented before the Standing Finance Committee, on the 15th December last and not on the 16th December, as reported in the 'Gazette' dated the 27th December last, due to inadvertence.

Miscellany

DR. TARAK NATH DAS PASSES AWAY

We deeply regret to announce the death of Dr. Tarak Nath Das, Professor of Political Science at Columbia University, on the 23rd December last, of a heart attack in New York, U.S.A. Seventy-four-year old Dr. Das was the Author of several books including one of India's Foreign Policy and another on Dr. Rabindranath Tagore. He was also a regular contributor to several Indian journals. Many of his books about India were proscribed by the then Government of India before independence.

The late Dr. Das's eventful career remained unknown to many of the Indians before the country achieved her independence in 1947. The patriot returned to his homeland in 1952. He won then several laurels. He also delivered a series of lectures in the city on Modern World History and Politics under the auspices of the Calcutta University and several other organizations and institutions.

Replying to the Civic Reception, arranged by the Corporation of Calcutta then, Dr. Das told that the struggle for India's freedom had not ended. Her border was not safe. India needed more strength. And his prophecy had not proved untrue even now.

Born in June 15, 1884, in the village of Majhipara, near Kanchrapara, 24-Parganas, Tarak Nath Das had his school and college education in this city. While young he joined the Anushilan Samity, one of the premier revolutionary organizations in Bengal and came in close contact with many of the fire-brand revolutionary leaders then preaching that *Swa-cult* during the early twenties. Hounded by the British Indian Police he fled to Japan in 1905 in the garb of a Sanyasi and from there he went to San Francisco, U.S.A., in 1906. In 1907 Tarak Nath started editing a journal at San Francisco published under the name "Free Hindusthan." Through its columns he propagated the cause of a free Indian Republic. In 1909-10 he exchanged letters with the great Russian savant Tolostoy, on the question of India's freedom.

In 1914, Tarak Nath was granted American citizenship and in that very year he was awarded a Doctorate by the George Town University for his highly illuminating thesis on International Relationship and International Law. For securing foreign aid in the fight for India's freedom he moved on the axis line and extensively toured Asian and European countries. About this time he was accused of implicitly in a conspiracy to send shiploads of arms and ammunition from America to India. He was, however, sentenced to 22 months imprisonment and only through the efforts of the "Friends of Freedom of India Society" led by the late Shri Sailendranath Ghosh that Shri Das could manage to retain his American citizenship.

In 1924, Dr. Das married an American, Mary Keating. In 1948, Mrs. Keating Das died. Since then Dr. Das devoted himself more closely to literary and to his professorial duties.

In 1952 he was appointed a touring Professor of the Watson Foundation and visited India. He made a ten-day visit to this city then which reminded him of his earlier life in India.

Dr. Das's death was mourned by many organizations and individuals. The Corporation, at its weekly Meeting on Friday, the 2nd January last, mourned his death and adjourned its sitting for ten minutes as a mark of respect to his memory.

Councillor S. K. Roy, who presided the meeting, eloquented the achievements of Dr. Das. 'A patriot, philanthropist, and an ardent fighter of India's freedom Dr. Das has raised the Indian status to a level of free nations by his sincere and patriotic activities,' said Councillor Roy.

We also express our deep sense of sorrow at his death and pray for rest and peace for the departed soul.

PROCEDURES IN REALISING ARREAR RATE BILLS

The Corporation at its weekly meeting on the 2nd January last, passed a resolution directing the Assessor and the Collector, to realize Rates and Taxes of premises through Supplementary Bills for not more than two quarters at a time and not to issue all the Supplementary Bills at a time since the date of holding General Revaluation in respect of each house or premises; and the rate-payers be given usual time from the date of receipt of Bills for payment of their rates and taxes.

The resolution was placed in the House in the shape of a motion standing in the names of Councillors N. N. Banerjee, Raj S. Mitra, Dr. K. L. Das, K. C. Bysack, K. C. Kundu, K. Dutt, and N. L. Banerjee. The resolution further added, as moved by Councillor D. C. Mukherjee, 'that in Wards where Rate Bills numbering ten to twelve have already been issued, the rate-payers would be entitled to the benefits of rebates for paying in time and on the contrary penalty of paying interest. In order to meet uniform justice the Rate Bills, already issued be recalled, and fresh Bills should be prepared and usual time be allowed for payment of the same on presentation to the rate-payers'.

In passing the resolution, the House agreed that the motion should be considered by the Standing Finance Committee and, if it disagreed with it, should send it back to the Corporation with its comments, as suggested by Councillor K. L. Dhandhanja, Chairman, Standing Finance Committee.

Councillors S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, also felt that before taking any such decision the House should seek the suggestions of the Standing Finance Committee, who are authorized to examine the pros and cons of Corporation finances.

Alderman Bijoy Singh Nahar, M.L.A., also urged the House to accept the motion realising the difficulties of the rate-payers.

Several members in the House spoke on this issue. They narrated the difficulties and hardships to be faced by the rate-payers in paying off the arrear dues which dated as far back as the year 1950-51.

The Assessment Department was found responsible for issuing those belated Rate Bills according to a member who wanted that a separate machinery should be set up to deal with those arrear Rate Bills. Particularly, it had been witnessed that whenever

any objections were raised by any individual taxpayer, the finalization generally did not arrive at within the reasonable time and hence the usual delay. Moreover, from the rate-payers' point of view demand was justified on the ground that they were required to pay off heavy arrears at a time.

Paucity of adequate staff and other difficulties, no doubt, very often caused unusual delay in passing Rate Bills and its realization thereof. Evidences are not wanting where continued negotiations, spreading over long years, could not bring the parties at an agreed point. The assessment of the Calcutta Port Commissioners' properties and those of the Union Government are glaring examples in this regard. After prolonged correspondence, sometime ago, the Union Government had agreed to pay service charges for properties acquired or erected after April 1954, and authorized the State Government to fix the rate. The State Government calculated the charges at 20 per cent. of the annual values of the property which would be about Rs. 45 lakhs.

But the Union Government had recently decided to pay charges at the rate of 18 p.c. of the annual values subject to a number of qualifying clauses, which, the Standing Finance Committee thought, would appreciably reduce the percentage.

The Standing Finance Committee, which met a few days ago, expressed concern at the proposed reduction as it might upset even the budgetary expectations of the Corporation and the Chief Executive Officer's estimated Budget for the next year had shown a deficit to the extent of a similar amount.

Thus the issue still remains to be indeterminate. And almost in a similar way, a large number of objection cases are piling up gradually in the Department concerned, although many of them are in the way of disposal. But unless adequate steps are taken to properly dispose of them or to finalize them similar complaints would sure to crop up every year as in the past, and the Corporation has to seek for a temporary measure as it is doing on this occasion.

ANTI-PROFITEERING BILL SEQUEL

The maximum and minimum prices for paddy and rice, has come into force within the State of West Bengal, with effect from the 1st January last. The State Government's intention to enforce the rates rigidly by the Anti-Profiteering Bill, under which profiteering and hoarding become cognizable offence, appeared to be a "threatening attitude to some whole-salers". The Bill, while in the way of passing, had caused much confusion both in the minds of the consumers as well as of the suppliers, whole-salers and retailers. This was also consequented by a drop in price of rice of all qualities taking its effects even a few days back of the target date. And since its enforcement on New Year's Day, complaints regarding non-availability of rice in the open market continued. Citizens have had to purchase rice of inferior quality at prices fixed for superior varieties.

Great concern was expressed by the members of both the State Legislative Assembly and the Legislative Council on Friday, the 2nd January last, on the disappearance of rice all over a sudden from markets in the city and neighbouring areas from the date of enforcement. The subject was sought to be moved through adjournment motions when several members wanted to discuss the scarcity of not only rice and other food-stuffs but also of kerosene oil and other essentials in both the Houses.

In the Legislative Assembly on that day, the Food Minister, Shri P. C. Sen, in his reply, admitted

that fine and superfine rice was not available in sufficient quantities. Wholesalers in Calcutta and Howrah had stocks of 94,000 Mds. of old rice. The Government had 20,000 Mds. About 4 million people purchased their weekly ration from fair price shops in the city on the last day of the year.

It was true, the Minister admitted, that there was some anxiety among traders and consumers over the rice position. Old rice stock was not sufficient. Doubts existed about coming to the market in sufficient quantity. The Government also proposed to take steps to ensure the supply of kerosene oil after the next allotment was made to different agents this month, he added.

Not satisfied with the reply there was also angry exchange of words between the ruling party and the opposition, many of whom strongly criticised the Government for its failure to tackle the situation in a right way.

Next day, the Government decided to increase the quota of rice per head per week from fair price shops from one seer to 1½ seers and of wheat from half-a-seer to one seer with effect from Monday, the 5th January. The Government has also considered the necessity of taking suitable action against those big wholesalers who were trying to defeat the object of the Rice and Paddy (Price Control) Order.

The West Bengal Government also hoped that transition period would end by the middle of January when all varieties of rice would be freely available.

The fluid position of supply of food-stuffs in the city is still continuing. Retail rice-dealers in the city had the same difficulty towards the earlier part of this month as they had in the past few days in getting supplies.

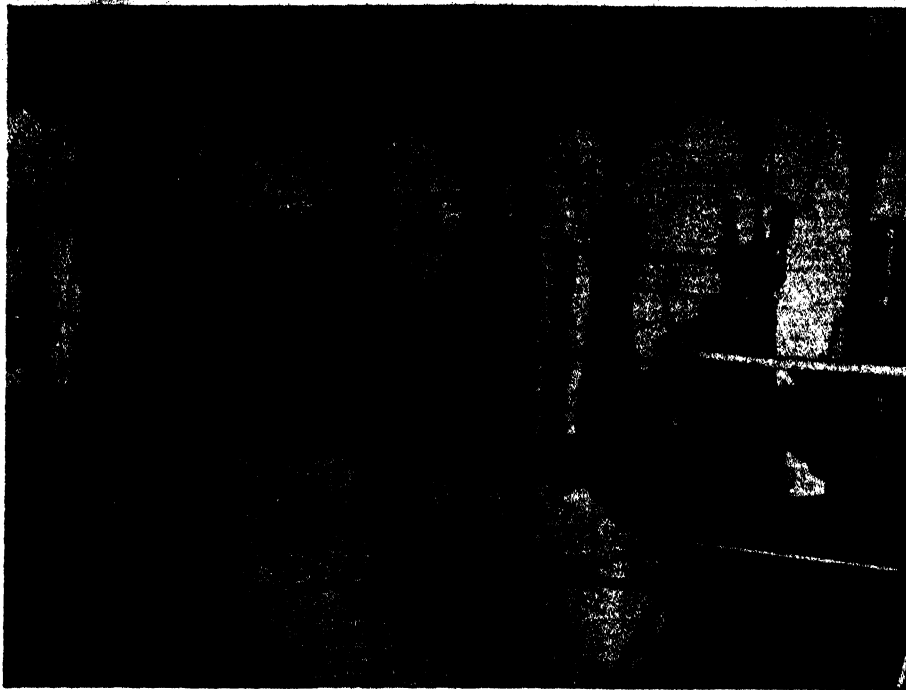

It may be recalled here that a large portion of the demand of Calcutta market—about 38,000 Mds. a day—is met by about 61 rice mills in and around the city. Except six, all of them are stated to be lying idle as they are not getting paddy from their usual suppliers. Because of short supply of wheat, the city's chakki industry was in a crisis, within recent days. The crisis has been aggravated by the Government's order to chakki owners to sell their products only to ration card holders.

In the Legislative Council, on Tuesday, the 6th January, the Food Minister announced that the Government was proceeding slowly but surely towards State Trading in food grains as a measure against profiteering while replying to the debate related to penal provisions of the Anti-Profiteering Bill. Opposition speakers demanded deterrent punishment in the shape of either imprisonment or heavy fines. The Food Minister said that the provisions in this regard had been framed on the lines of the Essential Commodities Act of the Union Government under which prices had been fixed.

Shri Sen admitted that the Government was still experiencing some resistance in enforcing its anti-profiteering measures. A number of big wholesalers had taken an un-co-operative attitude.

The Minister further pointed out that even if the situation did not improve this week, the rice quota would be further increased next week. The quantity of supply of rice would be one and a half seer per adult ration card holder, as suggested by the Minister.

Thus the only way left to the citizens is to watch and wait and see how the things take shape amidst disturbed situation. But their concern would not be mitigated so long there would exist an enhanced rate of prices.

POSSIBILITIES OF U.S. TECHNICAL AID TO CORPORATION

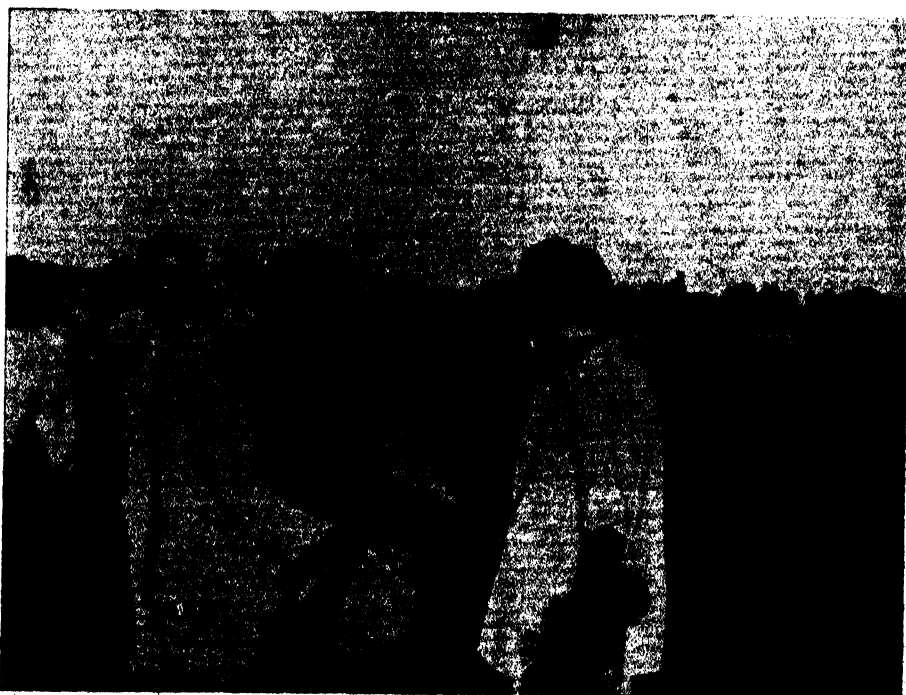

IN order to study the positions of Indo-United States' Development projects, at present under way in the eastern part of India, Mr. Howard E. Honston, Director of U.S. Technical Co-operation Mission in India, visited this city some time ago. During his stay here, Mr. Honston paid a visit to the Pulta Water Works of the Corporation, fourteen miles away from this city. Mr. Honston and his colleagues were then accompanied by the Chief Executive Officer, Shri P. C. Mazumdar, I.A.S. (Retd.), the Chief Engineer of Public Health, Government of West Bengal, Shri P. C. Bose, the Corporation's Chief Engineer, Shri A. K. Sen, and others. Shri D. N. Chakraverty, Superintendent, Pulta Water Works, took the party round the Water Works. The above picture was taken when the party was inspecting a plant at the Water Works.

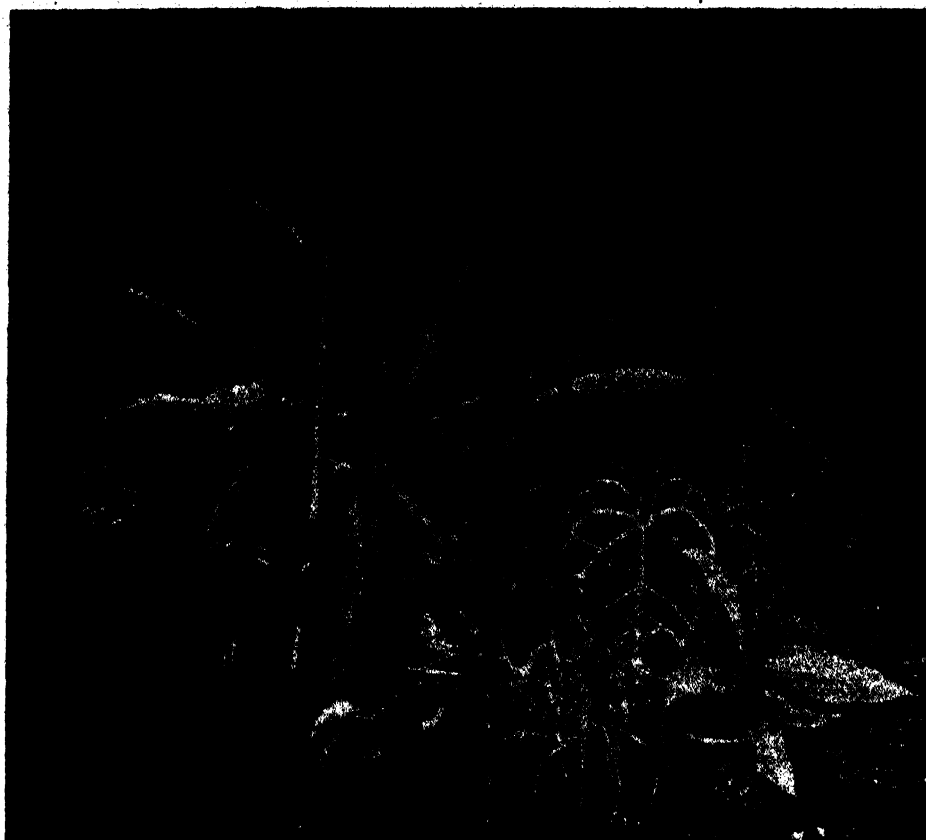

Mr. Honston also reviewed a blueprint of the development plans and projects of the Pulta Water Works when

it was shown to him. The Chief Engineer, Shri Sen explained him a few points in the plan while Shri Chakraverty looked into it from a distance. They stood then facing the big Ganges (picture below).

Later on, the Director in a letter addressed to the Chief Engineer, Shri Sen, referred to the visit to Pulta as 'most interesting and instructive'. He also hoped that, in future, the U.S. Technical Co-operation Mission will be able to assist, in any way open to it, in the selection of Corporation's difficulties.

During his brief stay in Calcutta, Mr. Honston fulfilled many other engagements. He went to the Harin-ghata Agricultural College, Nadia, addressed groups of businessmen and students, and met members of the Calcutta Press.

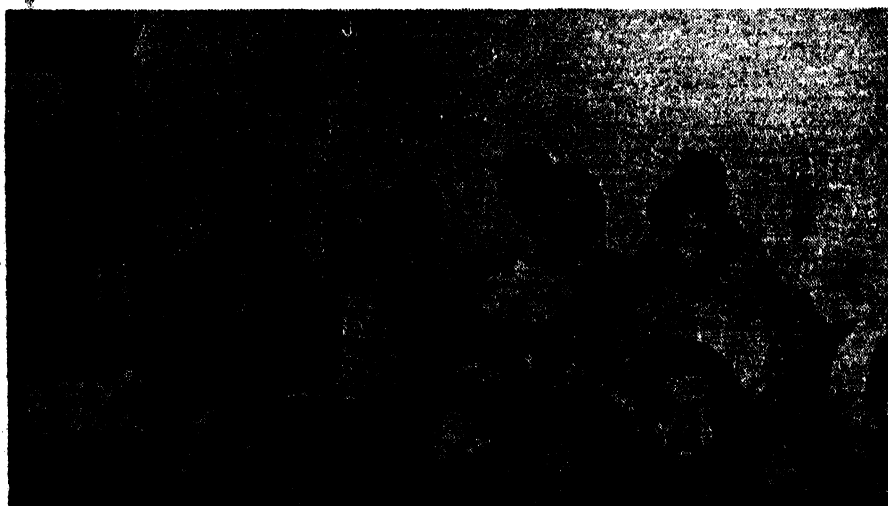

ANNUAL CHRYSANTHEMUM SHOW OPENED

IN presence of a large gathering of flower lovers, the Ninth Annual Chrysanthemum Show was opened by the State Chief Minister, Dr. B. C. Roy, at the Central Assembly House Gardens Calcutta, on the 27th December last. The show continued for a few days more on the grounds there and visitors poured in thousands.

This year's show comprised not only of Dahlias and Chrysanthemums, standing for competition, but varieties of roses, ornamental plants, cacti and other plants and flowers.

The competitors numbered 106, the highest so far. The State Governor, Shrimati Padmaja Naidu, distributed the prizes to the successful competitors.

The Calcutta Corporation, having a tradition of beautifying the city with flowers and foliage, entered the competition. The picture above is a corner where multi-coloured ornamental trees were put on show to attract visitors.

PRIZE DISTRIBUTION CEREMONY OF SUSSEX TRUST SCHOOL

AMIDST cheers and enthusiasm, the Annual Prize Distribution Ceremony of the Sussex Trust Model School, Mohan Chand Road, Kidderpore, was held in the school premises on the 23rd December last. The programme included dance recitals, solo songs, and dramatic performances. A large number of citizens, who attended the function, much appreciated those enjoyments. The school

also pioneers in introducing school-uniform among the Corporation school children.

The late Councillor Ushanath Sen, who presided over the function, advised the students to cultivate the habit of punctuality, discipline and civic senses among the students.

Shri P. C. Mazumdar, Chief Executive Officer, was the Guest-in-Chief.

There have been numerous instances of adulteration in many of the essential foodstuffs consumed by the citizens and the evil has grown so much that concerns have been expressed from all quarters to wipe out this menace as early as possible. But reasons should be sought far as to the ineffectiveness of the existing laws and regulations in combating the evil as well as to check the spread of the growing menace. Both the Corporation and the State Government so long stated that they were trying their level best to do away with this. But still there is wide prevalence of adulteration even in many foodstuffs which is beyond one's conception.

The weekly meeting of the Corporation, on the 2nd January last, has decided to hold a Special Meeting soon in order to discuss the seriousness of the problem of food adulteration in the city. The decision was taken when some members acquainted the House with the fact that under the new Act of the Union Government the Corporation's power to prevent food adulteration had been snatched away by the State Government and a confusion arose as to the propriety of appointing Food Inspectors by the Corporation.

The question of food adulteration was raised by Councillor Ratan Manick Chatterjee while discussing matters of public importance. He referred to the seizure of rice on the previous day allegedly mixed with stone chips and alleged that, although Corporation's Health Department Officers were asked to visit the place, they refrained from doing so.

Councillor Chatterjee said that adulteration was widespread in the city but no effective steps were being taken to check the evil. He requested the House specifically to direct Health Department Officers to be more vigilant in this regard.

Councillor Satyananda Bhattacharya also said that six months ago he had sent samples of rice adulterated with stone chips to the Corporation's Health Department, giving the address of the shop from which the sample had been collected. He had requested the Health Department to investigate and take action. But nothing was done according to Councillor Bhattacharya.

The incident referred to was that three godowns in Sovabazar Street in northern part of the city, were sealed on Thursday, the 1st January last, after the Enforcement Branch Police raided them and seized over 2,000 mds. of wholesome rice, 162 mds. of rice mixed with stone chips and 32 mds. of stone and stone chips. The proprietor of the godowns was arrested on suspicion that he had contravened the provisions of the Prevention of the West Bengal Food Adulteration Act and the Anti-Profitteering Ordinance.

About 12,000 lb. of skimmed milk powder was also stated to have been found in the godowns. The proprietor disowned the stock and the police said that he failed to furnish them with the whereabouts of its owner.

When produced before the Court, the police alleged that the accused, a rice and paddy dealer, entered into criminal conspiracy with others to cheat people by mixing stone chips and other adulterants with the stock of rice in his godown. He was connected, the police alleged, in a subversive act impeding the supply of an essential commodity to

In that meeting Councillor Dr. K. P. Ghosh produced a sample of tea which he alleged, had been adulterated with tea waste and said that such tea was being exported. This was giving a bad name to Calcutta and India and causing antipathy towards Indian tea abroad. The Corporation should take vigorous measures to stop it.

Referring the mounting problem of adulteration Councillor K. L. Dhandhanias said that the Corporation's Health Department had been finding it difficult to deal with such cases in view of the enforcement of the Union Government's Act in this respect. The Chairman of the Standing Finance Committee suggested that a special meeting should be convened to discuss the issue.

Appraising the crux of the situation Councillor Anil Maitra explained the legal position. He said that the Corporation no longer had any power to take action against adulteration of food. Under the Central Act, full authority had been delegated to the State Government. The Corporation could now only issue licences for shops on the basis of reports by Food Inspectors who were employees of the Government.

Recently, a report said that the West Bengal Government has proposed to take over Corporation's Food Adulteration Section. The possibility of absorbing the 30 Food Inspectors in Government departments is being examined. It has further been planned by the State Government that they would run a number of mobile laboratories in the city to test suspected cases of adulterated foodstuff on the spot, so as to expedite the cases against the adulterators. Hence the necessity of the services of Inspectors. That report of the State Government further felt that adequate measures have not been taken in the matter of prevention of adulteration in the city by the civic authorities so far, although there was a good scope for adopting such steps in accordance with the provisions of the existing Act on adulteration, in force throughout the country. The problem of adulteration is, no doubt, much more acute in this city than in any other part of the State. The State Government is more keen to check this in the city first. The measures can be extended to other places within the State next.

During the year 1957-58, the Health Department of the Corporation on analysis detected a large scale increase in the amount of adulteration of foodstuffs in the city. In almost all the essential articles, including, butter, ghee, mustard oil and tea were found to be largely adulterated.

According to the Corporation's Chief Analyst, after a chemical examination of 899 samples of milk and milk products collected from different parts of the city, during the year 1957-58, found 23.3 per cent of ghee, 70.1 per cent of butter and 8.6 per cent of milk to be adulterated as against 23.2 per cent, 57.2 per cent and 6.4 per cent in the year 1956-57 and 7.6 per cent, 4.2 per cent, and 12.8 per cent, in 1955-56. The percentage of other milk products during this year was, however, found to be low compared to other years.

It may be recalled here that realizing the gravity of the situation, the Corporation requested the State Government, more than a year hence, to promulgate an Ordinance in order

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-THIRD ANNUAL MEETING OF THE CORPORATION HELD ON FRIDAY, THE 2ND JANUARY, 1959

REVISION OF ASSESSMENT RATES

Referring to the hardship of a section of rate-payers in paying off higher rates Councillor Samar Kumar Rudra suggested for immediate implementation of the revision of rates on valuation according to the resolution already adopted by the Corporation. The resolution was in connection with the introduction of revised rates as provided under Section 165 of the Calcutta Municipal Act, 1951. This, he said, was of vital importance for giving relief to the poor middle class families.

Councillor Rudra pointed out that the resolution was passed a few months back, and was forwarded to the West Bengal Government, Local Self-Government Department, for their approval. He regretted that that had not been attended to yet.

As a member of the High Court Bar, Councillor Rudra opined that the Corporation was fully competent to revise those rates under the fourfolds of the existing Municipal Act. He also requested the members of the Standing Finance Committee to examine the relevant Section about the feasibility and practicability of implementing the revision of rates.

COUNCILLOR KARAM HOSSAIN

The House elected Councillor Karam Hossain as a member of the Standing Accounts Committee. The vacancy was caused by the resignation of Councillor Mihir Lal Ganguly.

[A GIST OF PROCEEDINGS OF THE THIRTIETH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, 19TH DECEMBER, 1958.]

MOSQUITO MENACE

Rising on a matter of public importance Councillor Sushil Kumar Paul wanted that the Corporation should undertake a vigorous campaign against the growing mosquito menace throughout the city. As a member representing the Cossipore area he complained that the Corporation's Mosquito Control Department had done very little to wipe out the menace from that part of the city, while the evil had spread over many other parts particularly in the Added areas and in Tollygunge. The intensiveness of the menace was growing fast also in the eastern part of the city where the existence of filth, wastes of the city and stagnant pools allowed to multiply the race.

Councillor Paul suggested that the Corporation should pay equal attention to this menace as it had been doing towards the control of epidemic diseases. And even if necessary, larger amounts should be diverted from other heads to provide adequate sums for the purpose.

An assurance was, however, given to the House by the Deputy Mayor, Shri Keshab Chandra Basu, who was then presiding.

PURCHASE OF TUBE-WELL PARTS

The House, on the recommendation of the Standing Water Supply Committee, sanctioned purchase of Tube-well parts for smooth operations of a large number of tube-wells, lying defunct for a long time.

Councillor Dhiren Dhar alleged, while the House was dealing with the recommendations, that at least one-third of the city's tube-wells were upworkable and that they should be immediately re-sunk.

Councillor J. L. Saha, Chairman of the Water Supply Committee, assured that arrangements to re-sink and resurge the tube-wells would be completed by the 31st January, 1959. He informed that the Standing Finance Committee was pleased to sanction necessary funds for the purpose.

Councillor Dr. A. P. Das Gupta also felt that unless immediate steps were taken to re-surge the defunct ones, the citizens had to suffer much.

AN ESTIMATE

The House, on the recommendation of the Standing Works Committee, accorded administrative sanction to an Engineer's estimate amounting to Rs. 60.5 thousands for improvement of Nikashi Drains by providing nine inches S. W. Pipe Sewer at Tiljala Lane from Bright Street to Rifle Road in Ward No. 60.

WORKING IN LAW DEPARTMENT

Councillor Usha Nath Sen, speaking on a matter of urgent public importance, drew the attention of the House to the workings of the Law Department. He said that this Department's work was not as it should have been and in many cases Corporation's interest went by default in the law courts. In this connection Councillor Sen cited a few instances where Corporation's interest was undermined due to negligence on the part of the Corporation officials.

WATER SUPPLY TO STATE TRANSPORT

The House, on the recommendation of the Standing Water Supply Committee, sanctioned the supply of filtered water to the State Transport, Central Workshop, Belghoria, from the 48 in. Pulta-Tallah Main. The House also accepted the Committee's suggestion to request the authorities to make their own arrangements as early as possible. At present the State Transport Authorities were drawing water from the Main on the strength of an order of the Commissioner to which one of the members said that the Commissioner had no authority to do so and he did it without any knowledge of the Standing Committee.

Councillor Biman Mitra moved an amendment that the Transport authorities be given six months' notice to make their own filtered water arrangements and to stop any supply to them by the Corporation after that date.

Another member said that "previous water" was being wasted when the whole city was thirsting for filtered water. After some more members had criticized the move the House unanimously passed the amendment of Councillor Mitra that the present arrangement be continued for six months only.

Union Vice-President Visits The City

Dr. SARVAPALLI RADHAKRISHNAN made a two-day visit of this city towards the end of December last. He inaugurated the Silver Jubilee Celebrations of the founding of the city at Cathedral Road, on the 22nd December last. On the third day he laid the foundation stone of the new fire-proof building of the Indian Museum and addressed the concluding function of the Silver Jubilee Celebrations of Bipin Chandra Pal.

Paying his personal homage to Bipin Chandra, Dr. Radhakrishnan described him as "the prophet of new India" and asked the people to work in building up a great India with a true sense of public spirit and patriotism that had animated the leader's life.

The function was arranged in the Mahajati Sadan and an elite of the city was present there.

The life of Bipin Chandra Pal was an illustration of the fact, continued the world renowned philosopher, that it was not satisfaction of self-interest but maintenance of self-respect that should guide people's lives. That was the one lesson they had to learn from his teachings, he added.

Dr. Radhakrishnan spoke of India's great past and referred to the Bengal Renaissance which has contributed to the re-birth of the whole country in science, art, literature, education, religion and politics. There was no doubt that the political principles which were later elaborated by Mahatma Gandhi had originally been formulated during the 1905 Swadeshi Movement against the Partition of Bengal. With these words the Union Vice-President concluded his speech.

Later on, the Mayor, Dr. Triguna Sen, presented to the Vice-President a book 'Renaissance of Bengal', depicting age of Bipin Chandra.

Edited by Dr. Atul Chandra Gupta, an eminent lawyer, the book deserved appreciation.

'HOPE AND FEAR'

Dr. Radhakrishnan declared that the present age was a split between "hope and fear, dream and nightmare". Artists had a vital role—to make man see the values which were still there "beckoning him to shed his base passions and live in this world with dignity and with a deep sense of humanity." This he spoke at the inaugural function of the Academy of Fine Arts.

The Vice-President also said that art galleries were not unknown to India. There were "Chitrashalas" in temples and palaces. The purpose of the modern art gallery should be "democratic selection of aristocratic achievements". It should accommodate works of people who had done good work and be accessible to all.

MUSEUM'S NEW BUILDING

Dr. Radhakrishnan hoped that like the British Museum and the Metropolitan Museum in New York, books and documents would be available in the Indian Museum for inquisitive readers.

Estimated to cost about Rs. 20 lakhs the new building will be a six-storied one in order to accommodate the rich collections of the Zoological Survey of India. On the ground floor of this "Mummy House" will be built an auditorium with seating capacity for about 300 persons.

Dr. Radhakrishnan said that if one went about the museum he would get the idea that no civilization was permanent and no culture permanent. The only way to preserve culture and civilization was to "let it grow and change and not let it become static and sterile."

GREAT CHANGES

Civilization had perished in the world on account of ossification, lack of imagination and resistance to change. The eminent philosopher's valued opinion was that in order to preserve the human race it had to change its orientation and sense of values. 'Our time is a challenge, because great changes are occurring in environment. And as changes occur in environment, individuals have also to change', added the Vice-President.

Dr. Radhakrishnan felt that the Indian Museum in Calcutta should be autonomous. It was necessary to simplify the administration. A new statute would be ready which would make the Board of Trustees autonomous and the museum would be run in the way the Trustees desired it.

Janab Humayun Kabir, Union Minister for Scientific Research and Cultural Affairs, who presided, discounted rumours that the Indian Museum would be denuded of some of its rich collections.

Welcoming the guests, Lady Ranu Mookerjee, Chairman of the Board of Trustees, said that statistical investigation by the Anthropology Department about 18 months ago had shown that about 12 lakh people visited the museum annually. Since then the number had gone up by 300,000.

Dr. Radhakrishnan said on the 30th December last, that whatever might be man's activities he must be guided by a sense of spiritual values. The Vice-President spoke when a reception was given to him by the Ramkrishna Mission Institute at its new building at the crossing of Gariahat Road and Southern Avenue.

-MISCELLANY

(Continued from page 236(a))

to tackle the problem effectively. The Mayor Dr. Triguna Sen, himself urged the Government in that line but it produced very little effects till the other day. And now when the State Government has come to senses they might move in their own way.

In the meantime, a stock taking of the situation would show that Corporation did its best in the past to check the menace with the help of the police authorities and the Municipal Magistrates were authorized to try those cases causing punishments to the offenders. But it has been said that the present Act does not empower those Magistrates to deal with those cases. Moreover, the lacunae in the Act very often allow the real guilty to escape from the hands of law. If the Corporation's staff is taken away and controlled by the Government things would surely move in another way.

It is too early now to predict the future, and the citizens' concern to get rid out of this evil is still in existence.

NETAJI'S STATUE AT FIVE-POINT CROSSING, SHAMBAZAR

WITH the fast approach of the 23rd January, the Sixty-second Birthday Anniversary of NETAJI SUBHAS CHANDRA BOSE, Calcutta prepares itself to celebrate the occasion in a befitting way. It included erection of an equestrian statue at the five-point crossing, Shambazar (*picture above*).

Installed under the auspices of the Calcutta Corporation, the statue will inspire thousands of citizens. Placed at the gateway of the city it would be the most befitting homage to that great leader of men.

It may be recalled here, that the West Bengal State Legislative Assembly, on the 26th December last adopted a resolution which stated that 'the State Government should instal, at a prominent place in the city of Calcutta, a statue of Netaji Subhas Chandra Bose, an outstanding leader of the Indian National Congress, and the Head of the Azad Hind Provincial Government'. The motion was originated by Shri Pabitra Mohan Roy. It was suitably amended by Shri Narendra Nath Sen, an important representative of this city.

As to the selection of site for the purpose, Shri Bankim Mukherjee mentioned two probable places — one on the Maidan near the Ochterlony Monument and the other the spot where the Holwell Monument was located. With the first site, the memory of Subhas Chandra was associated because as the Mayor of Calcutta he participated in a movement there and faced police oppression. As regards the other site Shri Mukherjee thought that it would be proper because the last movement launched by that leader before he left India was for removal of the Holwell Monument, then a curse on the nation.

While agreeing with the rest Alderman Shri Bijoy Singh Nahar said that there would not be any controversy over the issue and suggested that they should not try to end their job by simply installing a statue. Arrangements should be made for its proper maintenance and cleansing, he emphasised.

Participating in the debate the State Chief Minister, Dr. B. C. Roy said that once as one of the close associates of Subhas Chandra he could say that his life was dedicated to the service of the nation. There was no doubt about that and no one could disagree with the proposal for installation of his statue, he said.

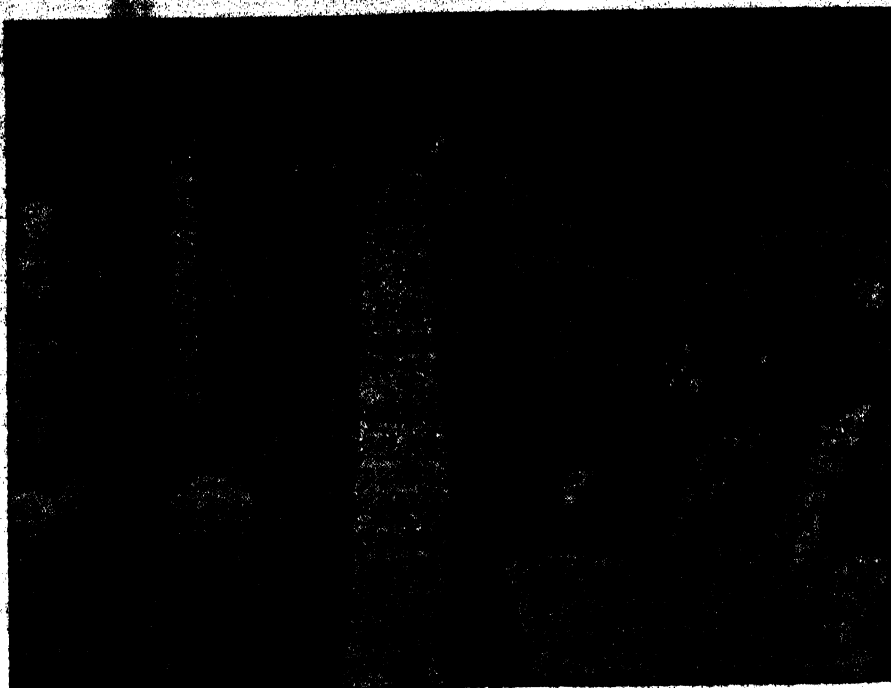

There seemed to be difference of opinion as to the location of the statue and its shape. Netaji was both a leader of the Indian National Congress and Head of the Azad Hind Government. The latter might have brought his fame and made him known throughout the world, added the State Chief Minister. Still Dr. Roy personally preferred a statue of Subhas Chandra Bose as he was in 1921-22. Anyway these details could be solved through mutual discussion, he also said.

In course of his speech Dr. Roy cited an instance which narrated that about four or five years ago the small plot in front of the Mahajati Sadan was leased out to some party by the Calcutta Corporation for building up an eye-hospital. When his attention to this was drawn by some prominent citizens he persuaded the Corporation authorities to drop the proposal. This was done with the intention of installing Netaji's statue there. But later than proposal did not materialise.

The Chief Minister categorically declared that they would surely instal a statue of Netaji in a suitable place. He preferred a bronze statue to one carved out of stone.

Earlier the Chief Minister said that he would consider the suggestion of having a picture of Netaji hung along with other national leaders in every room of the Government Building. The Speaker also announced that an important portrait painter has been asked for a life size picture of Subhas Chandra to be installed in the Assembly House.

A few days back in the State Council a spokesman also announced that the Government would soon meet representatives of citizens for the selection of a suitable site.

DR. ROY ADDRESSES THE NEW DECREE HOLDERS

Sitting from left: the Mayor, Dr. T. Sen, Rector of the University, Dr. K. S. Krishnan, who delivered the Convocation Address and others.

JADAVPUR UNIVERSITY'S CONVOCATION

CONFERENCES and Convocations during this part of the year have become seasonal features in Calcutta. The two-day long Convocation of the new University of West Bengal was marked with special features this year. The Annual Convocation was held on the 24th December last.

Held under a big erected pandal on the lawns of the University, among the 312 students on whom different degrees were conferred, there were the first group of students passing the University's post-graduate examinations in Science and Arts. The degrees were given away by the State Chief Minister, Dr. B. C. Roy, the University's President. Out of the recipients, 223 were Bachelors in Engineering. Twenty-four medals were also awarded. One of them was given by the Alumni Association, National Council of Education, Bengal, and was awarded to the best all-round student among the year's graduates. The medal commemorated the election of an alumnus, Dr. T. Sen, as Calcutta's Mayor in 1957.

In making his Convocation Address, Dr. K. S. Krishnan described technology as a double blessedness and said it had a great future, particularly in the service of the country. Technology enabled a man not only to know but also to do something. Even as a means of liberal education it was very useful, he added.

The National Professor of India continued that this institution had grown into a University with a faculty of pure science which ultimately sustained technology. There was also a faculty of arts for their culture value and humanizing influence which the technologists needed, he emphasized.

NO ANTAGONISM BETWEEN PURE & APPLIED SCIENCES

Dr. Krishnan, the Director of the National Physical Laboratory, went on further to stress that there was actually no antagonism between pure and applied sciences. There was hardly any branch of

science which did not ultimately find its application. Not to speak of the other branches of science even Pure Mathematics had a lot of applied use. If Mathematics, which was the purest of sciences had so much application and influence then they could easily imagine how pronounced were the applied aspect of other sciences.

Both the State Chief Minister, Dr. B. C. Roy, the University's President, and Dr. Krishnan explained the role of Technology and its relation to the Humanities. In an attempt to check too great an emphasis on Technology and the trend towards deification of the "social" sciences, the University has started a course on comparative literature. They also recalled the ideals of the National Council of Education which had sponsored the engineering college.

The President of the University informed the distinguished gathering about its future plans. It emphasized the importance of the new courses in comparative literature and international affairs and other subjects and referred to plans for post-graduate studies in physics and chemistry.

SPECIAL CONVOCATION

DOCTORATE DECREES (HONORIS CAUSA) were conferred on five distinguished persons of Arts, Science and Technology at the Special Convocation of the University on the 25th December last in the same pandal through an impressive ceremony. The State Governor, Shrimati Padmaja Naidu, was present on the dais which was illumined by the recipients and other distinguished guests and University teachers.

The recipients were Professor G. C. Cheshire, authority on international law (Literature); Dr. Rajshekher Bose, eminent Bengali writer (Literature); Dr. M. Visweswaraya (Engineering); Prof. K. S. Krishnan, National Professor and Director of

(Continued on page 240)

All-India Public Health Association Third Annual Conference

THE THREE-DAY Conference of the Indian Public Health Association was inaugurated on the 27th December last, in the premises of the All-India Institute of Hygiene and Public Health, Chittaranjan Avenue, by the State Chief Minister, Dr. B. C. Roy. He said that those responsible for health education in India should be aware of the way people lived in villages. He urged them to carry 'the message of health' to the villagers. It was necessary that social workers should not only know their health problems but also their minds, the State Chief Minister emphasized.

It was true that the State did not have enough funds to tackle public health problems adequately, continuing his speech Dr. Roy said, moreover people do not know how to use the medical benefits already offered. Even when arrangements had been made for vaccination during Small-pox epidemics in Calcutta, it had been found that the people failed to take advantage of them. What was needed was not money but the means to carry the message of health to the people, added Dr. Roy.

Dr. B. C. Das Gupta, the Association's President, criticized the shortfalls in expenditure on health under the First Plan. The problem of non-availability of trained personnel could be solved if language or customs were not considered insuperable barriers to employment and service, he added.

In his address Dr. Das Gupta said that though there had been a gradual decline in the general death rate, Malaria had been controlled though not completely eradicated. The effect of adverse condition of insufficient food production, lack of its availability and high cost would make the children of these days prey to innumerable diseases and death in future, he thought.

Continuing the President said that though scientific investigation for better and effective control of Tuberculosis was being made scant attention had been paid to the task of after-care and rehabilitation of T.B. patients. The control of Leprosy, Cholera and Small-pox, he suggested, should be taken up by the Union Government on a national scale.

Referring to virus diseases like Poliomyelitis and Encephalitis, Dr. Das Gupta said that each State Directorate should have a properly trained Epidemiologist. There should be a central laboratory in each State, provided with a virus unit.

Dr. Das Gupta said that a mid-day meal in schools was necessary for children's health. More attention should be given to the mentally disordered. A medical section must be attached to each factory for the care of industrial workers.

Welcoming the guests the Mayor, Dr. Triguna Sen, said that while the health of rural population in the country was of the utmost importance the sanitation and the health condition of the city population must be maintained at all cost. Pointing to the impact of the post-war days on this city, he said, that it was almost difficult for the Corporation to cope with the ever increasing necessities of city life.

There was, however, some brighter side too. In spite of all these defects and drawbacks in sanitation most of the diseases are showing a slow but steady downward trend. Some diseases like

Diphtheria and perhaps Tuberculosis, Cancer and heart diseases are still on the rise, the Mayor stressed.

The Mayor, also referred to the city's sanitation and water supply problems which had been largely aggravated by the influx of refugees and people from neighbouring States.

The refugee problem, the Chairman of the Reception Committee added, needed better handling by the Union Government to relieve its unusual pressure on the city's sanitary arrangements. Investigations revealed that most of the epidemics in the city occurred because of prevalence of slums in which one-third of the citizens lived. He also saw that good prospects, of tackling the milk supply problems and removal of cattle sheds (*khatahs*) from the city are due to the joint efforts of the Government and the Corporation.

'We are greatly worried about the health of the school children and college students of this city. The latest report reveals that as high as 60 per cent of girls and boys are under-nourished and are suffering from one or the other illness and physical defects in the eyes, teeth and throat. With such low standard of health in our growing generation it is no wonder that the resistance against infectious diseases is poor with consequent increase in sickness and premature deaths. Adulteration of food and drugs are eating into the vitals of our population. There is no room for complacency in our fight against ill health,' the Mayor added.

The problem of smoke nuisance, another menace of greater public health importance, was mentioned by Dr. Sen. He hoped that with coke oven set up at Durgapur a large part of the problem might be solved.

Before conclusion, the Chairman urged the Government to take up in all seriousness the question of public health in the city and to devise ways and means 'to turn the tide from one of deterioration to that of improvement.

The Mayor also pleaded for social and educational approach in the mitigation of all these evils.

Col. Jaswant Singh, Director General of Indian Health, was elected the President of the Association in its next term.

Attended by delegates and members from all over India, the Conference held a symposium on 'Training of Auxiliary Health Personnel' on the second day, wherein Lt. Col. C. K. Lakshmanan, a former Director General of Health, India, presided.

Another symposium on 'Immunization Programme' was also arranged on the same afternoon. Subjects included in it were mainly epidemic and water-borne diseases, Cholera and Typhoid, and Small-pox. Major I. N. Sarker, Deputy Health Officer of the Corporation was one of the speakers.

Dr. C. Chandrasekhar, the expert on population problems, presided on the third day's symposium on 'Collection of Vital Statistics in the Rural and Urban Areas.'

The Conference concluded with the visits to different health centres and units by the delegates.

Dr. A. Mukherji, Health Officer, Calcutta Corporation, General Secretary of the Reception Committee was attentive to the guests.

CITY NEWS PARADE

OBITUARY: Death of Shri Harakinar Bhattacharyya, occurred recently, in the Sukhlal Karnani Hospital, formerly P. G. Hospital. He was one of the News-Editors of the "Dainik Basumati". He was 45. The late Shri Bhattacharyya had been suffering from heart trouble for some time past.

Shri P. N. Roy, a well-known engineer and film producer, died in his city residence on the 2nd January last. He was 68.

A student of Santiniketan, the late Shri Roy took his degrees from Calcutta and Glasgow Universities. He was the first Bengali Officer in the R.A.F. during the World War I.

His services were requisitioned by Glasgow Corporation after the war. He also worked as an engineer of Calcutta Corporation for some time.

Later, Shri Roy joined the film industry and became associated with Bombay Talkies and New Theatres of Calcutta. He was the Founder-proprietor of Indraloke Studios. He produced many Bengali films, the latest being "Jogajog". He contributed much to the development of Bengal's film industry.

CALCUTTA HAILED THE NEW YEAR with special prayers and rejoicings while the old year 1958 was seen out with usual gaiety. The birth of 1959 was announced with the blowing of ships' sirens and whistles and the ringing of church bells. At midnight in many homes and hotels celebrators linked arms and sang the old favourite Auld Lang Syne.

The festivities were not only restricted among persons of Christianity faith but it also spread over all the communities alike who all in a holiday mood rounded over the city. The Sibpore Botanical Garden opposite the city on river recorded the highest crowds. Many thousands visited the Zoo while others went to see the Belur Temple and Dakshineswar and other outskirts of the city.

Earlier, Calcutta was agog with merriments when **CHRISTMAS**, the greatest festival was celebrated in cordial atmosphere on the 25th December last. The celebrations started from midnight on the previous day, when church bells in different parts of the city rang merrily. Christmas carols were sung by groups of the Christian boys.

A similar festive mood as in New Year's Day was witnessed in the city.

A HAND LOOM HOUSE, organized by the All-India Handloom Fabrics Marketing Co-operative Society, was opened in the Lindsay Street, Central Calcutta, on Saturday last by the Union Minister, Shri Nityananda Kanungo. The house is the third of its kind, similar establishments having been opened in Bombay and Madras.

One handicap faced by Indian weavers, Shri Kanungo said, was that they were tied to patterns evolved long ago. The craft had fallen on bad days because of the absence of a link between producers and consumers.

Shri D. S. Joshi, the Union Government's Textile Commissioner, said that the Government's textile policy was determined not only by the country's developmental needs; the human element and the employment aspect were also considered. Demand for cloth, he said, would increase with economic development. The handloom sector would have an important role in meeting the demand.

Welcoming the guests, Shri M. Sengupta, President of the Handloom Fabrics Marketing Co-operative Society, said that the Society's success in Bombay and Madras had

encouraged it to open a handloom house in Delhi. The Calcutta house would soon be air-conditioned.

WEST BENGAL LEGISLATIVE ASSEMBLY

continuing its session for a few days longer, discussed mainly the Anti-Profiteering Bill and another a special motion that Beruberi Union, in Jalpaiguri, West Bengal, should remain part of the territory of the Indian Union. The days' agenda also included a few non-official motions and Bills.

Resuming its discussion on the 27th December last on the first said Bill, the House covered kerosine oil, the eleventh article within the fold of anti-profiteering due to its reported scarcity in the market. It was moved by an opposition member. The Government also accepted another opposition amendment to a clause on submission of returns and maintenance of stocks of any of the 11 articles by dealers. The amendment empowered the Government to grant exemption to certain dealers from the operation of this clause.

After considering the last eight clauses of the Bill the House took up its final reading. The third reading was also taken up on that day.

The five-day debate on the Anti-Profiteering Bill which had roused a great deal of controversy both inside and outside the House wound up on the 29th December last. The Bill was passed without dissent. It incorporated many of the amendments earlier accepted.

The Food Minister, Shri Prafulla Chandra Sen, announced in the Assembly, that the prices fixed for paddy and rice would remain in force till the next aman crop was harvested. He hoped that with co-operation the Government would be able to supply rice at the prices it had fixed.

Shri Sen further assured the House that there would be no difficulty with regard to rice supply. But there might be some inconvenience over the supply of other essential commodities, as the State had to depend largely on imports from other States, and in no other States was legislation of this nature in force.

The special motion on Beruberi which stood in the names of Dr. S. P. Chatterjee, Shri Jyoti Basu, Shri Sunil Das, Shri Hemanta Basu, Shri Jatin Chakravarty, Shri Subodh Banerjee, and Shrimati Labanya Prova Ghosh, was passed unanimously on the 20th December last. The signatories represented different political parties including the ruling one and three of them represented this city.

The resolution opposed the proposed transfer of Beruberi Union to East Pakistan under the recent Nehru-Noon Agreement, mainly for three reasons. First the Union had been in the lawful control and possession of West Bengal since Partition. Secondly, any readjustment of boundary resulting in the transfer of any part of the Union would adversely affect the economic life and security of the people of the area; and, lastly, the West Bengal Government had spent large sums of money for its development. Dr. Chatterjee the first named in the list of movers, moved the resolution.

Of the eight opposition members who participated in the debate, the most effective speaker was the Ex-Mayor, Shri Sudhir Chandra Rai Chaudhuri. Quoting different articles from the Constitution, he sought to prove that it had not provided for the cession of any Indian territory. In the event of boundary dispute of an international nature, they had to be referred to an arbitrator like the Bagge Tribunal. Provision for transfer of territory in the Constitution only related to adjustment of boundaries between two States in the Indian Union.

Speaking on the resolution, the State Chief Minister, Dr. B. G. Roy made an "emphatic protest" against the proposed transfer of Beruberi. "Why I agreed to the resolution was

that I thought that it would be better for the Government of India to know all sections of opinion of the House," the Chief Minister said.

The Prime Minister, said Dr. Roy, had agreed to divide equally the line of Berubari Union which has an area of 8.75 sq. miles. He thought that the division would more or less start so that the neighbouring enclave of Cooch Behar might be tagged on to the Indian Union.

It may be recalled here that the population of Berubari was 12,000 of which only 100 were Muslims. The refugees numbered 8,000. If, half of Berubari was transferred to East Pakistan, about 6,000 Hindus, including 4,000 displaced persons would be in Pakistan.

The House passed the Durgapur (Development and Control Building operation) Bill after a short debate on the 30th last. The Bill aimed at planned development of and control of building operations in that area.

Under the Bill, a Development Authority with powers to control unplanned construction and to give directions for their stoppage, alteration or demolition, would be constituted. The authority or any other person or officer would be empowered to lay, maintain, alter, remove or repair any pipes, pipe-lines, supply-lines, posts or other appliances for the maintenance of supplies and services essential to the people.

Shri Benoy Chowdhury, during discussion of the Bill, regretted that only 30 p.c. of the people employed in the industries there were "sons of the soil." He asked the Government to open employment opportunities for the people living in that area.

During discussion on non-official motions on the 26th December last, there was a visible agitation in the House when the Opposition in a body walked out of the floor failing in its attempt to hold a discussion on a non-official resolution on the Government's Service Conduct Rules. The motion stood in the name of Dr. Ronen Sen, a representative of the city, and several members debated for a pretty long time on the propriety of the resolution.

On that day also, the Assembly unanimously adopted a non-official resolution demanding the inclusion of the Farakka Barrage project in the 3rd Five-Year Plan if its inclusion was not possible in the Second Plan and requesting the Government of India to take preliminary steps for the purpose.

The Assembly was adjourned *sine die* on Friday, the 2nd January last, after it had discussed some non-controversial Government measures and the Dandakaranya Refugee Rehabilitation Scheme wherein a battle of statistics between the Government side members and those of the Opposition parties continued for some time. The question whether West Bengal had reached at a saturation point as regards available lands for refugee rehabilitation or not. Opening the discussion Shri Jyoti Basu said that the figure as to available waste lands in the State, supplied by the Government from time to time, were confusing.

AN EXHIBITION OF 45 PAINTINGS AND GRAPHIC WORKS by Reba and Somanath displayed at Artistry House, Park Street, was of considerable interest. Not only it showed that their technique had become more mature and field of vision increasingly wide, but both the form and content of the exhibits indicated a marked departure from their earlier manner. Coming under the influence of several modern masters, both of them had absorbed them and turned them to new purposes. The exhibition's interest centred on their woodcuts, linocuts and sketches, and in the paintings in oil, watercolour and pastel, particularly figure and face studies. Drama seemed sometimes to get the better of balance.

They were brilliant students of the Art College, and Somanath is now in charge of the Graphic Section of Delhi Art College.

—JADAVPUR UNIVERSITY'S CONVOCATION

(Continued from Page 237)

the National Physical Laboratory, and Prof. S. N. Bose, National Professor and former Vice-Chancellor of Viswabharati University. The two National Professors were present at the ceremony.

The galaxy was presented before the President by the Rector, Dr. T. Sen, when the Degrees were conferred. This was the first time when the University provided such a function since its birth.

Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, who addressed the Special Convocation, referred to the "ferment of the spirit of unrest which exists all round us and which has resulted from a clash of ideals," and said it was unfortunate that while scientists themselves were selfless, humble and co-operative, the wider public, who had claims to and made use of scientific achievements, regarded these as their "road power." The incidence of knowledge as power might naturally become a social danger.

EFFECTS OF MODERN SCIENCE

Speaking on the effects of modern science the distinguished guest remarked that they were by-products of the control of natural forces, particularly of industrialization leading to numerous evils which included class-disputes, waste of natural resources and man-power, the evils of ill-planned city life. "If best use is to be made of man's mastery over nature, he had to master himself, not in the way that the physiologist may dream, but in human training of the spirit in man", he said adding that in order to achieve this man must know the immortal human creations in literature and art and he must be conversant with the adventures of mankind revealed in the pages of history.

Contending that Universities had a special responsibility in this respect Prof. Sidhanta said that there must be deliberate planning in all universities so that they might be something more than a mere collection of Faculties and Departments. The aspect of a University must be more practical than it had been before and its teaching more topical. The pretence of neutrality must be abandoned and a thorough rationalism demanded.

A NEW OUTLOOK

Prof. Bose said that if scientists' dreams were realized, poverty would disappear from the world.

Dr. Krishnan emphasized that over the ages, man's mastery over natural forces had grown, but unfortunately his moral stature had not kept pace with that development. Man's moral stature must be enlarged as this alone could bring harmony between science and humanities.

Declaring the Convocation closed Dr. Roy said that a man whether a humanist or a scientist—to be successful in his life—must carry on an unceasing search for truth. He would not call mere collection of facts truth. To him truth was a particular way of life and it was universal being nobody's property. A scientist would be true to his profession if he had a background of literature. So in case of a good literature he should have a scientific background. Hence, in this University they had made an attempt to prove this mathematics to be a connecting link between science and literature, with a view to their proper fusion.

CORPORATION NOTICES

To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted or each, up to 12 Noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

1. Construction of Labour Quarter at Showanipar Metal Yard. (Earnest deposit Rs. 1,313/-). (Estimate is. 79,500/-).

Notice of Bye-Elections

To elect Councillors for Constituencies Nos. 70 and 75 of the Corporation of Calcutta.

Whereas vacancies have occurred in the seats of the Councillors of Constituencies Nos. 70 and 75 of the Corporation of Calcutta by reason respectively of the resignation of Shri Dharendra Nath Ghosh and the death of Shri Usha Nath Sen who were elected as Councillors of the respective constituencies at the General election held on the 29th March, 1957, the undersigned doth hereby, in exercise of the power vested in him under Section 68(1) of the Calcutta Municipal Act, 1951, (West Bengal Act XXXIII of 1951), and the rules framed thereunder, call upon each of the said Constituencies Nos. 70 and 75 to elect a person for the purpose of filling the vacancies as aforesaid at bye-elections to be held on Sunday, the 24th February, 1959, at such places as may be notified hereafter.

The undersigned doth hereby appoint Friday, the 16th January, 1959, between the hours of 12 o'clock noon and 5 o'clock in the afternoon as the date for the nomination of candidates. Intending candidates should deliver their nomination papers to Shri Bishwanath Sen, Retired District and Sessions Judge, who has been appointed to be the Returning Officer at the Election Department, Central Municipal Office, 5, Surendra Nath Banerjee Road, Calcutta. Nomination papers filed after 5 P.M. of the said date (16th January, 1959) shall be rejected.

The undersigned doth hereby further appoint Monday, the 19th January, 1959, at 12 noon as the date for the scrutiny of nominations which will be held in the Committee Room No. 1 of the Central Municipal Office.

Forms of the nomination paper can be obtained from the Keeper of Records, Central Municipal Office, between the hours of 11 A.M. and 3 P.M. on all office days from the 7th January, 1959, to the 16th January, 1959, on payment of annas 2 per copy.

In the event of the elections being adjourned the polls will take place on the 24th February, 1959, between the hours of 8 A.M. and 5 P.M. with an interval of not less than 12 o'clock noon and 1 P.M.

P. C. MAJUMDAR,
Chief Executive Officer.

Central Municipal Office:
The 7th January, 1959.

SPECIAL ORGAN OF THE CORPORATION OF CALCUTTA

Saturday, 17th January, 1959

Published Every Saturday

CIVIC RECEPTION TO MIHIR SEN

CALCUTTA CORPORATION accorded a Civic Reception to the twenty-eight year old swimmer Shri Mihir Sen on Wednesday, the 7th January last. The function was held in the Council Chamber, Central Municipal Office Buildings, S. N. Banerjee Road. It was attended by almost all the Aldermen and Councillors, and a large number of sports-loving citizens including a few well-known swimmers. Shrimati Sen was also present.

Shri Mihir Sen is the first Asian to cross the English Channel from the English side to the French coast, a more difficult route in the feat of physical endurance. Swimming of the Channel has been considered one of the toughest sports in the world. Only ten persons have so far been successful in this attempt. Captain Webb was the first to conquer the Channel from England to France in 1875.

Shri Sen who had been in England to qualify himself as a Barrister, took the solemn resolve to participate in that 'Marathon Swimming Sport'. He was then not a professional swimmer, nor even an aspirant to build his career in the sports field. But as a 'pirate' he tried to swim across the English Channel, the highest distinction a swimmer can achieve in the watery world. Inspired by that burning zeal to be enlisted as one of the pioneers in the world who conquered nature, Shri Sen undertook that outstandingly difficult and hazardous task which he heard and read with mounting awe and respect. Thus began his struggle for conquering the most tough barrier of the nature in 1953 with very little financial resources. But even in 1954 Shri Sen admitted that his skill was fully inadequate for the purpose. His physical structure was quite feeble. Surmounting these odds and ends Shri Sen approached many of the important personalities in India for suitable help and fund, which were, however, gladly extertained by them. Help from the Indian Prime Minister, Shri Jawharlal Nehru, Janab Humayun Kabir, Union Minister, Shri P. C. Sen, West Bengal Food Minister and others were gratefully acknowledged by Shri Sen in this regard. And he made several attempts to cross the channel. In the meantime many of the people from the Asiatic countries were successful in their attempts to do so. The first one in 1953. But all of them took a different route. They swam from the French coast to Dover. And the other day, Shri Brojen Das a Pakistani citizen of Dacca, won laurels for his success in a similar attempt. It is interesting to note Shri Das had his earlier training in that field of sports in this city. He earned championship in many of the swimming competition both in India and in Pakistan.

But Shri Sen took a different route, the hard way from England to France. Since his decision he had made three vain attempts in earlier years. During this year his was another two attempts. In the latest one during September last, he could not complete the swimming as he was simply washed away from the French coast, down towards the Atlantic. Out of eighteen hours and fifteen minutes he swam on that occasion nearly six were spent within a range of about two miles from the shore.

At last, on the 27th September last, Shri Sen landed on the French coast after swimming the English Channel for fourteen hours and forty-five minutes. He entered into the beach at Shakespeare Cliff, near Dover, when the sun was up in the sky and reached at dawn. He was lucky with the weather. At about mid-night he was three miles away from the coast, when he could see the white cliff of the Cap Blanc Nez. And soon the sight of the white sandy beach hypnotised him. The story of his progress was most thrilling as described by Shri Sen himself. The final triumph was acclaimed by all.

The address which was presented to Shri Sen at the Reception praised the determination and courage which had helped him to swim across the Channel. It was read by the Deputy Mayor, Shri Keshab Chandra Basu. The Address was presented within a silver casket.

Appreciating Shri Sen's perseverance and inexhaustible source of energy, the Address stated the glory that he had achieved for his success. He fought like a hero against heavy odds and ultimately his efforts were crowned with success. Every Indian was proud of it.

Replying to the Address of felicitation Shri Sen said that by honouring him the citizens of Calcutta had honoured the people of India as a whole and the Bengalee youth in particular.

The Council Chamber and the entrance to the Office Buildings were tastefully decorated with flowers and lights. The visitors' gallery was packed to capacity.

AN OLYMPIC STANDARD SWIMMING POOL IN THIS CITY

The English Channel swimmer emphasized on that occasion the need for an Olympic Standard Swimming Pool in this city. He referred to his talks with the State Chief Minister Dr. B. C. Roy and the Mayor Dr. Triguna Sen on the subject. He hoped that his proposal to have a swimming pool in a large park in the city, which was being examined by the Corporation, would be accepted and the city would have that one somewhere at a populous corner, mainly in its central part.

Shri Sen said that in 1953 when he was a student in London he observed that the Europeans were the foremost in all the heroic activities. But India had a tradition of her own. Why the Indians should lag behind? Inspired by this Shri Sen said he made up his mind to cross the Channel.

SWIMMING CLUB'S POLICY

Sharply criticizing the policy of colour prejudice 'pursued' by the management of the Calcutta Swimming Club even after the country had achieved her independence, Shri Sen remarked that in Independent India it was intolerable that the Englishmen should have discrimination against the citizens on grounds of caste, religion and race. This policy of the Swimming Club, he said, was against the Constitution of India. He appealed to the citizens and the Press in West Bengal to launch a strong movement so that the management of the Club was compelled to change their policy. He hoped that a change of policy was sure to come and the Club would be opened for all within the target date, the next Republic Day.

Recalling his personal experiences Shri Sen said that the Club did not allow him to swim in their pool. This was an insult which he could not forget. The time has come, he said, when a strong movement should be launched against the colour prejudice. But personally he would prefer the Lake Swimming Club rather approaching them again.

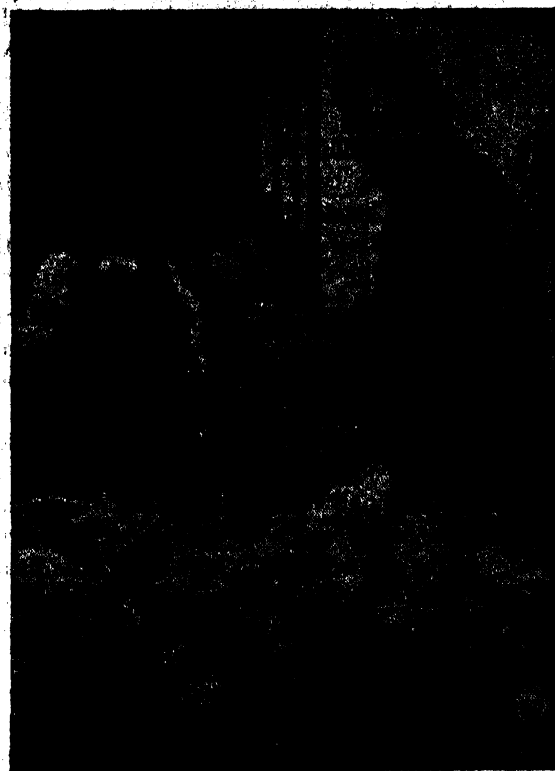

Continuing his speech the young Barrister said that a number of British residents in this city whom he had met disagreed with the policy and refrained from enrolling themselves as members in protest.

'COLOUR DISCRIMINATION' To BE DISCONTINUED

In this connection Shri Sen referred to the Prime Minister's reply to his letter in which he had drawn Shri Nehru's attention to the Club's policy. The Prime Minister had stated that nationals of a foreign country residing in India could have an organization exclusively for themselves but if a club was based on colour discrimination it would not be tolerated.

The Club, Shri Sen maintained, was not meant for Britons only and it practised discrimination. A resident of Russia with a Mongol appearance or an American Negro or a "copper coloured" Mexican would not be allowed to use the club's swimming pool, he also added.

In the Address it was stated that by crossing English Channel Shri Sen, the first Indian, to do it, had enhanced the prestige of India in the eyes of the world and his achievement had installed inspiration to his countrymen. His success was very significant to the people of this country. He was the symbol of India's youth and his success was

THE DEPUTY MAYOR GARLANDS SHRI SEN

PHOTO: SANTOSH K. MUKHERJEE.

a glorious event to the Indians, particularly to the youths of Bengal.

The Address also referred to the India's past when India's history was illumined by the achievements of Indians who set sail across the mighty oceans. It recalled to the age of even the pre-historic days when Indians had posted the Indian banner in the South-East Asian Islands.

It concluded with a prayer for Shri Sen's long life and future achievements.

KALIGHAT TABUN SANGHA

The Sangha a cultural organization with an object to impart physical instruction to the youth of the southern part of the city, held its Sixty-Second Annual festival during the last week-end. On Saturday, the 10th January, the Sangha organized a literary discourse wherein Dr. Saikumar Banerjee presided. Among the participants were Shri Narayan Ganguli, Shri Gopal Halder, M.L.C., Shri Pramatha Nath Bhatt and other well-known literateurs.

The Mayor, Dr. Triguna Sen, presided on the second day's discussion devoted to "Games and Sports". Speakers included Shri Gopin Pal, Shri Kirtick Bose, and other experts on different fields. Each day's discussion ended with cultural shows including performance of a drama on the last day.

THE CORPORATION AT WORK

(A GIST OF PROCEEDINGS OF THE THIRTY-FIRST ADJOURNED MEETING OF THE CORPORATION
HELD ON THE 9TH JANUARY, 1958)

CONDOLENCES

At the outset, the House condoled the deaths of a number of persons died recently and adjourned its sitting for a few minutes as a mark of respect to their memory. A few of the deaths occurred within the city. All these were referred to in the House by the Mayor, Dr. Triguna Sen.

Mention was made first to the death of Shri Kamini Kumar Dutta, who played an important part in the country's struggle for freedom and a builder of Hindu-Muslim unity. The death took place at his residence in Comilla, East Pakistan, on the 4th January last, due to an attack of Coronary Thrombosis. Leader of the Comilla Bar and Chairman of the Municipality, the late Shri Dutta was 82.

Eloquent tributes were paid to his memory by the Mayor. The late Shri Dutta contributed much to the parliamentary life of the East Pakistan and before that to the undivided Bengal. He was the Health Minister in Chowdhury Mohammad Ali's Cabinet. He was also in the Feroze Khan Noon Ministry as Law Minister being a leading member of the Pakistan Republican Party.

In the Bengal Legislative Council of undivided Bengal he was elected Chief Congress Whip of both the Houses till their dissolutions. The late Shri Dutta was respected and loved by all sections of people. He played a prominent part in maintaining good relationship between the two communities even during the worst days of communal frenzy in Noakhali 1947 and worked in close association with Mahatma Gandhi.

After obtaining his Bachelor's Degree in Law from Calcutta University, the late Shri Dutta began his career as a *Munsif*. But he resigned to join the Bar where he made his mark. He also joined the Swadeshi Movement of 1905 and the Non-co-operation Movement of 1922.

It may be recalled here that Shri Ajit Kumar Dutta, an *Ex-Alderman*, is one of the sons of the late Shri Dutta. Shri Ajit Dutta is a leading member of the Calcutta Bar.

The House also mourned the death of Janab Amla-ul-Mulk Mirza Ismail, a former Dewan of the old Mysore State. He died after a heart attack on the 5th January last in Bangalore at the age of 75.

Born in 1887, the late Janab Mirza Ismail had a chequered career and played an important role in the country's political arena. After completing his education in Bangalore, the late Janab Mirza held many responsible posts throughout his life.

He also delivered Convocation Addresses in the Madras, Calcutta, Patna, Nagpur, Agra and other Universities. He was the *Ex-Resident Representative* of the United Nations Organisation in

Indonesia. Once he piloted the States of Hyderabad, Mysore and Jaipur as their Prime Minister.

DETERIORATED FOOD POSITION

Concern was expressed at the meeting over the scarcity of rice and kerosene oil at controlled rates in the city. Councillor Anil Maitra, who raised the point, suggested that Government should force the big wholesale dealers and stockists to sell rice to retail shops at controlled prices so that public might be ensured of their regular supply. Initiating the discussion through a motion Councillor Maitra further suggested that the Government should force the big companies to supply kerosene oil to all retail dealers at the controlled rates so that there might be a regular supply at the rates fixed by them.

The mover felt that if strong measures were taken against the stockists and if the Government itself procured sufficient stocks of rice and maintained a constant and adequate supply to the fair price shops, the present crisis could have been avoided.

Councillor Maitra also suggested that a deputation consisting of the Mayor and two party-leaders in the Corporation should meet the State Government to discuss the measures to be taken in this regard.

The motion was accepted unanimously by the House.

The food supply position which went out of control for the last few days since the introduction of the Anti-Profiteering Bill on the New Year's Day, according to some quarters, has much been improved in the meantime. The stock which dwindled to a mere 550 Mds. a day on the earlier part of January has again showed signs of increase at a fairly rapid rate. Imports went up to 3,850 Mds. on the 9th January last. This, according to the Food Minister, Shri P. C. Sen, was expected to meet people's requirements.

The Government believed then that the city's food position would further improve soon with the increase of the weekly ration quota per head to a total of 2½ seers of cereals from the current week. The quantity includes 1½ seers of rice.

DISCREPANCY IN CONVERSION TABLE

While discussing matters of urgent public importance, Councillor Samar Kumar Rudra accused the Government's wrong policy of charging 15 nP. for a telephone call at the public booths. He argued that the Government violated the conversion table by charging 15 nP. for As. 2. In course of converting old coins into the decimal coinage the Government of India has made some additional charges in the way of revising rates as the old One-anna Revenue stamp is being charged at Ten Nai Pais and so on. Councillor Rudra also said.

Personalia

U.S. AMBASSADOR IN CITY

MR. ELLSWORTH BUNKER, the United States Ambassador in India, reached the city on Monday, the 12th January on a short visit. He was received at the Airport by Mr. Gordon Mattison, the U.S. Consul-General in Calcutta, and Mr. C. R. Chatterjee, Director of the local U.S.I.S.

Mr. Bunker called on the State Governor, Shrimati Padmaja Naidu, and met Dr. B. C. Roy later on next day. His programme in Calcutta included a Press Conference, addressing the Rotary Club and attendance to a Reception by the Consul-General on the 13th January. Mr. Bunker also visited a jute mill on Wednesday and Calcutta Port on Thursday. In that night Mrs. Bunker opened an exhibition of photographs on the uses of atomic energy in the USIS Show Windows, Chowringhee Road.

Mr. Bunker was very glad to be back in this city after nearly two years and he praised the city on the progress that had taken place. He left for Assam on the week-end.

At the Press Conference, the U.S. Ambassador said that India and America were the two largest democracies in the world. They had differences but many more similarities than differences. Both were trying to make progress through democratic process under democratic institutions. The future of democracy in the world depended to a great degree on the working together of the two Governments and the two peoples.

Mr. Bunker endorsed the view expressed by his Indian counterpart in the U.S.A. recently in New York that relations between the United States and India had never been more cordial. This feeling of friendship, said Mr. Bunker, should be not only maintained but strengthened.

The Ambassador also said in that Conference that America was taking great interest in the historical experiments made by India to develop her economy and social institutions through democratic process. America had been pleased to take part in that development, working as partner with the Indian Government.

At Calcutta Rotary Club's luncheon meeting in Prince's Grand Hotel, the Ambassador referred to the "threats to world peace in 1958, besides nuclear weapons". And among them armed aggression in the Formosa Straits and the threat to peace in Middle East were worth mentioning.

Prefacing his speech with a description of 1958 as the year of earth tremors, he told of numerous changes of Governments, some violent, some peaceful. The accession of General de Gaulle to the French Presidency and China's semi-military communes were also referred to by him.

When the U.S. Ambassador met him at Wellesley Building, Dr. B. C. Roy, Chief Minister, West Bengal, showed him the map of the Salt Lake area and its reclamation and development projects. Taking a special interest in it Mr. Bunker accompanied by Dr. Roy and senior officials of both the State Government and the Corporation visited the area on Thursday the 15th January. The party travelled in a steam launch from Bagjola Pumping Station along the Krishnapur Canal.

DEATHS AND DISEASES IN THE CITY

This year the city appears to be comparatively free from epidemic diseases. During the first two weeks of this year namely the 3rd and the 10th January, attacks and deaths from cholera totalled five and one against seven and four respectively in the corresponding weeks last year. There were altogether 14 attacks and three deaths from the disease during the last three weeks of December namely the 13th, the 20th and the 27th December. Attacks and deaths from the disease during a similar period totalled 19 and six respectively last year.

Small-pox attacks and deaths numbered three each during the first two weeks of January while there were four attacks and two deaths from the same during the last three weeks of December. During the corresponding period of five weeks last year attacks and deaths from small-pox totalled 35 and 34 respectively. It may also be noted that during one of the weeks of December the city was quite free from any small-pox case either attack or death.

Malaria caused only three deaths and Typhoid six during the said period in January. Four persons died of Typhoid during the last three weeks of December. Deaths from Malaria and Typhoid during a similar period last year numbered five and twenty-three respectively.

Tuberculosis tolled the highest number during these said five weeks totalling 199 against 186 during a corresponding period last year.

Deaths from all causes totalled 1,396 during the first two weeks of this year against 1,245 during a similar period last year. 1,876 persons died of all diseases during the last three weeks of December against 1,867 deaths during a corresponding period last year.

Councillor Dhiren Ghosh Resigns	261		

MIDDLE

COUNCILLOR DHIREN GHOSH RESIGNS

It was with heavy heart the Corporation at its weekly meeting, about a month hence, accepted the resignation tendered by Shri Dharendra Nath Ghosh, the oldest Councillor by age in the House and a representative of Ward No. 70. As the seniormost member he was held in high esteem and respect by all. Elected in 1957 he became the Chairman of the Standing Accounts Committee. Before that he adorned the Chair of different other Committees as well as headed many of the Special Committees. He entered the Corporation for the first time in 1927.

Since he became an elected Councillor from Bhowanipur area he acquainted himself with the intimate knowledge of the Corporation affairs. Particularly he was fully conversant with the Building and Assessment Rules of the Corporation. As an important member of the Calcutta High Court Bar his opinions and suggestions were not only valued but also were accepted without any hesitation. His services to the rate-payers whom he had pledged to serve were immense. And his retirement would be missed both by the people of the locality as well as the members.

Shri Ghosh was suffering from protracted illness and he was granted leave since October 1957. During September, 1958, he was granted leave of absence from attending the Corporation for further six months, the last term he prayed for.

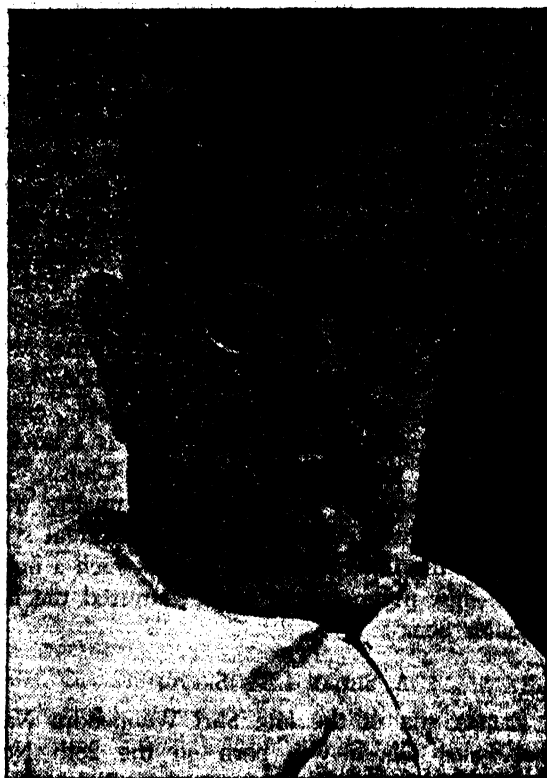

Sentiments were expressed in the House on that occasion praying quick recovery and long life of Shri Ghosh. His services to the Corporation and as a guide to the House were also highly appreciated by several members.

In a letter written to Shri Ghosh the Corporation expressed its deep sense of regret at his resignation tendered under circumstances beyond his control. It also placed on record its heartfelt appreciation of the services rendered by him to the Corporation.

The letter written by Shri Ghosh was presented before the House by the President. It reads as follows :—

Unfortunately I fell ill. It has been a rather protracted illness, which has prevented my attending Corporation meetings since the 29th October, 1957. My colleagues in the Corporation—Aldermen and Councillors, were very gracious towards me in granting me leave of absence due to illness first upto 30th September, 1958, and then again till the 31st December, 1958. I hereby express my grateful thanks to them. But it seems that it is God's will that I must now sever my long association with the Corporation of Calcutta.

I am sure that in the present Corporation I had been, beyond doubt, seniormost Councillor, having been elected first to the Corporation on the 27th March, 1927 and having been since that date continuously an elected Councillor of Corporation of Calcutta—with the exception of the four years' interval from 1948 to 1952 due to supersession of the Corporation. The Corporation of Calcutta and its activities and interests

SHRI DHIREN GHOSH

have always been very near and dear to my heart during these 30 years of my association with this noble institution. I have acted either as Chairman or Deputy Chairman of almost every Standing Committee formed under the Calcutta Municipal Act, 1923 and 1951. I have had the honour of serving under such eminent Mayors of Calcutta as Netaji Subhas Chandra Bose, Deshapriya Jatindra Mohan Sen Gupta, Dr. Bidhan Chandra Roy and Janab Fazlul Haque.

I have come to parting of the ways. It is hard to part when friends are dear and it certainly costs tear. To the Corporation of Calcutta and to my friends and colleagues, the Aldermen and Councillors, the officers and employees of the great institution which I had the honour and privilege to serve during over quarter of a century, I send my final greetings. FARE THEE WELL

Councillor Ranajit Coomar Mitter recalled the valuable services rendered by Shri Dharendra Nath Ghosh. He said that it would remain written in indelible ink in the history of the Corporation of Calcutta, that he was, so to stay, a pioneer in the services to the citizens of Calcutta. He has resigned and severed all his connections with this institution. Praying to the God for his speedy recovery and long life, Councillor Mitter hoped that he would again come back to the services of the citizens.

Associating himself with the sentiments expressed by others, Councillor J. L. Saha, M.L.C., said that 'there is no doubt about it that his services in the Corporation and his long association with us will ever remain in our memory.' His wealth of knowledge about Corporation affairs, his way of

dealing matters in the Committees and also of advising his colleagues in the Corporation had always been very valuable, added Councillor Saha.

Councillor Sushil Kumar Roy said that Shri Ghosh had an immense store of knowledge about this Corporation and he could not ignore any affairs of this institution. 'We have heard from him many old stories of his experiences while coming in contact with the giants of his time. He served as a link between the old and the new. He loved this Corporation more than his own home. He was always enthusiastic in going from Department to Department for the services of his rate-payers.' We shall never have such a man in the near future. He was the oldest of all of us and there is none to emulate his experience and knowledge,' added Councillor Roy.

Mentioning as an unfortunate event to receive the letter of resignation of one who was so near and dear the late Councillor Usha Nath Sen recalled that when he first entered this Corporation as Councillor he was a novice. But he learnt many things from Shri Ghosh. He was a rich man, but he had great sympathy with the poor. He was educated, but he had great sympathy with the illiterate. 'And to miss such a noble soul amongst us is equally tragic', stressed the late Councillor Sen.

A SHORT LIFE SKETCH

ELDEST son of the late Shri Woopendra Nath Ghosh, Shri Ghosh was born on the 28th November, 1888, in the Kansaripara area, Bhowanipur. His grand-father the late Shri Krishnakishore Ghosh first settled in this city, and his ancestral house is known as 'Nil-Kuthi' in that area. Earlier to that they were residents of the Nuddea District. The family is connected with all the well-known Kayastha families in the country.

Graduated from the Presidency College, Calcutta, in 1910, Shri Ghosh enrolled himself as a Vakil of the Calcutta High Court in 1914 after he had worn silk on Law. He was also granted a *Sanad* to practise on the Original Side of the Calcutta High Court in January, 1941.

Shri Ghosh's services to the Corporation are still now unique. Once he stated that he lived to see if the civic consciousness of the citizens could be properly roused in them then there would be less troubles in civic matters and less amount of misery to the citizens.

Besides, Shri Ghosh held many an important posts connected with the Corporation. He also sat as Director in many of the business enterprises.

INDIAN RED CROSS SOCIETY

The Annual Flag Day of the West Bengal Branch of the Indian Red Cross Society was observed in the city on Friday, the 9th January last.

With boxes and flags, 2,500 volunteers boarded buses and trams, visited offices and approached cars at important street crossings. The volunteers included school and college students selected with the approval of their Headmasters and Principals, and representatives of well-known social welfare organizations, including the Paschim Banga Samaj Seva Samity and the Public Welfare Society. Women members of the Red Cross helped in the collection.

Red Cross month is now being observed in the city. Appeals have also been issued for sufficient aid and help in order to maintain the Society's philanthropic work.

BALLYGUNGE MUSIC CONFERENCE

THE Three-day Fourth Annual Conference, concluded recently, entertained a large number of music lovers of the locality. A galaxy of musicians of repute regaled the audience on all these days.

The night long performance on the last day left a glowing impression in the minds of those who attended the function. It was a superior quality of Indian music and their performance could be dished out by the master minds in that branch of fine art.

The above picture was taken on the last day when Shri S. C. Sen Gupta, President of the Conference, presented a purse of Rs. 501/- only, to the Mayor, Dr. Triguna Sen, as an aid to give relief to the distressed ones. Councillor Anil Maitra was then speaking (on the mike).

'BEST TURN OUT' PRIZE FOR A CORPORATION MAN

It is gratifying to note that one of our Corporation employees, Shri Bimal Chandra Mondal, has won the "Best Turn out". Prize from the Territorial Army authorities this year (picture above). Shri Mondal is a member of the staff of the Ballygunge Drainage Pumping Station. His participation in the Territorial Army has inspired many others to join the Army at tender ages.

We hope that the Army would earn larger amount of popularity among the employees.

Replying to the on the occasion, for preparation in all fields for safeguarding the country. He said that the country would only progress if it was keeping pace with the fast moving world.

Shri Hem Chandra Ghosh, a veteran revolutionary leader of Bengal, who was the Guest-in-Chief, requested Shri Majumdar to see that all the youths of Bengal received military training.

Presiding, Shri Satiya Chandra Dey appealed to the Minister to revolutionise the industries. The Mayor, Dr. Triguna Sen, spoke on the occasion. Shri Phanindra Nath Mukherjee, Editor, 'Bharatbarsha', and Shri Sabitri Prasanna Chatterjee, a poet among others were present.

MARTYR SURYA SEN DAY was observed in the city on Monday, the 12th January when thousands of citizens gathered at the foot of the marble bust of the great hero who led that famous Chittagong Armoury Raid in the Thirties. He was known as 'Master Da', as a revolutionary leader of the country's struggle for freedom. The bust is situated at the Surya Sen Street, central part of the city.

Shri Surendra Mohan Ghosh, M.P., who garlanded the bust on that day, remarked that the services of those leaders were still needed in the upliftment of the country in order to achieve the ideals of freedom dreamt by arch revolutionaries of the world.

Wreaths were also placed there both by individuals as well as on behalf of different organizations. The 25th Death Anniversary was arranged by the Surya Sen Memorial Committee.

Councillor Dharendra Nath Dhar, M.L.A., placed a wreath on the bust on behalf of the Corporation. He also placed two other wreaths on behalf of his areas which he represents.

Under the auspices of the Chattagram Parishad, a meeting was held in Jadavpur, Raja Subodh Mullick Street, wherein Shri Monoranjan Gupta, M.L.C., presided. Many of the late Shri Sen's associates and followers recalled his past deeds and activities. The meeting was held on that evening.

A JUMBORE of West Bengal Boy Scouts and Girl Guides, was inaugurated on the Lake Maidan, southern part of the city, on the 3rd January last, by Mr. Justice J. P. Mitter. After the "Jumbore" flag was hoisted amidst the bursting of crackers, Shri Mitter took the salute. He regretted that he had not joined the Boy Scouts Movement when he was a student. The Movement was a "real assistance to the nation and democracy", he said.

Dr. Parimal Roy, the Camp Chief, welcomed the guests and the representatives of foreign Consulates, to whom the 'Jumbore' Flags Greetings from distinguished people were also read.

The closing function on the 7th January last was colourful as well as instructive. The other programme of dance and fire-fighting, were equally shared by Scouts and Guides. The Chandernagore Troupe gave a demonstration of beautiful acrobatics. The South Calcutta also gave a fine torch light display.

CALCUTTA WEATHER: The city experienced the coldest day of the season so far, on the 2nd January last when the minimum temperature dropped down to 90 C or 30 C below normal. The maximum temperature on that day was 24 degree C. The minimum temperature, coming down to 2 degree C below normal, indicated the appearance of a cold wave that would pass through the city.

Since 1951, the 2nd January's temperature was the lowest. On the 11th January, 1950, the temperature dropped to 8 degree C and the lowest on record so far was 7 degree C on the 20th January, 1909.

OBITUARY: The death of Shri Tarun Kumar Roy occurred on Tuesday, the 6th January last, at his house at Hattihola. He was 53.

The late Shri Roy was the son of late Rai Bahadur T. B. Roy. He was an Honorary Presidency Magistrate of Calcutta. As one of the founders of the East Bengal Football Club he was its Honorary Treasurer for long.

The weekly meeting of the Corporation, held on the 9th January last, condoled his death.

Shrimati Lellamani Naidu, younger sister of the Governor, Shrimati Padmaja Naidu, died at Raj Bhavan, on Wednesday, the 7th January last. She was 56.

The cremation took place at Keoratala Burning Ghat, South Calcutta. It was attended, among others, by the State Chief Minister, Dr. B. C. Roy and his Cabinet colleagues. Wreaths were sent on behalf of the President, Dr. Roy and many others.

Condolence messages received by the Governor included those from the President of the Indian Union, the Prime Minister and many other State Governors.

After graduating from Oxford, the late Shrimati Naidu became Lecturer in English at Women's College, Lahore. A few years later she joined the Hyderabad Government's Political Department. She soon returned to the teaching profession and became Professor of English at Women's College, Osmania University. She joined the Union External Affairs Ministry in 1947 and worked there till last October.

After retirement, she came to Calcutta to stay with her sister and was taken ill on the 27th December last.

The late Shrimati Naidu was a prominent member of the All-India Women's Conference of which she was Secretary for a number of years. She was also closely associated with many other women's organizations.

The weekly Corporation meeting also condoled her death. Eloquent tributes were paid to her memory by the Mayor, Dr. Triguna Sen. The House was adjourned for a few minutes as a mark of respect to her memory.

The death of Dr. B. K. Das Gupta, a leading Eye Surgeon of Calcutta and Professor of Ophthalmology, Nilratan Sarkar Medical College, occurred at his Cornfield Road residence, southern part of the city on Sunday, the 11th January. He was 52.

Shrimati Hemnalini Mitra, mother of Shri P. C. Mitter, an important Congress worker in the northern part of the city, died a few days back. She was the last surviving sister of the late Shri P. N. Bose of geological fame and grandmother of Councillor Ranajit Coommar Mitter. The late Shrimati Mitra was a pious and benevolent lady.

The Corporation condoled the death on that day.

The Corporation also condoled the death of Shrimati Sakuntala Kapur, sister of Councillor S. K. Khanna, who died recently. She was only 29.

SIXTY-NINTH BIRTH-DAY OF SHRI BHUPATI MAJUMDAR, West Bengal Minister for Commerce and Industries and a veteran revolutionary, was observed through a function when he was felicitated at the Indian Association Hall, Bipin Ganguly Street, on Tuesday, the 6th January last. A silver revolver was presented to him on the occasion.

Week, Calcutta's

winter, the minimum temperature came down to 11 degree C on the 20th December last, a slight fall from that of on the previous day, the 25th December, when it touched 12 degree C.

The cold wave did not last long and a tendency towards normalcy set in with the forecasts 'fair weather, bright sunshine during day and fall in night temperature'.

Both on the 3rd and the 4th January, the minimum temperature ran below normal. But on Thursday, the 8th January last, both the minimum and maximum temperatures recorded 2 degree C above normal. Friday, the 9th January last, was unusually warm. Still a heavy fog accumulated over the city's sky causing obstructions to moving traffic of vehicles. This had resulted a head-on collision of two State Buses in Jadavpur, southern part of the city, and disruption of plane services to and from Dum Dum till late hours in the morning.

The minimum and maximum temperatures went above normal on the next few days with dry humidity. But possibility of the re-appearance of the cold wave cannot be dismissed at this moment.

DEMONSTRATIONS IN CITY: The city witnessed a number of demonstrations during recent days. On the 2nd January last, when the weekly Corporation meeting was in progress employees in large numbers demonstrated on the quadrangle of the Central Municipal Office Buildings, S. N. Banerjee Road, demanding introduction of a number of concessions including revision of grades, weekly off days for all categories and others. Earlier they held a meeting on the Maidan, at the foot of the Ochterloney Monument.

The demonstration was withdrawn when three members of the Corporation, namely Councillors K. L. Dhandhanla, Chairman, Standing Finance Committee, J. L. Saha, M.L.C., and A. Maltra gave a patient hearing to the employees' deputation as to their grievances. Earlier the matter was referred to in the House by Councillor N. N. Sen, who wanted an intervention in this regard. Councillor Dhandhanla, later on, informed the House that their talks were satisfactory. The employees' demands were then under the active consideration of a Sub-Committee appointed by his Committee. The recommendations of that Sub-Committee would be placed before the House for final acceptance soon, he added.

Submitting an ultimatum re-iterating the demands on the above terms a deputation of Joint Committee of 13 parent organizations also met the Mayor, Dr. T. Sen, on Monday, the 12th January in his office room, Central Municipal Office Buildings, and desired for quick disposal of their claims.

Work at the Docks was also partially affected on Thursday, the 15th January as a result of workers eight hours long token strike, jointly called by the Dock Mazdoor Union and the Port Commissioners Workers' Union, Workers demonstrated on the roads, went in procession to the Dalhousie Square area in order to place their grievances.

A token strike on the 5th January last, participated in by about 30 per cent. of 1,900 day shift workers under the Calcutta Dock caused partial dislocation of work on that day. The call was also given by the Dock Mazdoor Union in support of their demands which included payment of attendance money, minimum guaranteed wages and redress of other grievances.

Starting their movement from the 7th January last, under the auspices of the United Central Refugee Council against the proposal to 'force' camp refugees to go to Dandakaranya, courted arrest when more than 300 persons mostly

recruited from various parts of the State, gathered near Writers' Building, Dandakaranya area, during these days. On the 15th and 16th January, the police arrested including one representing the trip, Shri Dilip Kumar Chowdhury. Each day's programme was followed by holding of meetings in any of the central part of the city where-in their demands were re-iterated.

Among the arrested were a number of babies in their arms.

PHOTO : S. B.

BENGAL SPORTING CLUB

THE Fortieth Birth Anniversary of the Bengal Sporting Club, held in the club's premises, Beadon Row, was largely attended. The Mayor, Dr. Triguna Sen, who presided, gave away prizes to the successful sportsmen who participated in the games and sports organized by the Club.

The Mayor in his speech (picture above) desired that eminent sportsmen who had furthered its cause in Bengal, should be requested to instruct the future generation in their field activities. He also praised the Club which was founded in an age when Bengal was regaining her old glory in the sports field.

Earlier Councillor Sudhir Chandra Mukherjee, Secretary presented the club's annual report along with its progress during last year (standing left to the Mayor).

MUNICIPAL SERVICE COMMISSION

NEW APPOINTMENT

Sub: Permanent appointment to the post of Assistant Engineer (Electrical), Tube-well Section, Water Works Department, Corporation of Calcutta.

N. MAJUMDER,
District Engineer IV.

District IV Eng'g. Office:
The 13th January, 1959.

To All Registered Petty Improvement Lighting Contractors

DISTRICT No. II.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover

superscribed "Tender for....." on 19th January, 1959, up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer of all works exceeding the value of Rs. 2,500 shall have to deposit 5 p.c. of the total value of the accepted tender, as Security Deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Installation of 1 No. electric lamp of 2 by 100 watt each at the junction of Kali Shome Street and Baithakkhana Road, Const. No. 31, D-II, L-164—Rs. 560/-, dated 17th December, 1958 (90 days).

D. M. SAHA,
Lighting Superintendent.

Central Municipal Office:
The 12th January, 1959.

Quotations Invited

Re: Supply of Truck Chassis

Quotations are invited and will be received by the Deputy Commissioner II, Corporation of Calcutta, 5, Surendra Nath Banerjee Road, Calcutta, for the supply and delivery of petrol or diesel engined Truck Chassis of 3-ton and 5-ton capacities.

Details of specifications may be had on request to the Superintendent, Motor, Vehicles, Corporation of Calcutta, 79-A, Lower Circular Road, Calcutta-14, during office hours.

The party should specifically mention (1) Supply position of Chassis of each category, (2) the terms of payment and (3) the condition of delivery.

Quotations in sealed covers should be submitted in duplicate to the Deputy Commissioner II, Corporation of Calcutta, 5, Surendranath Banerjee Road, Calcutta before 12 Noon on or before the 30th January, 1959, and the offers must remain open for acceptance for at least 4 months from the date of submission of the quotations.

The Corporation reserves the right of accepting any quotation irrespective of the fact whether it is lowest or not.

A. BHATTACHARJEE,
Offg. Secretary.

Central Municipal Office,
The 14th January, 1959.

Special Notice

In exercise of powers vested in me under Section 424 of Calcutta Municipal Act, 1951 read with Section 73 of the Calcutta Municipal (Amendment) Act, 1953, I hereby direct, in supersession of all previous notices in this behalf, that within Municipal limits excepting those areas where house to house collection of refuse is in force, all rubbish and offensive matters accumulating in all premises excepting those where building operations are being carried on or are used for carrying on any manufacture, trade or business, shall be collected

by the occupiers of such premises and deposited in the nearest dustbins on public street within 50 yds. of the entrants of such premises or deposited in lump in the nearest street where such dustbins are not provided within allowable hours 9 P.M. to 8 A.M. and 1 P.M. to 3 P.M. and no such deposit of rubbish and offensive matters shall be allowed within the prohibited hours—8 A.M. to 1 P.M. and 3 P.M. to 9 P.M. Any breach of the directions contained in the Notice shall be dealt with under the provisions of Calcutta Municipal Act, 1951.

P. C. MAJUMDAR,
Chief Executive Officer.

Central Municipal Office,
The 14th January, 1959.

Situation Vacant

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, BAR-AT-LAW.
Supt., S. S. Hogg Market.

NETAJI FOR EVER

WHEN he was leaping into the dark Netaji wrote that he had ever regarded life—his own life—as a great adventure. This was for him not a phrase only, not a rhetorical emphasis, but the statement of a way of life, *his way of life*. The words came ringing from his blood, and bones, and marrow. It was his character, Netaji Subhas Chandra Bose.

We have biographies of Netaji Subhas Chandra Bose or biographical episodes. The pieces, taken separately, import a breaking with the old order. They reveal an aspiration to reach out for new sources of inspiration, new freedom. We have “slices” of his life, and do not seek to find in them the elements of unity and permanence. The thread of life is missing. We move from one level to the other hardly aware of the line of life. Except for a brief spell when he expanded in the love and affection of Deshbandhu Chittaranjan Das, he was for the most part the human solitary voyaging through uncharted seas of thought and aching to find himself. Lonely, resolute, disciplined, he gave us glimpses of a heightened awareness of what it means to be a man. A whole he planned. We have got only a half. In every crisis of his life, he was put aside. Sometimes his stride in life reminded us of a “circus”. He was accused of “feigning” illness. And we recognised in him a “Quisling.” The lonely pilgrim staggered on to prove himself. And he did prove himself to become a Netaji. There is always a new horizon for him.

An American writer in speaking of time and the tenses says that the past is the only real time dimension—because the past is something that has occurred and therefore exists. The future is only a concept and the present is “that fateful split second in which all action takes place.” The movie camera lives and moves in the fateful split second of the present. With Netaji the externals are shadowy. They have disappeared from view in the misty haze of the unknown. What remains is the memory of past deeds, deeds from which all savour of passionate purpose seems to have departed. And yet, we have not spelt for him the last syllable of recorded time. He remains as inscrutable as the fates. He remains as India's Man of Destiny, alert with unquenchable life. Has our Netaji chosen, as Marvel expresses it, to “make his destiny his choice?” We have known only a half. He planned a Whole. The rest is yet to be! The best is yet to be. In man's life, and in the marvels of creation, there never is a last syllable. We do not live in memory. We live in hope.

H. G. Wells speaks of the “flow of things.” In the episodes illustrating Netaji's life, we have seen his unwearied feet, travelling ye know not whither,

travelling only to descry a little way farther, against the setting sun, the spires of El Dorado. Moving through the long, long vistas, he has never been known to be overcome by fatigue. Restless he is, restless with a homesickness for the impossible. Once inebriated with the nectar of freedom, he has ever had the feeling for the suspense of the moment. He wants to build To-morrow, not a spectre of to-day, not on the graves of dead and dying selves. The man of Destiny has to become more than life-size. The new world, he knows, belongs to him who can say that out of three sounds he will produce not a fourth sound but a star. The new world belongs to him who does not say that two plus two make four but who can say that two plus two flowers make four plus a brave new world.

It is to this great child of Fate that India pays homage to-day on the occasion of his birth day. People who seek to get out of the beaten track of life to reach out to a something beyond the art of the possible is bound to be rewarded with rebuffs and discomfitures. He is misread. He is misquoted. He speaks not the language of the forum. We have known our Mayor. We have scanned, line by line, our Congress President. We have underlined our Netaji. And in doing so, we have laid under contribution the story of Washington and Napoleon, of Sivaji and Garibaldi, of Masaryk and De Valera. But the thread of Netaji's life is slit in many places. The thread itself has come into the vanishing trick of the conjurer. Where is our pathfinder of a brave new world? We have not come yet to the last syllable of recorded time.

Let us travel hopefully. Let us know and recognise that the true success is to labour. With the rest of our country let us bow to our Man of Destiny.

—“S. B.”

THE STORY DISCLOSED

HOW SUBHAS CHANDRA BOSE escaped from India, and how he reached Europe through a perilous journey in the year 1941, has been put up before his countrymen through an Exhibition arranged on the occasion of NETAJI'S SIXTY-SECOND BIRTHDAY ANNIVERSARY in Netaji Bhavan, Elgin Road, South Calcutta. Subhas Chandra left his residence on the 17th January, under the guise of an Afghan. He was then convulsing after an illness and he grew beard on his cheeks and chin. Assuming the name of 'Ziauddin' he crossed the North-West Frontier of India and reached Kabul, Afghanistan, within the same month. He had to take a less well-known route. He first went to Lalpura in Afghanistan.

Using the passport of an Italian gentleman, 'Mr. Orlando Mazotta', Subhas Chandra went to a town Pata Kesar, the Afghan frontier post on the river Oxus and crossed over to the Soviet territory, Termez. From there he went to Moscow some time in April. Staying for seven days in Moscow Subhas Chandra made his journey towards Berlin. When the Afghan police went after him Subhas Chandra was then safe in an enemy country. They were alerted by the British Intelligence Service.

A photograph of Shri Bose, appearing as an Italian with beard clipped, has been kept on view, among other exhibits. On the strength of that pass-port Subhas Chandra Bose moved in Europe for few months in the axis quarters formulating his future plan and programme. Later on, he founded the FREE INDIA CENTRE in Berlin. His journey to Singapore in 1943 and then to Tokyo was equally interesting and thrilling to hear. Subhas Chandra's earlier decision to travel by plane to Singapore was, however, cancelled due to a last moment knowledge of the fact by the British, and he went there in a submarine. He was given fare-well while leaving Germany by Himmler himself.

The original Passport of the Italian, though missing to the public eye at present, still it was a genuine one and the exhibition displayed a few letters signed in the name of 'Mazotta' by Subhas Chandra himself.

The other interesting exhibits included copies of Netaji's telegram to Mussolini on the eve of his march towards the Indian frontier, Kohima, and Mussolini's reciprocation on it. Mussolini's recognition of the Azad Hind Government at Singapore on its foundation on the 21st October, 1943, congratulating Subhas Chandra, was also there. This showed Subhas Chandra's close intimacy with Mussolini.

About foreign publications on Netaji, exhibited also a Japanese diplomatic document entitled "Subhas Chandra Bose and Japan" published in 1956. A British military officer would publish a book entitled "The Springing Tiger" in March next. A well-known German, Karl Krogner, will publish a book entitled "The World Personalities I Have Known" in Germany. His manuscript on Netaji was on view at the Exhibition. Research was being carried on in Hamburg University on Netaji. The work of the Netaji Research Bureau, Calcutta, would be on similar lines with other centres, said the Secretary of the Academy, Shri Amiya Nath Bose.

At a Press Conference, on Tuesday, the 20th January, when the Exhibition was purviewed by the members of the Press it was disclosed that the Academy had proposed to build at Netaji Bhavan a 'Documentation Centre' on Netaji and the Indian National Movement since 1920. The basic materials for such a centre would be: the speeches and writings; books; diplomatic documents; publications in Press—Indian and foreign; letters; recollections of men and women who can give valuable information records of speeches; films; photographs; and diaries. It was also announced that attempts would be made to build an air-conditioned room to preserve those achievements there.

VIEWS AND REVIEWS

DR. OTTO GROTWOHL PASSES OVER THE CITY

Flying on a special Skymaster plane, the East German Prime Minister, Dr. Otto Grotwohl, made a very brief halt in this city on the night of the 16th January last. He was received at the airport by Janab R. Ahmed, State Agriculture Minister, Shri Jyoti Basu, Leader of the Opposition in the State Assembly, and senior Government officials. The East German Trade Commissioner in Calcutta and a large number of German nationals were also present to greet the Prime Minister. Diplomats and trade agents of many countries were also at the airport to welcome Dr. Grotwohl.

In a brief interview at the airport Dr. Grotwohl remarked that re-unification of Germany could only be achieved through peace.

After staying for few hours in the city Mr. Grotwohl left the city on the next morning. He was also seen off by many of the important citizens.

ANOTHER STEP IN IMPROVING CITY'S HEALTH

Concern was expressed from all quarters about the deteriorated conditions of city's health at a Conference held between the representatives of both the State Government and the Corporation, on Tuesday, the 20th January, in the Mayor's Room, Central Municipal Office Buildings, S. N. Banerjee Road. Those who participated in were Shri I. D. Jalan, Minister for Local Self-Government, Dr. R. Ahmed, Minister for Agriculture, and Dr. A. B. Ray, Minister of State for Health. On the Corporation side, besides the Mayor, Dr. Triguna Sen, the Chairmen of several Standing Committees and many other Councillors, the Chief Executive Officer, Shri P. C. Mazumdar, the Chief Engineer, Shri A. K. Sen and the Health Officer, Dr. A. Mukherjee attended the Conference. Mr. Philippos, a consulting engineer interested in Slum Clearance, also attended on invitation. The subjects discussed included clearance of slums and rehabilitation of displaced people on the basis of their avocations, prevention of adulteration of food and drugs, removal of khatala from the city and introduction of sanitary measures in Bustees.

Shri Jalan stated that the Government could, if necessary, promulgate an Ordinance to enable the Corporation to make arrangements for water supply, drainage and lighting in Bustees. About the starting of Bustee Health Centres, Dr. Ray assured that the Government would supplement the Corporation's efforts with resources, if necessary.

The Minister for Local Self-Government further assured the Conference that the Slum Clearance Act would be applied only to Bustees the Government took up for development. Others would be under the Corporation for maintenance.

The Mayor requested the Government to take up, on behalf of the Corporation, work in connexion with the sinking of big-diameter tube-wells in Bustee areas. Any such scheme should first be examined by the Government and if found helpful, the Government would surely take up the work if desired by the Corporation assured the representatives of the Government.

As to the removal of khatala, Dr. Ahmed pointed out that there was already a Bill pending before the Legislature and it would be taken up at the next session.

Discussing the question of adulteration of food and drugs in the city, the Conference decided that a Joint Meeting of Government and Corporation officials should be held shortly to specify the powers vested under the relevant Central Act in the State Government and the Corporation. The proposed meeting should also suggest amendments, if considered necessary, to make the Act more effective.

The problem of rehabilitation of Bustee people according to their occupation was so complex that the Government did not think that such resettlement possible in near future, thus stated the Minister for Local Self-Government of the State. The Indian Statistical Institute had made two surveys in recent years to ascertain data about these people and their findings were equally amazing as to the complexity of the nature of work.

Referring to the Mayor's question whether the Government could compel industrialists to house their labour, the Minister stated that the matter came under the jurisdiction of the Union Government and the present policy was not to do so according to the latest information so far obtained.

In that connection, the Conference also discussed about the amendments to the Calcutta Municipal Act, 1951, put up by the Corporation for modification of the tax structure in bustees and other areas especially Tollygunge. The Minister suggested that all necessary amendments to the Act, proposed by the Corporation should be placed before the Government at a time, and not at piecemeal for its consideration. If necessary, the Government and the Corporation representatives might sit together and finalise the matter before it was placed before the Legislature.

Whatever varied the subjects might be, the Bustee problem and the health problem took the foremost in that Conference and surely they can not be ignored at this moment.

It would not be out of place if we mention in this connection, the recent Conference held in the Chief Minister's Room, Writers' Building as to the introduction of Community Development Projects in the Bustee areas of the city. Such an Urban Community Development Project, to be worked by a separate Union Government department, will for the first time be introduced in Delhi.

Accompanied by the Union Law Minister, Shri A. K. Sen, 12 representatives of the Ford Foundation Scheme met Dr. B. C. Roy recently, before they started survey work in Bustees, worst areas of the city.

The Mayor, Dr. Triguna Sen, Shri S. K. Gupta, Chairman of the Calcutta Improvement Trust and senior Government and Corporation officials were present at the meeting. So far gathered, the Government has assured substantial aid for the purpose.

Helped by the Ford Foundation, Calcutta's Community Development Project would be jointly

worked out by the State Government and the Corporation. The scheme will provide for Bustee improvement, road construction, and better sanitation.

In Delhi, Corporation surveyors are approaching citizens with four questions relating to their difficulties in respect of civic amenities. To start with six units each comprising 250 families, have been selected.

The Mayor also remarked in that connection that the Corporation would undertake a survey similar to that of Delhi as soon as the results of Delhi Corporation's preliminary work were out. The project, if successfully worked out, would eliminate the evils of rural community development plans which have sought to impose Government decisions on the people instead of trying to inspire popular initiative in assessing problems of rural areas and evolving measures for their solution." Dr. Roy was understood to have assured the Mayor of all financial assistance in undertaking the survey.

Another word in this connection is that the State Statistical Bureau has undertaken a detailed survey of living in city Bustees. Field work has already started in Ward Nos. 1, 2, 15, 16, 71 and 72, according to a Government report.

CORPORATION BY ELECTION

A part of Calcutta citizens would soon have opportunities to choose their fresh representatives in the Corporation. The date for holding two by-elections in the city has been fixed on the 8th February next. This has been necessitated with the resignation of Shri Dharendra Nath Ghosh due to protracted illness, in Ward No. 70, and sudden passing away of Shri Ushanath Sen, Ward No. 75.

Nomination papers were invited from prospective candidates, and all of them numbering nine were found valid after scrutiny held on Monday, the 19th January.

The candidates are Dr. Satindra Nath Mukherjee, Shri Barindra Kumar Chattopadhyay, Shri Subodh Kumar Dey, and Shri Ardhendu Sekhar Basu competing for one seat in Ward No. 70, an area representing north-west part of Bhowanipore. In Ward No. 75 candidates are Shri Balai Bhusan Paul, Dr. Naresh Chandra Banerjee, Shri S. B. Ghosh, Shri S. R. Das, and Shri Tarak Nath Saha. The Ward comprised of a part of Kidderpore, a locality of mixed population.

It has been learnt that the first named candidates of both the Wards have been nominated by the Congress Municipal Association, the majority party in the Corporation, the second ones are the nominees of the United Citizens' Committee and the rest have sought elections as independent candidates.

The number of voters in Wards 70 and 75 is 2,762 and 2,724 respectively including women. Out of which there are approximately 596 voters who acquired their rights due to educational qualifications and 102 voters on rental qualifications under Ward No. 70. The figures for the same under Ward No. 75 are 401 and 282 respectively to the approximate.

No doubt, strong demonstrations would ensue soon centring round these by-elections. There would be mass meetings, processions, posterings and

what not. But all these would be tested on the verdict of the ballot boxes.

We are only to wait and watch how the things take shape.

SHRI DHIRENDRA NATH CHATTERJEE IS DEAD

We deeply regret to announce the death of Shri Dharendra Nath Chatterjee, a retired employee of the Secretary's Department, which took place on the 8th January last. Shri Chatterjee was suffering from illness for long and due to protracted ill-health he was forced to retire voluntarily before the term of his office expired in 1957. He was about 58.

DHIRENDRA NATH CHATTERJEE

Entering Corporation in the year 1922, the late Shri Chatterjee served the institution with utmost integrity and talents. He was considered as one of the swiftest and alert assistants in the Corporation who was mainly entrusted with the task of drafting and drawing out resolutions and proceedings of the meetings and other important and essential jobs. His integrity and acumen earned him universal recognition from his superiors. And it can safely be said that if he had been placed in a more advantageous position there would have largely been a free-play of talents with which he was endowed.

Amiable and suave in manners as he was he earned love and respect of his colleagues and these brought him nearer to them. Social and lovable was his personality. And thus his loss would be mourned by all who came in contact with him.

We also extend our sincerest condolences to the members of the bereaved family.

DEATHS & DISEASES IN CITY

The city was freer from epidemic diseases during last few days. There were no cholera cases in the city during the week ended Saturday, the 17th January last. In the corresponding week last year, there were 24 attacks and 10 deaths. There were three attacks during the previous week.

Figures for small-pox fell from last year's eight attacks and six deaths to two attacks and two deaths.

T.B. tolled 42 lives during the week.

Deaths from all causes totalled 635 against 728 in the previous week.

DR. JNAN GHOSH PASSES AWAY

CALCUTTA mourns to-day the loss of one of the stalwarts who figured as a teacher, a scientist, an administrator and above all a man of abundant energy and imagination. The death of Dr. Jnan Chandra Ghosh is not only the loss of an eminent scientist but also of a man who had a fuller view of life in all its aspects. And thus his life was a dedication to the cause of country.

Having a brilliant academic career Dr. Ghosh had his higher education in Great Britain and Germany. In Calcutta, Dacca, Bangalore, Kharagpur, New Delhi, and other places Dr. Ghosh has left his impress everywhere and so people as a whole took his death as the loss of their near and dear one.

Dr. J. C. Ghosh, under which name he travelled from one corner of the country to the other, held responsible posts on all India basis and for which he would be ever remembered in the country. Inspired by that saintly master Sir P. C. Roy, Dr. Ghosh first devoted himself to teaching and he soon was able to rouse the scientific instincts of the students community. He was also able to bend their minds towards culture and research on higher chemistry.

DR. JNAN GHOSH

In the bigger field of life Dr. Ghosh fulfilled his life's mission. At the time of death he was an important member of the Indian Planning Commission, entrusted with the task of shaping and re-shaping the country. He was Director-General of the Industries and Supplies, Government of India, during a transition period and he held the helm of affairs of that department with a firm grip.

As a Vice-Chancellor of the Calcutta University his vision was undisturbed and he wanted to re-orient the educational system of the country in the context of the modern world particularly in a period when the country's shackles were broken. He had a noble mission in this regard.

The unfortunate incident took place on Wednesday, the 21st January, at his residence, New Alipore, southern part of the city, at about 11-45 A.M. He was 64. Dr. Ghosh had been suffering from cancer for the last two months.

The Mayor, Dr. Triguna Sen, Rector, Jadavpur University, Shri P. C. Sen, Minister, West Bengal, Prof. Nirmal Kumar Sidhanta, Vice-Chancellor, Calcutta University, and Prof. Satyen Bose, National Professor, were among the early callers at Dr. Ghosh's residence. Wreaths were placed on his body on behalf of the Union and West Bengal Governments, the Calcutta and Jadavpur Universities, the Calcutta Corporation and many educational institutions and organizations. A wreath was placed on the bier by an A.D.C. to the Governor on her behalf.

The Governor sent a message of condolence to Shrimati Ghosh. Eloquent tributes were paid to his memory by Prof. S. N. Bose through a radio broadcast at the same night.

The funeral procession carrying the body on the truck, followed by a large number of mourners, visited the Indian Association for the Cultivation of Science at Jadavpur, Jadavpur University, University College of Science on Acharya Prafulla Chandra Ray Road and Calcutta University, College Street. Wreaths were placed on the truck by representatives of many associations and organizations. The body was then cremated at the Keoratola Burning Ghat, South Calcutta.

West Bengal Government offices, many Union Government offices and Corporation offices were closed for the day as a mark of respect to his memory. Calcutta and Jadavpur Universities, many colleges and schools in the city were also closed.

AN EVENTFUL CAREER SHORTENED

BORN in 1894, Dr. Ghosh had his early education at Giridih, later on moving to Presidency College, Calcutta, where he had a uniformly brilliant career. At the College he came in contact with Acharya P. C. Ray, the father of modern chemical research in India, from whom he received the inspiration for his future work in the field of chemistry. His first honour in that field was his appointment as Lecturer in Chemistry (1915-21) when Calcutta University opened its Post-Graduate Department.

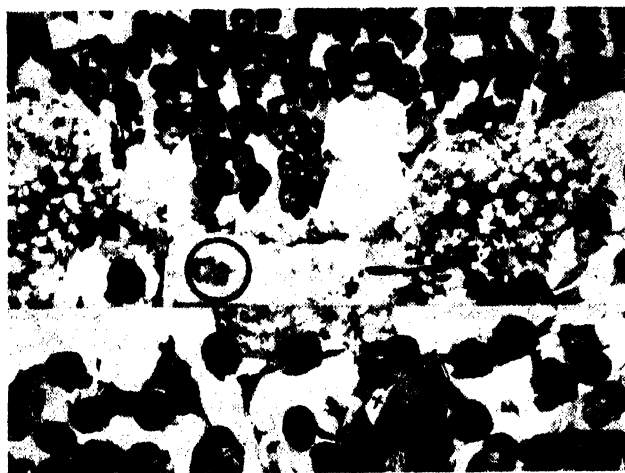

On becoming a Palit Scholar and also a Premchand Roychand Scholar in 1918, Dr. Ghosh proceeded to London where for some time he worked with Professor Donnan. In 1921 he went to Germany, and returning to India the same year, was appointed Professor and Head of the Department of Chemistry, Dacca University, which post he held till 1939.

Dr. Ghosh won international reputation early in the career for his notable contributions to the advancement of electro-chemistry and for his

theory of salt solutions and the mechanism of chemical reactions especially under the influence of radiation.

A dominating figure in the scientific world, he was President of the Indian Chemical Society, from 1935-37 which he helped to found. In 1939 he was General President of the Lahore session of the Indian Science Congress. In 1938 he was appointed a member of the National Planning Committee set up by the Indian National Congress. In 1939 he succeeded Sir C. V. Raman as Director of the Indian Institute of Science, Bangalore, holding the post with distinction till 1947.

As a member of the All-India Council for Technical Education and as the President of the Association of the Principals of Technical Institutions in India, he was largely responsible for shaping the future of technical education in India.

THE FUNERAL PROCESSION BEFORE THE
SENATE HALL, COLLEGE STREET

The Vice-Chancellor, Prof. N. K. Sidhanta (marked cross), and the Registrar, Dr. D. Chakraverti are seen in the picture.

PHOTO : ANJAN GUPTA.

On becoming Director-General of Industries and Supplies, Government of India, from 1947 to 1950 he concentrated his efforts in rehabilitating the Indian industries built up so long under foreign care and for the expansion of the steel industry.

In 1950 he moved to Hijli, Kharagpur to take charge of an infant institution with which his name will be associated for ever. He became its first Director, remaining there till 1954, during which time he helped to build it up as one of the best institutions of its kind in Asia. Earlier (1944-45), he toured the U.K. and the U.S.A. as a member of the Indian Scientific Mission to those countries. In 1946 he was a member of the Indian Delegation to the Empire Scientific Conference held in the U.K., and in 1949 represented India at the 4th General Assembly of U.N.E.S.C.O. in Paris and at the U.N. Conference in New York on conservation and utilization of resources.

From Kharagpur Dr. Ghosh returned to Calcutta to become Vice-Chancellor of the University. He filled that post for about a year only. Dr. Ghosh was also responsible for undergoing a change of the financial structure of the University as a member of a Special Committee before the new University Act was enacted. He then went to Delhi to join the Planning Commission.

Created a Knight in 1943, he was President of the Indian Association for the Cultivation of Science from 1951.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-FIRST
ADJOURNED MEETING OF THE CORPORATION
HELD ON WEDNESDAY, THE 14TH
JANUARY, 1959.

CONDOLENCE

In the adjourned meeting, the House condoled the death of Pandit Haricharan Bandopadhyaya, teacher in Santiniketan for the last 56 years, who died on the 13th January last. The death was referred to in the House by Councillor Mukur Sarvadhikary.

Born in 1867 in Basirhat, the late Pandit Haricharan joined Santiniketan Brahma Vidyalay in 1902 as a teacher of Sanskrit. He compiled a Bengali Dictionary, '*Bangiya Sabdakosh*' which earned much recognition from all quarters. In 1944 he received the Sarojini Medal of Calcutta University and became Doctorate (Deshikottamal) of Visva-Bharati in 1956.

WIDENING OF A ROAD

The House, on the recommendation of the Standing Town Planning and Improvement Committee, decided to widen the narrow portion of Dehi Serampore Lane, now Ballygunge Place East, to a width of 20 ft. at its junction with Bondel Road, Ward No. 61, under Section 356 of the Calcutta Municipal Act, 1951.

IMPROVEMENT OF PARKS

Based on the same Committee's recommendation, the House decided to improve different parks and squares lying within the Wards Nos. 62, 63, 64, 65 and 66 under Borough No. 14, but declined to sanction any money for the purpose at present.

DEMONSTRATIONS IN THE CITY

A large section of Central Government employees demonstrated on Tuesday, the 20th January, demanding payment of an interim relief of Rs. 5/- in view of the rise in living cost. They protested against the "unusual delay in the publication of Pay Commission's Report."

The employees marched from their offices to Subodh Mullick Square where they held a meeting. The meeting demanded full Trade Union rights and deprecated certain provisions of the Central Civil Services Conduct Rules which prohibited employees' participation in strikes and demonstrations.

Under the auspices of a Joint Committee representing all sections of Corporation employees a rally of workers was held at the Maidan under the foot of the Ochterloney Monument, on Wednesday, the 21st January. It re-iterated the seven-fold demands of the employees including revision of grades, concessions of holidays, and such like for which notices had been served on the Corporation authorities.

The speakers included Shri Abinash Chandra Bhattacharyya, Secretary, Shri Ajit Mukherjee, Shri Susil Chakraverty and Shri Jagadish Singh, who told that future policy would be determined after receiving the final consideration from the Corporation, the target date of which is the 31st January.

The representatives of the Committee, also discussed the issue with the Standing Finance Committee on Thursday, the 22nd January.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-THIRD ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 16TH JANUARY, 1959.

MEMOIRS OF THE PAST

During discussion on matters of public importance, Councillor Shiv Kumar Khanna suggested that the Central and State Governments should be moved so that the statues, busts and portraits of martyrs and patriots, who sacrificed for the cause of country's independence be preserved in the Victoria Memorial Hall. Councillor Khanna said that by doing so the country would repay their gratitude to those great past.

The Deputy Mayor, Shri Keshab Chandra Basu, who was presiding on that day, assured the House that it would be done earlier.

SHORTAGE OF PAPER

Raising the point of scarcity of writing paper in the market, Councillor Dharendra Nath Dhar, M.L.A., suggested that the Standing Education Committee should take measures so that the students of the Corporation Primary Schools could get paper at cheaper rates.

No doubt, the scarcity of paper consequented by increased prices have caused much hardship to the students community as a whole particularly to those coming from poor and middle class families.

DETERIORATED DRAINAGE SYSTEM

Councillor Mohammad Ismail referred to the deplorable condition of the drainage system in the city and the accumulation of garbage on the thoroughfares. He complained that silt accumulation had reached to such a magnitude that it was gradually becoming impossible to pass over the streets. On enquiry he found that there was shortage of motor lorries for removal of silts from the streets. According to him the system of house to house collection as a measure of Cleaner Calcutta Campaign had not proved fully successful.

The Deputy Mayor, however, assured the House that those complaints would be looked into.

SINKING OF TUBE-WELLS

Non-implementation of many of the projects, mainly sinking of tube-wells, was pointed out by a few members before the House. Councillor Nripendra Nath Banerjee drew the attention of the Deputy Mayor, to a particular case wherein there had been unusual delay in sinking a tube-well in the Dhakuria area. He said that it became almost impossible on his part to hold the tail of a file containing the sanction and other necessary papers which was then moving from one department to another. In that connection he alleged that an important Department of the Corporation was responsible for this.

Councillor Satyananda Bhattacharyya also stated that measures proposed during the last epidemic situation could not be translated into action till now. He felt that there must have been some knot anywhere to be untied in order to smoothen the work. Sinking of adequate number

of tube-wells in different parts of the city occupied the main point of his speech. He could not follow why that important task was delayed and delayed due to shortage of money even when the Borough funds were diverted for the purpose.

INCREASED NUMBER OF CRIMES

Drawing the attention of the House to the increased number of moral crimes in the city Councillor Dr. K. P. Ghosh repudiated the recent statements of the authorities that the city was gradually freeing itself from the clutches of anti-social elements since 1958. He said that according to the Report published in press from time to time, 'the manufacture of illicit liquor has become almost a country-made product; much prevalence of gambling consider as an indoor game, pick-pocketing becomes an important technique which young unchins are acquiring as a first step for higher training in robbery or in gangsterism' and what not. According to Councillor Dr. Ghosh, the citizens' misery in this regard had almost filled to the cup.

He demanded that the Corporation should request the city's police authorities to put a stop to these sorts of crimes.

TANGRA PEOPLE'S DIFFICULTIES

Councillor Amulya Charan Sarkar narrated the untold misery of the citizens residing on the eastern borders of the city. He said that due to the shifting of the Chingrihata Refuse Platform to further east the people residing on the new site had been much inconvenienced. The difficulties had been added with the increased traffic over the narrow road leading to the new platform resulting in street accidents. According to Councillor Sarkar accidents occurred daily and the number within these few days of the month had already exceeded between 20 and 24, a few of them turning into of serious nature.

Councillor Sarkar thought that the widening of the street would be one of the remedies for which Corporation could proceed while formulating a scheme. He hoped that the House should request the Chief Engineer to take up the matter early.

The Deputy Mayor, assured the House that both the Standing Works and the Standing Finance Committee should discuss the issue to arrive at an agreed solution. At the same time he suggested that the Government would be approached for its proper execution.

ENHANCED COLLEGE FEES

Sympathizing with the plight of the guardians Councillor Himangshu Kumar Das, felt that the Corporation should voice protest against the enhanced rates of College fees introduced in city's premier institutions. Recently, with the introduction of the new scales, students in a body of seven important colleges of this city demonstrated against such measures. Their grounds were justified with the idea that resources of these

colleges were better off than others. Moreover, they were benefitted by the aid from the University Grants' Commission. In the circumstances enhancement of fees would cause much hardship to the guardians. Councillor Dr. Das also emphasized on these lines before the members.

ALL ABOUT CORPORATION SCHOOLS

Replying to a questionnaire put up by Councillor Kumar Dutta it was ascertained that the six Corporation Model Primary Schools were provided with the posts of Assistant Head Masters and it had not been felt so long to equip ordinary schools with such posts. The Corporation schools provide necessary equipment and furnishings for sports where suitable open spaces are available for the purpose. On a question whether to give greater facilities to those school children in sports and out-door games through arrangements with local clubs and organizations occupying parks and squares it was known that such arrangements were impracticable nor it would be possible to allow the children to use such parks and squares in cases where they were situated at places not adjacent to schools.

The issue of supplying mid-day tiffins to the school children was being considered by the Standing Education Committee although funds had been provided in the current year's budget for the purpose—was also known.

Regarding health of school children, they were medically examined by the School Medical Officers at regular intervals and were advised to attend hospitals, whenever such necessity arose. Hospital cards were issued by those officers only.

A DEPUTATION TO GOVERNMENT

The House, on the recommendation of the Standing Finance Committee decided to send a six-member deputation to the State Government to place its claim for contribution on account of Motor Vehicles Tax, Amusement Tax, Sales Tax. The question of revision of the consolidated rates on the valuation of premises would also be taken up with the Government.

It may be recalled here that the Corporation had passed a resolution previously to move the State Government for the enhancement of the contribution on those items and revision of consolidated rates. On the basis of that resolution the House decided to send the deputation. The members of the deputation were the Mayor, Dr. Triguna Sen, the Deputy Mayor, Shri Keshab Chandra Basu, Councillor K. L. Dhandhanian, Chairman of the Standing Finance Committee, Alderman Bejoy Singh Nahar, Councillors Anil Moitra, leader of U.C.C. Party, and Dr. Parimal Sen Gupta, leader of Independents.

[A GIST OF PROCEEDINGS OF THE THIRTY-FIRST
ADJOURNED MEETING OF THE CORPORATION
HELD ON THE 9TH JANUARY, 1959.]

ENCROACHMENTS AND OBSTRUCTIONS

Councillor Satyananda Bhattacharjee pointed out encroachments on footpaths and roads and obstructions put on different parts of city and suggested that adequate steps should be taken against it.

The Mayor, Dr. Sen, requested the Chief Executive Officer to take proper steps against those irregularities.

PUBLIC INCONVENIENCED

Councillor Rauf Ansari referred to the inconveniences of public because of the recent withdrawal of private bus service on the old route 38A. Narkeldanga-Howrah Station. He suggested that the State Government should be moved to put the State Buses which have replaced the private sector on service on that route.

Councillor Ansari demanded that the Corporation should request the Government on that direction.

MANAGEMENT OF MAHAJATI SADAN

Deploring the situation prevailing in the Mahajati Sadan, Councillor Benoy Lal Ghosh demanded that the management of the Mahajati Sadan be given to the Corporation. He alleged that the State Government had made some deviations from its main purposes. In that connection he also referred to the recent happenings there when musical soirees were arranged in aid of establishing a library within the premises of the Sadan.

Councillor Ghosh further said that under some obligations and certain terms of agreements as stated by him, the Sadan was the property of the Corporation which provided the land and other equipments.

OUT-FALL STAFF

Councillor Dharendra Nath Dhar, M.L.A., put up the case of the Outfall Department's staff whose services might be dispensed with in case the State Government would take up a portion of the scheme, at present in operation. Councillor Dhar apprehended that unless steps were taken in due time the disbanded staff might be put into difficulty.

It may be recalled here that the State Government, Irrigation and Waterways' Department had desired to take up a part of the Scheme some time ago and the Corporation agreed to the proposal. But negotiations are still going on for the final transference.

TAKING OVER A PRIMARY SCHOOL

The House, on the joint recommendation of the Standing Education Committee and the Standing Finance Committee, decided to take over the primary school 'Santosh Vidyaniketan' located at Hospital Lane, Hastings, Ward No. 75. It was so long run as a private enterprise in the Corporation School Building there. The staff of the school would be incorporated in the Schedule of Establishment along with the creation of new posts for the purpose.

OVER-BRIDGE AT MAJERHAT

The House, on the recommendation of the Standing Finance Committee, felt that due to financial stringency it would not be possible on Corporation's part to bear the proportionate cost for the reconstruction of the Diamond Harbour Road Railway Overbridge at Majerhat. At the same time it suggested that in case of re-construction the overbridge would be shifted towards the east along with widening of the path over it.

Calcutta University Convocation

The Highest Record, that was ever made in the history of the Calcutta University, was the award of Diplomas and Degrees to the largest number of successful candidates in the Annual Convocation of the University this year. Held under a spacious pandal on the Lake Maidan, southern part of the city, the two-day function was attended by larger number of citizens and an elite from all walks of life.

Besides, starting with the ceremonial processions on each day, Convocation Addresses were delivered by two distinguished educationists. The Governor of Bihar, Dr. Zakir Hussain made the Address on the concluding day, the 20th December, which was also specially marked with distribution of Medals, Doctorate Degrees and special prizes. Shri V. N. Chandavarkar, a former Vice-Chancellor of the Bombay University, addressed on the first day.

Out of 15,674 students including 3,181 women receiving Degrees and Diplomas this year, nearly 11,500 attended the Convocation spreading over two days. They received their awards in batches before the functions started.

Among the 98 candidates who had been admitted to different Doctorate Degrees, M.S. and M.O. Degrees there were Shrimati Niharkana Mukhopadhyay and Shri Panchanan Ghoshal, a Deputy Commissioner of Calcutta Police. Shrimati Mukhopadhyay's thesis was on fundamental principles of Indian music and their application in Bengali literature, and Shri Ghosal on criminology.

The University also conferred its D. Phil (Engineering) Degree on Shri Kalyan Kumar Bando-padhyay.

Sixteen special medals were awarded. Shri Pramathanath Bisi received a medal for outstanding research work in Bengali language and literature, and Shrimati Lila Majumdar for the best contribution among women writers. For possessing the best physique, a medal went to Shri Jiban Chandra Bhattacharyya. Shri Tapan Mitra won a medal for being the best all round cadet of the N.C.C. (Senior Division). Of 55 students awarded medals for proficiency in examinations, eight were women.

Of those who took degrees and diplomas on the first day, 44 received gold and silver medals. They included eight women also.

Dr. Hussain in his Address said that justification for good education was an enrichment of life for individual human beings and the full development of their spiritual potentialities. The aim of higher education was development of mind and mind was not a mass phenomenon. Education should help the individual mind to experience the absolute moral and spiritual values.

The Governor of a neighbouring State, spoke at length, on the problem of the increasing number of students undertaking university education. Whatever ways might be evolved to restrict the number, he felt it was bound to grow. He suggested, therefore, that side by side with wise and effective methods of selection, steps should be taken to provide an increasing number of institutions to meet influx of students. Dr. Hussain also stressed the fact that much talent matures late.

Dr. Hussain urged the University of Calcutta to courageously take upon itself to be the pioneer in solving problems besetting all the universities in India—"problems, firstly, which by their sheer quantitative magnitude, have become problems affecting the character of university education, and secondly, of the qualitative nature of education which the new life of freedom poses with the urgency unknown before."

The Chancellor Shrimati Padmaja Naidu, the Vice-Chancellor, Prof. N. K. Sidhanta also addressed the new Degree holders on both the days.

On the first day, the Chancellor Shrimati Naidu, and the Vice-Chancellor, Dr. Sidhanta, referred to the increasing desire for higher education and the problems that had arisen out of it. Shri Chandavarkar said that the decline of virtue among the elders was making the younger generation cynical to all talk of virtue or standards.

The Chancellor said that under the economic stress of life, thousands of young men and women, especially displaced persons, came forward to take Degrees. It was "a matter of life and death for them" because the chance of securing employment depended on it. The supreme importance of this aspect could not be under-estimated, especially in West Bengal where unemployment was acute.

Shrimati Naidu deplored the lack of accommodation in colleges, of equipment, laboratories, libraries and health centres for the students. There was also the lack of personal contact between the teacher and the taught. The University was consequently unable to maintain the high quality of education that was its purpose and ambition.

Shri V. N. Chandavarkar said that an objective appraisal of the Universities made one aware of the fact that it was not so much the standards of instruction as those of virtue that were on the decline. Many blamed the students for this unfortunate development. It appeared to him that the much-talked-of problem of student indiscipline must be viewed against the background of wide-spread indiscipline among elders, whether inside Universities or outside.

Dr. Sidhanta said that the desire for University education continued unabated and increasing enrolment posed problems as before. The number of students in different faculties had now reached the all-time record of 125,000. During 1955-57 students in I.A., I.Sc., B.A., B.Sc., and B. Com. classes of the affiliated colleges showed an increase of 20,000 in Calcutta and of 6,000 outside the city.

There were about 70,000 students in arts, science and commerce in Calcutta colleges. Of them, 53,000 were in seven institutions. It was not easy to reduce the number of college students without a reorganization of the structure of secondary and higher education.

Referring to the problem of paucity of teaching personnel in some subjects in the existing institutions, Dr. Sidhanta said that they had to think of ways of training a larger number of students at the post-graduate stage, especially in science subjects.

CITY-NEWS-PARADE

OBITUARY: The death of Dr. G. N. Sinha, M.D., occurred at his residence in the city on Saturday, the 17th January last. He was 72.

The late Dr. Sinha took his Doctorate Degree from Kansas City University in 1914. He was Principal and Superintendent of the Calcutta Homoeopathic Medical College and Hospital for over 20 years. The first elected President of the General Council of the State Faculty of Homoeopathic Medicine, West Bengal, he was associated with the Calcutta Homoeopathic Hospital Society for 30 years.

Shri Hemendra Nath Roy, formerly Professor of Chemistry and one-time Vice-Principal of the Braja Mohan College, Barisal, died on the 5th January last.

Born in Japsa, in Faridpur District now in East Pakistan, the late Shri Roy joined the B. M. College in 1918 and worked there till 1954. In Barisal he was Secretary and later President of the Barisal Ramkrishna Mission.

The death of Shri Jnanendra Nath Mitra, a journalist and social worker, occurred recently. He was 57.

The late Shri Mitra had worked in Forward, Liberty, Amrita Bazar Patrika and Nation. Later on he joined the West Bengal Government's Publicity Department.

GURU GOBIND SINGH'S Birth Anniversary was observed by the Sikhs in the city by taking out a procession on Wednesday, the 14th January last. Organized by the Sri Guru Singh Sabha, the procession started from Rash Behari Avenue and moving along main thoroughfares terminated at Gurdwara Bara Sikh Sangat on Mahatma Gandhi Road, northern part of the city.

Shri Guru Granth Sahib, the Holy Book of the Sikhs, and portraits of Guru Nanak and Guru Gobind Singh were carried on a decorated lorry in the procession. At its head were 25 horsemen.

About 25,000 people were fed at the free kitchen at Gurdwara Jagat Sudhar on Rashbehari Avenue, South Calcutta, in that connexion on Friday, the 16th January last. Throughout the day *kirtans* and *bhajans* were sung. Reading of the 1,430-page book, the Grantha Sahib, was completed on that day. Devotional poems on Sri Guru Govind Singh were also recited.

Shri Raghubir Singh, M.P., addressing a gathering at the Gurdwara, said the Sikhs had a glorious tradition of struggle and self-sacrifice. They must not fritter away their energies by widening minor differences.

ALDERMAN G. BASU was given a Reception, on his appointment as Sheriff of Calcutta, by the Bengal National Chamber of Commerce on Monday, the 19th January. Shri Basu was formerly President of the Chamber. Shri D. N. Bhattacharya, the Chamber's President, who presided, referred to Alderman Basu's services to commerce and industry.

Replying to the sentiments expressed on the occasion, Alderman Basu mentioned the vital role that the Bengal National Chamber of Commerce played in the sphere of trade and commerce in the post-independence period. He said further that he tried to help the Chamber through his humble services. He was not an industrialist but being in the profession which was closely connected with commerce and industry as well as common people he helped it by information of rapid changes.

Alderman Basu further argued that the Chamber should reorient its policy in the context of the of the people. If the

the needs of the people they would be able to help the people of the country.

It may be recalled here that Alderman Basu, Sheriff of Calcutta, has been appointed Fiscal Agent of Rotary International for India in place of Sir Sapoorji Bhilwadia of Bombay. The Fiscal Agent will be required to handle finances for Rotary International of over 200 Rotary Clubs and 7,000 Rotarians.

CHILDREN'S TREAT organized by the Calcutta Rotary Club was held on the lawns of the National Library, Balyodere, on the 18th January. The children, whose age varied between eight and twelve years were drawn from charitable institutions, orphanages and refugee camps. They were numbered about 1,300, and they belonged to communities including Chinese and Anglo-Indians and. They were served breakfast, lunch and and enjoyed a number of sports events.

A mass drill was inspected by State Chief Minister Dr. B. C. Roy. One of the organizers said that the Club had been arranging such functions once every year since 1924.

BEPIN BEHARY GANGULY, the revolutionary leader of Bengal's Fifth Death Anniversary was observed in the city through a meeting held on Wednesday, the 21st January in the Indian Association Hall, Bepin Ganguly Street, with Shri Monoranjan Gupta, M.L.C. in the chair.

Eloquent tributes were paid to his memory by different speakers who recalled their long association with that noble soul dedicated to the country's cause.

Alderman Bejoy Singh Nahar, M.L.A., Shri Asutosh Kahali, Shri Phanindra Nath Mukherjee were among the speakers.

CONTINUED U. C. R. C.'s DEMONSTRATIONS went on with persons courting arrest almost on each working day. Eighty-nine refugee demonstrators were arrested near the crossing of Esplanade East and Dacres Lane, Calcutta, on Tuesday, the 20th January, when they tried to push through a police cordon in an attempt to march to Writers' Building. Fifty-six persons, including 32 children, were arrested on Monday, the 19th January in the same movement launched for the rehabilitation of refugees in West Bengal. Earlier, the movement kept alive throughout the week.

INSTITUTE OF EDUCATION FOR WOMEN, HASTINGS organized its Annual Re-Union Week commencing from Saturday, the 17th January last. Inaugurating the week the Chief Minister told the meeting, attended by guardians, teachers, trainee-teachers and students, that the study of history, geography, arts, literature, and science, was essential but not enough. Education must enable a man to understand the realities of life; it must see there "is a liaison between man and his circumstances". Dr. Roy also briefly outlined how teachers should be trained and what cardinal principles should guide education.

The Chief Minister pointed out that teachers and would-be teachers must remember that the study of books alone was not all. Books must lay the foundation for man to build up his manhood and for man to see that his personality was developed and potentialities were realised, he said.

Earlier, the Principal of the Institute, Shrimati Nalini Das, narrated the activities of the College. She also apprised the audience the progress achieved by the institution in that branch, art of teaching.

In the premises of the institution, an exhibition of teachers' handwork, drawing, charts, maps, nursery educational materials and other things was opened on Saturday. There were cultural functions also participated in by students.

Symposia arranged on the evening, spreading over the week, devoted on different educational branches. These were presided over by men of expert knowledge.

CORPORATION NOTICES

To Contractors.

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-miseries by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, BAR-AT-LAW
Supt., S. S. Hogg Market.

'REPUBLIC DAY'

"DESPITE handicaps and numerous difficulties, which planning in such a vast country as India of necessity involves, we have gone on, and intend to go on, from plan to plan till we have made sure that every citizen of the Republic can have a reasonable standard of living and enjoys a measure of social security.

"By many India is looked upon as a bulwark of peace and as a nation which stands for the progress and freedom of all nations, which recognizes diversity in the pattern of ideologies and administrations and which, at the same time, believes that given mutual goodwill and tolerance, all these diverse patterns can co-exist. The fact that we are trying to solve our problems by well-recognized democratic methods adds to the appreciation.

"THE task of raising a new edifice has been entrusted by fate to you, for you are the builders of a New India. Can any sacrifice be too great to see that you have done your duty and helped your Nation, that has tasted the fruit of freedom after a long spell of foreign domination, to reach its destiny?

"IN these recent years we have seen the spectacle of a gigantic effort to mobilize the whole nation to develop its resources and to reconstruct its economic life.

"WHAT is of utmost importance is the spirit of sacrifice, the willingness to give voluntarily in the present in order to have more in the future through our own efforts. It would be wrong to imagine that austerity as a virtue belonged only to the past, or that the spirit of sacrifice is not needed to build up a free nation. If anything, there is a greater need for this spirit to-day than it was before when we were engaged in the struggle for freedom.

"It is well to remember that our Republic is still young, but it is growing at a pace which fills our hearts with pride and gives not only to us but to our friends outside as well a sense of satisfaction.

"In the midst of nation rejoicings, I have perhaps struck a different note, but truly speaking, the two are not at variance with each other. Rejoicings which flow from a sense of responsibility are truly rich and abiding. I wish you all the best of luck and prosperity in the coming years."

EXTRACTS FROM THE BROADCAST MESSAGE OF THE PRESIDENT,
DR. RAJENDRA PRASAD, ON THE EVE OF THE 'REPUBLIC DAY'.

CALCUTTA CELEBRATES 'REPUBLIC DAY'

A MOMENTOUS RESOLUTION was adopted in the Lahore Session of the Indian National Congress in 1929 for COMPLETE INDEPENDENCE FOR INDIA and on the 26th JANUARY, 1930, the whole India celebrated the Day as a token of its pledge in order to reach the goal. Since then the country struggled hard, people suffered and sacrificed, laid down their lives for that cause and even there was exchange of arms to achieve that end which was considered the birthright of every human being. And at last a SOVEREIGN DEMOCRATIC REPUBLIC OF INDIA emerged into the soils of the country on the 26th January, 1950, in significance of that earlier resolution. Pledges were renewed, people were re-assured and fresh ideologies were allowed to grow in the minds of the citizens.

THE NINTH ANNIVERSARY of the Indian Republic, this year is in observance of that old promises, a swearing in of furthering those undertakings to build up "ruined India economically, politically, culturally and spiritually." It is a solemn and significant ritual which the downtrodden Indians cherished long years in the hope that 'Complete Independence' would bring for them the 'full opportunities for growth'. On attaining independence India has welcomed all attempts of world co-operation and federation. She has, at the same time, followed the path of peace, co-operation and respect for other countries.

CALCUTTA whose role in achieving India's Independence is not an insignificant one, rather a glorious part it had played in the past in this direction, also observed the day solemnly with the rest of the country.

THE GOVERNOR, Shrimati Padmaja Naidu, took the salute at a combined ceremonial military and police March Past on Red Road, Maidan, towards the morning. This was followed by a cultural tableaux arranged on about ten lorries. The column, was taken through a separate route to the north and south of the city. In the evening, the north face of the Raj Bhavan was illuminated.

CALCUTTA CORPORATION's celebrations included a Flag Hoisting Ceremony on the lawns of the Market Square, south of the Central Municipal Office Buildings, in the morning. The Chief Executive Officer Shri P. C. Majumdar presides.

JANUARY, 26, was a public holiday. The Government permitted the hoisting of the National Flag on private buildings, places of work, commercial and industrial premises.

There was a State Reception also in the evening at Raj Bhavan.

The All-India Radio, Calcutta Station, broadcast a special programme in that evening, which included 'Naba Bharat' a feature in Bengali highlighting country's progress in these years. Talks were also given by State Ministers.

'SANCTIFIED WITH THE GLORIOUS PAST'

CALCUTTA CORPORATION's contributions in achieving Independence of the country was once again remembered by the citizens on this occasion. A pleasant function was arranged to celebrate the occasion on the lawns of the Market Square.

The function started with the chanting of *Bande Mataram*. The Chief Executive Officer, Shri P. C. Majumdar, I.A.S. (Retd.), unfurled the Tricolour amidst cheering sounds while the music *ফাঁসীর মতো গেলে গেলে বারো জীবনের জরগান.....* went on. Wreaths were also placed on the 'Saheed Bedi' erected specially for the purpose by Shri Majumdar first. He was followed by Councillors J. L. Saha, M.L.C., and Kumar B. Deb Rai Mahasai, Shri A. K. Basak, Deputy Commissioner, Shri Abinash Bhattacharyya, and others.

Specifying the date as a memorable one, Shri Majumdar paid tributes to those martyrs who sacrificed their lives for the cause of country's Independence. He said that the Independence was brought to this country by men including Mahatma Gandhi and Netaji Subhas Chandra Bose.

Shri Majumdar also said that the future history would display the true picture of those incidents. On that day everybody should imbibe the idea that the Independence had to be maintained through an united effort by renewing the

and service to the country. He concluded his speech with JAI HIND.

The others who addressed the meeting were Councillors Saha and Deb Rai Mahasai, Shri Bhattacharyya and others. Many of them also referred to the past activities of this citadel which played no less important role than other similar institutions.

The function ended with the National Anthem. Music was provided by the Pura Pratisthan Natya Samity.

'TABLEAUX HIGHLY APPRECIATED'

Army, Navy and Air Forces personnel, Police Officers and men, members of the Territorial Army, National Volunteer Force and ex-Servicemen, totaling about 2,800, participated in the 'Republic Day Parade' on Red Road towards the morning. The Governor, Shrimati Padmaja Naidu, took the salute at the March Past. The parade was under the command of Brigadier M. C. Mehta, Sub-area Commander, Fort William.

Thousands thronged both sides of the road, which was decorated with arches and hundreds of tricolours. The bands of the Jat Regiment, West Bengal Police (E.F.R.) and West Bengal Armed Police, standing opposite the saluting base, played martial music.

The ~~which~~ ~~received~~ warm welcome in the crowd, scenes from the industrial, agricultural and cultural life of West Bengal. The most impressive float, which incidentally was the first, carried musicians who played *sans*. It represented subjects on Durgapur, jute, cottage industries, power projects, fishing, national savings scheme, vocational training in schools and *baul* singers. Decorated lorries carrying the tableaux also paraded the main thoroughfares throughout the city both north and south and returned to the Brigade Parade ground. They were kept on show for one day.

A senior and a junior division of the National Cadet Corps girls took part in the parade. Then came ex-Servicemen, St. John Ambulance and Special Constabulary. The mechanized units passed with tanks, armoured cars, mortars, signal and amphibious vehicles and were followed by Air Force rescue vehicles, police wireless vans, Fire Services vehicles and Army breakdown vehicles. Another unit joined from the West Bengal National Volunteer Force.

In connexion with the parade traffic along Casurina Avenue between Queensway and Kidderpore Road and others were diverted.

GOVERNOR'S MESSAGE

The State Governor, Shrimati Padma Naidu, in a message, broadcast from All-India Radio, Calcutta, gave a call to the youth to make a careful study of the progress of the Second Five-Year Plan and prepare themselves in all ways to undertake the great responsibilities that they would have to do in near future.

Explaining the progress made by the State during the last one year in various fronts Shrimati Naidu assured the citizens with her observation that the food situation in West Bengal promised to be satisfactory this year. The food crops in the State, she added, had been good "beyond expectation". "There have been bumper crops also in the neighbouring State of Orissa and large imports are already coming from Nepal", the Governor said.

AN IMPRESSIVE 'MARCH PAST'

The Jat and Garhwal regiments, headed by their colourfully dressed pipe bands, led the March Past. They were followed by a contingent of Gurkha Rifles. Then came two small but smart contingents of the Navy and the Air Force. The Territorial Army and the National Cadet Corps units were no less smart than their opposite numbers in the Defence Forces. Both West Bengal and Calcutta Armed Police contingents in familiar khaki uniforms made an impression. Members of the Calcutta Mounted Police followed with their lance pennons fluttering.

INCORPORATED LAW SOCIETY OF CALCUTTA

The Silver Jubilee Celebrations of the Incorporated Law Society of Calcutta was presided over by the Chief Justice of Calcutta High Court, Shri Kulada Charan Das Gupta, on Thursday, the 22nd January last, who said that it was difficult sometimes to interpret laws because they were not always enacted in easily intelligible terms. This, added to complications of facts in cases, causes further complicated litigation.

Referring to criticism of the dual system in the legal profession, the Chief Justice said that he was a believer in division of labour. It ensured better work. But, at the same time, he advised Attorneys to remove all causes of just complaint. They should see that cases were not made unduly expensive.

'REPUBLIC DAY' HONOURS

Among the recipients there were many citizens of this city. The three recipients of Padma Vibhushan, which is made for exceptional and distinguished service in any field, are Dr. John Matthai, India's former Finance Minister, Dr. Radha Binode Pal, a leading jurist of International repute, and Shri G. L. Mehta, India's former Ambassador to U.S.A.

The Calcutta University's Vice-Chancellor, Dr. Nirmal Kumar Sidhanta was the recipient of Padma Bhushan award.

Shri Mihir Sen, the Channel Swimmer and Jamadar Milkha Singh, Olympic Athlete, have been awarded Padma Shri.

Shri Hari Sadhan Ghose Chaudhuri, I. P., (Offg.), Inspector General of Police, West Bengal, has been awarded President's Police and Fire Services Medal for his distinguished services.

OTHER FUNCTIONS

As in the previous years, wreaths were placed at Gandhi Chat, Barrackpore, on behalf of the Governor and the West Bengal Government. Flag hoisting and illumination of the north face of Raj Bhavan in the evening were the other features of the celebrations. The Telephone Bhavan in Dalhousie Square was also illuminated.

Over 19,000 people visited the Alipore Zoological Garden. The Indian Museum and other places of interest also attracted large crowds during the day.

Concluding his speech, Shri Das Gupta appealed to the profession to maintain the good name of Calcutta High Court and wished the Society many more years of useful service to the people.

Shri A. K. Sen, Union Law Minister, inaugurating the celebrations, said that Calcutta High Court was the oldest in India, and the Law Society was also very old. Shri Sen held that criticism of the dual system on the Original Side of Calcutta High Court was not always correct. In a big industrial and business centre like Calcutta it was not always possible for litigants to run after individual lawyers.

Shri S. M. Bose, Advocate-General of West Bengal, said that the dual system had been in practice for a long time. He hoped the Society would always strive to maintain a high standard of efficiency.

CALCUTTA'S HOMAGE TO THAT DEATHLESS HERO

THE TWENTY-THIRD JANUARY marked the Sixty-second Anniversary of SHRI SUBHAS CHANDRA BOSE, who worked up a revolution in India, fought thrilling battles to win over the country's independence in the eastern frontiers and built up an independent kingdom there being recognized by men of the then world politics during the wake of the Second Global War. Thus Netaji lived dangerously and sometimes stood against established ways of thinking and habits of his own time. It was his mission in life to raise India's submerged millions to life and real life for which we still fight for. The passionate love for country with which he was imbued, inspired him to do so. And so Subhas Chandra still lives in the minds of his countrymen with an intense love and adoration which has few parallels.

SIXTY-THIRD BIRTHDAY was celebrated this year on a bigger scale and with more enthusiasm than in previous years throughout the country. But Calcutta's celebrations added special lustre and grandeur on this occasion. It was celebrated in countless homes and numerous public places with almost ritualistic fervour.

THE CENTRAL RALLY at Maidan which was the main feature of the day, being presided over by the Mayor, Dr. Triguna Sen, called upon the West Bengal Government to erect immediately a statue of Subhas Chandra in some prominent place of the city. The statue would be dressed in a uniform as the Head of the Azad Hind Government and as the Supreme Commander of the Azad Hind Fauz. Another demand was made for erecting a similar statue of Netaji in front of the Red Fort, New Delhi.

THE MEETING, followed by three mile-long processions carrying big size portraits of Subhas Chandra Bose in different stages of his life, was one of the biggest crowds rarely seen in this city. The processions, started from three directions, included bands, cyclists and others.

THE CORPORATION's function was most solemn as well as impressive one. Celebrated within the Council Chamber, Central Municipal Office Buildings, gaily decorated with flowers and foliage, homage was paid to Netaji Subhas Chandra Bose. Garlands were placed at the foot of the life-size portrait of Subhas Chandra, in military uniform, by the Mayor, Dr. Triguna Sen, the Deputy Mayor, Shri Keshab Chandra Basu, and others including officials, amidst cheers and chanting of national songs. Short speeches were also made.

AT NETAJI BHAVAN, Elgin Road, long queues of visitors waited outside its gate after an Exhibition had been opened there by Dr. Kalidas Nag towards the earlier part of the day. Wreaths were offered at the statue of Netaji on behalf of the West Bengal Governor. Shri Atul Bose presented a portrait of Netaji, drawn by him, to the Netaji Research Bureau. The Bhavan was illuminated throughout the week where a week-long programme was gone through. There were also fireworks on that day.

The Exhibition displayed many of the unpublished letters of Subhas Chandra written during 1940, when the country was passing through a critical phase, and a number of press cuttings showing their remarks on him in different stages of his life. There were talks also on Netaji by persons like Prof. Kshitish Prasad Chattopadhyaya, M.L.C., Shri Hari Kumar Chakravarti, M.L.C., and others.

Exactly at 12-15 P.M. the time when Subhas Chandra was born, housewives blew conch-shells in residential areas of the city to mark the auspicious moment.

THE MAHAJATI SADAN, on Chittaranjan Avenue, was decorated with flowers and bunting. A meeting was also held there in the morning wherein Shri Hemanta Kumar Basu, M.L.A., presided. Speakers included the Mayor, Dr. Triguna Sen, who hoisted the National Flag, and many of the Councillors. The Union Minister, Shri A. K. Sen was the Chief Guest. The building was illuminated at night.

THE ALL-INDIA RADIO, Calcutta Station, broadcast a special programme. It concluded with a talk in Bengali 'AZAD HIND FOUZE SARBADHINAYAK'—by Shri Haridas Mitra, M.L.A. The Subhas Saga relayed from Delhi Station depicted the miraculous escape from his Calcutta residence in 1941 based on an eye-witness incident, and the story ran till his return to the Malayas after Subhas Chandra's ninety-day dash in a sub-marine from Germany. The script was supplied by the Sarat Bose Academy, Calcutta.

The day was a public holiday in West Bengal. The Calcutta Corporation is the pioneer in declaring the Day by observing a holiday for last few years.

IT IS FUTILE TO REMEMBER HIM UNLESS IDEALS ARE FOLLOWED

INVOKING the brief ceremony with the singing of *Bande Mataram* in chorus, the Corporation's impressive function began. Amidst re-iterated sounds of the well-known song, 'বন্দে মাতরম'..... the Deputy Mayor, Shri

Keshab Chandra Basu, was the first to place a garland at the foot of the Netaji Subhas Chandra Bose's portrait hung on the wall of the Council Chamber. The portrait in uniform of the Supreme Commander of the I. N. A. was most vividly drawn by a Japanese Artist and handed over

**'NETAJI SUBHAS CHANDRA' BIRTH-DAY CELEBRATION IN
CORPORATION**

The Deputy Mayor, Shri K. C. Basu, placing a garland on the foot of the life-size portrait in military uniform in the Council Chamber, - Central Municipal Office Buildings.

A VIEW OF THE EXHIBITION OPENED IN NETAJI BHAVAN

The display of 'Subhas Chandra in the guise of an Italian' being looked into by (from right) Prof. Count Arnold Keyserling, Dr. Kalidas Nag and Shri Anniya Nath Bose.

OF SUBHAS CHANDRA PARADING
THE CITY STREETS.

to the Corporation by the Indian Prime Minister, Shri Jawharlal Nehru, to whom it was first presented. Two other life-size portraits of Deshabandhu Chittaranjan and Deshapriya Jatindra Mohan on its both sides, were also equally bedecked with flowers.

The Mayor, Dr. Triguna Sen, then placed a garland there. He was followed by Councillors Anil Maitra and Dharendra Nath Bose, the Chief Executive Officer, Shri P. C. Mazumdar, I.A.S. (Retd.) and other officials while the music went on.

Paying his homage to that great leader whose voice once thundered the Chamber, the Deputy Mayor remarked that it would be fruitless in observing the Day unless the citizens in general follow his teachings and sayings. 'To trod over his footprints are the best regards which one can show to that great philanthropist in this Corporation' added Shri Basu.

Describing Subhas Chandra as one of the greatest men that Bengal, nay India had produced the Deputy Mayor said that Indians owed a great deal to that noble soul who fought to the last to throw up the country's shackles of an alien rule. To remember him only on that auspicious day

would never be a significant amount of regard shown him, he said while appreciating Netaji's services in bringing India's independence.

Councillor Anil Maitra regretted that the country had not lived up to the ideals of Subhas Chandra. He said that to pay homage would be to imbibe oneself with those ideals.

Councillor Dharendra Nath Bose said that the present Corporation had a noble task to fulfil and that would be served in the best way by following Subhas Chandra's ideals laid in the past to carry on the Corporation's activities. He also said that the citizens should not abandon the noble ideal of *service to humanity* once practised by that leader.

The function concluded with the renderings of the National Anthem. The music was provided by the Pura Pratisthan Natya Samity—mostly on chorus. A few were also solos in the voice of Shri Himaghna Roy Choudhury.

Among those present were Alderman Dr. Amiya Kumar Bose, Councillors Mukur Sarbadhikari, Raj Satyen Mitra, Kamal Paul, Chandra Sekher Bhowmick, Nanda Dulal Srimany and others including Shri A. K. Basak, B. Ghosh, Deputy Commissioners and Shri A. K. Sen, Chief Engineer.

'A PASSIONATE PATRIOT WITH INTEGRITY'

Presiding over the central rally to celebrate the Birth-day at the Maidan the Mayor, Dr. Triguna Sen, gave a call to the youths of Bengal to be true to the ideals of Netaji and rise to fight all corruption, jobbery and social injustice under which the people were groaning at the present moment. He made a frank confession that many among the old leadership had failed to fulfil the pledge. Hence as citizens of a free country youngmen must assert themselves to carry forward the great task of social revolution and reconstruction which was Netaji's ardent dream and desire.

Sitting from left :—Shrimati Lila Roy, and the Mayor, Dr. Triguna Sen, and Shri Hemanta Basu, standing on the right.

PHOTO : S.B.

Recalling the bold idealism of Netaji to make India completely free and reconstruct it in such a way so that there would be no misery, unemployment, corruption, jobbery and self-seeking leadership. Dr. Sen said that it was for the leaders of the country to answer the query of the public on these points.

With an appeal to the youth to carry forward the struggle waged by Netaji, Dr. Sen stood for uncompromising fight against such evils in the society and hoped that the country should follow that path faithfully as free citizens.

The meeting adopted a resolution calling upon the Government of West Bengal to erect a

statue of Netaji Subhas Chandra in Calcutta at a suitable site as the Head of the Provisional Government of Azad Hind and as the Supreme Commander of the Fauz. Demanding to declare both the 23rd January as well as the 21st October as holidays in recognition of the Provisional Government of Azad Hind proclaimed by Netaji the meeting passed another resolution. There was the third demand for withdrawal of the case pending against those volunteers taking part in the movement for installation of Netaji's Statue on the Chowringhee-Park Street crossing.

The meeting also desired erections both in Calcutta and in Delhi of a replica of the I.N.A. War Memorial at Singapore which the British Government had destroyed. It demanded that the I. N. A. personnel be reinstated in the Indian Army in the ranks held by them.

The resolutions were moved and supported by Shri Hemanta Kumar Basu, M.L.A., General Secretary of the Central Celebration Committee who acted as Chief Guest, Shri Subodh Chakraverty, Shri Makhan Pal, Shrimati Leela Roy the Chief Guest, and other speakers.

Shrimati Roy also said that it was no use of paying lip services to Netaji's ideals. Those who loved him and had faith in them should prove their faith in that great leader by personal deeds.

Shri Basu said that Netaji's ideal was to bring about a social order in the country in order to liquidate the social injustice still then prevailed. On this occasion everybody should dedicate himself to fulfil that task, he appealed.

Shri Jyotish Joardar urged upon the youth to be organisers in bringing down a social revolution which Netaji had dreamt.

Shri Amiya Nath Bose, Bar-at-Law, in his speech narrated what he had heard and found about the exploits of Netaji in Japan, Germany and other foreign countries.

After the meeting there was display of fireworks. A programme of national songs was also gone through.

'YOUNG GENERATIONS SHOULD IMBIBE NETAJI'S IDEALS'

The celebration arranged at the Mahajati Sadan was equally spectacular and was attended by a big crowd. In his presidential address Shri Hemanta Kumar Basu exhorted the young men and women of India to emulate the example of Netaji by shedding fear of every kind and to devote the last ounce of energy in fighting all that was standing in the way of realization of the social order as envisaged by Netaji.

The Mayor Dr. Triguna Sen who hoisted the National Flag, called upon the young generation to be imbued with the fearless spirit of Netaji Subhas Bose. It would be futile, he added, for them to celebrate the birthday of the great hero who had sacrificed his last ounce of blood for the freedom of the country, if the young generations do not strive to live up to his great ideals.

The Union Law Minister, Shri Asoke Sen, said that anyone who thought that India's struggle was at an end with the achievement of freedom would be a betrayer to the ideals of Netaji. He reminded his audience that Netaji fought for establishment of a socialist state in India which would work for the welfare of its teeming millions, assure equal opportunities for all the inhabitants and wipe out all disparities in the economic and social fields.

Councillor Abdur Rouf Ansari said that Netaji's great life should provide a perennial source of inspiration to the young men and women of India on whom would soon devolve the responsibility of building up new India.

Shri Dhiren Bhowmick, Joint Secretary of the Central Committee, urged that lectureship on Netaji should be introduced in all Universities, particularly in West Bengal.

Shri Ramlagan Singh, M.L.C., Councillors K. L. Dhandhanian, Mukur Sarbadhikari, Dhiren Bose and others also spoke.

AT TIFFIN ROOM

The Employees' Tiffin Room owes its existence to Subhas Chandra Bose, when he was the first Chief Executive Officer. A special impetus was given to it when Shri Bose adorned the Mayoral Chair. The function arranged there was also a befitting one as in previous years. It was ended with a cultural display including a programme of solo and chorus songs, as well as a demonstration of magic feats.

Shri Pratap Chandra Guha Roy, M.L.C., who presided over the function, Shri P. C. Majumdar, Chief Executive Officer, who also acted as the Chief Guest, Councillor Anil Maitra, Shri Benoy Jiban Ghosh, Deputy Commissioner, Shri Abinash Chandra Bhattacharyya, Secretary of the Employees' Association, Shri Anirudha Sanyal, Secretary of the Tiffin Room, and others paid homage to Subhas Chandra.

Shri Majumdar felt that the Corporation should follow the path once prescribed by Subhas Chandra in its march towards the well-being of the citizens while Shri Ghosh regretted that those ideals were gradually on the wane since the country had achieved her independence.

OTHER FUNCTIONS

At a largely crowded meeting held in this connection at Raja Subodh Mullick Square, central part of the city, Shri Amar Basu, M.L.A., referred

to the political far-sightedness of that leader who sacrificed everything for the cause of country's independence.

The President, an ardent follower of Subhas Chandra, also emphasized the significance of holding the meeting there as a 'site where once Subhas Chandra resigned the Presidential chair of the Indian National Congress in 1939 as a protest against the then Congress High Command's weak-spirited policy.'

Speakers in that meeting included Dr. Narayan Roy, M.L.A., Councillors Samar Kumar Rudra, and Dr. Himangshu Das, Shri Haridas Ghosh and others.

At DESHABANDHU PATHAGAR, Sarat Bose Road, South Calcutta, where Subhas Chandra happened to be its first Secretary, celebrations included garlanding the portrait, speeches and singing of national songs.

Shri Satyaranjan Bakshi, a close associate of Subhas Chandra, recalled many of the incidents from Shri Bose's life demonstrating his sense of 'passionate' love for the country which Subhas

NETAJI—A SYMBOL OF BROTHERHOOD OF ALL ASIAN NATIONS

The President, Dr. Rajendra Prasad, described Netaji Subhas Chandra Bose as "a martyr who occupies a very high place in the history of the country's struggle for Independence."

Dr. Prasad who was addressing a public meeting in Delhi, also said that from the time Subhas Chandra was a student the only thing he thought of and worked for was the freedom of his Motherland. "His life is a shining example of selfless sacrifice and patriotism and will continue to inspire the generations to come" added he.

Earlier, addressing the meeting, the Japanese Ambassador to India, Mr. Seijiro Yoshizawa, said that Netaji was "as highly respected and as lovingly remembered" in Japan as in India. He is considered as the symbol of the brotherhood of all Asian nations.

Chandra grew in him. And probably this love, Shri Bakshi asserted, led him to leave his motherland in search of foreign aid for bringing in India's Independence. Shri Bakshi also did not believe the reported air-craft accident in Japan in 1945.

Shri Sunil Das, M.L.A., Shri Deven Sen, and others paid homage to Netaji.

In another function at Girish Bhavan, Bhupen Bose Avenue, North Calcutta, Shri Panchanan Bhattacharyya, M.L.A., presided. Councillor Rana-jit Coomar Mitter, and others spoke.

The citizens awoke with the familiar tunes of the Azad Hind Fouz songs sung in chorus by numerous mobile squads. The National Flag was unfurled amidst popular ceremonies at many public gatherings in the open spaces. Profusely garlanded portraits of Netaji were also installed at many street crossings.

VIEWS AND REVIEWS

DR. JULIAN HUXLEY IN CALCUTTA

In course of his five-week tour of India, Dr. Julian Huxley, the eminent scientist and author, reached the city on the 22nd January last. He was accompanied by his wife. After a brief stay in this city he left for Orissa within a few days.

At the airport Dr. Huxley dealt with various problems on being questioned by the Pressmen. Human biology was being affected, he said, as a result of nuclear tests. But the alarming growth of world population was largely stressed by him. In 1958 alone the total growth in the population was 47 millions. This year the increase might be 50 millions. This would be equivalent to the total population of some of the Western countries.

Two-thirds of the world's population was under-fed and a vast number was illiterate. It was getting more and more difficult to provide space for the increasing population, added Dr. Huxley who was scheduled to address the Conference of Universal Parenthood.

He could not believe that rapid industrialization would be an answer to the problems. Population control on scientific lines must be popularized. He thought that education was a pre-requisite to the success of this campaign but it was not necessarily of consequence.

The British Scientist felt that there was too much science and study of the humanities should not be lost sight of in the race for greater scientific pursuits. He also said that science too was linked with the humanities. "After all knowledge about ourselves, the humanities, is indispensable," he also said.

DR. JNAN GHOSH'S DEATH CONDOLED

The Corporation at its adjourned meeting on Wednesday, the 25th January, mourned the death of Dr. Jnan Chandra Ghosh, the eminent scientist, and adjourned its sitting for the day as a mark of respect to his memory.

Referring to the passing away of Dr. Ghosh, the Deputy Mayor, Shri Keshab Chandra Basu, said 'it is a misfortune that Bengal within a comparatively short space of time has lost Dr. Megnad Saha, one of the greatest scientists of the time and then Dr. Ghosh. The country is passing through a crisis and is planning strenuously for her reconstruction. At this critical juncture this land can ill spare the intellect of Dr. Ghosh. But in the inscrutable ways of Providence he has been snatched away from our midst, creating a void which is not to be filled in for many years to come'.

Shri Basu then recalled the eventful career of the late Dr. Ghosh which started under the guidance of Acharyya P. C. Roy, the father of modern chemical research in India. His notable contributions for the advancement of learning were also remembered at that meeting.

A Condolence Motion adopted by the House said :—

The Corporation places on record its deep sense of sorrow and irreparable loss at the sad death of Dr. Jnan Chandra Ghosh, an eminent scientist, gifted educationist, brilliant scholar

and efficient administrator, who for more than four decades rendered distinguished service and made conspicuous contributions to the development of science, industry and higher technical education hitherto unknown in this country. In his death the country has lost a noble son of sterling worth and feels distinctly poorer.

The Corporation also extended its heartfelt sympathy and condolences to the members of the bereaved family to bear the loss while offering respectful homage to Dr. Ghosh's sacred memory.

The Senate of the University of Calcutta, at its meeting on Thursday, the 29th January also condoled the death of Dr. Ghosh, a former Vice-Chancellor of the University and adjourned its meeting as a mark of respect to his memory.

CORPORATION CONDOLES DEATHS

The adjourned meeting of the Corporation also mourned the deaths of other prominent citizens namely Sir Vithal N. Chandavarkar, educationist, industrialist and ex-Vice-Chancellor of the Bombay University, Prof. Hari Pada Maity, noted psychologist and a former Professor of Experimental Psychology of Science College, Calcutta, Dr. G. N. Sinha, a former Principal and Superintendent of Calcutta Homeopathic College and Hospital, and Dr. B. B. Dey. The House stood in silence for two minutes to pay homage to their memory.

Paying eloquent tributes to the memory of Sir Chandavarkar, an ex-Mayor of Bombay, the Deputy Mayor, Shri Keshab Chandra Basu, said that the incident was the most pathetic one as 'only the other day he came to deliver the Convocation Address of the Calcutta University and the melancholy event took place while he was returning home.'

The late Sir Chandavarkar's election as Mayor of Bombay in 1932 was a fitting tribute to the interest he took in the city's affairs. After his Mayoralty, he became Vice-Chancellor of Bombay University. He was also Chairman of the Bombay Branch of the Indian Red Cross. From 1947 he was Chairman of the Council of the Indian Institute of Science, Bangalore. Knighted in 1941, the late Sir Vithal Chandavarkar was a man of unfailing courtesy and great charm.

The death of Dr. Dey in Madras at the age of 70 on the 18th January last was a loss to the scientific world, said the Deputy Mayor. He was also the first Indian Principal of the Madras Presidency College and the first Indian to act as the Director of Public Instruction in Madras, added Shri Basu.

The House also extended its sincerest condolences to the members of the bereaved families.

We also extend our sincerest condolences to the members of those bereaved families.

SHRI BIDHU SARKAR PASSES AWAY

With heavy heart we regret to announce the death of Sri Bidhu Bhusan Sarkar, an ex-Councillor of the Corporation, who died on Friday, the 16th January last, after a brief illness at Deoghar. He went there to regain his health some time ago. He was 70. His body was brought to Calcutta by car on the 17th January and was cremated at Nimtollah Burning Ghat. Besides his friends and admirers many of the Councillors and Corporation officials went to his residence at Belia-ghata Main Road, eastern part of the city to pay

SHRI BIDHU SARKAR

their homage to the departed. Several others also followed the funeral procession.

Wreaths were placed on his bier as a token of respect to his memory among others by the Pradesh Congress Committee, Bengal Provincial Hindu Mahasabha, West Bengal Samaj Seva Samity, *Amrita Bazar Patrika*, *Yugantar* and other organizations. The individuals who placed wreaths included Shri Hem Chandra Naskar, Fisheries' Minister, Alderman Bejoy Singh Nahar, M.L.A., and Councillor Samar Rudra.

The late Shri Sarkar was the Corporation Councillor from the Beliaghata Constituency for all the terms since 1924 till 1943. He served as Chairman and Deputy Chairman of many of the Standing Committees and Special Committees during this period. For some time he was a member of the Calcutta Improvement Trust. In Corporation he worked with such personalities as Deshbandhu Chittaranjan Das, Deshapriya Jatindra Mohan Sen Gupta, Netaji Subhas Chandra Bose, Dr. B. C. Roy, the present State Chief Minister and others.

The late Shri Sarkar was connected with many social and philanthropic institutions in his locality. He was Secretary of Narkeldanga H.E. School for nearly 30 years. During the great famine of 1943 he organized succour to famine-stricken people and saved many people from starvation by distributing food at his residence. He also contributed much in the re-settlement of displaced persons from the East Pakistan in West Bengal.

The late Shri Sarkar wrote several books, among his literary works being "Maharashtra Jagaran", "Asala Meki", "Karma Rahasya" and "Go Griha" written in blank verse.

The Corporation on Wednesday, the 28th January mourned his death and adjourned its sitting for that day. Paying tributes to his memory, the Deputy Mayor, Shri Keshab Chandra Basu, said that the late Sarkar was looked upon as a great pillar for his wise counsel and wisdom. Shri Basu also referred to his valuable service to the rate-payers of this great city. 'In his death we have lost an esteemed and respectable citizen', he added.

We extend our sincerest condolences to the members of the bereaved family.

PHOTO : S. B.

The Eighty-First Birth Anniversary of Dr. Charu Chandra Chatterjee was solemnly observed about a month hence, in the premises of the Charu Chandra College, Lake Road, southern part of the city, with Dr. Suniti Kumar Chatterjee, President, West Bengal State Legislative Council, presiding (sitting extreme left above). A beautiful portrait of Charu Chandra bedecked with flowers was placed inside the Hall of the College. The meeting urged the Calcutta Corporation to re-name Lake Road as 'CHARU CHANDRA ROAD' in recognition of the philanthropic activities of that great lover of humanity as well as to commemorate his lofty ideals.

The Mayor, Dr. Triguna Sen, who acted as the Chief Guest (sitting second from right), while paying tributes to his memory, appreciated the manifold activities of Charu

Chandra. Special mention was made by him about his services in building up the Agricultural College, Tollygunge, a source of employment to the educated youths of Bengal.

Paying his personal tributes to him, Principal Jitesh Chandra Guha (sitting extreme right), recalled the achievements of the late Shri Chatterjee who had an humble beginning.

The others who paid homage to his memory were Shri Rabindra Lal Sinha, M.L.C., Shri Sailendra Nath Roy, Chairman, South Suburban Municipality, Prof. Birendra Chandra Mukherjee, and Councillor Devaprasad Chatterjee, M.L.C.

Dr. Kshetra Mohan Basu, Principal, Charu Chandra College, inaugurated the function and it was concluded with devotional songs.

A BOXING TOURNAMENT IN THE CITY

[BY SHRI KANAI ROY, B.A.]

Held under the auspices of the West Bengal Boxing Association, Championship Tournament was arranged for the year 1958, in the premises of the Y.M.C.A., Wellington Street Branch, some time ago. The feats were as interesting as ever specially to those who had chances were to watch in Tournaments of previous years. Invitations were extended to all spheres of the sports field and entries were made by them including Railwaymen and Services.

This year's main attraction was the presence of Mr. Shin Mint, a winner of gold medal in this section during the last Asian Games, holding its session in Japan. Another winner of silver medal in these games also made his appearance in the field, Mr. A. Nyant.

It would be equally interesting to know that Shri Sakti Mazumdar, a Sergeant under this Corporation, presented a demonstration of his talents in that sphere which was of a high order. It may be recalled here that in earlier occasions he showed equal feats and earned laurels. He has the proud privilege of becoming Champion in Boxing in Burma, Ceylone and other neighbouring countries as well as to become a National

Champion in India. He was India's representative in the Olympic Games held in Helsinki in 1952. On this occasion he entered ring after a comparatively distant period of four years and knocked out Shri Vasudeva of the Services in the first round. In a spectacular fashion, Shri Mazumdar gave a fine display while beating the last year's Runners' Up Champion. They fought for some time with the motto 'They don't come back'. Mr. Joe Louis also cut a sorry figure when he faced Shri Mazumdar. Mr. Louis once earned the world's Heavy Weight Championship and held it for many years. Thus the success of Shri Mazumdar was largely elated by the audience as well as his well-wishers. May God grant him a longer life to earn fresh laurels for his Motherland India of which we all boast of.

What was most amazing was that the shifting of venue from this city to a petty distant place, Burnpur where an industrial belt is growing up gradually. It was most unwise on the part of the organizers to change the place from Calcutta which had produced so many talents and which still occupies an unique position in the field of India's Sports.

ST. JOHN AMBULANCE BRIGADE

CALCUTTA CORPORATION DIVISION

Strength of the Division in December, 1958 was as follows :—

Divisional Surgeon	1
Superintendent	1
Ambulance Officer	1
N C. O.	1
Private	40

Total 44

The Division rendered useful services to the public and among them the following deserve mention :—

Attendance to injured persons when on public duty, attendance to injured persons on other occasions, cholera inoculation & vaccination, collections made on Ambulance Day, Drills and Parade, First Aid Classes, Annual Camps and Inspections, Distribution of milk to the poor children and removal of injured persons to hospitals, etc.

WELFARE WORK

Among welfare works the following deserve special mention :—

Ganga Sagar Mela at Ganga Sagar; Annual Sports of the Indian School Sports Associations at Lake Maidan; Sibaratri Mela at Pasupatinath, Nepal—Dr. M. Goswami, Superintendent of the Division himself attending the work; Corporation Athletic Sports; Hockey Match in Maidan; Flag Day of St. John Ambulance Brigade; Attendance at Babu Ghat during Lunar Eclipse; Foot Ball Match at Maidan held under Calcutta Foot Ball League; Ratha Jatra Festival at Mahisadal, Midnapore; Cycle Race arranged by National Cycling Association; Festival at Amarpath Dham, Kashmir—Dr. M. Goswami, Superintendent, himself attending on this occasion; Sarbajatin Durgotsab at

Mansatala Park, Kidderpore; Kidderpore; Bizarjan at Daighat, Kidderpore; Motor Sports at Alipore Track near Majherhat; Kali Pujah at Mansatala; Sports of the Corporation School Children of Chetla in the Corporation Park, at New Alipore, near Durgapore Bridge; Vaccination Drive from January to March 1958; Inoculation Drive from April to June.

In all 250 cases of injury were attended to when on public duty and 350 cases of injury and 4 burn cases were attended to on other occasions; 2 burn cases were sent to hospital.

2 Inoculation and Vaccination centres were opened—one at 6, Wellington Square & the other at 46/2, Mansatala Lane under the supervision of Dr. M. Goswami, Superintendent. About 1000 persons were vaccinated and about 2500 persons were inoculated against Cholera in the Kidderpore, Tollygunge, District II and Cosipore areas.

Our members went out with Collection Boxes and Flags and collected money from the generous public on Ambulance Day and duly deposited the boxes with the Head Quarters.

The members attended 22 Drills during the year and were on public duty on 18 occasions.

FIRST AID CLASSES

First Aid Classes were held during the year under the auspices of this Division. Students numbering 86 attended the class of whom 31 students passed in the First Aid Examination.

Some members of the Division attended the Annual Training Camps this year at Lal Gola, Murahidabad.

MILK DISTRIBUTION CENTRE

One Milk Distribution Centre has been opened at 46/2, Mansatala Lane, Kidderpore under the supervision of Dr. M. Goswami, Superintendent, where about 150 children receive milk every day. Powdered milk is supplied by West Bengal Red Cross Society.

CITY NEWS PARADE

IM

from the time of
of Sri Aurobindo.

OBITUARY: The death of Prof. Haripada Maiti, the well-known psychologist, occurred at his New Alipore residence, southern part of the city, on Thursday, the 22nd January last. He was 66.

A former Professor of Experimental Psychology in the University College of Science, Calcutta, the late Prof. Maiti was the Director of the Child Development Institute of Patna University for some years. He later joined the B. M. Institute of Child Development and Psychology in Ahmedabad, as its Director. He was a member of the Senate of Gujarat University.

Prof. Maiti represented India at the last International Social and Child Welfare Conference in Tokyo. He presided over several sessions of the Philosophy and Psychology Sections of the Indian Science Congress. He toured the U.S.A. and European countries visiting educational institutions under Ford Foundation scheme.

The Corporation at its adjourned meeting on Wednesday, the 28th January, condoled his death. In his death we have lost an eminent psychologist, remarked the Deputy Mayor, Shri K. C. Basu, who presided on that day.

Shri Fatik Chandra Roy Choudhury, Chief Judge, Small Causes' Court, Calcutta, died at his residence on Monday, the 19th January last due to Coronary Thrombosis. He was 54.

The death was mourned by the Judges, lawyers and ministerial staff of that Court on the 20th January last.

SHRI NALINI RANJAN SARKAR, EX-MAYOR OF CALCUTTA'S Sixth Death Anniversary was observed with due solemnity on the 25th January, at the Hindusthan Buildings, Chittaranjan Avenue, Calcutta.

Wreaths were placed on the statue of the late Shri Sarkar by many of his admirers including Sir D. N. Mitra, Shri S. C. Roy, Shri S. D. Srinivasan, Shri P. N. Talukder and others. The statue in sitting posture is being placed at the main entrance of the Hindusthan Buildings, Chittaranjan Avenue, Calcutta.

M. N. ROY, WORLD'S RE-OWNED REVOLUTIONARY LEADER'S Fifth Death Anniversary was observed on the 25th January through a meeting in the University Institute Hall, central part of the city, with the Vice-Chancellor of the Calcutta University, in the chair.

The view that the nation would be rightly rewarded by discussion on the life and works of late M. N. Roy, Political thinker, revolutionary and intellectual, was expressed by various speakers who addressed the meeting.

In course of his Presidential address, Dr. N. K. Sidhanta said that Manabendra Nath was a great exponent of original thinking. There was indeed much originality in the differences he had with regard to the philosophy propounded by Marx and Hegel. Unfortunately, death took him away before the country began to pay serious attention to his thinking.

Dr. Sidhanta exhorted the younger generation to make detailed study of the life and works of late Shri Roy which would be good for them as well as to the country.

Shri Harikumar Chakravorty, M.L.C., said that the life of the late Shri M. N. Roy was a harmonious mixture of rationalism and mysticism. He blessed the trail of the

Prof. Srinarayan Roy said that the crowning achievements of the late Shri Roy was the initiation of the 'Radical Humanist' movement. He regretted that there had been no serious attempt in the country for compiling the biography of this great revolutionary. The great roles he had played as the inspirer of revolutionary youth movement in the country and a relentless fighter against helpless surrender to the wrong-deer, should be studied by the younger generations in order to benefit themselves.

NATIONAL GALLERY OF ART IN CALCUTTA'S building construction has been started at its new site on Cathedral Road, recently. This was announced at the closing function of the month-long Silver Jubilee Exhibition of Fine Arts at the Indian Museum.

The Academy's President said that the National Gallery of Art which the city would soon have, would be unique of its kind in India. Describing it as a great event in the 25-year history of the Academy, Lady Ranu Mukerjee expressed the hope that the Gallery would fulfil the artistic needs of this great city.

Welcoming the event, Shri Atul Bose, the noted artist hoped that the Academy of Fine Arts would have an era of greater success during the coming quarter of a century.

Dr. Nihar Ranjan Ray, M.P., said that he had been amazed by the variety, volume and vitality of contemporary Indian art.

RE-UNION OF THE STUDENTS OF CHITTARANJAN SEVA SADAN COLLEGE OF OBSTETRICS, GYNACEOLOGY & CHILD HEALTH was inaugurated by Dr. Nirmal Kumar Sidhanta, Vice-Chancellor, Calcutta University, on Friday, the 23rd January last. The re-union's scientific session holding on the 24th January last discussed the case of Ratna Bose, a nine-year-old girl, who has been suffering from congenital hypoplastic anaemia since birth and kept alive by over 150 blood transfusions.

Dr. Subodh Mitra, the Principal, reviewing the institution's history since its establishment in 1926, said that the Chittaranjan Cancer Hospital was the largest of its kind in the East and was fully equipped with radium apparatus and latest types of million volt and deep X-Ray Therapy apparatus. Several radioactive isotopes were used for treatment and researches under the sponsorship of the Union Government's Atomic Energy Department carried on during last few years. On an average 4,000 cancer patients were investigated and 1,400 admitted annually.

CALCUTTA EXPERIENCED A VARIED NATURE OF CLIMATE in recent days. Following a light shower on Tuesday evening, the 20th January last, the temperature dropped down. The rainfall was caused by a low pressure belt moving over the city's sky. Still the maximum and minimum temperature were above normal. The forecasts on the following days were fair to cloudy weather.

On Thursday, the 22nd January last, the city had further rains. According to weather experts this year's winter rainfall was so far slightly above normal.

On Friday, the 23rd January last, under the influence of western disturbances, the maximum temperature went below normal by 1 degree C while the minimum was above normal. The maximum temperature was 2 degree C below normal even on Saturday, the 24th January last, but the minimum was almost normal.

The forecasts for the rest of the days were fair weather with little changes in night temperature. Both the temperatures went above normal on those days accompanied by fogs. The deep fog very often caused disturbance to air

Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and cars should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

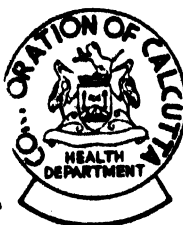

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CALCUTTA WELCOMES THE DUKE

GREAT AND WARM WELCOME was accorded to HIS ROYAL HIGHNESS PRINCE PHILIP, DUKE OF EDINBURGH, on his arrival at the Dum Dum airport from Madras on Monday afternoon, the 2nd February. Thousands of people crowded the airport since mid-day. Although the Duke came to this city on a un-official visit still when the special plane Comet IV, carrying the Duke touched the

Secretary, Shri S. N. Ray, introduced senior civil and military officials.

The Duke chatted with many of them, introduced to him.

A comparatively bigger gathering witnessed the Duke driving to the Raj Bhavan, accompanied by the Governor and the State Chief Minister, on both sides of the eight-mile route.

The Duke went through a programme which took him in quick succession to the Royal Calcutta Turf Club, the Calcutta Club and the Bengal Club before he returned to Raj Bhavan for a State banquet in his honour. He had a quiet dinner at night.

In a concentrated spurt through a fair cross-section of the local racing fraternity at the Turf Club, Maidan, the Duke of Edinburgh presented the Queen Elizabeth II Cup to the joint owners of Ridicular. It put everyone at ease and made the Club's annual cocktail party a truly memorable occasion.

As the Duke arrived at the Calcutta Club, Lower Circular Road, the band struck the Indian National Anthem. He was received by the Club President, Mr. A. C. T. Blease, who led him to the pandal. The Duke was at the Club for less than half an hour and he left behind him an admiring crowd who kept on talking about his radiant personality, great sense of humour and wide range of interests.

The Duke left for the Durgapur Steel Works next morning. After spending a couple of hours there, he flew to Jamshedpur.

When he stepped out of his Heron aircraft at Dum Dum returning from Jamshedpur on Tuesday, the 3rd February—he was looking fresh. He was received at the airport by Dr. R. Ahmed, West Bengal's Minister for Agriculture, and Shri S. N. Ray, Chief Secretary to the State Government.

After rest the Duke attended a Reception given in his honour by Major-General W. H. A. Bishop, U.K. Deputy High Commissioner, and Mrs. Bishop. Over 800 guests were present there with whom he spent some time. He spent the night at Raj Bhavan.

THE DUKE

land the Union Jack and the Tricolour fluttered from the masts of the Control Tower.

The West Bengal State Governor, Shrimati Padmaja Naidu, was the first to garland him (picture above).

She then presented Dr. B. C. Roy to the Duke and the Chief Minister introduced the Speaker, Shri S. D. Banerjee, Ministers and Deputy Ministers. The Deputy Mayor, Shri K. C. Basu, and the Sheriff Alderman G. Basu were there. Members of the Consular Corps were also present. The Chief

THE ROYAL COUPLE OF GREAT BRITAIN
HER MAJESTY QUEEN ELIZABETH II AND HIS ROYAL HIGHNESS THE PRINCE
PHILIP, DUKE OF EDINBURGH.

(Photo taken in the Music Room of the Buckingham Palace in 1957).

[BY COURTESY OF BRITISH INFORMATION SERVICE]

The Duke of Edinburgh was given a touching farewell when he left Calcutta for Dacca on Wednesday morning, the 4th February, after completing his 14-day Indian tour. Thousands of people lined either side of the route from Raj Bhavan to the airport to bid farewell to the Duke as he drove in an open tourer with the Governor, Shrimati Naidu, and the State Chief Minister, Dr. Roy.

At the airport a Guard of Honour drawn from the Jat Regiment was presented to him.

State Ministers and members of the Diplomatic Corps were then introduced to the Duke by

Dr. Roy. Before boarding the plane, he stood on the gangway for a few minutes, smiling and waving to the crowd at the airport.

Just on the eve of his departure the Duke through a message to the President of the Indian Union extended his thanks to the Indians for their cordial welcome to the Royal Guest during his 14-day tour of India. The Reception in Calcutta was most cordial one as expressed by the Duke. It indicated that Calcutta has lived to its old tradition in welcoming the highest Royal Dignitary.

VIEWS AND REVIEWS

PRINCE PHILIP

H. R. H. The Prince Philip, is the son of Prince Andrew of Greece. On his father's side the Prince is of Danish descent, related to the Royal family of Denmark. His mother was Princess Alice of Battenberg, who was naturalized in 1868 and during the first World War took the name of Mountbatten. Prince Philip is one of the Queen Victoria's great great grand-children. The prince was born on the 10th June, 1921, at Corfu, Greece.

Coming to Great Britain at an early age the young Prince joined at first a preparatory school, later remained in Germany for a few years and returned to Gordonstoun, near Elgin in Scotland after the Nazis rose to power. He was popular with his school fellows and known as a good sportsman. As a keen oarsman he qualified himself as a Sea Scout. He left school in 1939 and joined the Royal Naval College, Dartmouth. During the Second World War he was sent to Sea Services in different capacities from First Lieutenant to Second in-Command of a large destroyer and he became ADC to Lord Mountbatten, then Supreme Allied Commander, South-East Asia. He was present at the Japanese surrender in Tokyo Bay.

After becoming a British subject in February 1947, his engagement with Princess Elizabeth was announced. The marriage took place in Westminster Abbey on the 20th November of the same year. He was created the Duke of Edinburgh and other titles and honours were conferred upon him by the King George VI. Later on His Royal Highness became Admiral of the Fleet, Field-Marshal and Marshal of Royal Air Force. He is also Colonel-in-Chief of a number of Regiments.

Since the accession of the Queen Elizabeth II in December, 1951 Prince Philip has played an increasingly important role in nation's life. In the meantime he has associated himself with scientific and industrial developments of the country. He was President of the British Association for the Advancement of Science in 1951. He visited research stations and laboratories all over that country showing his interest in the application of scientific inventions and to study scientific work. His interest in sports is also equally keen. He opened the Olympic Games in 1956 at Melbourne, Australia. He has received several honorary degrees from different Universities.

As a past President of the British Scientific Association, the Prince represented the Indian Science Congress, Annual Session, held recently in Delhi. He was conferred a Doctorate Degree by the Delhi University. In this connection he has visited most of the centres of Industrial and Scientific Researches in India.

NETAJI'S STATUE TO BE INSTALLED

Calcutta Corporation, at its weekly meeting on Friday, the 6th February, re-iterated its old decision to instal an equestrian statue of Netaji Subhas Chandra Bose, at the five-point crossing at Shyambazar. The proposal was originally mooted up in 1954, and a decision was taken up by the then Parks Sub-Committee for erecting two life-size statues in the city, one for the world famous poet Rabindranath, located somewhere near Howrah Bridge, and the other for Netaji Subhas Chandra at Shyambazar.

Since then there were long hurdles and the Corporation's final move to erect an equestrian statue of Netaji at the above said site was finalized during the middle of 1958. But the sum of

Rs. 20,000|- only, originally provided in the current year's budget, has to be raised to Rupees One Lakh for the purpose.

In the meantime, the demand for a Netaji's statue became intense. Even demonstrations were held for the purpose. The demand was also re-iterated in different meetings. The biggest one to do so was the maidan mass meeting on the foot of the Ochterloney Monument, on the 23rd January last under the presidentship of the Mayor, Dr. Triguna Sen. The meeting among other demands wanted two statues of Netaji one in Calcutta and the other in New Delhi both in military uniform.

A similar demand was also made recently at a conference of the representative citizens held at Netaji Bhavan, Elgin Road. The meeting was organized by the Sarat Bose Academy.

All these might have prompted the West Bengal Government to take the decision for erecting a statue of Netaji Subhas Chandra Bose, somewhere in the city. Assurance was, however, given on the floors of the State Legislatures to that effect during their last winter session. It was further decided to convene a meeting of the citizens' representatives for the same.

Accordingly, a conference was convened by the Works and Building Minister, Shri K. N. Das Gupta, on Monday, the 2nd February at the Rotunda, Writers' Building. The participants included, among others, Shri K. P. Mukherji, Police Minister, Shri Ajoy Mukherji, Irrigation Minister, Shri Sankardas Banerji, Speaker of West Bengal Assembly, the Deputy Mayor, Shri Keshab Chandra Basu, Shri Hemanta Kumar Basu, M.L.A., Shri Bankim Mukherjee, M.L.A., Shri Amar Bose, M.L.A., Shri Haridas Mitra, M.L.A., and Alderman Bijoy Singh Nahar M.L.A.

The conference requested the Calcutta Corporation to co-operate with the State Government in the installation of a statue of Netaji.

There was a suggestion that along with the statue, a museum and a public auditorium should also be built up to perpetuate the memory of the great national leader when it was the concerted opinion to erect a single statue in this city.

The statue of Netaji Subhas Chandra Bose may be installed somewhere in Curzon Park or in any adjoining spot near Chowringhee.

On Friday's meeting considerable heat was generated when the Deputy Mayor made a statement about the progress of the conference. Several members made it clear before the House that the Corporation's intention for installation of the statue at Shyambazar still stood and the decision was not yet changed. And in spite of the opinion of the Corporation if the State Government wanted to erect Netaji's statue at some other place, they emphasized, the Corporation had nothing to do with that proposal.

Being requested Shri Basu explained that the Government had invited the Mayor to attend the conference and that he had attended it in the absence of the Mayor. Shri Basu further said that whatever suggestions the conference might have made, the Corporation resolution stood. The House then unanimously decided to re-iterate the earlier resolution and to inform the Government of the Corporation's feeling about the matter.

Netaji Subhas Chandra belonged to this city. It was not only his field of activity but also he mov-

ed on its streets and worked for its better. And if Calcutta can build up two statues of Netaji Subhas Chandra it would never be an ill-afford to this city. Calcutta had shown the path in the past even during the pre-independent days by erecting statues of great men like Sir Asutosh, Surendranath, Iswar Chandra and others and it would be sure to show a new path even during these days of post-independent years, specially under the present democratic set-up both in the Corporation and in the State.

GANDHIJI'S DEATH ANNIVERSARY OBSERVED

DEFYING an inclement weather accompanied by rain and chilly wind Calcutta observed with due solemnity the Martyrs' Day, and the Eleventh Death Anniversary of Mahatma Gandhi, whose life had once inspired thousands. And happily that charm and spell have not fully disappeared from the country.

The 'Martyrs' Day' was observed in memory of those who died in the struggle for country's freedom. Prayer meetings, ritual spinning, recitations of extracts from Gandhiji's writings and singing of devotional songs were some of the features of the day.

The day started with an impressive function at Gandhi Ghat, Barrackpore, a few miles north of the city. The West Bengal Governor, Shrinati Padmaja Naidu, placed a wreath at the Memorial and offered prayers. The programme included an All-faiths prayer meeting and ritual spinning followed by devotional songs.

At 9 A.M. wreaths were placed at the new statue of Mahatma Gandhi at the Park Street-Chowringhee Road crossing on behalf of the Governor, the State Government as well as the Mayor and the Sheriff of Calcutta. The Pradesh Congress Committee garlanded the statue. It was a garland of handspun yarn. The pedestal was decorated with strings of marigold.

CIVIC RECEPTION FOR ARCHBISHOP

Calcutta Corporation has sanctioned a sum of Rs. 1,000|- for Civic Reception to be given to the Archbishop of Canterbury, Dr. Geoffrey Fisher. Dr. Fisher is expected in this city during the Easter season.

The proposal was made by Councillor Sushil Kumar Roy, who made the suggestion in the House at an adjourned meeting recently.

A two-minute silence was observed at 11 A.M. Signals were sounded from the ramparts of Fort William, Calcutta, for the observance of the silence.

People in offices and students in institutions stood in silence during these two minutes. Traffic on roads came to a halt. Supply of current from the Calcutta Tramway Company's power houses was stopped suspending services in the city and Howrah for two minutes.

In observance of the day, the West Bengal Congress Committee held an hour's ritual spinning at its office on Lower Circular Road in the afternoon. A large number of women including the President, Shri Jadavendra Nath Panja, joined the

spinning. It being over a prayer meeting was held when extracts from Mahatma Gandhi's writings were recited by Alderman Bejoy Singh Nahar, M.L.A., Passages from the scriptures of different faiths were also read preceded by the singing of Gandhiji's favourite songs.

Earlier in the morning, portraits of martyrs at Mahajati Sadan, Chittaranjan Avenue, were garlanded on behalf of the State Congress organization. Shri Panja, also placed a wreath on the martyrs' column there.

At a meeting held at Mahajati Sadan in the evening a resolution was passed which appealed to the West Bengal Government to set up a National Memorial for martyrs and fighters for national freedom, to collect and compile information of individual sufferings, sacrifices and self-immolation, and to publish them for the benefits of the people.

The resolution also asked the Government to publicise the noble deeds of individual sacrifices and sufferings through educational institutions, documentary films, radio talks and lectures.

Dr. Bhupendra Nath Dutta presided.

In the Corporation Office, Hogg Building, Hogg Street, just at the scheduled moment a wreath was placed on a portrait of Mahatma Gandhi by Shri Amar Krishna Chatterjee, Assistant Food Supply Officer. Members of the Staff of the Food Supply and Public Relations' Departments stood in silence for two minutes recalling the noble deeds of Gandhiji.

A THIRD MUNICIPAL CORPORATION

HOWRAH MUNICIPALITY, the biggest of its kind within the State of West Bengal, holds a population not less than seven lakhs. The city as the headquarter of a district on the west side of the Hooghly, presents to-day many of the problems as to its future growth and sustenance. Being placed in the heart West Bengal's industrial belt, Howrah is a source of perplexity. Rapid increase in the town's population and the mounting municipal revenue are also points considered favourable to the proposal for raising the Municipality's status.

Being aware of these facts the State Government is considering to introduce a new Bill for the efficient administration of the Municipality. For the better working of the Howrah Improvement Trust, started some time back, a Corporation is stated to be more suitable than a Municipality. The Municipal revenue, which was about Rs. 60 lakhs before its supersession in 1954, Rupees One Crore at the present moment.

EAST BENGAL SPORTING CLUB WINS THE SHIELD

The Indian Football Association's Shield was won by the above Club in a replay held in Calcutta on Thursday, the 29th January last, when they beat Mohun Bagan by one goal to nil. Shri Narayan scored the match-winner shortly after the interval.

This was the sixth occasion when the East Bengal Sporting Club became the winner of the Shield. A large number of football fans watched the game, although it was played out of season. East Bengal's matchwinning goal came in the third minute of the second half.

Recently, the Municipal authorities informed the Government that a full-time Executive Officer should be appointed to conduct municipal affairs efficiently.

While converting the Municipality into a Corporation the authorities are finding it difficult to administer the institution under two measures—the Bengal and the Calcutta Municipal Acts. The municipal constitution and Government control are to be provided under the Bengal Municipal Act, 1932, and administrative procedures are laid down under the Calcutta Municipal Act, 1923.

The Chairman of the Municipality, Shri Rabindra Lal Sinha, M.L.C., in a recent interview with the Minister, Shri I. D. Jalan, pleaded for a Corporation and urged for an immediate legislation for that purpose. Raising of its status would enable the administration to float debentures for funds, he said. The Corporation, Shri Sinha suggested, might include the neighbouring areas which were rapidly developing including the Bally municipal area, formerly a part of Howrah town. The inclusion of these additional areas would help centralize planning and the benefits of the Howrah Improvement Trust could be extended to those places.

An Improvement Trust can function more effectively in a Corporation area, said Shri Sinha. At present the Improvement Trust is engaged in setting up a sewage disposal plant. Other development works are also being contemplated. The constitution of the Corporation and inclusion of new areas under it should be completed before the formation of a Master Plan otherwise difficulties might arise later.

Despite Howrah's growing problems the provisions of the old Act, which did not fit the requirements of the time were kept operative, although the Act itself was repealed. Extension of the new Act was not considered wholly suitable for the town. It would also cause much inconvenience if only the Bengal Municipal Act governed the civic administration.

Changing circumstances in Calcutta led to the amendment of the Calcutta Municipal Act, 1923 which was replaced by the Act of 1951. Even this Act has subsequently been amended according to the exigencies of the situation.

Still difficulties are being experienced in working the Calcutta Municipal Act, 1951 and if any proposal arose for a separate Act it should be free from these defects. Shri Sinha emphasized that the Delhi and Bombay Acts would be of considerable help for the purpose.

The Chairman further said that frequent difficulties arose in interpreting many provisions of different Acts now governing the municipality. Citing an instance, Shri Sinha said that the State Government once declared encephalites as a dangerous disease by a notification issued under the Calcutta Municipal Act, 1951 and Bengal Municipal Act, 1932. It was doubtful whether the notification had covered Howrah or not.

MERCANTILE BANK LTD.

The following telegram from the London Office dated the 4th February, 1959 has been received :—

"Second Interim Dividend 6 1/4 p.c. less tax payable 14th March Board recommend no further dividend payable for 1958."

THE CORPORATION AT WORK

[A GIST OF PROCEEDINGS OF THE THIRTY-SECOND ADJOURNED MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 30TH JANUARY, 1959.]

SWIMMING POOL'S POLICY CONDEMNED

The Corporation unanimously passed a resolution condemning the practice of excluding people from a club or institution on the ground of colour wherever such practice existed in Calcutta. It further requested the State Government to take steps in the matter. It suggested that if any institution refused to lift such a bar even after the Government had directed it to do so it should be closed.

The issue was raised at the outset in the shape of a resolution moved by Councillor Dr. K. P. Ghosh and was welcomed by all sections of the House. Different views were expressed in the House after Dr. Ghosh spoke on the subject in which the name of Calcutta Swimming Club was mentioned. Councillor Dhiren Dhar, M.L.A., wanted the name of another club to be included in that motion. Councillor Gobinda Chandra Dey supported the resolution but said that the House must first ascertain whether racial discrimination was really practised in those clubs. Councillor Dr. K. B. Chakravarty said that they were private clubs and could not be asked to open for everybody.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in the chair and Councillor Bijoy Kumar Banerjee said that no particular club might be mentioned. Councillor Banerjee said that the practice, whether it existed, should be opposed. An action committee could be formed to organize a campaign in this connexion. He mentioned that similar protests had been organized in Bombay where steps were being taken to abolish any kind of racial discrimination.

It may be recalled here that a small group of people demonstrated outside Calcutta Swimming Club on Strand Road on that morning demanding that the Club membership be thrown open to people of all nationalities. After the Secretary of the Club had met the leader of the demonstrators and had discussed with him their demand they left the place.

WATER CONTAMINATION

Councillor Narendra Nath Sen pointed out that samples of water taken from some tube-wells had witnessed contamination after usual chemical tests. In that connection he referred to Wards 36, 44, 46 and 77 and others wherein even pipe water was equally defective.

Councillor Sen urged the House that proper steps should be taken immediately to check that menace particularly when the epidemic season was in wake.

JAUNDICE CASES IN CITY

Apprehending that Jaundice cases were on increase Councillor Dr. Himangshu Das apprised the House that the water-borne disease should be checked immediately. Timely preventive measures should be taken without further delay, urged Councillor Dr. Das.

SCAVENGING TAX ON SMALL TRADERS

Councillor Dharendra Nath Dhar, M.L.A., opposed the Scavenging Tax, imposed on small

traders, shop-keepers and the like. The tax has been imposed under Section 426 of the Calcutta Municipal Act, 1951. Councillor Dhar felt that it would be difficult on the part of those traders who had already been over-burdened with other similar taxes. He wanted the withdrawal of the same and tabled a motion to that effect.

FILLING UP OF VACANCIES

The House elected Councillor Brojendra Nath Banerjee as member of the Standing Finance Committee. The vacancy was caused by the death of Councillor Usha Nath Sen.

The House also elected Councillor Krishna Chandra Bysack to the Standing Accounts Committee. The post was vacant due to the resignation of Shri Dharendra Nath Ghosh from Councillorship on account of his protracted illness.

GRANTS-IN-AID TO HOSPITALS

The House, on the recommendation of the Standing Health Committee, ordered for payment of 50 per cent. of the total amount of grants in respect of those hospitals and dispensaries applying for such aid except a few particular institutions.

PERMISSION FOR A PLAYGROUND

The House, on the recommendation of the Standing Town Planning and Improvement Committee, allowed the Central Detective Training School, Intelligence Bureau, Government of India, to occupy a portion of N. C. Park (north-east corner) for playing outdoor games by the trainees, subject to certain conditions.

TAKING OVER A ROAD

The House, on the recommendation of the Standing Town Planning and Improvement Committee, decided to take over a 100 ft. wide C. I. T. Road under Scheme No. LVIII under certain terms and conditions.

SPECIAL OFFICERS

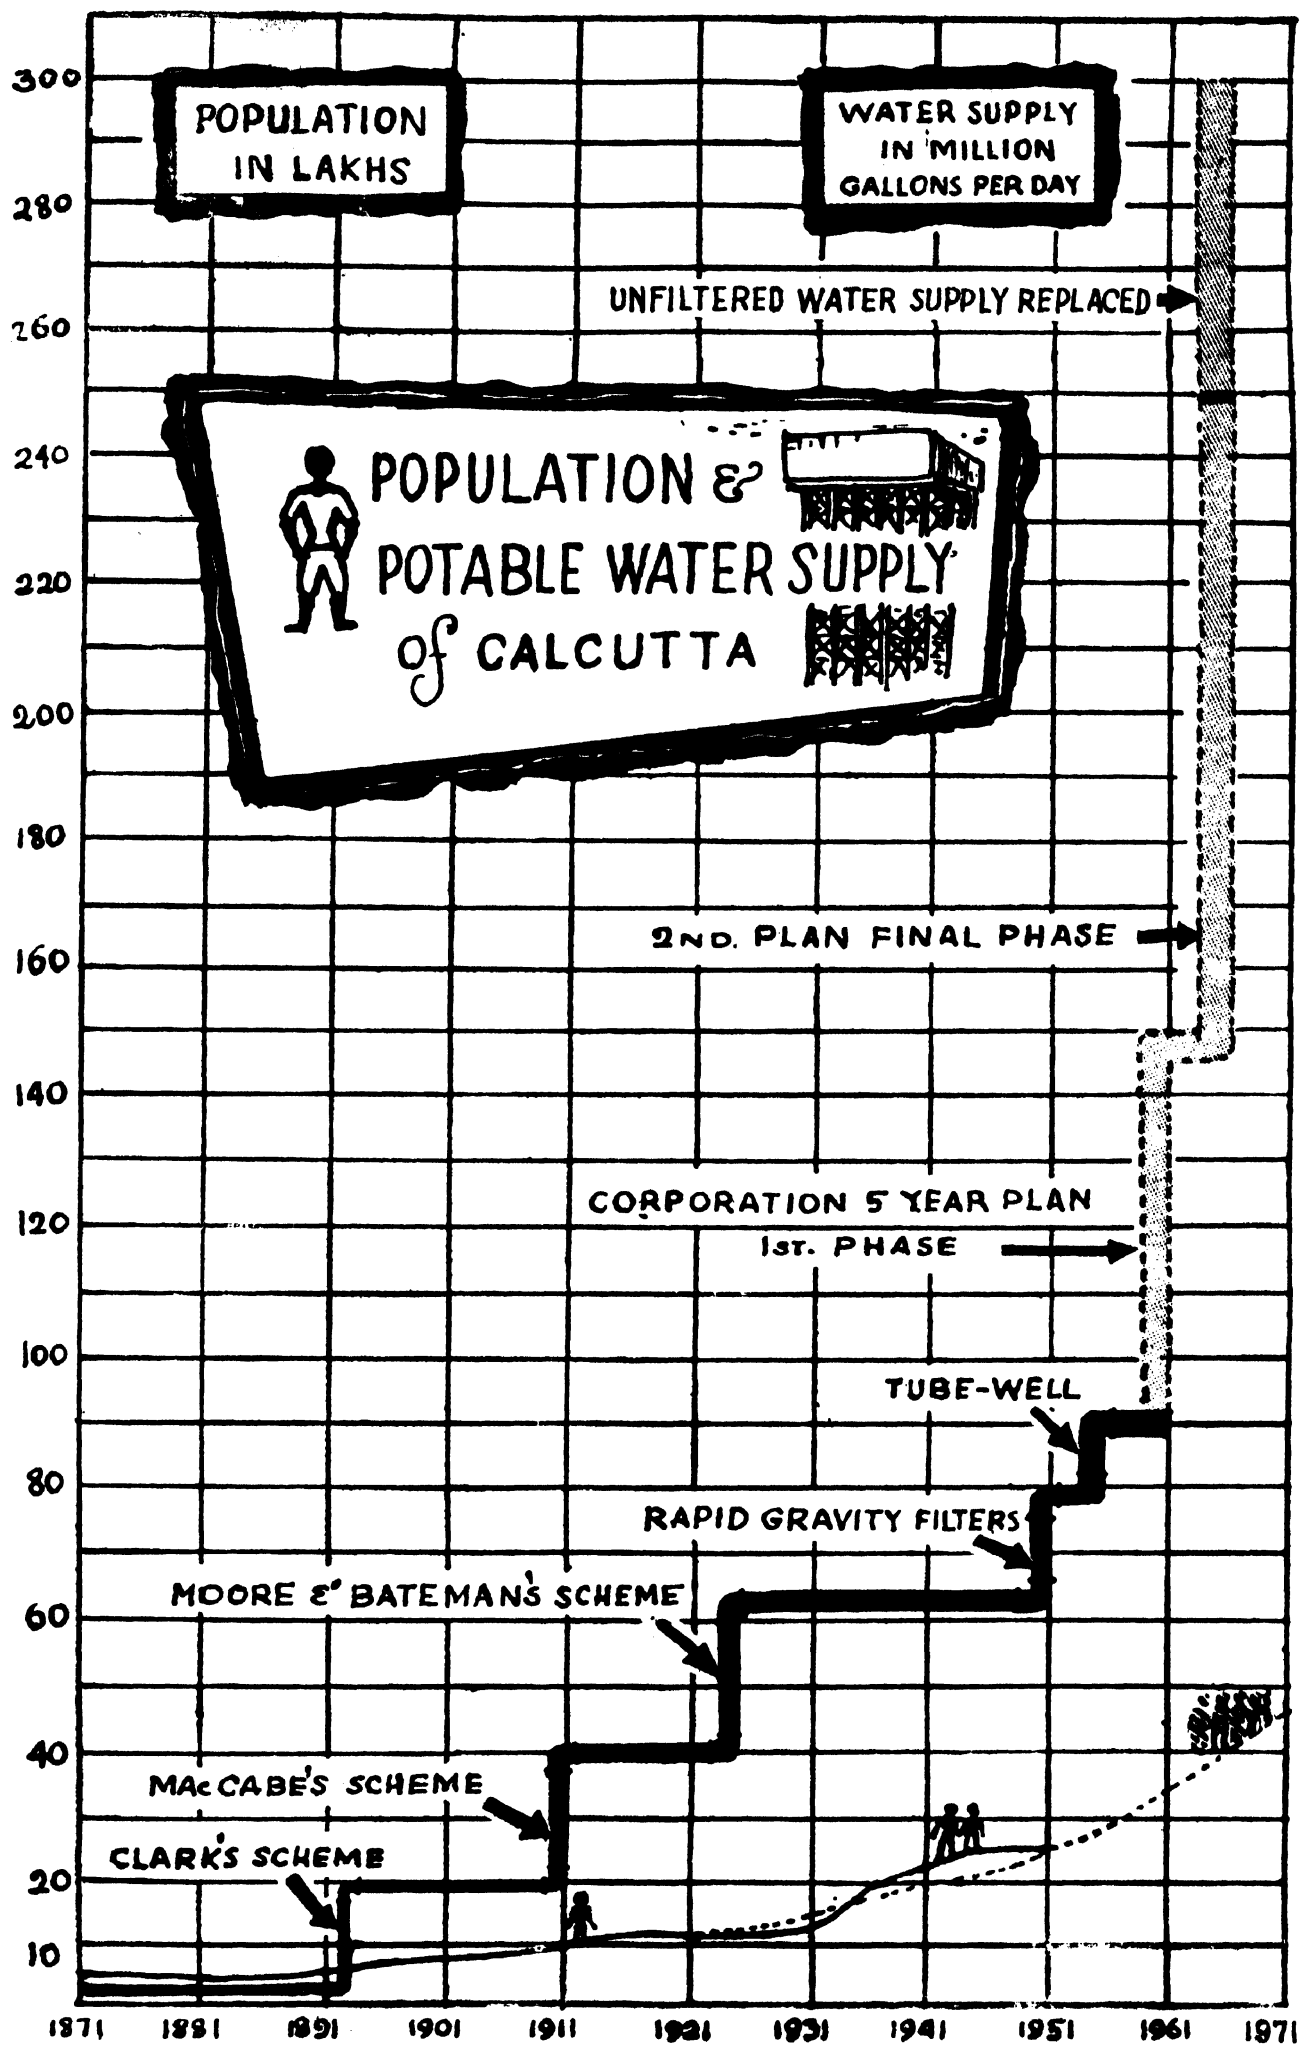

The House, on the recommendation of the Standing Finance Committee, retained the services of three Special Officers *viz.* Shri Subodh Chandra Mukherjee, Shri Gouri Sankar Chatterjee and Shri Gouri Pada Mukherjee, and allowed them to continue in service from the 1st December, 1958, in anticipation of the State Government's sanction.

CONSTRUCTION OF A PAVILION

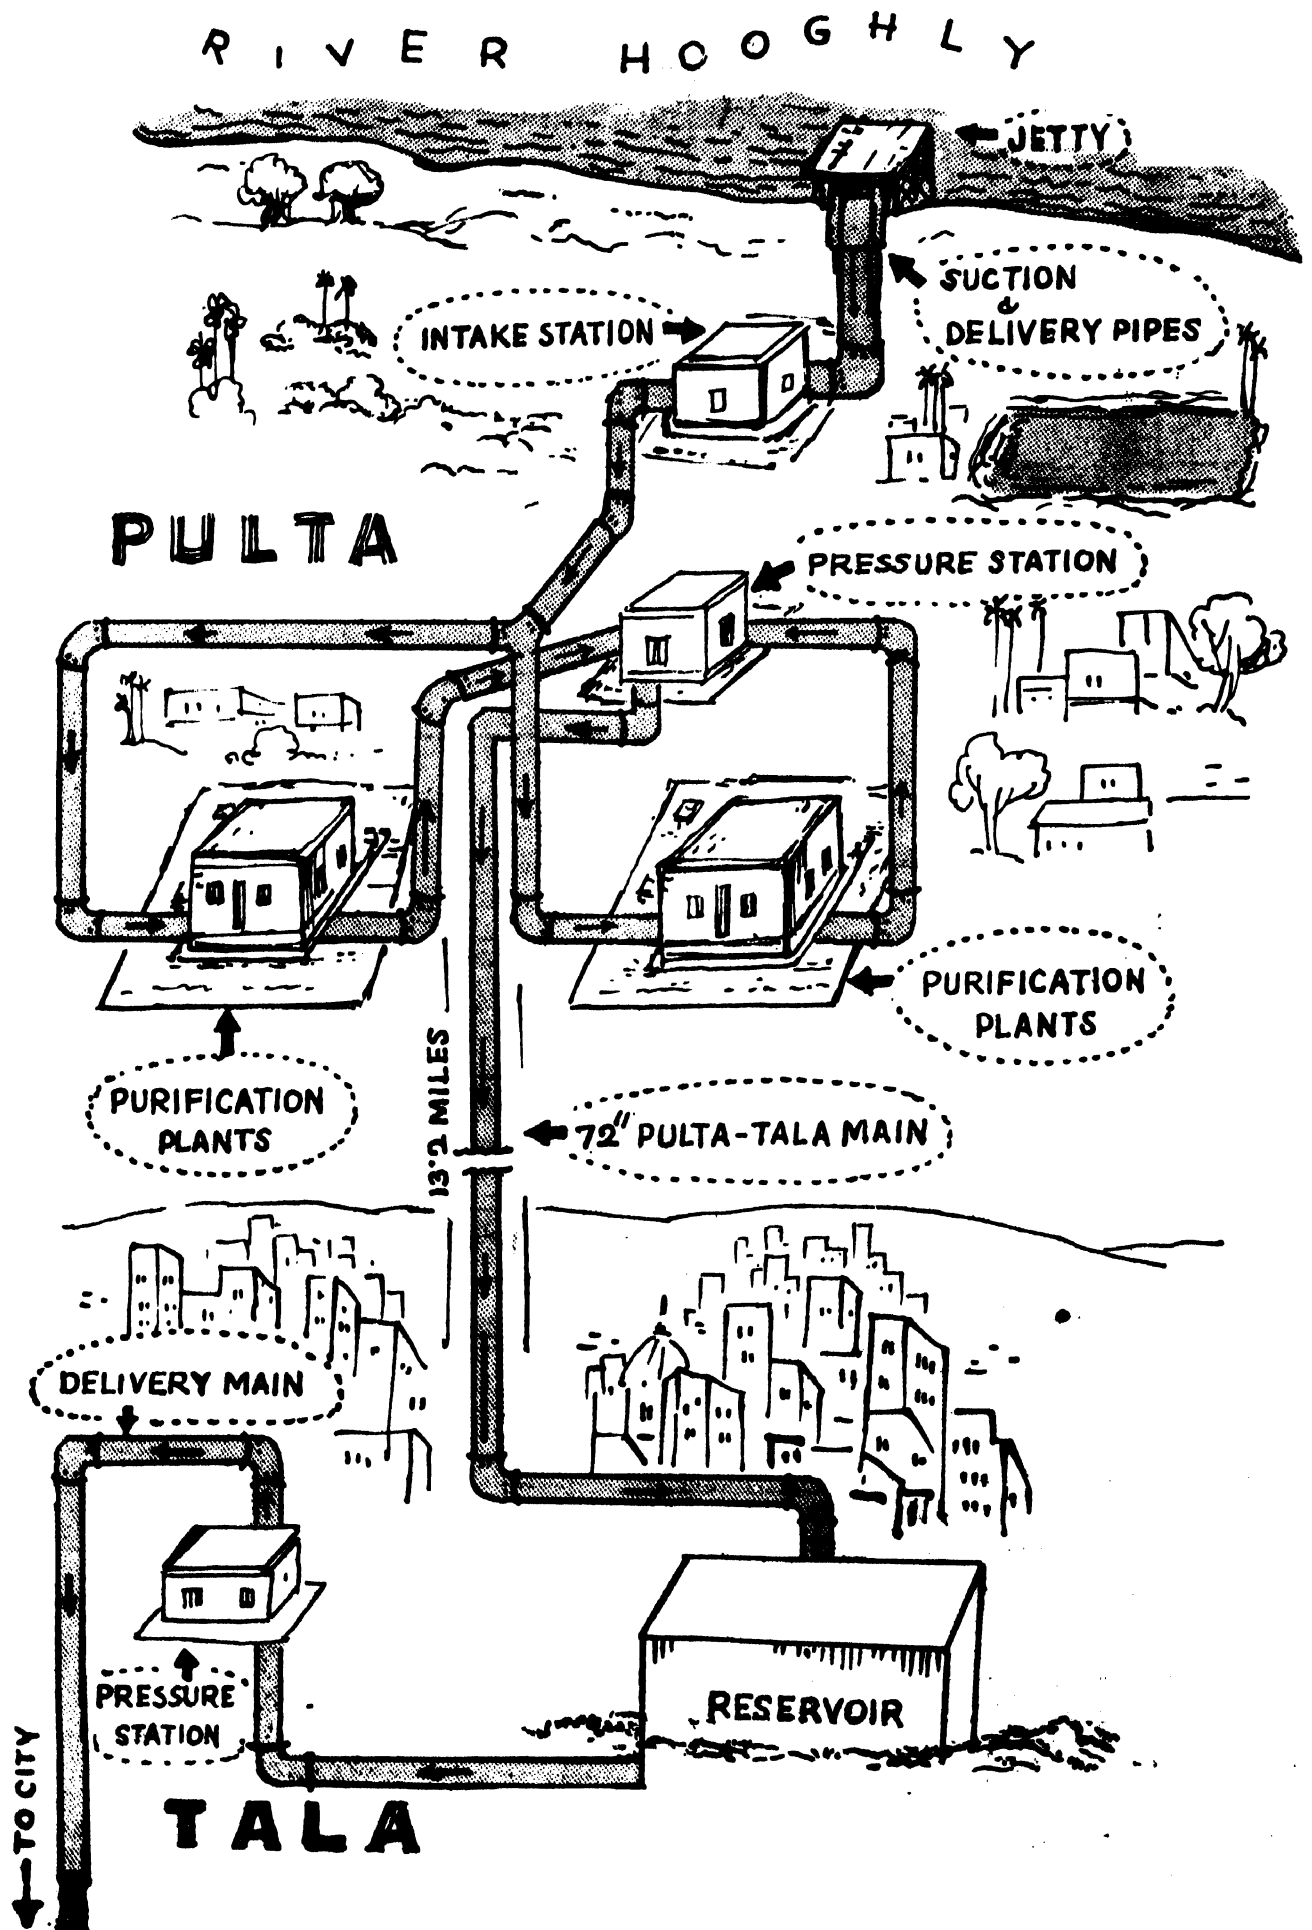

The House, on the recommendation of the Standing Town Planning and Improvement Committee, sanctioned construction of a pavilion on the lawn of Kalighat Park, Ward No. 64, to the Secretary, Boys' Training Association. The area for the proposed plan would be restricted within 1,000 sq. ft.

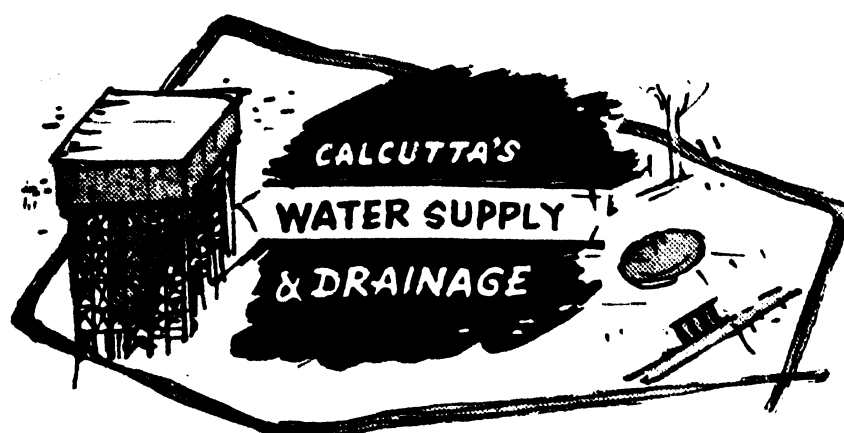

AN ESTIMATE

The House, on the recommendation of the Standing Works Committee, sanctioned an Engineer's estimate amounting to Rs. 3.90 lakhs for Asphaltum pavements of roads in different C. I. T. Schemes at the Trust's cost during 1958-59.

AUGMENTATION OF POTABLE WATER SUPPLY CORPORATION'S PROPOSED KEY PLAN (FOR 60 MILLION GALLONS DAILY)

Calcutta at present maintains two different supplies of water, viz.—

Potable Water for domestic purposes, and Ganges Water for flushing, street watering and fire-fighting purposes.

The quantity of potable water approximately totals to 90 million gallons per day of which about 80 million gallons filtered riverine water collected at Pulta and 10 millions from small and big size Tubewells installed in different parts of the city.

About 90 million gallons of raw river water is supplied daily through the Mullickghat and Watagunj Pumping Stations by pumping directly from the Hooghly. Thus Calcutta gets daily 180 million gallons of water both potable and raw.

MANUFACTURE OF FILTERED WATER AT PULTA

Pulta Water Works is the main source of filtered water supply. There are two pumping stations: Intake and Pressure.

Three of 2 m.g.h. and one of 1.5 m.g.h. steam driven pumps work at the Intake Station and about 100 million gallons of raw river water is pumped daily through this Station. This quantity is however affected at the time of high percentage salinity in the summer period, when pumping hours are curtailed.

From the Intake Station raw river water is settled through 4 kutchra settling tanks called Pre-settling Tanks with a total capacity of 84 million gallons and finally to a settling tank of 200 million gallons capacity. All suspended matter in river water practically settles down in Pre-settling Tanks, the Final settling tank acts as a storage of sweet water, which also helps to reduce the saline contents of water during the salinity period. Alum is applied in the water before it enters the Presettling Tanks for the purpose of the coagulation. In the final settling tank algicide is applied to control the growth of algae.

After settlement, the water is filtered in several slow-sand filter-beds and through a battery of Rapid Gravity Filter. There are 99 units of slow sand filters of which about 84 units are kept in commission and 15 units remain idle for scrapping, reconditioning and other purposes. However due to the silting of Settling Tanks and high turbidity, it is not possible to get an output of more than 72 million gallons of water every day from these slow-sand filter-beds. Output of Rapid Gravity Filter is about 18 million gallons per day. The effluent from these filters is sterilized by dose of chlorine by chloronomes with residual chlorination of 0.2 P.P.M.

There is a well-equipped laboratory at Pulta for analysis of water purified and to look after the proper chlorination.

From the filter beds and Rapid Gravity Filters filtered water comes to the Pressure Station. The Pressure Station consists of three of 1.75 m.g.h. Steam Turbine Pumps. In addition to these, one new 2 m.g.h. electrically driven pump has been recently installed. From this Pressure Station water is pumped through supply pipe-line to Tallah Pumping Station which is near to the northern end of the city and about 14 miles south of Pulta.

There are three supply mains from Pulta to Tallah viz., 60 in., 48 in. and 42 in. The first one is of steel main, and the other two are of cast iron. The 42 in. water main is under gravitation and this is the oldest main still in existence. The maximum supply of water that can be sent through these mains, is as follows:—

60 in.—58 m.g.d. 48 in.—25 m.g.d. 42 in.—7 m.g.d. Total—90 m.g.d.

Pumping sets being very old and for bad condition of 60 in. main the usual daily supply of filtered water is restricted to 80 million gallons. Only on occasions like the Poojahs, the Mohurram, etc., the supply is raised to 90 m.g.d. and that too for shorter periods.

WORKING OF TALLAH PUMPING STATIONS

The Tallah Pumping Stations act as a Distribution Station for distribution of filtered water through zone mains which feed the reserve mains and service mains carrying filtered water to every part of the city.

At Tallah Pumping Station, there are three of 1.5 m.g.h. Steam Turbo-Pumps, two of 0.625 m.g.h., electrically driven pumps, two 0.5 m.g.h. steam engine driven pumps and one 1.1 m.g.h. steam Turbine driven pump and an elevated Reservoir of 9 million gallons capacity. In addition to these one new 2 m.g.h. electrically driven set has been installed, one more similar set is in course of installation.

Water from Pulta is stored in two Ground Reservoirs at Tallah, one with a capacity of 8 m.g. and the other with a capacity of 10 m.g. The maximum pumping capacity of Tallah Station is 90 million gallons of water per day but the normal supply has got to be kept at 80 m.g.d. for day to day work. This supply is raised to 90 on special occasions.

For distribution of water the city is divided mainly into four zones. Cossipore area is however fed from an independent zone main of 36 in. The

supply is intermittent and following are the hours of supply :—

Hours of High Pressure Supply—

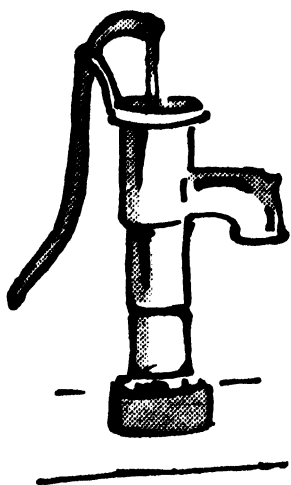

5 a.m. to 9-30 a.m., and 3-30 to 5-45 p.m.

Hours of Medium Pressure Supply—

12 noon to 12-30 p.m., and 8-45 to 9-30 p.m.

The filtered water before it is pumped into the city mains is again chlorinated at Tallah Pumping Station.

In addition to the supply of filtered water about 10 million gallons of water is supplied from tube-wells. There are about 70 big-size tube-wells, electrically driven, installed mainly in the scarcity areas. The capacity of those tube-wells are 20 to 25 thousand gallons per hour. In some places it is 15,000 and 5,000 g.p.h. whereas in

NUMBER OF SMALL TUBE-WELLS
1952-53 1957-58
1232 2240

Manicktola area the capacity is about 60 g.p.h. There tube-wells' water is injected into the main pipes of supply which reaches the consumers through their house to house service—There are also about 3,000 hand independent driven small tube-wells installed near about the bustee areas and scarcity pockets which are sources of supply.

SUPPLY OF RIVER WATER

About 90 m.g.d. of unfiltered water is supplied from Mullickghat Pumping Station and Watgaunj Pumping Station. At Mullickghat Pumping Station three of 670 B.H.P. and three of 580 B.H.P. Pumping sets and at Watgaunj Pumping Station three of 420 H.P. and three of 215 B.H.P. Pumping sets are working. Of these three 670 H.P. at Mullickghat and three 420 B.H.P. at Watgaunj have been installed recently.

For replacement of the old steam driven units at the Intake Stations at Pulta, tenders are being called for the supply and installation of three of 2 m.g.h. electrically driven units.

For de-silting of Pre-settling Tanks negotiations are in course of finalization with the Government of West Bengal for manufacture of bricks from the silt of these settling tanks, whereby the de-silting will be done by the Government.

At Pressure Station, Pulta, one new 2 m.g.h. electrically driven unit has already been installed. The Steam Turbine of one of the old 1.5 m.g.h. is being replaced by an electric motor. The proposal for replacing another old Steam Turbine by a new one has almost been finalized.

One new 2 m.g.h. electrically driven unit has been installed at Tallah, another additional 2 m.g.h.

set is being installed. The old Steam Turbine of one existing 1.5 m.g.h. set is being replaced by a new electric motor. The proposal of replacement of one of the old Steam Turbine by a new Steam Turbine for Tallah has almost been finalized.

At Mullickghat, the jetty has been extended by another 150 ft. This has improved the supply. Removal of silt by jet process has not yet been necessary.

Three old units of pumps have been replaced by three new sets of 670 B.H.P. at Mallickghat and this replacement has improved the pumping capacity.

Three old 215 H.P. Pumping sets have been replaced by three new 420 H.P. sets at Watgaunj Pumping Station and this arrangement has improved pumping capacity.

POTABLE WATER

79,683 89,981

RAW WATER

56,512 60,361

CORPORATION'S NEW SCHEMES

Even after these improvements it has been found that the demands far exceed the supply. Abnormal increase in the population of the city has pressed this demand and it has been found necessary to augment the supply for a population of 4.5 to 5 millions in the City by 1971. The present Corporation's Five-Year Plan for water supply and Drainage Schemes have been drawn up to deal with this optimum population of five millions. The total amount that has been estimated for this Scheme is 12.5 crores and this envisages a supply of 300 million gallons of potable water for the city. This supply has been calculated on the basis of 60 gallons per head per day for all purposes out of which 40 gallons per head per day is for domestic purpose.

The portion of augmentation schemes which will be taken up and completed during the Second Plan Period costing Rs. 430 lakhs of which 145 lakhs will be met out of Central Government Loan. Rs. 225 lakhs will augment the water supply as follows :—

From Pulta source—

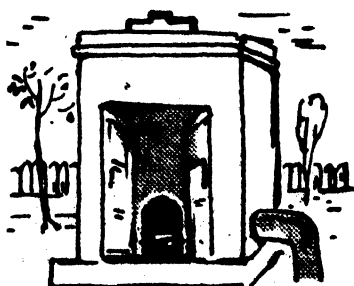

Existing	80 m.g.d.
After renovation of the filters	10 m.g.d.
New augmentation	60 m.g.d.

150 m.g.d.

From Tube-wells 10 m.g.d.

And the present water supply 90 m.g.d.

Total 250 m.g.d.

NUMBER OF BIG TUBE-WELLS

1952-53 1957-58

8 67

For this purpose two new Water Purification Plants with a total capacity of 60 m.g.d. will be installed at Pulta. A new Intake Station consisting of 3 - 1.75 m.g.h. and a new Pressure Station with 3 - 1.5 m.g.h. electrically driven Pumping sets will be installed at Pulta. Work in this connection is in progress.

To bring this additional water to Tallah, a new 72 in. Steel Main is being laid from Pulta to Tallah at a cost of Rs. 225 lakhs. The work has already been entrusted to a contractor and the actual work will commence from next month.

At Tallah a new Storage Reservoir of 7 million gallons capacity will be constructed for which tenders are being called.

A new Pressure Station at Tallah consisting of 4 - 1.5 m.g.h. Pumping Sets will be installed for improving distribution. Tenders for this work are going to be called shortly.

There are also proposals for installing a Boosting Station for improving pressure in the extreme ends of supply and for the renovation of Distribution Mains. Part of this renovation work has already been taken in hand.

DRAINAGE.

Prior to 1951, the Drainage System of Calcutta both sewered and un-sewered areas suffered a set back as a result of abnormal growth in population and the deterioration in the capacities of the Pumping Stations and the Outfall System. In the period from 1951 to this date, the Corporation have sanctioned schemes and taken up work for improvement of the Drainage System taking into consideration the additional load in the System from rapid developments on the following aspects :

Re-construction of the existing sewers as and where necessary was taken up and completed as a continuous feature. A number of un-sewered areas within the frame work of Sewerage System were provided with under-ground drainage facilities. New sewers were laid and overflow arrangements made in low-lying areas to relieve drainage congestion and prevent flooding during rains. Projects for improvement of drainage condition in a number of most flood-affected areas at a total cost of about 10 lakhs have already been accepted by the Corporation.

Out of the total city area, 36.5 sq. miles, 15.6 sq. miles area is still un-sewered. Manicktola area has been partly provided with under-ground drainage. Cossipore and Tollygunge having total area 10.8 sq. miles have surface drainage and are to be provided with under-ground sewers for effectual drainage and improvement of sanitation. Though the surface drainage in this area has been improved by construction of pucca surface drains, the objective of effectual drainage in a scientific manner can only be achieved by laying under-ground sewers. A Pumping Station has been constructed at Beerpara in Cossipore and comparatively large capacity Electric Pumps have been installed there. This Pumping Station is functioning for the last two years to the great relief of a very large area in

Cossipore. A Pumping Station near Old Dhapa Lock on Canal South Road has been constructed and Electric Pumps have already been installed there along with the construction of Reinforced Concrete Delivery Channel.

QUANTITY OF SILT REMOVED
FROM BRICK SEWERS
1952-53 1957-58
5,72,759 c.ft. 8,66,024 c.ft.

This Station will serve Manicktola area. The Pumping Plants will be put into commission very shortly. The total cost of the works done in this connection is about Rs. 8 lakhs. Out of 17 Drainage Pumping Stations situated in different parts of the city, Palmer's Bridge and Ballygunge Drainage Pumping Stations are the biggest ones. The pumping capacity of the Palmer's Bridge Pumping Station has been augmented and the present capacity is 858 million gallons per day. Two large capacity Electric Pumps have been installed and put into commission at Ballygunge Drainage Pumping Station to increase its pumping capacity and the present capacity is 324 million gallons per day. But inspite of the aforesaid increase in pumping capacity there is still a need for more High Capacity Pumping Sets at the said two stations. The Corporation has already taken up work for augmenting pumping capacities, out of the Union Government's Loan of Rs. 225 lakhs granted to the Corporation. The Corporation have further taken up the Project of laying under-ground drains in 55 different parts of the city. These will be financed by the said Union Government's loan to the Corporation. Besides the aforesaid work a portion of the Storm Water Channel from Palmer's Bridge Pumping Station running through very congested and developed localities will be converted into under-ground Storm Water Sewers for improvement of sanitation at a cost of Rs. 21 lakhs. This work has also been taken up.

Prior to 1951 the Storm Water Channel deteriorated due to heavy silting. The work of Re-modelling of Channels at a total cost of about Rs. 30 lakhs is in progress. Considerable progress has already been made and about two miles of large capacity Storm Water Channels have already been completed.

The total cost of drainage improvement work in progress and taken up by the Corporation for execution is about Rs. 146 lakhs. With the completion of these there will be a marked improvement of city's drainage.

As regards Cossipore and Tollygunge, the Projects for under-ground drainage in these areas are on the way to finalization.

A New Building For Economics Department

CALCUTTA UNIVERSITY has at last been successful in housing its Economics Department to a newly erected three-storied building on Barrackpore Trunk Road, northern extremity of the city. It is one of the important items among many of the University's new projects. The object is to build up a separate School where the study of this branch of special subject could be carried on successfully in pace with other advanced countries. This needed most in the present phase of a developing country. It would also accommodate all the research activities of the Department. The idea of having such an institution in Calcutta was first mooted up in the minds of the late Dr. Syamaprasad Mookerjee.

The site, about two miles away from the Shambazar five-point crossing, bears some memoirs of the recent past. Known as 'Emerald Bower' the building originally belonged to some zamindars of Calcutta. From them it had been acquired by the West Bengal Government and handed over to the University. Major portion of aids for constructing the building came from the University Grants' Commission and the Ford Foundation, U.S.A. This has also fulfilled the dreams of Dr. J. P. Niyogi, Retired Professor of Economics, Calcutta University. The building is also associated with the memory of the late Dr. J. C. Ghosh, a former Vice-Chancellor, whose efforts were laudable.

The formal inauguration ceremony of the building was performed by Dr. Chintamani D. Deshmukh, Chairman of the University Grants' Commission, on Sunday, the 1st February. The State Chief Minister, Dr. B. C. Roy and a large number of professors and students were present. The Vice-Chancellor, Dr. N. K. Sidhanta, presided.

Dr. Deshmukh regretted that India lacked a sufficient number of economists nor was there any system which enabled teachers to compare themselves with the best in the world. He wished that there should have been opportunities for young and brilliant teachers to go abroad and meet their counterparts in foreign universities.

The Chairman of the Commission further pointed out that Indians had yet to make any significant contributions to the theory of economics. Tracing the reasons, he said that the country had lagged in this matter because of the absence of any machinery to discover the right sort of ability in students at an early stage of their career. He had little doubt that the level of intelligence all over the world was more or less uniform. India needed economists for the efficient planning of its welfare projects.

Dr. Deshmukh believed that India's planners would take into account the rapidly increasing rate of population, and was of the opinion that the Third Plan should be of an adequate size for coming generations. If the present rate of population in India continued—five million per year—they would have to find new jobs in the Third Plan for about 16 million people. This figure, according to him, excluded the educated unemployed.

Earlier, giving a brief account of the Economics Department's growth and achievements, the Vice-Chancellor said that the Department, had been endeavouring ever since its inception 50 years ago to build up a high tradition of teaching and research work.

Dr. Sidhanta gave an account of the activities of the Economics Department. Recently, a socio-economic survey of the city of Calcutta was nearing completion and the final report was expected to be published soon. Among other notable researches done by the Department were subjects relating to irrigation project of D.V.C. and land reform, apprised the President. He hoped that with the liberal contributions of the Grants Commission, and the State Government it would be possible for them to complete the hostel buildings and offer accommodation to a large percentage of students and scholars engaged in studying economics in the Department.

JANAB A. SATTAR INAUGURATES THE CONFERENCE.

Sitting from left :—Councillors M. Sarbadhikari, K. Hossain, Deputy Mayor, Shri K. C. Basu, A. Maitra, and J. L. Saha, M.L.C., Alderman B. S. Nahar, M.L.A., and Councillor B. C. Sarkar. Shri A. C. Bhattacheryya is seen standing.

Corporation Block Sarkars' Association Met At A Conference

SILVER JUBILEE celebrations of the Block Sarkars' Association was duly celebrated through a two-day function on the lawn of the Market Square, south of the Central Municipal Office Buildings, commencing from Saturday, the 31st January last. The Block Sarkars are entrusted with the supervision work for cleansing city's streets and lanes, and other open spaces. They have also built up a strong organization looking after their own needs and grievances.

The Conference, scheduled towards the close of December last, could not be held due to sudden death of Councillor Ushanath Sen, President of the Association. The present Conference passed a number of resolutions putting up many of their grievances.

Janab Abdus Sattar, Labour Minister, West Bengal, called upon them to do their duties sincerely and with their best abilities to make the city clean and beautiful. He also said that the workers had no doubt, their grievances, but many of them, he believed, could be settled through negotiations.

Janab Sattar further said that the minimum requirements of the employees and workers of each and every establishment had to be provided with; but they should keep in mind the capacity of a concern to meet the demands. He said that in many cases it had been found that dissatisfaction among the employees existed through misunderstanding. He believed that such misunderstandings could be removed if sincere efforts were made by both the employees and employers.

In conclusion the Labour Minister, who inaugurated the function, advised the employees to consolidate their organization and to move in a constitutional way for the fulfilment of their demands.

Alderman Bijoy Singh Nahar, M.L.A., who presided, said that proper functioning of an institution depended upon the co-operative efforts of the

employees and the management. With a view to getting the full co-operation of the employees their legitimate grievances required to be considered sympathetically. He believed that the employees' grievances would be settled amicably in this Corporation.

The Deputy Mayor, Shri K. C. Basu, said that the employees and workers of the Corporation had their responsibilities and obligations to the rate-payers. He hoped that they would discharge their duties honestly and sincerely. Referring to their demands the Deputy Mayor, who acted as the Chief Guest, said that there was no end of grievances but they should also consider the capacity of the institution to meet those demands.

Shri P. C. Majumdar, I.A.S. (Retd.), Chief Executive Officer, advised the workers to discharge their duties sincerely. A time would come, he felt, when their legitimate grievances were bound to be fulfilled. Shri Majumdar expressed surprise as to how many of their grievances, which he felt, could have been settled amicably, remained unfulfilled so long.

Earlier, Shri Abinash Bhattacharjee, President, Silver Jubilee Celebration Committee, welcoming the guests, mentioned a number of grievances of the Block Sarkars and Mates relating to their services, conditions. He also referred to the past activities of the Association.

Shri Sailendra Nath Chaudhuri, Secretary of the Committee, explained the activities of the Association.

Shri Kalachand Chatterjee, General Secretary of the Association, handed over to Deputy Mayor a sum of Rs. 251/- for Mayor's Corporation Employees' Welfare Fund.

Among others present were Councillors G. A. Shami, K. Dutta, A. H. Asrail, Shri A. K. Basak, Deputy Commissioner and a large number of Corporation officials.

CITY NEWS PARADE

NINETY-SEVENTH BIRTH-DAY ANNIVERSARY OF SWAMI VIVEKANANDA was solemnly observed in the city through a number of functions on Saturday, the 31st January last. Children and youths took a leading part in those functions as many of the clubs and institutions borrowed their names to that great religious preacher.

The inspiring messages of Swamiji were recalled by many speakers in course of their addresses at a largely attended meeting held in the Senate Hall College Street. Prof. Nirmal Kumar Siddhanta, Vice-Chancellor, Calcutta University presided on that day.

Shri Phanibhusan Chakraborty, formerly Chief Justice of the Calcutta High Court, inaugurated the week-long celebrations held under the auspices of the Vivekananda Jannotsav Samity by lighting up ninety-seven candles but without making any speech. The organization has recently been formed by a group of enthusiastic youngmen to cultivate the life and works of Swamiji. The organization has already received the appreciation of men like Shri Hemendra Prasad Ghosh and others.

Prof. Siddhanta appealed to the public not only to cultivate the habit of remembering such great souls once only in the year through meetings but also to endeavour to acquaint their life and works and to assimilate their ideals in their daily life and activities.

Swamiji's role as a patriot and social reformer should be studied by youngmen seriously so that they could utilize his message in their own lives for the good of themselves and also for the society, he added.

Paying his tributes to that great saint and patriot Shri Tushar Kanti Ghosh pointed out his mission of service for the downtrodden in the society which he had bequeathed to the organisation built by him and his associates.

Shri Keshab Gupta, drew the attention of the public, to that aspect of Swamiji's life where he had played the role of a great personality who had awakened the dormant soul of the nation. "The more our countrymen would read his life and works the more they would learn how he had pushed forward a nation which was about to forget her own past and her bright future also", he said.

Shri Upendra Nath Ganguli, said that in Swami Vivekananda there was a living dynamism of the science.

Prof. Janardan Chakraborty said that Swami Vivekananda through his own life demonstrated that it was wrong to live in isolation for spiritual gain ignoring the society as a whole. Without spiritual realization nobody could give his service to the nation and to the society, emphasized Shri Chakraverty.

The week-long function continued and the speakers included Dr. Jatindra Bimal Chowdhury, Shri Vivekananda Mukherjee, Dr. Sreekumar Banerjee, Swami Prajnenda, Dr. Nalini Kanta Brahma and others on different days.

The Birth Anniversary of Swami Vivekananda was celebrated by the members of Sarada Sangha at 3, Kedar-nath Bhattacharjee Lane, Bonhooghly on that day. Swami Asitanandaji Maharaj, discussed the life and teachings of Swamiji.

Under the auspices of Sinthi Ramkrishna Sangha the Birth-day of Swami Vivekananda was celebrated at the Sangha Bhavan at Kali Charan Ghose Road on Sunday, the 1st February.

SALES TAX ON BOOKS, Publishers and Booksellers of West Bengal, at a recent meeting of their association urged the West Bengal Government to abolish sales tax on all kinds of printed matter, books and periodicals.

On the recommendation of an inquiry committee, the Bombay Government had abolished sales tax on books and periodicals on and from the 15th December last the meeting pointed out. As a result of the continuance of the tax within the State and the Union Government's imposition of inter-State sales tax, the book trade was gradually shifting to States where there were no sales tax on books.

CALCUTTA'S WEATHER CONDITIONS demonstrated varied features within recent days. Starting from forecasts 'possibility of one or two showers accompanied by a cloudy weather' while the maximum and minimum temperatures running above normal towards the middle of the last week-ending the city actually experienced drizzling throughout Friday, the 30th January last. Despite all inconveniences of an untimely rains, Calcutta people welcomed the shower as it would prolong the winter. The maximum temperature, which was 30 degree C on Thursday, the 29th January last dropped to 19 degree C as a result of the wet weather and the minimum temperature was 17 degree C. (63 degree F), as recorded by Alipore Office.

Although rainfall was a little less than an inch it was heavy enough to cause waterlogging in some parts of the city, especially in the Baghbazar area, where tram services were suspended for about five hours in the morning.

Despite the weather forecasts indicated fair to cloudy weather, there were bright sunshines and fair weather on the next few days. Both the maximum and minimum temperatures often ran below normal prolonging the chill of the winter. On Monday and Tuesday, the 2nd and 3rd February maximum and minimum temperatures were below normal.

JUBILEE SESSION OF CALCUTTA MEDICAL COLLEGE RE-UNION was inaugurated on Wednesday, the 28th January last, on the lawns of the College, by the State Chief Minister, Dr. B. C. Roy, who asked physicians to keep pace with progress in other spheres of life. He also said that medicine had developed a social aspect. In future if some diseases could be prevented properly others would, perhaps, simultaneously disappear. But the profession must go further ahead and would have to think how man could be better than what he was at present through food, nourishment and other means. To be worthy of the old institution where they had assembled, Dr. Roy also said, to make it respected, those going out of it and connected with it must think of raising the health of the nation as a whole.

Dr. Roy also opened a scientific and photographic exhibition in the college. Dr. Amal Roy Chowdhury presided.

In the morning the Health Minister, Dr. A. B. Roy, presided over the celebration of the 124th foundation day of the College, claimed to be the premier institution of its type in South-East Asia. He stressed the need for development of "social medicine" and research and gave an assurance that the problem of accommodation would be solved in time. The Minister distributed prizes for proficiency in different subjects to the meritorious students of the College.

ALL-INDIA WOMEN'S FOOD COUNCIL holding its annual conference in this city, discussed many of the problems of the present food position. The two-day conference was inaugurated on Thursday, the 29th January last at the Annapoorna Cafeteria, Esplanade East, by the Union Food Minister, Shri A. P. Jain, who admitted that the large scale irrigation projects undertaken by the country had proved disappointing results.

At the same time, Shri Jain refuted the criticism made on the Government's present food policy. He said that since 1950 food production had increased by 24 per cent. If

1957, an unusually bad year, was excluded, the yearly increase was 3 per cent. to 4 per cent. In any democratic country this was considered a good record.

Shri Jain also spoke of the importance of a change in the pattern of food consumption and praised the efforts of the Food Council in popularizing, through cafeterias, comparatively inexpensive but nutritionally rich non-cereal recipes. There was much scope for improving India's dietary standards by the use of subsidiary food. The Indian method of service also resulted in waste and there was no reason why this should not give place to a less extravagant system.

Shrimati Lilavati Munshi, who presided, said that the Council could take pride in its achievements. It was very sad, she said, that even after 13 years of independence the country had to import so much food.

On that day, Shri Jain met Shri P. C. Sen, West Bengal Food Minister, who told him that supply conditions in Calcutta and elsewhere in the State were stabilizing and that prices in the free market were on the decline. He was also told that wholesale traders were reconciling themselves to the Government's new food policy.

Shri Jain also met the State Chief Minister, Dr. B. C. Roy. He received deputations of representatives of chakki owners and rice mill proprietors.

HMS CEYLON AND HMS CHICHESTER, two of the British Navy vessels, lay in anchor at the Man-of-war jetty, Calcutta, during the weeks ended the 7th February. The vessels arrived in city on Sunday from Singapore. They were floodlit during the first part of this week. The illuminations were watched by many men, women and children who went to Strand Road.

On Wednesday, the 4th February, Captain F. R. Swiss of HMS Ceylon met Press Reporters on board of the cruiser. Commander R. D. Butt of HMS Chichester was present. The party was taken round the two ships. A party of 250 school children visited the ships on that afternoon, wherein they were treated with merriments.

The 10,000 ton ship HMS Ceylon is the third one to bear the name of colonial countries. The ship was laid down in 1940 and was launched in 1942 by Lady D. Mc Millan. Commissioned in 1943 she saw services with the Pacific fleet till 1946. After reserve for some years till 1950, the ship spent two years in the East Indies and Korea. Her last commission was in the Mediterranean. There were other operations of the ship. HMS Chichester is a 2,000 ton frigate fitted with anti-aircraft and submarine destroying armaments.

BUDGET SESSION OF THE WEST BENGAL LEGISLATURES was inaugurated on Tuesday, the 3rd February, through a well-attended joint sitting of both the Houses by the State Governor, Shrimati Padmaja Naidu. The Governor entered the Assembly Hall in usual ceremonial manner led both by the Speaker, Shri Sankar Das Banerjee, and the President of the Council, Dr. Suniti Kumar Chatterjee. Later on the State Legislative Assembly and Legislative Council sat separately when several members tried to introduce different subjects in both the Houses, non-availability of adequate quantity of food-stuffs occupying the top-most place. In the Council the question of re-adjustment of boundaries in the way of transference of 'Berubari' Union to the East Pakistan topped the list.

In course of her speech, the Governor spoke of a steady development of medical facilities. The decline in the death rate by 50 per cent. between 1948 and 1958, she said, "bears eloquent testimony to the efficiency of our health services". She also informed that water supply schemes had been completed in ten urban areas.

Referring to an unique progress in the field of education, Shrimati Naidu said that the State was gradually

approaching the target laid down by the Planning Commission that free and compulsory education up to the age of 11 should be provided by the end of 1965-66. There had been an increase in the number of all categories of schools and expansion of the facilities for technical and vocational education.

With regard to the food crisis to which this tiny State was a victim the Governor referred to the Anti-Profiteering Act which had received the Union President's assent recently, and the main features of the present food policy. Under the Act, she said, the maximum and the minimum prices had been fixed to prevent profiteering and to ensure a fair return to the farmers. The Government would procure by levy 25 per cent. of the production by mills and if necessary, buy rice in the open market as a measure of price support.

The acute housing shortage in Calcutta and in the districts had so far been tackled with successfully, she said. Work on eight industrial housing projects was in progress, while 17,000 houses had been built or were under construction under the "Build Your Own House" scheme. Loans were being given largely to help entrepreneurs.

If the refugees were left to their own counsel, Shrimati Naidu believed, a majority of them would opt for settlement in Dandakaranya or in other States. "Their welfare is the concern of all of us and I am sure that with our united efforts a satisfactory solution of the problem will be found", the Governor said.

The Greater Calcutta Milk Supply Scheme is making satisfactory progress, asserted the Head of the State. The number of milch cattle in the Haringhata Milk Colony had been doubled since 1957 and the volume of pasteurized milk handled had increased from 52,000 pounds to about one lakh pounds a day, for distribution to this city's consumers through a net work of allotment centres. The Central Dairy at Belgachia will start functioning from 1960 and will process over four lakh pounds of milk a day, she added.

Emphasizing the importance of Five Year Plans, she said that there was every likelihood of the State fully implementing the Second Plan for which a total outlay of Rs. 157.7 crores had been provided.

Still Shrimati Naidu admitted that unemployment was causing the Government "much anxiety". She referred to the schemes undertaken by the Government to provide employment. Because of the steady increase of population more and more people were in need of work every year, she said. "It is, therefore, a matter of utmost importance that too rapid a growth of population should be checked."

On Wednesday, the 4th February, the State Legislative Assembly completed the second reading of the Cattle Licensing Bill except for Clause 2. The Bill provides for the regulation of keeping of cattle in urban areas in the interest of public health and sanitation.

Under the measure there will be two classes of licences, namely, one granted to a householder for cattle kept primarily for milk consumption by his family and entitling him to sell not more than five seers of milk a day and another granted to any person for other purposes. Penalties include imprisonment up to six months or fine not exceeding Rs. 1,000/-, or both.

Moving the Bill for consideration, Dr. R. Ahmed, Agriculture Minister, said that about 40,000 milch animals were kept in this city and its suburbs mostly in khatalas which created serious public health problems. These khatalas were often located in congested areas. Existing legal provisions had been found inadequate and though, under the existing Municipal Acts, commercial khatalas were to be licensed still there was no control over animals kept in unhygienic conditions. Moreover, many khatalas were not licensed at all particularly in this city. When animals

were seized from unlicensed premises local people often certified them as animals maintained for domestic milk supply. Calcutta Corporation's efforts to remove milch animals from unlicensed khatahs have not been successful, added the Minister.

The principles of the Bill were agreed upon from all quarters. Several members urged the Government to prohibit keeping cattle completely in Calcutta and to ensure an adequate supply of pure milk to the citizens. One member suggested that in this respect Calcutta should follow the example of Bombay and establish a milk colony to meet the city's requirements.

Councillor Dharendra Nath Dhar held that the Bill was giving more emphasis on licensing of these khatahs than on their removal from the city. He suggested that vacant plots adjacent to the city should be utilized for establishment of an ideal milk colony.

Councillor Dhar further apprehended that the proposed Bill would over-ride the present Calcutta Municipal Act. It would rather deprive the Corporation from its dues.

FOURTH INDIAN SOCIOLOGICAL CONFERENCE, held its session in the premises of the Indian Statistical Institute, Barrackpore Trunk Road, northern part of the city towards the last week-end. It was attended by about 100 delegates from different States.

Inaugurating the conference on Friday, the 30th January last, Prof. P. C. Mahalanobis asked research workers to give up the imitative attitude of mind. Applied sciences were intensely local. Some particular topic which was suitable for a particular country might not be so for India. With a great variety in religion, language, customs and food habits of the people, India offered research scholars ample scope.

Dr. R. N. Saksena, Director of the Institute of Social Sciences, Agra University, presided.

Dr. Narmadeshwar Prasad presided over the Sociology Section of the conference. Discussing the problems he said that democracy in Asian countries had not conformed to the cultural bases of these countries and had, therefore, either failed or remained largely ineffective.

Speaking on "The Social Psychology of Community Development" there on Saturday, the 31st January last, Dr. P. H. Prabhu of the University School of Psychology, Ahmedabad, said that the community development programme had to be organized as an inter-related approach simultaneously on different fronts, such as anthropological, sociological, psychological, economic, health and education.

DEMONSTRATIONS: A meeting held on Tuesday, the 3rd February under the auspices of the Calcutta Corporation Employees' and Workers' Joint Committee at Subodh Mullick Square decided that if a satisfactory settlement of the Committee's demands, placed before the Corporation, was not reached within 15 days, it would advise employees and workers to take recourse to "direct action." Their main demands included revision of employees' grades and granting of weekly holidays.

The meeting further sought co-operation from the citizens in fulfilling their demands.

Shri Abinash Chandra Bhattacharya, General Secretary of the Association, presided while Shri Sushil Chakravarty, Shri Ajit Mukherjee, Shri Jagadish Singha and others spoke.

Nearly 10,000 people participated in three big demonstrations, held in the Esplanade area on Thursday, the 5th February. The demonstrators were college students, hospital workers and retail rice sellers.

The students' demonstration was against the raising of the tuition fees in the colleges, while the hospital workers wanted the fulfilment of their various demands. The retail rice sellers protested against the present food policy of the Government and demanded supply of rice at the fixed prices.

All of them wanted to proceed towards the Assembly House which was then in session but were prevented from doing so by the police as Sec. 144 Cr. P.C. was thrown in that area. The processions started towards the south gate of the Raj Bhavan from about 3 P.M. After speeches by some of the leaders, the demonstrators left the place peacefully.

A POWERFUL WIRELESS STATION in India was inaugurated on Sunday, the 1st February by Dr. B. C. Roy, the State Chief Minister, at the West Bengal Police Wireless Headquarters at Tollygunge, southern part of the city. The station was the first in the country to record the signal from Sputnik I spread over an area of over 20 bighas, the headquarters has been built at a cost of Rs. 30 lakhs. The Station possesses the most up-to-date arrangements for long-distance, mobile and short-range communications.

Dr. Roy said that the station was doing a great service in supplying information about floods, disturbances and other calamities from remote parts of the State. The time had come when the scope of information should be widened. The strength of a State depended to a great extent on a better and speedier information service.

Reviewing the work of the wireless organization Shri H. N. Sircar, Inspector-General of Police, said that during strikes, lock-outs, disturbances, general elections, municipal elections, important visits and big religious festivals the police wireless was always at the service of the people.

ALL-INDIA PRABASI UTKAL CONFERENCE concluded its annual session at Subodh Mullick Square, Calcutta, on the 27th January last after holding meeting for a few days being inaugurated by Shri Nityananda Kanungo, Union Minister..

The session decided to form a central organization of Oriyas living outside Orissa to safeguard their legitimate interests. Shri S. Raut Roy presided. A resolution stated that the central body; the Nikhil Bharat Utkal Mahasabha, should popularize Orissa's art and culture. The meeting demanded extension of educational facilities to the Oriyas in the city.

Janab Humayun Kabir, Union Minister for Scientific Research and Cultural Affairs, said that about four lakhs Oriyas lived in Calcutta. The best expression of Orissa's art, he added, was the Konarak temple which was perhaps the most beautiful specimen of Indian architecture in the pre-Mughal period.

CEYLONE'S INDEPENDENCE DAY was celebrated by the residents of Ceylon in the city on Wednesday, the 4th February. At a meeting, organized at the Mahabodhi Society Hall in the evening speakers referred to cultural ties between Ceylon and India and hoped that the two countries would continue to work in close co-operation for their mutual prosperity.

Ceylonese girls sang their national songs and "Jana Gana Mana" and offered the guests a bunch of betel leaves each according to their custom.

Mr. Justice P. K. Sarkar who presided, Dr. Kalidas Nag, Shri Salla Kumar Mukherji, former Speaker of the West Bengal Assembly, Dr. H. C. Roy, Mr. Charles Willis Naas, U. S. Consul in Calcutta, and Mr. D. Valisinha of the Mahabodhi Society were among the speakers.

A message from the Ceylonese Prime Minister said that despite various difficulties and set backs the Ceylonese Government had encountered some advance had been made towards unity and progress.

CORPORATION NOTICES

To Contractors

Tenders are invited in triplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, upto 12 Noon. Each tender in triplicate must be enclosed in a sealed cover and superscribed "Tender for.....". Tender forms may be had from the Keeper of Record on payment of Rs. 5/- each copy.

(1) Supply and installation of 4 Nos. 1.75 m.g.h. electrically driven pumping sets complete with sluice and reflux valves, H. T. and L. T. Switch gears and all accessories etc. for the proposed pressure Station at Tallah Water Supply Pumping Station.

(Earnest deposit Rs. 22,700/-) (Estimate Rs. 10,00,000/-).

(2) Supply and installation of 3 Nos. of 1.5 m.g.h. electrically driven pumping sets complete with sluice and reflux valves, H. T. and L. T. switch gears and all accessories etc., for the new pressure station at Pulta.

(Earnest deposit Rs. 17,000/-) (Estimate Rs. 7,50,000/-).

The tenders for 1 will be received upto 1st May, 1959 and for 2 upto 5th May, 1959.

A. BHATTACHARJEE,
Offg. Secretary.

Central Municipal Office:
The 3rd February, 1959.

To All Registered Petty Improvement Lighting Contractors

DISTRICT NO. II.

Tenders for the following works are invited and will be received by the Chief Engineer, in duplicate in a sealed cover superscribed "Tender for....." on 9th February, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer of all works exceeding the value of Rs. 2,500 shall have to deposit 5 p.c. of the total value of the accepted tender, as Security Deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and A. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Installation of 8 Nos. electric lamps of 2 by 100 watt each at Amherst Street in Const. No. 43, D-II, L-188-Rs. 3,897.00, dated 2nd February, 1959 (90 days).

D. M. SAHA,
Lighting Superintendent.

Central Municipal Office:
The 2nd February, 1959.

DISTRICT NO. III

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 8th February, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of the tender. The Corporation standard specification will apply on the work.

MUNICIPAL SERVICE COMMISSION

NEW APPOINTMENTS

Sub: Temporary appointment of Shri Indu Sekhar Bhattacharjee to a post of Assistant Analyst, Central Laboratory, Corporation of Calcutta.

In pursuance of the Municipal Service Commission's letter No. 1794 M. S. C. |1P|15|58 dated the 13th November, 1958, the Standing Finance Committee at its meeting dated the 23rd December, 1958 passed the following:—

"That the approval of the Municipal Service Commission regarding temporary appointment of Shri Indu Sekhar Bhattacharjee as Assistant Analyst, Central Laboratory till the post is filled up on the recommendation of the Commission, as communicated in their letter No. 1794 dated 13th November, 1958, be noted."

Sub: Permanent appointment to a post of Assistant Analyst in the Central Laboratory on the scale of Rs. 150-10-350.

In pursuance of the Municipal Service Commission's letter No. 1789 M. S. C. |1D|17|55 dated 7th November, 1958 the Standing Finance Committee dated the 23rd December, 1958 passed the following:—

"That accepting the recommendation of the Municipal Service Commission, as communicated

in their letter No. 1789, dated 7th November, 1958, Shri Sankar Nath Koyal be appointed to the permanent post of Assistant Analyst in the Central Laboratory in the scale of Rs. 150-10-350 plus other usual allowances, subject to service regulations of the Corporation."

Sub: Acting appointment of Shri A. C. Sinha as District Engineer vice Shri S. C. Moitra resigned.

In pursuance of the Municipal Service Commission's letter No. 1726 M. S. C. |1P|12|57 dated the 29th September, 1958 the Corporation confirmed the following recommendation of the Standing Finance Committee dated the 16th October, 1958, regarding the acting appointment of Shri A. C. Sinha as District Engineer, at its meeting held on the 19th December, 1958.

"That the approval of the Municipal Service Commission to the acting appointment of Shri A. C. Sinha as District Engineer with effect from 16th November, 1956, till he made over to Shri Nrishinha Majumdar, as a purely stopgap measure, as communicated by the Secretary, M. S. C. in his letter No. 1726 M. S. C. |1P|12|57 dated 29th September, 1958, be noted."

PHENEOL LAMP BRAND

A POWERFUL DISINFESTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, BAR-AT-LAW
Supt., G. S. Begg Market.

VIEWS AND REVIEWS

RABINDRA SARANI

At last, the Calcutta Corporation is going to perpetuate the memory of the world-famous Poet Rabindranath in the way of some permanent memorial. The Corporation's move was long since and a section of the House desired that the city's most important thoroughfare, Chowringhee Road, should be re-named after him. Motions were tabled in the Corporation meetings to that effect. But unfortunately, those could not be translated into action due to various reasons. Another section thought of re-naming Chitpore Road after him, whose nearby the Poet's ancestral residence stands. It is the site where the Poet was born about a hundred years back, moved and walked, and breathed his last. It was one of the befitting suggestions to perpetuate his name in this way but this also could not be done due to other reasons. Continuing their move longer in this regard recently another step has been taken whereby the possibility of re-naming a long distance path after him might be effected.

The Standing Borough Committees have long been experiencing difficulties in re-naming a large number of streets, roads and lanes in their respective areas in absence of definite principles and policies in this regard.

There are other difficulties as to when a particular street or road stretches over from one Borough to another. In order to liquidate those difficulties and to discuss the issue on threadbare there was a joint sitting of all the Chairmen and Deputy Chairmen of the Borough Committees on Friday, the 13th February, in the Central Municipal Office Buildings, S. N. Banerjee Road. It was decided on that meeting that the long run Cornwallis Street starting from the crossing of Galiff Street at Shyambazar and College Street up to its terminus at Bepin Ganguli Street, be re-named as RABINDRA SARANI. A dome to be erected at the starting point to be named after the Poet. Situated on the northern gateway, it would remind the visitors of the world famous Poet who took Calcutta as 'the city of his birth'. This suggestion was made at that meeting by Councillor S. K. Roy being supported by Councillor Mihirlal Ganguly and

was carried unanimously with Councillor Chandra Sekhar Bhowmick presiding.

Thus the decision taken would be placed before the Corporation in the shape of a recommendation and would, no doubt, receive the final approval for implementation. It may be recalled here that the Calcutta Improvement Trust has recently named a portion of the big Dhakuria Lakes as RABINDRA SAROBAR.

Cornwallis Street, named after a Governor General of India in the early Company rule period, bears a historic tradition. The street's first stone was probably laid in the early nineteenth century and it has seen the city's history for the last one hundred and fifty years moving around it. Its path had been trodden by not only important citizens but also by great master minds who once moulded the country's destiny. Even distinguished foreign dignitaries trod over its paths whenever they had the chances to visit this City of the East. Running in front of the Calcutta University Senate's historic building, the Calcutta, Medical College, the Presidency College, Calcutta, College Street also bears an equal amount of historic reminiscences. And to associate those two streets with the name of the Poet Rabindranath would be the most befitting one. Thus when the recommendation would be taken as a decision it would go a long way to perpetuate the Poet's memory in this city as a grateful acknowledgement to that great seer. The Poet himself had moved on its paths as many of the sites and buildings were the fields of his activities, namely Senate Hall, Ashutosh Buildings, Albert Hall, the Sadharan Brahmo Samaj, College Square and others.

SPRING FESTIVITIES SET IN

With the celebrations of countless number of SARASWATI PUJAS in the city and in its suburbs the advent of spring was practically announced on Thursday, the 12th February. It was also the first day of the Bengali month Falgoon.

The Puja, devotion to the Goddess of Learning, was performed not only on community basis among the young students in their institutions and hostels with enthusiasm but also in thousands of Hindu

homes in the city. The predominantly students' festival also spread amongst other walks of life. The employees of mercantile firms, athletic and sports' clubs and cultural societies took an equal interest. At the entrances to several Government and mercantile offices in Dalhousie Square area there were decorated arches. In a prominent bazar in South Calcutta the Goddess was worshipped in almost all textile and jewellery shops.

The children, and young girls and boys taking much initiative started decorating places of worship about two days ago. Small pandals were erected almost in every street corner or open places. The floors were decorated with *alpanas*.

Pujas were celebrated in many of the Corporation schools. Similar functions were held at the S. B. Dey Model School for Boys, Central Calcutta and Dharmadas Model School for Boys at Kalighat, southern part of the city.

From early morning girls in bright yellow *saris* and boys clad in their best were seen round the Puja pandals. Devotees, on fast for the duration of the Puja, offered the *anjali* (floral offering).

The worship in the morning was followed by feasts in schools and in almost all houses. In the evening, there were arrangements for musical soirees and variety entertainments at many places of worship.

But the unexpected smart shower almost completely washed out the evening celebrations. The pandals, mostly covered with cloth, were thoroughly soaked and partially damaged in some cases. *Arati*, a part of the rituals, had to be perfunctorily performed. Entertainment programmes could not be gone through in many places. Holiday crowds, mostly out in the streets to participate in the celebrations, returned home disappointed.

Still this could not fully mar the festivities. Some of the pandals were illuminated by multi-coloured bulbs. Mikes were freely used in many of the Puja pandals till late hours in the night. There was a special programme in the All India Radio.

Friday was devoted to immersion of images. On this occasion the young were found most active than others. Till late hours many of the streets leading to the Babughat and other riverside places in northern part of the city and the *Adi Ganga* in the southern area were full of lorries, trucks, carts and rickshaws loaded with images. Many of the trucks and lorries were decorated with multi-coloured lights and other decorations.

By an earlier arrangement traffic was diverted so that immersion processions might be restricted to certain specified streets and roads. The day was a holiday to all the educational institutions. Many of the Government offices and Corporation offices were closed earlier in order to avoid traffic difficulties by the citizens.

MR. D. J. COHEN IS DEAD

We regret to announce the death of Mr. David Jacob Cohen, a long time Councillor, Calcutta Corporation, and a prominent figure in the Jewish Community of the city. He died suddenly on Monday morning, the 9th February, at his residence, Park Street. The late Mr. Cohen was also an important estate owner and a social worker of

this city. He was awarded the O.B.E. in the New Year's Honours list in 1941. He was 76.

As soon as the news spread over the city a large number of his relations and admirers went to his place. A wreath was placed on his bier on behalf of the Calcutta Corporation. Many of the Corporation officials including a Deputy Commissioner, rushed to his place of residence to pay their last homage to the departed. Corporation offices and schools were closed for the rest of that day as a mark of respect to the memory of one who was so long associated with this institution.

In the afternoon, a funeral procession was taken out from his residence followed by people mostly belonging to his own community and ended at the Jewish Cemetery where the last rites were performed.

Born on the 5th August, 1883, in Calcutta the late Mr. Cohen had his education mostly in India. He was a Councillor of the Corporation for 42 years and Honorary Magistrate for the Calcutta, Alipore and Sealdah Courts for many years, a member of the Legislative Council, a governor of the Mayo Hospital and a member of the Ranchi Mental Hospital Committee.

The late Mr. Cohen was also a Committee member of the Calcutta Blind School, the Calcutta Deaf and Dumb School and a visitor of Alipore Jail. As a prominent figure in Jewish affairs he sat on several committees, chief among which being the honorary secretaryship of the Bethla Synagogue, the Jewish Girls' School and the Jeshurun Free School.

The Corporation weekly meeting on Friday, the 13th February was adjourned without doing any business as a mark of respect to the memory of Mr. D. J. Cohen, who was a Councillor for long years. The members of the House stood in silence for two minutes to pay homage to the memory of the deceased.

Paying eloquent tributes to his memory, the Mayor, Dr. Triguna Sen, referred to the late Mr. Cohen's different activities in the Corporation. His association with this institution dated back not only in the year 1924, when the new Corporation was inaugurated but also even before that when Municipal Commissioners adorned the Council Chamber. As a living figure in the Jewish community he was loved and respected by all. 'With his death the city has lost an important elderly citizen and a true lover of his community who helped them in various ways', added the Mayor.

CHINESE CELEBRATED NEW YEAR'S DAY

The Chinese in the city observed their New Year's Day according to the calendar on Sunday, the 8th February. At midnight of Saturday-Sunday the Goddess of Wealth was welcomed and the New Year ushered in with the firing of crackers, burning of incense and lighting of red candles. Chinese houses, clubs, shops and institutions displayed red paper pasted or hung with Chinese inscriptions generally meaning: "Wishing you prosperity in the New Year". Gaily dressed Chinese particularly children, visiting one another's houses, were given sweets and delicacies, and exchanged money wrapped in red paper.

A number of "Dragon Dances" and "Lion Dances" were organized in aid of the Chinese schools. There were processions in which the leaders and some others wore masks.

Corporation Bye-Elections In Two Constituencies

SHRI BARINDRA KUMAR CHATTERJEE and SHRI BALAI BHUSAN PAUL have been elected as Councillors to the Corporation from Ward Nos. 70 and 75 respectively in the bye-elections held on Sunday, the 8th February. The vacancy in Ward No. 70 was caused by the resignation of Shri Dharendra Nath Ghosh, a long-time Councillor of the Bhowanipur area, on account of his protracted ill-health. The seat from Ward No. 75 became vacant on account of sudden death of Councillor Ushanath Sen, towards the end of December.

Enthusiasm ran high in both the Wards moving round the prospective candidates then. Shouting the names of their respective candidates, demonstrations, meetings and canvassing from door to door, were the features for holding the elections on behalf of individual candidates. This continued for days together before the appointed day. Battles on postering were equally witnessed in both the areas. Although the election day passed off almost peacefully still in the Kidderpore area there were few minor incidents which deserved mention. Citizens in thousands gathered near about the polling stations in both the areas. There were traffic jams in a few places. Voters were helped by adequate number of transports. The air was thick in enthusiasm on that day. A large number of citizens from other areas also concentrated in those places to witness the elections. Polling was said to be satisfactory in both the Wards.

In Ward No. 70, after counting of votes in the Central Municipal Office Buildings, S. N. Banerjee Road, at that night, Shri Chatterjee was garlanded by his admirers, supporters and followers within the office compound. He was then taken round his Ward in a procession continuing late hours.

Shri Chatterjee, who was a candidate of the United Citizens' Committee, secured 774 votes against 584 polled by his immediate rival, Shri Ardendu Sekhar Basu, an independent candidate. Dr Satindra Nath Mukherjee, a nominee of the Congress Municipal Association, secured 411 votes and 46 votes by another independent, Shri Subodh Kumar Dey. Total number of voters in that Ward was 2,762. About 60 per cent. of the votes were polled.

Counting of votes in Ward No. 75 took place on Monday, the 10th instant declaring Shri Paul as the Ward's representative. He was garlanded and also taken in procession round his area in a similar way by his followers and admirers.

Shri Paul, who was a Congress Municipal Association's nominee, polled 1108 votes against 1027 votes secured by the United Citizens' Committee's

candidate Dr. Naresh Chandra Banerjee and 66 votes by an independent candidate Shri S. R. Das. Four votes were rejected. There were 2724 voters in that ward, and it was estimated that about 80 per cent of them exercised their franchise.

A CAREER FULL OF POLITICAL ACTIVITIES

AGED 47 years, Shri Barindra Kumar Chatterjee can put up an eventful career on his behalf, devoted mainly on country's political movements. Before he joined the Communist Party of India in 1940, he participated in the country's struggle for freedom and was associated with the activities of the Indian National Congress. Earlier to that he joined the Civil Disobedience Movement in Thirty's as a worker of the Students' Front under the banner of the All Bengal Students' Association. He was then sentenced to undergo imprisonment for one year. He was arrested again in 1932.

SHRI CHATTERJEE

In recent years Shri Chatterjee, concentrated his activities on social services also. He is connected with a number of philanthropic organizations including Dakshin Kalikata Sevak Samity, Tarun Samity and others. As a teacher by profession, he is also associated with many other educational institutions. He was also a senior teacher of the South Calcutta National School for considerable period in the Fifties.

Son of the late Shri Manick Chatterjee Shri Chatterjee comes of a respectable family of Nuddea, in a distant village near Ranaghat.

A LIFE DEVOTED TO PUBLIC SERVICES

GRANDSON of late Shri Ramanath Paul under whose name a road runs in the Kidderpore area, Shri Balai Bhusan Paul was born in that area in the year 1917. He had his school education at a local institution. St. Barnabas. After passing the

SHRI PAUL Paul is still now an important businessman in the city moving in different spheres.

But philanthropy prompted him to devote in social and cultural activities and spread of female education in the city took the uppermost in his mind. He donated a sum of Rs. 12,000/- to build up the Sarat Memorial Girls' School, named in memory of his late father. Besides, he is associated with a number of other local institutions and organizations in different capacities. He is also the President of the Kidderpore Sporting Club and Kidderpore Seva Samity.

R. G. KAR EMPLOYEES' STRIKE ENDS

The 27-day old strike of R. G. Kar Medical College and Hospital Employees ended on Sunday, the 8th February, following the West Bengal Government's decision to refer the issues arising out of their demands to adjudication. Most of the strikers comprising of nurses, wardmasters, ward-boys, stewards, stores' employees reported for duty on that morning. Dirt accumulated during the strike period was scrubbed, and the equipment and other installations were cleansed.

The out-door department of the hospital was opened on Monday, the 9th February and full normalcy returned on Tuesday. The indoor-department started functioning later on as extensive repair work was undertaken in the meantime.

The decision to withdraw the College and Hospital employees' strike was taken in their meeting held at the hospital premises on Saturday, the 7th February last, when the Union Secretary said that the Government had accepted the Union's demand for reference of some issues in the dispute to a Tribunal which included revision of wages, fixation of leaves and holidays and others.

Rising almost on the same issue the Joint Action Committee of Hospital Unions postponed the hospital employees' strike in all hospitals called for on February 10 in view of the State Minister's statement in the Assembly that the Government might consider the employees' demands.

MAYOR & SHERIFF FELICITATED

THE MAYOR, DR. TRIGUNA SEN and ALDERMAN G. BASU, SHERIFF OF CALCUTTA, were given warm felicitations when several citizens residing in Ward No. 64, southern part of the city, met them at a TEA PARTY, at 10, Raja Basanta Roy Road, within the same area, on Sunday, the 8th February. The function was held under the auspices of Constituency No. 64 Civic Advisory Committee.

Replying to the sentiments expressed on the occasion, the Mayor, Dr. Sen, said that 'a kind of parochialness' was prevailing in the minds of many of the members in the Corporation and this had put a barrier in removing, the city's principal evils. 'Lack of proper co-operation and co-ordination both among the executives and among the members of the House are the added handicaps of progress,' felt Dr. Sen. In that connection he referred to his personal experiences in implementing the proposed 72 in. Pulta-Tallah Main, for which he had to move the four corners and even had to go to Delhi for easing the steel supply position.

Appreciating the services of that Ward Advisory Committee the Mayor further felt the need of such Committees in every Ward. He also narrated how his proposal for forming such Committees could not be successful due to simple differences in political ideologies imbibed by the members in the House. But the idea still held good in his mind and he expressed his desire to devote himself in their formations after he would cease his Mayoralty. Because, he felt that welfare state of West Bengal for which so much had been talked of should be built on this welfare city where one fourth of the States' population lived. Based on social and civic welfare activities these Ward Committees would be the strong pillars in building up a New India, the Mayor opined.

Alderman G. Basu, as Sheriff of Calcutta, said that the functions of the post, as existed during the pre-independent days, should see changes in the post-independent period. As an Alderman of the Corporation he felt that there should be a 'kind of rationalization' in the internal administration of the institution. As a professional man in one branch of administration he also felt that there were enough scope to implement many of the modifications in this Corporation, recently undergone in different civic institutions.

Earlier, welcoming all, Principal Jitesh Guha, President of the Advisory Committee, paid tributes to the achievements of both the Mayor and the Sheriff.

While presenting a statement on behalf of the Advisory Committee Dr. Birendra Chandra Basu, said that as a representative of the Ward in the Corporation, he could say that except a few plague spots including Bustees, the Ward's many of the nuisances had been removed. Public parks and gardens had been allowed to bloom forth beautiful flowers and foliage. Equipment for children's play had been added to almost all the parks within that area. House to house collection of refuse had proved successful mainly due to citizens' co-operation and co-ordination. The Councillor also thought that had there been a better spirit of co-operation among the members of the Corporation the city's general civic well-being would have been furthered. As an optimist he also hoped that under the guidance of the present Mayor there would have larger goods to the citizens as a whole.

Many others present also spoke.

In view of that threatened strike the Chittaranjan Seva Sadan and its attached Sishu Sadan had already discharged about 200 out of its 300 patients and the Cancer Hospital about 75 of its 150. The K. S. Roy, T. B. Hospital Authorities, who had served notice upon all its patients for removal, withdraw the notices on Monday. Since Sunday, the 8th February fresh admissions started.

DR. A. LAKSHMINPATHI DELIVERING HIS ADDRESS

Sitting from left : Dr. A. B. Roy, State Health Minister and Shri D. P. Karmarkar, Union Health Minister.

PHOTO : By courtesy of the Director of Publicity, West Bengal Government.

COUNCIL OF INDIAN MEDICINE

INAUGURATED by the Union Health Minister, Shri D. P. Karmarkar, the Fourth Session of the All-India Convention the Council of Indian Medicine was held about a month hence, in the Asutosh Memorial Hall, southern part of the city.

The function was presided over by Dr. A. Lakshminpathi. The convention was largely attended by delegates from all over the country.

The West Bengal Health Minister, Dr. Anath Bandhu Roy, in a lengthy speech, felt the need of co-ordination and co-operation for the development of indigenous system of medicines, namely the Ayurvedic science whose achievements once spread over the whole country. He also felt the need of introducing a common method of teaching and a code of

principle which would govern all the intending practitioners in this particular science.

Dr. Ray, as the Chief Guest, also referred to the re-orientation of the course and method of teaching with the help of stretching the training period longer and by a comprehensive study of the science so that a Degree Course as in modern medical science, might be introduced. Even the provision of providing opportunities for research work in that branch would be there, he hoped.

In re-organizing the study, the State Minister apprised his audience, that the Government was thinking about undergoing research even on post-graduate lines by the graduates in Ayurveda. 'A Bill for the purpose might be introduced if necessary' felt Dr. Roy.

STATE MEDICAL STUDENTS MEET

West Bengal medical students meeting at a conference in the premises of the Nilratan Sarkar Medical College, Calcutta, on Tuesday, the 10th February urged nationalization of medical education through a resolution. It noted with alarm the "gradual deterioration in the medical teaching standard in different institutions due to lack of proper vigilance on the part of the authorities and steadily increasing problems associated with the public hospitals."

The meeting also expressed anxiety over the "steady and pitiless transformation of the primarily teaching institutions into emergency-cum-first-aid centres catering to the whole State."

The Conference further adopted a number of resolutions drafted by the Council of Medical Students, West Bengal.

Messages were received from the Governor, Shrimati Padmaja Naidu, the Chief Minister, Dr. B. C. Roy and the Vice-Chancellor of Calcutta University, Dr. N. K. Sidhanta.

Inaugurating the Conference Dr. B. P. Trivedi, President, Indian Medical Association, said that students should make close contact with the public in order to be able to serve the people. About 200 delegates, representing medical colleges in West Bengal, were present.

L.I.C. PERSONNEL TO BE TRAINED

A centre for training of Life Insurance Personnel in this city was inaugurated on Monday, the 9th February, at zonal headquarters, Hindusthan Buildings, Chittaranjan Avenue.

Sir Dharendra Nath Mitra who performed the ceremony, said that the training would surely give the insurance profession a dignity comparable to that of any other profession. The days of amateurs were over, and the time had come when they should have professional insurance men properly trained.

According to the Insurance Corporation's Scheme, all categories of its development personnel, including branch managers, are to take the training for some time. There is to be one permanent training centre with hostel facilities at each of the five zonal headquarters—Calcutta, Delhi, Madras, Bombay and Kanpur. To expedite the initial training of all categories of development personnel, the Corporation has decided to organize seven temporary training units in addition to the five training centres, he added.

Shri S. D. Srinivasan, Zonal Manager, who presided, briefly referred to the importance of training field officers.

CITY NEWS PARADE

OBITUARY: The death of Shri Kalipada Mukherjee occurred on Monday, the 9th February at his residence in this city after a brief illness. He was 68.

The late Shri Mukherjee joined the Bar in 1914 and subsequently became Government Pleader, Mymensingh. He was Government Pleader, Alipore, from 1936 to 1948.

WEST BENGAL INDUSTRIAL EXHIBITION was inaugurated by the Union Law Minister, Shri A. K. Sen, on Tuesday, the 10th February. Being organized by the Federation of Small and Medium Industries, the Exhibition has been located at the crossing of Theatre Road and Chowringhee, Calcutta. Among articles displayed are temperature controlling equipment, an electric furnace, a microscope, a telescope and optical instruments, railway signals, engine headlights, a motor boat, sheet glass, switch box, pressure lamps, cycle parts, enamel wires and leather products. All are products of West Bengal's small and medium industries.

Alderman G. Basu, the Federation's President, said that because of the present foreign exchange position, small and medium industries were experiencing, an acute shortage of imported raw materials. It was imperative that some measures should be taken to help small units which could not satisfy the conditions required for the grant of loans. Big industries should seriously consider how best they could help the smaller units and provide employment to a greater number of people, added the Sheriff of Calcutta.

SOCIAL CRIMES: The Enforcement Branch police arrested on Sunday, the 8th February in Central Calcutta, two grocers on a charge of selling rice at prices higher than the controlled rate. The police seized over 22 maunds of rice from the shop.

The police also arrested two proprietors of a kerosene shop on Manilal Banerjee Road, Kidderpore area, for selling four gallons of kerosene at prices higher than the controlled one in violation of the provisions of the West Bengal Anti-Profitteering Act. About 288 gallons of kerosene were seized.

DEMONSTRATIONS: Three different sections of Calcutta Corporation's employees—primary school teachers, school inspectors and inspectresses, and personnel of sewer cleansing gangs—demonstrated, each group separately, on the lawn of the Central Municipal Office Buildings, S. N. Banerjee Road, on Friday, the 6th February last. They dispersed after their grievances had been referred to at the weekly Corporation meeting which was then in progress.

The Deputy Mayor, Shri Keshab Chandra Basu, who presided, announced that he had met representatives of primary school teachers and inspectors and inspectresses and had asked the Chairman of the Standing Finance Committee to look into their grievances which related to wage increases.

The teachers in large number, including women carried festoons and banners. While demonstrating they voiced demand for their better pay scales in different categories.

Regarding the sewer cleansing gangs, who complained of non-payment of their wages, the Chief Executive Officer told the meeting that payment of a section had been withheld as they had defied departmental orders to work at night. They continued to work during the day although the department had put a ban on it. The Chief Executive Officer, Shri P. C. Mazumdar, said that he had asked the

department to report to him on the matter and hoped that the matter would be disposed of soon.

A large number of primary and secondary school teachers demonstrated near the South Gate, Raj Bhavan, Calcutta, where they were stopped by the police on their way to Assembly House on Tuesday, the 10th February. Demonstrators which included women also dispersed after they were informed that Dr. B. C. Roy had agreed to receive a deputation on Saturday, the 14th February.

The demonstration was organized jointly by the All Bengal Teachers' Association, West Bengal Primary Teachers' Association, Municipal Primary Teachers' Association and the Refugee Primary Teachers' Association. According to the organizers, if the State Government did not concede their demands primary and secondary school teachers all over the State would observe a token "cease work" on April 30. They also proposed to begin hunger-strike on the same date.

Before disperse many of the legislators including Shri Jyoti Basu, Shri Siddhartha Roy, and others addressed the teachers.

SUFFEE COMMERCIAL COLLEGE'S Silver Jubilee was celebrated at the Muslim Institute Hall, central part of the city on Sunday, the 8th February. Shri Kalipada Mukherjee, West Bengal's Home Minister, the Chief Guest, described the college as one of the best of its kind in India. The Institution coaches both boys and girls in secretarial practice, accountancy, costing, commercial law, stenography and typewriting.

AN EXHIBITION OF HANDLOOMS displaying some of the State's products, being organized by the West Bengal Weavers' Co-operative Marketing Society, was opened by Shri P. C. Sen, the State's Food Minister at Artistry House on Sunday, the 8th February.

In a message, wishing success of the Week, the State Chief Minister Dr. B. C. Roy, said that all should rededicate themselves to the vital task of helping the prosperity of the weaver and assuring his future.

At the exhibition, organized in connexion with the Sixth All-India Handloom Week, Shri Sen said that big industries were apparently no solution of the unemployment problem as they could employ only a limited number of people while India's population was growing at the rate of about 40 lakhs a year.

West Bengal's handloom industry had increased its production almost ten times in the past decade and was developing as fast as that in other States. Consumption of cloth which was comparatively higher in the State, could be further increased provided the people's purchasing power could be raised. The Government was also setting up a number of spinning mills. If the Ambar Charaka also could be used for the purpose, unemployment might be substantially reduced and the region's economy be improved, said the Minister.

Speaking on Bengal's superior products Lady Ranu Mukherjee said that the aesthetic value of India's handloom products was the highest in the world. She had toured America and Europe and had not found anything like Indian products anywhere. In South India she had seen people eager to buy West Bengal's Santipuri products.

The 11th February was observed throughout West Bengal as "Silk Day" to focus attention on this important sector of the State's industry. The State Industry and Commerce Minister presided at a function held on that day

at Rangmahal Theatre Hall. Shri Bhupati Mazumdar said that the industry was facing severe competition from rayon. If it was to be preserved, people must be taught the intrinsic value of silk, the finest fabric in the world.

The object behind it was to popularize products of the handloom industry which provided employment to about nine million people throughout the country.

FOUR-DAY DEBATE ON GOVERNOR'S ADDRESS IN THE STATE LEGISLATIVE ASSEMBLY concluded on Tuesday, the 10th February, when the motion of thanks was passed with the Opposition benches being empty. They walked out of the floors as they had failed to induce the Food Minister, Shri P. C. Sen, to make a categorical statement as to when rice would be made available at fixed prices in the open market.

During these four days commencing from Friday, the 6th February last, more than one hundred speakers from both the sides took part in the debate. Non-availability of food-stuffs, unsatisfactory condition of imparting primary education, insufficient relief to the refugees, and increased unemployment in the State were the main topics which dominated the debate. Discussion on the transference of certain portions of the State to the East Pakistan area was also introduced by many of the speakers. Charges and counter-charges were made from both the sides of the House. Still no unmixed support was given by the Treasury Benches to the Present

LATE SHRI MADAN MOHAN BURMAN

The late Councillor Madan Mohan Burman's Seventieth Birth Anniversary was observed in the city on the 22nd January last. In that connection a public meeting was held in the Central Municipal Office Buildings, S. N. Banerjee Road, on that day. Wreaths were placed

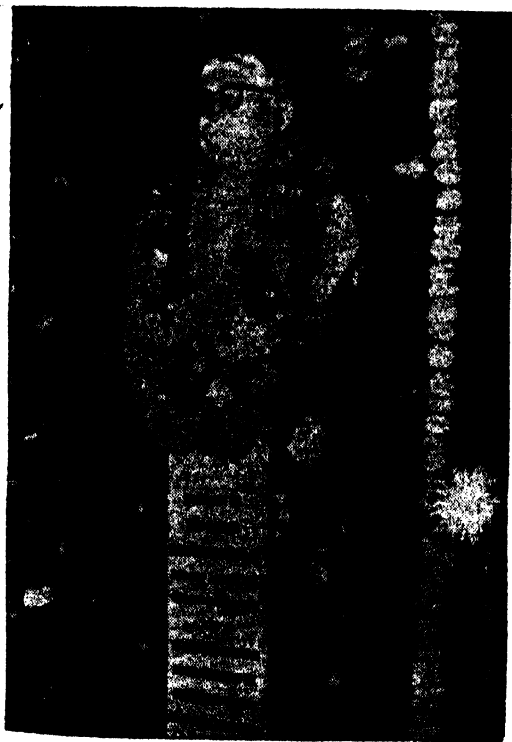

PHOTO : S. B.

on the statue of the late Shri Burman (picture above) by the Deputy Mayor, Shri Keshab Chandra Basu who presided and by different others. Wreaths were also placed on behalf of different organizations and institutions including Corporation Jamadars and Peons' Association and Scavengers & Labours' Organization. Many of them owe their existences to the late Shri Burman. Councillor Budridas Burman and others, were present.

State Government's policy which was reflected in the Governor's Address. Oft repetitions in individuals' speeches stood in the way of rousing an interest in the visitors' gallery except on a few occasions.

The debate in the Assembly was initiated by Shri Jyoti Basu, Leader of the Opposition, who spoke nearly one hour stressing on all sides of the Address. Replies were given by the State Chief Minister. Dr. B. C. Roy, the Food Minister, Shri P. C. Sen, who was attacked by almost all the speakers in the Opposition benches and Janab A. Sattar, the State Labour Minister, who pointed out that the improvement in labour relations had been maintained since 1957. On this he complimented labour leaders, employers and employees. It also showed the effectiveness of the Labour Department, the Minister claimed.

Both Dr. Roy and Shri Sen referred to Shri Jyoti Basu's comparison on the opening day of the debate between India and China's food production and doubted if objective conditions in the two countries were similar.

Dr. Roy also explained how the employment potential in the State had improved through the establishment of industries—big, small and cottage. More schemes were being given effect to, he said.

Participating in the discussion a large number of members emphasized the need for prompt and vigorous action to curb the activities of profiteers and blackmarketeers.

On the last day Shri Siddhartha Sankar Ray said that he did not understand why the Government would not apply the Preventive Detention Act to ensure full implementation of its food policy.

Shri Ray, a representative of this city, suggested that the Government should issue separate licences for wholesalers, mill-owners and retailers to sell rice and paddy. He referred to the February 3 *Calcutta Gazette* in which rice prices in the districts for the week ending January 14 had been quoted. He was surprised that even the *Gazette* had quoted "black-market prices". This he thought, was not encouraging in the Government's policy to keep the prices under control.

Referring to the State's educational problem, Dr. Prafulla Chandra Ghosh, Leader of the P. S. P. Party, said that the educational system which the British had introduced with a definite purpose, had remained practically unchanged.

Another speaker on the first day Shri Hemanta Basu asked why the Government, which did not support the enhancement of tuition fees in colleges, and why the activities of some traders was not taking any action.

On the second day, Dr. Narayan Ray devoted his speech entirely on the problems of medical aid and public health and the conditions of service of hospital employees. He said that the Governor had given an exaggerated picture of the improvement in medical and public health services. The entire service was becoming "rotten to the core", remarked one of the principal physicians of the city.

There was too much centralization of authority in Writers Building. Service conditions of doctors were such that many experienced men were thinking to join in other States, felt Dr. Ray.

Dr. Ranen Sen said that although the Congress was talking about Socialism they were by their performance taking the country farther from that goal. Quoting figures from the census of manufacturing industries which had been compiled by the Government, the representative of an industrial part of the city said that while the share of the monetary benefits accrued to the employers had shown a rise from 40 to 44 per cent., that of the workers dwindled from 60 to 55.

Miss Olive Pemantle, a representative of the city's Anglo-Indian Community, said that displaced persons from East Pakistan should go to Dandakaranya. She thanked the Governor for having referred to all the outstanding problems of the State such as food, industrial disputes and unemployment.

The Third day's debate was a prolonged one. Two of the members in the Treasury Bench complimented the leader and many others belonging to the Opposition Bench for their constructive suggestions they had made during the debate.

Alderman Bejoy Singh Nahar said that the change in Shri Basu's tone was possibly the result of assumption of power by Communists in Kerala, which had instilled a sense of responsibility in them. Alderman Nahar further suggested that a big Sports Stadium might be built up at the site where the present Race Course situated in the Maidan. He thought that the yield would be greater than the present income mainly derived as 'Betting Tax'. He also criticized the Government's policy in this sphere.

Shri Jatin Chakraborty described the transfer of territories, already made or proposed, as a grave injustice to West Bengal. The representative of the central part of the city also criticized the State's administrative machinery which, he said, had become outmoded. He asked why so many officers were anxious to work in Writers Building which had become a "hotbed" of intrigue by groups of officials.

THE STATE LEGISLATIVE COUNCIL also debated the issue for three days and still now it remained an inconclusive one.

Initiating the debate on the same day with the Assembly, Shri Sasanka Sekhar Sanyal regretted that certain areas in Murshidabad District had been transferred to the Pakistan area on the 15th January last but that had not been mentioned in the Address. The area comprising 4,000 acres of land

and inhabited by 4,500 people, had been "thrown away" to Pakistan without consulting the State Legislature or local bodies. Excitement for this issue rose high in the Council on that day.

Food and education equally dominated in the rest of the speeches delivered during these days.

The second day's debate was opened by Shri Snehangshu Acharyya who quoted statistics to show that all aspects of life in West Bengal had markedly deteriorated. The Governor's description that "new life was pulsating in the State" was contrary to the people's experience, he said.

Shri Gopal Halder, a representative of the Calcutta Graduates Constituency, regretted the Government's failure to introduce an integrated scheme to expand education.

Shri Mahitosh Rai Chaudhuri said that there might be defects in the implementation of the Government's education policy, but to criticize that policy as such would be wrong.

On the third day the most impressive was the speech of Prof. Tripurari Chakraborty, another representative of the Calcutta Graduates, who suggested setting up an Expert Committee to consider the desirability of imparting moral, ethical and cultural lessons among the students who were the futures of the country.

Councillor Deva Prasad Chatterjee wanted the refugee problem to be tackled effectively during the Second Plan period.

Councillor J. L. Saha hoped that the flow of rice from other States would help to eliminate complaints about scarcity of food-stuffs.

D. M. SAHA,
Ltg. Superintendent.

Central Municipal Office,
The 10th February, 1959.

CORPORATION NOTICES—Contd.

Modification of Alignment

NOTICE.

Notice is hereby given for information of the public that the Corporation of Calcutta by its Resolution dated the 21st November, 1958 has generally approved the plan prepared under Section 363 read with Section 356 of the Calcutta Municipal Act, 1951, showing the modification of alignment of a 20 ft. projected public street widening a portion of Sevak Baidya Street and extending it westward to meet Hazra Lane (now Lansdowne Place) affecting premises No. 12, Sevak Baidya Street shown in blue line on the plan prepared in this behalf, in Ward No. 62.

Any person having any objection to the proposed modification of alignment should submit it in writing so as to reach the undersigned on or before the 10th March, 1959.

A copy of the plan showing the proposed modification may be seen in the office of the Chief Valuer & Surveyor free of cost on all working days during the office hours.

P. C. MAJUMDAR,
Chief Executive Officer.

CENTRAL MUNICIPAL OFFICE :
The 24th January, 1959.

Notice

Notice is hereby given for the information of the public that as per Resolution of the Corporation dated 21st November, 1958 the management of the two Model Bustees—one at 89, Narikeldanga Main Road and the other at 97, Dikhusa Street have been taken over from the Model Bustee Committee unconditionally with effect from 20th August, 1958.

The two Model Bustees at the above places will be known as "Corporation Tenements."

Further as per the said Resolution of the Corporation the tenants as settled by the Model Bustee Committee are accepted as Corporation tenants subject to the following conditions:—

That the tenants settled by the Model Bustee Committee as per list placed by the Convener, Model Bustee Committee, be accepted as Corporation's tenants subject to the following conditions besides the

existing ones, the acceptance of the tenants as Corporation tenants be duly notified in the newspapers:—

(a) That the tenants shall agree in writing to pay and shall pay the current rent and other charges in full every month together with arrears if there be any in such instalments every month as may be fixed by the Chief Valuer and Surveyor, failing which the tenancy will be liable to cancellation.

(b) That the tenants shall execute a separate agreement to be drawn up by the Chief Law Officer in cancellation of the one existing between the tenants and the Model Bustee Committee.

(c) The tenants shall instal their own meters at their own cost in their respective units.

Anybody having any objection must state so in writing to the undersigned within 28th of February, 1959 after which no objection will be entertained.

A. K. SIRCAR,
Chief Valuer and Surveyor.

CENTRAL MUNICIPAL OFFICE :
The 11th February, 1959.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—Four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the licensee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CALCUTTA'S **HOMAGE** **TO** **SRI AUROBINDO**

A GREAT WELCOME was accorded by the citizens when the sacred relics of Sri Aurobindo reached the city from Pondicherry Ashram by Madras Mail on Saturday, the 14th February last. True to their traditions citizens gathered in lakhs at the platform of the Howrah Station at the appointed hour. There was practically a stampede. A large number of people rushed to the compartment, which carried the casket. The Mayor, Dr. Triguna Sen, Shri Surendra Mohon Ghosh, M.P., several M.L.A.s and disciples of Sri Aurobindo placed wreaths on it. Shri Abinash Chandra Bhattacharyya, once an associate and devotee of Sri Aurobindo also placed a wreath there. The gathering shouted "Bande Mataram".

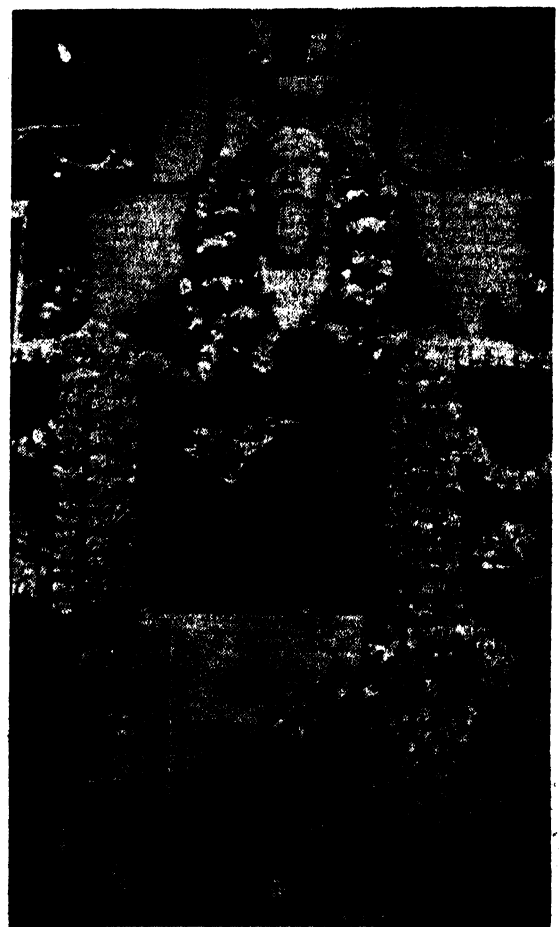

The relics were accommodated in a special carriage attached to the train and were placed in a golden casket. Several Ashramites of Pandicherry and the Rector, Bangabani, Nabadwip, were in

charge of the relics. The golden casket containing Sri Aurobindo's relics was further enclosed in a silver box which in turn was placed in a sandal wood. The last container, wrapped in a handkerchief used by Sri Aurobindo himself, was sealed in a stone box.

Representatives of Bangabani, New Light Movement, Nabadwip Sangha, Scouts of Eastern Railway, Rotary Club, and many other organizations offered their floral tributes to the relics.

THE DECORATED CHARIOT CARRYING
 THE RELICS

THE RELICS ON VIEW AT SRI AUROBINDO
 PATH MANDIR, COLLEGE SQUARE

CALCUTTA WELCOMES THE SACRED RELICS

The special van of Bangabani carrying the relics then drove in a procession from the Howrah Station to the Howrah Maidan where it was placed in a chariot which was drawn by a Jeep. The chariot was beautifully decorated with golden colour and flowers. The flag of New Light Movement was kept flying over it.

Thousands of people watched the mile-long procession carrying the relics from Howrah Station to South Calcutta. Bouquets and garlands were placed at important street crossings.

Besides the casket, were photographs of Sri Aurobindo and the Mother. At Howrah Maidan there was a vast crowd on either side of the road standing in reverence for a *darshan* of the relics. Nearly a thousand boys and girls, smartly dressed, led the chariot in a procession. Volunteers of nearly sixty organization marched in column of threes carrying their festoons. These were comprised of school boys and girls, students of Jadavpore University, members of Bharat Scouts and Guides, St. John Ambulance. Volunteers of the New Light Movement flanked either side of the chariot while on move. It took nearly five hours to reach at its destination. Devotional songs were presented to the marching procession throughout the route from a Public Van of the Public Relations' Department, Calcutta Corporation which went ahead.

At Lake Maidan, receiving the relics on behalf of the citizens, the Mayor, Dr. Triguna Sen, told the vast crowd that Sri Aurobindo's life and activities centered round this great city after his arrival from

Baroda. He first of all chose the Principalship of the National College as he wanted to mould the minds of the youth by imparting education on national lines. As he left the National College, Sri Aurobindo addressed the students to serve the cause of Mother India. He stressed that whatever they did, they would be doing it for the cause of the MOTHER, added the Mayor.

The Mayor read the particular piece to the crowd from Sri Aurobindo's speech delivered at that time. Then he referred to Sri Aurobindo's Mission and his subsequent activities for the cause of the nation. After the meeting the relics were taken to Bangabani Office in South Calcutta.

On Sunday, the 15th February, the relics were on view at Sri Aurobindo Path Mandir, College Square, towards the morning. It was then taken to the Central Office of the New Light Movement at 52/B, Indian Mirror Street.

By a special train which left Sealdah Station on Monday morning the sacred relics were taken to Nabadwip Dham. Thousands of people offered ovation at every way-side station from Sealdah to Krishnagar. Flowers were showered and conchshells were blown to greet the relics at Krishnagar Station.

A large number of people warmly received Sri Aurobindo's relics on that afternoon when it reached Nabadwip by a motor car from Krishnagar. A big procession came out with the relics and went round the town. The relics were enshrined in a specially constructed temple at Nidaya Ghat later on.

VIEWS AND REVIEWS

SUPPLEMENTARY BILLS

At the adjourned meeting of the Corporation on Wednesday, the 18th February, the Mayor, Dr. T. Sen, passed the orders re-iterating the House's old decision that no arrear Supplementary Bills would be issued more than two quarters at a time during the present quarter pending further direction from the Corporation, as it was the intention of the Members to give relief to the Rate-payers. On the 2nd January last, a decision was taken on same lines by the House. The resolution was based on a motion tabled by Councillor Nripendra Nath Banerjee, in the House.

But due to some technical defects the resolution could not be implemented. The Collector to the Corporation pointed out in detail the impracticability of the resolution from the administrative, legal and financial implications consequented by it. And this was fully endorsed by the Deputy Commissioner I. The Chief Executive Officer expressed his considered opinion upon it. A conference was also convened in this connection by the Mayor, Dr. Triguna Sen, in his office room, Central Municipal Office Buildings, S. N. Banerjee Road, on the 22nd January last, wherein these implications were discussed and those were placed before the House under the orders of the Mayor.

The Chief Executive Officer, in course of his remarks, forwarded the following to the Standing Finance Committee:—

"I have given anxious thoughts to the matter and have had discussions with the Collector, Deputy Commissioner I and the Acting Chief Law Officer. I fully agree with them that it will not only be impracticable to give effect to the resolution in question but also that there would be infringement of the provisions of the Calcutta Municipal Act."

He also said:—

"Personally speaking, I am also extremely sorry that the rate-payers have been put into difficulty by the issue of a large number of Rate Bills for a number of quarters all at a time. I suggest that, if so desired by the Corporation,

an Enquiry Committee might be set up with a member of the Standing Accounts Committee, a member of the Standing Finance Committee and Deputy Commissioner I to investigate into the circumstances under which the Collector received these large number of bills all at a time, whether there has been any avoidable delay on the part of the Assessment Department and/or the Collection Department and whether there is any defect in the prevailing system and to suggest ways and means by which a recurrence of the situation in future can be avoided.

"To sum up most succinctly, when the Rate becomes due, Bill for the sum due has to be presented with the least practicable delay (*Vide* Section 235 of Calcutta Municipal Act) and there is, therefore, no scope for deferring issue of Rate Bills or for confining issue of Bills to the dues of two quarters only; and there is no provision in the Act to recall Bills which have already been issued. Another very important factor to be considered is that if the Resolution is given effect to, all Budgetary calculations regarding both Receipt and Expenditure sides will be seriously upset and the overall financial position, already found difficult, will be precarious," added Shri Mazumdar.

When the old resolution along with the observations made by the officials was placed before the House, about a dozen members from all the groups participated in a discussion. A section refrained from passing remarks due to absence of the specific observation made by the Chief Law Officer, who was also requested to scrutinize the legal implications of that resolution. Many also thought that it would be befitting to have the recommendations of the Standing Finance Committee before the House discussed it. Others expressed the view that the resolution was passed with a view to give some relief to the rate-payers who had been hit hard because of compelling them to pay tax for even 80 quarters at a time. They did not favour the action of the administration in failing to submit the Bills to the rate-payers in time.

Dr. Triguna Sen said that it was an old sin for which so many Supplementary Bills had been accumulated. He said that on his suggestion a Committee was formed to devise ways and means to remove the causes of the bottleneck but unfortunately nothing had yet been done. However, the Mayor requested the Standing Finance Committee to consider the problem sympathetically so that some relief might be given to the rate-payers.

The Mayor further felt that the Chairman of the Standing Finance Committee should issue a directive, meanwhile, not to prepare Bills for more than two quarters at a time.

Councillor Bejoy Kumar Banerjee said that the officers had described the resolution as "impractical", 'contradictory' and not specific. The remarks, he pointed out, cast reflections on the wisdom of the House.

Viewing the issue from another angle, Councillor K. L. Dhandhanja, Chairman, Standing Finance Committee, quoted statistics to show that there was no effort to increase revenue by intensifying collections. He said that Supplementary Bills for more than two quarters were issued mostly to owners of big houses.

The Chairman also added that there were difficulties in realising arrear Bills from the Government and public bodies. He thought that this would little affect the middle class citizens.

The Chief Executive Officer's revised Budget proposals estimated only 50 per cent. collection of Rates, against the usual 80 per cent. in 1958-59 and total amount collected that year was Rs. 20 lakhs. Collection for 1959-60 had been estimated at Rs. 10 lakhs that is 60 per cent. against the outstanding arrear Bills.

Concluding the debate, the Mayor said when he first assumed office he felt that there should be investigation why Bills were delayed. The Corporation appointed Special Officers to hear appeals and objections. But obviously, because of bottlenecks somewhere the officers did not work as efficiently as they were expected to do. This led ultimately to the adoption of the resolution. Still Dr. Sen showed his inclination to grant certain amount of relief to the hard hit rate-payers of the city. And thus the old decision was re-iterated partly.

DECORUM AT CORPORATION MEETINGS

For some time past there had been disorderliness and undisciplined manner of activities amongst a section of members in the House to a certain extent. And this was noticed by the Mayor, Dr. Triguna Sen, who thought that some measures might be necessary to cope with the situation. At the outset of the weekly Corporation meeting on Friday, the 20th February, the Mayor made a statement before the House in this regard. On Thursday, the Mayor met the leaders of two opposite groups in the House and his suggestions were accepted by all present. Among others who attended the convention were Councillor S. K. Gupta, I.C.S., the Chairman of the Calcutta Improvement Trust and some independent members in the House.

The Mayor said to the members :—

"Certain recent incidents had reinforced his conviction that in order to maintain a proper standard of decency and decorum during the

discussion and to prevent the debate from descending to the lowest level some definite steps are necessary.

also referred the House to an informal discussion with the party leaders on Thursday and it was agreed that there should be a general consensus opinion as to what these steps should be.

Continuing the Mayor said : "The Corporation is concerned primarily with the administration of the civic services of Calcutta. Members elected on different political party tickets might have different viewpoints as to the administration of some of these services though the area of difference should be small. On account of this party affiliations they are sure to have much greater differences on the wider political issues of the country and the world.

"Much of the heat generated in the House, arise over those larger issues which are ventilated in the brief quarter of an hour reserved for matters of urgent public importance."

The Mayor, however, felt that this emphasis on matters of urgent public importance required to be curbed and its area strictly be defined.

The Mayor added : "After the introduction of an elected Legislative Assembly and Parliament the Corporation should no longer be a forum for ventilating the wider political issues. He suggested that they should confine themselves as far as possible to the particular job of work for which they are in this Corporation."

Through a four-fold suggestion, the Mayor described a new path to be trod over in this regard :—

(1) Matters of urgent public importance should relate directly or indirectly only to the problems of Calcutta and its citizens and the presiding officers, should have the right to decide whatever they do.

(2) Members must confine themselves to state the bare facts without argument and should in any case they should not exceed the prescribed two minutes.

(3) No discussion should be started on any such statement.

(4) As soon as the scheduled 15 or 20 minutes are over, any further matters or urgent public importance that might still be left should be carried over to the next ordinary meeting.

As regards the items on the Agenda it is desirable that members should speak precisely and to the point and there should not be any cross talks or interruptions and no personal re-primation or abuse should be indulged in, he added.

The Mayor or Deputy Mayor or whoever preside should be obeyed when asked to do so if he has exceeded the reasonable time limit. Similar practice would also be followed in case of using objectionable words.

The Mayor remarked that the power of the Chair depended upon the co-operation of the members of the House and their willingness to submit to his directives. But the use of coercive power which the Chair held in reserve for controlling debates was never the sovereign or the permanent remedy. The real remedy, he felt, lay in the exercise of self-restraint by the members themselves.

It was agreed on the previous day's convention that only half-an-hour would be allowed to raise

matters of urgent public importance affecting citizens only, and that they would abide by the Chair's decisions at the meeting. If a Councillor defied the Chair and his leader failed to prevail on him to desist, the Councillor would be asked by the Chair to withdraw from the House.

As soon as the Mayor completed his speech several members demanded that the papers relating to the code of discipline should be circulated to them. One Member opined that the code should not be enforced until the Members had the opportunity to express their opinion on it.

The Mayor agreed to circulate them to the Members.

In the meantime we shall wait and see how good senses prevail upon the House so that there might be smoothening of the situation.

MUNICIPAL EMPLOYEES' GRIEVANCES

About twenty thousand employees serving under the 86 Municipalities of West Bengal would demonstrate a day's token strike on the 20th March next in protest against non-fulfilment of many of their grievances. This decision was taken at a recent meeting of the Executive Committee of the Employees' Federation and representatives from different Employees' Unions held in the premises of the Howrah Municipality. Employees serving in hospitals, water supply, electric installation and other essential establishments have been exempted from participating in the demonstration.

The employees of the Howrah Municipality in another meeting held at a later date, not only re-iterated the old decision to observe one-day token strike on that day but also would resort to hungerstrike in order to divert the attention of the authorities to look into their grievances. The decision was taken as a protest against the indifferent attitude of the authorities in the matter of fulfilment of many of their demands in regards to promotion, salary and such like.

In spite of their pecuniary handicaps, which has become a chronic these Local Self-Government Institutions, would add another feather in their burdens if they are to implement the recommendations of the Minimum Wages Committee. So far it has been estimated that another Rs. 14 lakhs would be necessary for all these Municipalities in order to give effect to those recommendations for a part of the current year only. A recurring expenditure of Rs. 45 lakhs would thus be required annually for the same purpose. According to the Minister of the Local Self-Government this sum would not exceed Rs. 30 lakhs.

A deputation, on behalf of the West Bengal Municipal Association also met Shri I. D. Jalan, Minister, towards the close of January last in that connection. The deputation urged upon the Minister for immediate implementation of the recommendations of the Local Self-Government Enquiry Commission whereby the Municipalities' finances would be replenished with an additional Rupees Seven Crores only. They also said that the Government's present move in that direction did not exceed the amount more than Rupees one crore and thirty lakhs. Besides they opposed the idea of increasing the burden of rates and taxes on the citizens. Rather they preferred imposition of fresh

taxes as House Building fees or License Fees on Motor Vehicles and all these would add something more than a few lakhs as a whole.

In spite of all these the Minister's observations little helped the situation. He pressed for furnishing particulars by individual Municipalities as prescribed by the Government including the statement for extra expenditures in payment of minimum wages.

The State's Budget Estimates, as published recently, did not satisfy them and resentments were expressed on behalf of the employees from different sections on the floors of both the Legislatures. The Chairman of the biggest Municipality in West Bengal also stated that the State Government's Budget had not provided any sum for the aids of the employees.

Appreciating the pitiable condition of about ninety-lakhs urban population within the State outside the Corporation areas, Shri Kali Charan Ghosh, a member of the State Legislative Council, demanded the payment of minimum wages to the Municipal employees as one of their rights to live on a bare subsistence level. Opposing the idea of an increased taxation on the ratepayers Shri Ghosh also urged for extending civic amenities to them. Participating in the Budget discussion he felt that the Government should part with a share of Amusement Tax, Motor Vehicles Tax and other taxes at present deposited in the State Treasury. Several other members representing the Local Bodies did not omit to mention their grievances in similar manner. Many of them cited examples of other States wherein liberal grants had been made to the Local Bodies both in implementing many of their plans and projects as well as a payment of increased wages to their employees.

Sometime ago the Executive Committee of the Andhra Chamber of Municipal Chairman also requested the State Government to make over 25 per cent of the Motor Vehicles Tax to the respective Municipalities as they had been experiencing financial difficulties in carrying on their normal work.

The Chairmen of different Municipalities within the District of 24-Parganas also met in the premises of the South Suburban Municipality recently under similar circumstances and put up their grievances. Among the West Bengal Municipalities they are the most hard hit in this regard, they emphasized.

Thus we find that unless the State Government's help comes to their rescue the Municipalities would hardly function any longer.

Here in this Corporation resentments among the employees are growing steadily for non-fulfilment of many of their grievances. Demonstrations and meetings have become a constant feature almost every week. In a mass meeting of the employees on the 18th February, it was decided to hold a token strike on the 17th March next, in case their grievances were not fulfilled. Even a 'strike notice' would be served towards the early part of March if within the target date of the 28th February, no decision was taken by the authorities in this regard. Shri Abinash Chandra Bhattacharyya, Secretary of Employees' Joint Committee, presided over the meeting.

On Friday, the 20th February, a section of employees including members of the *Jumadars'* and *Peons'* Association staged a demonstration within the

compound of the Central Municipal Office Buildings, S. N. Banerjee Road, while the weekly Corporation meeting was in progress.

At the suggestion of the Mayor, Dr. Triguna Sen, the two leaders, Councillors J. L. Saha, M.L.C., and A. Maitra, discussed with a deputation about their grievances which were outside those already submitted by the Joint Committee. Councillor B. Mitra referred the matter in the House. Later on in a statement in the House, Councillor Saha said that he had told the representatives that the Standing Finance Committee would consider their demands. But the Chairman of the Committee, Councillor K. L. Dhandhaniah could not assure the House of a definite date when they would be taken up as the Committee had already been pre-occupied in considering the recommendations of the Employees' Grievances Sub-Committee which dealt mainly with the revision of grades, weekly holidays and other grievances of general character.

So far it has been gathered that under the present financial conditions, the Standing Committee would not be able to recommend anything involving extra expenditures unless fresh aid comes from the Government's side.

DEATHS AND DISEASES IN THE CITY

During these days of epidemic season Calcutta was partially free from those diseases. There were ten attacks and four deaths from cholera altogether during the two weeks ending the 24th and the 31st January. During a corresponding period last year attacks and deaths totalled 49 and 22 respectively. The city was almost free from the disease during the first week of February while there were three attacks and two deaths from the same during the week ending the 14th February last. 53 persons were attacked from the disease and 26 died during the corresponding fortnight last year.

Altogether 13 persons were attacked and eight persons died from small-pox during the four weeks ending the 24th and the 31st of January, and the 7th and the 14th of February. 39 persons died from the disease while attacks were 54 during a corresponding period of four weeks last year.

Malaria tolled two lives only during the first fortnight of February while the city was quite free from the disease during last fortnight of January. The city was almost free from the disease during a corresponding period last year.

Tuberculosis took the highest number during this aforesaid period. Seventy persons died from the disease during the last fortnight of January while the number rose to 74 during the first fortnight of February this year. The number was comparatively less during a similar period last year, totalling 133.

Diphtheria took lives of eight children during these four weeks. An equal number died of the disease during the corresponding period last year.

Deaths from all causes totalled 2,509 during these four weeks mentioned above as the 24th and the 31st January and the 7th and the 14th February. During a corresponding period last year deaths from all diseases numbered 2,501.

Personalia

DR. MARTIN LUTHER IN THIS CITY

THE REV. Martin Luther King (Junior), a well-known American Negro leader, had been in this city on a short visit. He reached Dum Dum airport on Sunday night, the 15th February, accompanied by his wife.

Addressing a Press Conference in this city, organized under the auspices of the Gandhi Smarak Nidhi, Dr. King said that it was a wonderful thing that positive steps had been taken in India to abolish the caste system. There appeared to be a predominant public opinion also against the evil.

Asked about his impressions so far of the Gandhian philosophy's influence in India, he said that the Gandhian movement was still alive. Leaders and people were anxious to follow the Gandhian way. The Government was also following the spirit of Gandhiji's message.

He also said that he had come to India in order to deepen his understanding of Mahatma Gandhi's philosophy and non-violence, to gain an insight into it and to learn its technique.

At a meeting of Sarvodaya workers and students at Students' Hall, central part of the city on Tuesday, the 17th February, Dr. Luther said that although the negro community had achieved considerable success by their Gandhian non-violent struggle against segregation and discriminatory laws in the U.S.A., whites were still dominating. In that connection he also remarked: "Today it is not the question of capitalism or communism. The question is non-violence or non-existence".

Dr. King also addressed the students of the Jadavpur University on that day.

DEMONSTRATIONS IN CITY

A number of demonstrations was witnessed in city streets within recent days.

A mass deputation was organized by the Communist Party of India on Wednesday, the 11th February last, in protest against the Government's food policy. The deputationists after a rally at the foot of the Ochterloney Monument, Maidan, demonstrated near the south gate of Raj Bhavan demanding supply of rice to retailers, drastic action against big merchants trying to sabotage the Price Control Order and recognition of popular committees in every ward.

Over 2,000 refugees, including a large number of women demonstrated in front of the south gate of Raj Bhavan on Wednesday, the 18th February, demanding the redress of their grievances against the stoppage of doles.

After a rally at the Raja Subodh Mallick Square, the refugees marched towards the Assembly House to submit a Memorandum to the Chief Minister, Dr. B. C. Roy. Organized by the United Central Refugee Council, the demonstrators were stopped by the police near the Raj Bhavan.

Loading and unloading of ships at Calcutta docks were affected on Sunday, the 15th February when some of the dockers went on an eight-hour strike from 10-30 A.M. The men went in procession and then assembled on the maidan. The meeting was presided over by Shri Hemanta Kumar Basu, M.L.A., and addressed by several other trade union leaders.

Resolutions adopted, demanded abolition of the stevedoring system, bonus on the lines of Bombay, withdrawal of charge-sheets, and proper recording of

Corporation Primary Schools

PRIZE DISTRIBUTION CEREMONIES

AT NARKELDANGA

THE Annual Prize Distribution Ceremony of Sir Gurudas Girls' School, at Jaynarain Mitra Lane, Narkeldanga, Ward No. 33, was held in the school premises some time ago. A large number of local citizens including guardians watched the function which included renderings of songs and performances of playlets.

The Mayor, Dr. Triguna Sen, in spite of his heavy programme, made his august presence there (sitting third from right above), as President of the function. Shri P. C. Mazumdar, I.A.S. (Retd.), the Chief Executive Officer (sitting extreme right), as the Chief-Guest, distributed prizes to the successful students. He also appreciated the services rendered by Corporation in imparting primary education efficiently in this city.

Presenting the Annual Report of the school, the Headmistress, in brief, drew the attention of the authorities for providing a larger space accommodation. She said that they had already experiencing difficulties to admit students in that limited. She also narrated the difficulties in others spheres.

Among others present were Councillor Chandra Sekhar Bhowmick, and Shri Sachindra Nath Sinha, an Ex-Councillor (sitting left).

WITH the advent of spring nature takes a new colour bringing joy and mirth in the minds of the city's children. And this was fully witnessed when the Corporation Primary Schools arranged a number of spring festivities in different corners of the city. On the 7th February last, there were a number of such occasions which came off in the shape of the Annual Prize Distribution Ceremonies in many of the schools.

And luckily, the children became happier when the city's Mayor, Dr. Triguna Sen, appeared in their midst. Such an occasion was provided in a Corporation Primary School for girls, at Tangra Road, under Ward No. 49, wherein

AT TANGRA

the Mayor presided. Councillor Barendra Krishna Daw, who acted as the Chief Guest, gave away the prizes (picture above). Councillor Daw further assured that there would be adequate accommodation in the school as well as sufficient number of teachers in order to teach the growing number of students entering into the school. He also felt that the present system of imparting primary education should undergo changes.

Among those present were a large number of local citizens including Councillor Amulya Charan Sarkar, who also spoke on the occasion. A programme of dance recitals, music and other accompaniments went through on the occasion. Earlier the Headmistress presented the Annual Report of the school.

In another Corporation Primary School for Girls, Akrur Dutta Lane, Ward No. 43, the Prize Distribution Ceremony was held at a spacious hall, Ramanath Kaviraj Lane, within the area, (picture below). A large number of citizens witnessed the function, the programme of which was almost similar to that of the aforesaid school.

Alderman Shrimati Pratima Basu, who presided, emphasized that Primary education should be imparted to each and every child in the city not only as a right but also according to the provisions of the Directives of the Constitution. At the same time Shrimati Basu felt that it should be the duty of every mother to see that her child was properly educated. Shrimati Kamala Mukherjee gave away the prizes.

The Chairman of the Education Committee, Councillor Daw also spoke on the occasion. Shri Akhil Neogy was the Chief Guest.

In her annual report Shrimati Kamala Basu, Headmistress, presented many of the difficulties experienced in conducting the school.

AT NEBUTALA

Alderman Shrimati Pratima Basu, Councillors B. K. Daw, Chairman Standing Education Committee, D. N. Dhar, M.L.A., M. Sarbadhikary, Dr. H. K. Das and others are seen in the picture.

CITY NEWS PARADE

WEST BENGAL STATE'S BUDGET ESTIMATES FOR 1959-1960 was presented by the Finance Minister, Dr. B. C. Roy, before the State Legislative Assembly, on Wednesday, the 11th February last. Later on Dr. Roy also presented the Estimates before the State Legislative Council with a different introductory speech.

The Budget Estimates showed some encouraging aspects of the State's finances. It also revealed a surplus of Rs. 4.10 crores outside the revenue account, a new feature. This is expected to wipe out revenue deficit of Rs. 3.62 crores. The opening balance was estimated at Rs. 2.28 crores. The total Revenue receipts would be Rs. 79.04 crores and total expenditures be Rs. 82.67 crores ending closing balance of Rs. 2.76 crores on the credit side. The highest allocation of Rs. 13.47 crores went to education.

The State Chief Minister, Dr. Roy made no fresh taxation proposals nor did he suggest any relief from the existing taxes. The Government, he said, proposed to raise a loan of Rupees Seven Crores from the market to finance some development schemes under the Second Plan.

Dr. Roy began his speech with a description of the general economic situation as indicated by industrial and agricultural production, the index of wholesale commodity prices, the country's balance of trade and the increased national income. These, he said gave a picture of an undeveloped economy trying to develop itself sometimes under considerable stress and strain and of correctives applied in times to keep a potential difficult situation in check. All that required was that the available resources should be utilized in the most efficient manner and, where necessary, correctives should be applied and promptly so that there was no available hardship.

The 1959-60 Capital Budget provides Rs. 1.50 crores for payment of compensation for zemindary abolition, Rs. 50 lakhs for flood protection works, Rs. 1.38 crores for setting up a spinning mill, Rs. 1.56 crores for the Mayurakshi project, Rs. 1 crore for the Kangsabati project, Rs. 6.90 crores for the D. V. C., Rs. 2.95 crores for road development, Rs. 3.28 crores for Durgapur Coke Oven project, Rs. 75 lakhs for the subsidized housing scheme, Rs. 2.18 crores for works in connexion with refugee rehabilitation, Rs. 40 lakhs for village housing scheme, Rs. 35 lakhs for reclamation of the Salt Lake area, and Rs. 64 lakhs for police housing scheme.

The Government could claim, the Finance Minister asserted in the State Council, that solid foundations were being laid for a rapid growth in future. There would be difficulties in the formative stage, but they should only serve to strengthen the Government's resolve to go forward. So far as West Bengal was concerned there was no question of "pruning" the Second Plan, the Chief Minister re-iterated. Describing the Government's activities, he said that as a result of corrective measures the All-India index number of wholesale commodity prices, which had been increasing, was falling.

Before conclusion, the Finance Minister said that in an under-developed country like India, aiming at rapid development, Dr. Roy pointed out, initial difficulties were inevitable and they had to be faced and overcome.

The opening of Budget discussion, scheduled on Monday, the 16th February, was delayed for about one and a half hours mainly because of a 'point of order' raised by Shri Sidhartha Sankar Roy, a representative of southern part of the city, suggesting that the Budget was un-constitutional. He was supported by Shri Sisir Kumar Das, Bar-at-Law, the

Ex-Mayor, Shri Sudhir Chandra Roy Choudhury, and Shri Subodh Banerjee. They also raised certain other points connected with the validity of presentation of the Budget Estimates in such a manner.

The Speaker's ruling was, however, given on next day when Shri Sankardas Banerjee negated the contention of Shri Roy and others.

The first day's discussion was highlighted by a walk out by the whole Opposition group from the House when Shri Jyoti Basu, their leader's suggestion for immediate adjournment of the House was not accepted by the Speaker. Before that the Ex-Mayor, Shri Roy Choudhury levelled certain allegations against the Speaker himself.

Shri Roy Choudhury's speech was a strong attack on the Government which, he said, flourished on distribution of patronage. The initiator of the debate also pointed out certain allegations where such patronage was freely used.

Shri Syamapada Bhattacharya welcomed the Budget on that day as there was no proposal for fresh taxation. He thought the Sales Tax administration should be tightened. A Committee should be set up to ensure economy in administration.

According to Shri Subodh Banerjee, who spoke on the second day, the Budget was "oppressive". Over 70 per cent. of the State's revenue came from State taxes and taxes levied by the Centre. Including the loan which it proposed to raise in coming year the Government's total loan would come to about Rs. 301 crores. Strangely enough, he added, there was no asset or sinking fund against Rs. 60 crores of this huge amount. Dr. Roy was leading the State to economic bankruptcy according to him.

Both the second and third days' discussions were battles of statistics between both the groups—Congress members quoted extensively from Budget papers to establish that it was a progressive one while the Opposition substantiated their allegation that the Government was leading the State to bankruptcy.

Wednesday's debate was lively. The attacks continued on the Government for alleged failure to gear up the administration and to turn the people's democratic consciousness into constructive channels. Congress members qualified their appreciation of the Government with suggestions for further improvements.

Discussion gained momentum on second day when a Congress member, Shri Nepal Roy, made a virulent attack on the activities of a State Government officer in charge of planning the Herobhanga refugee rehabilitation project in 24-Parganas. He alleged that of about Rs. 33 lakhs, sanctioned by the Union Government for the scheme, Rs. 20 lakhs had been "stolen". The representative of this city demanded an immediate probe into the matter.

STATE LEGISLATIVE COUNCIL also discussed the Budget Estimates in almost similar manner. Prof. Nirmal Chandra Bhattacharya also raised a 'point of order', which was however, ruled out by the President, Dr. Suniti Kumar Chatterjee.

Initiating the discussion, Shri Snehangshu Kumar Acharyya referred to a bulletin of the Reserve Bank of India and said that, during the past three years, the prices of food and other essential commodities had increased 23 per cent. and 33 per cent. respectively. People in the lower income group spent the major portion of their earnings on food.

Shri Acharyya criticized the working of the Government's deep-sea fishing scheme. The Government, he said, spent about Rs. 64 to catch a maund of sea fish and sold it to a ring of fishermen at Rs. 50 per maund. Fishermen sold the fish at Rs. 75 a maund, he added.

Dr. Janaki Ballav Bhattacharya complained that there was a dearth of qualified teachers in Government sponsored colleges and that several vacancies in Government colleges were not filled up for long.

On the second day's debate Shri Satyapriya Roy quoted figures to show that the Government's claim of "tremendous progress" in the field of education was hollow and betrayed its self-complacent attitude.

The other speakers included Shri Sasanka Sanyal and Shri Annada Prasad Chaudhuri. The debate continued

INDIAN-GERMAN ASSOCIATION'S NEW PREMISES were opened at 11/3, Brabourne Road, Dalhousie Square area, by the Mayor, Dr. Triguna Sen, on Wednesday, the 11th February last. Dr. Sen, who is also Rector of the Jadavpur University, referred to old cultural relations between the two countries and remarked that with changing times the pattern of these relations had undergone some transformation. The cultural reciprocity had now largely yielded place to reciprocity in the spheres of trade and industry.

Dr. K. Curtius, Consul-General of the Federal Republic of Germany in Calcutta, opened an exhibition of German books at the Association's new premises. He hoped that the books exhibited would give visitors some ideas of German publications on Indology, literary and technical subjects.

Prof. Buddhadeva Bose, of the Jadavpur University, who spoke on "India and German literature", said that young intellectuals in India were eager to study more European literatures other than English. Thomas Mann, Kalka and Hoelderlein are now widely read, he added.

A TWO-STORIED BUILDING OF THE ALL-BENGAL TEACHERS' ASSOCIATION was opened on Ganesh Chandra Avenue, central part of the city, on Sunday, the 15th February, by Dr. Suniti Kumar Chatterjee, Chairman of the State Legislative Council.

Land for the building was purchased as early as in 1940 but construction was delayed by the war although sufficient funds were there. The foundation stone was laid a few years back.

The first floor hall has been named after Rabindranath Tagore. A Rabindra Culture Centre for teachers, students and the public will be opened there. The building will also temporarily house the Association's "Science Corner" for students. The corner was opened last year on the occasion of Acharya Jagadish Chandra Bose's Birth Centenary.

The Mayor, Dr. Triguna Sen, who presided, said that educational policies should be framed by teachers for they rightly understood the needs of students and teachers. He also emphasized the responsibility of teachers in imparting education. He remarked that the politicians or high officials of the Secretariat had little to do in this.

Dr. Sen believed that this was the only way how change for the better in sphere of education could be effected.

SHRI JNANANJAN NIYOGI'S Third Death Anniversary came off on Friday, the 13th February last. In that connection a meeting was held at the Workmen's Institute, 115, Raja Dinendra Street, wherein Shri Surendra Kumar Roy, Managing Director, Calcutta Lamp Works, presided.

The meeting recalled the manifold activities of the late Shri Niyogi. Particular mention was made of his services to the cause of country and his active participation in her struggle to achieve freedom. As a promoter of national industries the services of the late Shri Niyogi were immense. As an organizer in this field the late Shri Niyogi's activities were unique, they said.

The speakers included Shri Monmohan Bhattacharyya, Shri Kalicharan Ghosh, Shrimati Labanyaprabha Ghosh, M.L.A., Shri Debendra Nath Basu, Shri Prafulla Kumar Dutta and others.

The President in his speech regretted that to-day men like Shri Jnananjan needed most specially when the implementation of Farakka and other vital issues remained

There was another memorial meeting at the Municipal Museum Hall, College Street Market, with which the late Shri Niyogi's greater part of life was associated, on Saturday, the 14th February last, wherein several speakers recalled his activities. The meeting was held under the auspices of an organization founded by the late Shri Niyogi, which consisted of his followers. Shri Satcouripati Roy, a veteran Congress leader, presided.

A SEMINAR ON 'BELIEF & LITERATURE' was inaugurated at the University Institute Hall, central part of the city, on Friday, the 13th February last, being participated in by about 20 leading writers and critics from different parts of the country.

Organized by a literary group, the seminar, continued for another two days in the Cultural Freedom House, Raja Basanta Roy Road, southern part of the city, to discuss the "relevance or irrelevance" of moral, political and philosophical considerations in the evaluation of creative literature.

Inaugurating the seminar, Mr. Arthur Koestler said: "All true art is a tight rope walking on the line of intersection of the tragic and trivial planes of existence. When the acrobat slips, art degenerates into propaganda or escapes into a bloodless cloud-cuckoo land; it ceases to be art. Walking the tight rope is a very tricky profession."

Prof. L. Srimansky of Poland, in his short speech said that writers of different countries might meet together in such seminars from time to time and form a sort of common organization to further their aims and beliefs.

Janab Humayun Kabir, Union Minister for Scientific and Cultural Affairs, said that in all art there was a sense of inner discipline in the imposition of forms but the discipline was self-generated and self-imposed. Art could not take place under orders. This applied not only to art but also to science and philosophy, added Janab Kabir.

The President further said that an artist was simultaneously personal, national and inter-national. To-day, when so many cultures, civilizations and traditions were jostling with one another, art had a special significant role in resolving their conflicts in a synthesis. This would preserve the uniqueness of each while revealing universality.

Janab Abu Sayeed Ayyub and Prof. Buddhadeb Bose in their welcome addresses said that recent events had brought certain questions before the writers in very sharp form. The Seminar was meant to provide a platform to the writers to discuss their problems in order to enable them to adopt correct attitude towards life and their profession.

A TWO-DAY CONVENTION OF WEST BENGAL BUSINESSMEN, meeting at Chowringhee Road, towards the southern part of the city, was welcomed by many sections of citizens as an indication of the new outlook through which the country was passing. Commencing on Saturday, the 14th December last, the Convention which was organized by three Chambers of Commerce located in this city, mainly discussed issues of common interest among themselves on the background of the State's shattered economy and increased number of unemployed people particularly among the educated. About 500 representatives of those Chambers and 2,000 delegates from various Traders' Associations attended the convention. Messages were received for its success from the Vice-President of India and the Union Cabinet Ministers including the Prime Minister, Shri Jawaharlal Nehru.

The Convention through its main resolution suggested a number of steps for the promotion and development of industry, for the solution of the unemployment problem in the State and for strengthening its economy.

The Convention also resolved that the question of maintaining the navigability of the Hooghly should be given top priority and work in that connexion, such as construction of the Farakka Barrage, be taken in hand without further delay.

A third resolution on taxation demanded abolition of wealth tax on companies, bonus tax and the tax on excess dividends. It also said that the taxation structure should be so rationalized as to be "just and fair" to the assesseees, giving people enough incentive to work, save and invest.

The Chief Minister in his speech on the first day, invited industrialists, big and small, to come forward and help the Government to find more avenues of employment. He regretted that the private sector and "even the Government" had been obsessed with big industries such as jute, tea, coal, paper and textile. No effort had been made in recent years by the private sector to start new industries in West Bengal.

In his inaugural address, Sir Biren Mookerjee appealed to business men to do their best to solve the unemployment problem. Expansion of industrial activity was the most effective method for the creation of more employment, he suggested.

Sir Bejoy Prasad Singh Roy, who presided, said that a number of industrialists were eager to help the State's young men to start new enterprises in spheres of trade and industry. For this purpose it was, however, necessary to create a favourable atmosphere. Ancillary industries could flourish only when the bigger industries prospered. A heavy tax burden was acting as a damper, emphasized the President.

Earlier, on that day, Dr. N. N. Law welcomed all.

On the second day, Dr. B. M. Birla suggested for the constitution of a small joint committee of representatives of the Chambers of Commerce to examine the possibilities of carrying out industrial schemes. The committee should see if business men could be provided with 75 per cent. of the money for their new schemes of industrial development on which depended the country's progress emphasized the representative of a big business house in the country.

Sir Ramaswami Mudaliar, who was invited to address the Convention, drew a sad picture of middle class families and said that they were the hardest hit and were almost being wiped out. Educated but helpless middle class people were a pathetic sight in India. Giving an example of their plight, he said that one good *sari* in a middle class family served four to six women for outdoor wear. And in order to help them Sir Ramswami thought that the businessmen had a role to play.

ANNUAL EXHIBITION OF INDIAN COLLEGE OF ARTS & DRAFTSMANSHIP was inaugurated on Monday, the 16th February, in the premises of the College, Dhuramtala Street.

As in previous years, the exhibition drew a large number of exhibits—over 600—all works of the institution's students. They were classified under applied arts, fine arts, sculpture and draftsmanship sections. The foreword to the catalogue rightly said: Here and there, nevertheless, gems are to be found in the works of these growing artists, who often show originality and depth in their conception.

The Mayor, Dr. Triguna Sen, who performed the ceremony, regretted that Indian manufacturers had not yet realized the benefit they might derive by appointing commercial artists to advertise their products.

But this state of affairs could not be continued for long and Dr. Sen was sure that Indian youth would soon bring about a change.

Dr. Kalyan Kumar Ganguly, of Calcutta University, distributed diplomas to 85 students and certificates of merit to many others. Medals were awarded for the best exhibits at last year's exhibition.

Principal Satish Chandra Sinha, in a brief speech thanked the guests.

SOCIAL CRIMES: On the 12th February last, two persons were arrested by the Enforcement Branch Police on the allegation that they had sold to a customer five seers of rice at twelve annas per seer which was higher than the maximum price fixed by the Government. A stock of 12 maunds of rice was also seized.

One person was arrested for refusing to sell flour to a customer although he had a stock of the same, it was alleged. A stock of three maunds of flour was also seized on that day.

On the allegation of cheating a firm in respect of 15 tons of iron and steel while presenting a forged quota certificate to the said firm two persons were arrested on the same day.

One person was arrested by the Enforcement Branch Police, on Sunday, the 15th February in the Amherst Street area on the charge that there were huge shortages of rice and wheat supplied to the fair price shop by the Government.

SHRI PRIYODA CHAKRAVARTY IS DEAD

Shri Priyoda Chakravarty, one of the revolutionary leaders of Bengal, died at the Calcutta Medical College Hospital, Prince of Wales Ward, on Wednesday, the 11th February last. He was suffering for some time past and had undergone an operation on Reptic Ulcer on that very morning. He was 43.

His death news shocked a large number of his friends and followers, particularly his colleagues in the Communist Party of India, to which he had adopted his political faith in 1946. Janab Muzaffar Ahmad, Shri Promode Das Gupta, Dr. Narayan Roy, M.L.A., Shri Satish Pakrashi, M.L.C. and

SHRI PRIYODA CHAKRAVARTY

others attended his funeral. His last rites were performed at the Nimtala Burning Ghat, northern part of the city.

Joining the revolutionary movement in the Thirties the late Shri Chakravarty was sentenced to life-long deportation in connection with the famous Bathura Dacoity Case. He was sent to the Andamans. He suffered imprisonment in different jails of Bengal from 1938. After being released in 1946, he devoted himself fully to political activities particularly in his home district of Chittagong now East Pakistan, and remained there even long after the partition of the country was effected. All his brothers were important members of that Party to which he belonged. He was endeared by all for his suave manners and gentle behaviour.

The Corporation at its weekly meeting on Friday, the 12th February last, mourned his death. Eloquent tributes were paid to his memory by the Mayor, Dr. Triguna Sen, who mainly referred his services to the cause of country.

CORPORATION NOTICES

To All Registered Petty Improvement Lighting Contractors

DISTRICT No. II

Tenders for the following works are invited and will be received by the Chief Engineer, in duplicate in a sealed cover superscribed "Tender for....." on 26th February, 1959 upto 2 P.M. :-

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of the tender. Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500 shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or para-motors are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

THE CALCUTTA MUNICIPAL GAZETTE

GIRISH CHANDRA GHOSH

(BY SHRI HEMENDRA PROSAD GHOSE)

GIRISH CHANDRA GHOSH who had been for more than thirty years the idol of theatre-goers in Bengal and the darling of theatre proprietors—the man who as a writer of dramas, etc., for the Bengali stage had been considered unrivalled, was born in Calcutta in or about the year 1848 when the atrophied veins of the Bengalis had been quickened with the life-blood of Western Civilization through the English literature. A new India had dawned and Bengal took the lead in all progressive movements in the country.

Ancient India had her theatres as the superb Sanskrit dramas demonstrate. But it is no longer possible to know exactly what they were like. This we can easily conjecture that the age of scenes and other stage appliances with which we are familiar to-day were not in vogue in those Indian theatres and imagination had to fill up many gaps. Thus the theatre as we see it in India to-day was an exotic, introduced in the country in imitation of the theatre in England and developed then. When the English came to India to gather the fruits of the pagoda tree they established theatres which by that time had shed its original shortcomings. What the theatres in England were when Shakespeare staged his dramas have been described thus :—

"There were already seven theatres in Shakespear's time, so brisk and universal was the taste for representations. Great and rude contrivance awkward in their construction, barbarous in their appointments; but a fervid imagination readily supplied all that they lacked, and hardy bodies endured all inconveniences without difficulty. On a dirty sight, on the bank of the Thames, rose the principal theatre, the Globe, a sort of hexagonal tower, surrounded by a muddy ditch, surmounted by a red flag. The common people could enter as well as the rich; there were six penny, two penny and even penny seats; but they could not see it without money. If it rained, and it often rains in London, the people in the pit, batchers, mercers, bakers, sailors, apprentices receive the streaking rains upon their heads. I suppose they did not trouble themselves about it; it was not so long since they began to pave the streets of London; and when men, like them, have had experience of sewers and puddles, they are not afraid of catching cold. While waiting for the piece, they amuse themselves after their fashion, drink beer, crack nuts, eat fruits, howl, and now and then resort to their fists; they have been known to fall upon the actors, and turn the theatre upside down. At other times they have gone in disgust to give a peep of hiding, or toss him in a blanket; they were rude jokers, and there was

no mouth when the cry of 'Clebs' did not call them out of their shops to exercise their brawny arms. When the beer took effect, there was a great up-turned barrel in the pit, a peculiar receptacle for general use. The smell rises and then comes the cry. Burn the juniper: They burn some in a plate on the stage, and the heavy smoke fills the air. Certainly the folk there assembled could scarcely get disgusted at anything, and cannot have been sensitive noses. In the times of Rebelais there was not much cleanliness to speak of. Remember that they were hardly out of the middle age, and in the middle age lived as the dunghill."

The improvement in the theatres in England was slow but sure and when the English established theatres for their own amusement in Calcutta it was fullfledged.

This provided Indians of culture and wealth to take the English theatre for their model and establish theatres themselves. But the pioneer institutions—being intended to while away the leisure hours of the well-to-do were not professional and the visitors had not to pay for admission.

The first theatre was established by Babu Nabin Bose of Shambazar who is said to have spent a sum of Rupees One Lakh for a night's performance. He was followed by others prominent among whom were Kali Prosanna Sinha—the spend thrift of genius. Asutosh Dev, Jatindra Mohan Tagore and the brothers Issur Chandra and Protap Chundra Singh. To some of the performances high Government officers were invited and as they were innocent of Bengali they had to be provided with an English version of the Drama. When Michael Madhusudan Dutt was entrusted with the work of translating a drama for such use he at once saw with unerring eyes the possibilities of the Bengalee drama and set himself to write dramas in Bengalee.

There were theatres in several parts of Calcutta organised by young men of the locality, and Girish Chandra joined one of them.

He had read upto the Entrance Standard of the Calcutta University. But for full four years he had devoted himself to study English literature and had become well-versed in it. So when he took to writing dramas etc. for the Bengali stage he was fully equipped for the work.

He was acclaimed by theatre-visitors when he made his debut in the role of 'Neemchand' in Dinabandhu's well-known social drama "Sadhabar Ekadoshi". It was a case of one's founding oneself famous by a single performance.

When the first professional theatre i.e., the theatre with a commercial conception was established, Girish Chandra declined to join it, because, he

(Continued on page four)

MAHAKAVI GIRISH CHANDRA GHOSH

(By DR. HEMENDRANATH DAS GUPTA, Formerly Girish Ghose Lecturer, Calcutta University)

MAHAKAVI GIRISH was great in everything—great as a man, great as an actor and above all remarkably great as a dramatist. He was an ornament in Indian History and one of the great personages the country has produced. For building up the stage he had, by force of necessity, to associate with women of a society discarded as one of ill-fame, but as Deshabandhu Chittaranjan said “that was the outer aspect of an actor, the inner man being as pure as that of a self-less Sannyasi”. I intend to narrate a few features of his life.

I AS AN ACTOR ON THE STAGE

As an actor he was non-peril. He used to infuse life in each part, whether in social, historical or religious dramas. As Jogesh in “*Prafulla*”, Karunamoy in “*Balidan*” and ‘Kalikinkar’ in “*Maya-bashan*”—three powerful social dramas, he was tragedy personified—one who used to “emit the lightening of a gloomy atmosphere into the character's life”. ‘Pasupati’ in ‘*Mrinalini*’, ‘Rama’ and ‘Meghnad’ in “*Meghnadbodh*” and Clive in “*Battle of Plassy*” were so marvellous that both “*Sadharan*” and “*Bharati*”, two powerful monthly magazines of the time, used eulogistically to observe “we can not conceive of any Garrick as being superior to Girish”. His *Daksha* in ‘*Dakshajajna*’ was egotism personified. It was said that his impersonation was, to apply the remarks of Victor Hugo on *Lamætræss Ruy Blass*, was ‘not a transformation but a transfiguration’. His acting was the most natural as his voice was grave and sonorous. He made his first appearance on the stage in the role of *Nimchand* in ‘*Sadhabar Ekadashi*’ in 1869 A.D. and the next day he awoke, he found himself an actor. That day he appeared first may be considered as a red-letter day in the history of the Bengali stage.

Then again as ‘*Rangala*’ and ‘*Karim Chacha*’ (the former in ‘*Bhranti*’ and the latter in ‘*Sirajudaullu*’), his delivery was so easy and natural that the audience enjoyed his performance as if in a feast. Then as a hypocrite in ‘*Bilwamanga*’ as also in the devotees like ‘*Bidushaka*’ and ‘*Sadhu*’ in ‘*Jana*’ and ‘*Kanchuki*’ (*Pandava* in disguise) he used to be as the character itself. As for the grand performance of ‘*Pasupati*’ in ‘*Mrinalini*’, Natyacharya Amrita Bose would have expected Government recognition for him. Indeed for his super representation in different roles he has been recognized as the best actor India could ever have produced.

II FATHER OF THE STAGE

When Ramnarain Tarkaratna's “*Kulin Kula Sarvaswa*” was first staged in 1856 A. D. the first drama acted on the stage in Bengali, Girish was only a boy of 12, but he waited and watched 12 years more when he first promised his young earnest friends, that instead of going to aristocratic houses for witnessing a performance risking one's self respect he would himself show performances to them. Thus after ‘*Sadhabar Ekadashi*’, ‘*Lilabati*’ and ‘*Bis Pagla Buro*’ were exhibited in various places in North Calcutta. He selected “*Nildarpan*” as the next play, keeping the role of ‘Mr. Wood’ for

himself. Differences, however, arose between him and some of his followers who insisted on selling tickets for a show. Thus though the play was first shown on the public stage on December 7, 1872 A.D. without him, his followers and pupils were all there. They had still the deepest regards for him and were not satisfied till he was made to appear as ‘*Bhimsing*’ on February next in ‘*Krishna Kumuri Natak*’, two months after the first public show. He pleased his friends, no doubt, but kept his principle, and gladly they advertised his role as “by a distinguished amateur”.

Since then he helped his friends always but did not appear as an actor except on one occasion as ‘*Pasupati*’. The gloomy year 1876 A.D. saw the passing of the Black Bill—the Dramatic Performances Act and closing of the Great National Art's door was closed but Girish came to the front and took a lease of the National Theatre in the name of his brother-in-law. ‘*Meghnadbodh*’, ‘*Battle of Plassy*’, ‘*Bishbriksha*’ and ‘*Durgesh Nandini*’ were staged when an accident put his efforts to a stop. National Theatre was practically closed and did not open again till 1880 A.D. when Girish for making the stage as a pulpit of learning, gave up his lucrative post and finding none coming with a drama, himself set his pen to write for the stage. ‘*Anando Raho*’, ‘*Ravan Badh*’, ‘*Sitar Banabash*’, ‘*Sita Haren*’, ‘*Pandaver Ajnatabash*’ (*Pandava* in disguise) and other dramas came in torrents as the popular productions.

Girish next started the Star Theatre in 1883 A.D. and brought out ‘*Dakshajajna*’, ‘*Nala Damayanti*’, ‘*Prahlad Charitra*’ and ‘*Sribatsa Chinta*’ and the great devotional drama ‘*Chaitanya Lila*’ which brought even the great Ramkrishna Dev—the greatest saint of the age to the Theatre to bless him and take him to his embrace. From this time, his life was ennobled more and more and he too became a great devotee. ‘*Bilwamanga*’, ‘*Rup Sanatan*’ and all best dramas ‘*Nasiram*’, ‘*Kalapahar*’, ‘*Asoke*’, ‘*Sankaracharya*’, and ‘*Topabati*’ were the next productions which will remain immortal in the world's dramatic literature. The Star, Emerald, Kohinoor and Minerva Theatres were all his creations of art. The last Theatre (Minerva) he was in, he had founded it in 1893 A.D. and was there when he died in 1912. From all his creations of the different Theatres and for his peculiar way of conducting those he has been rightly called the “Father of the Indian Stage”.

III GIRISH'S NATIONALISM AND HISTORICAL DRAMAS

Those who want to have a perfect idea of the full force and vigour of Girish's dramatic genius must turn to his historical plays those were written under the severe restraints of foreign domination and its stringent laws about the Freedom of the Press and the Law of Sedition. Girish's dramas are mainly designed more with a feeling of nationalism and patriotic zeal than to serve as a political guide to the then rulers of India.

The first historical play of Girish “*Anando Raho*” was staged and published in 1881 A.D. It

deals with the staggering sacrifice of the great Rana Pratap Singh of Chitore and had some novel creations in the leading character itself. But Girish's genius was not yet ripe for the task, nor the time was yet opportune for the acceptance of a national play. Having failed to carry the audience with him he turned to mythological plays which however crowned him with laurels. After several plays of different varieties were produced, he made another attempt from history at the drama '*Chanda*' in 1891 A.D. Although it was full of patriotic fervour, it too did not receive that honour that was its due. Years after in 1904 A.D., another drama of great dramatic merits—'*Satnam*' taken from the Indian history of the Seventeenth Century depicting the struggle of a religious Sect '*Satnami*' during the reign of the Mogul King Aurongzeb was put on the stage. The leader of the revolt was a woman named, *Vaisnabi*. This was a vigorous play full of sublime grandeur like that of Schillers "*Maid of Orleans*" with whom alone the character of *Vaisnabi* can fairly be compared and not with Shakespeare's '*Joan of Arc*' as the latter, probably out of traditional British malice against the French, has blackened the character of the Maid for which German critics as Schiller speak of Shakespeare that "whenever Shakespeare wants to transcend over the worldly limits and tries to soar in the higher spiritual sphere, he comes down with a thud". The Bengali dramatist Girish Chandra did however full justice to *Vaisnabi's* character in *Satnam* and maintained fully the dignity and purity of this remarkable character represented as a warrior, devotee and patriot. This was written in 1902, but acted in 1904 owing to illness of an actress to whom was assigned the role of the second heroine '*Sohena*'. Before this the well-known character '*Rangala*' as an emblem of service and sacrifice was pictured in another successful historical drama '*Bhranti*' staged in 1902. But no drama has up to now surpassed as a historical one, in patriotic fervour, grandeur and poetic beauty as the drama of '*Serajuddulla*' depicting the most eventful period of Indian history when the throne of Bengal first went to the hands of the British under Lord Clive in 1757 A.D. The drama fitted in the time and occasion when it was acted in the eventful year 1905. If the Indian National Congress, Indian Press and Bankim Chandra's literature awakened the people of Bengal first and other parts of India next, to the love of the country and the spirit of Nationalism, the historical trio the dramas '*Serajuddulla*', '*Mirkasim*' and '*Chatrapati Sivaji*' staged on the boards of the Indian theatre did not accomplish less in thrilling a deep note that vibrated the national cords of the people. All the three plays were highly popular dramas and awakened mass consciousness in a far more marvellous way than could have been done in any other way. One of the passages runs thus :—

O, You Hindu and Mussalman
Let us all forgive and forget
Let the old story be forgotten
Me a Mussalman but given you my word
There's no need in recounting the past
If Saukot be seated on the throne
Bengal does not suffer the least
If the move to enthrone him succeeds
Bengal will have a king of its own

But mind my country-men
Never to give the Fireingees an inch of
ground.

After Alivardi's death as his legal heir, Seraj was a thoroughly changed man—young in years but wise and prudent like his illustrious grand-father Alivardi Khan. All were astonished by such a miraculous change. What the Archbishop of Canterbury says about Shakespeare's '*Henry V*', exactly tallies with Siraja's life.

"The courses of his youth promised it not
The breath no sooner left his father's body,
But that his wildness mortified him
Seemed to die too: Yea at that very moment
consideration, like an angel, came,
And Shipped the offending Adam out of him,
Leaving his body as a paradise
To envelop and contain celestial spirits
Never was such a sudden scholar made
Never came reformation in a blood
With such a heavy current scouring faults
Nor never Hydra-headed wilfulness".

'*Sirajudaulla*' is a dramatic master-piece, as a historical drama we are bold enough to assert that it has no parallel again, from purely dramatic point of view, it is one of the greatest tragedies of the world. The drama deals with the eventful time of Sirajudaulla's reign when the British conquered Bengal and established their political supremacy over the country. We need not repeat what is now known to every student of history that Sirajudaulla's character was deliberately blackened by the interested writers and that a century after, real truths have come to light. Girish accepts the tradition that Siraj was at first a wayward youth, spoilt by the excessive indulgence and affection of his maternal grandfather Nawab Alivardi Khan. Siraj was then a tender youth of seventeen only. But no sooner he ascended the throne he became a thoroughly changed man and able administrator.

It is again a very great credit for Girish that though he has dealt with the entire complexities of three eventful periods in Indian History, he has not in the least distorted facts for his own purpose. We need not mention here his famous drama "*Asoke*" which, although it has a historical setting but in spirit is a religious drama, and so is '*Kalapahar*' though with a historical back-ground.

The next drama "*Mirkasim*" dealt historically the period of Mirkashim's fight with the East India Company and its governors over the question of duties on imported goods and his final defeat in the battle of Buxar in 1764 A.D. The drama gave the ideals of a national hero how he would lead a life of sacrifice and service with strong love for all his dependants.

The next drama '*Chatrapati Sivaji*' dealt with the heroic and hallowed life of Sivaji. Girish Chandra depicted him as a fighter for independence and set forth his lofty ideal, to his country. The dramatist fully discussed the Afzal Khan episode which took place near the Fort of Pratapgarh. He supported Sivaji and Marhatta history and the reasoning was quite cogent and believable. It was at Afzal's command Sivaji's father Sahaji had been a prisoner at Bijapur and suffered

great tortures at Khan's hands. It was quite clear the latter did not come only to give an embrace to the rebel-hero. Sivaji's intelligence and courage at the Delhi Court before Emperor, Aurangzeb, was also very well-depicted by him. He further showed that Sivaji was equally kind and sympathetic to his Mahomedan subjects as to Hindus and how he respected the Mahomedan ladies, e.g., Moulana Ahmed's daughter-in-law, as mothers. Jijabai, the mother of Sivaji, has also been depicted by the Mahakavi as a matronly mother who had trained her son through all hardships and vicissitudes with severity and discipline and would advise her son even to kill herself (the mother) for the interest of the country if so required. 'Ramdas Swami' has been depicted as a great saint to whom the kingdom was transferred but who gave it back to Sivaji, so that he might work as his representative. This total abnegation and selflessness on the part of Sivaji was an ideal virtue which the dramatist Girish amply demonstrated. Laksmibai, Tanaji's wife, has been depicted as a warrior lady reminding us only of the marital and patriotic queen Rani Laksmibai of Jhansi. The poet has not spared to mention how Sivaji was passing his last days in great worry and agony at the debauchery and drunken habits of his son Sambhaji who was later decoyed to the camp of Dilir Khan but was saved through the wit and reasoning of Lakshibai and the prince had to come back before the father to the latter's great joy. Gangaji, the most faithful confederate and Putlunai, the second wife of Sivaji, who was able to see everything in vision even in Sivaji's absence, are new creations but these have fitted the drama very well. The character of Dilir Khan has been marvelously depicted as a conscientious general. Thus Girish Chandra, barring Maharashtra had been the first writer in India to have depicted, the facts of Sivaji in the popular drama in 1907 A.D. as a fighter for independence, and a selfless ruler with a spirit of resignation to his Guru considered as an incarnation of the Divinity. It is in the fitness of things that the drama should be translated in all languages, English, Hindi and Maharastrian and Sivaji should be regarded as the ideal leader of India. May the name of Sivaji always be wringing, as Ramdas Swami blessed him at the time of his death—

"Whenever there will be effort for
independence
Claims of bondage to be freed, manhood to
prevail, Sivaji's spirit will be there."

SUMMING UP

To sum up, Girish Chandra was not only a great poet, the greatest dramatist and play wright of modern Bengal, the best director of histrionic art, the founder, father and preserver of the National Stage but also a great philosopher, a great reformer and a great Lover of God.

Girish's astonishing achievements both in the field of drama and histrionic art have assigned him an honoured place amongst the greatest dramatists of the world as well as among the most distinguished interpreters of dramatic characters on the stage. His is a name which is never to be effaced by time from the book of immortals of the world but will stand out more and more

prominent as time rolls on. He passed away in the sixty-eighth year of his life on February 8, 1912 A.D., and his numerous literary productions and the Indian Stage he built will ever make him immortal. May his Soul rest in peace eternally in the arms of his ever-loving Master Sri Sri Rama Krishna Paramhansa Deva to whom he resigned everything and who was his only solace in life and death. No doubt, Girish Chandra is dead, but 'Long Live' the Mahakavi, the great devotee and the greatest national dramatist and Theatres' Gurudev!

—GIRISH CHANDRA GHOSH

(Continued from page one)

held that the equipment was not upto the mark and it compared very unfavourably with the model—the stage of the English in India.

Girish Chandra declined the offer to join his friends who established the first public stage in Bengal. But though the despondent duck gloomily eyes the pond may say that he will not enter it—as long as the duck is alive and the pond is there the two are sure to meet when the Great National Theatre was established he could not remain aloof. He joined it, but as an amateur. Subsequently he agreed to accept a salary of rupees one hundred a month. Afterwards he was in great demand and joined theatre after theatre as no theatre could be complete without him.

Like Shakespeare he wrote for the stage dramas, melo-dramas and farces, which caught the imagination of the people and attracted the attention of the educated class and enthralled the admiration of the discriminating. He wrote on every possible subject from religious subjects to historical and social matters. He painted out the part maggots and creeping parasites that have been breeding in the warm comfort of corruption in society. And his religious dramas cheered even Paramhansa Ramkrishna with whom he came in contact late in life and accepted him as an Incarnation of God.

His literary works number more than seventy. It was his habit to dictate what he had to say and then correct the manuscript.

For his historic dramas—some of which were proscribed by the British Government for their "crime of nationalism" he ransacked the store house of history to arrive at the truth.

He translated *Macbeth* into Bengalee and his rendering was praised by savants like Sir Gurudas Banerjee and Shri N. N. Chose.

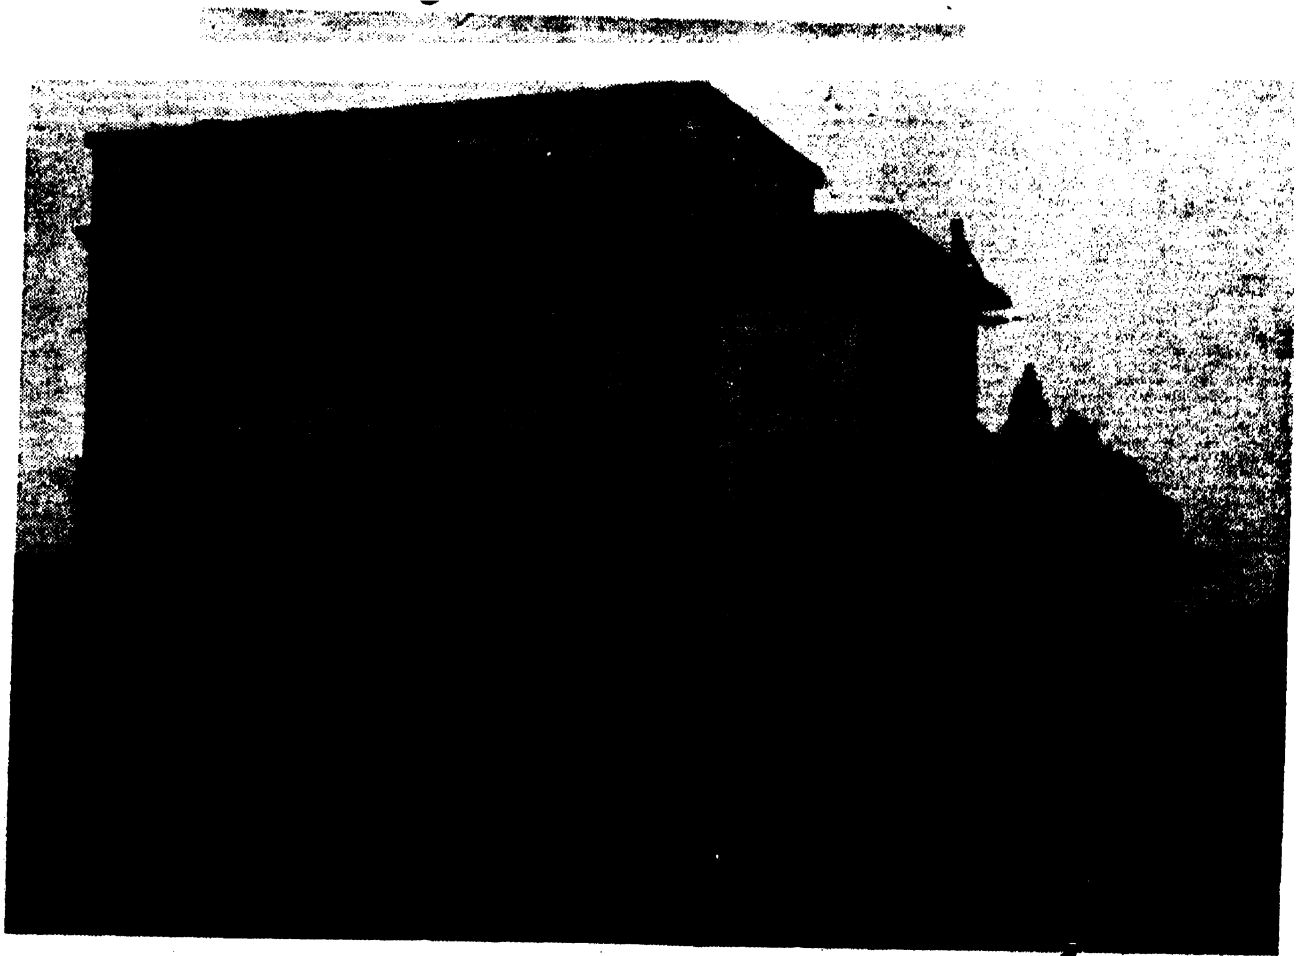

He was a great actor. But the actor is forgotten. Gardiner has said that when the actor leaves the stage and the last plaudits die away and we turn to go, it is not the player alone to whom we bid farewell. "The curtain has fallen like a guillotine upon the pictured past, the vision has faded, the cloud-capped towers and gorgeous palaces have shrunk to the dimensions of a dream The actor does not leave the stage alone."

But he will be ever remembered as the real creator of the Bengalee stage and a powerful writer—for the great do not die, embalmed in books their spirit walks abroad.

A VIEW OF GIRISH CHANDRA'S OLD HOUSE.

The room on the first-storey along with the verandah was used by the poet himself.

Calcutta's Efforts To Perpetuate Mahakavi Girish Chandra's Memory

CORPORATION UNDERTAKES PIONEERSHIP IN THIS TASK

WHAT is needed to-day is the larger number of publications of the complete works of Mahakavi Girish Chandra, the great dramatist, play-wright and the Father of Indian Stage'. This was stressed by a number of speakers in paying their tributes to that great citizen who had moved in different spheres of life, while celebrating the 115th Birthday Anniversary of Girish Chandra on Friday, the 27th February at a new C. I. T. Park on Jatindra Mohan Avenue, near the Girish Memorial Hall, a part of his residence, renovated and built up after his memory.

The Hall which was illuminated on that occasion, is at present under the charge of the Calcutta Corporation, ceremonially handed over by the Calcutta Improvement Trust few months back after its completion. The Birthday function was held under the auspices of the Corporation. The programme was chalked out by the Girish Memorial Committee headed by the Mayor, Dr. Triguna Sen.

The main feature included unveiling of a portrait of the Mahakavi by Rai Harendra Nath Chaudhuri, Education Minister, West Bengal, who also presided over the function.

Establishment of an accommodatious Public Hall and a stage named after that great dramatist and actor, mainly due to public enterprise, with an assured help from the Government of India, topped the list of suggestions made on the occasion. The Corporation would soon furnish the Hall with a library equipped with the complete works of Girish Chandra and the literature associated with it.

The newly built broad road running from Girish Memorial Hall till its merger to the Baghbazar Street is to be renamed as Girish Ghosh Avenue. Formerly, it was a narrow lane known as Rajapara Lane. This proposal has already been recommended by the local Borough Committee, as announced by the Ward Councillor, and would soon receive the final approval of the Corporation.

Dealing with the various aspects of Mahakavi Girish Chandra's writings the Education Minister said that it bore the Message of God and for which he was destined. At the same time his writings contained materials sufficient to inspire a nation then fully submerged in ignorance.

Although highly religious in mind Girish Chandra had always emphasized the aspect of mass education not through his writings but also by staging dramas as a superior art. And thus his name shall shine among the nation-builders of the world, the Minister also said.

Swami Prajnananda who acted as the Chief Guest, told mainly on the religious fervour in the life of Mahakavi Girish Chandra. He also recalled how Girish Chandra tried his best to educate the people.

Among the speakers Shri Hemendra Prasad Ghosh spoke on the background under which Girish Chandra was brought before public eye as a great dramatist, whose contributions were of a superb order than others. The octogenarian journalist also felt that the best tribute paid to his memory would be to carry on further researches on his writings. Patriotism had great appeal in many of his books.

Earlier, the Deputy Mayor, Shri Keshab Chandra Basu, while inaugurating the function, referred how Mahakavi Girish Chandra behaved as a true disciple of Sri Sri Ramkrishna Dev.

'Mangalacharan', or reciting of the scriptures was made by Dr. Kshitish Chandra Shastri and Shrimati Madhabi Brahma regaled the audience by presenting a *kirtan* song.

The other speakers included Dr. Hemendra Nath Das Gupta, Shri Ahindra Chaudhuri, Shri Manilal Bandopadhyaya, all Girish Lecturers under the Calcutta University, Shri Debnarain Gupta and Councillor Ranajit Coomer Mitter.

An elite of the city including Dr. Srikrumer Banerjee, Shri Tarasanker Banerjee, M.L.C., and a large number of Aldermen and Councillors were present. Two of the famous actresses who once gave life to Girish Chandra's dramas, Shrimati Nivanani and Shrimati Sarajubala and Shri Jawher Ganguly, a noted actor, also watched the function.

GIRISH CHANDRA'S DIFFERENT ROLES RECALLED

SPEAKING the vastness of Mahakavi's literary works, Rai Harendra Nath Chaudhury, emphasized that a simple annual function for few hours and to recall him there was not sufficient to pay tribute

Bengal both as a dramatist as well as an actor possessing a superior quality of creative of art.

A LIFE SKETCH

DRAMATIST and Actor Girish Chandra Ghosh was born on the 28th February, 1844, in a respectable family of the Baghbazar area. It was the first day of the week corresponding to the 15th of Falgun, 1250 B. S. eighth day of the full-moon fortnight. The Birthday Anniversary was observed this year according to that Bengali calendar. His family had cultural traditions and religious discussions were common there. Reading up to the Entrance Class Girish Chandra entered into an European business firm. Working there as a Ledger-Keeper he realized the benefits of Double-Entry system of accounting and was partly responsible for its introduction in the indigenous system.

Girish Chandra would ever be remembered as a Bengal's literary talent who enriched the Bengali literature with at least seventy dramas of varied nature and other writings including thought-provoking essays. His composition was lucid and touchy and they carried an appeal to the hearts of the readers. The wretched condition of the Bengali society was brought to light by him. The problems then focussed by him are still now the crux of the society.

For nearly half a century Girish Chandra ruled over the Bengali stage and fuller details about his histrionic talents have been illustrated in the accompanying articles.

A new chapter started in the life of that eminent litterateur when he became a devout follower of Sri Sri Ramkrishna Paramhansadev, who gave him a new light of life. This inspired him to write a number of religious and mythological dramas. At the same time the mundane affairs had little effects in his life.

He died on the year 1318 B. S. full of honours and fulfilling the mission of his life. He was also respected and honoured in the contemporary literary world.

to that teacher of people. Even a full day devoted for the purpose might satisfy him. He also recalled now Girish Chandra as a faithful devotee of that Master-mind carried his Message to the people of

The Education Minister, however, doubted whether in these days of cinemas some of Girish Ghosh's works would be able to attract great crowds as they used to draw in those days. He concluded his speech by saying that not only to English-speaking people but also to the world as a whole Shakespeare's works had not become outdated and then surely Girish Chandra still had a place among the people of Bengal nay to the whole of India. 'And the best way to pay tribute to him is to study his books by the people of Bengal', added the Minister.

Shri Ahindra Chowdhury, in a lengthy speech, recalled the multifarious activities of the Mahakavi. He also said that the 'Father of Indian Stage' appeared before the then people of Bengal mainly in four identical roles. Appearing at first as an actor of the stage he diverted his energies for writing dramas, melo-dramas farces and other kinds befitting the Bengali stage. And even not satisfied with that Girish Chandra himself took the supervisory role of many of the then theatrical houses for efficient production of those dramas. Demonstrating himself in important roles in the stage he also worked as the teacher and guide of other actors.

Shri Chaudhury, as a Dean of the Academy of Dance, Drama and Music, emphasized that if they wanted to pay respect to his memory they would have to republish all the works of the Mahakavi and ensure that those were widely read as he was not satisfied with the system of prescribing stray pieces from Girish Chandra in the University syllabuses.

Supporting the proposal for the publication of complete works of Mahakavi, Shri Manilal Bando-padhya, an elderly litterateur of Bengal, recalled many of the incidents from Girish Chandra's life wherein his nobleness of heart was amply demonstrated. He dealt mainly with the literary life of that Mahakavi who had high regards for his contemporary literary men in Bengal. The histrionic art which Girish Chandra imbibed was also referred to by the speaker.

Shri Banerjee regretted that proper recognition had not been given to Girish Chandra as a literary talent by his countrymen, which he had the chances to witness by sitting under his feet.

Dr. Hemendra Nath Das Gupta paid his tributes by reciting many of the extracts from the composition of Girish Chandra wherein his religious and patriotic fervour had been displayed.

Shri Rash Behari Sarker, also acquainted the audience how a non-official attempt was taking roots in building up a Public Hall for staging Girish Chandra's dramas in the city. Narrating the progress Shri Sarker also referred to the support and assurances promised by the admirers of Girish Chandra including the Union Government's Minister for Cultural Affairs.

FATHER OF THE BENGALI STAGE

By SHRI AHINDRA CHOWDHURY

(Dean, The Academy of Dance, Drama and Music, Calcutta)

GIRISH CHANDRA GHOSH, the great dramatist was born in the Bengali month of Falgun in the year 1250 of the national calendar, which corresponds roughly to the Christian calendar of 1844. He was the son of Nilmadhab Ghosh, Bosepara Lane, Baghbazar, Calcutta.

Historically it was the time of Lord Hardinge who was paving the way of advent of Lord Dalhousie, a period which witnessed an era of an all-round progress.

Girish Chandra lost his parents at an early age and consequently had little education worth the name. Yet he was extremely social and was of a jovial temperament.

The only type of entertainments for Bengalis of Calcutta in those days were the *Kathakata*, *Panchali* and *Yatra* which were frequently held. Young Girish was a regular visitor to these performances and eagerly watched every minute details of these roughly hewn artistic productions. *Kathakata* was of special fascination to him. He was nursed in his childhood by the mythological stories as depicted in different *Kathakatas* which he so fondly witnessed. This clearly indicates that the germ of the future great dramatist of Bengal was embedded in him even in his early years. In later years when he grew into a full-fledged dramatist Girish Chandra worked upon these mythological themes in a splendid fashion which deeply enshrined his memory into the hearts of his readers. The achievements of a single *Kathak* performer depicting different roles in different manner of speeches, gestures and moods awakened a sense of wonder in young Girish Chandra. He was determined to be an actor. Posterity knows that he succeeded in becoming so. He is our great actor till to-day and none has been able to surpass him in sheer excellence of dramatic performances.

Girish Chandra was a voracious reader of the *Mahabharat* and drew inspiration from its eternal themes. He felt that there was need of some degree of educational equipment for a man of this world. He bought many books, European dramas and dramatic magazines and periodicals from the money he obtained as dowry. The lives of the great actors of the West were delightful reading with him. He frequented the British theatres in Calcutta in those days. The Lewis Theatre was a great attraction for him. He contacted great friendship and familiarity with Mr. and Mrs. Lewis, the proprietors of the Theatre through the generous introduction of Mr. Parker under whom Girish Chandra worked as a clerk. Mrs. Lewis was a great exponent of the art of dramatics and was herself the teacher of dramas in the theatre. Girish Chandra soon became one of their devoted pupils and she in her turn learnt a lot from him regarding the acting and production of plays. Girish became her constant companion during her evening strolls. The acting talent which remained dormant in him burst into sudden brilliance in the year 1868 when he appeared in the role of *Nimchand* in *Dinabandhu's*

famous drama. Girish Chandra was the first Indian Director of the first public theatres in this country and established a school of acting which is associated with his great name. The principles of acting which he thus evolved were hitherto unknown to us and were based not on flowery elocution, grand diction or imposing postures but on a purely simple and realistic movement of the dramatic characters founded on sentiment and emotion as were generally seen in the acting of *Kathaks* in those days.

Girish Chandra cut off all connections with the National Theatre with which he was so long associated on the ground that it was resolved to receive payments for entertainments. Girish thought that the stage was even then not sufficiently equipped to accept pecuniary return from the audiences. He further argued that public taste was even then not properly created to make payments for entertainments. Moreover, he deeply thought that the social and educational value of the theatre as a public institution would thereby be lost completely. This incident took place on the 7th of December, 1872 when the National Theatre evolved as a public institution in the midst of finish and grandeur. He kept himself away for only two months but appeared as a distinguished amateur in the classic role of *Bhimsingha* in Michael's *Krishnakumari* in March, 1873. For seven years he appeared on the stage as amateur artist now as an actor, often as a teacher and sometimes as a manager-producer. During this time he dramatized some of Bankim's novels for the stage, but hesitated to shoulder any responsibility for any theatre.

Gradually Girish Chandra felt the need of a professional theatre for the Bengali society, through the medium of which people could be educated. He was further convinced that the trade could earn good money. He took lease of the theatre first in his brother's name and then in the name of a relative.

Real struggle of his life then began. He has now become a full-fledged actor and teacher of actors but has not been a dramatist. Now he came face to face with grim reality for the mere dearth of dramas in Bengali. He started writing dramas. '*Anando Raho*' is his first composition, a typically historical romantic drama which failed to attract the public. It was the special province of Jyotirindra Mohan Tagore who composed prior to Girish Chandra several historical romantic dramas, which helped to establish his fame as a dramatist.

I told you already that Girish Chandra attended in his younger days almost every performance of *Kathakata* in his locality, wherefrom he first gathered first-hand knowledge into many of our mythological stories. Those early impressions came to his help now. He composed '*Ravan Badh*' and subsequently many other dramas based on our mythology. Of these '*Sitar Banabas*' attracted a large number of female audiences, even from many of the conservative families of Calcutta. '*Pandaver Agna-*

tabas was another mythological play which had a large audience. Girish Chandra had in credit about eighty writings, dramas, playlets, farcial operas, pantomimes, musical compositions, comedies and tragedies. Thus he became a Prince among dramatists. The best dramas came after his meeting with Sri Sri Ramkrishna Paramhansa. New vistas were opened before his mind's eye. Thenceforward whatever he wrote he wrote with the Paramhansa as his model. He introduced his words and sayings in the mouth of his characters. Once Girish Chandra said that he did not know what he wrote. 'I write', he said, 'whatever He wishes me to write'. The real interpretations of *Bilwamangal* and other socio-religious plays require a master-mind like him in interpreting the deepseated spirit of his theme. He was, no doubt, a great actor. Many Britishers who saw big Victorian actor-managers in England said that Girish was no less a master than those great English giants of the stage. He read in details every Shakespearean drama and bore a sincere love for them. Shakespearean dramas became his models of writing. He translated '*Macbeth*' and performed it on the stage with great eclat. The drama was presented to Bengali audience with very expensive scenery and with a splendid execution of make-up by Mr. Pim, the great make-up man of those days. The translation work was highly praised by such mighty men as Sir Gurudas Banerjee, Shri N. N. Ghosh and Justice Sarada Charan Mitra among others. In spite of all these external embellishments it failed to attract a good audience because of the inherent disadvantage of Shakespeare being presented through the medium of a foreign language for which it is even now too foreign to be unsuitable. Even the '*Englishman*' the great upholder of British interests in India who hated everything other than British and particularly whatever was Indian wrote triumphantly. "A Bengali Thane of Cowdor is a lively suggestion of incongruity but the reality is an admirable reproduction of all the conventions of an English stage".

The Bengal Partition led to a great upheaval in the country and the great national movement was afloat. Girish Chandra permeated his historical dramas *Sirajdullah*, *Mirkashem* and *Sivaji* with his national sentiment. These were great national heroes and were held most dear to the heart of Indians. Girish Chandra installed them afresh in the minds of the people with slight adaptations from history to suit the requirements of the drama. A superb artist he handled his themes in a splendid manner whereby he flared up a great degree of national enthusiasm in our people. In this his great attempt Girish Chandra was not alone in the field. His ideas were warmly adopted by later dramatists like Shri Kshirode Prasad Vidya-binode and Shri Dijendra Lal Roy. After this Girish again came back to his religious dramas with '*Sankaracharya*' and '*Tapobal*'. It was not an easy job to elucidate to a lay reader the doctrines of the '*Adwaita*' and give out a commentary of it through dramatic dialogues in Bengali as Girish Chandra did. Yet the book became a best-seller. In *Tapobal* was depicted how a *Khatriya* could become a *Brahmin* by his own *Karma* and not by birth or heredity. His reputation as a dramatist however rests for his grim social dramas wherein he depicted

the Calcutta society in types of lives found in

the different *fula*, '*Hara-nidhi*', '*Balidan*', '*Santi Ki Sasti*' are great social dramas, satires and playlets.

Girish Chandra died in 1912. His posthumous writing was '*Griha Luxmi*'. As a trainer he was no less distinguished than as an author and dramatist. Almost all the actors and actresses of the period were directly taught by him, some of whom ran the four public stages in Calcutta after his death. He was fittingly the *Father of the Bengali Stage*. Dr. Syama Prasad Mookerjee wrote about him :

"He was father of the Bengali Theatre, not only clothing it but feeding it and upbraiding it."

It was his voluminous introductions that supplied life blood to the growth and development of the theatres in this country and that is why the veneration of a grateful posterity has cherished his name as the '*Father of the Bengali Stage*'.

—NATYA GURU GIRISH CHANDRA

(Continued from page nine)

Chandra as an actor very often submitted himself to the author of the drama and thus his role drew applause from the audience's side. In this sphere he took what was essence in the West and discarded what was bad and outdated in this country.

Girish Chandra as an author did marvels and that was quite unknown in those days. Full of emotion and imbibed with ideological instincts Girish Chandra's heroes were living figures and they could be compared with any other compeers of the world literature even to-day. Deshabandhu Chittaranjan realized this and as a poet in his inner being, remarked :—"The inner soul of Bengal lies in the composition of Girish Chandra, in his songs, dramas and blank-verse poems. The patriotic fervour flows on it are the true message of the country. We must go through them to derive the pleasure lying hidden in those written lines".

Girish Chandra, entitled as '*Mahakavi*', was the embodiment of the East as well as of the Western literature and that is why his characters are adored so much in this country.

Before I conclude, I pray to God that let good senses prevail over the society and let a larger number of people come forward to imbibe what is written and composed by that great seer.

Lastly, I appeal to my countrymen to move to the Government so that there might be larger reproduction of Girish Chandra's works. Arrangements for discussion and discourses from his writings would not only benefit the present but the future generations also. And this can be encouraged by awarding prizes, scholarships etc. to those engaged in such study. Of course funds for the purpose would be provided by the Government. The Calcutta University can also take the initiative in this regard besides creation of the post of Girish Lectures annually. Establishment of Stages and Memorial Halls for the purpose would also help much.

NATYA GURU GIRISH CHANDRA

[BY SHRI MANILAL BANDOPADHYA, SAHITYACHARYA]

FORMERLY GIRISH LECTURER, CALCUTTA UNIVERSITY

In paying my homage to Natyaguru Girish Chandra on the occasion of his 115th Birthday Anniversary I should refer to his multifarious activities. His name "Mahakavi" a great poet, was a most befitting one when we look into his vast creations of literary grace and eminence. His writings numbered nearly ninety. Besides, he rendered into dramatized versions many of the famous novels of Bankim Chandra. His genius was equally demonstrated both as a poet as well as an essayist. As a talented literary man he will live in the minds of the people so long Bengali will shine forth in the world of literatures and the race will survive.

As an author of so many dramas Girish Chandra can well be compared with Shakespeare of Great Britain, whose subtle instincts, human touch, grace and grandeur have not yet been deemed in. So also Girish literature should be studied in all its aspects. A thorough undertaking of this would surely benefit the future generations, the present would also be equally benefitted.

Great as an actor, Girish Chandra enlivened Bengal's Theatre Houses by dint of his histrionic qualities. He was as great as a dramatist and playwright, and a great actor, an able stage manager, an artist of repute playing roles of heroes. At the same time he was director of many dramas. Unfortunately, such a genius whom people honoured him as a dramatist of uncommon versatility in those days, could hardly be followed at the stages of present day Bengal. He imbibed this quality even when he was a young man of 24 years serving as a clerk in a merchant office dealing mainly on accounts. As a creator of art he was an artist and received adoration from all. For long 50 years he moulded the Bengali Stage in a fashion so that they might grow into the 'First Class Theatre' of Europe. And in that direction he was also helped by others. Such was his integrity that he translated 'Macbeth' and arranged for staging it himself taking an important role. As a founder of four important Calcutta Theatre Houses, then prospering to glitter in their own spheres, his management was never questioned. And thus he emerged in the country as an harbinger of Indian histrionic art rarely found in others. The present Bengali Stage, although owes its existence to Girish Chandra in many respects, still have almost forgotten him except a very few who still holds the banner of that great artist.

The recent move of the 'Biswarupa Theatres' should deserve appreciation for holding a dramatic competition after Girish Chandra's name. But it is equally regrettable that none of the competitive teams could have staged any of the dramas of Girish Chandra although they appeared on the Stage for 35 subsequent weekends. Their another move has taken shape in the building up of a library of dramas, operas and blank verses and others after his name. That is why Girish Chandra lives in the remotest corner of the house out of touch with the common folk to whom he appeared as a 'preacher'. He wielded his pen to bring the nation to senses mainly through those

inspiring characters of the Ramayana and the Mahabharata, the two great Epics. Thus his role as a mass teacher though fulfilled in those days could not be linked up to the present materialistic world.

The only exception was, however, found in the Howrah Shilpashri for staging a drama 'Yuga Surva' (যুগ সূৰ্বা) depicting the life and activities of Sri Sri Ramkrishna, wherein they had painted Girish Chandra as a great devotee. This would, no doubt, bring Girish Chandra nearer to the public eye as a great disciple of that great savant and seer.

In tracing the cause why Girish Chandra's dramas had not been staged, I can, with least hesitation, say that the competitive groups were not fully acquainted with the characters of Girish Chandra because of the fact that they had not read completely into the whole of Girish Chandra's superb dramatic literature.

Moreover, the present crisis of suitable dramas for staging would have given way had they been fully acquainted with those characters and the books thereof. What is needed to-day is the modification of scenes and scenery of the Stage on the present context and not the change of individual characters. The Bengali society still needs "PRAFULLA" (প্রফুল্লা) the great social tragedy. Girish Chandra's dramas can never be outdated, nor are they unsuitable for the present society which still needs a reformer like Girish Chandra.

Taking a thread from the above, I can assure my readers that the famous 'Nadia Samaj' of Howrah has been staging Girish Chandra's dramas for the last 25 years. By turn they have almost completed all of his devotional and mythological composition. The performance of 'NADER NIMAI' (নেদের নিমাই) on the occasion of the celebration of the 'Kalpataru Utsav' at the Cossipore Udyanbati last year, kept an audience of twenty thousands strong almost spell-bound. For the last few years the Samaj is drawing appreciation from all quarters by staging the drama. The President of the Ramkrishna Mission himself was so much moved on that occasion that he felt that an equal fervour of the performance was displayed as it was about 25 years ago. Thus the present opinion about the mythological and devotional dramas does not hold good and it can be dismissed without any further discussion.

The 'Nadia Samaj' have thus kept burning the candle once lighted by the Mahakavi. The Samaj is celebrating the Girish Anniversary every year as included in their main programme of the Samaj's objects and purposes.

Speaking of Girish Chandra and Bengali stage I can further add that it was he who first presented the Indian Stage in the eye of public estimate. He elevated it to a level of culture and educational value. Before that the stage was conspicuously looked down by the educated society of Bengal.

Girish Chandra drew a sharp line between 'acting' and 'recitation'. Carried by emotion Girish

VIEWS AND REVIEWS**GOVERNING MAYOR OF BERLIN VISITS THE CITY..**

HERR WILLY BRANDT, the Governing Mayor of West Berlin, while in a round-the-world tour, on a goodwill mission, reached Calcutta on Tuesday evening, the 24th February. On his arrival at Dum Dum airport he was garlanded by Miss Curtius, daughter of the German Consul-General in this city. The Consul-General Mr. Klaus Curtius and several members of the foreign Consular Corps and others were present there to receive the Governing Mayor.

The Governing Mayor of the Divided Capital of the Divided Germany made an appeal through a Press Conference on that day to the uncommitted nations of Asia to lend their moral assistance to Berliners in their struggle 'against a new form of 'colonialism' for isolating the City of Freedom.

Addressing a largely attended Banquet given in his honour by the Consul-General of Germany Herr Brandt said that he undertook his current tour to give as much information as possible about his country and to ascertain how responsible political leaders looked on an international issue as that of the problem of Berlin. The divided city, Herr Brandt pointed out, offered an opportunity to people to appraise the advancement in the material and cultural spheres.

The State Governor, Shrimati Padmaja Naidu, State Ministers and many distinguished citizens, including members of the Diplomatic Corps, were present.

In the past ten years, the city of West Berlin, which had been reduced to a desert, the Governing Mayor said, that the city had since been turned into a great industrial city of Germany.

The Berlin question, the Governing Mayor said also in that day's Press Conference, had been a danger to world peace towards the end of November and early December last year because of the Soviet Government's miscalculation that it could "Squeeze the Western Powers out of Berlin".

The situation had changed following the firm policy laid down by the West German Government and the Western Powers of world peace."

Replying to a question, Herr Brandt said that he would be happy to limit German's "means of self-defence" if it helped to remove French and other apprehensions about a militant Germany and led to a solution of the German problem.

Lastly, Herr Brandt expressed the hope that the demands of the Berliners would be better understood in India than in many other parts of the world.

"I don't accept the idea of a unilateral change of conditions in Berlin in favour of one side or the other. But I feel it would be a good thing if serious talks could be started on the German problem including Berlin being the Capital of Germany and discussions dealing with the far-reaching problems of Europe and Germany" he added:

After spending the night at Great Eastern Hotel, the honoured guest left the city on Wednesday morning.

On behalf of the citizens, the Mayor, Dr. Triguna Sen, extended welcome to the Governing Mayor through a letter written earlier, as he had to remain outside during the period of visit of that honoured guest. He expressed his good sentiments for the success of the visiting guest's intending tour, in that letter.

A 'profile' on Herr Willy Brandt from the pen of one of our esteemed contributors, is being published along with this Issue.

THE CORPORATION AT WORK

GISTS OF PROCEEDINGS OF THE THIRTY-SEVENTH ORDINARY AND THE THIRTY-FIFTH AND THE THIRTY-SIXTH ADJOURNED MEETINGS OF THE CORPORATION HELD ON FRIDAY, THE 20TH FEBRUARY, 1959.

TUBE-WELLS IN CITY

With the approach of summer a large number of tube-wells went out of order and an equal number are apprehended to go defunct soon. This was pointed out by several members in the House in course of discussion on the matters of urgent public importance. Councillor Amulya Charan Sarkar complained that the citizens of his locality were experiencing much hardship due to defunction of a number of tube-wells.

Councillor Nandalal Banerjee also spoke in a similar fashion. He further pointed out that tube-wells in Bustee areas were not functioning properly in his area. Even the promised number which had to be sunk by the Government was not completed. The system of supplying water by lorries had not been implemented in many of the areas, he also complained of.

The Mayor, Dr. Triguna Sen, however, assured the House that the matter would be looked into.

MINIMUM WAGES COMMITTEE

The House nominated Councillor Balai Bhushan Paul as a representative of the Corporation on the Minimum Wages Advisory Committee, Government of West Bengal. The vacancy was caused by the death of Councillor Ushanath Sen.

POST OF A REVENUE OFFICER

The House, on the recommendation of the Standing Finance Committee, created permanently the post of a Revenue Officer in the scale of pay Rs. 800-1,250 plus a Motor Car Allowance of Rs. 150/- per month by amending the Schedule of Establishment under Section 78 of the Calcutta Municipal Act, 1951. In creating the post the Standing Finance Committee viewed with great concern a large number of Rate Bills amounting to Rs. 7 or 8 lakhs which has to be transferred every year by the Collector to the Chief Law Officer for realization by suit and that already 27,364 Rate Bills (856 cases) amounting to about Rs. 24 lakhs have accumulated in the Collection Department during the last three years from 1955-56 to 1957-58. All these await immediate transfer to the Law Department. It is also beyond the capacity of the Chief Law Officer to take charge of these Bills for realization in addition to those amounting to about Rs. 36 lakhs outstanding in his hands. It is, therefore, necessary to make some other arrangement without delay for tackling this problem. The Committee is, therefore, of opinion that a Special Officer with requisite staff should be appointed for realization of the arrear Rate Bills amounting to Rs. 24 lakhs awaiting transfer from the Collection Department. A moiety of the arrears which will become transferable to the Law Department by the Collection Department every year from the year 1958-59 onwards for collection by suit will also be taken charge of by this Officer.

In view of the urgency of the matter the House, based on the same recommendation, appointed Shri N. K. Mondol, Assistant Collector,

acting as Collector, to the said post. The Committee further recommended that Shri Mondal fulfilled all the requisite qualifications of the post and for his wide experiences in the collection of revenues in the past he had been found eminently suited for the post.

Before approving the recommendation the House debated the issue for long as many of the members had opposed the proposal.

A FREE GIFT

The Corporation, on the recommendation of the Standing Education Committee, accepted as a free-gift the premises No. 100/3, Serpentine Lane, Ward No. 46, for the purpose of using the house as a Corporation Primary School.

ESTIMATES

The House, on the recommendation of the Standing Works Committee, accorded administrative sanction to the following estimates:—

(1) Engineer's estimates of Rs. 75,000/- only for covering up the big surface drain along Chetla Central Road, Ward No. 72.

(2) Two Engineers' estimates of Rs. 55,000/- and Rs. 58,000/- respectively for improvement of Nikashi Drain at Tangra Road South, Ward No. 49.

SUPPLY OF ALUM CAKES

The House, on the recommendation of the Standing Water Supply Committee, accepted tenders submitted by Messrs. The Bengal Chemical and Pharmaceutical Works Ltd. for the supply and delivery of 1400 tons of alum cake to be used at Pulta Pumping Station.

A PERMISSION

The House, on the recommendation of the Standing Town Planning and Improvement Committee, allowed Messrs. The Statesman (Private) Ltd. for maintaining a triangular garden plot at Chittaranjan Avenue, opposite their office on payment of a token fee of Re. 1/- per annum on certain terms and conditions.

OPENING OF NEW SCHOOLS

The House, on the recommendation of the Standing Education Committee, engaged a house at 37, Baishnabghata Road, at a monthly rent of Rs. 150/- per month and other paraphernalia for housing a Corporation Primary Schools to be started shortly, one for boys and the other for girls in Ward No. 80.

CORPORATION REPRESENTATIVES

The House, on the recommendation of the Standing Education Committee, nominated the following as representatives of the Corporation on the Advisory Committee of the Mukharam Kanodia Model Primary School at 9, Burtola Street, Ward No. 25:

Councillors Harinarayan Sadani, Shiv Kumar Khanna, and Dr. Sudhangshu Kumar Sett; Area Inspector of schools and the Headmaster of the school.

Another Step In Water Supply Project

60 Million Gallons A Day Additional Supply

THE BEGINNING of the construction of the 13.6-mile long 72-inch diameter Pulta-Tallah water-main was inaugurated through a ceremonial function, by the State Chief Minister, Dr. B. C. Roy, on Sunday, the 22nd February, at Kamarhatty, northern suburb of the city. This is the major item of the Calcutta Corporation's Rs. 12.35-crore Water Supply Scheme to implement a target figure of 300 million gallons of filtered water supply project prepared as a part of its Five-Year Plan.

The fabrication of the pipes and their laying up into the earth of that distance have been entrusted to Messrs. Structural Engineering Works, Ltd., a contractor's firm by the Corporation about two years back through the procedure of an open tender costing Rs. 1.05 crores. The estimated quantity of required steel is about 13,000 tons, the supply of which has to be arranged by the Corporation. This would cost about Rs. 98 lakhs. The other items related to it are contingencies Rs. 10.30 lakhs and miscellaneous including land acquisition is Rs. 6 lakhs.

Thus the whole project of supplying an additional quantity of 60 million gallons a day would cost about Rs. 2.25 crores.

At the present moment the Corporation would spend about Rs. 4.28 crores in order to increase its supply up to a considerable extent. The present average requirements, according to the estimates of 40 lakhs population in the city, is about 200 million gallons a day. With the completion of the laying of 72 in. dia. main the supply is expected to rise to a level of 150 million gallons a day.

Out of this sum the Corporation has already raised a loan of Rs. 2.83 crores and the balance Rs. 1.45 crores would be replenished as loan from the Union Government's Planning Commission under development projects.

Out of the required steel a quantity of 4,500 tons has so far been procured by the Corporation. The balance supply has been assured to by the Government of India. Foreign Exchange difficulties are expected to be removed by them. The Mayor Dr. Triguna Sen, had to move the Government of India for the purpose. A portion might also be manufactured by the Tatas in India. The present stock is expected to be exhausted within a period of two to three months after starting the work.

With a shrill sound from a hooter along with pressing of a button, Dr. Roy announced the inaugural function of the small workshop of Messrs. Structural Engineering Works, installed for fabrication and assemblage of 72 ft. dia. steel main. The workshop possesses the most up-to-date plant and machinery for the purpose. And this is the third factory of the Proprietors established in the eastern region. They established their factories earlier in the Bombay Coast and gathered experiences in this sort of job by undertaking previously a large contract for the fabrication and laying of the 96 in. diameter M.S. Pipeline for the Bombay Corporation covering a distance of over 57 miles and consuming steel of over 80,000 tons. Here the work is not so comparatively big and the Company would hardly employ more than one hundred persons altogether. The pipe-laying work is expected to be undertaken within a few months. The whole work is to be completed within 15 months.

Calcutta's novel feature be the protection of water-supply steel mains against corrosion by the method known as 'Cathodic Protection' a procedure to be followed for the first time not only in India but also in the East.

In that function which was attended by a large number of Aldermen and Councillors and Corporation Officials, the State Chief Minister said that it was unique occasion when an Indian Company was undertaking a huge task.

The firm presented the Chief Minister with a silver model showing a section of a pipe with cathodic protection from which water was flowing.

The Deputy Mayor, Shri Keshab Chandra Basu, also spoke.

Earlier Shri A. D. Shroff, Chairman of the Company welcomed the guests. And a vote of thanks was extended by Mr. A. M. Kapadia, their Technical Director.

CALCUTTA'S WATER SUPPLY—A DIFFICULT PROBLEM

DWELLING on Calcutta's difficulties, Dr. Roy said that the present system was old and was intended to supply water to population less than 40% of the present one. Moreover, every day lakhs of people came to the city during office hours from outside, used the Corporation's amenities, particularly drawing of water resources, he added.

The Chief Minister estimated that if the population in the city had mounted up to nearly forty lakhs and taking the consumption of water per capita about 50 gallons per day, about 200 million gallons would be the daily necessity. In that perspective there was an awful deficit in supply. Even after the present scheme was fully implemented a deficit would remain.

Pointing out that the city had about 500 bustees the State Chief Minister said that people lived there like animals than human beings without any arrangements for sanitation, water supply or lighting. It was not, therefore, unnatural that there were repeated epidemics. One main reason for this was an insufficient water supply. Implementation of this scheme, with which the firm associated, would be a boon to Calcutta people. These Indian engineers had done creditable work in Bombay. There is no reason why the performance should not be repeated in this city, emphasized the Chief Minister.

Congratulating the firm Dr. Roy said that there was a time when it thought that nothing big in the manufacturing or industrial line could be done in India without the help of outsiders. But the country was now laying a sound foundation to increase production. "We are gradually coming into our own", he said.

The Chief Minister suggested to the firm that they should utilize the aid of local talents as much as possible. If the local people were given some training and the benefits of experience it would help to develop a wider outlook.

CALCUTTA'S LIFE LINE

The Deputy Mayor, Shri Keshab Chandra Basu, said that the occasion was the inauguration of the union of the two peoples of Bombay and Calcutta. Water was the life-line of this great city and the supply was the best in this part of Asia. He hoped that the firm would complete the work before scheduled period as they had done in Bombay's augmentation scheme.

Emphasizing the project as one of the biggest in his memory, the Deputy Mayor further hoped that the Indian concern would efficiently fulfil the task.

SMOOTH RUNNING ASSURED

Shri A. D. Shroff, Chairman of the firm, said the factory had been so designed that to ensure its smooth running a regular supply of materials must

be arranged. He hoped that the Government and the Corporation would ensure a steady supply of steel plates to the factory. He gave an account of the work the firm had done in Bombay and other places in India and asserted that in the Calcutta scheme full advantage had been taken of the experiences acquired in Bombay. He particularly referred to a novel method—an electro-chemical process known as "cathodic protection," by which the pipes would be guarded against corrosion when laid underground.

Shri Shroff said that the factory opened at Kamarhaty was the third and the latest factory of the work constructed specially for the purpose of fabricating and laying of the 72-inch diameter mild steel water pipeline.

Tracing the history of the firm Shri Shroff narrated that the Company started a small engineering firm 37 years ago by Shri N. B. Bhagat and now built up a fine reputation in the field of structural engineering. The Company owned two factories in Bombay one of which was engaged in light and heavy structural steel work for residential buildings, bridges, transmission towers, industrial factories and such like, while the other was the largest and most up-to-date welding workshop in the East.

The second factory was responsible for the execution of the important projects such as, the mains for Greater Bombay, the water cooling line for the Thermal Station of Tatas in Bombay, steel pipes for Bhakra Nangal Project, pipes of different diameters for steel plants at Rourkela and Bhilai and Gandarbhal Power Stations of Jammu and Kashmir Government.

With this background, Shri Shroff said, the Company was confident of tendering for the pipeline for Pulta-Tallah Water Supply Scheme of the Calcutta Corporation. Having secured the contract through competition for this project, the factory at Kamarhaty had been constructed specially for the purpose of carrying out the contract.

"I may add", he said, "that in designing this factory, which we claim to be modern and up-to-date, we have taken full advantage of the experience acquired in carrying out numerous contracts at our factory in Bombay and are therefore, fully confident that we shall be able to do the Calcutta job as well, as we have been able to complete a similar, but bigger job for the Bombay Municipal Corporation."

Shri Shroff observed that in these days of scarcities and severe import restrictions, the construction of a specialized factory was not an easy task. But he was happy that with the resources available in their Bombay factories, they have been able to complete the construction of the factory and the erection of the machinery in good time.

PROFILE

Willy Brandt—Governing Mayor Of West Berlin

(By B. C. NAG)

TRANSPORTATION from the editorial chair of a civic journal to the mayoral throne may not be as spectacular as that from the log cabin to the White Hall, the feat is nevertheless remarkable when the city concerned is Berlin. It may be news to some of the readers of the *Calcutta Municipal Gazette* that Mr. Willy Brandt, the Governing Mayor of Berlin (West), was for sometime the Editor of the *Berlin Municipal Gazette*, (*Berliner Stadtblatt*). Early this week he was on a short visit to this city for two days (February, 24-25).

Berlin's present political status is peculiar and for this reason the Governing Mayor is the Executive head of Berlin (West) which he governs with the assistance of a Mayor (*Burgomaster*) and twelve Senators. Mr. Brandt became the Governing Mayor for the second time only in December last. He was first elected to this office in 1957. He is one of the youngest men, for he is only 46, ever to have held this important position. Having been born in North Germany, he is a Berliner by choice and not by birth as our present Mayor is and as some of his predecessors were.

Mr. Brandt is professional journalist. His career, reflecting in a large measure the political turmoil which Germany has undergone during this century, is full of storm and stress. His political affiliation is to the Social Democratic Party of which Mr. Ollenhauer is the leader and which is in opposition to Dr. Adenauer in the Bundestag. He is a fine speaker and an able organiser.

Mr. Brandt passed his early life in Luebeck where he was born on December 18, 1912. After completing his secondary school at the Johanneum-Reformrealgymnasium there he joined the youth organisation of the Social Democratic Party. It was there that he came into close contact with Julius Leber, at that time one of the leading members of the Party and representative in the Reichstag for his Party. Leber introduced him to journalism by taking him on the staff of a local journal called *Volkshote* of which Leber was the Editor-in-Chief. It may be recalled that Julius Leber was executed for participating in the unsuccessful conspiracy against Hitler of July 20, 1944.

In 1933, when he was only twenty years old Willy Brandt was compelled to leave Germany under pressure of political conditions. He went to Norway where he studied history and again turned to journalism. He worked as a correspondent for Scandinavian newspapers and spent half a year in Spain during the Civil War. Returning to Norway where he had since attained citizenship, he became Secretary of the Norwegian Popular Aid, an organisation supported by trade unions. But as a result of the invasion of Norway by German troops, he was forced to flee to Sweden in 1940. He experienced the fate of the immigrant twice over: once as a German, who had to emigrate to Norway, and then as a Norwegian citizen, who had to flee to Sweden.

While exiled in Sweden he joined the exile group of the German Social Democratic Party.

HERR WILLY BRANDT

From 1942-45 he was the head of a Swedish-Norwegian press agency in Stockholm. While in Sweden he met Rut Hansen, the widow of a well-known Norwegian journalist and married her. During these years in Sweden he gained a new perspective of the world by intensive study. He also became acquainted with the two countries, which although they were monarchies, had for a long time been governed by the Social Democratic Party and where far-reaching social reforms had been brought about, without infringing political and personal fundamental rights. "The Scandinavian Social Democrats", says Willy Brandt, "are carrying out a social welfare programme in countries where the democratic system of government has reached its highest development. We shall have to study the experiences gained there much more closely than has heretofore been the case."

A journalist by profession, Mr. Brandt had written eight books in Norway. He published his ninth in Oslo and Stockholm in 1946, after having for a period reported on the Nuremberg trial for Scandinavian newspapers. On return to Germany, Mr. Brandt was assigned to the Norwegian Military Mission with the Allied Control Council in Berlin as a Press Attache by his friend, Norwegian Foreign Minister Lange.

As a result of exhaustive talks with the then Chairman of the German Social Democratic Party, Dr. Kurt Schumacher, as well as under the influence of Ernst Reuter, who had only recently returned from Turkey and was later to become the Governing Mayor of Berlin, Mr. Brandt decided to give up his Norwegian citizenship. On January 1, 1948, Brandt, schooled by experience in many countries, accepted the office of Secretary in the Executive Committee of the Social Democratic Party of

Germany. He first entered the German Bundestag as a representative of Berlin in 1949, and retained his seat after the next re-elections. In 1950 he entered Berlin's House of Representatives where he succeeded Otto Suhr as Speaker of the House in 1955. In 1957 he moved up to the office of the Governing Mayor of Berlin, and only a few weeks later he was elected First Chairman of the Social Democratic Party in Berlin.

In 1945 one might have thought that Berlin was as dead as Nineveh. One-sixth of all the devastation wrought in all Germany occurred in Berlin alone. Seventy-five million cubic meters of buildings were reduced to rubble (three-fifths of this in West Berlin). It has been a miraculous achievement on the part of the city's administration under the leadership of Mr. Brandt and his two worthy predecessors Ernst Reuter and Otto Suhr, that in the last 10 years West Berlin has nearly been completely rebuilt. Already about a lakh new apartment dwellings have been completed and the work is going on at an increased clip of at least 15,000 more yearly. Though a little digression, I may mention here that a German brick-layer lays 1,500 to 1,600 bricks per working day.

Large bricks made from crushed rubble and cement have been extensively and successfully used by them. Such residential developments as the *Lindentof Siedlung*, with its hundreds of cheerful, modern flats, surrounding a community garden, are a pleasure to see, and in the *Lankwitz Hochhaus Siedlung* there are equally attractive "skyscraper" apartment houses of eight and twelve stories, each apartment with its own brightly flowered balcony.

Politics leaves the young Mayor very little time for private life. The outside world, in spite of its curiosity, also knows very little about his Norwegian wife Rut Brandt, his two sons, Lars and Peter, except that Mrs. Brandt has a live interest in her husband's work and that the sons often roughhouse with the father in their quit garden out at Schlachtensee, which shows that Mr. Brandt is no authoritarian father.

ANOTHER STEP IN WATER SUPPLY PROJECT

(Continued from page 404)

The novel method of cathodic protection was possible because of the help from a company in India capable of doing such work, the Chairman added.

FUNCTIONS OF THE FACTORY

The present factory's function is to cut the half-inch thick mild steel plates supplied by the Corporation according to specification by means of liquid oxygen and acetylene, to roll and wield the plates by an electrical process and then to assemble four such pieces into one unit of 24 feet pipe-length with 72 inches diameter. These units are again internally and externally welded. The factory functioning fully the whole process is expected to take not more than an hour.

The units are then taken to a testing dummy for a hydraulic pressure test and are then finally coated with coal tar on both sides and with fibre glass on the outside. According to one of the firm's officials the fibre glass protection is also being used for the first time in India.

-VIEWS AND REVIEWS

(Continued from page 401)

MAJOR P. BARDHAN IS DEAD

We deeply regret to announce the death of Major Pravat Kumar Bardhan an Ex-Councillor of the Corporation and an important leader of the Hindu Mahasabha. Major Bardhan died of heart disease after a brief illness on Wednesday night, the 25th February. He was 69.

Born in a well-known Bardhan family of Bowbazar, the late Major Bardhan had his early education in a local School founded by his father, who was a devotee, poet and an educationist. The late Major Bardhan imbibed many of the qualities of his father and from early boyhood he devoted himself to philanthropy and public services. He worked hard for the development of the Bowbazar Ramkrishna Samity and many other social and cultural institutions. He lost his father at an early age.

Graduated from the Calcutta Medical College in 1914 the late Major Bardhan joined the military service. As an army man he went to Mesopotamia after serving many of the military cantonments in India. He was in that service for nearly eight years. Later on, he went to England for higher studies and returned to his city with F.R.C.S. and M.R.C.P. degrees. He also made an extensive tour of European countries for making a thorough study for the advanced systems of working in hospitals.

Since his return, he participated in social and philanthropic services. With the growing activities of the Hindu Mahasabha, as a political and social organization throughout India the late Major Bardhan associated himself with them, and soon became one of the top-ranking leaders of the Mahasabha as a trusted lieutenant of the late Dr. Syamasprasad Mookerjee. His philanthropic services towards the suffering humanity continued as before till the end of his life. As a recognition of his services he was nominated as a Councillor for one year during 1942-43 and the Corporation was benefitted by his wisdom and sound advice.

The death of Major Bardhan was mourned in all quarters of the city. The Corporation at its weekly meeting on Friday, the 27th February, mourned his death and adjourned its sitting for ten minutes as a mark of respect to his memory. The Corporation offices and schools were closed earlier on Thursday, the 26th February for the same reason.

The death was referred to in the House by the Deputy Mayor, Shri Keshab Chandra Basu, who recalled his manifold services during the dark days of this city, the Bengal Famine 1943, the Great Calcutta Killing 1946, the Noakhali incidents and the aftermath Partition with the influx of refugees to this city in 1947. Shri Basu said that Calcutta citizens would ever remember all these with a sense of gratitude. In his death we have lost a social worker of eminence; the Deputy Mayor added while paying his tributes to his memory.

It may be recalled here that the late Major Bardhan has bequeathed all his properties worth about two lakhs for the service of his countrymen. The Ramkrishna Mission would receive a major portion.

CITY NEWS PARADE

OBITUARY: Prof. Mohit Kumar Ghosh, *ex-Dean* of the Faculty of Economics and Commerce, Allahabad University, *ex-Vice-Chairman* and Commissioner of the Allahabad Municipality, and *ex-Member* of the Allahabad Improvement Trust died on Thursday, February 19 last at his New Alipore residence, southern part of the city. The late Prof. Ghosh was Founder and President of the Calcutta Session of the Indian Commerce Conference. Besides, he was associated with many other public institutions in Allahabad. The late Ghosh was also a member of many important Committees sponsored by the Central and the United Provinces Governments, and Indian Universities.

Death took place of Prof. Lala Gopal Prasad of the Scottish Church College in his city residence on Saturday, the 21st February last. He had an attack of Coronary Thrombosis. He was 62.

The late Prof. Prasad was Professor of Physics for about 38 years. A distinguished educationist, the late Prof. Prasad was also connected with various educational, social and cultural organizations.

SARAT CHANDRA BOSE'S NINTH DEATH ANNIVERSARY was observed in the city through different functions on Friday, the 20th February last.

Speaking at a memorial function held at Keoratala Burning Ghat, southern part of the city, Dr. Prafula Chandra Ghosh, M.L.A., the Praja Socialist leader, said that not because the late Shri Bose was a political leader or an eminent lawyer, but that he had come there to pay his homage to the memory of the late Sarat Chandra Bose as a man. In political field there were differences of opinion between the late Shri Bose and the speaker but they had also worked together on occasions.

Dr. Ghosh had always been impressed by the late Shri Bose as a man. Dr. Ghosh said that the late Shri Bose was perhaps the only person who never utilized anything that might have been told to him in trust by anybody for furthering political purposes. He regretted the absence of men like Sarat Bose in the political life of the country in the present day.

Readings from the Gita were made by Dr. Gourinath Sastri on that occasion. The function concluded with devotional songs.

KIRAN SANKAR RAY'S DEATH ANNIVERSARY was also observed on the same day. On that occasion the State Chief Minister, Dr. B. C. Roy, garlanded the portrait of the late Shri Ray kept at the West Bengal Secretariat Library. Some of the Ministers including Shri Ajoy Mukherjee, Shri Bhupati Majumdar, and many of his colleagues, associates and followers were present at that solemn function.

Homage to his memory was paid at a public meeting at Indian Association Hall, Bepin Ganguli Street, on that evening, wherein Rai Harendra Nath Chaudhuri, Education Minister, presided.

The meeting, held under the auspices of the Kiran Sankar Ray Memorial Committee, described him as a great political leader. His wisdom, sagacity and capability in respect of organization during the Non-co-Operation Movement was recalled by many speakers.

The meeting also strongly urged the Calcutta Corporation to finalise the re-naming of Government Place North-cum-Hastings Street as Kiran Sankar Ray Road.

Shri Sateowripati Roy, Prof. Raj Kumar Chakravarti, Shri Siris Chandra Chattopadhyaya, Shri Harendra Nath Das Gupta, and others were included in the list of speakers.

GENERAL DISCUSSION ON STATE BUDGET ESTIMATES CONCLUDED in both the Houses towards the close of last week. The State Chief Minister, Dr. B. C. Roy, wound up the debate in both the Houses.

Replying many of the charges made earlier in the State Legislative Assembly on Thursday, the 19th February last, Dr. Roy covered in his speech, many of the issues. He narrated the progress made by the State in the fields of productive and unproductive projects. The progress made in the Durgapur Development project including the coke oven plant was given out to the House.

Admitting that West Bengal was not yet able to spend as much money on education as it would have liked, Dr. Roy hoped that the percentage of expenditure on this item would rise progressively.

Earlier, Rai Harendra Nath Chaudhuri, Education Minister, quoted statistics to illustrate progress in that sphere. He cited diversification of secondary education as one of the new movements started by the Government. In setting up Multi-purpose Schools in several areas all factors had been taken into consideration, he emphasized.

The Labour Minister, Janab Abdus Sattar also put up a spirited defence of the Government's labour policy. The Labour Directorate was doing its best to create an atmosphere for ensuring industrial peace. The Minister stressed that industrial relations in West Bengal were worse than in any other State.

Opening the last day's discussion, Shrimati Manikuntala Sen made an impassioned plea for planned development of Greater Calcutta Scheme. She deprecated the haphazard manner in which areas such as Jadavpur were developing. A representative from the southern part of the city, mostly inhabited by middle class Bengali families, criticized the recent assessment of the valuation of houses under the Calcutta Corporation. Under this assessment many cinemas and owners of big houses in areas such as Burrabazar would be paying proportionately less in Corporation Taxes than owners of small houses in other areas.

Criticizing the Government's Medical and Public Health policy, Dr. A. M. O. Ghani said that actual expenditure under these heads was lower than that budgeted every year. He was not prepared to give much credit to the State Government for the fall in the death-rate in recent years because such a fall was discernible all over the world according to the representative of the eastern part of the city.

Fourteen members, including four Ministers, participated in that day's discussion. Dr. P. C. Ghosh, the PSP leader, also inquired about the fate of the unanimous resolutions passed by the Assembly on such questions as the Farakka Barrage scheme.

The next few days in the Assembly were devoted on passing of grants on individual heads. Dr. Roy, who himself moved for the demand for Rs. 874.12 lakhs for expenditure under "Major Heads-Miscellaneous" said in course of his reply on opposition criticisms, on Friday, the 20th February last, that the West Bengal Government had prepared a Bill to take over the Oriental Gas Company, Calcutta, under certain provisions of the Indian Constitution.

The Chief Minister also gave an account of the progress made and contemplated under different major construction schemes—slum clearance, Salt Lake reclamation, fertilizers, a second coke oven plant and a gas grid for Calcutta. He discounted the rumour that a deal with the Birlas had been contemplated for the fertilizer plant.

Meeting in details the Opposition's viewpoints the Chief Minister said that about Rs. 14 crores would be spent for the Salt Lake area which would be divided into 20,000 plots, of five cottahs each, for sale at prices varying between

Rs. 1,500 and 1,800 per cottah. Thus it would be a self-financing scheme. The total foreign exchange component of the scheme was Rs. 6.5 crores, of which Rs. 5 crores would be needed for machinery and equipment and the rest for salaries of foreign experts. Global tenders were invited for the supply of machinery. Negotiation was then going on with a Dutch firm which was to deposit 10 p.c. of the contract amount with the Government there.

According to Shri Sunil Das, a representative of this city, the Durgapur Coke Oven plant would not be an un-economic proposition as the Government had not arranged for sale of the by-products which would be wasted.

Shri Ganesh Ghosh also described the schemes for Salt Lake reclamation and building tenements for slum dwellers as "strange and unrealistic." The 18-square mile area of the Salt Lake filled with silt pumped from the Ganga would take years to become fit for house building purposes. Emphasis on tenements instead of reconstruction of bustees by providing greater amenities would only touch a fringe of the problem, emphasized the representative from the Belgachia Bustee areas.

Moving the demand for the Jail grant on that day, Shri P. C. Sen said prisons were being turned into reformatory houses. With the improvement of the State's economy, the number of persons in jails had decreased.

The House on Saturday, the 21st February passed a demand for a grant of Rs. 1,39.27 lakhs under Co-operation and Dr. R. Ahmed's demand for Rs. 5,10.81 lakhs under Agriculture. Dr. Roy told the Assembly that co-ordinated efforts were being made to stabilize Co-operative Societies so that they could play an effective part in the fulfilment of "our objective of a Co-operative Commonwealth."

The Chief Minister also appreciated some Opposition criticism and said that it might take some time for the officers of the Co-operative Department to get accustomed to the new scheme of things.

Certain aspects of the Co-operative movement in West Bengal were criticized by both the wings in the House.

The Minister, Dr. Roy said also that there were over 19,800 Co-operative Societies with 1,403,000 members and Rs. 39.25 crores as capital against 13,000 in 1947. Assuming that a family consisted of five members the Societies covered about 26 p.c. of the State's population. The total volume of credit issued during the current financial year would come up to Rs. 24.36 crores against Rs. 18.94 crores last year. Urban Credit Societies, a strong wing of the movement, contributed about 50 p.c. of the working capital engaged.

In course of his speech Dr. Ahmed said that so far about 4,500 cattle had been transferred from this city to Haringhata and there was accommodation for 5,000 more. This had been achieved through persuasion. He had not received any complaint of non-availability of milk in areas from where *khatahs* had been removed because milk centres had been set up in those places within the city compound.

The House divided four times on Opposition cut motions and once on the main motion when the demand for grant of the Relief and Rehabilitation Department was passed on Tuesday, the 24th February. The cut motions were lost and the demand passed as it was moved by the State Minister, Shri Tarunkanti Ghosh. The amount was about Rs. 6.5 crores.

While the Minister and the two other members on the Government side who participated in the debate, emphasized the prospect of Dandakaranya, the Opposition accused the Government of keeping them in complete ignorance about the schemes. They did not object in principle to rehabilitation of refugees in places outside the State, but did not favour the idea of sending them against their will.

It argued that the bitter experience of refugees, sent outside in the past, had made other displaced persons apprehensive about the Dandakaranya scheme.

Serious allegations against the Central and State Rehabilitation Departments were made by Shri Jatin Chakraborty, another representative from this city. According to him, corruption and lack of human feeling in the Departments accounted for the failure of proper refugee rehabilitation.

The Forward Bloc leader, Shri Hemanta Kumar Basu, said that if integrated development of West Bengal was achieved, the refugee problem would be automatically solved. He referred to the United Central Refugee Council's Memorandum and the Government's reply, and suggested that representatives of the Government and the Opposition should sit together to consider the proposals contained in them.

Shri Haridas Mitra, from the southern extremity of the city, said the credit for the development of squatters' colonies was entirely the refugees. He alleged that in some instances the regularization of colonies had been taken up simultaneously with eviction of refugees.

Facing persistent interruptions the Minister for Education replied to criticisms raised by 14 members in the debate on the demand for grant of Rs. 13.47 crores for Education on Wednesday, the 25th February.

The main Opposition contention was that education was in a chaotic state because of the Government's failure to enunciate a comprehensive and integrated system from the primary to the University stage. This had resulted in a poor standard of education which was reflected in the West Bengal students' failure to compete in All-India Examinations.

Quoting statistics many members showed the increase in the number of pupils and teachers in schools, primary, basic and secondary, and in colleges indicating that education was expanding. Prof. Syamadas Bhattacharyya on their side, also emphasized that the Department took the highest share of the State finance because besides the Budget grants the sources were in Refugee Department and in others.

Moving the demand, the Minister Rai Harendra Nath Chaudhuri said that a scheme had been prepared to cover about three million pupils in primary schools by the end of the Second Plan period in pursuance of the Constitution's Directive Principles to make primary education free and compulsory for children up to the age of 11 years.

The Government had initiated measures to expand basic training institutions and expand training facilities for Secondary School teachers. Colleges were also being improved and developed to provide for the requirements of the three-year Degree Course. The importance of technical and social education was being increasingly emphasized and suitable schemes were being implemented for their expansion.

Participating in the debate, Dr. Prafulla Chandra Ghosh described the Government's attitude to Basic Education as "step-motherly". He asked why the Government was laying so much emphasis on building schools when qualified teachers were not available to teach science in the 11-year higher secondary courses. The syllabus on Physics and Chemistry required expert teachers and to produce them in adequate numbers would take years.

The Government had also failed to inspire research activity and to take measures to introduce Bengali as medium of instructions, emphasized Dr. Ghosh, once Education Minister of the State.

A pointed criticism came from Dr. Hirendra Nath Chatterjee, a Vice-Principal in a Calcutta Medical College, who highlighted his speech with irregularities in the Department particularly in taking lease of the office building of the State Secondary Board and many of the loopholes of the 24-Parganas District School Board.

CORPORATION NOTICES

To Contractors

Tenders are invited in triplicate for (1) & (2) & in duplicate for (3) for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, upto 12 Noon. Each tender in triplicate and duplicate as stated above must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 15/- per set for (1) & (2) respectively and Rs. 10/- per set for (3).

1. Supply and instalation of three Nos. 1.75 m.g.h. electrically driven pumping sets for the new Intake Station at Pulta. (Estimate Rs. 6,00,000/-). (Earnest money Rs. 13,600/-).

2. Supply and installation of one storm water Electric Motor Driven Pumping Plant with all accessories at Ballygunge Drainage Pumping Station. (Estimate Rs. 2,00,000/-). (Earnest money Rs. 4,543/-).

3. Supply and installation of one new steam turbine with accessories replacement of the old steam turbine of the Turbo-Pump at Pulta Pumping Station. (Estimate Rs. 2,00,000/-). (Earnest money Rs. 5,000/-).

Tenders for 1 will be received upto 26th May, for 2 upto 27th May and for 3 upto 28th May, 1959.

A. BHATTACHARJEE,
Offg. Secretary.

Central Municipal Office :
The 26th February, 1959.

To All Registered Petty Improvement Contractors

Tollygunge Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 6th March, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the above office, the Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Construction of a culvert at Dr. Deodar Rahaman Road in Const. No. 78, Tollygunge—Rs. 612/-, dated 17th February, 1959 (6 weeks).

Please note that words 'two months' as printed in italics in Clause 8 of the tender form, is to be read as '3 months' and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

N. MAJUMDAR,
District Engineer, IV.

District IV Eng'g. Office :
The 18th February, 1959.

To All Registered Petty Improvement Lighting Contractors

District No. 11.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 4th March, 1959 up to 2 p.m.

The abstract of the estimate can be seen in the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of tenders. The Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500/- shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of the intimation of the acceptance of the tender and shall have to execute an Agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security and/or to execute the Agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Installation of 17 Nos. W. T. Bkt. Lps. at Nilmadhab Sen 3rd Lane, back side of Harrison Road, etc., etc., Const. No. 41, D-II, L-122—Rs. 2,189.86, dated 10th December, 1958 (90 days).

Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the markets.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

VIEWS AND REVIEWS

CALCUTTA RE-ACTS IN BUDGET PROPOSALS

At last the anxiety of the Calcutta citizens have come down by way of relief to a certain extent with the announcement of new tax proposals on a few necessities through the Annual Budget Estimates for the coming financial year on Saturday, the 28th February last by the Union Minister for Finance. Already there had been an increased taxation and the proposals have added fresh burden. This included increased taxes on rayon yarn, vegetable products, khandsarai sugar, cigarettes and tea, many of them belong to the list of daily necessities.

Although there was no striking departure from the estimates and country's economic structure of those of the last year there was much enthusiasm in Calcutta's Stock Exchange Market even before the Budget news was received there. Share prices jumped up with hectic buying and selling transactions.

The *Statesman's* financial correspondent wrote on that day :—

The stock market's joy, which has taken some of the shares shooting up, however, not due solely to the downfall of the Kaldorian fiscal philosophy. It is due essentially to two main factors. The first, and most important, is the abolition of the Company Wealth Tax and the Excess Dividend Tax. The second and not so important, is the emphasis on indirect taxation as a source of new revenue.

The first interpretation on which the market has bounced up, argues that total yields from corporate taxation will be safeguarded by a lower tax rate of 45% being charged on company incomes which will have risen. But it is questionable whether, in the light of prevail-

ing economic conditions in the country, such a large increase in company incomes can really be expected.

Although doubts may prevail whether or not the change in corporate taxes are beneficial on the overall view, there can be little hesitation in appreciating the Finance Minister's emphasis on indirect taxes as a source of revenue. This latter is evident from the fact that the Union Finance Minister, Shri Morarje Desai, has aimed at covering one-fourth of the total deficit of Rs. 81.67 crores for 1959-60 by new taxes; stiffer excise duties contribute as much as Rs. 18.08 crores, and countervailing increases in import duties as much as Rs. 3.65 crores, of the new revenue.

But the excise duty changes mean that many industries may have to pay more for their fuel, and road transport costs will also rise. The precise impact of the tea excise and export duty changes will not be possible to judge until further details are known; but the estimated loss of revenue of Rs. 35 lakhs is too small to make much difference to the competitive strength of the industry. Learned smokers analysing the intricacies of the Central Government's latest Budget will get less consolation from the dearer cigarettes they will now be buying.

There was no appreciable re-action in the city's retail market on the day of announcement. Almost simultaneously, prices of some brands of cigarettes rose slightly. The increases varied from 6 nP. per tin of 50 to 2 nP. per packet of 10. Most brands, however, remained unaffected. The price of Vanaspati increased by 31 nP. to 37 nP. for 10 lb. tins about four days ago. On Saturday evening this increase was maintained.

The Budget proposals imposing higher excise

duties on some commodities in daily use made their full impact in city's retail market on Monday, the 2nd March. Cigarettes and Vanaspati products were more expensive, the increases being out of proportion to the revised rates of duties.

Retail dealers in cigarettes charged from 3 nP. to 6 nP. more for a packet of 10 cigarettes than on Saturday. A retailer alleged that wholesalers were charging Rs. 2.50 over the company's prices for 1,000 cigarettes. The wholesalers denied the allegation.

Vanaspati products sold at Rs. 12.56 for 5/lb. 31 nP. more than Saturday's price on Monday in a similar way. The duty has been increased by 56 nP. for 36 lb.

According to a section of the consumers as the manufacturers had not yet revised their prices, there was no justification for increased prices. And nobody knows when the manufacturers' rates would be adjusted to the increased duties.

What surprised many was the sudden fall on Monday in the price of vegetable oil in the wholesale market in the wake of the Budget proposal for an increase in duty on the commodity. A wholesaler guessed that the fall was due to the release of large stocks which had been held in anticipation of a big rise in duty.

There was no change in the wholesale or retail prices of art silk fabrics.

Thus there was little enthusiasm about the indirect tax proposals, as these would affect the common man's monthly budget. Already his miseries had been filled to the cup. The new proposals would add another feather to the cap.

DR. J. P. CHAUDHURY IS DEAD

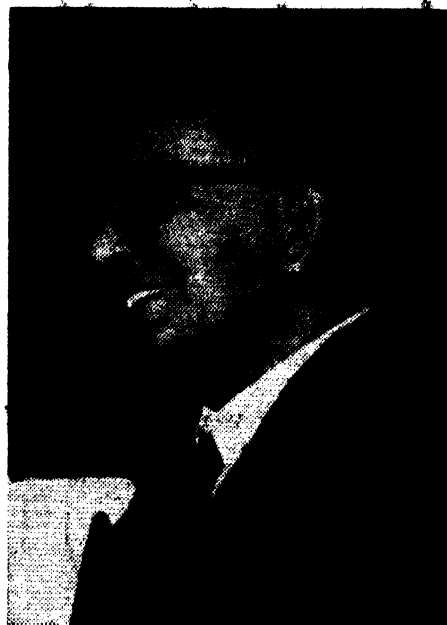

We deeply regret to announce the death of Dr. Jogi Prasad Chaudhury, M.B. (Cal.), D.P.H., R.C.P. (Lond.), R.C.S. (Eng.), D.T.M. (Liverp.), D.P.H., R.C.P. & S. (Edin.), R.F.P.S. (Glas.), F.R.I.P.H. & Hy. (Lond.), F.R.S.T.M. & H. (Lond.), etc., a former official of the Corporation, on the 21st February last. The late Dr. Chaudhury acted as Health Officer for nearly two years and retired in such capacity. He was District Health Officer for long years.

The late Dr. Chaudhury was suffering from various ailments for some time past, and the unfortunate incident took place at his residence at Dum Dum. He was about 59.

Generally not courteous to the desired extent always the late Dr. Chaudhury had a soft corner in his heart for his colleagues and his subordinates with whom he worked. He was sober and dutiful and equally efficient and bold enough to speak out his mind. After his retirement his presence was keenly felt in the office by many.

Dr. Chaudhury's death was mourned in all circles of the city. The Corporation, at its weekly meeting on the 27th February last, condoled the death. The death was referred to in the House by the Deputy Mayor, Shri Keshab Chandra Basu, who recorded the House's appreciation for the services rendered by the late Dr. Chaudhury in the Corporation both as a Health Officer as well as a District Health Officer.

Born on the 14th August, 1899, the late Dr. Chaudhury had his education in this city. He

DR. J. P. CHAUDHURY

was graduated in Medicine from the Calcutta University and later on went to England for higher studies in Medical Science and Public Health and Sanitation. He studied there in London, Liverpool, Edinburgh and in other Universities gathering degrees in those subjects.

Later on, the late Dr. Chaudhury joined the Corporation as District Health Officer. He was the Health Officer for District IV during the years 1934 and 1939 and after that District Health Officer I. He served as District Health Officer II from 1945 till 1952. During these periods he acted as Health Officer on several occasions. He was Health Officer till retirement on the 14th August, 1954 from November 1952.

We also extend our sincerest condolences to the members of the bereaved family.

STATE POULTRY FARM INAUGURATED

The State Poultry Farm was formally opened in Rani Kuthi, Tollygunge area, by the State Chief Minister, Dr. B. C. Roy on Sunday, the 1st March. Started with financial assistance from the Union, this up-to-date farm has been planned to develop into the biggest of its kind in India.

The Tollygunge farm had been established as a part of the programme for Refugee Rehabilitation and would in time be integrated with the State's general development programme. It has great potentialities to create opportunities for gainful occupation for many unemployed people.

The Chief Minister spoke of the efforts made by the West Bengal Government to increase the supply of protein food, such as fish, milk and eggs, to improve the dietary system of the people who depended too much on rice and wheat. The imbalanced nature of the diet told upon their physical and mental health, he said.

Dr. Roy further said that, besides exploiting inland resources to increase fish supplies, the Government's deep sea fishing scheme had made considerable headway and was expected to show better results.

Dr. H. K. Nandi, Director of Agriculture, said that Calcutta alone imported about Rs. 2.40 crores worth of table eggs and birds a year but the per capita consumption in West Bengal was only 13 eggs a year compared with 200 in the Netherlands.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-EIGHTH ORDINARY MEETING OF THE CORPORATION HELD ON THE 27TH FEBRUARY, 1959.

TRANSFERENCE OF BERUBARI

The question of the transference of the Berubari Union, within the district of Jalpaiguri, West Bengal, to the East Pakistan was referred to in the House by Councillor Chandra Sekhar Bhowmick at the outset. He alleged that a 'substantial portion' of the country had been promised to be ceded to a foreign Government without proper sanction from the people of the 'ceding territory'. The action of the Government of India in this matter, Councillor Bhowmick thought, was nothing but 'step-motherly treatment' in spite of the fact that the State Legislatures had placed vehement protests against this through an unanimous resolution.

Councillor Bhowmick also felt that the Corporation should voice its protest against such arbitrary action of the authorities.

TRAMWAY TRUCKS ON UPPER CIRCULAR ROAD

Rising on a matter of urgent public importance Councillor Samar Kumar Rudra pointed out that the work of raising the level of trucks undertaken by the Calcutta Tramway Company had not progressed satisfactorily. The matter had already been received the notice of the Press in the city.

The width of that part of the road starting from the Circular Road's crossing at Keshab Sen Street up to its another crossing at Vivekananda Road, is 105 ft. only and if the major portion of which is being occupied by Tramway trucks on raised level then two smaller wide carriageways on both the sides would cause frequent traffic jams and other bottlenecks. Apprehending all these Councillor Rudra alleged that the Tramway Authorities had not moved in the right direction rather it would be a constant source of inconvenience both to the travelling public as well as to the foot-strollers. In that connection he could not praise the Corporation officials if they had really approved the final specification of the work submitted earlier by the Company. He was not sure whether these officials had ignored the Corporation resolution approving the earlier specification or not.

Councillor Rudra also thought that either the Standing Works Committee or the Standing Town Planning and Improvement Committee would have been consulted to in this matter.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in chair on that day, assured the House that the matter would be looked into.

DRAINAGE DIFFICULTIES

Drawing the attention of the House to an emergent affair Councillor Rauf Ansari narrated the difficulties of the citizens passing along the

Chittaranjan Avenue, one of the wider 'boulevards' in this city due to accumulation of water during rains in many places, appeared to be of lower levels. Councillor Ansari also said that this long-standing grievances of the citizens could not be removed due to defective drainage system. Narrating these water accumulations as small lakes or pools he said that these were not happy sights for the visitors and foreign dignitaries who happened to pass through that wider path.

Councillor Ansari wanted that difficulties should be removed at an early date particularly before the advent of the rains this year which was not far ahead.

LIFE IN THIS CITY

Life has become intolerable particularly to the middle class and low income groups due to the burden of taxes and increased prices of essentials. This was pointed out by Councillor Dr. K. P. Ghosh who wanted that the Corporation should approach the Government for taking necessary steps in order that the life's journey might be smoothened by popular laws and acts within the country which had pledged to be a Welfare State.

INTERNATIONAL HAHNEMANNIAN SOCIETY OF INDIA

SILVER JUBILEE CELEBRATIONS

A two-day session of the Silver Jubilee Celebration of the International Hahnemannian Society of India was held at the Mohabodhi Society Hall, central part of the city towards the close of January.

Dr. A. B. Dutt, Chairman, Reception Committee and the President of the West Bengal Branch, All India Homoeopathic Medical Association welcomed the guests.

Dr. G. B. Patel, D. F. (London), Asst. Surgeon, Govt. Homoeopathic Sanatorium, Nawegaon, Madhya Pradesh, presided. Shri Sudhansu Kumar Bose, Editor, Hindusthan Standard, who inaugurated the function spoke on the efficacy of the Homoeopathic system of treatment and urged for immediate state recognition. Shri Panchanan Bhattacharya, M.L.A., Editor, "Loksevak", delivered his speech as the Guest-in-chief.

Dr. M. Das, Hony. Secretary read out the Report of the Society.

The Scientific-Session was held on the following day under the Chairmanship of Dr. B. K. Sarkar, M.B., D.M.S. Executive Chairman, General Council & State Faculty of Homoeopathic Medicine, West Bengal. Scientific papers prepared by Dr. Corea of Colombo, Dr. S. Seal, Calcutta, Dr. Y. Shankaram of Vishakhapatnam and Dr. S. M. Biswas of Jamshedpur were read and discussed. Shri Bagala Majumdar, Secretary, Bangiya Ayurvigyan Parishad and Dr. B. C. Ukil spoke on the occasion.

A Health Film Show was also arranged to entertain the visitors.

Epidemic Season Approaches

WITH the fast approach of the epidemic season concerns have been expressed from different quarters as how to tackle the situation if anything happens beyond the present normal control. Although the city's Health Statistics for the past few months has revealed encouraging reports about two of the epidemic diseases, cholera and small-pox, still nobody can assure the citizens that the city is quite free and the recurrent outbreak of the two would not happen in near future.

As regards small-pox the reports are really inspiring and the city is passing at present quite in a safer zone due to the measures taken by the Corporation beforehand. The epidemic control measures adopted two years back and the timely action taken this year as starting of vaccination campaign since the 1st October, 1958, it is expected that the city would pass without any anxiety this year as regards small-pox under the able guidance of the Standing Health Committee. So far 17,63,184 persons have been vaccinated since that date up to the 28th February last. The number of persons vaccinated during the years 1956-67 and 1957-58 were 25,90,099 and 21,49,924 respectively by undertaking the task on a mass scale.

Altogether 10,217 persons died from the disease during the years 1950 and 1958. According to the Health Statistics of the World Health Organization, the highest number of deaths from the disease generally occurred in this city while in western countries the diseases have completely been wiped out to-day. The disease tolled one life in the United States of America, nine in England and Wales, one in Egypt during these years while Japan and the South African countries were free from it. This year 25 persons only died from small-pox in this city so far.

The Corporation's epidemic measures as to check the spread of cholera have found to be successful to a certain extent with the help of inoculations and other measures namely increased supply of filtered water, improved conservancy services and bustee cleansing operations. According to statistical data 8,47,503 persons were inoculated during the year 1957-58 in the city against 12,91,536 persons in the year previous to that. This year so far 1,58,552 persons have been inoculated up to the end of February.

The number of deaths totalled 10,281 from cholera in this city during the last eight years from 1950 and 1958. According to World Health Statistics the disease has told a negligible number outside Calcutta during the years 1952 and 1956. The disease is still now unknown in many of the countries. Calcutta's death roll from October till February this year is comparatively less and the number has totalled 31 only.

The Epidemic Control Scheme of the Corporation, inaugurated in the year 1957, has been allowed to continue its operations for a period of further two years with effect from the 18th September 1958. In order to make an effective anti-epidemic drive the Corporation has recently approved the suggestions of the Health Officer with regard to the revision of structure of distribution of man-power under the Scheme. The Health Officer, after consultation with the Deputy Health Officer, suggested that 29 Vaccinators and Peripatetic Sub-Registrars would

remain on duty at each of the main vaccination stations while the rest numbering 310 would be distributed in a manner so that full utilization of their services might be effected in the campaign of mass-vaccination and mass-inoculation. They have been distributed as follows :—

District I—73; District II—49; District III—51; District IV—64; Cossipore—18; Manicktala—25 and Tollygunge—30.

It is expected that distribution in the above manner would be able to cover markets, places of assemblage and gateways "leading" to the city through Railway termini, bus and road routes. Particular attention has been given to the increased number of bustees and bustee population in different districts.

It is also gratifying to note that amongst this band of vaccinators there is a number of persons who have adopted this task as a mission in their lives and work till late hours at night to make the scheme successful. This was announced by a Councillor recently in a Corporation meeting.

The Government has also in their recent notification kept the order of epidemic control alive. It stated that as the city of Calcutta was still threatened with an outbreak of cholera and small-pox, the temporary regulations for the prevention and control of those two diseases promulgated in the city on the 28th November 1958 would continue to be in force for a further period of six months with effect from the date of cessation of the orders.

Though not categorically included within the fold of epidemic diseases, Tuberculosis has been assessed as the highest killer. The disease tolled 18,235 lives in this city during the years 1950 and 1958. And thus the three diseases had tolled altogether 38,733 lives during the said period. According to the World Health Organization's Statistics 84.4 persons died of the disease out of one lakh population in the city during the year 1956, while the disease made the least havoc in other western countries. In the U.S.A. the number came down to 9.1, in England and Wales 12.1, in Japan 48.7, in Egypt 27.6, in South Africa the number is 15 and among the non-Europeans of that land it was 37.6 out of one lakh population.

The only preventive measure against this deadly disease is to undertake a campaign of B.C.G. vaccination among certain age groups. The task is generally undertaken by the West Bengal Government's separate unit under the Health Directorate and a few philanthropic organizations. More than 42 lakhs of people have undergone such vaccination within the State of West Bengal till the end of 1958.

The other measures contemplated for the purpose are improved sanitation, improved dietary condition, improved standard of living and enough breathing spaces. Ignorance and poverty have always stood in the way of better standard of living in this country and unless that is being done West Bengal would ever become a victim of that disease.

In Calcutta 829 persons died of this disease during these five months and a greater havoc still awaits the fate of the citizens as the worse conditions are still developing in and around the city.

Russian Goodwill Delegation In The City

ONLY a day's visit of the city by a thirty-one member Russian Goodwill Delegation caused much enthusiasm and exuberance among the citizens of Calcutta. Led by Mr. A. A. Andreyev, a member of the Presidium of the Supreme Soviet of the U.S.S.R., the Delegation reached the Dum Dum airport from Asansol on Tuesday, the 3rd March by a special Russian plane. It included Mr. Nuritdin Akramovich Mukhitdinov, Chairman of the Foreign Affairs Committee of the Soviet Nationalities of the Supreme Soviet, Mr. M. E. Kuchava, First Deputy Chairman of the Council of Ministry and Minister of Foreign Affairs of the Georgian Republic, Mr. A. C. Sheremetiev, Member of the State Committee of the Council of Ministers, U.S.S.R. for Foreign Economic Relations and Mr. V. I. Likhachev, Chief of the South East Asia Department of the Ministry of External Affairs of U.S.S.R. and others. The delegation was also accompanied by Mr. P. K. Ponomarenko, Ambassador of the U.S.S.R. in India and Shri K. P. S. Menon, Ambassador of India in U.S.S.R.

The delegation was received at the airport by Dr. R. Ahmed, West Bengal Minister for Agriculture, Shri S. N. Ray, Chief Secretary, West Bengal, an A.D.C. to the Governor and the Consul-General for U.S.S.R. in Calcutta. As the members alighted from the plane several Russian children garlanded them.

The Goodwill Delegation left for Raipur on their way to Bhillai on Wednesday, the 4th March. They spent the night at Raj Bhavan.

The members of the Delegation had a heavy programme in this city on Wednesday. Presents were made as specimens of Indian art and crafts to the Delegation on behalf of the India-Soviet Cultural Association. They also managed to meet many of the important citizens and cultural representatives of the city in Raj Bhavan during these short hours of their stay there.

International co-operation for celebrating the forthcoming Birth Century of the world famous Poet Rabindranath Tagore was emphasized by Mr. Mukhitdinov, Chairman of the Foreign Affairs Commission. Mr. Mukhitdinov, was then addressing a group of writers and artists at Raj Bhavan. He stated that Tagore, though born in India, belonged to the "whole world of literature". Almost all the

important works of Tagore had been translated into various living languages of the world.

The Delegation visited the Bose Institute, where they were received by its Director, Dr. D. M. Bose, who outlined the various items of research work undertaken there. Addressing a gathering of research workers and staff, Mr. Andreyev, leader of the delegation, stressed the need for co-operation between scientists of Russia and those of India. Science had no frontiers, he added. The more the scientist of different nations co-operated, the better it was for humanity, he observed.

Mr. Sheremetiev, reviewed the progress made by Russia and said that it was possible due to scientific technological advances. In the Plan Programme of Russia, the scientists were closely associated, he added.

The leader of the Soviet Delegation also placed a wreath at the Samadhi of Acharya Jagadis Chandra Bose, the founder of the Institute.

Visits to the Victoria Memorial Hall and the Indian Museum rounded off the Delegation's engagements in the city. Earlier, the members visited the Indian Botanic Garden at Shibpur, on the other side of the river.

—“THEY ARE THROWN FROM HEAVEN”

Continued from Page 428(b)

been enlisted by the authorities. Private individuals have chances to get their wards admitted on usual charges and other paraphernalia.

Thus the family of idiots and imbeciles and morons grows and develops within this city precincts under some guidance and philanthropic fervour. They are unfortunate and wretched still they have a desire in their inner sense to live like others. They have been thrown from the Heaven not due to the faults of themselves, but due to some other unknown phenomenon. They might have swallowed venom leaving the nectar for others and probably this caused them to be Fallen Angels. Should we not help them to ascend to the Heaven of normalcy? Surely, they are born to make the hell a heaven for themselves.

'They Are Thrown From Heaven'

[BY STAFF REPORTER]

BECAUSE of God's blessings have not been bestowed upon them equally with others they suffer from various defects and deficiencies. And the malady of mental deficiency has so far become the top-most problem in this sphere. Deficiency of the brain as a matter of fact is not only concomitant with the deficiency in physical developments but also they may generally be given shorter lives so that their miseries might not be prolonged. Lack of proper development in tissues of the brain largely bear the witness of physical deformities in almost each and every case. And the present advancement of human knowledge in Psychology and Physiology is a bit helpful in bringing them to senses to a limited extent, if not fully. The gradation of idiotic talents according to the intelligent quotients and other factors, and long watchfulness might have a place in this philanthropic mission to raise them to the level of certain amount of self-realization but not to full normalcy.

The gradation of intelligence so far approved by the scientific world in this sphere can be divided into three categories according to analytical tests, Idiots, Imbeciles and Morons. Their intelligent quotients run in case of the first below 25, of the second between 26 and 50, and of the last between 51 and 75. The average range of a normal mental make up runs between 90 and 110 and in case of abnormals or persons having super-calibre of intelligent quotients run above 125. The tests of classification, based on experimental methods, are on the first stage the idiots who can hardly avoid the common dangers of life and thus they generally meet their end by any accident to which they are potential if not properly attended or protected from such. In case of the second stage, they can not manage their own affairs, even the work of common sanitation are being neglected by them while at the superior stage, though feeble-mindedness rules over them, still they can be adapted to routine types of work under constant habits and a bit soothing attention.

The branch of the science which provided so much, has directed its attention towards experiments and mental tests so that realities could be turned into some kind of unreality in another perspective. The Calcutta Association for Mental Health has undertaken such a task to see that observations and guidance would have an actual place to help the society in this regard. They have considerable number of mental deficient on experimental basis.

At present the work is being undertaken in a rented three-storied building known as BODHE PEET in the city under such guidance and observations. The site is on the Harinath Dey Street, the north-eastern corner of the city. It was founded in 1951. A few teachers and patrons of the Experimental Psychology Department, Calcutta University, are mainly responsible for its existence and present development. They also acknowledge their gratefulness to the late Dr. Girindra Sekhar Basu, the founder-Professor of the Department, under whose able guidance they were inspired to undertake the task. Philanthropy must have prompted them to include larger numbers within the fold on their observations. Earlier the site was a few miles away from the city and it has been shifted to the present site for the convenience of its directors five years back. Its expanding activities demand to-day a better accommodation with enough space, and free and fresh air to breathe.

A FEW INMATES OF 'BODHI PEET'

PHOTO : S. B.

In addition to proper medical care, the groups of the last two stages are to undergo the culture of routine habits from morn till night and it is pleasing to note that good results have been reaped there. Even the inmates belonging to the idiotic stage are often become victims of these routines.

The Morons are kept under observations for a few months when they can grasp three R's at the primary stage of education, can learn simple arts and crafts and even can recite poems and songs in a few cases provided proper guidance and attention are extended to them. When we visited the Bodhi Peet on the 28th February last, their music pleased our ears, a demonstration of *Bratachari* dance was equally pleasant to witness. And above all their needle work and other specimens of arts and crafts work were in no way inferior than the products of the normals. The instructors told us that the third stage group can imbibe to a further limit of fine and delicate objects of arts and crafts under able guidances.

Besides the residential section, which at present accommodates 67 inmates, both males and females, the Peet runs a clinical section for the out-door patients seeking expert help. A nominal fee is being charged for them. The Peet is also furnished with all kinds of laboratory equipment and thus provides a place to undertake research work on Experimental Psychology. The 23 females are kept aloof from others under separate guides and instructors. They are more akin to household work than their male counterparts and can manage themselves more efficiently.

The pecuniary aid to run the institution mainly comes from the Government's side in the way of Grant-in-Aids for displaced orphans and famine victims. Orphans' number comes to nearly 40 of both the sexes. The Peet also enjoys a grant for eight inmates from the Central Social Welfare Board, promised to be extended during the Second Plan Period. There are matching grants from the Union Government's fund and an *ad-hoc* grant from the Calcutta Corporation. Grants for backward students from the Ministry of Education, Government of India, have also

Poura Pratisthan Sangha Sixth Annual Sports

WITH usual eclat and merriments the Sixth Annual Sports of the Poura Pratisthan Sangha, the Corporation Sports' Club, was celebrated in the Bhowanipur Club Ground, Maidan, on the 18th February last. The first annual sports was held on the 8th March, 1952.

Sangha Flag was hoisted on the occasion by Shri P. L. Roy, an important member in the city's sporting field. This indicated the inaugural of the annual sports. Shri B. K. Sen, Commissioner and President of the Sangha, introduced the function with a neat speech wherein he welcomed the guests and invitees present. He hoped that the demonstration and display would give much interest to the city's sports' lovers.

There were altogether seventeen events, many of which generated enthusiasm and excitement. The Tug-of-War event was really interesting when the Chief Executive Officer's team won the game—defeating the Councillors' Eight. The Accounts Department had the proud privilege of winning the same event for the last four years successively. Shri Atri Chakraverty (Assessment) and Shri Swapan Kumar De (License) were declared joint winners of individual Championships. The Departmental Championship was won by the License Department.

The City Fathers also participated in two or three of the events. Councillor Sachin Sen was the winner of 75 meters flat race while Councillor H. N. Sadani was second.

At the end, Shri P. C. Mazumder, I.A.S., (Retd.) Chief Executive Officer, gave away prizes to the successful sportsmen. In his remarks he wished for the gradual progress of the Sangha. He also hoped that there would be a larger number of participants in the years to come when the Sangha would grow into its desired shape and form.

THE RESULTS ARE AS FOLLOWS :

100 Mtrs. Flat Race :—

1st. Shri Atri Chakravorty—(Assessment) ; 2nd. Shri Asis Bose—(License) and 3rd. Shri Surath Ghose (Collection).

200 Mtrs. Flat Race :—

1st. Shri Atri Chakravorty—(Assessment) ; 2nd. Shri Bansinarain Rai—(Education) and 3rd. Shri Asis Bose (License).

50 Mtrs. Three-Legged Race :—

1st. Shri Debranjjan Kundu—(D. E. III) & Ptnr.; 2nd. Shri Adhir Konar—(Health) & Ptnr. and 3rd. Shri Monoj Neogy—(Assessment) & Ptnr.

(100×4) Relay Race (Departmental) :—

Winner—License Department.

Runners up—Assessment Department.

1 Mile Cycle Race :—

1st. Shri Swapan Dey—(License) ; 2nd. Shri Rambilash Ghose—(Collection) and 3rd. Shri Ram Chandra Ram—(Accounts).

Tug of War (Departmental) :—

Winners—Accounts Department (Four times in succession).

Runners up—Collection Department.

Go As you Like :—

1st. Janab Md. Golam Kader—(Assessment) ; 2nd. Shri Taradas Mukherjee—(Tallah P. S.) and 3rd. Shri Naba K. Das—(License).

High Jump :—

1st. Shri Swapan Dey—(License) ; 2nd. Shri Atri Chakravorty—(Assessment) and 3rd. Shri Bansinarain Rai—(Education).

75 Mtrs. Flat Race (Above 40 yrs. of age) :—

1st. Shri Subodh K. Banerjee—(Election) ; 2nd. Shri Mantu Banerjee—(Secretary) and 3rd. Shri Utpal Sen—(Assessment).

800 Mtrs. Walking Race :—

1st. Shri Swapan Dey—(License) ; 2nd. Shri Adhir Konar—(Health) and 3rd. Shri Monoj Kumar Das (Collection).

75 Mtrs. Sack Race :—

1st. Shri Ajit K. Bhar—(Accounts) ; 2nd. Shri Asis Bose—(License) and 3rd. Shri Satyabrata Chaudhury—(Assessment).

100 Mtrs. Flat Race (For Inferior Staff) :—

1st. Shri Niranjana Chanda—(Education) ; 2nd. Janab Md. Idris—(Assessment) and 3rd. Shri Amar Mukherjee—(Food Supply).

Throwing of Cricket Ball :—

1st. Shri Parbati Mukherjee—(Assessment) ; 2nd. Shri Swapan Dey—(License) and 3rd. Shri Sreedam Paik—(License).

50 Mtrs. Flat Race (For employees' sons below 10 years) :—

1st. Shri Subrata Saha, 2nd. Shri Tapan Bhattacharjee and 3rd. Shri Sidharta Banerjee.

75 Mtrs. Flat Race (Ladies) :—

1st. Sm. Rama Mullick—(Health) ; 2nd. Sm. Priti Some—(Education) and 3rd. Sm. Bithi Roy—(Education).

50 Mtrs. Balance Race (Ladies) :—

1st. Sm. Birada Bala Pandit—(Education) ; 2nd. Sm. Pramila Bhadury—(Health) and 3rd. Sm. Rani Baidya—(Education).

Musical Chair (Ladies) :—

1st. Sm. Kamala Banerjee—(Education) ; 2nd. Sm. Balsakhi Ghose—(Education) and 3rd. Sm. Puspita Bhattacharya—(Education).

NEW CHIEF PRESIDENCY MAGISTRATE

Shri Bijoyesh Mukherjee, the newly-appointed Chief Presidency Magistrate, Calcutta, took charge of his office from the retiring Magistrate, Shri D. N. Das Gupta, on Saturday, the 28th February last.

WHITHER SPORTS

[SHRI KANAI ROY, B.A., Collection Department]

THE Sixth Annual Athletic Sports of PAURA PRATISTHAN SANGHA were held in the Bhowanipore grounds on the 18th February last. In this connection certain things have popped up year to year, and particularly in this year, which pains me very much, if one has even witnessed in decent competitive sports any time during his life time. The very basic idea of a healthy sports is discipline of body and mind, and this is supreme in those participating in it. Winning or losing is secondary. It has become a vogue here to show disrespect to any discipline. In an office sports where it is expected more to be disciplined as the persons involved in it are adults, but the funny thing was to see many adults behaving like street urchins, to be frank. The salient features that were very frequent in this year's sports and which marred the effects of a good sports were :—

(1) The supporters of different Departments invaded the field disregarding all authority, and

(2) Assuming that in certain cases judgment accorded was not fair, though this year's judges excluding the chief judge (who is an ex-olympian) were outsiders, at one time or another they were big names in the field of sports. The unruly behaviour of the spectators in arguing with the judges, hardly leaves anybody with sense to a limit of senseless orgy. It must clearly be understood where human factors are concerned, mistakes may occur, but still anybody who calls himself a sportsman or thinks he likes sports, it is unthinkable for him that in a sports field the judges will be surrounded by supporters or unsavoury remarks are thrown at them.

In conclusion, I must say that in my time I was actively connected with all branches of competitive sports and if it taught me anything, it taught adherence to discipline. Right or wrong judges' decision must be taken as final. Also it is a very tough job for the organiser even to organise a sports, so let us not make it tougher for them by creating problems.

This year the Joint Secretaries, Shri Rachin Ghosh and Shri Bimal Ghosh showed much improvement in selection of prizes which have qualitatively vastly improved. So had we given them a hand, it might have been better still.

CITY MUSLIMS CELEBRATE SABE-BARAT

An important festival, Sabe-Barat was celebrated by the Muslims in the city on Monday, the 23rd February. The celebrations were restricted to that community only. They burnt candles, made fire works and gave feasts to their friends and relations. This festival marked the beginning of a month-long fasting during Ramzan. Fifty persons were arrested in different parts of the city on that day on a charge of display of fireworks on the thoroughfares. A fire broke out in a ganjaal erected in connection with a ceremony in a house in Timber Street, Park Circus area. The fire was caused by fireworks.

CITY NEWS PARADE

OBITUARY: Death of Shri Sarojendra Nath Bhowe, occurred on the 22nd February last at his city residence, central part of the city. Belonged to the well-known Bhowes of Pataldanga the late Shri Bhowe was educated at first in the Hare School and later on in the Presidency College, Calcutta. He happened to be a class-mate of the Union President, Dr. Rajendra Prasad, Closely associated with numerous educational, social and charitable institutions in the city the late Shri Bhowe earned a name for his philanthropic activities. Besides, he was a member of the Managing Committees of the R. G. Kar Medical College, Calcutta Blind School and Deaf and Dumb School. Apart from this he made large private charities.

The weekly Corporation meeting on Friday, the 27th February last, condoled his death. The Deputy Mayor, Shri K. C. Basu, who presided remarked that in his death the city had lost a prominent social figure and a worthy citizen.

CONTINUING ITS SESSION THE WEST BENGAL LEGISLATIVE ASSEMBLY passed a number of grants within recent days. Demands on Public Health, Police, Central Administration and Labour were highlighted in those discussions holding up to Tuesday, the 3rd March. Another important issue discussed was demand for Local Self-Government Department.

Moving demands on grants for Medical Rs. 5.84 crores and Public Health Rs. 2.67 crores, the Minister-in-charge, Dr. Anath Bandhu Ray, said on Thursday, the 26th February last, that although the Budget grants were made under two different heads, the curative and preventive sides of the medical and public health services had been co-ordinated into a comprehensive plan.

Drugs were still being supplied free to poor TB patients from outdoor departments of Government Hospitals and Health Centres. Two mass miniature mobile X-ray units for detection of TB cases on a wider scale would be started soon. A demonstration centre would likely to be opened in the Medical College Hospital, Calcutta, early next year, he added.

The Minister further stated that the introduction of contributory system of medical practitioners was under the consideration of the Government. The scheme might be put into practice in future.

Shri Siddhartha Sankar Ray blamed the Directorate of Health Services for appointing a large number of superannuated officers whose salaries had formed 5.6 p.c. of the total Medical Budget. For positive health services the Government could spare only 3.3 p.c. The representative of the southern part of the city alleged that there was corruption at the Directorate's Central Store on Lower Circular Road, eastern part of the city.

Moving demands for Irrigation Department, the Minister, Shri Ajoy Mukherjee, said that allotment had been made in the Budget for the reclamation of the North Salt Lake areas comprising 18 sq. miles adjoining Calcutta. Global tenders had been invited for the scheme which would cost about Rs. 17.50 crores.

Referring to reclamation of land, Shri Mukherjee said that since Independence up to year 1959-60 expenditure on this account would be Rs. 4.70 crores. Several such major schemes had been or were being carried out. Two outfall channels for Calcutta would be made at a cost of Rs. 1.08 crores. This would benefit not only Calcutta but a large rural area also. The Govern-

ment also to implement the Scheme, the Minister added on next day.

Moving the demand for State Transport, Dr. B. C. Roy said that the Government had been pursuing its objective to provide employment to unemployed youths and to increase passenger amenities. The organization was in a very stabilized condition. It had a workshop which built bodies for buses, reconditioned and retreated tyres and tubes. Its own press printed tickets. It had provided training facilities for drivers and supervisory staff. Up to March this year, there would be 583 buses in the State Transport fleet. The number would go up to 650 during the year, added the Minister-in-charge of Transport on the 27th February last.

Explaining in detail the facilities provided for passengers, Dr. Roy said that if the Government introduced more buses during peak periods, which lasted not more than four hours during the day, the vehicles would remain almost idle during the rest of the day. Moreover, the question was whether Calcutta roads could take in more buses during the peak periods or not. The Government was considering these points so that it could give some relief to passengers.

The problems of transport were debated long and in his reply Dr. Roy said that State Transport had Rs. 1.8 crores in its Depreciation Fund. This amount to be merged into the Consolidated Fund under instructions from the Accountant-General. But he was trying to improve on the Accountant-General that this money should be left to the State Transport for better service and amenities.

The Chief Minister further said that the Government of India had written to the State Government either to bring the State Transport Organization in conformity with the provision of the Central Transport Act or make it a separate Company. He suggested that the question of fare increase would be dealt with by the new set up though not immediately.

Dr. Narayan Ray, a representative of this city, cited some cases to show that the Government was discriminating when giving relief to those who died while on duty.

According to Shri Sunil Das, who hailed from the southern part of the city, the quantity of petrol and diesel oil consumed by State buses indicated that either the dead mileage was very high or there had been fictitious entries in the log book. He pleaded that the authority running the State Transport should be independent of any control.

Shri Hemanta Kumar Basu complained that there was a large number of *budhi* workers in the Howrah Depot and that many State Transport workers had to put in more than ten hours' labour which was telling on their health.

Shri Niranjan Sen wanted to know what the Government proposed to do about the traffic congestion in the Sealdah Station area.

On Monday, the 2nd March, Dr. Roy moved the Government's demand for Rs. 4.80 crores for 'Loans and Advances by the State Government', Shri I. D. Jalan, Minister for Local Self-Government, moved the demand for Rs. 1.60 crores for "Miscellaneous contributions." Both demands were passed.

The Government's grants to Municipalities totalled Rs. 89.75 lakhs and loans Rs. 30.43 lakhs. Grants to Calcutta Corporation during 1958-59-60 amounted to Rs. 92.41 lakhs and loans to Rs. 70.14 lakhs.

Regarding the low-income-group housing schemes, Dr. Roy said that already over 3,400 houses had either been completed or were about to be finished. The Union Government at the request of the State Government, was then considering a proposal to give house-building loans to people whose annual income varied from Rs. 6,000/- to Rs. 12,000. This would largely solve the housing problem for the middle class.

Speaking on the out motions Shri Jalan's demand for "Miscellaneous Contributions", Opposition members criticized the Government's "step-motherly" attitude towards Local Bodies. The municipalities, they said, were not in a position to provide any appreciable civic amenities without adequate financial help from the State. But the Government seemed to be interested only in the supersession of these Local Bodies which were dominated by leftists.

Replying to the debate Shri Jalan asked members to remember the basic policy adopted by the Central Government in respect of Local Bodies. Under this policy if any urban area wanted to adopt any scheme the Central Government could only help it by advancing loans.

The Minister admitted, great injustices were being done to the urban areas. He gave instances of the total amount sanctioned by the Government of India for water supply as well as for road construction. These amounts, said he, were too inadequate to meet the demand. Moreover there was no provision made for undertaking any drainage scheme. He also explained that under the new law such tax as that of Motor Vehicles Tax went to the coffer of the State.

The Minister assured the House that the Government were seriously considering the question of the low-paid employees of Municipalities and had already asked the latter to let the Government know the estimate and to consider all aspects of the question. They were anxious that something should be done for improving the lot of these employees.

The Minister maintained that a Municipality was superseded only when it failed to discharge its obligations and said that whenever an officer was appointed it was found that the financial position of the particular Municipality improved.

Shri Jalan also said that the question of introducing adult franchise in Calcutta Corporation elections "is under consideration of the Government". But he did not believe that adult franchise would in itself bring the desired improvement in Corporation affairs.

Shri Jyoti Basu criticized the Government for its failure to introduce adult franchise in Calcutta Corporation elections, while all other States had introduced it in all their municipal elections several years ago.

Shri Basu regretted that this was not effected even when an unanimous resolution was adopted by such a body as the Corporation. The reason behind it might be the lurking fear that the Municipal Bodies might no longer be under the control of the ruling party. But he wondered how long this artificial blockade could be tolerated.

Municipalities should be given a share of Entertainment Tax, Motor Vehicle Tax and other such taxes, he argued.

The second point emphasized by Shri Basu was the question of implementation of the recommendations for the higher pay of the low-paid municipal employees. It was found out that a total sum of Rs. 48 lakhs of rupees would be required for the purpose, he emphasized.

Shri Gopal Bose complained that though Khardah Municipality had sought the Government's permission to run two primary schools about three years ago it had not got the same yet.

Dr. Pabitra Roy asked why the State Government had not taken steps to curtail the expenditure incurred by Calcutta Corporation in maintaining two high-salaried posts of the Commissioner and the Chief Executive Officer.

He particularly drew the attention of the Government to the question of leasing out Dhapa to private parties. The speaker also pleaded for converting such areas as of Habra, Saithia and New Barrackpore Colony into municipal areas after inspection and examination by the Minister himself.

Shri Bhabin Mishra suggested that the Calcutta Improvement Trust should not sell plots of lands to the

highest bidder. The Trust should work out the cost of improving a plot and then sell it on receipt of application to persons on grounds of merit. Citing an instance wherein Prof. Satyen Bose failed to secure a plot of land on which he could build his Vigyan Mandir. If the Trust followed such a policy, said Shri Mukherjee, the result would be that all Calcutta land would pass on to the people who had become rich.

Describing the plight of the Municipalities in West Bengal, Councillor Dharendra Nath Dhar said that the average total income of these institutions within the State excluding the Howrah Municipality had been estimated at about Rs. 2.20 crores. Out of which nearly Rs. 1.70 crores went to the Establishment Charges that is 77 per cent. of the total income. Conservancy equipment and Public Health went to Rs. 15 lakhs and Rs. 18 lakhs respectively. The Primary Education got only Rs. 4.70 lakhs, leaving very little for the public utility services. An important member of the West Bengal Municipal Association thought that the Public Health and Education expenditures should be borne either by the Union or the State Governments or jointly by them according to the Directive Principles of the Constitution. Immediate implementation of minimum wages to the employees at larger Government subvention was demanded by him.

Councillor Dhar also felt that there would be too much strain on the Corporation finances if larger funds were allocated for the development of the newly added Tollygunge where anti-social elements making their harvests through land speculation activities. According to him the present rating system in the Corporation was a peculiar feature of the Calcutta Municipal Act, 1951. It had burdened the taxation of the middle class rate-payers creating confusion and complications in the administration. He favoured the idea for an amendment of the Act to that effect.

Severe criticisms were made on Tuesday, the 4th March against corrupt practices of some of the police officials of the State when the demand for the Department presented for vote before the House by its Minister, Shri Kalpada Mukherjee.

Moving the demand, Shri Mukherjee said that although expenditure on the police had progressively increased during the last four years, the proportionate rise was less than the increase in expenditures which the State incurred on education and health. Revision of pay scales and Dearness Allowance of the force had contributed to the increase. The percentage of expenditure under the head to the total revenue expenditure had declined during the last six years.

The Minister, replying to the debate, said that the police had the heavy responsibility of maintaining law and order and keeping the situation in the country congenial for developmental work, particularly under the Plans. There might be weaknesses in the force. But these largely reflected the present shortcomings of society in general. He assured members that he would look into every allegation and if necessary severely punish those found guilty. Quoting figures the Minister also asserted that the crime position in the State had improved during the last few years.

Shri Naren Sen, a representative of the city mainly from labour area, suggested that when there was talk of reorganization of the force, investigations should be made against charges of corruption and steps be taken to prevent their recurrence. He pleaded for special staff for the Anti-Corruption and Enforcement Branch Police.

Shri Somnath Lahiri, another representative, said that according to Shri A. D. Gervala, an officer getting a salary of Rs. 1,000 a month could not afford a motor car. But he had seen many police officers owning big houses and

cars in Calcutta. He then gave a long list of names of senior police officers, some of whom, had been promoted from sub-inspectors were alleged to be found guilty for similar offences.

Shri Lahiri's list also included a Commissioner of Police on leave. He wondered how an Inspector of the Enforcement Branch could possess a car or a temporary Sub-Inspector of the same department maintain a flat in Karnani Mansions, where the rent was very high. He urged that an open inquiry should be made in all these cases.

A CONFERENCE FOR DEVELOPMENT OF URDU was inaugurated at the Park Circus Maidan, under the auspices of the Anjuman Taraqqi Urdu/Hind Association for the development of Urdu in India on Saturday, the 28th February last. Dr. B. C. Roy, the State Chief Minister, said that the Allahabad resolution of the Central Advisory Board of Education was being strictly followed in this regard. Urdu's place as a regional language in West Bengal had been accepted. Dr. Roy, said this while inaugurating the Conference.

Dr. Roy added that like other States, West Bengal had also in view the necessity of having Hindi as the official language in course of 10 or 15 years.

Pandit Sunderlal, who presided, defended the claim of Urdu as a national language. He said: "Urdu is the strongest link that can hold India's unity together."

A TWO-DAY CONFERENCE OF WEST BENGAL CHATRA PARISHAD, holding its session at Raja Subodh Mullick Square, towards the last week-end, was attended to by delegates from many districts within the State.

Speakers at the Conference expressed concern at the way in which students spent energy in agitation and called upon them to devote themselves in study and constructive work.

Shri Sankardas Banerjee, Speaker, West Bengal Legislative Assembly, said that youth in the State seemed to be in a condition of decay. "Where are they in the Navy and Air Force or in commanding positions in civilian life", he asked.

Dr. Suniti Kumar Chatterjee, Chairman, West Bengal Council, said that students should try to imbibe the spirit of tolerance and unity, which was India's precious heritage. They should realize that discord and strife never helped a nation to grow and gain self-confidence.

Rai Harendra Nath Chaudhuri said that self-control and learning were two things which were essential for the building up of the students' life. The Education Minister also advised them to devote themselves wholeheartedly to the welfare of the society through constructive work.

Wishing the Conference success, Shrimati Indira Gandhi said in a message that people in India were passing through a period of transition and the struggle to create a solid foundation for democracy.

A FIRE: A fire broke out in a cloth shop in Hatibagan Bazar, northern part of the city on Thursday the 26th February last. Smoke coming out of the closed room attracted the attention of passersby first. The fire was brought under control in about an hour.

BANGA BHASA PRASAR SAMITY

About 40 students sat for examination in Bengali, preliminary stage, held under the auspices of the Nikhil Bharat Banga Bhasa Prasara Samity in the David Hare Training College on the 22nd February. The examinees included many of the ladies and

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 16th March, 1959 upto 2 p.m.:-

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

25. Repairs to stone setts pavement at Satkari Mitra Lane (portion) near premises No. 33-1 to 248, Bagmati Road, Ward No. 15-Rs. 4,348/-, dated 24th February, 1959 (1½ months).

26. Repairs to narrow lane leading premises No. 64, Ultadanga Main Road, Ward No. 15-Rs. 1,062/-, dated 24th February, 1959 (20 days).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be scored and noted in ink as "three months" and initialled.

S. K. MUKHERJEE,
District Engineer II.

District II Eng'g. Office :
The 2nd March, 1959.

District No. III Engineering Department.

Tenders for the following works are invited from the authorised contractors who hold Plumbing License and will be received by the Chief Engineer in a sealed cover superscribed "Tender for....." on 11th March, 1959 upto 2 p.m.:-

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within 1 week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Chief Executive Officer be forfeited. Agreement and Security Deposit are not necessary for works valued below Rs. 2,500/-.

250. Effecting F. W. and U. F. W. connection in the labour quarter at the abandoned Refuse Platform at Karaya -Rs. 1,243/-, dated 3rd March, 1959 (1 month).

251. Water arrangement in Maternity Home Block at 59, Christopher Road-Rs. 3,999/-, dated 3rd March, 1959 (2 months).

252. Effecting F. W. and U. F. W. connection at Corporation Primary School at Plot No. 65 to 69 C. I. T. Scheme-Rs. 1,565/-, dated 3rd March, 1959 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of work valued above Rs. 1,000/- only.

A. C. SINHA,
District Engineer III.

District III Eng'g. Office :
The 3rd March, 1959.

To All Registered Petty Improvement Lighting Contractors

DISTRICT No. II

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 12th March, 1959 upto 2 p.m.:-

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of the tender. Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500 shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. CALCUTTA RE-ACTS IN BUDGET PROPOSALS

At last the anxiety of the Calcutta citizens have come down by way of relief to a certain extent with the announcement of new tax proposals on a few necessities through the Annual Budget Estimates for the coming financial year on Saturday, the 28th February last by the Union Minister for Finance. Already there had been an increased taxation and the proposals have added fresh burden. This included increased taxes on rayon yarn, vegetable products, khandsarai sugar, cigarettes and tea, many of them belong to the list of daily necessities.

Although there was no striking departure from the estimates and country's economic structure of those of the last year there was much enthusiasm in Calcutta's Stock Exchange Market even before the Budget news was received there. Share prices jumped up with hectic buying and selling transactions.

The *Statesman's* financial correspondent wrote on that day :—

The stock market's joy, which has taken some of the shares shooting up, however, not due solely to the downfall of the Kaldorian fiscal philosophy. It is due essentially to two main factors. The first, and most important, is the abolition of the Company Wealth Tax and the Excess Dividend Tax. The second and not so important, is the emphasis on indirect taxation as a source of new revenue.

The first interpretation on which the market has bounced up, argues that total yields from corporate taxation will be safeguarded by a lower tax rate of 45% being charged on company incomes which will have risen. But it is questionable whether, in the light of prevail-

ing economic conditions in the country, such a large increase in company incomes can really be expected.

Although doubts may prevail whether or not the change in corporate taxes are beneficial on the overall view, there can be little hesitation in appreciating the Finance Minister's emphasis on indirect taxes as a source of revenue. This latter is evident from the fact that the Union Finance Minister, Shri Morarje Desai, has aimed at covering one-fourth of the total deficit of Rs. 81.67 crores for 1959-60 by new taxes; stiffer excise duties contribute as much as Rs. 18.08 crores, and countervailing increases in import duties as much as Rs. 3.65 crores, of the new revenue.

But the excise duty changes mean that many industries may have to pay more for their fuel, and road transport costs will also rise. The precise impact of the tea excise and export duty changes will not be possible to judge until further details are known; but the estimated loss of revenue of Rs. 35 lakhs is too small to make much difference to the competitive strength of the industry. Learned smokers analysing the intricacies of the Central Government's latest Budget will get less consolation from the dearer cigarettes they will now be buying.

There was no appreciable re-action in the city's retail market on the day of announcement. Almost simultaneously, prices of some brands of cigarettes rose slightly. The increases varied from 6 nP. per tin of 50 to 2 nP. per packet of 10. Most brands, however, remained unaffected. The price of Vanaspati increased by 31 nP. to 37 nP. for 10 lb. tins about four days ago. On Saturday evening this increase was maintained.

The Budget proposals imposing higher excise

duties on some commodities in daily use made their full impact in city's retail market on Monday, the 2nd March. Cigarettes and Vanaspati products were more expensive, the increases being out of proportion to the revised rates of duties.

Retail dealers in cigarettes charged from 3 nP. to 6 nP. more for a packet of 10 cigarettes than on Saturday. A retailer alleged that wholesalers were charging Rs. 2.50 over the company's prices for 1,000 cigarettes. The wholesalers denied the allegation.

Vanaspati products sold at Rs. 12.56 for 5 lb. 31 nP. more than Saturday's price on Monday in a similar way. The duty has been increased by 56 nP. for 36 lb.

According to a section of the consumers as the manufacturers had not yet revised their prices, there was no justification for increased prices. And nobody knows when the manufacturers' rates would be adjusted to the increased duties.

What surprised many was the sudden fall on Monday in the price of vegetable oil in the wholesale market in the wake of the Budget proposal for an increase in duty on the commodity. A wholesaler guessed that the fall was due to the release of large stocks which had been held in anticipation of a big rise in duty.

There was no change in the wholesale or retail prices of art silk fabrics.

Thus there was little enthusiasm about the indirect tax proposals, as these would affect the common man's monthly budget. Already his miseries had been filled to the cup. The new proposals would add another feather to the cap.

DR. J. P. CHAUDHURY IS DEAD

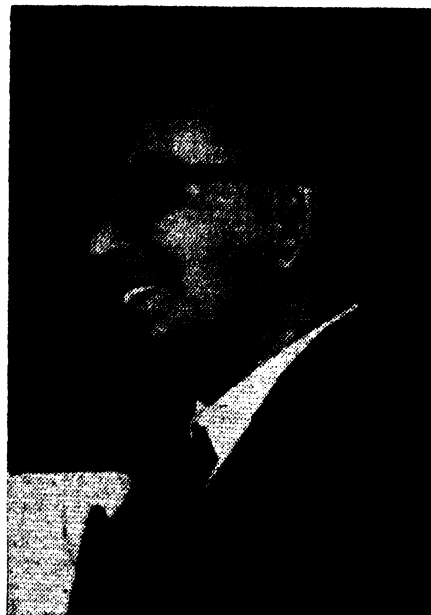

We deeply regret to announce the death of Dr. Jogi Prasad Chaudhury, M.B. (Cal.), D.P.H., R.C.P. (Lond.), R.C.S. (Eng.), D.T.M. (Liverp.), D.P.H., R.C.P. & S. (Edin.), R.F.P.S. (Glas.), F.R.I.P.H. & Hy. (Lond.), F.R.S.T.M. & H. (Lond.), etc., a former official of the Corporation, on the 21st February last. The late Dr. Chaudhury acted as Health Officer for nearly two years and retired in such capacity. He was District Health Officer for long years.

The late Dr. Chaudhury was suffering from various ailments for some time past, and the unfortunate incident took place at his residence at Dum Dum. He was about 59.

Generally not courteous to the desired extent always the late Dr. Chaudhury had a soft corner in his heart for his colleagues and his subordinates with whom he worked. He was sobre and dutiful and equally efficient and bold enough to speak out his mind. After his retirement his presence was keenly felt in the office by many.

Dr. Chaudhury's death was mourned in all circles of the city. The Corporation, at its weekly meeting on the 27th February last, condoled the death. The death was referred to in the House by the Deputy Mayor, Shri Keshab Chandra Basu, who recorded the House's appreciation for the services rendered by the late Dr. Chaudhury in the Corporation both as a Health Officer as well as a District Health Officer.

Born on the 14th August, 1899, the late Dr. Chaudhury had his education in this city. He

DR. J. P. CHAUDHURY

was graduated in Medicine from the Calcutta University and later on went to England for higher studies in Medical Science and Public Health and Sanitation. He studied there in London, Liverpool, Edinburgh and in other Universities gathering degrees in those subjects.

Later on, the late Dr. Chaudhury joined the Corporation as District Health Officer. He was the Health Officer for District IV during the years 1934 and 1939 and after that District Health Officer I. He served as District Health Officer II from 1945 till 1952. During these periods he acted as Health Officer on several occasions. He was Health Officer till retirement on the 14th August, 1954 from November 1952.

We also extend our sincerest condolences to the members of the bereaved family.

STATE POULTRY FARM INAUGURATED

The State Poultry Farm was formally opened in Rani Kuthi, Tollygunge area, by the State Chief Minister, Dr. B. C. Roy on Sunday, the 1st March. Started with financial assistance from the Union, this up-to-date farm has been planned to develop into the biggest of its kind in India.

The Tollygunge farm had been established as a part of the programme for Refugee Rehabilitation and would in time be integrated with the State's general development programme. It has great potentialities to create opportunities for gainful occupation for many unemployed people.

The Chief Minister spoke of the efforts made by the West Bengal Government to increase the supply of protein food, such as fish, milk and eggs, to improve the dietary system of the people who depended too much on rice and wheat. The imbalanced nature of the diet told upon their physical and mental health, he said.

Dr. Roy further said that, besides exploiting inland resources to increase fish supplies, the Government's deep sea fishing scheme had made considerable headway and was expected to show better results.

Dr. H. K. Nandi, Director of Agriculture, said that Calcutta alone imported about Rs. 2.40 crores worth of table eggs and birds a year but the per capita consumption in West Bengal was only 13 eggs a year compared with 260 in the Netherlands.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-EIGHTH ORDINARY MEETING OF THE CORPORATION HELD ON THE 27TH FEBRUARY, 1959.

TRANSCERENCE OF BERUBARI

The question of the transference of the Berubari Union, within the district of Jalpaiguri, West Bengal, to the East Pakistan was referred to in the House by Councillor Chandra Sekhar Bhowmick at the outset. He alleged that a 'substantial portion' of the country had been promised to be ceded to a foreign Government without proper sanction from the people of the 'ceding territory'. The action of the Government of India in this matter, Councillor Bhowmick thought, was nothing but 'step-motherly treatment' in spite of the fact that the State Legislatures had placed vehement protests against this through an unanimous resolution.

Councillor Bhowmick also felt that the Corporation should voice its protest against such arbitrary action of the authorities.

TRAMWAY TRUCKS ON UPPER CIRCULAR ROAD

Rising on a matter of urgent public importance Councillor Samar Kumar Rudra pointed out that the work of raising the level of trucks undertaken by the Calcutta Tramway Company had not progressed satisfactorily. The matter had already been received the notice of the Press in the city.

The width of that part of the road starting from the Circular Road's crossing at Keshab Sen Street up to its another crossing at Vivekananda Road, is 105 ft. only and if the major portion of which is being occupied by Tramway trucks on raised level then two smaller wide carriageways on both the sides would cause frequent traffic jams and other bottlenecks. Apprehending all these Councillor Rudra alleged that the Tramway Authorities had not moved in the right direction rather it would be a constant source of inconvenience both to the travelling public as well as to the foot-strollers. In that connection he could not praise the Corporation officials if they had really approved the final specification of the work submitted earlier by the Company. He was not sure whether these officials had ignored the Corporation resolution approving the earlier specification or not.

Councillor Rudra also thought that either the Standing Works Committee or the Standing Town Planning and Improvement Committee would have been consulted to in this matter.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in chair on that day, assured the House that the matter would be looked into.

DRAINAGE DIFFICULTIES

Drawing the attention of the House to an emergent affair Councillor Rauf Ansari narrated the difficulties of the citizens passing along the

Chittaranjan Avenue, one of the wider 'boulevards' in this city due to accumulation of water during rains in many places, appeared to be of lower levels. Councillor Ansari also said that this long-standing grievances of the citizens could not be removed due to defective drainage system. Narrating these water accumulations as small lakes or pools he said that these were not happy sights for the visitors and foreign dignitaries who happened to pass through that wider path.

Councillor Ansari wanted that difficulties should be removed at an early date particularly before the advent of the rains this year which was not far ahead.

LIFE IN THIS CITY

Life has become intolerable particularly to the middle class and low income groups due to the burden of taxes and increased prices of essentials. This was pointed out by Councillor Dr. K. P. Ghosh who wanted that the Corporation should approach the Government for taking necessary steps in order that the life's journey might be smoothened by popular laws and acts within the country which had pledged to be a Welfare State.

INTERNATIONAL HAHNEMANNIAN SOCIETY OF INDIA

SILVER JUBILEE CELEBRATIONS

A two-day session of the Silver Jubilee Celebration of the International Hahnemannian Society of India was held at the Mohabodhi Society Hall, central part of the city towards the close of January.

Dr. A. B. Dutt, Chairman, Reception Committee and the President of the West Bengal Branch, All India Homoeopathic Medical Association welcomed the guests.

Dr. G. B. Patel, D. F. (London), Asst. Surgeon, Govt. Homoeopathic Sanatorium, Nawegaon, Madhya Pradesh, presided. Shri Sudhansu Kumar Bose, Editor, Hindusthan Standard, who inaugurated the function spoke on the efficacy of the Homoeopathic system of treatment and urged for immediate state recognition. Shri Panchanan Bhattacharya, M.L.A., Editor, "Loksevak", delivered his speech as the Guest-in-chief.

Dr. M. Das, Hony. Secretary read out the Report of the Society.

The Scientific-Session was held on the following day under the Chairmanship of Dr. B. K. Sarkar, M.B., D.M.S. Executive Chairman, General Council & State Faculty of Homoeopathic Medicine, West Bengal. Scientific papers prepared by Dr. Corea of Colombo, Dr. S. Seal, Calcutta, Dr. Y. Shankaram of Vishakhapatnam and Dr. S. M. Biswas of Jamshedpur were read and discussed. Shri Bagula Majumdar, Secretary, Bangiya Ayurvedigyan Parishad and Dr. B. C. Ukil spoke on the occasion.

A Health Film Show was also arranged to entertain the visitors.

Epidemic Season Approaches

WITH the fast approach of the epidemic season concerns have been expressed from different quarters as how to tackle the situation if anything happens beyond the present normal control. Although the city's Health Statistics for the past few months has revealed encouraging reports about two of the epidemic diseases, cholera and small-pox, still nobody can assure the citizens that the city is quite free and the recurrent outbreak of the two would not happen in near future.

As regards small-pox the reports are really inspiring and the city is passing at present quite in a safer zone due to the measures taken by the Corporation beforehand. The epidemic control measures adopted two years back and the timely action taken this year as starting of vaccination campaign since the 1st October, 1958, it is expected that the city would pass without any anxiety this year as regards small-pox under the able guidance of the Standing Health Committee. So far 17,63,184 persons have been vaccinated since that date up to the 28th February last. The number of persons vaccinated during the years 1956-67 and 1957-58 were 25,90,099 and 21,49,924 respectively by undertaking the task on a mass scale.

Altogether 10,217 persons died from the disease during the years 1950 and 1958. According to the Health Statistics of the World Health Organization, the highest number of deaths from the disease generally occurred in this city while in western countries the diseases have completely been wiped out to-day. The disease tolled one life in the United States of America, nine in England and Wales, one in Egypt during these years while Japan and the South African countries were free from it. This year 25 persons only died from small-pox in this city so far.

The Corporation's epidemic measures as to check the spread of cholera have found to be successful to a certain extent with the help of inoculations and other measures namely increased supply of filtered water, improved conservancy services and bustee cleansing operations. According to statistical data 8,47,503 persons were inoculated during the year 1957-58 in the city against 12,91,536 persons in the year previous to that. This year so far 1,58,552 persons have been inoculated up to the end of February.

The number of deaths totalled 10,281 from cholera in this city during the last eight years from 1950 and 1958. According to World Health Statistics the disease has told a negligible number outside Calcutta during the years 1952 and 1956. The disease is still now unknown in many of the countries. Calcutta's death roll from October till February this year is comparatively less and the number has totalled 31 only.

The Epidemic Control Scheme of the Corporation, inaugurated in the year 1957, has been allowed to continue its operations for a period of further two years with effect from the 18th September 1958. In order to make an effective anti-epidemic drive the Corporation has recently approved the suggestions of the Health Officer with regard to the revision of structure of distribution of man-power under the Scheme. The Health Officer, after consultation with the Deputy Health Officer, suggested that 29 Vaccinators and Peripatetic Sub-Registrars would

remain on duty at each of the main vaccination stations while the rest numbering 310 would be distributed in a manner so that full utilization of their services might be effected in the campaign of mass-vaccination and mass-inoculation. They have been distributed as follows :—

District I—73; District II—49; District III—51; District IV—64; Cossipore—18; Manicktala—25 and Tollygunge—30.

It is expected that distribution in the above manner would be able to cover markets, places of assemblage and gateways "leading" to the city through Railway termini, bus and road routes. Particular attention has been given to the increased number of bustees and bustee population in different districts.

It is also gratifying to note that amongst this band of vaccinators there is a number of persons who have adopted this task as a mission in their lives and work till late hours at night to make the scheme successful. This was announced by a Councillor recently in a Corporation meeting.

The Government has also in their recent notification kept the order of epidemic control alive. It stated that as the city of Calcutta was still threatened with an outbreak of cholera and small-pox, the temporary regulations for the prevention and control of those two diseases promulgated in the city on the 28th November 1958 would continue to be in force for a further period of six months with effect from the date of cessation of the orders.

Though not categorically included within the fold of epidemic diseases, Tuberculosis has been assessed as the highest killer. The disease tolled 18,235 lives in this city during the years 1950 and 1958. And thus the three diseases had tolled altogether 38,733 lives during the said period. According to the World Health Organization's Statistics 84.4 persons died of the disease out of one lakh population in the city during the year 1956, while the disease made the least havoc in other western countries. In the U.S.A. the number came down to 9.1, in England and Wales 12.1, in Japan 48.7, in Egypt 27.6, in South Africa the number is 15 and among the non-Europeans of that land it was 37.6 out of one lakh population.

The only preventive measure against this deadly disease is to undertake a campaign of B.C.G. vaccination among certain age groups. The task is generally undertaken by the West Bengal Government's separate unit under the Health Directorate and a few philanthropic organizations. More than 42 lakhs of people have undergone such vaccination within the State of West Bengal till the end of 1958.

The other measures contemplated for the purpose are improved sanitation, improved dietary condition, improved standard of living and enough breathing spaces. Ignorance and poverty have always stood in the way of better standard of living in this country and unless that is being done West Bengal would ever become a victim of that disease.

In Calcutta 829 persons died of this disease during these five months and a greater havoc still awaits the fate of the citizens as the worse conditions are still developing in and around the city.

Russian Goodwill Delegation In The City

ONLY a day's visit of the city by a thirty-one member Russian Goodwill Delegation caused much enthusiasm and exuberance among the citizens of Calcutta. Led by Mr. A. A. Andreyev, a member of the Presidium of the Supreme Soviet of the U.S.S.R., the Delegation reached the Dum Dum airport from Asansol on Tuesday, the 3rd March by a special Russian plane. It included Mr. Nuritdin Akramovich Mukhitdinov, Chairman of the Foreign Affairs Committee of the Soviet Nationalities of the Supreme Soviet, Mr. M. E. Kuchava, First Deputy Chairman of the Council of Ministry and Minister of Foreign Affairs of the Georgian Republic, Mr. A. C. Sheremetiev, Member of the State Committee of the Council of Ministers, U.S.S.R. for Foreign Economic Relations and Mr. V. I. Likhachev, Chief of the South East Asia Department of the Ministry of External Affairs of U.S.S.R. and others. The delegation was also accompanied by Mr. P. K. Ponomarenko, Ambassador of the U.S.S.R. in India and Shri K. P. S. Menon, Ambassador of India in U.S.S.R.

The delegation was received at the airport by Dr. R. Ahmed, West Bengal Minister for Agriculture, Shri S. N. Ray, Chief Secretary, West Bengal, an A.D.C. to the Governor and the Consul-General for U.S.S.R. in Calcutta. As the members alighted from the plane several Russian children garlanded them.

The Goodwill Delegation left for Raipur on their way to Bhubaneswar on Wednesday, the 4th March. They spent the night at Raj Bhavan.

The members of the Delegation had a heavy programme in this city on Wednesday. Presents were made as specimens of Indian art and crafts to the Delegation on behalf of the India-Soviet Cultural Association. They also managed to meet many of the important citizens and cultural representatives of the city in Raj Bhavan during these short hours of their stay there.

International co-operation for celebrating the forthcoming Birth Centenary of the world famous Poet Rabindranath Tagore was emphasized by Mr. Mukhitdinov, Chairman of the Foreign Affairs Commission. Mr. Mukhitdinov, was then addressing a group of writers and artists at Raj Bhavan. He stated that Tagore, though born in India, belonged to the "whole world of literature". Almost all the

important works of Tagore had been translated into various living languages of the world.

The Delegation visited the Bose Institute, where they were received by its Director, Dr. D. M. Bose, who outlined the various items of research work undertaken there. Addressing a gathering of research workers and staff, Mr. Andreyev, leader of the delegation, stressed the need for co-operation between scientists of Russia and those of India. Science had no frontiers, he added. The more the scientist of different nations co-operated, the better it was for humanity, he observed.

Mr. Sheremetiev, reviewed the progress made by Russia and said that it was possible due to scientific technological advances. In the Plan Programme of Russia, the scientists were closely associated, he added.

The leader of the Soviet Delegation also placed a wreath at the Samadhi of Acharya Jagadis Chandra Bose, the founder of the Institute.

Visits to the Victoria Memorial Hall and the Indian Museum rounded off the Delegation's engagements in the city. Earlier, the members visited the Indian Botanic Garden at Shibpur, on the other side of the river.

—“THEY ARE THROWN FROM HEAVEN”

Continued from Page 428(b)

been enlisted by the authorities. Private individuals have chances to get their wards admitted on usual charges and other paraphernalia.

Thus the family of idiots and imbeciles and morons grows and develops within this city precincts under some guidance and philanthropic fervour. They are unfortunate and wretched still they have a desire in their inner sense to live like others. They have been thrown from the Heaven not due to the faults of themselves, but due to some other unknown phenomenon. They might have swallowed venom leaving the nectar for others and probably this caused them to be Fallen Angels. Should we not help them to ascend to the Heaven of normalcy? Surely, they are born to make the hell a heaven for themselves.

'They Are Thrown From Heaven'

[BY STAFF REPORTER]

BECAUSE of God's blessings have not been bestowed upon them equally with others they suffer from various defects and deficiencies. And the malady of mental deficiency has so far become the top-most problem in this sphere. Deficiency of the brain as a matter of fact is not only concomitant with the deficiency in physical developments but also they may generally be given shorter lives so that their miseries might not be prolonged. Lack of proper development in tissues of the brain largely bear the witness of physical deformities in almost each and every case. And the present advancement of human knowledge in Psychology and Physiology is a bit helpful in bringing them to senses to a limited extent, if not fully. The gradation of idiotic talents according to the intelligent quotients and other factors, and long watchfulness might have a place in this philanthropic mission to raise them to the level of certain amount of self-realization but not to full normalcy.

The gradation of intelligence so far approved by the scientific world in this sphere can be divided into three categories according to analytical tests, Idiots, Imbeciles and Morons. Their intelligent quotients run in case of the first below 25, of the second between 26 and 50, and of the last between 51 and 75. The average range of a normal mental make up runs between 90 and 110 and in case of abnormals or persons having super-calibre of intelligent quotients run above 125. The tests of classification, based on experimental methods, are on the first stage the idiots who can hardly avoid the common dangers of life and thus they generally meet their end by any accident to which they are potential if not properly attended or protected from such. In case of the second stage, they can not manage their own affairs, even the work of common sanitation are being neglected by them while at the superior stage, though feeble-mindedness rules over them, still they can be adapted to routine types of work under constant habits and a bit soothing attention.

The branch of the science which provided so much, has directed its attention towards experiments and mental tests so that realities could be turned into some kind of unreality in another perspective. The Calcutta Association for Mental Health has undertaken such a task to see that observations and guidance would have an actual place to help the society in this regard. They have considerable number of mental deficient on experimental basis.

At present the work is being undertaken in a rented three-storied building known as BODHE PEET in the city under such guidance and observations. The site is on the Harinath Dey Street, the north-eastern corner of the city. It was founded in 1951. A few teachers and patrons of the Experimental Psychology Department, Calcutta University, are mainly responsible for its existence and present development. They also acknowledge their gratefulness to the late Dr. Girindra Sekhar Basu, the founder-Professor of the Department, under whose able guidance they were inspired to undertake the task. Philanthropy must have prompted them to include larger numbers within the fold of their observations. Earlier the site was a few miles away from the city and it has been shifted to the present site for the convenience of its directors five years back. Its expanding activities demand to-day a better accommodation with enough space, and free and fresh air to breathe.

A FEW INMATES OF 'BODHI PEET'

PHOTO : S. B.

In addition to proper medical care, the groups of the last two stages are to undergo the culture of routine habits from morn till night and it is pleasing to note that good results have been reaped there. Even the inmates belonging to the idiotic stage are often become victims of these routines.

The Morons are kept under observations for a few months when they can grasp three R's at the primary stage of education, can learn simple arts and crafts and even can recite poems and songs in a few cases provided proper guidance and attention are extended to them. When we visited the Bodhi Peet on the 28th February last, their music pleased our ears, a demonstration of *Bratuchari* dance was equally pleasant to witness. And above all their needle work and other specimens of arts and crafts work were in no way inferior than the products of the normals. The instructors told us that the third stage group can imbibe to a further limit of fine and delicate objects of arts and crafts under able guidances.

Besides the residential section, which at present accommodates 67 inmates, both males and females, the Peet runs a clinical section for the out-door patients seeking expert help. A nominal fee is being charged for them. The Peet is also furnished with all kinds of laboratory equipment and thus provides a place to undertake research work on Experimental Psychology. The 23 females are kept aloof from others under separate guides and instructors. They are more akin to household work than their male counterparts and can manage themselves more efficiently.

The pecuniary aid to run the institution mainly comes from the Government's side in the way of Grant-in-Aids for displaced orphans and famine victims. Orphans' number comes to nearly 40 of both the sexes. The Peet also enjoys a grant for eight inmates from the Central Social Welfare Board, promised to be extended during the Second Plan Period. There are matching grants from the Union Government's fund and an *ad-hoc* grant from the Calcutta Corporation. Grants for backward students from the Ministry of Education, Government of India, have also

Poura Pratisthan Sangha

Sixth Annual Sports

WITH usual eclat and merriments the Sixth Annual Sports of the Poura Pratisthan Sangha, the Corporation Sports' Club, was celebrated in the Bhowanipore Club Ground, Maidan, on the 18th February last. The first annual sports was held on the 8th March, 1952.

Sangha Flag was hoisted on the occasion by Shri P. L. Roy, an important member in the city's sporting field. This indicated the inaugural of the annual sports. Shri B. K. Sen, Commissioner and President of the Sangha, introduced the function with a neat speech wherein he welcomed the guests and invitees present. He hoped that the demonstration and display would give much interest to the city's sports' lovers.

There were altogether seventeen events, many of which generated enthusiasm and excitement. The Tug-of-War event was really interesting when the Chief Executive Officer's team won the game—defeating the Councillors' Eight. The Accounts Department had the proud privilege of winning the same event for the last four years successively. Shri Atri Chakraverty (Assessment) and Shri Swapan Kumar De (License) were declared joint winners of individual Championships. The Departmental Championship was won by the License Department.

The City Fathers also participated in two or three of the events. Councillor Sachin Sen was the winner of 75 meters flat race while Councillor H. N. Sadani was second.

At the end, Shri P. C. Mazumder, I.A.S., (Retd.) Chief Executive Officer, gave away prizes to the successful sportsmen. In his remarks he wished for the gradual progress of the Sangha. He also hoped that there would be a larger number of participants in the years to come when the Sangha would grow into its desired shape and form.

THE RESULTS ARE AS FOLLOWS :

100 Mtrs. Flat Race :—

1st. Shri Atri Chakravorty—(Assessment) ; 2nd. Shri Asis Bose—(License) and 3rd. Shri Surath Ghose (Collection).

200 Mtrs. Flat Race :—

1st. Shri Atri Chakravorty—(Assessment) ; 2nd. Shri Bansinarain Rai—(Education) and 3rd. Shri Asis Bose (License).

50 Mtrs. Three-Legged Race :—

1st. Shri Debranjana Kundu—(D. E. III) & Ptnr.; 2nd. Shri Adhir Konar—(Health) & Ptnr. and 3rd. Shri Monoj Neogy—(Assessment) & Ptnr.

(100×4) Relay Race (Departmental) :—

Winner—License Department.

Runners up—Assessment Department.

1 Mile Cycle Race :—

1st. Shri Swapan Dey—(License) ; 2nd. Shri Ram-bilash Ghose—(Collection) and 3rd. Shri Ram Chandra Ram—(Accounts).

Tug of War (Departmental) :—

Winners—Accounts Department (Four times in succession).

Runners up—Collection Department.

Go As you Like :—

1st. Janab Md. Golam Kader—(Assessment) ; 2nd. Shri Taradas Mukherjee—(Tallah P. S.) and 3rd. Shri Naba K. Das—(License).

High Jump :—

1st. Shri Swapan Dey—(License) ; 2nd. Shri Atri Chakravorty—(Assessment) and 3rd. Shri Bansinarain Rai—(Education).

75 Mtrs. Flat Race (Above 40 yrs. of age) :—

1st. Shri Subodh K. Banerjee—(Election) ; 2nd. Shri Mantu Banerjee—(Secretary) and 3rd. Shri Utpal Sen—(Assessment).

800 Mtrs. Walking Race :—

1st. Shri Swapan Dey—(License) ; 2nd. Shri Adhir Konar—(Health) and 3rd. Shri Monoj Kumar Das (Collection).

75 Mtrs. Sack Race :—

1st. Shri Ajit K. Bhar—(Accounts) ; 2nd. Shri Asis Bose—(License) and 3rd. Shri Satyabrata Chaudhury—(Assessment).

100 Mtrs. Flat Race (For Inferior Staff) :—

1st. Shri Niranjana Chanda—(Education) ; 2nd. Janab Md. Idris—(Assessment) and 3rd. Shri Amar Mukherjee—(Food Supply).

Throwing of Cricket Ball :—

1st. Shri Parbati Mukherjee—(Assessment) ; 2nd. Shri Swapan Dey—(License) and 3rd. Shri Sreedam Paik—(License).

50 Mtrs. Flat Race (For employees' sons below 10 years) :—

1st. Shri Subrata Saha, 2nd. Shri Tapan Bhattacharjee and 3rd. Shri Sidharta Banerjee.

75 Mtrs. Flat Race (Ladies) :—

1st. Sm. Rama Mullick—(Health) ; 2nd. Sm. Priti Some—(Education) and 3rd. Sm. Bithi Roy—(Education).

50 Mtrs. Balance Race (Ladies) :—

1st. Sm. Birada Bala Pandit—(Education) ; 2nd. Sm. Pramila Bhadury—(Health) and 3rd. Sm. Rani Baidya—(Education).

Musical Chair (Ladies) :—

1st. Sm. Kamala Banerjee—(Education) ; 2nd. Sm. Baisakhi Ghose—(Education) and 3rd. Sm. Puspita Bhattacharya—(Education).

NEW CHIEF PRESIDENCY MAGISTRATE

Shri Bijoyesh Mukharji, the newly-appointed Chief Presidency Magistrate, Calcutta, took charge of his office from the retiring Magistrate, Shri D. N. Das, Cpts., on Saturday, the 28th February last.

WHITHER SPORTS

[SHRI KANAI ROY, B.A., Collection Department]

THE Sixth Annual Athletic Sports of PAURA PRATISTHAN SANGHA were held in the Bhowanipore grounds on the 18th February last. In this connection certain things have popped up year to year, and particularly in this year, which pains me very much, if one has even witnessed in decent competitive sports any time during his life time. The very basic idea of a healthy sports is discipline of body and mind, and this is supreme in those participating in it. Winning or losing is secondary. It has become a vogue here to show disrespect to any discipline. In an office sports where it is expected more to be disciplined as the persons involved in it are adults, but the funny thing was to see many adults behaving like street urchins, to be frank. The salient features that were very frequent in this year's sports and which marred the effects of a good sports were :—

(1) The supporters of different Departments invaded the field disregarding all authority, and

(2) Assuming that in certain cases judgment accorded was not fair, though this year's judges excluding the chief judge (who is an ex-olympian) were outsiders, at one time or another they were big names in the field of sports. The unruly behaviour of the spectators in arguing with the judges, hardly leaves anybody with sense to a limit of senseless orgy. It must clearly be understood where human factors are concerned, mistakes may occur, but still anybody who calls himself a sportsman or thinks he likes sports, it is unthinkable for him that in a sports field the judges will be surrounded by sporters or unsavoury remarks are thrown at them.

In conclusion, I must say that in my time I was actively connected with all branches of competitive sports and if it taught me anything, it taught adherence to discipline. Right or wrong judges' decision must be taken as final. Also it is a very tough job for the organiser even to organise a sports, so let us not make it tougher for them by creating problems.

This year the Joint Secretaries, Shri Rachin Ghosh and Shri Bimal Ghosh showed much improvement in selection of prizes which have qualitatively vastly improved. So had we given them a hand, it might have been better still.

CITY MUSLIMS CELEBRATE SABE-BARAT

An important festival, Sabe-Barat was celebrated by the Muslims in the city on Monday, the 23rd February. The celebrations were restricted to that community only. They burnt candles, made fire works and gave feasts to their friends and relations. This festival marked the beginning of a month-long fasting during Ramzan. Fifty persons were arrested in different parts of the city on that day on a charge of display of fireworks on the thoroughfares. A fire broke out in a pandal erected in connection with a marriage ceremony in a house in Timber Street, Park Circus area. The fire was caused by fireworks.

CITY NEWS PARADE

OBITUARY: Death of Shri Sarojendra Nath Bhose, occurred on the 22nd February last at his city residence, central part of the city. Belonged to the well-known Bhoses of Pataldanga the late Shri Bhose was educated at first in the Hare School and later on in the Presidency College, Calcutta. He happened to be a class-mate of the Union President, Dr. Rajendra Prasad, Closely associated with numerous educational, social and charitable institutions in the city the late Shri Bhose earned a name for his philanthropic activities. Besides, he was a member of the Managing Committees of the R. G. Kar Medical College, Calcutta Blind School and Deaf and Dumb School. Apart from this he made large private charities.

The weekly Corporation meeting on Friday, the 27th February last, condoled his death. The Deputy Mayor, Shri K. C. Basu, who presided remarked that in his death the city had lost a prominent social figure and a worthy citizen.

CONTINUING ITS SESSION THE WEST BENGAL LEGISLATIVE ASSEMBLY passed a number of grants within recent days. Demands on Public Health, Police, Central Administration and Labour were highlighted in those discussions holding up to Tuesday, the 3rd March. Another important issue discussed was demand for Local Self-Government Department.

Moving demands on grants for Medical Rs. 5.84 crores and Public Health Rs. 2.67 crores, the Minister-in-charge, Dr. Anath Bandhu Ray, said on Thursday, the 26th February last, that although the Budget grants were made under two different heads, the curative and preventive sides of the medical and public health services had been co-ordinated into a comprehensive plan.

Drugs were still being supplied free to poor TB patients from outdoor departments of Government Hospitals and Health Centres. Two mass miniature mobile X-ray units for detection of TB cases on a wider scale would be started soon. A demonstration centre would likely to be opened in the Medical College Hospital, Calcutta, early next year, he added.

The Minister further stated that the introduction of contributory system of medical practitioners was under the consideration of the Government. The scheme might be put into practice in future.

Shri Siddhartha Sankar Ray blamed the Directorate of Health Services for appointing a large number of superannuated officers whose salaries had formed 5.6 p.c. of the total Medical Budget. For positive health services the Government could spare only 3.3 p.c. The representative of the southern part of the city alleged that there was corruption at the Directorate's Central Store on Lower Circular Road, eastern part of the city.

Moving demands for Irrigation Department, the Minister, Shri Ajoy Mukherjee, said that allotment had been made in the Budget for the reclamation of the North Salt Lake areas comprising 18 sq. miles adjoining Calcutta. Global tenders had been invited for the scheme which would cost about Rs. 17.50 crores.

Referring to reclamation of land, Shri Mukherjee said that since Independence up to year 1959-60 expenditure on this account would be Rs. 4.70 crores. Several such major schemes had been or were being carried out. Two outfall channels for Calcutta would be made at a cost of Rs. 1.08 crores. This would benefit not only Calcutta but a large rural area also. The Govern-

ment was also considering to implement the Tollygunge-Panchagram Scheme, the Minister added on next day.

Moving the demand for State Transport, Dr. B. C. Roy said that the Government had been pursuing its objective to provide employment to unemployed youths and to increase passenger amenities. The organization was in a very stabilized condition. It had a workshop which built bodies for buses, reconditioned and retreated tyres and tubes. Its own press printed tickets. It had provided training facilities for drivers and supervisory staff. Up to March this year, there would be 583 buses in the State Transport fleet. The number would go up to 650 during the year, added the Minister-in-charge of Transport on the 27th February last.

Explaining in detail the facilities provided for passengers, Dr. Roy said that if the Government introduced more buses during peak periods, which lasted not more than four hours during the day, the vehicles would remain almost idle during the rest of the day. Moreover, the question was whether Calcutta roads could take in more buses during the peak periods or not. The Government was considering these points so that it could give some relief to passengers.

The problems of transport were debated long and in his reply Dr. Roy said that State Transport had Rs. 1.8 crores in its Depreciation Fund. This amount to be merged into the Consolidated Fund under instructions from the Accountant-General. But he was trying to improve on the Accountant-General that this money should be left to the State Transport for better service and amenities.

The Chief Minister further said that the Government of India had written to the State Government either to bring the State Transport Organization in conformity with the provision of the Central Transport Act or make it a separate Company. He suggested that the question of fare increase would be dealt with by the new set up though not immediately.

Dr. Narayan Ray, a representative of this city, cited some cases to show that the Government was discriminating when giving relief to those who died while on duty.

According to Shri Sunil Das, who hailed from the southern part of the city, the quantity of petrol and diesel oil consumed by State buses indicated that either the dead mileage was very high or there had been fictitious entries in the log book. He pleaded that the authority running the State Transport should be independent of any control.

Shri Hemanta Kumar Basu complained that there was a large number of *budhi* workers in the Howrah Depot and that many State Transport workers had to put in more than ten hours' labour which was telling on their health.

Shri Niranjan Sen wanted to know what the Government proposed to do about the traffic congestion in the Sealdah Station area.

On Monday, the 2nd March, Dr. Roy moved the Government's demand for Rs. 4.80 crores for 'Loans and Advances by the State Government', Shri I. D. Jalan, Minister for Local Self-Government, moved the demand for Rs. 1.60 crores for "Miscellaneous contributions." Both demands were passed.

The Government's grants to Municipalities totalled Rs. 89.75 lakhs and loans Rs. 30.43 lakhs. Grants to Calcutta Corporation during 1958-59-60 amounted to Rs. 92.41 lakhs and loans to Rs. 70.14 lakhs.

Regarding the low-income-group housing schemes, Dr. Roy said that already over 3,400 houses had either been completed or were about to be finished. The Union Government at the request of the State Government, was then considering a proposal to give house-building loans to people whose annual income varied from Rs. 6,000/- to Rs. 12,000. This would largely solve the housing problem for the middle class.

Speaking on the out motions Shri Jalan's demand for "Miscellaneous Contributions", Opposition members criticized the Government's "step-motherly" attitude towards Local Bodies. The municipalities, they said, were not in a position to provide any appreciable civic amenities without adequate financial help from the State. But the Government seemed to be interested only in the supersession of these Local Bodies which were dominated by leftists.

Replying to the debate Shri Jalan asked members to remember the basic policy adopted by the Central Government in respect of Local Bodies. Under this policy if any urban area wanted to adopt any scheme the Central Government could only help it by advancing loans.

The Minister admitted, great injustices were being done to the urban areas. He gave instances of the total amount sanctioned by the Government of India for water supply as well as for road construction. These amounts, said he, were too inadequate to meet the demand. Moreover there was no provision made for undertaking any drainage scheme. He also explained that under the new law such tax as that of Motor Vehicles Tax went to the coffer of the State.

The Minister assured the House that the Government were seriously considering the question of the low-paid employees of Municipalities and had already asked the latter to let the Government know the estimate and to consider all aspects of the question. They were anxious that something should be done for improving the lot of these employees.

The Minister maintained that a Municipality was superseded only when it failed to discharge its obligations and said that whenever an officer was appointed it was found that the financial position of the particular Municipality improved.

Shri Jalan also said that the question of introducing adult franchise in Calcutta Corporation elections "is under consideration of the Government". But he did not believe that adult franchise would in itself bring the desired improvement in Corporation affairs.

Shri Jyoti Basu criticized the Government for its failure to introduce adult franchise in Calcutta Corporation elections, while all other States had introduced it in all their municipal elections several years ago.

Shri Basu regretted that this was not effected even when an unanimous resolution was adopted by such a body as the Corporation. The reason behind it might be the lurking fear that the Municipal Bodies might no longer be under the control of the ruling party. But he wondered how long this artificial blockade could be tolerated.

Municipalities should be given a share of Entertainment Tax, Motor Vehicle Tax and other such taxes, he argued.

The second point emphasized by Shri Basu was the question of implementation of the recommendations for the higher pay of the low-paid municipal employees. It was found out that a total sum of Rs. 48 lakhs of rupees would be required for the purpose, he emphasized.

Shri Gopal Bose complained that though Khairah Municipality had sought the Government's permission to run two primary schools about three years ago it had not got the same yet.

Dr. Pabitra Roy asked why the State Government had not taken steps to curtail the expenditure incurred by Calcutta Corporation in maintaining two high-salaried posts of the Commissioner and the Chief Executive Officer.

He particularly drew the attention of the Government to the question of leasing out Dhapa to private parties. The speaker also pleaded for converting such areas as of Habra, Saithia and New Barrackpore Colony into municipal areas after inspection and examination by the Minister himself.

Shri Bankim Mukherjee suggested that the Calcutta Improvement Trust should not sell plots of lands to the

highest bidder. The Trust should work out the cost of improving a plot and then sell it on receipt of application to persons on grounds of merit. Citing an instance wherein Prof. Satyen Bose failed to secure a plot of land on which he could build his Vigyan Mandir. If the Trust followed such a policy, said Shri Mukherjee, the result would be that all Calcutta land would pass on to the people who had become rich.

Describing the plight of the Municipalities in West Bengal, Councillor Dhirendra Nath Dhar said that the average total income of these institutions within the State excluding the Howrah Municipality had been estimated at about Rs. 2.20 crores. Out of which nearly Rs. 1.70 crores went to the Establishment Charges that is 77 per cent. of the total income. Conservancy equipment and Public Health went to Rs. 15 lakhs and Rs. 18 lakhs respectively. The Primary Education got only Rs. 4.70 lakhs, leaving very little for the public utility services. An important member of the West Bengal Municipal Association thought that the Public Health and Education expenditures should be borne either by the Union or the State Governments or jointly by them according to the Directive Principles of the Constitution. Immediate implementation of minimum wages to the employees at larger Government subvention was demanded by him.

Councillor Dhar also felt that there would be too much strain on the Corporation finances if larger funds were allocated for the development of the newly added Tollygunge where anti-social elements making their harvests through land speculation activities. According to him the present rating system in the Corporation was a peculiar feature of the Calcutta Municipal Act, 1951. It had burdened the taxation of the middle class rate-payers creating confusion and complications in the administration. He favoured the idea for an amendment of the Act to that effect.

Severe criticisms were made on Tuesday, the 4th March against corrupt practices of some of the police officials of the State when the demand for the Department presented for vote before the House by its Minister, Shri Kalipada Mukherjee.

Moving the demand, Shri Mukherjee said that although expenditure on the police had progressively increased during the last four years, the proportionate rise was less than the increase in expenditures which the State incurred on education and health. Revision of pay scales and Dearness Allowance of the force had contributed to the increase. The percentage of expenditure under the head to the total revenue expenditure had declined during the last six years.

The Minister, replying to the debate, said that the police had the heavy responsibility of maintaining law and order and keeping the situation in the country congenial for developmental work, particularly under the Plans. There might be weaknesses in the force. But these largely reflected the present shortcomings of society in general. He assured members that he would look into every allegation and if necessary severely punish those found guilty. Quoting figures the Minister also asserted that the crime position in the State had improved during the last few years.

Shri Naren Sen, a representative of the city mainly from labour area, suggested that when there was talk of reorganization of the force, investigations should be made against charges of corruption and steps be taken to prevent their recurrence. He pleaded for special staff for the Anti-Corruption and Enforcement Branch Police.

Shri Soannath Lahiri, another representative, said that according to Shri A. D. Gorrwala, an officer getting a salary of Rs. 1,000 a month could not afford a house and a car. But he had seen many police officers owning big houses and

cars in Calcutta. He then gave a long list of names of senior police officers, some of whom, had been promoted from sub-inspectors were alleged to be found guilty for similar offences.

Shri Lahiri's list also included a Commissioner of Police on leave. He wondered how an inspector of the Enforcement Branch could possess a car or a temporary Sub-Inspector of the same department maintain a flat in Karnani Mansions, where the rent was very high. He urged that an open inquiry should be made in all these cases.

A CONFERENCE FOR DEVELOPMENT OF URDU was inaugurated at the Park Circus Maidan, under the auspices of the Anjuman Taraqqi Urdu Hind Association for the development of Urdu in India on Saturday, the 28th February last. Dr. B. C. Roy, the State Chief Minister, said that the Allahabad resolution of the Central Advisory Board of Education was being strictly followed in this regard. Urdu's place as a regional language in West Bengal had been accepted. Dr. Roy, said this while inaugurating the Conference.

Dr. Roy added that like other States, West Bengal had also in view the necessity of having Hindi as the official language in course of 10 or 15 years.

Pandit Sunderlal, who presided, defended the claim of Urdu as a national language. He said: "Urdu is the strongest link that can hold India's unity together."

A TWO-DAY CONFERENCE OF WEST BENGAL CHATRA PARISHAD, holding its session at Raja Subodh Mullick Square, towards the last week-end, was attended to by delegates from many districts within the State.

Speakers at the Conference expressed concern at the way in which students spent energy in agitation and called upon them to devote themselves in study and constructive work.

Shri Sankardas Banerjee, Speaker, West Bengal Legislative Assembly, said that youth in the State seemed to be in a condition of decay. "Where are they in the Navy and Air Force or in commanding positions in civilian life", he asked.

Dr. Suniti Kumar Chatterjee, Chairman, West Bengal Council, said that students should try to imbibe the spirit of tolerance and unity, which was India's precious heritage. They should realize that discord and strife never helped a nation to grow and gain self-confidence.

Rai Harendra Nath Chaudhuri said that self-control and learning were two things which were essential for the building up of the students' life. The Education Minister also advised them to devote themselves wholeheartedly to the welfare of the society through constructive work.

Wishing the Conference success, Shrimati Indira Gandhi said in a message that people in India were passing through a period of transition and the struggle to create a solid foundation for democracy.

A FIRE: A fire broke out in a cloth shop in Hatibagan Bazar, northern part of the city on Thursday the 26th February last. Smoke coming out of the closed room attracted the attention of passersby first. The fire was brought under control in about an hour.

BANGA BHASA PRASAR SAMITY

About 40 students sat for examination in Bengali, preliminary stage, held under the auspices of the Nikhil Bharat Banga Bhasa Prasar Samity in the David Hare Training College on the 22nd February. The examinees included many of the ladies and children.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 10th March, 1959 upto 2 p.m.:-

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

25. Repairs to stone setts pavement at Satkari Mitra Lane (portion) near premises No. 33/1 to 248, Bagmari Road, Ward No. 15-Rs. 4,348/-, dated 24th February, 1959 (1½ months).

26. Repairs to narrow lane leading premises No. 64, Ultadanga Main Road, Ward No. 15-Rs. 1,062/-, dated 24th February, 1959 (20 days).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be scored and noted in ink as "three months" and initialled.

S. K. MUKHERJEE,
District Engineer II.

District II Eng'g. Office:
The 2nd March, 1959.

District No. III Engineering Department.

Tenders for the following works are invited from the authorised contractors who hold Plumbing License and will be received by the Chief Engineer in a sealed cover superscribed "Tender for....." on 11th March, 1959 upto 2 p.m.:-

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within 1 week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Chief Executive Officer be forfeited. Agreement and Security Deposit are not necessary for works valued below Rs. 2,500/-.

250. Effecting F. W. and U. F. W. connection in the labour quarter at the abandoned Refuse Platform at Karaya -Rs. 1,243/-, dated 3rd March, 1959 (1 month).

251. Water arrangement in Maternity Home Block at 59, Christopher Road-Rs. 3,999/-, dated 3rd March, 1959 (2 months).

252. Effecting F. W. and U. F. W. connection at Corporation Primary School at Plot No. 65 to 69 C. I. T. Scheme-Rs. 1,565/-, dated 3rd March, 1959 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of work valued above Rs. 1,000/- only.

A. C. SINHA,
District Engineer III.

District III Eng'g. Office:
The 3rd March, 1959.

To All Registered Petty Improvement Lighting Contractors

DISTRICT No. II

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 12th March, 1959 upto 2 p.m.:-

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of the tender. Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 4,500 shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

Re-wiring & remodelling the electric installation at "D" Block, Central Chandney at College Street Market, D-II, L-94, 58-59-Rs. 4,761.75, dated 6th October, 1958 (90 days).

D. M. SAHA,
Lighting Superintendent.

Central Municipal Office:
The 4th March, 1959.

Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

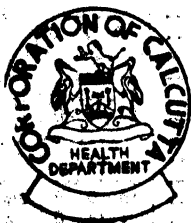

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

VIEWS AND REVIEWS

CORPORATION CONCERNS OVER FOOD PRICE CONTROL MEASURES

Calcutta Corporation at its weekly meeting on Friday, the 6th March last, passed a resolution urging 'active co-operation with the Government to implement the food price control measures in the city'. The resolution, although stood as an amendment to a motion tabled earlier by another member, was apparently in supersession of the original one. It was moved by Councillor J. L. Saha, M.L.C.

The resolution stated :—

In view of the measures undertaken by the State Government in matters of availability of food-stuffs at reasonable prices through the mechanism of rationing system as well as fixation of both minimum and ceiling prices and other allied steps, the considered opinion of the Corporation is that proper implementation of those measures coupled with sufficient amount of co-operation and co-ordination extended by the citizens would sure to bring down the prices of essential food-stuffs and normal supply would thus be ensured. The Corporation hopes that these would benefit the citizens belonging to both the poor and the low-income groups.

The House seeks the co-operation of the citizens in the matter of proper implementation of the Price Control Orders as enacted by the West Bengal Government recently in order to remove the bottlenecks experienced by the citizens in getting adequate quantity of supply at reasonable prices.

In this connection the Corporation urged the West Bengal Government to proceed under a four-fold programme put up below :—

(1) Supply of rice in sufficient quantities to all citizens through an increased

number of fair price shops scattered throughout the city.

(2) Supply of an improved quality of rice instead of the present inferior supply which sometimes becomes unfit for human consumption.

(3) Supply quota should be increased of the rationed food-stuffs.

(4) The Government should attract the services of all social and philanthropic institutions in order to counteract anti-social activities in this connection.

The Corporation further requests the citizens to help the Government in implementing these measures as well as to keep a vigilant watch on the activities of the Food Department of the Government so that it might not be prevailed upon by any anti-social elements or hoarding agents in order to put a clog on the smooth running of the present Price Control Orders.

The House debated nearly one hour on the issue. The issue was raised on a motion tabled by Councillor Narendra Nath Sen about a month back, emphasizing acute food shortage in the State. The motion was also duly seconded by Councillor Nripendra Nath Banerjee. It stated the Corporation's concern over the West Bengal Government's failure in effecting its food policy whereby a critical stage had been reached in the city due to the acute shortage of rice supply. It also felt that unless the sharks in this deal were controlled or removed the retailers would not be in a position to supply the citizens' actual requirements.

The motion further wanted that realizing the position the Government should take up emergent measures in order to tackle the situation lest there should be apprehension of total breakdown of the

rationing system resulting in untold miseries to the citizens in general.

While discussing a section of members suggested that the Government should constitute an Advisory Committee representing all the political parties in the country to ease the situation. Several other members spoke in other ways. A section supported the Government while others criticized its activities. Amendments were put up also on the original motion demanding rigorous steps to be taken against the hoarders and profiteers. Somebody thought that State Trading on food-stuffs would be the only way in tackling the situation. A senior member also said that the House had already communicated to the Government the Corporation's views through a letter in an earlier occasion so that the present resolution did not hold good. But the Deputy Mayor who presided expressed another view.

The most critical speech was made by Councillor Biman Mitra, who said that the city authorities had issued ration cards for about 40 lakhs of population while according to the last Census Report the city had a less number. Because of his long association with the Food Department, he suspected that there were about two and a half lakhs of false ration cards viz. 'Ghost Cards' in the city.

According to him the hoarders and other anti-social elements were taking advantage of these crimes. Thus the system of issuing cards became a subject of criticism by him. He also complained of uneven distribution of ration shops in the city as well as their insufficient number.

Demanding that the task of feeding the citizens rest with the Government, Councillor Mitra suggested a few measures to be adopted in order to ensure sufficient supply of food-stuffs to the citizens.

Whatever might have been passed by the House the citizens would be happy in having an adequate quantity of food-stuffs being supplied from fair price shops.

GRANTS-IN-AID TO LIBRARIES AND CULTURAL INSTITUTIONS

The Corporation, on the joint recommendations of the Standing Education Committee & Standing Finance Committee, sanctioned grants-in-aid to Free Libraries for the years 1955-56 and 1956-57 under certain conditions. The amount of Rupees One Lakh, required for the purpose, was revived from the Closing Balance of the current year.

* The Corporation further accepted the suggestion of the Standing Education Committee for sanction of special grants to those libraries which would keep special cadre of books, text books and such like. Such libraries would have to maintain one free reading room for that purpose also.

The House approved a new modified procedure to be followed governing the award of such grants, onward from 1957-58.

In a similar way, the Corporation sanctioned grants-in-aid to Tols, Night Schools and others.

COLOUR PREJUDICES IN CITY

The West Bengal Government's recent decision in renewing bar licenses for the coming year to those clubs and institutions lying within this city precincts has received with mixed feelings. The welcome feature lying within this is backed by a motive to remove colour discrimination, a long standing practice in many of the clubs established by the Europeans.

The State Government's enquiries show that there is no specific provision in the Constitution of India to ban admission of non-white members in any of these institutions established on this soil. Thus the Government hoped that the institutions would change their policy and admit members irrespective of colour.

The Government's decision regarding renewal of the institutions' bar licences is in pursuance of a correspondence it has had on the matter with the Union Ministry of Home Affairs. Representations from Indian quarters asking for action against clubs maintaining a colour bar have been receiving by them for sometime past.

The institutions, listed in this connection are the Calcutta Swimming Club, the Saturday Club, the Calcutta Football Club, the Tollygunge Club, the Bengal Club, the Calcutta Cricket Club, the Calcutta Rowing Club, and the Swiss Club. The Excise Commissioner has also been instructed to inform these clubs that if they do not admit non-white members their bar licences would not be renewed after the expiry of the present term.

It may be recalled here that the Corporation some time back, passed a resolution unanimously urging the State Government for abolition of colour prejudices in city's clubs and institutions having such discriminations. Similar protests were made by many other public bodies and important citizens. Shri Mihir Sen, the well-known Channel Swimmer, also pointed out the discrimination practised by the Calcutta Swimming Club in this regard while replying to a Civic Reception accorded to him by this city Corporation some time ago.

Prompted by similar sentiments through a resolution passed recently the Executive Committee of the West Bengal Pradesh Congress Committee stated that "colour bar and discrimination" in some clubs and institutions run by foreigners should be stopped immediately.

At the same time the Committee also regretted the practice of religious discrimination in a number of educational and other institutions, some of which received Government help.

Bombay had similar agitations there. The Trustees of the Beach Candy Swimming Bath, Bombay, also have assured the Government that they would give "most careful and active consideration" to the question of alleged colour bar at the baths.

The decision of the State Government must have an explanation in the fact that unlike those and other democratic countries these clubs have not moved with the times. True to say, that with the withdrawal of the British power from India none of these clubs enjoy the supremacy of the Services and they entertain Indians as guests and some in the capacity of honorary member.

Full membership is still limited to them even now in many clubs in Calcutta, in Bombay, and in other important cities, while

a good number of sports' clubs has already admitted Indians in their membership roll. Now in the interest of racial harmony, which every democratic country is trying to promote, the remaining clubs would change their minds and the barriers would be faced in gracious ways—as the change is long overdue. We hope that this would be achieved in a more courteous manner instead of any legal obligations.

Opening of Club Bars to the Indians alike is not an unmixed joy to all. It might add the national prestige to the citizens. But if freedom of drink be restored to all, as the manner in which it has been contemplated by the State Government, then the long cherished prohibition might be given a good-bye which has so long been used as a political lever. The responsible citizens would ponder over it before they consider the new aspect of the State Government's decision.

DISPLAY OF INDECENT POSTERS

There was a growing concern among a section of the Corporation as regards indecent and obscene posters displaying over city's street corners and walls. Speaking on this issue there were occasional debates and discussions in the House in course of speeches made by members as matters of public importance.

During the early part of last December, Councillors Dharendra Nath Dhar, M.L.A., and Dr. K. P. Ghosh—jointly drew the attention of the House to those indecent posters and wanted that the Corporation should move in this matter as a moral obligation to bring about a healthy atmosphere in this city. Several other members also supported them. A member pointed out then that such posters were even at sight before the front gate of the Central Municipal Office Buildings, S. N. Banerjee Road, central part of the city and frequented by people of high rank and culture from abroad.

Councillor Dhar and Dr. Ghosh said on that occasion :—

"In some Cinema Halls of the city a film captioned *"Dilli Ka Thug"* is being shown. There has been much agitation in the city against it. The posters of this picture are obscene. From the posters of films *"Dilli Ka Thug," "Mr. Quartoon"* and *"Joutuk"* it seems that art and culture have vanished from Bengal. And the Corporation of Calcutta is a party to it, because licenses are granted by Corporation for pasting them on walls. We have seen a few specimens of dance of the brand of *Kishore Kumar*. The remnant of culture that this province still has, is going to be razed by this sort of things. The Censor Board do not pay heed to these. But it is within Corporation's power that if a poster is considered indecent, it can stop issuing licences to paste it on the city walls.

From an enquiry made by the Chief Executive Officer, in this connection, it was ascertained that for the regulation and control of 'Advertisements' the Corporation had made some Bye-laws under Clauses (17) and (18) of Section 527 of the Calcutta Municipal Act, 1951. Under this Bye-Law, the

Corporation had empowered the then Commissioner to order 'removal' of such advertisements or to have them 'spoiled, effaced or screened'. These powers were ultimately delegated to the District Engineers who were requested to keep vigilant watch over all those exhibits. The Bye-laws have so far been applied principally to hoardings and illuminated advertisements.

The License Officer, being a party to this also, was asked to look into those posters by the present Chief Executive Officer after the matter was referred to him by the Corporation. In the meantime a fresh order was issued to the District Engineers to pay special attention in this regard and this was adhered to as far as practicable and permissible under the existing regulations.

At the weekly Corporation meeting on the 6th March last, when the matter came up again before the House, Councillor Dhar re-iterated his views and wanted that the Corporation should request its officers to take necessary actions to stop displaying of indecent posters so far as the existing laws and regulations permitted them to do so.

The nuisance of pasting posters has spread all over the city. Posters are pasted and advertisements stencilled on walls, buildings, pedestals of statues, pillars, lamp posts, and almost every other available space on public thoroughfares. And if citizens' consciousness by way of demonstrations and other methods are roused in this then it would go a long way to stop the evil.

The responsibility of regulating such menace apparently lies with the police authorities almost in an equal extent with the Corporation. Under the Calcutta Police Act any person doing such menace without the consent of the owner or occupier of the place used, can be summarily tried by a magistrate and fined up to Rs. 50. As it is stated, the offence is non-cognizable but under certain circumstances the police can arrest the offender without warrant.

But complaints are rarely made by the owners or occupiers due to lack of their aesthetic senses. And even when complaints were received in the past the police could do very little except remove the posters since the alleged offenders were not likely to be caught.

Regulations of this practice should basically fall under Town Planning Legislation in the United Kingdom and in other advanced countries. Now it is the turn of the citizens who would judge how the things would take shape and how far they would be effective.

SARALA ROY COMMUNITY HALL

The foundation stone of a Community Hall in Gokhale Memorial College was laid by Shri S. M. Bose, Advocate General, on Friday the 6th March last at the premises of the institution, Harish Mukherjee Road, southern part of the city. The hall has been named the founder of the institution.

The Hall will have the capacity to accommodate 350 persons in the cosy auditorium.

The new annexe of the college will cost more than Rs. 3 lakhs. Government is expected to give the authorities an assistance to the extent of Rs. 1.87 lakhs.

Calcutta Looks Ahead

A SUB-WAY NEAR ESPLANADE AREA

Construction of a subway across Chowringhee Road near Esplanade area, to ease traffic congestion would be undertaken by the State Government in the financial year 1959-60.

The subway will be a part of the comprehensive scheme for the improvement of the Esplanade area and was formulated by an Expert Committee. Its first part, re-alignment of the Tramway terminus at Esplanade, has just been completed.

With the completion of the sub-way, the Calcutta Improvement Trust will realign Kidderpore Road, construct new car and bus parks, safety islands, and pavements. The cost of this part of the scheme will be shared equally by the Improvement Trust and the State Government.

SLUM CLEARANCE SCHEMES IN THE CITY

The West Bengal Government's Budget Estimates 1959-60 have provided Rs. 27 lakhs for implementation of the Slum Clearance Schemes. Two projects have so far been taken up—one by the Calcutta Improvement Trust and the other by the State Government's Construction Board.

Under the Trust project, 800 multi-storeyed single-room tenements will be constructed on Barrackpore Trunk Road and Dum Dum Road, and work on them has begun. The State Government's Construction Board will erect 384 multi-storeyed single-room tenements on Dum Dum Road. The Board's project is being revised and work is expected to start during the next financial year. Several other projects are also being examined by the Government.

In this connection, it may be recalled here, that the State Government had accorded their sanction, some time ago, for the acceptance of a Four-Lakh Rupees Tender for construction of a four-storeyed block of buildings consisting of 88 one-room "C" type tenements with separate kitchens and baths in Bustee Rehousing Scheme No. I at Barrackpore Trunk Road.

Almost at the same time sanction was given for the acceptance of another Seven-Lakh Rupees Tender for construction of a 4-storey block of buildings comprising of 116 one-room tenements of 'A' type with separate kitchens and baths in Bustee Re-housing Scheme No. II at Dum Dum Road.

NEW SITE FOR NATIONAL ATLAS UNIT

The Union Government's National Atlas Unit has been moved to a new site on Lower Circular Road. Since its inception the Unit was accommodated in the Calcutta University's Senate House.

Established in 1954, with two or three workers, the Unit now consists of about 150 men and women.

PARKING OF VEHICLES

In order to ease traffic congestion new regulations for parking and entry of vehicles in certain areas adjoining Chittaranjan Avenue and on some

parts of it in Central Calcutta have been introduced particularly during peak hours, in those localities.

The rules, enforced mainly aim at keeping most part of the broad thoroughfares open to traffic and preventing congestion in narrow passages by restricting entry of vehicles.

RE-MODELLING SEALDAH STATION

Proposals for widening the Upper Circular Road in the vicinity of the Sealdah Railway Station, construction of a bus terminus inside the station enclosure and certain aspects of the scheme for remodelling the Station building and yard were discussed at a conference of the officials of the Railways, the Traffic Police, the Corporation, the Tramways Company and the State Transport, Government of West Bengal some time ago.

The problem of serious congestion in the Sealdah Station area, whereby accidents and traffic jams featured mostly, was discussed and the proposal for widening up the Upper Circular Road near the Station was also made. According to the scheme, the existing tramway tracks would be shifted further east in place of the footpath, at present occupied by immunerable stall-holders and hawkers.

In order to relieve the congestion of the passengers arriving at the Sealdah Station by train, it was also suggested that a bus terminus should be located inside the station area.

NEW BUSES ON CITY STREETS

The Government of West Bengal have decided to import chassis of 60 more 64-seater buses with a view to increase the strength of the State Transport's fleet to 520 from the existing 460 plying in different routes in the city. The total cost of these chassis has been estimated at about Rupees Thirty Lakhs.

—HOW MIDLAND PARKS DEVELOPED

(Continued from page 454)

general arrangements of which are such as to facilitate easy supervision, little possible damage by vandals and economical to maintain hygienically and materially. The curving lines of pools, buildings and terracing fit well with the surrounding park land.

The picture presented in at the outset (below) showed:—

A simple park shelter of modern design and conventional materials. A little "cold" perhaps in general appearance, apart from the soft coloured sand-feed brick, but a most workable building; no glass to break, no paint to scratch, no timbering to cut, no guttering or downspouts to pull off, and no lead to steal. Seats, if broken, are easily repairable or replacable. All rain water services are internal and direct via an inspection and cleaning chamber to storm water sewers, and this prototype has been introduced into a number of our parks.

SPECIAL ARTICLE

How Midland Parks Developed

[By E. J. WINTON, M. D. E., F. I. L. A., F. INST. P. A., PARKS SUPERINTENDENT.]

To foster the interchange of practice and ideas it was thought that some might like to read of our activities here on the perimeter of the Black Country, as we like to read of the work of other departments. To discuss our problems, our organisation—or lack of it—our success and our failures, in details, could well fill a number of Journals, nor do we think that readers will be frightfully interested in a lot of statistics. This article must therefore necessarily be rather sketchy and touch only on the more important aspect of our work, although we should have liked to have referred to our Arboretum with its lakes and gardens, many acres of which were first started from old quarry workings nearly a Century ago. It would have been interesting too, to tell you of Reedswood Park now well wooded but originally a derelict pit mound land devoid of vegetation.

To those unfamiliar with the industrial Midlands, and Walsall in particular, let it be said that the inhabitants are proud to be classed as "Black Countrymen" although in fact the Borough is on the North Eastern edge of the densely industrialized belt between the City of Birmingham and the Borough of Wolverhampton. The Borough was established as far back as 1627. Although Walsall is recognized as the home of the fancy leather trade, its foundries, metal plating works and light engineering, old and new, within the Borough, and vast engineering shops on the South Western boundaries cause the atmosphere and the ground too, to be far from free of substances injurious to the good health of plants. Those who received horticultural training in the South of England—at Wisley for example—received a rude awakening when faced with the problem of making and maintaining parks, gardens and sports areas in the Midland region.

Many of the square miles that comprise the County Borough is land that has been, and is being, reclaimed for housing, industry and green space development. Acres and acres of old mineral workings—notably "jin pits"—and from where other minerals were "got," are a common sight. Such land is of irregular contour, frequently low lying, carries little or no flora and the earth is of a peculiar mixture of shale and clay, commonly known locally as "tocy-dirt." A soil-less mixture extremely difficult to work in winter or summer and also impervious to moisture even when aided by drains. Soil has to be imported from far afield at considerable cost or substituted by sewage sludge which we are obliged to use in large quantities. Controlled tipping we employ in a comparatively big way with the customary trouble of irregular settlement where grass surfaces are required for play in a short period. Such means, however, are economical and eventually produce a far better playing area than does a lavishly drained and ashed toccy-earth formation.

This short description is evidence that lay-out work is costly, the selection of plants limited, and

growing conditions far from ideal. These features, together with the over-populated nature of our playing fields, and our parks and gardens too, do not tend to attract the skilled horticulturist and grounds staff.

Even though Industrial Community Councils do, in the main, pay high regard to their park amenities and expect these amenities to be of a high standard, no doubt because of other less pleasing Civic Services, many of those whom the Councillors serve, or represent, do not always appreciate their good fortune in this respect.

Parks Executives will readily agree that a system, or organization, that operates well in one city or town, cannot necessarily be applied successfully in another town. Circumstances differ greatly, sometimes by reason of the variance in population, sometimes by the extent of responsibilities delegated nationally to the town or district and therefore, in turn, the delegations by the Council to its various committees.

All developments with which horticulture, forestry, or outdoor sports are concerned should be the concern (to a great or small degree) of the parks officer and his department. It is our opinion that although cemeteries and crematoria are, in themselves, not of a horticultural nature, the treatment of the ground in which both can successfully operate is most important, whether it be the Gardens of Memory, Lawn Cemeteries, or the planting and maintenance of tree, grass and floral settings to conventional memorials.

Being responsible for the care of school playing fields and gardens, verges, open spaces and planted areas to housing estates, it is our duty to take place in the designing and construction of these amenities. "Green Environs" as we may loosely term them are playing an ever increasing part in the working, living and entertainment aspects of modern life. Other sections of community service are, of course, small holdings and allotments, and gardens to homes for the young, the aged, those in ill health and those under directional training.

Since the war, unlike many continental countries in Great Britain—and particularly those in the engineering regions—have had little unemployment, labour has been in great demand, costs have been substantially high and continue to rise. The relatively high standard of living and the welfare facilities now available to all has necessitated a change in policy to that operative pre-war. Maximum economy in park and playing field works of a capital nature, and low maintenance costs, is the first consideration.

Much of in the Midlands, is the result of the large labour employment schemes of the slump years. Rationing of materials immediately after the war, followed by frequent credit squeezes and high rates of interest on borrowed money has precluded Local Authorities to indulge in the development of land for extensive ornamental gardens and

there is little opportunity for horticulture as known to those familiar with it 50 and 100 years ago. Few Local Authorities only have been able to proceed with extensive glasshouse construction and conservatories within the parks for the display, to the public, of the horticultural craft.

The Town Development Plan clearly indicated the likely extension of the work of the Department, and the post-war housing and educational programmes in particular, proved more evidence, if such was necessary, that a general re-organization—one almost might say streamlining—was desirable.

The policy so far formulated has endeavoured to pursue that can best be summarized as follows:—
....Ensuring that the Employing Committee of the Council continue to be park and playing field minded and be kept fully aware of the importance of the many amenities with which the Department is concerned.

.....The centralization of all horticultural and kindred work within the Borough, being the concern of the Parks Department, and maintenance and much constructional work being undertaken by it. This not only ensures that experience is available to all Committees, but that maximum economy is exercised by the interchangeability of plant and equipment, mobility of labour and the bulk buying of stores and materials.

.....Office accommodation, supervisory, clerical and manual staff capable of keeping abreast of the changing conditions. An effort is made to give personnel, whether technical or manual, clear cut responsibilities and, subject to overall supervision, a free hand in the carrying out of their duties.

....The paying of particular attention to the design and construction of new works and the re-modelling of existing facilities. This aspect of park management is considered most important, as the essence of good layout in maximum economy in expenditure consistent with efficiency and an aesthetic pleasing resultant. Good layout provides for ease and economy in maintenance. Layout is most frequently a work of durability. The handling of plants and of ground is as important as the architectural edifice.

...To encourage to the full, mechanisation. Most Officers are familiar with the mechanical aids to construction and maintenance and little purpose will be served here by listing the vast range available. To clear and re-design areas to enable mechanical equipment to operate and find that many labour problems have been reduced and the standard of grass improved by large scale spraying to control weeds and to inhibit the growth of grass, particularly in the cemeteries.

Being without, at least at present, a central glasshouse and nursery scheme, the cost of growing our plants is unduly high, even though the quality is good. Fuel costs have been kept within limits by the introduction of thermo-draft economisers and circulating pumps but not until new glasshouses—probably oil fired—with up-to-date watering, ventilating and feeding schemes are in operation.

Staff, welfare and training. As in industry, staff and labour relationship is important. Reasonably good one can suppose, although due to the

ever increasing commitments, insufficient time and consideration is given to ensuring close association between all concerned. The training of young men, whether for posts of high responsibilities, or for vacancies as good craftsmen, should be the duty of each one but again insufficient time, is devoted to this very important duty. A small intake annually occurs, a number of whom are keen manually and technically and quite a few improve their position with other departments, or pass on to organised training establishments.

Organization and Methods, and Time and Motion study have not yet entered our portals and direct experience of it. Either will be welcome only if the outcome is greater production or reduced costs. Neither will be well received if all that is emulated is merely the introduction of an inflexible system, additional office routine, a penny saved while a pound is spent or perhaps, the most important of all, the ham-stringing of such personnel as the general foremen, who must have freedom of action all the time our weather and labour conditions are so changeable.

Horticulture—not the last and by no means the least in importance. It must suffice to say that, due to circumstances to which reference has already been made, decisions have had to be taken, to modify lay-outs and introduce schemes in order to reduce the variety and number of bedding plants employed in our parks; by so doing it has been possible to introduce horticultural interests, many of the more labour saving type into the town centre and along the approach roads. Planting of trees and shrubs, polyantha roses and, in instances, herbaceous plants of a variety that need not receive individual attention, have been encouraged.

Reasonably satisfied with the selection of plants available for growing under difficult conditions it is rather limited. Yew, Holly or *Lonicera* hedges hardly exist but, on the other hand the common Beech, *Cotoneaster Simonsii* and a number of the *Berberis* family are quite determined growers. Due to disease, all the Elms in the town have been, or ought to be felled but in addition to Planes and Sycamores, of course, the Limes and one or two of the Maples and Poplars do well.

Endeavoured to give in brief the aims and objects and to those far from the black industrial concentrations a few things do not go to plan than many would care to admit. However, the old war-time saying "press on regardless" still applies, not forgetting that, horticulturally, the planting would not be possible had it not been for the knowledge and enthusiasm of the predecessors.

The photograph published in the front page showed (above):—

A newly completed conventional children's play area, rather costly (£14,000) replacing as it does a dirty stream course, unsightly and injurious to health. Water free from impurities at all times is by way of pumping from a stream course supplemented with water from the Board through a chlorination plant. The circular buildings of modern conception and quite pleasing in form and design. Changing and lavatory accommodation for boys and girls is provided in separate buildings, the

(Continued on page 452)

CITY NEWS PARADE

OBITUARY: Shri Dhira] Bhattacharjee, noted Bengali film star, died at his South Calcutta residence in the early hours of Thursday the 5th March last, following a protracted illness. He was 54.

With the death of Shri Bhattacharjee, the Bengali screen has been deprived of not only a versatile star, who shone in more than hundred films, but also one of the last 'links' of two colourful, 'eras' of the Bengali screen—'Silent' and 'Talkie'. He first appeared in a Bengali silent picture "Sattlakshmi" in 1930. His subsequent roles soon established his reputation as an actor. He was also connected with the stage for some time.

The late Shri Bhattacharyya was an author of several books. His first book was "Jakhan Police Chhulam," and the last "Mon Nia Khela," published a month ago.

A large number of film artistes went to his house on receiving the news to pay their homage to the departed. Some of them attended his cremation at Keoratala Burning Ghat in the afternoon.

The Corporation at its weekly meeting on Friday, the 6th March condoled his death. Eloquent tributes were paid to his memory by the Deputy Mayor, Shri Keshab Chandra Basu, who presided then.

The death of Shri Harendra Kumar Ghosh, a retired Police Magistrate, Alipore, occurred at his residence in Lake Range, South Calcutta, on Wednesday, the 4th March last. He was 64.

The late Shri Ghosh came from a Zamindar family of Katipara, Khulna. He took interest in social and public activities and was President of the Katipara Seva Ashram.

The death of Shri Jitendra Nath Banerji, a leading soap manufacturer of West Bengal, occurred at his Calcutta residence on the 4th March last. He was 74.

A pioneer in West Bengal's soap industry the late Shri Banerji distinguished himself as a journalist and edited 'Nayyug' (weekly), 'Cosmopolitan' (monthly) and 'Nirupama Barshamriti' (annual). He was associated with many institutions.

Shri Pravash Chandra Mitra, an employee of the Corporation, attached to the Secretary's Department, died on the 10th March at his residence in Howrah, after a protracted illness. He rendered 32 years long service to the Corporation.

The Corporation at its weekly meeting on the 13th March mourned his loss.

GHANA'S INDEPENDENCE DAY ANNIVERSARY was celebrated in the city through a meeting held in the British Council lawns at Theatre Road on Friday, the 6th March last. It was observed with a minute's silence to mourn the death of Africans in the recent disturbances in Nyasaland. The meeting was organized by the African Students' Association in the city.

Dr. N. Chakravorty of Jadavpur University presided. Major-General W. H. A. Bishop U.K., Deputy High Commissioner, hoped to celebrate the independence of Nigeria also. Several members of the consular corps were present.

Dr. Chakravorty, in a brief speech, explained the importance of Ghana's independence to the people of Africa.

GANDHI-LINCOLN EXHIBITION consisting of 76 pictures from the lives of Mahatma Gandhi and President Abraham Lincoln with quotations from their works, was inaugurated on Friday, the 6th March last, at the United States Information Service, Chowringhee Road, by Shri Sankardas Banerjee Speaker, West Bengal Legislative Assembly.

In course of his speech Shri Banerjee said that Abraham Lincoln was well-known to the people of India, principally for emancipating the slaves and for the great service he rendered to humanity by doing so. There were many points of similarity between Mahatma Gandhi and President Lincoln, the Speaker said. Both thought and spoke alike and both served their people by emancipating them from darkness.

Dr. Richard N. Current, Head of the Department of History and Political Science, Women's College, University of North Carolina, and a biographer of Abraham Lincoln, delivered an address on "Lincoln and Asia". He said Lincoln was held in high esteem in Asian countries because he stood for some principles which were universally held in high regard. Dr. Current noted that many spiritual influences on Lincoln came direct from India.

In welcoming the guests Mr. Chester R. Chartrand, expressed his appreciation for their help in commemorating Gandhi and Lincoln. People all over the world were commemorating them whose greatness lay in cardinal virtues like humility, steadfastness and faith in righteousness, Mr. Chartrand said.

INTERNATIONAL WOMEN'S DAY was observed through a meeting held at the Students' Hall, College Square, Calcutta, on Sunday, the 8th March. It passed a resolution supporting the appeal by the Women's International Democratic Federation for world peace, a ban on nuclear weapons and their tests and for a beginning of disarmament. The resolution asked the big Powers to give up the nuclear arms race and the U.N. to create a favourable climate for it.

It asked the women of West Bengal to organize a campaign in support of the appeals and to continue it till the June 1st. Women's signatures would be collected and badges sold for the purpose. Another resolution demanded adult franchise in Local Authorities in West Bengal.

CONTINUING ITS SESSION WEST BENGAL STATE LEGISLATIVE ASSEMBLY passed another set of demands on grants moved by the respective Ministers of which General Administration, Labour, Small Industries, Fisheries and others attracted large number of visitors in the gallery. The discussion on demands for 'Famine and Food' did not generate so much heat as was expected due to the fact that mainly the back-benchers participated in the discussion who restricted themselves on local needs and apprehensions.

The House passed the demand for Rs. 322.98 lakhs as charges for General Administration, after a debate so full of excitement on Wednesday, the 4th March last. The main Opposition points were that the administration was clique-ridden, too heavy, full of superannuated officers and frustrated and disappointed young employees most of whom were temporary. It was a centralized administration based on 'secret police and ordinances and a citadel of corruption.'

Shri Siddhartha Ray said that the atmosphere of distrust and suspicion was vitiating the healthy relationship between the Government and its employees. This had got to be cleared if the State was to progress. The Deputy Ministers eager to work should be sent to districts to study the local problems and to keep the eye that the different development plans succeeded and money was not wasted.

emphasized the representative of the southern part of the city.

Shri Hemanta Kumar Bose said that a large number of Government employees were temporary and deplored that the Government had dismissed altogether 22 employees for trade union activities.

In an emphatic prolonged speech, Shri Jyoti Basu, said that 25 per cent. of the expenditure under the head was incurred on account of Governor's Secretariat, Ministers and Gazetted Officers who constituted less than 1 per cent. of the total strength of the Government. If this was not too heavy, he did not know what it was?

According to the Leader of the Opposition, there was no need for such a large number of Ministers, Deputy Ministers and Parliamentary Secretaries for a small State like West Bengal.

Besides, important suggestions came from many quarters. Shri Jatin Chakraverty and others also spoke.

Replying to these charges, the Chief Minister said that in regard to the purchase of land and buildings, in no case had the Government given any money more than what had been determined by the Land Acquisition Collector, in some cases less. 'I always tried to arrive at an agreement with the parties to avoid litigation' emphasized Dr. Roy.

The Chief Minister said that he had told the organizers of the Students' Health Home that if they had dealings with all countries and not only with the "so-called iron curtain countries" he could help them. They promised to send him a programme which he had not received yet. This he said because a reference was made by Shri Jyoti Basu about the Government's attitude towards the Home in distributing patronage.

Moving the demand for 'Labour' Janab Abdus Sattar said on Thursday, the 5th March last that industrial relations in West Bengal had improved in recent years. It was true that the number of man days lost was greater in 1958 than in 1957. But it should be remembered that only four major disputes accounted for almost half the number of man days lost last year. He pointed out that the number of man days lost on the Puja bonus issue decreased to about 30,000 last year from 230,000 in 1956.

Reviewing the progress of the Department, the Minister said that Employees' Provident Fund Act was in force in 38 industries within the State. During the year under review 3,226 tenements were built under the Industrial Housing Scheme. Minimum wages for agricultural labour had been fixed in Jalpaiguri and Darjeeling districts.

Dealing with the unemployment problem, Janab Sattar said that its severity was not due to any contraction of employment opportunities. Statistics showed that employment opportunities were increasing.

Replying to the different speakers who pointed out many of the irregularities, the Minister admitted that the wage level in Bombay was higher than in West Bengal. The main reason for this was that the Congress had been able to work as Government for the promotion of labour welfare in that State from 1937 whereas in West Bengal the party had been in power only since 1947. He also emphasized that the wage level in West Bengal had substantially increased since 1947.

All the labour leaders urged that every effort should be made to speed up proceedings before Industrial Tribunals and that, as warranted by circumstances, their number could be increased.

Initiating that day's debate Shri Deven Sen said that the Government was continuing the policy of British rulers who had kept down the level of wages in West Bengal where there was a large concentration of British Capital. Quoting figures the representative of an industrial part of the city

showed that the income of workers in West Bengal was lower than that of workers in other States. That was the case of workers in the State had not improved appreciably since Independence. The State Government's labour policy was not in conformity with the Centre's directives. Labour laws are not also being fully implemented remarked a veteran in this sphere.

Shrimati Maitreyee Bose who had long experiences in tackling with dock labour, congratulated the Government on its work for promotion of education among labour. But, taking an overall picture, she failed to share the Minister's optimism.

Shri Jatin Chakravarty suggested that the Government should appoint a team of experts to study the State's labour problem and lay down norms for the guidance of Labour Department officers. Stating his personal experiences as a Trade Union Leader Shri Chakraverty pointed out many of the defects of the Industrial Tribunals.

Shri Nepal Roy another representative suggested that leaders should be acquainted with labour laws. He said that the leaders' ignorance of such laws had sometimes led to undesirable results. As one of the labour leaders representing the northern part of the city, Shri Roy was critical to point out how the country's labour force was exploited by shark-natured industrialists.

The Assembly, sat for over five hours on Friday, the 6th March last and passed Shri Bimal Chandra Sinha's budget demand for Rs. 6.14 crores for expenditure under Land Revenue and payment of compensation to landholders and the demand for Rs. 25.47 lakhs for agriculture and fisheries moved by Shri Hem Chandra Naskar, Fisheries Minister.

During the debate several members complained that despite the Government's promises, the State's fish supply position had not only failed to improve but also fish prices continued to rise. The Government had no policy to improve inland fisheries which had great scope. The State, they said, had a deficit of about four million maunds of fish annually, the total supply being two million maunds including 1.2 million maunds from outside the State.

Replying Shri Jyoti Basu's question whether the Government measures so elaborately referred to in the Minister's speech would help to bring down the fish prices or not, the Minister said that the Government alone could do nothing unless people had the same urge as the Government to improve the State's potential.

In course of his speech the Minister also said that Deep-Sea Fishing project with the help of five trawlers from Denmark and Japan was also making satisfactory progress. Indian youths were getting training in catching fishes in deep sea. A number of retail shops had been opened in the city by Government as an experimental measure to sell sea-fish at a reasonable price. The main difficulty experienced by the Government in this respect was the absence of a jetty nearabout the sea-shore and a cold storage for storing the catches. Steps had been taken in this direction.

Assuring the House Shri Naskar narrated that during the last year arrangement was made for production of 40,000 maunds of additional fish in the State and it was expected to produce about 1.25 lakhs maunds in addition. The object of the Government was to make the State self-sufficient in respect of fish supply, he emphasized.

The Minister further said that there were about 90,000 fishermen in the State who were being helped with short term loans for procuring their nets and boats. Co-operative movement among these was going on and the Central Fishermen's Co-operative Society had been constituted with 350 fishermen.

Through a statement the Food Minister moved the demand of Rs. 3.84 crores under Finance and of Rs. 2.61 crores under Extraordinary Charges. The demands were

passed, after three cut motions had been pressed to a division and last 25 members participated in the debate which, according to Shri Sen, did not generate much heat. This was itself an indication that the new policy was on the way to success, the Minister said complacently.

The Food Minister said on Monday, the 9th March, that the State Government's new food policy was gradually proving successful. The Centre was co-operating fully with the State Government, meeting its needs as and when they arose. If the supply from outside the State was up to expectations there would be no difficulty in meeting commitments, he added.

The new policy had been so evolved as to ensure justice to farmers and consumers alike. There had been some initial difficulty regarding this city and industrial areas where the weekly arrival of rice from outside fell from 40,000 mds. to 6,000 mds. Some people thought that if the supply was cut the Government would give up its policy and profiteering would continue. The supplies to Calcutta increased to 28,000 mds. during the week ended January 25 and to 39,000 mds. in the week ended the 8th March last.

The Minister's impression was that at present 70% in 80% of the city's shops supplied rice at the scheduled prices. Penal measures had been taken against those who violated the law.

Referring to baby food, the Minister said that instructions had been given to Police to arrest any one who might charge higher price than that fixed by Government. They were, however, examining a proposal for a slight enhancement of the price in respect of one particular brand of baby food. The issue was raised in the House by Shri Ganesh Ghosh, a representative from the middle class and lower income group area of the city.

A section of the House's main contention was that the Government's new policy had failed. In spite of the Government's endeavour to ensure supply through modified ration shops, rice was not available at fixed prices in the open market. The Government had failed to procure enough rice to be able to feed the market and arrest the rise in prices, they emphasized.

DEMONSTRATIONS: Work at Calcutta docks was partially affected on Thursday, the 5th March last, when a section of dockers went on a eight-hour strike. There were 58 ships for loading and unloading at berths. About 30 per cent. of the hooks did not work, according to a Dock Labour Board officer.

The police stopped two processions on Lawrence Road near the south gate of Raj Bhavan, on Monday, the 9th March. About 200 farmers from Jangipara, Hooghly, who came in the first procession, dispersed after squatting for about two hours before the police cordon. It was followed by about 2,000 engineering workers who tried to push the cordon and dispersed only after persuasions from several Opposition M.L.A.s.

References to these demonstrations were made on the floors of the Assembly by the members. Janab Abdus Sattar, Labour Minister said that there had been some differences between employers and employees regarding certain recommendations of the Omnibus Engineering Tribunal's Award.

This week's greatest demonstration was staged on Wednesday, the 11th March, when a number of farmers from 24 Parganas, Howrah, Hooghly, Nadia and Midnapore districts went in procession from the Maidan under the foot of the Ocharkoney Monument, towards Assembly House to voice their grievances. They were stopped by a police

cordon on Lawrence Road near the south gate of Raj Bhavan.

While the demonstrators squatted, leaders of the West Bengal Provincial Kisan Sabha, which organized the demonstration, and some Assembly Members met the Chief Minister and placed their grievances before him.

AN ACCIDENT OF SERIOUS NATURE occurring on the Beliaghata Railway First Over-Bridge, eastern part of the city, killed immediately one passenger and a four month old baby. On Sunday night, the 8th March, a jeep with passengers and driver fell from 30 feet above the bridge on the railway track 30 feet below on the southern side of the western approach of the bridge and overturned. The jeep fell on the child and a 13-year old girl, who was also seriously injured and removed to hospital. Two other women standing nearby were slightly injured. Among the occupants the driver and another were removed to hospital with injuries. According to a preliminary police investigation, the jeep took the wrong line of the bridge, which was divided by a girder fencing, hit the 4 ft-high iron railing on the southern side and fell.

Almost a similar nature of accident occurred a few years back when a double-decker fell from the Tallah Railway Over-bridge killing and injuring a considerable number.

VITAL STATISTICS

For the City of Calcutta for the week ending
21st February, 1959.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 577 against 658 and 647 in the two preceding weeks and less than the corresponding week of the last year by 141. The general death-rate of the week was 8.85 per mille.

Town (Wards 1-27).

The number of deaths registered during the week ending 21st February, 1959, was 404 against 503 and 507 in the two preceding weeks. There was 1 death from cholera against 1 and nil in the two preceding weeks. There was nil death from small-pox during the week against 2 in the previous week. The mortality from fevers and bowel-complaints amounted to 14 and 46 respectively against 13 and 35 in the preceding week. The general death-rate of the week was 8.94 per mille per annum.

There were 41 imported deaths. Excluding these, the death-rate of the Town was 8.03.

There were 78 deaths from respiratory diseases against 100 in the previous week.

There were 21 deaths from tuberculosis against 33 in the previous week.

Added Areas (Wards 28-32 and Tollygunge).

The number of deaths registered was 113 against 155 and 140 in the two preceding weeks. Of these, nil from cholera, nil from small-pox, nil from influenza, 2 from fevers, 19 from bowel-complaints and 21 from respiratory diseases. The death-rate of the added areas was 8.56 per mille.

There was no imported death. Excluding this, the death-rate was 8.58.

There were 7 deaths from tuberculosis against 9 in the previous

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 17th March, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

32. Repairs to surface drain (portion) at Barwaritala Road, Ward No. 35—Rs. 1,361/-, dated 2nd March, 1959 (1 month).

33. Repairs to portion of drain in Badan Roy Lane, Ward No. 36—Rs. 1,898/-, dated 2nd March, 1959 (1 month).

Please note that words "Two months" as printed in italics in Clause 8 of the tender form, is to be scored and noted in ink as "3 months" and initialled.

S. MUKHERJEE,
District Engineer II.

District II Eng'g. Office:
The 9th March, 1959.

District No. III Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 18th March, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred

from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited. Agreement and security deposit are not necessary for the works below Rs. 2,500/-.

253. Construction of retaining wall at Lokenath Bose Garden Lane opposite 4, Lokenath Bose Garden Lane—Rs. 1,059/-, dated 11th March, 1959 (1 month).

254. Kerbing and channelling the remaining portion of Cobra Road in Ward No. 20—Rs. 3,213/-, dated 8th October, 1958 (1 month).

255. Repairs to bench shelter by construction of R. C. shed at Allen Garden—Rs. 381/-, dated 16th July, 1958 (1 month).

256. Construction of Boundary wall along the northern side of Rowdon Square—Rs. 4,510/-, dated 11th March, 1959 (1 month).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000.

A. C. SINHA,
District Engineer III.

District III Eng'g. Office:
The 11th March, 1959.

Naming of A Triangular Park

NOTICE.

It is proposed that the Triangular Park at the junction of Vivekananda Road and Baranoshi Ghose Street in Ward No. 21 be named as Tejendra Udyan.

Any person having any objection to the proposed naming should state the same in writing to the undersigned on or before Thursday, the 9th April, 1959.

A. K. DUTT,
Assessor (Offg.)

Central Municipal Office:
The 12th March, 1959.

Situation Vacant

NOTICE.

Applications are invited for the following temporary posts of labour staff for five months on the pay mentioned against each in connection with big diameter pipe laying works in the Moyerpur (Chetla area) and Tollygunge Area.

1. One Pipe Laying Mistry—Rs. 55-85 plus usual allowance.
2. One Plumbing Mistry—Rs. 55-85 plus usual allowance.
3. Eight Joiners—Rs. 40-45 plus usual allowance.
4. Twenty Khalasis—Rs. 40-45 plus usual allowance.

The applicants for the posts of Mistry, Joiner and Khalasis must have actual

experience in handling and laying big diameter C. I. Pipes and be conversant in connecting accessories.

The applicants for the post of plumbing mistry must be conversant with the plumbing work.

The applications for the above posts must not be below 25 years and above 40 years in age.

The applications for the said reach in the Water Works I. Construction Section by 20th March, 1959.

S. C. MUKHERJEE,
Executive Engineer,
Water Works.

Central Municipal Office:
The 9th March, 1959.

Sir Stuart Hogg Market

NOTICE.

To all whom it may concern, that an application has been received from Messrs. Manna Lal Singh and others for the registration of their name in place of the recorded occupiers in respect of Stall No. A 2 in the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asstt. Superintendent.

S. S. HOGG MARKET:
The 9th March, 1959.

To all whom it may concern, that an application has been received from Messrs. Shyam Sunder Mullick and others for the registration of their name in place of Mr. Md. Sarfuddin in respect of Stall No. G 16 in the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asstt. Superintendent.

S. S. HOGG MARKET:
The 10th March, 1959.

Auction Sale

NOTICE.

It is hereby notified for information of intending buyers that carts seized under Section 227(1) of the Calcutta Municipal Act, 1951 and not claimed within ten days of such seizure, will continue to be sold by public auction, as heretofore, everyday after 3 p.m., excepting holidays, by the Cart Registration Officer at his office at 155/1, Lower Circular Road, Calcutta, until further orders.

A. K. DUTT,
Licence Officer.

Central Municipal Office:
The 20th September, 1957.

SHOPS TO LET

SIR STUART HOGG MARKET

Applications with offers of initial rent for the privilege of occupying the undermentioned stalls on rents noted against each are invited and will be received by the Superintendent in the Market Office daily between the hours of 11 A.M. and 1 P.M. It should be noted that 50% of the offer of initial rent would have to be deposited immediately on the acceptance of same by the Committee, the balance to be paid within 7 days.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

NO. OF PREMISES AND TOTAL DEMAND OF CONSOLIDATED RATE IN THE CITY

Preliminary

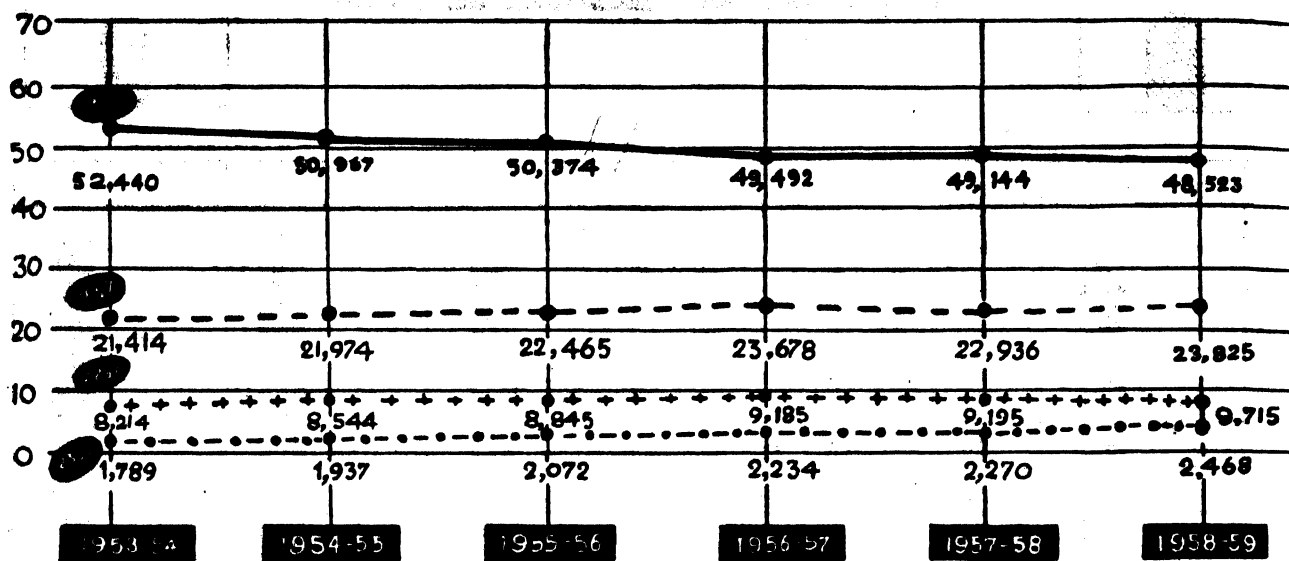

RATEABLE VALUE OF CITY HOLDINGS *In lakhs of Rupees*

The Chairman further disclosed that the Corporation had an outstanding arrear of unrealized revenue up to the tune of about Rs. 5 crores. Out of which Rate Bills, ready for disposal at the hands of the Collector, and others in the department of the Assessor and the Chief Law Officer, amounted to Rs. 3.09 lakhs. Objection cases against Assessment and Ratings, till undisposed of, would also amount to Rs. 150 lakhs. With greater administrative efficiency and solution of some of the legal complexities, the Corporation finances could be improved a little, remarked the Chairman. Consolidated Rates continued to be the principal revenue earner, being 56 per cent. of the total. The Corporation had sought the assistance of experts to reorganize the departments dealing with Consolidated Rates.

The Corporation had sought the assistance of experts to reorganize the departments dealing with Consolidated Rates.

Corporation's Nine Crore Budget Introduced

AS in previous years Calcutta Corporation's Budget Estimates for the year 1959-60 was duly submitted before the House on Wednesday, the 18th March by the Chairman of the Standing Finance Committee, Councillor K. L. Dhandhanla.

The estimates revealed an estimated Receipt of Rs. 844.47 lakhs against an estimated Expenditure of Rs. 891.76 lakhs. The estimated gap of an excess expenditure of Rs. 47 lakhs would be wiped out by an estimated increased Opening Balance of Rs. 61.70 lakhs on the 1st April, 1959 and thus the Closing Balance would reach at an estimated figure of Rs. 14.41 lakhs.

The Budget Estimates were originally prepared by the Chief Executive Officer, and was placed before the Standing Finance Committee on the 15th December last, according to the provisions of the Calcutta Municipal Act, 1951. Compiled strictly on the basis of the estimates prepared by the Departments concerned the Chief Executive Officer's Budget Estimates indicated an overall deficit of about Rs. 47.17 lakhs on the revenue fund. The estimated Receipts were then Rs. 747.25 lakhs against an estimated Expenditure of Rs. 806.91 lakhs. The estimated Opening Balance was then Rs. 12.49 lakhs only.

COUNCILLOR K. L. DHANDHANLA

The Standing Finance Committee met 24 occasions to discuss the original estimates and made considerable modifications on both the sides. Views and opinions were sought for from other important Committees. The Receipt side showed an increase of Rs. 97.21 lakhs. There was an increase of Rs. 84.84 lakhs on the Expenditure side also in order to provide an increased amount of essential amenities. The Opening Balance on the 1st April, 1959 has also been equally enhanced to about Rs. 61 lakhs by modifications and revision on the current year's expenditures. Thus the estimates showed that there would hardly be any financial stringency in spite of the fact that the Chairman of the Standing Finance Committee had not proposed any new taxes or suggested any enhancement of the existing ones.

Corporation's anxiety for new development work would be lessened this year with the undertaking of a number of them. For their safe execution Corporation would float Municipal Debentures to the extent of Rs. 513.05 lakhs. In addition to this the Union Government would subscribe Rs. 90 lakhs. The Loan Fund has already been credited with a balance of Rs. 394.64 lakhs.

Thus the Corporation would pay an annual interest of Rs. 44 lakhs. Although a portion of the unspent loan fund would earn interest to the extent of Rs. 18 lakhs still the Corporation would have to bear the burden of Rs. 26 lakhs, according to the Chairman of the Standing Finance Committee, who disclosed this at a Press Conference, which he addressed earlier.

It may be recalled here that the total Revenue Receipts for the year 1953-54 were Rs. 576.27 lakhs while the total Revenue Expenditures were Rs. 560.30 lakhs. Total Loans raised for the capital works during that year were Rs. 72.50 lakhs. Against this, Loan Charges were Rs. 68.58 lakhs only.

The Chairman further disclosed that the Corporation had an outstanding arrear of unrealized revenue up to the tune of about Rs. 5 crores. Out of which Rate Bills, ready for disposal at the hands of the Collector, and others in the department of the Assessor and the Chief Law Officer, amounted to Rs. 3.09 lakhs. Objection cases against Assessment and Ratings, till undisposed of, would also amount to Rs. 150 lakhs. With greater administrative efficiency and solution of some of the legal complexities, the Corporation finances could be improved a little, remarked the Chairman. Consolidated Rates continued to be the principal revenue earner, being 56 per cent. of the total. The Corporation had sought the assistance of experts to reorganize the departments dealing with Consolidated Rates.

Explaining what he called the Corporation's "fundamental imbalance between its functions and finances", Councillor Dhandhanja said that the Corporation would not be able to discharge its responsibilities fully unless there was a 'fundamental change' in the outlook of the Central and State Governments and appropriate basic modifications were made in the Calcutta Municipal Act. The Chairman regretted that the recommendations of the Local Finance Inquiry Commission and the Taxation Inquiry Commission had been put into "cold storage".

No doubt, this is the Corporation's long standing grievance and it is expected that these would be re-iterated even long after till the good senses of both the Union and State Governments would prevail upon them to bring about a change in the financial structure of the Corporation.

In that Press Conference, Councillor Dhandhanja acknowledged the need for a co-ordinating body on the lines of the proposed Metropolitan Water and Sewage Board to tackle the outfall and water supply problems of the Greater Calcutta area. He said he would be happy if the Corporation took the lead in the matter. The Corporation would be ready to co-operate with the Central and State Governments and the W.H.O. for any such purpose.

'The worst feature of the Corporation finances,' as the Chairman said 'is the spiralling cost of establishment,' and he sounded 'a note of warning.' The cost had gone up from Rs. 261.9 lakhs in 1952-53 to Rs. 381.4 lakhs in 1959-60. This has witnessed a rise of 45.6 per cent. within a period of seven years.

It should be noted here that similar rise in the cost of establishment has been witnessed in other Corporations also during the post-War era with the rise in the cost of living. And for this the rate-payers of Calcutta would not suffer as their amenities have not been curtailed. Many of the services provided to them had been included within these 'spiralling cost of establishment'.

Thus the 'lean finance' of the Corporation has put a log to do the best in the matter of health, primary education, road-repair, street-lighting, water-supply and other beneficent activities. And it should be reminded that the task of the Government cannot be averted in case of many of them. As regards public health and primary education there are definite provisions within the fold of the Directive Principles under the Constitution of India. Voices have been raised to help the Corporation in this regard by the legislators and others and the Government paid little heed to them. The Chairman has rightly suggested that a considerable portion of the expenditure on health and primary education should be borne by the State Government and this merits consideration.

Similar suggestions have been put up by several members in course of discussion that followed in days together. They said that the Government could not helplessly look on when the city Corporation suffered from so many evils and ends. Their speeches would be published in a subsequent issue of the "Gazette". The Mayor piloted the discussion.

INTRODUCING the Budget before the House, on Wednesday, the 18th March, the Chairman said :—

"There is no doubt that this Corporation has been doing the best of a bad job entrusted to it by the Calcutta Municipal Act of 1951. The expression 'best of a bad job' with a sense of responsibility convinced one that this Corporation would not be able to discharge the full responsibility that is expected of it without a fundamental change in outlook of the Central and State Governments, and appropriate basic modifications in the Calcutta Municipal Act, 1951. The Act was framed in the mental cloud of prejudices so badly depicted in the Biswas Commission Report. The mantle of freedom in which the City was robed by Sir Surendranath Banerjea was torn away in 1948 and the civic life lapsed into a state of torpor for four long years. Although democracy was sought to be resuscitated by the Act of 1951, the new Corporation emerged with most of the former duties and responsibilities, but with the important powers distributed between the Executive and the Service Commissions. What is more significant is that the implications of a planned economy trying to establish a Welfare State could not be visualized while enacting the Act in 1951. The development of planned economy and the obligations of a Welfare State necessarily involve a re-adjustment in the allocation of responsibilities and resources among the Central, State and Local Governments. Some broad directions are necessary to change the constitution and functions of the Municipal Government of this Metropolitan City. First, the multiplicity of the authorities to determine the civic life be referred to. The development of the city, its electricity, gas supply, transport, fire service, etc., are all under different authorities and profit-making concerns. The bustees wherein live roughly 25 per cent. of the population are privately-owned and the majority of the markets are similarly owned and managed. Primary education and public health are marginally entrusted to the Corporation, and it has no say in the matter of rehabilitation of

not less than eight lakhs of displaced persons within the city. I think, the time has come when there should be a re-thinking of this aspect of civic life in Calcutta so that more co-ordinated and efficient arrangements can be made to meet the problems of the human ant-hill that we have in this City. Second, the problem of finance of this Corporation have been focussing this problem every year. The Local Finance Enquiry Committee and then again the Taxation Enquiry Commission made a number of recommendations to improve the finances of the Corporation consistent with its local freedom. I regret that all those valuable recommendations have been put into cold storage. If you apply the accepted tests to judge the financial structure of the Corporation, viz., (i) authority to raise revenue, (ii) magnitude of expenditure required to discharge the responsibility on any acceptable level, (iii) bases for raising revenue, and (iv) freedom of Budgeting, one would certainly notice that the present Act cannot stand any of the tests. In the local finance in some of the foreign countries, grants-in-aid on a statutory basis are relied on as in Great Britain and these are being increasingly introduced in the U. S. A. In France and Western Germany, sharing of taxes is more important. In Bombay the majority of essential civic services is in the hands of the Corporation which make the resources flexible. Lastly, the principle of Self-Government envisaged in the Constitution of the country and which is intended to be extended even to the rural areas through the Panchayat system may be better implemented in the Metropolitan City of Calcutta by entrusting wider powers to the hands of the elected representatives of the citizens. Sir, I would therefore appeal to all sections of the House to raise their united voice from this Corporation as also to mobilise public opinion in Calcutta for a thorough overhaul of the Calcutta Municipal Act of 1951.

BUDGETING IS A JOINT ENDEAVOUR

We have been persistently following certain Budgetary principles to set our house in order and to strengthen the base of the Corporation's finance. In this endeavour the Standing Finance Committee has been increasingly relying on the active co-operation of not only the Officials of the Corporation but also of the large number of Standing Committees and Borough Committees through which the Corporation functions.

Our stubborn adherence to those principles has enabled us to achieve some success in the financial field, within the limitations of the Act. We have repaid Rs. 41.8 lakhs to the State Government which devolved on us as a legacy from our predecessors. Between 1953 and 1959, we have redeemed Rs. 4.07 crores of old Debenture Loans besides raising Rs. 6.5 crores from the open market by way of new loans. The value of the assets in the shape of various blocks amounts to roughly Rs. 30 crores and the value of the roads, footpaths, drainage channels and other tangible possessions would amount to over Rs. 14 crores. The main problem, however, relates to collection.

The estimated Opening Balance of the Loan Fund amounting to Rs. 394.64 lakhs includes the amount of Rs. 73.36 lakhs raised during the second half of the year. The Standing Finance Committee has increased the provision for Debenture Loan to be raised during 1959-60 by Rs. 49 lakhs to Rs. 513.05 lakhs. This amount includes the loan amounting to Rs. 27 lakhs, already sanctioned by Government.

RECEIPTS & EXPENDITURE

Careful scrutiny has enabled the Committee to increase the revised Revenue Estimate for 1958-59 by Rs. 8,01,000 and to curtail the revised Estimates of Expenditure by Rs. 41,20,000. This has resulted in the improvement of the Opening Balance to Rs. 61.70 lakhs on the 1st April, 1959. The rise in Receipts by Rs. 8,01,000 is mainly accounted for by the increase of Rs. 7 lakhs under "Consolidated Rate" and by the increase of Rs. 50,000 under "Interest on Surplus Cash Balances". The reduction in Expenditure has been mainly due to a decrease of Rs. 30 lakhs under "Works under Boroughs" and a curtailment of Rs. 10 lakhs provided for purchase of Motor Vehicles. Other minor modifications account for Rs. 11.20 lakhs.

The net rise in Receipts for 1959-60, which has been effected by the Committee, amounts to Rs. 97.21 lakhs. The improvement under Consolidated Rate is of the order of Rs. 22.5 lakhs. A rise of Rs. 20 lakhs is expected in receipts from Central Government towards service charges. The State Government's contribution for arrears on account of Dearness Concessions is estimated to improve by Rs. 12.29 lakhs. By way of adjustment of profits in the Entally Workshops would credit six lakhs; Rs. 22 lakhs has been diverted from Special Funds for capital works out of Revenue. The Funds would be replenished when the loans are raised. Other major modifications relate to Fees from Licenses under Prevention of Food

Adulteration Act, Rs. 1.50 lakhs ; Receipts under Fees for copies of plans, etc. (City Architect's Department), Rs. 1.52 lakhs ; Interest on Surplus Cash Balances, Rs. One lakh ; Government grants for additional dearness allowance and food concessions, Rs. 4,29,000, and Sale of redundant gas lamps, Rs. 3.50 lakhs.

On the expenditure side, we have made increased grants totalling Rs. 84.84 lakhs with a view to expanding the civic services. A new feature is a provision of Rs. 20.38 lakhs by way of temporary advance from Revenue for some important works of capital nature. This would ensure expeditious execution of the projects, while the revenue funds would be duly re-imbursed on the loans being raised. Rs. 2 lakhs has been provided for opening a municipal market in the fast developing area of New Alipore. Another sum of Rs. One lakh has been made available for extension of the existing markets. The Standing Finance Committee would never be a party to any abatement of Borough activities. The rise in grants for these is of the order of Rs. 56 lakhs. On the recommendation of the Standing Water Supply Committee, Rs. 1.50 lakhs has been allocated for re-sinking tube-wells. An additional amount of Rs. 1 lakh has been set apart for replacement of ambulance cars. For purchase of motor vehicles, the supplementary sum of Rs. 10 lakhs has been carried over from last year making a total of Rs. 20 lakhs available for purchase of vehicles during the next year.

CONSOLIDATED RATE STILL NOW MAIN FEATURE OF RECEIPTS

Consolidated Rate continues to be the principal revenue-earner. Receipts under this head are estimated at Rs. 4.70 crores, constituting 56 per cent. of the total revenue. The Preliminary Demand is estimated at Rs. 4.58 crores. The rateable valuation of the City is expected to rise to Rs. 21.44 crores in 1959-60.

In regard to the question of fixation of a suitable percentage on account of service charges of CENTRAL GOVERNMENT PROPERTIES acquired or erected after 31st March, 1937, the Corporation's demand of at least 20 per cent., as twice recommended by the State Government of West Bengal, has not been accepted by the Government of India. The Union Government has, instead, decided to fix the percentage at 15 per cent. but on further representation from the Corporation they have now made their final offer of 18 per cent. of the gross annual values of the properties concerned. The Corporation feels that although the Central Government's latest offer is unfair, yet, having regard to the huge amount that is held up, there is no other course open than to accept it for a period of 5 years only commencing from 1st April, 1954, without prejudice to the right of the Corporation to demand a higher percentage. The Standing Finance Committee has estimated that a sum of Rs. 30 lakhs will be received in the ensuing year on this account.

As regards the rateable properties of the Central Government, the dispute has been partly resolved. Valuations in respect of the properties under the Defence Department were decided by the Special Officer, and rate bills on the finalised valuations presented to the Garrison Engineer, Fort William. But the full payment of such bills, is expected as per decisions taken at a recent conference held between the representatives of the Government of India, the State Government of West Bengal and the Corporation. The higher authorities in Delhi have been apprised of this position officially. I also personally discussed this matter with them in my recent visit to Delhi and urged upon them to see that payment was made without any further delay.

The Corporation is experiencing some difficulty in regard to the finalisation of the valuations of the properties under the Civil Departments. The local officers of the C. P. W. D. are not attending the hearing of objection cases, although they have been repeatedly requested to help the Corporation in this regard.

A sum of Rs. 12 lakhs towards Supplementary Bills has been earmarked in the Budget on this account. The preliminary demand will also increase by Rs. 2 lakhs annually.

Recently, a meeting was held between the members of the Finance Committee and officials of the Port Commissioners, at which some tentative decisions were taken, which will shortly be placed before the Corporation and the Port Commissioners for ratification. It is felt that the long-drawn dispute will now be resolved. Meanwhile, on-account payment of Rs. 10 lakhs has been provided for in the Budget, as in last year.

CALCUTTA IMPROVEMENT TRUST PROPERTIES

As a result of enforcement of Sections 29 and 30 of the C. M. (Amendment) Act, 1953, the Corporation is no longer entitled to assess on amalgamation the properties acquired by the C. I. T. for the execution of Improvement Schemes. It was found that there were complicated administrative difficulties involved in assessing individual holdings and issuing separate Rate Bills in respect of them,

and it was agreed between the Trust and the Corporation that these properties would continue to be assessed on amalgamation, but rate bills in respect of them would be issued at a uniform percentage, viz., 22 per cent. of the amalgamated valuation. The State Government has been requested both by the Trust and the Corporation to amend the Calcutta Municipal Act accordingly. Meanwhile the Corporation had requested the Trust to make on-account payment at 22 per cent. but the Chairman, C. I. T. offered to make the on-account payment at 20 per cent. only. Accordingly a claim of Rs. 7 lakhs calculated at 20 per cent. of the amalgamated valuation from 1st July, 1956 to 31st March, 1959 (period for which rate bills at 23½ per cent. of the amalgamated valuations are outstanding) was made. As no payment was forthcoming, the Corporation passed a resolution that the equivalent amount should be adjusted against the Corporation's contribution to the C. I. T. payable on 1st April, 1959, if payment was not received by 31st March, 1959. The Improvement Trust has objected to such a course being taken against them and has now offered to make an on-account payment at 15 per cent. only. The Chairman's latest offer is under examination now. It is however felt that the C. I. T. should not have any difficulty in paying at 20 per cent. In fact, they had earlier agreed to pay at that rate. Furthermore, the on-account payment has been claimed merely as an interim arrangement and this is subject to adjustment against proper bills that will be issued after the Act is amended.

SUPPLEMENTARY BILLS.

There is a serious complaint that a large number of Supplementary Bills are issued at a time in respect of individual holdings, resulting in great hardship to ratepayers. While admitting that in some cases supplementary bills have been issued for as long as five or six years at a time, it would appear that the situation is improving on the whole. These cases relate mainly to the Special General Revaluation undertaken during the supersession period, when a large number of objections was not finally disposed of because of their complex nature. Certain time-lag is inevitable between the date of receipt of an objection and the final stage of issuing of Rate Bills on the finalised valuation. Moreover, the change in the mode of valuation, as prescribed in the C. M. Act, 1951, has given rise to a greater number of objections, as the revised valuations are registering an increase in almost each individual case. Those factors have multiplied the number of supplementary bills to a great extent. Directions have, however, been issued to ensure that the time-lag between the receipt of objections and the issue of supplementary rate bills may be brought to the minimum.

The delay in the disposal of objections leads to the issue of a large number of Supplementary Bills. The Standing Finance Committee has gone into the matter and has taken certain steps with a view to improving things. While the Committee feels that the machinery rather went out of gear in consequence of the Special G. R., it is satisfied that with stricter control in the administrative machinery the rot could be checked and better results obtained. With this end in view the Committee requested the Chief Executive Officer to submit a report as to how things could be improved. The Finance Committee has recommended the suggestions to the Corporation for its consideration.

RATING AND VALUATION OF PROPERTIES.

The new Act of 1951 effected certain basic changes in the field of rating and valuation of properties in Calcutta. It has not so far been possible to decide about the organizational set-up that would be best in conformity with the changes. Recently, the Corporation had requested a firm of repute, Messrs. Ibcon & Co. (Private) Ltd. to go into the question of reorganization of the Departments dealing with the Consolidated Rates, and they have submitted a report which is being looked into.

GOVERNMENT GRANT FOR DEARNESS ALLOWANCES.

The State Government bear 80 per cent. of the cost of Dearness Allowance and Food Concession to the Corporation employees by way of contribution. Such contributions, were being paid by Government since 1942-43. But from the year 1954-55, they began to pay at the rate of 70 per cent. on the claim of recovery of alleged overpayment of Rs. 32 lakhs from 1942-43 to 1953-54. There has been no settlement as yet with the Government on this question of overpayment. Unfortunately, the Government was continuing their grant at the rate of 70 per cent. until the third quarter of 1958-59, which has resulted in a considerable amount of short payment since 1954-55. The sum thus short paid up to 31st March, 1958 amounted to about Rs. 69 lakhs. After deducting the alleged overdrawal of Rs. 32 lakhs and Rs. 7.11 lakhs recovered from the Government's loan instalment of 1956-57, the net amount short paid comes to Rs. 29.65 lakhs. In a

comprehensive memorandum submitted to the Government by the Corporation showed that the actual establishment cost has gone up considerably during recent years. The Government have agreed to pay at the rate of 80 per cent. from the fourth quarter of 1958-59. They also agreed to pay about Rs. 14.5 lakhs out of short payment of Rs. 29.65 lakhs during the current year. Accordingly, this amount of Rs. 14.5 lakhs has been shown in the revised estimate of 1958-59. The Committee thought fit to include the balance amount of Rs. 15.25 lakhs in the Budget of 1959-60.

As regards additional Dearness Allowance of Rs. 5 per month from 1st April, 1957, the Government agreed to pay 80 per cent. of the cost for payment to the employees drawing above Rs. 100 and up to Rs. 250 per month. They only agreed to make ways and means advance repayable in 7 annual instalments at an interest of 3-7/8 per cent. per annum. This issue is still unresolved and we have made strong representations to Government that it is their obligation to pay 80 per cent. of all the cost involved for Additional Dearness Allowance to all employees drawing up to Rs. 250 per month. The Government is still paying at the rate of 70 per cent. instead of at the rate of 80 per cent.

SPIRALLING COST OF ESTABLISHMENT

The House Rent allowance on Government scale have for the first time been sanctioned recently. Employees drawing pay upto Rs. 250/- per month have been granted additional dearness allowances. Motor car, motor byke and scooter allowances have been revised in many cases. The age of retirement has been raised by five years to sixty. Several thousands of indiscriminately recruited employees have been made permanent and special increments granted to them. Ways have been found for retaining in service temporarily appointed clerks, stenographers and Division III teachers. A large number of Tollygunge optees has been given Corporation pay-scales. Staff, recruited purely on a temporary basis, have been allowed to continue indefinitely. There has not occurred a single case of retrenchment. The Corporation service conditions are considered so good that the Outfall staff have exhibited fear of being brought under Government control. A large number, declared as surplus, is being retained by the Corporation on its pay-roll. This year a scheme of special increments has been sanctioned to the employees pending revision of grades. The scheme would entail the Corporation a recurring annual cost of over Rs. 15 lakhs. A Sub-Committee appointed by the Standing Finance Committee has been sitting for the last two months in order to finalise the questions of revision of grades to all categories of employees, weekly leave, etc.

The Minimum Wages Advisory Committee would soon fix the minimum salary for Corporation workers. Numberless workers are trekking to Calcutta in search of jobs. Without homes, without families, they crowd the pavements and open spaces of the City, creating for it fresh problems of water supply and sanitation.

While I do not hold that the Corporation has done too much for its employees, I must appeal to them to appreciate that after all the Corporation can improve their conditions as much as its citizens can bear. The citizens must expect better and more efficient services from the Corporation, that is, from its employees. I wonder if the Corporation has not gone to the limit of its capacity in spending on establishment out of its present limited resources. There may, however, be still scope for some improvement in the conditions of the middle-class employees, who have been badly hit by the inflationary pressures in the country.

CALCUTTA IMPROVEMENT TRUST.

A big chunk of our revenues has to be turned over to the Calcutta Improvement Trust every year. During the 20 years from 1938-39 to 1957-58, the Corporation paid to the Trust the colossal amount of Rs. 5,34,77,522. We are paying Rs. 42.20 lakhs this year. Next year, the figure would register a further rise to Rs. 44.73 lakhs. Although the amount is calculated at 2 p.c. of the annual rateable valuation of properties, the actual payment constitutes about 10 p.c. of the yield from Consolidated Rate. The sum would enable us to raise a loan of Rs. 5/6 crores for development on fairly advantageous terms.

While our earnings are being pumped out to the Trust in this manner, the return to the Corporation is hardly commensurate with the sizeable payment made annually. Since the Trust is prone to concentrate on relatively self-financing projects, the under-developed areas have not been looked after and developed as they should have been. Because of the Trust's policy, the Corporation has to find large sums for improving these regions. The Trust was set up for undertaking development works of the Corporation. The basic objective is being forgotten. Moreover, the Trust is now being gradually translated for all practical purposes into a House Building Society. It is not suggested that housing is not essential. But, if the

Trust's activities are progressively concentrated in this sector, little would remain for development. I am constrained to give expression to the feeling shared in many quarters that the utility of the Trust at present to the Corporation is perilously very little. It had better be merged with the Corporation, as in Bombay.

BOROUGH COMMITTEES.

The new Act has eliminated plural constituencies and considerably enlarged the electorate. The Councillors are now able to maintain close relations with the voters. In order to assist them in satisfying the regional needs, the Borough Committees have been provided with special funds which appear to be well-spent. In the first Budget for the year 1953-54, the allocation of Rs. 3 lakhs was made for the Borough Committees. Next year, the amount was raised to Rs. 7.5 lakhs. During the three years 1955-56, 1956-57 and 1957-58, Rs. 24 lakhs was provided annually. This year an additional sum of Rs. 6 lakhs was set apart for undeveloped and underdeveloped Boroughs, besides the usual allocation. This time we have provided for the Boroughs Rs. 24 lakhs. For the undeveloped and underdeveloped Boroughs, the provision is Rs. 6 lakhs. Thus the Boroughs would be called upon to spend as much as Rs. 60 lakhs including arrears for solving local problems.

ROADS & FOOTPATHS.

We have provided Rs. 51.27 lakhs for roads & footpaths in the next year's Budget. Current year's revised figure stands at Rs. 45.61 lakhs. Many road improvement projects are also included in the list of works to be executed out of funds provided under B. I. 90E. During recent years, the Corporation has made great efforts in improving the condition of roads. The camber of many roads has been properly laid and pot-holes removed. Footpaths have been constructed on many roads, old footpaths repaired and kutcha ones paved.

CONSERVANCY.

The efforts made by the Corporation to improve its Conservancy Service in recent years have been considerably successful. Half the city is now under the house-to-house collection system. The service cart would soon be a thing of the past. With the matching grant of the Union Government, carriage of night soil on head load would be replaced by a special type bucket carrier.

From the year 1953-54 to date, the Corporation has spent Rs. 67.72 lakhs for the purchase of new vehicles. The next year's allotment amounts to Rs. 22.68 lakhs. During the past few years 80 additional lorry services have been introduced and at present 410 services are run daily. The Corporation has every day to dispose of 2200 tons of refuse, 400 tons of silt and 1 lakh gallons of night soil.

The new Refuse Platform and the rail-head, built at a cost of Rs. 10 lakhs, were opened in January this year. Two new Locos, in addition to the two recently purchased, are in commission. The two bulldozers are of considerable use specially for dressing and levelling the Corporation land on which refuse and silt are dumped.

WATER SUPPLY.

The new Corporation has spent most of its energy and resources for solving the problem of the city's water supply. Out of the loans amounting to Rs. 6.5 crores raised by the Corporation since 1952, as much as Rs. 3.87 crores relate to projects designed to augment water supply. For the same purpose is earmarked a sum of Rs. 1.45 crores out of the Central Loan of Rs. 2.25 crores.

Apart from big projects for augmentation of supply from the Pulta source, the measures for interim relief by sinking tube-wells have been undertaken. Seven big dia. tube-wells have been put in commission this year. Two more sunk by Government for fire fighting would be in use very shortly. This would raise the total number of big diam. tube-wells to 78. Twelve additional big tube-wells are included in the list of works to be executed out of the recently sanctioned loan of Rs. 27 lakhs. During this year, as many as 1,027 small diam. tube-wells have been installed in addition to 2,848 Nos. previously sunk. Another 227 Nos. would soon be completed.

Large lengths of mains have also been laid. Reserve Mains measuring 9,600 R.ft. have been completed during this year, in addition to 4 in. and 6 in. filtered and unfiltered service mains of 28,000 R.ft. Works in hand include 18,007 R.ft. of mains from Borough funds and 11,500 R.ft. out of loans. Moreover, a large number of pipe-laying works are included in the list of projects to be financed from the aforementioned loan of Rs. 27 lakhs.

The completion of the augmentation schemes costing Rs. 430 lakhs would raise the level of water supply to 150 million gallons per day. For this purpose, new Water Purification Plants at an estimated cost of Rs. 99.6 lakhs with a total capacity of 60 m.g.d. will be installed at Pulta. Tenders for the work were

received last month. A new Intake Station consisting of 3—1.75 and a new Pressure Station with 3—1.5 m.g.h. electrically driven Pumping Sets are projected for Pulta. Tenders in this connection have been called for. At Tallah a new Storage Reservoir of 7 million gallons capacity will be constructed. Also there will be installed at Tallah a new Pressure Station consisting of 4—1.5 m.g.h. pumping sets for improving distribution. Tenders have been invited for the work.

To bring the additional water from Pulta to Tallah, a new 72 in. pipeline is being laid, at a cost of Rs. 2.25 crores. The factory set up by the firm of contractors to which the work was entrusted went into production last month. The pipeline is being designed on the most modern methods. The fabricated pipes, internally and externally welded, are subjected to a hydraulic pressure test and then finally coated with coal tar on both sides and with fibre glass on the outside. Resort would also be taken to a novel method, an electro-chemical process known as "cathodic protection", by which the pipes would be guarded against corrosion when laid underground. The factory would need a continuous supply of steel. Of the total quantity of 13,700 tons, 4,500 tons have been supplied. Quota certificates for 1,300 tons have been received. The Ministry of Steel, Mines and Fuel has assured us about the proper maintenance of supplies for this vital project.

DRAINAGE.

The drainage position of the Corporation has recorded satisfactory progress. When the schemes in hand are completed, the congestion would be almost eliminated.

During the current year, the sewerage of Garcha 2nd Lane (portion), Ballygunge Place (portion) and Old Ballygunge 2nd Lane have been completed.

Vast improvement has been effected in silt-clearance work. The quantity of silt removed from brick sewers amounted to 5,72,759 c.ft. in 1952-53 in the city's 100 miles of brick sewers. The quantity improved to 8,66,024 c.ft. in 1957-58. This year has marked further improvement. Night work has been introduced after a decade and a half and additional temporary hands appointed for sewer cleansing. The extra quantity of silt removed by the additional staff during the current year amounts to 4,00,000 c.ft. Next year also we have made a provision of Rs. 1.70 lakhs for the work.

One satisfactory feature in this connection is the augmentation of the existing pumping stations' capacities and the opening of new stations. The new Beerpara P. S. functioned throughout the year. The Dhappa Lock Pumping Station has made a start. Two Electric pumps with a total capacity of 2.2 million gallons per hour have been installed at Ballygunge Drainage Pumping Station. At Palmer's Bridge P. S. a large pump possessing a capacity of 2.86 million gallons per hour has been erected.

Remodelling of the Storm Water Channels upto Bantola for a total length of 11 miles was taken up at the end of the last year. Works of the value of Rs. 15 lakhs have been completed and the remaining works are in progress.

The drainage work under the Water Supply and Sanitation Schemes to be financed out of the Central loan are of the value of Rs. 80 lakhs and comprise the following projects :—

(1) Augmentation of pumping capacities—

At Palmer's Bridge P. S.	Rs. 15 lakhs.
At Ballygunge Drainage Pumping Station	Rs. 12 lakhs.

	Rs. 27 lakhs.
(2) Covering up the Storm Water Channels	Rs. 21 lakhs.

(3) Scheme for sewerage of unsewered areas :

District No. I	Rs. 2.27 lakhs.
District No. II	Rs. 3.30 lakhs.
District No. III	Rs. 12.25 lakhs.
District No. IV	Rs. 14.17 lakhs.
	<hr/> Rs. 32.00 lakhs.

All tenders for augmentation of pumping stations' capacities have been called for. The work in connection with the other projects is in progress.

The question of taking over the Outfall by Government has not yet been finalized. Most of the terms and conditions have been settled.

STREET LIGHTING

An expenditure of Rs. 29.39 lakhs has been provided next year for lighting. A noticeable improvement has been effected in street lighting during the last few

years. At the start, the problem of inadequate gas supply was faced. The thermal value of gas had become low and the specific gravity high. Moreover, the supply system had developed serious defects, such as accumulation of filth, leakage and perforation. The present Corporation adopted early the policy of gradual conversion of all gas lamps. The programme of switching over to electricity is being energetically pursued.

A large number of gas lamps of old and stereotyped pattern which were found inoperative and unserviceable for modern street lighting has been replaced by electric lamps. On the main thoroughfares, electric fixtures have been fitted on steel poles having ornamental brackets. The introduction of narrow passage lighting scheme in the interior roads is another achievement in solving the problem of street lighting. The scheme envisages installation of electric lamps on wall brackets by taking supply of electrical energy from domestic service mains. About 5,000 such lamps have been installed during the last few years and they are operating successfully with half the cost of maintenance and about double the illumination in comparison with gas lamps. In the year under review about 3,500 electric lamps have been installed by way of replacements. For better illumination, the wattages of many electric lamps have been enhanced and mercury vapour and fluorescent lamps installed.

The number of gas lamps in the city has now come down to 5500 and these also are expected to be converted in course of the next two years.

There is scope for further improvement particularly on busy thoroughfares having heavy vehicular traffic. New electric lights required to be installed in those streets keeping in mind the traffic conditions. The Corporation had already installed fluorescent lamps and mercury discharge lamps on some busy thoroughfares with A. C. supply. It is proposed to extend this type of lighting to other roads where low tension A. C. supply may be available. Messrs. The Calcutta Electric Supply Corporation Ltd., have agreed to arrange for, at their cost, L. T. A. C. Supply in D. C. area from H. T. points by installing pole transformers.

The Standing Finance Committee has provided for Rs. 12 lakhs in the Loan Budget next year for improvement of lighting on main thoroughfares. It has been decided to give first priority to the raising of this loan. In order to get on with the project without delay, an immediate diversion of Rs. 4 lakhs from the Revenue Fund has been recommended.

The lighting of parks has been greatly improved. In the bathing ghats and the approaches, dim gas lamps have been replaced by powerful electric lights. The road junctions are now adequately lighted. The public urinals and latrines have also been fitted with electric lamps.

Special lighting arrangements at the bathing ghats and their approaches and pandals, during the last Durga Puja and Kali Puja festivals for several years have drawn forth appreciation from the public.

NEW DEVELOPMENTS OUT OF REVENUE FUND

An interesting feature of the next year's Budget is the provision of a sum of Rs. 20.38 lakhs under a new budget head viz. B.I. 90E for carrying out several urgent works of drainage, road improvement, prevention of flooding, lighting, etc. Out of this amount, Rs. 19 lakhs has been made available by diversion from special funds which would be recouped when the loans are raised. Of late liberal drawings were made from revenue funds for new works. This is a proof of Corporation's anxiety to improve the civic services as expeditiously as possible.

The following figures would show the rising trend of expenditure for new works out of revenue :

	Rs.
	(Lakhs)
1953-54	9.56
1954-55	21.04
1955-56	19.08
1956-57	14.94
1957-58	19.11
1958-59	46.31
(Revised)	
1959-60	1,04.08
(Budget)	

HEALTH SERVICES

The Corporation has continued its policy of raising the standard of its health services. But its lean finances would never permit the Corporation to do the best. Calcutta is a metropolitan City and the expenditure for its health measures should in considerable part be borne by the State Government.

A sum of Rs. 45.28 lakhs has been provided in the next year's budget for the health services. The expenditure amounted to Rs. 26.50 lakhs only in 1952-53. Early this year we had to combat cholera epidemic on a fairly large scale. Prompt and vigorous measures brought the menace under control. The Corporation incurred about Rs. 12.61 lakhs for the purpose.

The army of epidemic staff has been considerably strengthened. The staff of 80 Epidemic Officers and 273 Vaccinators have been retained for a further period of two years.

Funds have been provided for opening ten new Milk Kitchen Centres next year. A sum of Rs. 2 lakhs has been allocated for ten ambulance vans.

The building at 59, Christopher Road for housing the Tangra Maternity Home is almost complete. The Home would shortly be started.

An expenditure of Rs. 2.68 lakhs has been allotted for the maintenance of tree beds in different hospitals in the city. The contributions of the Corporation to Hospitals, Dispensaries, Alms Houses, etc. are estimated to Rs. 8.46 lakhs next year.

All the four Chest Clinics of the Corporation are being satisfactorily run. The Mansatola Chest Clinic is now one of the biggest and best equipped one in city. In the three Mayor's Chest Clinics, the arrangements for domiciliary treatment of patients are being continued.

The World Health Organization also desires to finance the West Bengal Government's scheme, to be introduced next year, for provision of treatment facilities patients belonging to the low-income groups in Calcutta. The city would be divided under the scheme into eleven zones, each with a unit of doctors, workers and vehicles.

PRIMARY EDUCATION.

In recent years, there has been large expansion of the Corporation activities in the sphere of primary education. There are 251 schools now, as compared to 216 in 1951-52. The roll-strength of students has risen during this period to 49,000 from 42,000, while the number of teachers is at 1,535 against 1,040. The Corporation is spending about Rs. 35 lakhs annually for primary education in the City, although its statutory obligation in this sphere can be discharged by an expenditure of Rs. 5 lakhs only according to the Calcutta Municipal Act, 1951.

The programme of finding accommodation for schools in Corporation's own buildings is under progress. Three buildings have been completed during the past two years and two more are nearing completion.

Electric installations have been completed in a number of schools. Medical examination of school children is being regularly carried on. Extra-curricular activities have also been improved.

About 70,000 pupils are given primary education by other schools. Then it is necessary to make provision for another two lakhs of children. Obviously not within the competence of the Corporation finances, we have recently urged upon Government either to render adequate financial assistance to the Corporation for promotion of primary education, or, in the alternative, to take over the entire work from its hands. Indeed, under the Constitution, the responsibility rests with the State.

The State Government has received crores of rupees from the Centre during the Second Plan period for imparting primary education. The Corporation should be given a share of it.

INVESTMENT OF FUNDS

For the purpose of investment, the fund of the Corporation may be broadly divided into three sections viz., Municipal Fund, Sinking Fund and Provident Fund. The investment of the Sinking Fund is invariably made by transfer of Security Bonds from the Municipal Fund. No direct investment is made by purchases from the open market.

As regards the Municipal Fund, investments are made mostly in time deposits and call deposits with the approved Banks at current rates. Investments are made from time to time in Corporation's own Debentures, Improvement Trust Debentures, Port Trust Debentures and Government Securities at current rates. These are made by the Commissioner and monthly statements of these investments are placed before the Standing Finance Committee and the Standing Accounts Committee regularly.

In case of the Provident Fund, investment is made partly by way of time deposits and call deposits with the Banks approved by the Corporation and sanctioned by Government at the rates prevailing from time to time and partly in Securities. The investment in Securities is made mostly in the Corporation's Debentures, either from the market or by subscribing the Debenture Loans floated by the Corporation and partly in other Securities approved under the

Provident Fund Rules. All these investments, whether in securities or in deposits with Banks, are made with the approval of the Trustees in whom the power vests for investment.

The total investments out of the Municipal Fund from April, 1958 to December, 1958 amounted to Rs. 320.56 lakhs viz., Rs. 320 lakhs in the approved Banks and Rs. 56,000 in Securities. Of the total investments in Banks, Rs. 285 lakhs was invested in Time Deposits bearing interests varying from 3-3/8 p.c. to 4-1/2 p.c. and Rs. 35 lakhs in call deposits at interests varying between 3-1/4 p.c. and 4-1/4 p.c. As regards securities, Calcutta Municipal Debentures and Calcutta Improvement Trust Debentures for Rs. 21,500 and Rs. 35,000 respectively were purchased.

The total investments of the Provident Fund during the same period amounted to Rs. 59 lakhs viz., Rs. 33 lakhs in time deposits with Banks at interests varying between 4 p.c. and 4-5/8 p.c. and Rs. 26 lakhs in securities bearing interest at 4-1/4 p.c.

SLUMS & THEIR IMPROVEMENTS

The present Corporation has diverted its special attention to the problems of the Bustee areas. Excluding Tollygunge, in respect of which accurate data are not available, bustees in Calcutta cover a space of 1,615 acres out of the total area of 19,697 acres. The bustee population is estimated at 6,17,774 persons. Huddled together in ramshackle structures, most of the people have to live under unhygienic conditions, sanitation being poor and water supply meagre.

The Calcutta Slum Clearance Act, enacted this year, vested the State Government with requisite authority for slum clearance. The Act has lowered the rate of compensation to landlords with provision for better alternative housing for bustee dwellers. The living conditions of slum dwellers could be immediately improved by a scheme for remodelling and improving the bustees. But the Act has failed to provide for such improvement while it has taken away the powers of the Corporation on this behalf. It is understood that the West Bengal Government has provided Rs. 27 lakhs in the next year's Budget for the purpose. The C. I. T. would construct 800 multi-storeyed single-room tenements on Barrackpore Trunk Road and Dum Dum Road at a total cost of Rs. 58.04 lakhs. The Construction Board is entrusted with the work of erecting a multi-storeyed building with another 384 tenements on Dum Dum Road at an estimated cost of Rs. 24.79 lakhs. The C. I. T. Scheme is in progress. The latter is not yet finalised.

Considering the magnitude of the problem, it would be idle to expect quick results in the implementation of the programme. Difficulties are sure to arise with regard to the availability of land within the radius of one mile from the bustee to be improved for providing alternative accommodation to the dwellers, as required under the provisions of the Act. Large funds would also be needed. Some say that at this pace 80 years would go by before the last slum dweller is rehabilitated. It is estimated that Rs. 400 crores would be required for compensation alone to the landlords, even on the reduced scale.

Therefore, for many years to come, the bustee people would have to lean on the Corporation for better amenities. For improvement of sanitation, special bustee-cleansing gangs have been appointed. Large number of tube-wells are being sunk in bustee areas. There is a scheme for sinking fifty 3 in. dia. tube-wells for bustees in co-operation with the Government.

SQUATTERS' COLONIES

It is necessary to make a special reference to the Squatters' Colonies in Tollygunge. They comprise an area of 2,321 bighas. These sprang up during 1950 when the influx of exodus from East Pakistan was heavy. The refugees took possession of vacant lands. Any planned lay-out was out of question. It resulted in narrow pathways and absence of minimum amenities to life. Soon the Government felt the need for regularization of these colonies. With that end in view a law was enacted Rehabilitation of Displaced Persons and Eviction of Persons in Unauthorised Occupation of Lands Act, 1951. The Government wanted to regularise them by acquisition of lands already occupied by the squatters, and to develop them upto the level obtaining in the neighbouring areas. The Government are thus committed to develop the colonies.

The standard of development achieved then under the Tollygunge Municipality was of a low level. It came over to the Corporation on 1st April, 1953. A Master Plan for Tollygunge was submitted by the Corporation in September, 1954 to Government. The total financial implication was Rs. 15 crores. The cost for developing the squatted portion was estimated at Rs. 3.76 crores.

The Scheme in respect of the Squatters' Colonies was examined by a Development Committee set up by the State Government in 1955. The Committee approved of the estimate amounting to Rs. 3.02 crores. The Committee recommended that the model of development should be at par with the Calcutta

proper. There should be arrangement for filtered water supply, underground sewerage, roads to the specifications prevalent in Calcutta subject to their limitations in regard to the colonies in which the standard would be relaxed to some extent. Further, there should be arrangements for street lighting, parks and playgrounds.

In 1956, the Corporation prepared detailed plans and estimates and submitted them to Government which had borne the cost for the survey. Nothing more has been heard on the subject. We should impress upon the Government to take up the Scheme without delay. Improvement would later on entail a prohibitive cost.

THIRD FIVE YEAR PLAN ENVISAGED.

A capital outlay of Rs. 10,000 crores is envisaged in the Third Plan (1961-66). The preliminary draft outline or plan-frame is expected to be ready by the end of this year. It is clear that investment of such a mammoth sum would change the character of the Indian economy out of all recognition. The planners hope that, by the end of the Third Plan, a sound foundation will be laid for future progress in regard to the basic industries, agricultural production and rural development, thus leading to a self-reliant and self-generating economy.

The Corporation should not miss the bus, it should start planning at once. Its income is about one per cent. of the Union Government's revenue (1959-60 Budget—Rs. 780.86 crores). On that basis, the Corporation should budget for a capital outlay of the order of Rs. 100 crores during the Third Plan period. If this is not achieved, Calcutta would recede into backwater and discontent in the city would be more and more rife.

As the over-congestion in the city is serious, the outlay by the private sector on account of housing may be included in the Corporation's plan. Numerous projects in the Loan Budget should be examined for incorporation in the Plan.

A Special Committee may forthwith be appointed to determine the priorities and to work out the broad features of the Plan for rehabilitation and development of Calcutta. The matter brooks no delay.

HOPES AND FEARS.

True it is that the Corporation finances have been put on an even keel. True it is, that between 1952-53 and 1956-57, the revenue increased by Rs. 144 lakhs and the current year's revised estimates indicate a further rise of Rs. 79 lakhs, while an additional sum of Rs. 89 lakhs is expected to be raised next year. Compared to 1952-53, the revenues for 1958-59 and 1959-60 are expected to be higher by 42 per cent. and 58 per cent. respectively.

But an impression of buoyant conditions is likely to prove illusory. Expenditure has also been mounting and future years would see its rise still more steeply. Much leeway yet requires to be made up in many directions.

The income of the Corporation is pre-potently dependent on Consolidated Rate. The revenue structure is lop-sided and, therefore, extremely vulnerable. Sooner or later the ceiling will be reached in Receipts. Even a downward swing in future should not be considered surprising.

The Corporation have for years been urging upon the Government to implement the recommendations of the Local Finance Enquiry Committee and the Taxation Enquiry Commission. But, in vain. The State Government's receipts from the Motor Vehicles Tax and the Entertainment Tax increased by about Rs. 2 crores in course of the last twelve years. But the Corporation has been denied its claim for a share in the additional proceeds. Meanwhile, the State Transport is opening up new routes and introducing 12-ton Double Deckers on roads rolled by 10-ton rollers of the Corporation.

The population growth and the undiminished trend towards urbanization should be taken into account. Some eight lakhs of displaced persons now live in Calcutta proper and another three lakhs in Tollygunge Colonies. In addition, not less than five lakhs of people come to the city every day from suburban areas. The pressure put on the civic services is, therefore, tremendous. Sanitation is also gravely affected by several lakhs of pavement dwellers setting up shanties on the footpaths.

The fact is inescapable that the Corporation can never succeed in its task of meeting the City's growing needs from its rigidly restricted resources unless these are supplemented by adequate grants-in-aid from Government.

The Union Government has recently made a grant of Rs. 147 lakhs to the Delhi Corporation. Apart from this, it would be paid a sum of about Rs. 145 lakhs, being the net proceeds of entertainment, betting and terminal taxes and a share of the Motor Vehicles Tax.

How long the Centre and the State would keep on looking at our problems with serene indifference. Calcutta is the soul of West Bengal. If the soul perishes, what would remain?

UNION PRESIDENT PASSES OVER THE CITY

DR. RAJENDRA PRASAD, President of the Indian Union, reached Howrah Station on Saturday, the 14th March last, from Durgapur, for a short stay in this city while on his way to Cambodia. He was then accompanied by the State Chief Minister, Dr. B. C. Roy.

The President was received at the Howrah Station by the State Governor, Shrimati Padmaja Naidu, Sheriff of Calcutta, Alderman G. Basu, M.L.C., the Deputy Mayor, Shri K. C. Basu and high officials of the Central and State Governments.

A large crowd gathered at the Station and on the roadsides he passed. The President spent the day and night at Raj Bhavan before he resumed his journey for the South East Asian countries.

On Sunday morning the 15th March, Dr. Prasad left the city by a special plane on a 12-day State visit to Cambodia, South Vietnam, North Vietnam and Laos.

The President was accompanied by Shri S. K. Patil, the Union Transport Minister, Shri A. V. Pai, Secretary to the President, Shri J. N. Atal, Joint Secretary of the External Affairs Ministry, and Maj-Gen. Harinarain Singh, the President's Military Secretary.

Before boarding the plane, the President was given a Guard of Honour by a contingent drawn from the Jat Regiment. He was also introduced to the Chief Justice of Calcutta High Court, Shri K. C. Das Gupta, the State Ministers, the Deputy Mayor, Shri K. C. Basu, members of the consular corps and senior civil and military officials.

The President's plane 'Raj Hans' carried him to those countries. Information reached here on that evening stated the President's safe arrival there.

CORPORATION EMPLOYEES' STRIKE POSTPONED

The token strike on the 17th March, called by the Joint Committee of the employees' and workers' unions was postponed till the 31st March, on a definite assurance given by Special Committee to con-

sider the employees' grievances sympathetically. The decision was taken at a largely attended meeting of the employees and workers, at Raja Subodh Mullick Square, central part of the city, on Monday, the 16th March. Shri Abinash Chandra Bhattacharyya, Secretary of the Committee, presided over the meeting.

The five-man Special Committee, appointed by the Corporation at its meeting on the 13th March last, went into the details of the employees' grievances and sought for ways and means for their fulfilment. Headed by the Deputy Mayor, Shri K. C. Basu it included Councillors J. L. Saha, M.L.C., A. Maitra, leaders of two groups, K. L. Dhandhanian, Chairman of the Standing Finance Committee, and Dr. P. K. Roy Chowdhury, Chairman, Employees' Grievances Special Committee. The Special Committee formulated a provisional scheme for grade revision to be finalized by the 31st March and passed in the form of a resolution. Verbal assurances were also given to the representative present in regard to a weekly day off and increased house allowances in addition to the promised assurance for revision of grades.

As regards the demand for an Additional Dearness Allowance of Rs. 5/- in lieu of cheap rations at present being given to Government employees, the Committee decided to request again the State Government to sanction its share of 80 p.c. to enable the Corporation to grant the special allowance to its employees from the date it was being given to Government employees. The resolution said that the demand was reasonable and that the Corporation would make every effort possible with the employees' co-operation to get the Government's sanction.

The resolution, being signed by all the members, was handed over to Shri Bhattacharyya, who attended the meeting as a special invitee. A large number of employees and workers who waited outside the meeting room within the precincts of the Central Municipal Office Buildings, S. N. Banerjee Road, went in a procession to the park to ratify the decision.

The employees proposed to meet again at that site on the 31st March in order to discuss the results of the negotiations they would have meanwhile with the Corporation authorities.

It was announced at that meeting that the Special Committee's resolutions if honestly purporting would remove many of the employees' basic grievances, particularly revision of grades to the low-paid workers and employees, weekly off for one day to all classes of employees, enhanced house rent allowances at the rate of Rs. 10 per month instead of Rs. 4 to all drawing a salary between Rs. 45/- and Rs. 100/- per month and others. 'These have practically recognized the grievances', they re-iterated.

According to Councillor Dr. Roy Chowdhury, whose Committee had already put up a part of recommendations, the grade revision scheme would envisage increase ranging in varied scales in different grades. Although Councillor Dhandhanian, Chairman, Standing Finance Committee, said that it had not yet been worked out what additional expenditure the Corporation would incur when the scheme was implemented and no provision had been made in the next year's Budget estimates for it because the matter was still in a "formative stage."

Demonstrations were being staged on different occasions to voice the employees' grievances. Recently at a Press Conference the Corporation Employees' and Workers' Joint Committee alleged that the authorities' repeated breach of promise to fulfil their demands during the last three years had compelled the Committee to serve a strike notice on February 28. The employees and workers would go on a token strike on the 17th March and on a continuous strike later, if necessary.

Their demands included revision of pay scales, weekly leave for those not enjoying such leave at present, dearness allowance at the Government rate, compensatory allowance for employees drawing salaries up to Rs. 350/- a month and additional house rent allowance for low-paid workers.

The minimum wages received by Calcutta Corporation workers, according to their statement were lower than the lowest pay scale obtaining in Bombay and in Delhi Corporations.

At the weekly Corporation meeting on the 13th March last, concern was expressed by the House over the threatened token strike for a day. It found expression in several speeches made there by Councillors Mihirlal Ganguly, Dharendra Nath Dhar, M.L.A., Sachin Sen, Biman Mitra, Naren Sen and others. They urged the House to do something so that the strike might be averted. The House unanimously resolved to appoint the aforesaid Special Committee on the suggestion of Councillor Sushil Kumar Roy.

The Chief Executive Officer, Shri P. C. Mazumdar, I. A. S. (Retd.), also informed the House that he had already received the strike notice from the employees' side. As instructed by the Standing Finance Committee he had requested the Joint Committee to avert the strike but so far then no reply was received by him.

When the meeting was in progress on that day a large number of teachers of Corporation Primary Schools held a demonstration on the lawns of the Central Municipal Office Buildings, S. N. Banerjee Road, to ventilate their demands which,

they said, remained unfulfilled for a long time. They also met the Chairman of the Standing Finance Committee, Councillor K. L. Dhandhanian who received them. Alderman Shrimati Pratima Basu, Councillor A. Maitra and others were present.

Councillor Dhandhanian informed the House that the teachers' grievances would also be looked into when the Standing Finance Committee would consider the recommendations of the Employees' Grievances Sub-Committee. At the meeting Councillors sympathetically spoke in support of their case. Councillor Ranajit Coomer Mitter who was elected to the Chair for the day in the absence of the Mayor and the Deputy Mayor, also made a feeling reference about their grievances.

On the 16th March, a deputation of teachers separately met Councillor Dhandhanian and others with similar demands. According to a spokesman of the Standing Finance Committee the teachers' grades had been increased by Rs. 40 to Rs. 50 in the scheme.

Further, there was piecemeal demonstrations in recent days. Conservancy lorry drivers had another demonstration though not of the same nature. And thus employees' grievances have been allowed to accumulate since a long time past.

Almost similar grievances have been cropped up among the employees of 86 Municipalities in West Bengal. Their number is no less than 20,000. So far it has been gathered that they also arranged a token strike on the 20th March, for redress of their grievances of an almost similar nature. The token strike staged by the employees of the Suburban Municipalities namely Howrah, Bally, Uttarpara, Dum Dum and others were almost successful. Implementations of the recommendations of the Minimum Wages Committee and payment of the increased Dearness Allowances and others headed the list of their demands.

We are now to wait and watch how the things take shape in the present circumstances.

MOSQUITO MENACE IN CITY

A recent Corporation meeting discussed the prevalence of mosquitoes in the city while sanctioning an excess purchase of about 12,500 gallons of Mosquito Control Oil by the Corporation for the current year. The menace has assumed such a magnitude that the city life has become almost unbearable, voiced different members in the House. They drew the attention of the Deputy Mayor, Shri K. C. Basu, who was then presiding that the quality of oil used for destroying the mosquitoes was not sufficiently strong enough for the purpose. A section also alleged that the oil supplied to the Corporation was nothing but burnt Mobile Oil, and according to them this quality was rather conducive for the multiplication of the mosquito race instead of destroying them.

Members representing from all parts of the city took part in the debate. They complained that formerly the menace was restricted to the mosquito belt rounding the city's north, east and southern outskirts, but this year the menace had spread even into the hearts of the city which had always been free from them. One of them posing himself as an expert said that this year's insects were of larger in size than in previous years, and they were continuously invading the sewered area of the city

THE CORPORATION AT WORK

[A GIST OF PROCEEDINGS OF THE THIRTY-EIGHTH ADJOURNED MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 13TH MARCH, 1959.]

CONDOLENCE

At the outset the House mourned the death of Shri Mukund R. Jayaker, a moderate politician, an international Jurist and a great educationist which took place recently. A former Privy Councillor, the late Shri Jayaker had an eventful career both in the political field as well as in legal bar.

Eloquent tributes were paid to his memory by Councillor Ranajit Coomer Mitter, who presided on that day, on behalf of the House and the House was adjourned for ten minutes as a mark of respect to his memory.

STEEL FOR PULTA-TALLAH MAIN

At first Councillor K. L. Dhandhanian informed the House that there would be least difficulty in obtaining the adequate quantity of steel for the purpose of laying 72 in. dia. Pulta-Tallah Main. During his recent visit to Delhi he had contacted with the Iron and Steel Controller's Office and so far gathered that the Government would issue necessary licenses and permits in order to import the same quantity. Out of 13,500 tons of M. S. Steel Plates required for the fabrication purpose 5,000 tons only had been placed at the disposal of the Messrs. Structural Engineering Co., who had been entrusted with the task. The balance quantity has to be obtained soon in order to complete the pipe laying work. The House received the news with cheers.

RECRUITMENT EXAMINATIONS

Councillor Nandalal Banerjee could not see eye to eye with the appointing authorities of the Corporation. He alleged that results of Recruitment Examination conducted by the authorities had caused confusion in the minds of the successful candidates. The long list, as published, would hardly accommodate all the candidates as there were limited number of vacancies, then existed in the Corporation nor there were possible chances of occurring even larger.

Expressing his sympathy for them Councillor Banerjee said that the authorities should re-validate their names till a considerable number was absorbed by withholding further examinations and appoint them serially even though they crossed the requisite age bar. He wanted the Chief Executive Officer as the appointing authority should take proper steps in this.

The House, however, agreed to re-consider their cases.

AN IRREGULAR SYSTEM

Councillor Ratan Manick Chatterjee pointed out the present irregular way of submitting Rate Bills to the rate payers. He said that with the introduction of decimal coinage the accounting system of all public bodies had been converted into the *Naye Paise*. But he regretted that the Corporation had stuck to the old system. This had caused inconvenience on the part of the rate-payers to pay in the new coinage system.

The House, also agreed to inquire into the matter.

PURCHASE OF ELECTRIC LAMP POLES

The Corporation, on the recommendation of the Standing Finance Committee, requested the Police authorities to make a thorough investigation of a deal entered into between the Lighting Department and a firm Messrs. Dodsall and Co. (Private) Ltd. The resolution passed by the Standing Committee and which came as a recommendation before the House runs as follows :—

"As the Standing Finance Committee in spite of repeated efforts have failed to procure all connected documents and papers in connection with this transaction and as relevant papers have not been made available to them in spite of repeated requisitions and reminders, and as Messrs. Dodsall and Co. (Private) Ltd., have not also cared to furnish required information to enable the Committee to arrive at a correct decision, the matter be referred to the Corporation with a recommendation that the Police authorities be requested to make a thorough investigation in this connection for further action by the Corporation in the matter.

It may be recalled here that all work in connection with the installation of new light points on the streets by erecting poles, have been stopped due to obvious reasons. The purchase of light poles as referred to above was partly responsible, according to some sources.

The Department, in order to facilitate the work of the contractors engaged for the installation of new light points in the streets, had procured over 12,000 poles valued about Rs. 15 lakhs from a firm in Bombay during the last four years on the strength of their license obtained from the Government of India and made them available to the contractors.

The Standing Finance Committee at its meeting in January last, discussed the issue. The Committee came to the conclusion subsequently that the method adopted by the Department in securing the poles was "irregular". The Lighting Department maintained that the poles were procured to hasten the work of the contractors and no loss was incurred by the Corporation.

During the last four years, about 13,000 gas lamps in the city have been replaced and altogether 20,000 electric lamp points installed to increase the illumination. Over 5,500 gas points still remain to be replaced.

SERVICE CHARGES

The House on the recommendations of the Standing Finance Committee agreed to accept the Service Charges of the Central Government Buildings at the rate of 18 p.c. as stated by the Union Government "without any prejudice to the legal rights in future for the claim" where full service would be rendered. This was the result of a compromise suggested by Councillor K. L. Dhandhanian, Chairman, Standing Finance Committee.

The charges would be distributed with the following components :

Conservancy	6.7%
Water Supply	4.7%
Drainage	2.4%
Roads	2.4%
Lighting	1.8%

The House further agreed to accept service charges to be paid by the Government of India where partial services are rendered by the Corporation at the following scale, namely :—

- (i) 10% of the normal charges for water supply,
- (ii) 80% of the normal charges for drainage,
- (iii) 50% of the normal charges for roads,
- (iv) 66-2/3% of the normal charges for conservancy, and
- (v) 50% of the normal charges for lighting.

DEVELOPMENT OF TOLLYGUNGE

Councillor Dr. Aurabindo Prosad Das Gupta complained of the development of the Tollygunge area in an half-hazard manner. He said that as the Corporation had allotted sums for different projects there were hardly any propriety among the individual developments undertaken.

As Dr. Das Gupta was not satisfied with these unsystematic work he urged the Corporation to reconsider those schemes so that an uniformity of amenities might be maintained.

[A GIST OF PROCEEDINGS OF THE THIRTY-EIGHTH
ADJOURNED MEETING OF THE CORPORATION HELD ON
TUESDAY, THE 17TH MARCH, 1959].

TRAFFIC JAMS IN BURRABAZAR AREA

Some Transport Agencies, recently sprung up on the main streets of the Burrabazar Area and had been creating bottlenecks and traffic jams. It has become a source of nuisance to that most thickly populated part of the city for some time past. This was pointed out by Councillor H. N. Sadani, who tabled a motion to that effect in the weekly Corporation meeting about a year back. Councillor Sadani stated that the Agencies, "have been working without obtaining a license from the appropriate Police authorities". It also said that 'Corporation does recommend to the Government of West Bengal to take steps to prevent these Agencies from carrying on their business at least on the main congested streets'.

Accepting the motion in the shape of a resolution the Corporation forwarded the same to the proper authorities. A reply was, however, received from the Government of West Bengal, Home (Transport) Department, which stated that 'after careful examination of the matter the Government see that under provisions of existing law, it is not possible to exercise any effective control on the Transport Agencies. Steps for stricter enforcement of the "No Parking" restrictions are, however, being taken to meet the situation. The Government of India, Ministry of Transport and Communications, have also been requested to consider some suitable amendment of the M. V. Act, 1939 for the purpose'. It was written a few months back and since then the situation had hardly been improved.

Thus, not satisfied with the reply the Corporation requested the Chief Executive Officer to appraise the Government for taking further steps in this line at least to stop the nuisance. This was done on the suggestion of Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust.

Earlier, Councillor K. L. Dhandhanja also described the situation there. He said that a large number of lorries had found parking places on

many of the streets in that area generally at the dead of night. They carried goods and they had always kept themselves aloof from paying the required license fees to the Corporation, and thus had deprived the institution. He alleged that these lorries did not probably possess the required licenses.

A NEW ALIGNMENT

The House, on the recommendation of the Standing Town Planning and Improvement Committee, prescribed an alignment on Surti Bagan Lane between Zakaria Street and Ratu Sarkar Lane to a width of 30 ft. under Section 356 of the Calcutta Municipal Act, 1951.

A COMMON PASSAGE

The Corporation, on the recommendation of the Standing Town Planning and Improvement Committee, took over a common passage lying between the premises No. 1, Naba Roy Lane, and 7 and 7½, Gopalnagore Road on one side and 7½, 7B and 6½, Gopalnagore Road on the other, under Section 375 of the Calcutta Municipal Act, 1951.

ESTIMATES SANCTIONED

The House, on the recommendation of the Standing Water Supply Committee, accorded administrative sanction to the Engineer's estimate amounting to about Rs. 67 thousands for laying up 6 in. dia. filtered water main on South Tangra Road, Ward No. 49. This would abandon the existing main of the same dia. due to some technical defects therein, as the road's width does not exceed 15 ft.

The Corporation, on the recommendation of the Standing Works Committee, accorded administrative sanction to an Engineer's estimate amounting to Rs. 1.17 lakhs for improvement of Gurusaday Road from Ballygunge Circular Road to Syed Amir Ali Avenue, under Ward No. 59.

Based on the same recommendation, the House also administratively sanctioned another Engineer's estimate of Rs. 1.87 lakhs for improvement of Ballygunge Circular Road by providing kerbing and channelling and also paving its footpath from its junction with Hazra Road to that with Ritchie Road, under the same Ward.

DHAPPA LAND

The Corporation, on the recommendation of the Standing Town Planning and Improvement Committee, requested the State Government to issue an Ordinance or to amend the Calcutta Municipal Act, 1951 in such a manner as to include the area commonly known as Dhappa Square Miles within the limits of the Calcutta Corporation. It also urged the Government to amend Sec. 116 of the Bengal Tenancy Act in order to curtail the rights of the *rayats* so far as the Dhappa lands were concerned.

PERMANENT JUDGES IN CALCUTTA HIGH COURT

The President of the Indian Union has appointed Mr. Justice Bimal Kumar Bhattacharya and Mr. Justice Binayak Nath Banerjee, at present Additional Judges, to be the permanent Judges of Calcutta High Court.

The Press Note added that the President had also appointed Shri Subodh Kumar Niyogi, M.A., L.L.B., and Shri Dwijendra Nath Das Gupta, M.A., L.L.B., District and Sessions Judges to be the Additional Judges of the Calcutta High Court for a period of two years.

SPECIAL

Articles

Food Luxuries In Old Calcutta

By SHRI B. V. ROY, M.A.

IN a recent article written by me entitled "Eatables are Cheap" published in the *Calcutta Municipal Gazette* of the 31st May, 1958, I made it clear that eatables were cheap (and plentiful too) in Calcutta during the 18th and 19th centuries, but that certain food luxuries imported from England were comparatively costly.

We see from certain advertisements in the *Calcutta Gazette* that Messrs. H. Davies of Tank Square (modern Dalhousie Square) offer for sale imported

Sauces per bottle Rs. 3|-.

Jams (raspberry, straw-berry, black currant) in 6 and 3 lbs. jars at Rs. 12|- and Rs. 24|- per jar.

Marmalade preserves per jar Rs. 12|-.

Comfits in ground glass-stoppered bottles, per bottle Rs. 8|-.

Mincemeat in 2 lbs. jar Rs. 12|-.

As regards the last (mincemeat) I wonder how it kept fresh coming in a voyage of at least 3 months' duration.

Soda water was also an expensive luxury at that period, and was imported in stone bottle, and we do not hear of its being manufactured here until 1816. Even then the price was very high, as will appear from the following advertisements:

(1) For sale.

Soda water from Schweppe & Co., Jas. Taylor & Co., have for sale a small quantity of soda water in stone quarts and pints, imported on the "Lord Keith."

(2) Schweppl's soda water sicca rupees ten per dozen. 7, Old Court House Street, Messrs. Hy. Mathews & Co.

(3) April 4, 1816.

Soda water for the hot weather, prepared daily under the immediate inspection of C. Hodgkinson, Chemist, No. 1, Pollock Street, in stone bottles at Rs. 9|- per dozen ready money.

Soda water, though not a food, was yet a luxury, used for diluting strong drinks like brandy and whiskey. These could not be taken raw, and formerly used to be diluted with plain water. Since the invention of soda water early in the 19th century, it used to be used as a diluent. It had also certain medicinal properties, being used in acidity and stomach upsets as a corrective. It used to be imported from England in stone bottles, which were costly.

Another advertisement in the *Calcutta Gazette* gives details of a costly luxury, viz., turtle soups, which used to grace the bill of fare in aldermanic bauquets, specially bauquets given by the Lord Mayor of London. It was deemed a great delicacy. The Englishman of those days, living as exile in a far-off land, tried to make this land more homelike by the importation of certain kinds of food, specially delicacies, which could not be obtained here. The following "invitation" issued in the

Calcutta Gazette of the 22nd June, 1766, must therefore have made an instant appeal:—

"Mr. Wright of the New Tavern near the Church, having purchased some live turtle, he means dressing one on Saturday the 22nd instant, and begs those ladies and gentlemen who would wish to favour him with their commands, to be as early as possible in their applications."

Another great luxury was ice, which was imported from the United States of America in ships. It was natural ice from Lake Wenham, which was cut out in large chunks and loaded in the hold of the ship. Considering the long voyage from Boston to Calcutta, the ice remained preserved fairly well, the loss of wastage due to melting being quite inconsiderable. It was due to the enterprise of a ship—Captain—Captain Tudor—that it was possible thus to import ice from America. On arrival here, the ice was unloaded and kept stored in a specially built ice-house—a squat dome-shaped structure near where the Small Causes Court building now stands. Immediately on arrival of a baraf-ship, there was great rejoicing as well as excitement and activity in the European settlement. Everyone sent a servant with a pot and a towel to purchase some ice, which was at first sold at one rupee per pound, though in later years the price was reduced to three annas a seer. This went on for several years during the mid-nineteenth century period, when ice was a rare luxury. The Governor-General made a presentation of a gold medal to Capt. Tudor for his beneficent enterprise in bringing ice from America.

Another food delicacy which found great favour with Englishmen in the 19th century was a kind of little fish. Englishmen in India partook of all kinds of meat available in India such as beef, mutton, goats' flesh as well as poultry such as fowls and ducks, but fought shy of taking Indian fish of any kind, such as Rohi, Kutlah, or Hilsa, etc. They were all eschewed by the English for the preponderance of bones intermingled with their flesh, which made them unsuitable to eat with knife and fork. The only exception was the Bhetki or Be ktie as it was called, which had a single central bone structure, so that the flesh from both sides could be cut off in chunks, which were entirely free of bones. For this the fish found favour with the English. But besides the Beektie there was another little fish which found great favour with the English in Calcutta during the 19th century. It was the mango fish or *topsee mutch*.

The Englishmen who came to Calcutta in its early days—in the 18th century—tried their best to keep alive the manners, customs, usages and habits they had been accustomed to in their homeland, without making any concessions to the climate and other conditions of the country of their "exile". Not only in dress, but more especially in the matter of their food and drink, they made hardly any

deviation from the habits acquired in and suited to a much colder climate. Large quantities of meat, poultry etc., and quantities of claret and other kinds of wine, were consumed daily. A study of the dinner-menu as found in letters of the time, will show that meat dishes bulked large in the bill of fare, and as for drinks, four or five bottles of claret a day for gentlemen and a bottle a day for a lady, in addition to madeira, port and other wines, was nothing unusual, so that the cheapness of eatables was more than counter balanced by the wine bill. There are many contemporary diaries, letter, etc., which all tell the same tale of the Englishman's unwillingness to change his habits or to modify them according to the conditions of his place of abode. A writer in the 'Calcutta Review' (1858) remarks on this aspect of the English character as follows :—

"Much of the disease in Calcutta and in other parts of India has been owing to the English not conforming their mode of living, dress etc., to the climate. The Anglo-Saxon in every part of the world has wished to carry his home-system on with him We find Calcutta people warned in 1780—"from the many sudden deaths which have happened lately, gentlemen should be cautious not to eat too freely during the continuance of the heat (June). The surgeon of an Indiaman expired in the street after a hearty dinner of beef: the temperature was at 98 degrees".

To come back, however, to the little fish called "Topsee mutch"—it was very much relished by the English in Calcutta, who bestowed great praise on it for its taste and flavour. Walter Hamilton described it in 1820 as "the best and highest flavoured fish . . . in the whole world." There were many similar eulogistic references to it in contemporary writings. The fish has been described as the whitebait of Bengal, but this is not an accurate description, as it is slightly larger than the sardine but smaller than the herring, and possesses a delicate flavour of its own. R. G. Wallace, in his "Fifteen years in India 1805-1820" asserts that perhaps there is not in the world a greater delicacy than the mango fish of the Hooghly which is as beautiful to the eyes as it is delightful to the taste. With the flavour of the mango, which is an uncommonly fine fruit, it combines the contour and richness of the trout, and has a fine, large roe which cannot be compared to anything, being a perfect original. For two months of the year, this charming fish is caught in plenty, and the roes are preserved, and always appear at table".

Major Hobbs, in his interesting book on old-time taverns in Calcutta ("John Barleycorn Bahadur") says that wealthy Europeans of Calcutta used to hire a schooner that traded between Calcutta and Fort Gloster, about 10 miles below Calcutta. It took a freight of "Koi Hais" with an occasional pipe of Bengal rum to Fulta for a meal of "topsee muchee" fresh from the river.

In conclusion it may be mentioned that upto 1939, the price of mango fish in Calcutta was from 12 to 20 fish for a rupee, according to size. In an issue of the "Calcutta Gazette" of the year 1817, appeared a list of Market Prices Current in which the price of mango fish was given as 16 to 20 for a rupee. So it seems that the "topsee mutchee" is the only item of food that has remained at a constant price-level for over a hundred years. Even at present the price is not much higher, and

occasionally, when is plentiful, the fish may still be the 18th century price, which is much more than can be said of any other article of food.

—VIEWS & REVIEWS

(Continued from page 474)

which was so long safe. They demanded that the Health Department should take adequate measures to control them. Some of them also pointed out the inefficiency of the Mosquito Control Section in this regard as they had failed to deliver the city out of the menace in spite of its existence for so many years. They also demanded an investigation to be made in this respect. A section of the House thought that there should be constant vigilance in this regard as the menace was unprecedented one for the last thirty years. Those who participated in the debate were Councilors Sushil Paul, Dr. K. P. Ghosh, Nripen Banerjee, Dr. P. K. Roy Choudhury, Dr. L. M. Bhattacharyya, Samar Rudra, Dhiren Dhar, M.L.A., Dulal Mukherjee and others.

Complaints from citizens are also pouring in constantly to the Health Department, particularly from citizens residing in Dhakuria, Tangra, Cossipore, Belgatchia and other parts where the sewer system had not been implemented and unhygienic atmosphere still in existence. They say as the night advances, mosquitoes come out of their dens, begin to move around the human dwellings, rest upon bodies and make life miserable. Such are the sufferings of the people from the onslaught of those insects which can be described as terrific.

The reasons are obvious, no doubt. Absence of proper drainage system, the existence of a large number of stagnant pools containing water hyacinths, presence of an increasing number of service latrines, and above all lack of preventive measures, are no doubt sufficient reasons for the growing menace. And unless all these are removed there are little chances of being escaped from the havoc.

Complaints have also been alleged that the Corporation staff is not so vigilant now-a-days as they had been in the past with the help of Mosquito Squads. Besides, the State Government's activities in fighting the menace particularly in the Bellia-ghatta and Tollygunge areas have been ceased since the merger of the latter area to the Corporation. The Corporation also wanted Government intervention in this regard.

The mosquitoes are responsible for the spread of Malaria and Phileria and if they are not checked in time new developments might worsen the situation.

TEMPORARY EYE HOSPITAL IN TOLLYGUNGE AREA

A temporary Bangur Eye Hospital (camp) was inaugurated by Shri Prafulla Chandra Sen, Food Minister, West Bengal, at Bangur Park, Lake Gardens, Tollygunge, on Wednesday, the 18th March.

Altogether 169 patients were successfully operated on cataract troubles and were hospitalised for further treatment upto 10 days ahead. The treatment, medicine, food and hospital-arrangements were all free.

CITY NEWS PARADE

OBITUARY: The death of Shri C. S. Rangaswami, Managing Editor, *Indian Finance*, occurred at his residence on Thursday, the 12th March last. He was 65.

The late Shri Rangaswami hailed from Comal in Tanjore District, Madras.

The Corporation at its weekly meeting on the 13th March last condoled his death.

Shri P. Bhaumik, Registering Authority of the Corporation Election Department, died in his city residence on the same day. He was about 65.

The late Shri Bhaumik was formerly a Secretary of the Moulmein Municipality in Burma. He was also for sometime Private Secretary of the late Sir Mirza Ismail during his Prime Ministership of the Native States of Mysore, Hyderabad and Jaipur. He also worked as a Special Officer of the Legislative and the Local Self-Government Departments of the West Bengal Government. He joined Corporation in June, 1956.

The Corporation on the same date also condoled his death. Tributes were paid to his memory by the Deputy Mayor, Shri K. C. Basu.

Shri Suniti Kumar Indra, Principal of Hooghly Mohsin College, and an well-known educationist, died at Sukhalal Karnani Hospital, Calcutta, on Monday, the 18th March. He was 51.

The late Shri Indra had an outstanding academic career, standing first in English from the Matriculation to the M.A. Examinations. He was a Duff scholar, Tawney Memorial Prize winner, Hindu College Foundation scholar, and won Kheta Mohon Chatterjee Gold Medal by standing first in the Post-Graduate Examinations in English in both groups.

He joined the teaching profession as a lecturer in English at Krishnanagar College, and after working in that capacity at Rajshahi and Islamia Colleges became Professor of English of the Presidency College in 1946. In 1955, he was appointed Principal of the Central Calcutta College.

He worked as Special Officer, Education Directorate, in 1952-53 to assess the progress of education in West Bengal during the period 1947 and 1952. He was also Chairman of Examinations Reforms Committee, Board of Secondary Education.

Dr. Dharendra Nath Dey, Founder-Principal and Secretary of the Women's College, Calcutta, died at Vivekananda Road, on Monday, the 16th March last. He was 60.

The late Dr. Dey was ailing for sometime past and the end came on Monday as a result of heart attack.

A funeral procession started with the dead body from Women's College, Cornwallis Street, on next day for cremation at the Nimtollah Burning Ghat. A large number of students and teachers joined the procession.

DEBATE ON BUDGET GRANTS ENDED IN STATE LEGISLATIVE ASSEMBLY on Thursday, the 12th March last. On the concluding day, the House passed 15 demands for grants totalling Rs. 4.38 crores. The Speaker had to apply guillotine in 12 of them.

Presenting his demand for Rs. 35.50 lakhs under "Fire Services", the Local Self-Government Minister, Shri I. D. Jalan, said that at present there were 29

service stations in the State, including nine in Calcutta and one temporary station. About 1,500 men were employed in the services.

In course of debate a member alleged that the services' equipment and resources, particularly in this city, were alarmingly inadequate.

While presenting the demand under the head 'Excise' by the Minister, Shri S. P. Burman, an Opposition member interrupted by asking for the Government's policy towards 'colour bar' in some Calcutta clubs.

The debate on the demand of Re. 1/- made by the Food Minister, Shri P. C. Sen, under "Capital Outlay on Schemes of Government Trading", was unexciting. Three cut motions to reduce the demand by one *naye paisa* were rejected. Opposition members repeated their complaints of non-availability of good quality rice from modified ration shops, of the Government's system of procurement through a levy of 25 per cent. of mill products, and of the Government's failure to stop corruption.

On the 10th March last, the State Chief Minister, Dr. B. C. Roy, was greeted with cheers by all sections of members when he had announced the State Government's decision withdrawing the levy of Sales Tax on books and periodicals. It would save the publishing business and would also bring relief to about two lakhs of people engaged in the trade.

The Chief Minister said that small traders and business men were not affected by the measure because only those registered dealers whose annual business out-turn was Rs. 50,000 or above had to pay this tax. In West Bengal there was no Sales Tax on cereals and flour as there was in Andhra, Madhya Pradesh and some other States.

The Chief Minister also admitted that because of exemption of books from Sales Tax in Bombay and in Madras, the publishing business in West Bengal faced a serious problem. The tax also affected poor students. The Government has, therefore, decided to withdraw the tax on books and periodicals, he added.

Appreciating the Government's attitude, the Opposition recited a long list of articles which they felt should be exempted from the purview of the Sales Tax Act. These were dhottis, saris, readymade garments, medicines, sweets, seeds, plants and flowers and other essentials. Sales Tax on these hit the poor and the small traders. The Government should tighten its administration to stop large-scale evasion of Sales Tax by some big industrialists and manufacturers.

Shri Hemanta Kumar Basu, a representative from the northern part of the city, regretted that evasion of the Tax by a section of big business men still continued.

Rasogolla, sandesh and other sweets were taxed in West Bengal, regretted Shri Jatin Chakraborty. Small shopkeepers, who could not realize the Sales Tax from their customers, were in difficulty. It was unfortunate, the city's representative added, that even flowers did not escape the tax.

Shri Siddhartha Sankar Ray suggested the appointment of Tribunal for speedy disposal of Sales Tax Appeal Cases. He said that the Sales Tax Act should be amended to provide for advance payment of taxes.

Replying to different charges the Judicial Minister, Shri I. D. Jalan, pointed out that the Government had already taken steps to separate the Judiciary from the Executive. It had appointed Judicial Magistrates but the process would take some time to complete because of dearth of judicial officers. The same problem, he added, compelled the Government to appoint retired district judges and magistrates. All appointments and promotions of District Judges were made in consultation with the High Court.

Moving grants for 'Forests' the Minister in course of his speech said that the Committee set up to inquire into the affairs of the Alipore Zoo had submitted a report which the Government would carefully consider.

In reply to different allegations, Shri Khagendra Nath Das Gupta, on the 11th March last, referred to the major buildings programmes carried out by the Works and Buildings Department. The Minister said that the more important road projects included widening of the metalled portion of Barrackpore Trunk Road, Budge Budge Road, portions of Diamond Harbour Road and of Baraset-Basirhat Road, reconstruction of Tallah and Majerhat Bridges and construction of Jadavpur-Kasba Road and Rajarhat-Patipukur Road. Some of them had already been taken up. He said that pre-stressed concrete work was being undertaken on a larger scale to bring down steel and cement requirements to the minimum without any increase in costs.

During the debate on Industries, on Wednesday, the 11th March last, Opposition members argued that because of the Government policy of favouring big enterprises, many small and cottage industries were dying. Small engineering industries were suffering for want of raw materials. Many of them complained that even in the distribution of very meagre iron and steel quotas, malpractice was rampant much to the disadvantage of small entrepreneurs. One member suggested that there would be an inquiry into the matter.

On the 13th March last, the House passed the Appropriation Bill, 1959, authorizing payment and appropriation of over Rs. 141 crores from and out of the Consolidated Fund for service of the year ending the 31st March, 1960.

On Friday, an Opposition member in course of debate suggested that a stadium should immediately be built in the name of the Chief Minister. All other States in India, including Kerala, and even East Pakistan had stadium, while, because of clashes between vested interests Calcutta still lacked one. A Board should be immediately set up for the purpose. College Square tank should have an Olympic standard diving board.

During question hour, on that day, Shri I. D. Jalan, Local Self-Government Minister, said that 20.3 per cent. of Calcutta's population lived in bustees. According to available statistics the average income of an earner in a bustee was Rs. 69/- a month.

The Assembly passed on Tuesday, the 17th March, 26 demands for grants amounting to over Rs. 13.5 crores representing the voted amount of additional expenditure for 1958-59 in the Supplementary Budget estimates. Most of the cut motions were declared out of order. The Speaker applied guillotine when the Chief Minister was replying to points raised on the demand under the head "General Administration".

Dr. Jnan Majumdar asked what action had been taken against the three people who were alleged to have been responsible for the omission of 1,200 names from the Voters' List in the Bhowanipur By-election to the Assembly.

Shri Sunil Das said that in the revised electoral rolls the names of about 400 voters in the Lake Market area in the Rash Behari Avenue Constituency, Calcutta, had been omitted. This was his Constituency and he had polled about 90 per cent. of the Lake Market votes in the last general election.

Replying to a number of charges against the Government for non-interference on Indo-Pak border disturbances on Tuesday, Dr. Roy said that he had approached the Union Government for military aid in view of the feeling that an emergency had arisen and that some fear prevailed in the area.

He said that 'it is not martial law, but the military coming to the aid of civil power when there is any great emergency'. The State Government felt that the situation on the Murshidabad border should be controlled.

Replying to Shri Siddhartha Ray's demand for a secret session of the House to discuss the situation on the borders Dr. Roy said that he was not sure whether a secret session could be justified without the Union Government's permission.

CALCUTTA IRAN SOCIETY'S Annual Meeting was held on Sunday, the 15th March. Shri S. N. Modak, the outgoing President, suggested that scholars and experts particularly in Iran and India, should take up the task of preparing a comparative and comprehensive treatise on India and Iran to foster goodwill and cultural relations and to strengthen the bonds of unity and friendship between the two countries. These were the main aims and objects of the Society.

Dr. Pratap Chandra Chunder, the newly-elected President, said that the Society was an example of universal friendship as people of different colour, castes and creeds worked together within it.

Mr. H. Vatandoust, Vice-Consul of Iran, specially attended the meeting to read a letter of gratitude written by Iran's Minister of Foreign Affairs.

STUDENTS SITTING AT EXAMINATION HALLS IN CENTRAL AND NORTHERN PARTS OF CALCUTTA staged one of big demonstrations on Wednesday, the 18th March, on an allegation that the questions on Chemistry, Second Paper, were too difficult to answer on their part. According to those students some of the questions were out of syllabus.

The examination, spreading over in many of the schools and colleges, in those areas had to be abandoned. The examinees threw away answer papers, caused damage to many of the college properties, broke benches and left halls. Even they arranged demonstrations to make fresh attacks in other places. Although disturbed, the girl students were, however, allowed to sit for the examination up to the last limits due to the timely action taken by the authorities.

According to the Controller of Examinations, Calcutta University, the trouble started almost simultaneously in the University halls when the question papers were distributed to examinees at about 2 P.M. Police help during the remainder of the examination continued according to programme at all centres in the city.

The Controller said that when he reached the hall on the top floor of Darbhanga Building on that day steel chairs and tables were flying through the air and there was absolute pandemonium. Angry and excited students encircled him but with the help of University employees he was able to leave the hall. Almost similar scenes were witnessed in many other examination halls.

Calcutta saw an orgy of rowdism at examination centre in the northern part of the city at the end of March last year when School Final students were sitting for their History paper. On that occasion also students demonstrators dragged other examinees from out of the halls on the excuse that the questions set were too difficult.

UNITED STATES SMALL INDUSTRIES EXHIBITION was opened on Sunday, the 15th March, by the State Governor, Shrimati Padmaja Naidu, when she pressed a button to cut a ribbon by a blade operated by solar energy. It has been installed at the corner of Cathedral and Lower Circular Road, towards the southern part of the city. The exhibition will remain open about a month.

The U. S. Ambassador, Mr. Ellsworth Bunker, said that small industries played an integral part in America's industrial life. About 85 per cent of industrial employees were engaged in approximately four million small firms which

representatives of the manufacturing industry and a half dozen wholesale and retail trades in the country.

In addition to employing a large number of people, the small industries produced articles for big industries and enabled the latter to produce more efficiently and economically.

In the solar energy section there is a solar furnace capable of raising temperature as high as 3,000 deg. C, a solar oven which can generate heat up to 350 deg. F, a solar clock equipped with a battery which can be charged with one full day's sunlight to keep the clock running for a year and one may listen to broadcasts received on sun-operated radio sets.

At the entrance to the exhibition's industrial home is inscribed a message from President Eisenhower explaining that its main feature is machinery and equipment for small independent industrial enterprises. In the dome are demonstrated three sectors of small business ventures—sheet metal automotive and wood working. There are specially trained operators to demonstrate how, with the help of small machines, production can increase, employment opportunities rise and the incomes of the workers and of business grow.

The exhibition has also an agricultural pavilion where teams of American experts give demonstrations on the uses of daily products, wheat and soyabeans, a modern playground with equipment which can be manufactured locally, a panel on labour, a trade information centre and a library containing 1,000 publications.

In the kiddieland are a model nursery, including latest products to ensure a baby's health, a toddler's corner designed for colour, indoor fun and a maximum of safety and a bedroom study high-lighting furniture designed specially to fit growing children's needs.

A market research programme has recently been initiated by the Small Industries Service Institute in Calcutta. The programme would help small industries to determine major distribution centres for their products and establish contacts with important wholesalers and dealers outside the local producing centres.

FIRST RE-UNION OF STUDENTS OF JOURNALISM under the University of Calcutta, was held on Saturday, the 14th March last.

Dr. Kalidas Nag who presided, in his address referred to the utility of journalists to the society.

Shri Vivekananda Mukherjee, as the Guest-in-Chief, pointed out that present day journalism had undergone a thorough change, both in technique and presentation. The reporting technique, had also differed much from what was practised in the pre-independence days.

Referring to the objectives of journalism Shri Hemendra Prasad Ghosh said that the newspapers of to-day were a clear departure from the newspapers of yesterday. Previously, they were views papers, those of to-day were dealing with news, added the doyen of Indian Journalism.

Shri Dakshina Ranjan Bose, President, Students' Association, said that the task before the journalists was great. He said the would-be journalists should keep themselves abreast of time and adapt themselves to the socio-economic developments and environments. They should also keep pace with the changing world, said the News Editor of an important Daily.

SOCIAL CRIMES: A huge quantity of heavy and light soda ash as well as caustic soda was unearthed and seized by the Enforcement Branch Police on Wednesday, the 18th March, following a night-long simultaneous search on different parts of the city. The seized chemicals valued at 11,34,840 Rs. of light soda ash, 85,000 lbs. of heavy

soda ash, and 25,760 lbs. of caustic soda. Their total worth was estimated at about Rs. 2 lakhs. The entire seizure was made from the godowns of four firms having their offices in Burrabazar area.

Due to import restrictions there was scarcity of these chemicals and prices of the same recorded considerable increase.

VITAL STATISTICS

For the City of Calcutta for the week ending
28th February, 1959.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 531 against 517 and 658 in the two preceding weeks and less than the corresponding week of the last year by 82. The general death-rate of the week was 8.79 per mille.

Town (Wards 1-27).

There was no imported death. Excluding these, the death-rate was 9.02.

There were 7 deaths from tuberculosis against 7 in the previous week.

AN ENDURANCE CYCLE RACE

A miraculous feat was displayed by a twenty-one-year old young man, Shri Biswanath Gupta, when he completed his 101-hour long endurance cycling on the 15th March last in Santosh Mitra Square, central part of the city. He was cheered by all present on the occasion. On behalf of the local citizens, Councillor Mukar Sarbadhikary presented him a purse of Rs. 212/- only raised in the locality.

Shri Gupta is performing this feat for the last few years but on this occasion he surpassed all his previous records.

CORPORATION NOTICES

To All Registered Petty Improvement Lighting Contractors

DISTRICT NO. II

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 23rd March, 1959 upto 2 P.M.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, BAR-AT-LAW
Supt., S. S. Hogg Market.

THE CALCUTTA MUNICIPAL GAZETTE

Corporation Budget Passed Unanimously

THE EIGHT-CRORE BUDGET ESTIMATES FOR 1959-60 was approved by the Corporation on Saturday, the 21st March last. A fairly large number of Councillors was present. The Estimates were presented before the House on the 18th March last by Councillor K. L. Dhandhanja, Chairman of the Standing Finance Committee. Spreading over four continuous days the discussion on the Estimates covered more than fourteen hours and as many as fifty members participated in it. The tone of discussion was not an unmixed feeling. Grievances were put up from almost every section of the House and many demands were dismissed due to paucity of funds while others were assured to be considered favourably. Criticisms of sharp and mild nature were there. Resentments were also expressed from many quarters for not implementing employees' grievances within the stipulated period.

The deliberations were piloted by the Mayor, Dr. Triguna Sen himself up to the last. Occasionally he was helped by Councillors Dulal Chandra Mukherjee, Nripendra Nath Banerjee, Ranajit Coomer Mitter and others.

The important feature of the discussion was the putting up of as many as 150 amendments to the origin recommendations placed before the House by the Standing Finance Committee. An individual put up eight amendments and out of which seven were approved by the Chairman of the Committee. Many others were similarly accepted by Councillor Dhandhanja subject to further scrutiny by the Standing Committee.

Amendment to the present Calcutta Municipal Act through legislation formed part of many of the speeches. The highest number related to revision of the rates of assessment through slab system. The movers wanted liberal slabs on the lower levels equally compensated by steep rise on the upper side.

Councillor Dhandhanja replied that it was the result of a collective endeavour of the Standing Finance Committee to present a balanced Budget. And there was hardly any occasion when the Committee differed except one, asserted the Chairman.

Councillor Dhandhanja concluded his speech by asserting that the Supplementary Bills would not hit the middle class rate-payers much for whom his sympathies would never be failing.

There was some confusion in the House towards the close of the discussion and it was overcome by a ruling from the Chair. The House's greatest concern was to know the fate of the amendments referred earlier to the Standing Finance Committee as similar amendments put up during last year's Budget discussion bore no fruits. The House calmed down when the Mayor, Dr. Sen suggested that the Finance Committee would be requested to lend their valued consideration in all of them within a specified date of the 30th June.

In course of four-day Budget debate, the Mayor, Dr. Triguna Sen, intervened once pointing out many of the emergencies for which he felt an urge in him. Dr. Sen's sympathy went first to the Corporation employees for whom he wanted certain provisions including housing arrangement and hospital facilities. He suggested that as a gesture correctness to this move the Corporation should provide Rupees Two Lakhs in the Budget for acquiring plots of lands for the purpose within the Corporation area. He thought a bigger plot might be available either in the Kasba or in Tangra area, eastern part of the city. Dr. Sen felt that the Government help for a similar sum might be assured for this if the Corporation was sincere to do something.

As regards better administration by the Corporation, Dr. Sen's own idea of forming citizens' associations on wardbasis for co-operation and co-ordination was again repeated by him. Establishment of mobile courts to root out many of the common evils was also urged by him.

Since the time of his becoming Mayor, Dr. Sen felt the need of re-organization of the departments. Special Committees were appointed by him for the purpose, but unfortunately the reports of those Committees could not be considered by the House up till then. Dr. Sen then urged for their immediate consideration. His other suggestions were for tax-relief to Tollygunge people and rate-payers of low income groups.

FOUR-DAY LONG BUDGET DISCUSSION CONTINUES

COUNCILLOR

AMULYA CHARAN
SIRKAR

(WARD No. 49)

INVITING the discussion on the Budget Estimate Councillor Amulya Charan Sirkar mainly restricted his speech in putting up the grievances of the undeveloped areas in the city. He listed up the shortcomings of those areas where people suffered from acute shortage of filtered water, insufficient street-lighting, maladies of an unsewered area and other evils.

Councillor Sirkar was eloquent to state the lack of civic amenities to be extended to his own Constituency, known as Tangra area. At the same time his attention was equally diverted to the poor quality of equipments and furnishings supplied to the Corporation Primary Schools. He was also critical to note the Education Department's inefficiency in spending up the amount allotted during the current year to provide mid-day tiffins to the school children.

The Chief Whip of the majority party, who supported the Budget unhesitatingly, did not favour the idea of starting a new municipal market in the New Alipore area, where the city's aristocratic grandeur flourished. It would be like 'carrying coal to New Castle', he asserted. He would have rather favoured the idea of establishing a similar municipal market on the eastern extremity of the city.

As a representative mainly from Bustee areas Councillor Sirkar felt that with a suitable amendment the present Municipal Act would little help the Bustee people whose number was considerable.

COUNCILLOR

DR. SUKHABEHARI
MUKHERJI

(WARD No. 35)

MAINLY restricting his speech on Assessment and Primary Education, Councillor Dr. Sukhabehari Mukherji pointed out many of the irregularities on the expenditure side, particularly in the Education Department.

Putting up an amendment whereby the poor middle-class rate-payers would get much relief, Councillor Dr. Mukherji proposed a new slab of rates for Assessment as given below :—

Holdings having Annual Valuation below Rs. 2,000/-	@ 12%.
Holdings having Annual Valuation from Rs. 2,001/- to Rs. 4,000/-	@ 15%.
Holdings having Annual Valuation from Rs. 4,001/- to Rs. 6,000/-	@ 18%.
Holdings having Annual Valuation above Rs. 6,000/-	@ 27%.

This progressive rate of taxation, was however, referred to the Standing Finance Committee. He emphasized that the proposed rate would sure to bring about an excess of income than the receipts under the existing slabs.

Councillor Mukherji further apprehended that the General Revaluation work of city's holdings just undertaken, would register an increase of taxation from 20 to 40 per cents causing hardship to the rate-payers. Although he put his support on the Budget still as a Councillor he expressed his helplessness in re-moulding the Budget for the good of the common man.

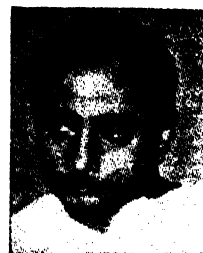

Putting up a few instances wherein the allotted sums still remained unspent he listed them covering up most of the Departments. Even in Health Department there was an unspent amount of about Rs. 40,000 allotted for the purpose of opening of new Milk-kitchens. In the Education Department the most striking feature was the lying up of unspent amounts for opening up new schools, for furnishing the existing schools with fans, emergent repairs of school buildings, mid-day tiffins and others.

About the Manicktala area, Councillor Dr. Mukherji thought that the deteriorated system of water supply would never improve considering the trend of work for the last few years. No big size tube-well could be sunk for 80,000 people of that area. No new improvement work with Rs. 17,000/- only could be done in Ward No. 35, complained Dr. Mukherji.

COUNCILLOR

SHYAMAL KUMAR
DUTTA

(WARD No. 62)

AN important member of the Standing Finance Committee, participating in many of the deliberations, Councillor Shyamal Kumar Dutta was not satisfied with the Budget as it lacked in the fulfilment of the employees' grievances. Councillor Dutta doubted about the 'soundness' of the Budgeting system as maintained in the Corporation. He opposed the idea of levying Mutation Fees, as proposed by the Standing Finance Committee although there were such provisions in the existing Municipal Act.

Criticizing the Budget proposals, Councillor Dutta wanted that the Standing Finance Committee would have looked first for the implementation of those beneficial proposals put up last year to give an amount of relief to the poor people, which still awaited State Government's approval. He thought the Committee should have been earnest in this matter.

Before conclusion Councillor Dutta remarked against the Law Department for its 'inefficiency and slackness'. He said that the Corporation's court cases, involving Rs. 40 lakhs, had been time-barred.

Councillor Dutta's amendment for Tax measures was :—

That pending receipt of Government sanction and approval to the proposal, as clearly indicated

in the Corporation Resolution dated the 22nd March, 1958, for increasing the maximum rates from 23 to 27 percentage where the Annual Valuation exceeds Rs. 12,000/- the lower percentage for the first two slabs as per Corporation Resolution referred to above, be immediately introduced on and from the first quarter of 1959-60, as provided under Section 165 of the Calcutta Municipal Act, 1951.

COUNCILLOR

ANIL MAITRA

(WARD No. 61)

INITIATING the discussion on the second day Councillor Anil Maitra, leader of the Opposition in the Corporation said that every year members assembled there to consider the Budget estimates from all possible angles. On the last day the uninterrupted functioning of the municipal administration was being assured. "But, Sir, to what end do we labour? 'What shadows we are' cried Burke in the hurly-burly of an election, 'and what shadows we pursue.' We here are perhaps committing the similar folly of engaging ourselves in the pursuit of phantoms. Last year, before the ink was dry on the Budget resolution the Finance Officer raised a cry of alarm and put a veto on all Borough activities on the plea of a financial crisis. Now we learn that the year is expected to close with a surplus of Rs. 61.70 lakhs!" added the leader.

In a critical mood Councillor Maitra said that an attempt had been made to show that the Budget was a joint endeavour of all the Standing Committees. The misconception should be removed. What the other Standing Committees were asked to do was curtailment of the expenditure in their respective spheres by 20 per cent in the context of the awful deficit of Rs. 59 lakhs as disclosed in the Chief Executive Officer's Budget. The Standing Committee therefore, tried to prune away the estimates. No inking was given to them of B. I. 90E which remained up the sleeve of the Chairman. They had no opportunity of suggesting the projects to be included under the Budget head. The Standing Water Supply Committee was not given any chance of putting up proposals for execution out of the loan of Rs. 27 lakhs. As a matter of fact, neither the Executive nor the appropriate Committees had any say in the allocation of this sum of Rs. 47 lakhs." Councillor Maitra said that at the very beginning he liked to have the elementary statistics for the purpose of Budget-framing. He also wanted to know the amount of revenue that was recurring and likely to be realised from the regular sources of income excluding those of casual nature and the amount of expenditure which the Corporation was bound to incur in the coming year as a recurring liability. But he was never supplied with the data he required. The Finance Officer was requested to circulate among the members of

the Corporation statements showing the following particulars :—

- (a) Total liability upto 31st December, 1958, to be carried over.
- (b) Total unadjusted advance of cash and stores including stock.
- (c) Actual revenue receipts on account of consolidated rate upto 31st December, 1958, and
- (d) Recurring expenditure for maintenance and establishment.

But unfortunately those were not available. The figures for 1957-58, except on the basis of preliminary accounts, were not found. Thus these might be far from reliable. So no actual data was furnished for 1958-59. The Chief Executive Officer's Budget disclosed a deficit of Rs. 59 lakhs. It had been wiped out by the Standing Committee. But the necessary information about the outstanding liabilities and the accrued income could not be traced. Describing that the Budget was erected on quicksands, being based on presumptions and assumptions, Councillor Maitra said that the cart had been put before the horse. Expenditure ought to have been considered first. 'It ought to have been ascertained where the roads are to be constructed, where the pipes are to be laid and where the surface drains remain *kutchas*. But priorities have not been determined and the real requirements still stand unassessed. A programme covering a period of two or three years, should have been adopted for the execution of work according to priority. Then where is the rational and scientific approach towards Budget-making, asked the leader of the Opposition.

Disregard of all budgetary principles was glaring in the handling of the Loan Budget. The loans, an essential part of the Budget, as the Act enjoined to be raised should accompany a statement with the Budget. 'We are told that Rs. 5.13 crores worth of Debenture Loans would be raised next year. But no statement of the projects has been laid before the House. The needs have not been surveyed and assessed', said Councillor Maitra. The Loan Budget should have actually mirrored the efforts of the Corporation for affording amenities to the rate-payers was the opinion of Councillor Maitra. Considering this as an index to the progress, proposed to be made, he characterized it by the absence of any such effort. Continuing his speech he said that the expenditures on New Work out of Revenue were complaisant, no doubt, but it was another offence against the principles of Public Finance. He emphasized that the cost of New Work should be borne out of loans, as the benefits accrued thereon were passed on to the future generations and one particular year should not be saddled with a long project burden. A projected expenditure of Rs. 1.04 crores against Rs. 9.56 lakhs only in 1953-54 could not be claimed in such a way. Describing the 'ruinous state of finances within a few years', Councillor Maitra said that the reserves built up with such care and at such sacrifice in hey days had gone with the wind. Rs. 30 lakhs had been diverted from the Special Funds this year. Next year, the reserves would be raided again to the extent of Rs. 22 lakhs. 'Still we are called upon to hail this Budget as a masterpiece of financial artistry', remarked Councillor Maitra. Utter lack

of planning was evident both in loan projects and the work of capital nature foisted on the Revenue Budget. The Borough allotments were made without appraising the needs of the different areas.

The same unrealistic approach marked the planning of the big projects, now in various stages of execution. Major works had been undertaken, but the essential ancillary works, without which the benefits of the former would be very much reduced, were not contemplated. Water supplied from the Pulta source was to be augmented to 150 million gallons per day. But there was no proposal for essential projects such as, enlarging the water mains, laying the distribution mains in a proper manner, zoning and laying pipe-lines. The consequence would be that the extra water, even if available, would not likely to reach the doors of the rate-payers, said Councillor Maitra. Similar case was witnessed with the drainage. No thought had been spared for Cossipore or Tollygunge where sewers should be laid and new Pumping Stations to be set up. The pumping capacities of the old Drainage Stations were proposed to be augmented. But these stations would not serve any new area. Hence, the money would be spent as usual, but the benefits would not accrue to the needy, remarked the member of the Standing Finance Committee. Putting up suggestions, Councillor Maitra said :—

'Certain reforms are needed in our Loan Policy. At present we are causing budgetary disequilibrium by placing heavier loads on the Revenue Budget. We are raising loans and locking up the money for years, thereby incurring larger loss in interest. Instead, we can open Overdraft Accounts with Banks upto the necessary limit so that the probable loss in the shape of interest may be avoided. The loans then would not be needed till the works are completed. Thus relief from payment of interest would also be substantial. This policy is sure to strengthen the base of Corporation finance'.

Not satisfied with the Chairman's Budget statement, Councillor Maitra said that the Chairman had not a word for the rate-payer aching under the weight of higher and higher taxation. The number of premises had risen from 83,857 in 1953-54 to 84,531 in 1958-59, i.e., by only 674. The yield from Consolidated Rate had on the other hand, shot up from Rs. 359.10 lakhs in 1953-54 to Rs. 435.19 lakhs in 1958-59, i.e., by Rs. 76.09 lakhs. The receipts were expected to rise to Rs. 470 lakhs next year. The additional yield was secured by actually fleecing the rate-payers. The basis of valuation had been changed under the present Act. The current cycle of re-valuation, which started in 1954, was due to be finished by the end of 1959. It had raised rates by about 50 per cent. Councillor Maitra disclosed: "Dissatisfaction is running high among the rate-payers. About 90 per cent. of them have filed objections against these revaluations. In these days of rising prices, the increase would affect the economic conditions of a large number of middle-class house-owners. The most affected are the resident-owners. As a result of new assessment, dwelling houses have been valued on the rental basis and the rise in

rates is almost in proportion to the prevailing price of land and cost of construction". He also said while taking a lesson from Great Britain, where basis for valuing dwelling houses for the purpose of fixing rates was the rental, on or about June 30, 1939—"The worst sufferers are those who have let out portions of their houses. The increase in taxation on them as a result of the revision made under the new Act has been the highest. Owing to a fall in earnings, most of the house-owners have let out portions of their houses.'

Another class hit most hard, explained the Councillor, was the bustee-dwellers. They had to pay under the upper slabs because of the valuation practice. The injustice was apparent in their case.

'The Corporation passed a resolution last year for reduction of the taxation rates in the lower groups. But nothing has been done. I feel that, had the Budget been properly framed, the relief might easily have been granted within the framework of the present Corporation finance,' emphasized the leader.

Sympathizing with the Corporation employees the member also said that grievances of the employees were suggested to be met out of the savings in Establishment and it was to be earmarked for the purpose. But this modest proposal was rejected. For the last seven years, before the officers and employees the bait of revision of grades for all categories had been dangled. Then there was the problem of rationalization. It should be tackled without delay. If necessary, an experienced officer might be appointed for this. 'It is no use raising more and more revenue from harassed rate-payers and then frittering away the money in ill-conceived schemes, leaving the administration where it is', he also said.

Endorsing the view of the Chairman, Councillor Maitra said that a thorough overhaul of the present Act was an imperative need. 'This Act had made a most inequitable distribution of powers and responsibilities. The introduction of the Municipal Service Commission with its heavy establishment charges had not been fully commensurated by services. Aldermen and Councillors devoting a great deal of their time and energy on Corporation work should be granted at least out-of-pocket expenses, as in Delhi and Bombay, he also suggested. He wanted the completion of the labour of the Act Amendment Special Committee deliberating for over a year.

Better co-ordination was necessary for conformity of C. I. T. Schemes with the Town-planning needs of the Corporation. He demanded early implementation of the recommendations of the Local Finance Enquiry Committee and the Taxation Enquiry Commission with regard to the Local Bodies. The Scheme for Tollygunge Squatters' Colonies should be taken up immediately, Councillor Maitra emphasized.

On the stress of the Third Five-Year Plan the requirements of the Corporation should be surveyed and an assessment of the needs should be made without delay. Leader of the Opposition also remarked that the post of Development Engineer should not be kept vacant any longer and the necessary staff for the Planning and Development Department should be appointed at once in

accordance with the Corporation sanctions accorded about three months ago.

Concluding his speech the leader of the Opposition and an important member of the Standing Finance Committee said :—

"Now is the time for direct action in the interests of our very survival. Let a mass deputation march on the Assembly House. Let the deputation be led by the Mayor and the Deputy Mayor. Let the Alderman, the Councillors, the Officers, the employees and the rate-payers in large numbers swell the ranks of the marchers. Then and then only we can wrest our rightful dues from the unwilling hands of the Government. Then and then only we shall be able to make the City Clean and Beautiful."

COUNCILLOR
SATYANANDA
BHATTACHARJEE

(WARD No. 6)

GIVING a pessimistic picture of the Budget Estimates, Councillor Satyananda Bhattacharjee made charges against the State and the Union Governments for depriving the Corporation from many of its shares and dues in pecuniary matters. "This has resulted increased burden on the middle-class and lower income group of people", he added. Councillor Bhattacharjee went further to mention how the burden had effected upon small stall-holders who were required to pay more than Rs. 100/- in an year ruining his economic conditions.

Not satisfied with the present system of distribution of money for the constituencies amounting to nearly Rs. 30,000/- for each, the representative of one of the oldest part of the city felt that re-modelling and re-casting of the amenities afforded so far would require further sums.

Councillor Bhattacharjee, Deputy Chairman of the Standing Education Committee also regretted that no provision in the Budget Estimates had been made for the repair of the Corporation's Primary School buildings, 75 per cent. of which were insecure. He also pleaded for Housing accommodation of the employees.

Concluding his speech, Councillor Bhattacharjee alleged that the Union Government had failed to pay its dues to the Corporation and, in the circumstances it was unfair for anybody to describe Calcutta as a city of processions.

COUNCILLOR

NANDALAL
BANERJEE

(WARD No. 4)

PUTTING up an amendment on the procedure of working out assessment of Bustees, Councillor

Nandalal Banerjee suggested that each hut should be assessed separately leaving aside the present practice of Bustee-wise assessment. He thought that this would greatly relieve the poor residents of those dens where air and light were restricted. He also opposed this dual system of collection, one by presentation of Rate Bills through postal system and the other collection by Bailiffs. Thus he was highly critical about the taxation system including the License fees whose unrealized arrears had accumulated to a huge amount.

In course of speech, Councillor Banerjee covered almost all the departments extending amenities to the rate-payers. He also pointed out those deficiencies that he had come across. He also could not find out a solution of the knot created in the Education Department where the number of teachers had much in excess in proportion to the increase in the number of pupils although higher classes had been opened there. According to him the increase was disproportionate. Still he supported the Budget Estimate as put up before the House.

Councillor Banerjee also felt that the mass vaccination drive would never be successful unless the main difficulties were not wiped out of the field.

COUNCILLOR

MUKUR CHANDRA
SARVADHIKARY

(WARD No. 46)

DESCRIBING the Budget Estimates as unscientific, purported and full of short-comings, Councillor Mukur Sarvadhikary thought that a more realistic Budget could have been presented by the Standing Finance Committee. According to him there might have been an increased revenue in many of the revenue-earning departments. There could have been a full one-crore income from the head of License fees if there was a stricter vigilance. He also criticized the water supply system in the city. In this connection, Councillor Sarvadhikary pointed out many of the irregularities there particularly the pipe-laying work was not distributed according to the merits it deserved.

While concluding his speech, Councillor Sarvadhikary presented a picture of the city which could well be compared with the Capital of the Indian Union which was then on the transformation stage divided into different pockets inhabited by people on the gradation of income and dignity.

COUNCILLOR

DR. HIMANGSHU KUMAR
DAS

(WARD No. 43)

AN important member of the Standing Education Committee, Councillor Dr. Himangshu Das

mainly confined his speech on his own sphere. He accused the State Government for not extending sufficient aids in implementing compulsory Primary education in the city. 'According to the 'directive principles' the Union Government has a duty in this regard also', added Councillor Dr. Das.

As a physician, Councillor Dr. Das expressed his concern over the health of those Corporation school children who were ill-nourished and wanted that something should be done to eradicate the evil out of the city.

COUNCILLOR
RATAN MANICK
CHATTERJEE

(WARD No. 56)

HARPING on one string, Councillor Ratan Manick Chatterjee made pointed references on *Bustee* cleansing work, better quality of conservancy services and others. He also demanded that the employees' grievances should be implemented without any further delay.

Councillor Chatterjee felt that fresh demands should be made upon the Union and the State Governments for the use of their vehicles on roads and paths built and maintained by the Corporation, as compensation. Because of the heavy military cars the city roads were being damaged to a considerable extent, added the member representing an area said to be underdeveloped one. In that connection Councillor Chatterjee proposed that the Corporation should be authorized by the Government to levy 'Road Taxes' on Vehicle if the Government had decided not to increase the share of Motor Vehicles Tax paid by them to the Corporation.

Councillor Chatterjee, however, supported the Budget as presented before the House.

COUNCILLOR
DR. KANAILAL SARKAR

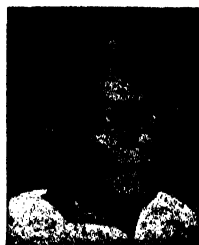

(WARD No. 71)

CONFINING his speech mainly on city's health problems Councillor Kanailal Sarkar wanted that allocations of funds on preventive measures would have been larger. He referred to the growing mosquito menace in the city. In that connection Councillor Dr. Sarkar located the plague spots wherein breeding grounds had been developed viz., Tollygunge, Manicktola, Chetla, Kidderpore and Cossipore. As a teacher of Public Health he felt that treatments to wipe out the menace should be more accurate and timely by using improved quality of insecticide.

As a member of the Standing Health Committee he was not satisfied with the working of the Corporation Charitable Dispensaries installed in different corners of the city. Even the cares taken

there by the Corporation appointed physicians were unsatisfactory not to speak of the medicines supplied which were of inferior quality, added the Councillor.

Councillor Sarkar felt that the Food Inspectors should be more vigilant in order to eradicate the evil of food adulteration. He also moved an amendment for the improvement of drainage system within his constituency.

COUNCILLOR
DR. LALMOHAN
BHATTACHARYYA

(WARD No. 47)

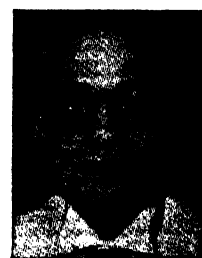

WIDELY covering his speech on different ills of the Corporation Councillor Dr. Lalmohan Bhattacharyya regretted for the insufficient provision in the purchase of medicine allocation. He pointed out the difficulties experienced by the physicians of the Corporation Chest Clinics in treating such a large number of T.B. patients with so meagre quantity of medicines.

No satisfied with the procedure of assessment followed in the Corporation Councillor Dr. Bhattacharyya felt that a novel method should be found out so that the citizens' hardships might be lessened. He wanted that the Scavenging Tax should be withdrawn.

Demanding larger provisions for the purchase of medicines for Corporation Dispensaries in order to serve a larger number of citizens, Councillor Dr. Bhattacharyya supported the Budget estimates as placed before the House. He also suggested for starting hospitals in District Gowkhanas, where spaces were available to a reasonable extent for the purpose.

COUNCILLOR
CHANDRA SEKHAR
BHOWMICK

(WARD No. 33)

OPPOSING the Budget Estimates Councillor Chandra Sekhar Bhowmick complained that no tangible proposal had been made in the Budget for the improvement of the Bustee people. What was more glaring was the lack of provision for Tube-wells, the essential need of the Bustee area.

Particularly to the people of Bustees in Narkeldanga area, the Committee had cast a *Ceaser's look* although the area was ceded to the Corporation since 1923, added the representative.

Councillor Bhowmick was most critical towards the Law Department, while he pointed out many of its irregularities. He alleged that the department was responsible for not realizing many of the decretal amounts lying in favour of the Corporation. 'An enquiry would disclose all the facts,' demanded the lawyer Councillor.

Suggesting many of the proposals for the implementation of Corporation funds. Councillor Bhowmick felt that at least five per cent of the total pool of Income Tax realized from this city should be apportioned to the Corporation. He also demanded an equal percentage from Death Duty collected in this city. Councillor Bhowmick would be satisfied to have five per cent share of the Amusement Tax and Motor Vehicles Tax realized.

COUNCILLOR
BIMAN BEHARI MITRA

(WARD No. 55)

PUTTING up as many as eight amendments to the original recommendations of the Standing Finance Committee Budget Estimates Councillor Biman Mitra made a critical study of both the receipts and expenditure sides. Many of his amendments came up in the shape of suggestions were approved by the House and all of them were referred to the Standing Committee for detailed examinations. These related to the immediate implementation of the scheme for construction of the Furrakka Barrage for the safety of the city, revision of assesment rates on rate-payers' income basis and further stoppage of General Revaluation to the holdings belonging to a lower ceiling of income, introduction of levy of Octroi Duty on goods entering into this city like Madras and Bombay Corporations, and demands for share in the expenditure in imparting Primary education as well as on expenditures for capital projects on water supply and other essential services and an increased share for the Corporation on the Motor Vehicles Tax and the demand of the entire Terminal Tax. Elaborately Councillor Mitra dealt on them by citing figures and data from other local bodies and institutions. He said that while Madras and Bombay Corporations were receiving substantial amount of grants for imparting primary education in those cities from the State Governments Calcutta was fully deprived from similar concessions even from a part of Rupees Two Crore Union Government's grants-in-aid to the State for the purpose. While Madras Corporation was receiving subsidies from the State Government as regards expenditures on maintenance of Trunk Roads as well as for Public Health Services Calcutta Corporation on the other hand had to bear the part of a burden for antiplague activities, a temporary measure against the deadly disease. The Bombay Corporation had been favoured with a share of Tobacco Duty, toll charges and other concessions including exemptions from paying Sales Taxes for essentials. Calcutta presented a reverse picture. All these have caused a deteriorated revenue position of the Corporation except a loophole in the Consolidated Rates by way of subsequent General Revaluations added the Chief Whip of the United Citizens' Committee. In this connection he also quoted a portion of the speech delivered by the late Sardar V. Patel who said that unless and until the question of Local

Finance could be settled first the widening of the scope of Local Bodies would be like 'dressing a dead woman.'

Extending his sympathy towards the poor section of the ratepayers Councillor Mitra claimed that the revision of assessment rates suggested last year would be implemented without delay. As the highest share of the Municipal Fund came from ratepayers comprising of 84 per cent people who belonged to middle-class and lower income groups including Bustee people they would be hard hit. And the increase there had witnessed more than 100 per cent within a decade that is, from 1946-47 the amount of Consolidated Rate of Rs. 211.68 lakhs had been raised to Rs. 470.50 lakhs in 1959-60. Moreover, Councillor Mitra was not satisfied with the system of accounts maintained in Corporation full of so many loopholes.

As a member of the Water Supply Special Committee to devise ways and means for deriving larger revenue from sales of water Councillor Mitra thought that practising larger economy and vigilance the Corporation could earn another Rs. 14 lakhs. For the elimination of salt contents from filtered water, the member of the Standing Water Supply Committee felt the urgent need for the construction of Furrakka Barrage. He concluded his speech with a demand for Sports Stadium in the Congress Exhibition Park.

COUNCILLOR
PURNENDU KUMAR
SENGUPTA

(WARD No. 9)

OPPOSING the Budget Councillor Purnendu Sen Gupta vehemently criticized the administration. He also put up the grievances of the old Calcutta areas to which the Corporation appeared to be indifferent.

As one of the youngest members in the House his sympathy went to the city's younger generation who had been suffering from acute shortage of open spaces particularly play grounds. Councillor Sen Gupta said that he had been reiterating in times without number for opening out a big play-ground on the northern part of the city but failed to do any tangible progress on that. In that connection he placed an amendment before the House for acquisition of fourteen kottahs of open land on Raja Nabakissen Street, Ward No. 9 for the above purpose. He also demanded larger provisions for the improvement of Shyampukur Street, and a definite sum of Rs. 50 lakhs for improvement of Parks within Ward No. 9 through amendments placed before the House.

Councillor Sen Gupta regretted that the Budget had failed to provide suitable sums for installing at least four acres of open land for one thousand people in this city against eight acres for the same number in other big ones.

COUNCILLOR
SUDHIR CHANDRA
MUKHERJEE

(WARD No. 12)

LOOKING into the dark side of the Budget, Councillor Sudhir Mukherjee said 'that the Budget speech of the Chairman did not contain anything new except some accusations against the State and the Union Governments, the Port Trust and the Calcutta Improvement Trust. The very old question rather a problem viz., assessment procedures of the valuation of the properties had been resung in a different tune. He also accused the Committee with the words 'important civic amenities like water supply and drainage have not been given proper weight'.

Introducing a chapter of his speech with a phrase 'good administration requires good supervision' Councillor Mukherjee said that the Budget was quite silent as to how the administrative machinery of the Corporation to be tuned up according to the requirements of time particularly to cope with the outstanding in almost all the departments. He was rather sorry to notice that some departments were over-staffed while others suffered from adequate hands. Even the Tollygunge area yielding Rs. 40 lakhs as Consolidated Rates could not be furnished with the required number of staff in the Assessment Department thereby causing delay in the issue of Rate Bills for the first quarter of 1958-59.

With the introduction of counter system of collection through the postal presentation, the Corporation could have been freed itself from the regiment of Bailiffs but that had not been done, nor the surplus staff was utilized in other ways. Putting up many other suggestions Councillor Mukherjee concluded 'our problem is of administration and a good administrator is never in want of fund'.

He added that whenever the Corporation had failed to tackle any problem, the indulgence of criticizing the Act came. Undoubtedly, some of the powers enjoyed by the Corporation earlier had been curtailed and the Act stood for modifications. but that did not reduce the House to a completely inefficient body. 'The existing powers have not been utilized to the fullest degree', according to the lawyer Councillor.

Councillor Mukherjee also pointed out many of the loopholes in the Corporation administration which in his opinion were of serious nature. Many of them had helped bribery, negligence, favouritism, indifference and ignoring the rightful claims of the common citizens.

He could not be satisfied with the appointment of only one gang of Repair and Re-surfing Staff for tube-wells where the demand was for seven such gangs.

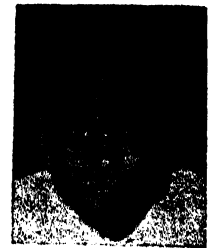

As a member of the Standing Town Planning and Improvement Committee Councillor Mukherjee

said that larger provision should have been made for new roads, new parks and others. He also appreciated the activities of the Calcutta Improvement Trust in fulfilling their projects and for preparing plans of such nature.

COUNCILLOR

PRASANTA KUMAR SUR

(WARD No. 79)

LOOKING into the magnitude of the problems that confronted the city, Councillor Prasanta Sur listed out the drainage system, water supply, sanitary conditions and many others that have had combined together to form the crux of the situation. The city's problems are enormous and we are not in a position to ameliorate the grievances of the citizens to any extent whatsoever, even though there are Rs. 20 crores at the disposal of the Standing Finance Committee this year including the Loan Budget for Development work,' added Councillor Sur

Dwelling mainly upon the Loan Budget of the Corporation Councillor Sur warned the House that the unending flow of the loans raised by the Corporation, would never be able to help the situation although the Corporation might move through its orbit of loan raising capacity which was Rs. 11 crores in 1957-58 and Rs. 15 crores in 1958-59. Sticking to the principle enumerated earlier by the Finance Officer, Councillor Sur said that Corporation should raise loans to that extent which it would be able to repay. The surplus yearly revenue account of the past years should be the yard-stick in loan raising capacity of the Corporation. Councillor Sur opposed the Budget on the grounds of raising loans in such a manner ignoring the wisdom of the expert officials, while he quoted figures in this connection.

Criticizing the expenditure side of the Loan Fund, Councillor Sur said that during a period of six years from 1952-53 to 1957-58 the Corporation had spent only a sum of Rs. 159.94 lakhs indicating the capacity for spending loan fund to a meagre amount of Rs. 26 lakhs annually. 'This must have not demonstrated the Corporation's efficiency and set up.' Said he. In the circumstances Councillor Sur suggested that Corporation should cry a halt in raising loans. Councillor Sur also criticized the investment policy of the Corporation as disclosed by the Chairman.

Allocation of funds in the Tollygunge area, wherefrom Councillor Sur had been returned, did not satisfy particularly with the proposed expenditure of Rs. 27 lakhs for the improvement of water supply. The distribution among the five wards under one Borough was far from indiscrimination, alleged the member of the Standing Water Supply Committee. The unplanned way of spending money also came for criticism under his pen, which he read out before the House.

COUNCILLOR
GANAPATI SUR

(WARD No. 2)

A bitter critic of the Calcutta Municipal Act, 1951, Councillor Ganapati Sur felt that until and unless the Act was amended there was no possibility of the improvement of the city by the Corporation. He criticized the budget estimates because no provision of money had been made for the Town Planning and Improvement Committee.

The Chairman of the Standing Town Planning and Improvement Committee was critical about the services and the activities of the Calcutta Improvement Trust for not taking up the scheme for the development of Cossipore area, though it had been included about 30 years ago within the fold of the Corporation.

Reviewing the Budget, Councillor Sur proposed that the estimates might be re-considered by the Standing Committee in another angle. The State Government should be requested to suitably amend the Act to make it practicable and workable, he re-iterated.

COUNCILLOR
HARINARAYAN SADANI

(WARD No. 25)

MAINLY restricting his speech on the improvements of the Burrabazar area, Councillor Harinarayan Sadani wanted that larger provisions should have been made in the Budget for that part of the city. He proposed that an amount of Rupees Twenty-seven thousands be allotted in the estimates for the construction of a school building in Ward No. 25 which he represents in the Corporation.

Councillor Sadani also criticized the assessment procedures in the Corporation which according to him were full of irregularities.

COUNCILLOR
DHIRENDRA NATH BOSE

(WARD No. 54)

SUPPORTING the Budget Estimates as presented before the House, Councillor Bose was frank to admit that it had failed to throw any new light in the way of extending amenities. He felt that a number of amendments should be incorporated before the final acceptance. He demanded that the Establishment Budget should include adequate number of Resurging and Repairing

Staff for the Tube-wells to end unending maladies. Under Borough No. 11, the number of defunct tube-wells had exceeded 53 and Councillor Bose could appraise the House well about the growing number of defunct tube-wells.

Further as Deputy Chairman of the Standing Works Committee, he could not satisfy himself in spending Rs. 51 lakhs under 'Road Repair work.' He thought this expenditure should be borne both by the Union and the State Governments as both of them reap Taxes on Motor Vehicles and Petrol. Otherwise he demanded a substantial share of the Motor Vehicles Tax at present collected by the State Government as the total pool had exceeded Rupees One crore at the present moment.

Councillor Bose urged the State Government through the House to authorize the Corporation to levy a kind of 'Octroi Duty' at a proposed rate of 1½ per cent and he was sure that the Corporation finance would be safely extended by Rs. 2.64 crores under this head. As according to him about 528 lakh tons of goods were either imported or exported out of this city.

In a similar manner Councillor Bose demanded that the State Government should bear a considerable part of the expenditure on Primary education because of the fact that Bombay, Madras and Delhi were getting Rs. 34 lakhs, Rs. 51 lakhs and Rs. 45 lakhs respectively from their State Governments, according to him. The Calcutta's share in this regard is almost nothing, added the Deputy Chairman of the Standing Works Committee.

ALDERMAN
DR. AMIYA KUMAR BOSE

REGRETTING that many of the recommendations of the Standing Health Committee had not been accepted by the Standing Finance Committee, Dr. Amiya Bose, Chairman of the Standing Health Committee listed out those suggestions. At the same time he appreciated for acceptance of an almost similar number of recommendations by the Committee. The Chairman said that the Standing Health Committee had earlier recommended for sinking of 800 small dia. tube-wells and 50 big-size tube-wells in the bustee areas along with the appointment of resurging band as an Epidemic Control measure but he was sorry to note that the suggestion had been turned down by the Standing Finance Committee. The House's apathy to start Bustee Health Centres had pained him much. 'Such centres are being run by the Bombay State Government', added the eminent physician of the city. He urged that the Bustee Cleansing Gang should be made permanent without further delay. Dr. Bose also felt for immediate introduction of State Insurance Scheme among the Corporation employees extending the benefits as far as practicable.

An important member of the House participating in debates on varied topics, Alderman Dr. Bose

could not understand about the hindrances standing in the way of the Corporation in raising further loans for completion of many of the capital projects. He also doubted about the sincerity of the Union Government in extending loans in spite of its big promise of help towards Health and Sanitation projects of the Corporation. Thus he could not agree with the Standing Finance Committee's Loans Budget as put up before the House.

Among the amendments put up by him were the setting up of an Isolation Hospital for epidemic disease control temporarily at first in Chetla area under a provision of Rs. 50,000 only, a Research Laboratory for Public Health and the second Research Laboratory for Tuberculosis at Baker Road Chest Clinic, Alipore on a total provision of Rs. 25,000/- only.

COUNCILLOR

SUSHIL KUMAR PAUL

(WARD No. 1)

ALTHOUGH Councillor Sushil Paul supported the Budget still he could not place his unmixed approval on all the provisions. He admitted his inability to induce the Standing Finance Committee to provide even for Rs. two lakhs for starting a Maternity Home in the Cossipore area. Even his last year's urge for undertaking the pipelaying work in his area did not bear any fruit. Thus he was rather pessimistic about doing any good to the people he represented.

Councillor Paul, a member of the Standing Water Supply Committee further urged that larger provisions should be allotted for Drainage and Water Supply treating them as essential measures. He also opined that as the life of a tube-well could not be extended beyond two to three years, some projects of permanent nature should be undertaken.

COUNCILLOR
BARINDRA NATH
CHATTERJEE

(WARD No. 70)

DEMANDING that Bhowanipur area to be treated at par with the underdeveloped ones the newly elected Councillor Barin Chatterjee listed many of the maladies of the area of which Tuberculosis topped the list.

Councillor Chatterjee complained of many of the irregularities in the Corporation administration. He also felt that one of the most congested area should have a Maternity Home in addition to the Charitable Dispensary maintained by the Corporation in an unsatisfactory manner.

COUNCILLOR

DHIRENDRA NATH
DHAR, M.L.A.

(WARD No. 45)

OPPOSING the Budget Estimates Councillor Dhirendra Nath Dhar said that the Budget had not depicted the true financial position of the rate-payers. Even the estimates made on the expenditure side were not sincerely or earnestly allotted to benefit them. His wisdom as a legislator of the State was amply demonstrated when he pointed out the lacunae of the present Municipal Act through a categorical statement. He also regretted for the Corporation's inability to mould and re-shape a welfare policy by twisting the provisions of the Act.

Pleading for the establishment of Work Committees in different departments of the Corporation so as to smoothen the progress Councillor Dhar was eloquent in appreciating the services of the employees. He sought further co-operation both from the Corporation as well as from the employees to build up those Committees. He urged that the Budget should provide necessary funds in fulfilling the minimum demands of the employees as they had just been considered by a five-men Special Committee appointed by the House to avert the strike notice. In the shape of an amendment Councillor Dhar moved to provide at least Rs. five lakhs in the Budget for the extra Dearness Allowances at the rate of Rs. 5/- to all employees drawing up to Rs. 300/- only per month as compensation for food concessions. In that connection he was so much earnest that he declined to wait till the Government's acceptance to bear the major share of the payment as is being done by them in this regard.

As a city's representative in the State Assembly Councillor Dhar did not favour the idea that Corporation should function as a Housing Trust ignoring its normal allocation of duties so long performing satisfactorily for the interest of the citizens in general.

COUNCILLOR
DEVA PROSAD
CHATTERJEE, M.L.C.

(WARD No. 78)

APPRECIATING the estimates as presented by the Standing Finance Committee, Councillor Deva Prosad Chatterjee said that the Budget showed progress in the financial position of the premier civic body in West Bengal. On the Receipt side there was a steady increase from Rs. 576.27 lakhs in 1953-54 (actual) to Rs. 844.47 lakhs (Budget), and again on the expenditure side

from Rs. 560.30 lakhs in 1953-54 (actuals) to Rs. 801.76 lakhs in 1959-60 (Budget). Larger provisions have been made under capital projects out of the Loan Fund, he added.

There was also considerable increase of expenditure in almost all the major items of civic amenities including water supply, drainage, roads, lighting, health measures and many others. In certain field such as imparting primary education the increase was commendable, he said while quoting figures based on a comparable data. Appreciation should also go to the Standing Finance Committee for the modifications effected on the original Budget Estimates, presented by the Chief Executive Officer, Councillor Chatterjee continued.

Dwelling upon various aspects on the Receipt side Councillor Chatterjee thought that the Corporation could have earned larger amount from the yields in Municipal markets while the former Deputy Chairman of the Standing Public Utilities and Markets Committee's praise went to the proposal of establishing a market in the New Alipore area. He felt that erection of a Sports Stadium under the auspices of the Corporation in co-operation with other authorities might bring considerable amount of money. Immediate implementation of the recommendations of the Taxation Enquiry Commission and the Local Finance Enquiry Commission was urged by Councillor Chatterjee who is also a legislator representing a part of Local Bodies within the State. The State Government's move to shift *Khatahs* from the city would result in loss of revenue, he apprehended.

On the expenditure side Councillor Chatterjee desired that certain allocations should be revised taking the rational view of the city as a whole. The Borough allocations should be based on a more realistic approach. The allotted fund was being utilized for beautifying street corners with coloured lamps while the under-developed or undeveloped areas suffered from essential amenities as water-supply, drainage and roads. The Revenue expenditure on water-supply for Rs. 5.90 crores was made totally denying Tollygunge's claim, and even the Loan Budget of Rs. 14 lakhs in 1957-58 for the purpose had been reduced to Rs. 5 lakhs only in 1959-60. Councillor Chatterjee detailed about Tollygunge and he said, 'this added area is still being neglected, in the sense that it is not receiving as much attention as it should for its various requirements'. The drainage difficulties of that area was pointed out by him. Under Health Measures Section Councillor Chatterjee wanted to introduce domiciliary system of treatment of T.B. patients in the Tollygunge area to cope with the growing menace.

Demanding preparation of a Master Plan for the area Councillor Chatterjee said that the estimated expenditure of Rs. 6 lakhs might be apportioned by the Government along with the Corporation due to the existence of the Squatters' Colonies in that area. A Planning Sub-Committee under the Standing Finance Committee would look into its work, he suggested. Extension of C. I. T. activities in that part of the city was his other demand as the rate-payers of Tollygunge had to

bear a share of Corporation's burden of contribution to that body. He also said that it would be unwise to give effect to the General Re-valuation Scheme in Tollygunge area.

COUNCILLOR
BUDRIDAS BURMAN

(WARD No. 21)

As one of the senior members in the House Councillor Badridas Burman felt that the existing taxation policy would hard hit the middle class population particularly the burden of Supplementary Bills. Councillor Burman wanted that the objection cases related to arrear Tax Bills should be expedited as far as possible, even by appointing extra staff for the purpose.

Councillor Burman's main suggestion in the House was the introduction of one uniform rate of slab system in the matter of determining valuation for assessment purpose. He was confident that the new method might be helpful in relieving distress to the suffering section. There would not be any possible loss in Corporation finances if a novel method of rebate system was introduced, emphasized the representative of one of the congested parts of the city. Otherwise he supported the Budget Estimates as put up before the House.

COUNCILLOR
MIHIR LAL GANGULI

(WARD No. 10)

Not satisfied with the small allocations for the purpose of street lighting, Councillor Mihir Lal Ganguli apprised the House that this year's Budget grants had been exceeded by Rupees Four lakhs only the total amounting to Rs. 29.39 lakhs and he emphasized that better street lighting was the growing need of these days. Councillor Ganguli, Chairman of the Public Utilities & Markets Committee, also complained that even with the increased grant in street lighting the main thoroughfares should remain uncared for. He found no reason for setting up a Special Committee by the Standing Finance Committee, headed by the then Deputy Mayor, Shri K. C. Basu, to look after the street lighting of the main streets. Out of the fund allotted Rs. 12 lakhs would be met out of Loan Fund, said Councillor Ganguli.

The Chairman also felt for the general improvements of the Municipal markets which were still then considered as revenue earning agents. The average revenue earned by market was Rs. 25 lakhs against an average expenditure of Rs. 13 lakhs. This showed that the initial rent was not fully utilized, but the situation was gradually worsening with the installation of unauthorized markets on their approaches and unless those were checked

and new amenities provided to the stall holders he apprehended drastic fall in revenue. The proposed market in New Alipore area did not receive the recommendation of the Standing Finance Committee, apprised its Chairman to the House.

Councillor Ganguli also felt the need of an high-power Public Relations Department in the context of the growing demands of the citizens to many of their civic amenities and fulfilment of their grievances. He was also not satisfied with the existing arrangement of publication of the *Calcutta Municipal Gazette*.

COUNCILLOR
MOHAMMAD ZAKIR
(WARD No. 57)

ALLEGING that no new development work was undertaken within the bounds of the Constituency No. 57, Councillor Md. Zakir fully opposed the Budget Estimates for 1959-60 as was placed by the Chairman, Standing Finance Committee before the House. He also felt that the present Municipal Act was responsible for many of the evils in the Corporation administration and for which he desired a reversal to the old Calcutta Municipal Act of 1923, as contemplated by many of the senior members in the House.

Councillor Zakir put up an amendment for provision of one lakh of Rupees in the Budget for the improvement of four Muslim Burial Grounds maintained by the Corporation. Opening of a Children's Park in his Ward at a cost of Rs. 60,000 was his second amendment.

Councillor Zakir further suggested that the Standing Finance Committee should consider the question of reduction of rents by 25 per cent. in view of the depressed conditions of business.

COUNCILLOR
PANNALAL DAS
(WARD No. 13)

A representative of the Bustee population, Councillor Pannalal Das would never be satisfied unless something was done for the improvement of his people. He had ever been an erstwhile exponent of Bustee improvement and he is even now so. Thus he urged for a provision of Rs. 15 lakhs for the casual improvement of Bustees in the city in the shape of an amendment. He also demanded a new school building in his Ward.

Councillor Das could not identify himself with the supporters of the Budget as it had failed to deliver any good to the Corporation employees in fulfilling their grievances rather it had shown its apathy towards them.

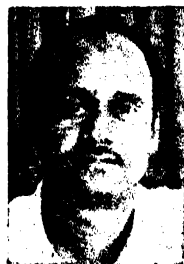

Criticizing the administration Councillor Das said that Corporation was responsible for the increased food adulteration in the city due to the negligence of its officers and the staff entrusted with the task.

COUNCILLOR
BALAI BHUSAN PAUL
(WARD No. 75)

THROUGH a maiden speech, Councillor Balai Paul put up many of the grievances of his locality. He complained that a big size tube-well was lying defunct in his area since a few months even before he was elected to the Council Chamber. This was however, contradicted by Councillor J. L. Saha, M.L.C., Chairman Standing Water Supply Committee.

As a member of the majority party Councillor Paul supported the Budget Estimate still he was not satisfied with allotment of Rupees Two lakhs only for one of the biggest wards in the city for improvement of water supply.

COUNCILLOR
NILRATAN SINHA
(WARD No. 60)

POINTING out that the Budget had been prepared in a most unscientific and half-hazard manner Councillor Nilratan Sinha sided with the group who opposed the Budget estimates.

Councillor Sinha informed the House that although included within the Calcutta Municipal area towards the close of the nineteenth century viz., 1888, the Tiljala area still lacked in essential civic amenities. Surface drains still spoiled the citizens' health there, although the biggest of its kind, the Ballygunge Drainage Pumping Station was pumping out the sewer of a big adjoining area, he remarked. Health of the people of that area had further been deteriorated with the existence of more than one thousand service privies, unsewered drainage, nuisance created by the tanneries and many such problems, he added.

Speaking about the irregularities in the Budget estimates, Councillor Sinha said that allocations were made for many items without proper support by the Standing Committees, in others the demands of such Committees were ignored. The Budget was merely an eye-wash while its inherent defects were chronic. He cited a case where the amount of a half progressed project was diverted to some other new one resulting in the ruinous effect on the original project.

COUNCILLOR
TULSI CHARAN PAL
(WARD No. 17)

UNDERLINING the attitude of the Budget which should look both to the developed and under-developed areas Councillor Tulsi Pal said that there should be a proportion to each other. He alleged that this method of framing the Budget had nothing in original and was a 'jugglery of figures'.

Criticizing the activities of the different departments Councillor said that Supplementary Rate Bills had caused much harassment to the rate-payers. The Finance Committee should have found out a way of placing them in instalments, he urged. The mutation work progressed on a snail's speed during the last few years, added Councillor Pal. The unrealized arrears through Law Courts also received his attention and he cited cases where in lakhs of rupees had been disembezzled through this department.

Questioning the existence of the Anti-Corruption Department in spite of the fact that a large number of cases referred to the Police Department, Councillor Pal suggested an enquiry should be made into the matter through a Committee of Lawyers. He also charged that Corporation's Superior Officers were lacking in supervision work and they failed to infuse vigour in the activity among the Juniors.

COUNCILLOR
SHIV KUMAR KHANNA
(WARD No. 34)

AGGRIEVED to find that many of the recommendations of the Standing Education Committee did not find a place in the Budget presented before the House, Councillor Shiv Kumar Khanna alleged that the proposed new Primary Schools including two for model Bustees could not be opened due to the fact that it failed to receive the sanction of the Standing Finance Committee last year who had practically been responsible for the preparation of the Budget. Still there was necessary funds in that year's Budget Provisions. Councillor Khanna, a former Deputy Chairman of the Standing Education Committee pointed out that although a programme was taken up by the Corporation to construct 22 school buildings on 21 sites during July last at a cost between Rs. 18,000 and Rs. 30,000 for each buildings not a single one had been erected. He claimed that the Budget should provide at least Rs. 6.6 lakhs for the purpose.

The allocation of Rs. 25,000 remaining idle for the last few years as cheap mid-day tiffins could not be supplied due to practical reasons, drew his attention. Councillor Khanna suggested that this amount could be utilized by supplying text-books to

the children coming from poorer section. He was sure that at least one-fourth of the present strength of school children numbering 49,000 would be benefitted by this. The average share per head would be Rupees Two each.

Councillor Khanna supported the Budget estimates. He requested the Calcutta Improvement Trust for undertaking the sacred task of house-building for the city's middle class families.

He concluded his speech with an urge for larger amenities in his constituency where *kutcha* roads were still in existence, people suffered from scarcity of drinking water and others. Councillor Khanna also put up a few amendments in this regard for provision of funds. All these were referred to the Standing Finance Committee for further consideration.

COUNCILLOR

DULAL CHANDRA
MUKHERJEE

(WARD No. 5)

THE important suggestion put up by Councillor Dulal Chandra Mukherjee was the imposition of Trade Refuse Tax as provided under the Act. He hoped that this would help the Corporation to earn larger revenue. Councillor Mukherjee who is also a member of the Standing Finance Committee placed this in the shape of an amendment before the House.

COUNCILLOR
DR. K. P. GHOSH
(WARD No. 31)

DEMANDING a larger grant for the city's health services Councillor Dr. K. P. Ghosh thought that at least Rupees Six Lakhs more would be needed for the purpose. Dr. Ghosh also put up an amendment for provision of at least Rupees Fifty thousands for opening Bustee Health Centres. This the member of the Standing Health Committee felt would lead to a larger extent in removing many of the evils of Bustee life.

COUNCILLOR
SACHINDRA KUMAR SEN
(WARD No. 63)

THE Secretary of the United Citizens' Committee put up a number of amendments opposing the basic principles under which the Budget estimates were prepared. Councillor Sachin Sen's first amendment was the modification of existing

slab systems. It urged levying of a lower percentage of Consolidated Rate for the year 1959-60 under Section 166 read with Sec. 127 (3) (b) of the Calcutta Municipal Act, 1951. On the concluding day this amendment when put to vote was rejected by the House as many amendments of similar nature were referred to the Standing Finance Committee for consideration.

Councillor Sen's other amendments included revision of the mode of taxation, and of rating, distribution of larger powers to the elected Councillors and abolition of the Calcutta Municipal Service Commission or its thorough change both in working and in policy. Through other amendments Councillor Sen wanted to spread compulsory primary education in the city, larger powers for checking food adulteration in the city, and to empower the Corporation to undertake slum improvement work with adequate help and aid from the State Government. Councillor Sen also felt the urge of undertaking the water supply project from out of Revenue Funds instead of earlier decision to raise loans for the purpose.

COUNCILLOR
DR. BIRENDRA CHANDRA
BASU

(WARD No. 64)

LOOKING into the deteriorated financial condition of the Corporation, member of the Finance Committee, Dr. Basu suggested certain economic measures to get out of rut. Councillor Dr. Basu's association with the Committee had prompted him to do so. Although he supported the Budget still he thought that there were occasions to practice economy by avoiding the top heavy administration with elimination of many of the supervisory staff and utilizing the surplus staff to the places of needs. Closing down of the Electricity Department and others run on un-economic basis was urged by the once Deputy Chairman of the Committee. Stoppage of further recruitments of the staff, discontinuance of overtime allowances, stoppage of bonus as incentive to work, and other allowances were pleaded by him. Thus Councillor Dr. Basu's main target was against the increasing establishment charges and in his opinion a careful consideration of which save larger sums. He also wanted abolition of Bailiff system because of the presentation of Bills through posts.

Even Councillor Dr. Basu favoured the idea of observing economy in the use of coal and electricity to save the institution from immediate financial ruin.

Councillor Dr. Basu also put up other suggestions as to gearing up the administration under strict discipline. He thought that for smooth running there should be another post of the Chief Administrator in addition to the post of the Chief Executive Officer, for execution of routine work.

COUNCILLOR

KUMAR BENOYENDRA DEB
RAI MAHASAI

(WARD No. 67)

HOLDING the present Calcutta Municipal Act responsible for the arbitrary, unjust and unfair means of determining Consolidated Rates, Councillor Kumar Benoy Deb Rai Mahasai said that it had brought in its train dissatisfaction among the rate-payers against the Corporation. In spite of Corporation's repeated urge to amend the Act for the rate-payers' benefit the suggestions were still rotting in the dusty archives of the West Bengal Government's Local Self-Government Department, he added.

Councillor Deb Rai pleaded for the Nationalization of the public utility services viz., Electricity, Tramways and others. Like Bombay he wanted that the City Transport System would be run by the Corporation.

Accusing the departments responsible for unspent balances Councillor Deb Rai Mahasai demanded a thorough overhaul of the administrative machinery. Lacks and lapses were also pointed out by him while he cited a specific instance wherein an officer belonging to an important Municipal Market was involved in furthering the interest of an outside party which was tantamount to contempt of lawful authority.

Under the above circumstances, Councillor Deb Rai Mahasai could not approve the estimates as presented, which reflected the ill-conceived administration of the Corporation.

COUNCILLOR

KUMAR DUTT

(WARD No. 8)

OPPOSING the Budget estimates as presented Councillor Kumar Dutt said without hesitation that unless the administrative machinery was geared up and overhauled nobody could expect an increased amount of output from the Corporation. Demanding larger powers for the City Fathers, Councillor Dutt thought that the present Act should be replaced by some of the provisions of the old Calcutta Municipal Act, 1923. He also urged for appointment of an Enquiry Committee to look into the working of different department with a strong person as its Chairman.

Describing the present system of education imparted in Corporation as an antiquated one Councillor Dutt suggested for the incorporation of basic training schemes. Staff and accommodation question was also referred to by him. He felt the need of medical examination and proper treatment of school children in a comprehensive manner. Even the facilities of hospitalization to those poor

school-boys should be provided. He also urged for introduction of physical education in primary schools.

Councillor Dutt concluded his speech with a demand for a big swimming pool on the northern part of the city for utilising the same as the Dhakuria Lakes by an increasing number of students.

COUNCILLOR
BARENDRA KRISHNA DAW
(WARD No. 30)

DEVOTING mainly to the irregularities and lapses in the Law Department, Councillor Barendra Krishna Daw categorically put up about a score of charges against the Law Department wherein he pointed out how that Department was entrapped to satisfy the squabbles of the legal points. He alleged that the registers and books were not drawn up-to-date so that the correct picture might be disclosed. He doubted that 'a kind of unholy alliance' between the Retained Lawyers and the Department was still in existence. Himself being a member of the profession, Councillor Daw eloquented the activities of the outside Lawyers who had lowered the position of the profession to a level beyond imagination. Even Councillor Daw did not find any justification of the existence of the Department as it had been able to add a nominal amount to the fund of arrear dues by spending such a high amount of money as Rs. 4.11 lakhs for the Department. While the former Secretary of the Opposition group could not give his approval to the Budget estimates for 1959-60 as presented, he wanted to reduce the expenditure of the Department to a minimum level through an amendment.

Through other amendments, Councillor Daw, Chairman of the Standing Education Committee suggested for a provision of Rs. 15,000/- only for free distribution of books to poor and meritorious students continuing their study in primary schools, and another sum of Rs. 20,000/- only for opening up new schools. Councillor Daw further desired that the Government of West Bengal be approached for necessary protection against eviction orders served on requisitioned Primary School Buildings. Exemption from payment of Sales Tax by the Corporation was his other demand.

COUNCILLOR
SAMAR KUMAR RUDRA
(WARD No. 29)

COUNCILLOR Samar Kumar Rudra could not praise the Budget estimates, as presented before the House, because of the fact that the data were fictitious, figures inflated and mis-stated facts. As an important member of the Standing

Works Committee, Councillor Rudra said that in spite of their best endeavour, the Standing Finance Committee could not be persuaded to provide adequate funds for effective drainage in the city particularly in the *Thanthania*, Cornwallis Street, Amherst Street and other parts.

Councillor Rudra charged the Standing Finance Committee in its failure to arrive at a settlement as regards realization of arrear Rate Bills from the Port Commissioners, Calcutta Improvement Trust and not to speak of the rates of the Union Government properties.

A strong critic of the Corporation administration, Councillor Rudra said that one would hardly find sufficient amount of co-operation among the employees, the executive and the Corporation of so many Councillors and this had caused so much harassment and delay in execution of work.

Councillor Rudra also moved an amendment whereby the provision of the Borough fund would be increased to Rs. 40 lakhs.

COUNCILLOR
BENOY LAL GHOSH
(WARD No. 50)

THOUGH a member of the Standing Finance Committee which moulded and reshaped the Budget for 1959-60, Councillor Benoy Lal Ghosh put up an amendment which stated that Rupees Five Lakhs be provided in the estimates for opening a clinic where employees would have free treatment of ear, nose, throat, eye and teeth from which a large number of them suffered.

Councillor Ghosh also suggested for starting a Housing Scheme by the Corporation to benefit the low income group employees. He proposed that the scheme would utilize the available surplus lands of the Corporation and for a provision of Rupees Ten Lakhs for the purpose in the Corporation Budget and a similar sum to be assured by the State Government.

COUNCILLOR
NAREN SEN
(WARD No. 15)

ASSERTING that the Budget, as presented lacked in comprehensive health schemes, Councillor Naren Sen showed his anxiety over the growing menace of Tuberculosis. Quoting a data that 1.19 lakhs were treated last year by the four Chest Clinics under the Corporation. Councillor Sen said that the menace had spread so rapidly that the city's one-third population was being affected by this disease in one way or other. He stated that from six to seven lakhs of people were being treated by other hospitals in

the city at the same time and it had been assumed that the number of undetected cases amounted to 10 lakhs. Thus he felt that the Municipal Act governing the city administration should be a Health Act tackling the problem of health in the city.

Earlier Councillor Sen stressed the need for construction of the Farakka Barrage for the very existence of Calcutta. He also felt the need for erecting a Sports Stadium by the Corporation at the Park Circus Maidan. And for this he put up an amendment to provide Rupees One Crore in the Budget.

COUNCILLOR

DR. A. P. DAS GUPTA

(WARD No. 80)

In the shape of an amendment, Councillor Dr. Aurobindo Prasad Das Gupta suggested that the Corporation should chalk out a principle whereby the rate-payers of the areas belonging to a certain part of the city should be given exemption in payment of extra rates payable to the Calcutta Improvement Trust because of the fact that Trust's activities had not been extended to that particular area. Pleading for his amendment, Councillor Dr. Das Gupta said that the Trust generally undertook development work in particular areas resulting in benefits to the rate-payers of those areas by the way of broader streets, more breathing space consequented by increased valuation of landed properties. He pleaded thereby for the rate-payers of the Tollygunge area, wherefrom he was elected and the Trust's activities had not been extended to that part of the city upto now. The Consolidated Rates, include also the Trust's scheme, as such he wanted reduction in the rates for Tollygunge area.

COUNCILLOR

NRIPENDRA NATH
BANERJEE

(WARD No. 77)

SPEAKING of lack in any definite plan or scheme for water supply, drainage and other essential amenities, Councillor Nripen Banerjee accused the Standing Finance Committee. He said, in the Chairman's speech we find only a rosy picture of the city during the Third Plan period when the Corporation would undertake bigger projects and schemes under a one-hundred crore Plan. Councillor Banerjee also added that the future investors would then be happy to subscribe in raising the loan and would earn heavy dividend at the cost of the poor rate-payers. He also pointed out that many of the statements

appeared to be contradictory to him such as eradication of slums at a cost of more than Rs. 400 crores spreading over 80 years, in spite of bigger projects during the Third Plan period.

Councillor Banerjee further alleged that the first principle of the Public Finance had been indifferently treated by fully ignoring the expenditure side as stated by Councillor Anil Maitra. He described it as 'a pictorial scrap paper where citizens would find little for their benefits'.

The Budget had been balanced by curtailing expenditure of the current year and inflating the receipt figures 'by a touch of magic wand by the financial wizard'. But with a detailed examination one would find that the actual margin between the receipts and expenditure would be much larger than what had been stated and there would be a big deficit. Besides, there were wide variations in data of similar nature when submitted by different departments. Reconciliation Statements were never submitted by the Departments concerned, charged the Member of the Standing Accounts Committee.

From the actuals prepared up to 1956-57, Councillor Banerjee found many of the lapses and he suggested for an enquiry into these, even he felt the need of police aid where papers were missing.

Councillor Banerjee suggested a diversion in the procedure of investment of surplus cash balances from the past outmoded practice with the change in time. He could not find any reason how the Funds had suffered loss in this matter. Towards the augmentation of increasing revenue, Councillor Banerjee sought for stricter economy in spending money as well as in devising ways and means. He favoured the idea of starting new municipal markets as well as constructing buildings in Corporation's open land for earning larger revenue.

COUNCILLOR

SUBRATA KUMAR
SEN SARMA

(WARD No. 69)

In his usual manner, Councillor Subrata Sen Sarma attacked the Budget estimates describing them as 'unplanned, unreal and unpractical'. As a longtime member of the Standing Water Supply Committee he was not satisfied with the provisions made for the water supply, the most intricate and vexed problem of the city. He also pointed out many of the defects of the existing system of filtered water supply.

Councillor Sen Sarma further said that still then the accumulation of arrear Rate Bills undisposed of, amounted to Rs. 60 to 70 lakhs and probably they were lying with the Assessor's Department. But when issued to the rate-payers as Supplementary Bills these could cause much hardship to them for payment within the scheduled period. Councillor Sen Sarma further requested the Standing Finance Committee to consider the difficulties of the poor rate-payers and to accept an amendment in relation to slab system, which he put up before

the House, in order to give them relief. He said that the amounts realised from the rate-payers of Calcutta in the way of Consolidated Rates formed 82 per cent. of the total Budget estimates while the Bombay Corporation realized 40 per cent. only from that source. According to him this procedure had helped to oust the middle class families from the city gradually.

Putting up a list of holdings, Councillor Sen Sarma pointed out irregularities in the procedure of assessing them. He also alleged that the Collection Department had failed to serve the institution sincerely. This could be illustrated from the fact that the list of defaulters mostly belonged to the richer community while the poorer faced much hardships in paying off Corporation dues. The arrear taxes had been allowed to accumulate up to Rs. 3.10 crores as stated by the Standing Finance Committee, and this did not deserve praise from him.

Speaking on the Chairman's anxiety for the increased Establishment Charges, Councillor Sen Sarma said that out of the total amount Rupees Two Crores went to pay the wages of low paid employees numbering more than twenty thousands whereas salaries paid to seven statutory officers amounted to a larger sum in comparison to them. The Chairman would have done well had he taken a drastic step to eliminate this startling difference of pay scales among the employees. There would have been a greater amount of sincerity among the employees in serving the institution if their grievances had been fulfilled, he stated.

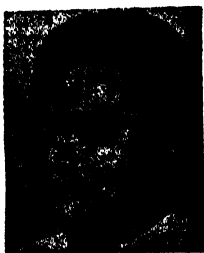

The Health services also did not receive his appreciation due to its failure to check the increased number of deaths from the fell disease of Tuberculosis whose average daily toll numbered 20. The representation of one of the congested parts of the city regretted that the disease had not been declared as an epidemic one in spite of repeated demands from this House in this regard.

Councillor Sen Sarma also put up a number of amendments before conclusion which included provision of Rupees Twelve Lakhs in the Budget for sinking small-sized tube-wells in the Bustee areas, abolition of proposed conservancy taxes on small traders paying at the rates of Rs. 24/- annually, execution of 10 per cent. cut in salaries of officers proved inefficient, and lastly but not the least a modification of the existing slab system in assessment procedures.

COUNCILLOR

DR. SUDHANGSHU
KUMAR SETT

(WARD No. 24)

SUPPORTING the Budget estimates as presented before the House, Councillor Dr. Sudhangshu Sett, appreciated the Standing Finance Committee for

their best endeavours for looking into each and every item of income and expenditure from all possible angles. He praised also other Standing Committees for general improvement of the roads and for better lighting system on streets. Lapses and omission were there in spite of the Standing Finance Committee's larger provisions for additional 1,000 unskilled labour, in the establishment list, Rs. 85 lakhs for new lorries and cars, 69 more schools and thousands of tube-wells both small and big sized ones.

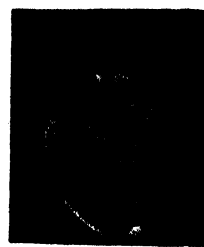

Councillor Dr. Sett could not but criticize the administrative machinery which he described as the 'age-old red-tapism accompanied by Accountant's formalities and legal pretexts'. He also held the Municipal Service Commission responsible for the 'bureaucratic dilly-dallying' in recommending the supervisory staff for appointments. Councillor Dr. Sett asserted that this had caused much delay in executing many of the new projects due to shortage of personnel. At the same time he admitted that many of the permanent departments were under-staffed.

Urging the House to request the Standing Finance Committee to be more vigilant, Councillor Dr. Sett felt that all the outstanding works of the current year as well as essential works of the coming year should be completed by the second quarter of 1959-60. Dr. Sett also wanted that the Standing Committees entrusted with the task of spending revenues should prepare plans and projects so that vivid pictures of the Corporation's expenditure in extending amenities might be conceived of. Councillor Dr. Sett proposed for the appointment of a Special Committee to determine the priority of work to be met both from the Revenue as well as from the Loan Budgets. He further proposed that the same Committee would work out a programme of new plans to be executed during the Third Five Year National Plan with a capital outlay of Rs. 100 crores. This was to approve the suggestion of the Chairman of the Standing Finance Committee in his Budget speech.

COUNCILLOR

RAJ SATYENDRA
MITRA

(WARD No. 76)

HOLDING up the cause of the people living in under-developed areas, Councillor Raj Satyendra Mitra said that over half of the area under the Corporation comprising of Cossipore, Manicktala, Tangra, Kashba and Kidderpore was backward, with kutchra roads and surface drains. He suggested that immediate steps should be taken to improve them as regards water-supply, *nikushi* drains, and conservancy services.

Councillor Raj Satyendra Mitra also wanted that the Corporation funds should immediately be diverted for implementing the above, leaving apart other projects and plans.

COUNCILLOR
ABDUR ROUF ANSARI
(WARD No. 23)

DISAPPOINTED to effect any tangible progress in his Constituency, Councillor Rouf Ansari was critical about the present picture and expressed his utter helplessness in moulding the Corporation administration. He said that deficiency and lapses were almost common in the Corporation services to the rate-payers.

As a long time member of the Standing Education Committee, Councillor Ansari criticized the system of imparting primary education in the city. He wanted that the future citizens needed more attention and cares.

The list of other grievances was long and it was known to all. 'They call for immediate redress,' he concluded.

COUNCILLOR
S. K. GUPTA, I.C.S.

Refuting many of the alleged charges levelled against the activities of the Calcutta Improvement Trust, the Chairman, Councillor S. K. Gupta, I.C.S., said that 'the Trust was not created as an adjunct to the Corporation to do certain things as its agent. As an independent authority it was set up to combat the menace of plague which was ravaging Bombay and might have ravaged Calcutta by opening out congested areas which were supposed to breed this fell disease. The means by which this was to be done was by constructing roads, laying out open spaces and by building houses for the poor and working class likely to be displaced in course of Trust's operations. Among the sources of revenue for the purpose Corporation contribution constituted a part of it.

A major portion of Councillor Gupta's speech occupied to justify Trust's house building activities which was much criticized on the floors of the Council Chamber. Re-housing of the displaced persons was an obligation of the Trust as provided in the original Calcutta Improvement Trust Act and it was placed almost in an equal level with the constructions of roads and sewers. The amended Act of 1955 went further by authorizing the Trust to undertake housing schemes under normal functions, while re-housing of displaced bustee dwellers, a statutory obligation, Shri Gupta said. 'And a developing social conscience cannot permanently tolerate the system where

for making roads and parks large number of people are uprooted and left to fend themselves.' Shri Gupta added further, 'for large masses of men who live in conditions of incredible over-crowding and filth and are made to pay an exorbitant rent, whether in slums and elsewhere, houses are a greater desideratum and there is no reason why this need should be ignored in order that propertied classes may be assured of greater mobility.' By turning from exclusive pre-occupation with roads, sewers and parks and extending their activities to housing on a modest scale, the Trust was only fulfilling a long neglected duty. It was regrettable that Councillor Dhandhanias had referred to the C. I. T. as a "house-building society" added the Trust's Chairman.

The Trust could undertake a task merely to provide a badly needed service regardless of monetary return. The Trust, Councillor Gupta said, was not making any money at all from the housing schemes. On the contrary, it was 'losing fairly heavily.'

The house rents fixed by the Trust were low even according to normal standards and had to be fixed at a particularly low rate in case of subsidized housing. Against a borrowing rate of 4 and 4½ p.c. the net return in the case of the industrial housing scheme was about 2.2 p.c. on capital investment, exclusive of subsidy, while in the general Housing Scheme the average net return was 3.3 p.c. The schemes are not, therefore, self-financing is quite apparent, the Chairman said.

There was a plea in Councillor Dhandhanias's Budget speech that the private sector should also be asked to invest in housing to remove over-congestion in the city. If the private sector built according to the Trust's specifications, charged the same rent as that of the Trust, it was quite welcome to share the Trust's losses for the benefit of the public, said Councillor Gupta.

Admitting the fact that the Corporation's contribution to the Trust's revenue to be substantial the Chairman said that the average annual aid was Rs. 26.7 lakhs only and not Rs. 5.34 crores by lumping together aids for 20 years. He also said that during the same period, the Trust's receipts from other revenue sources was Rs. 7.57 crores, the receipt from sale proceeds of land was Rs. 7.33 crores, and the yield from Debenture Loans was Rs. 2.77 crores. Only a small part of that sum was utilized for Housing Schemes.

Through detailed figures the Chairman showed how the Trust had proceeded in this not neglecting roads and sewers. The Trust's two industrial Housing Schemes consisted of 660 tenements for which about Rs. 15 lakhs were received from the Union Government as subsidy and the balance had to be borne by the Trust. For the two Slum Clearance Housing Schemes covering 800 tenements under construction the northern extremity of the city, and Rs. 30 lakhs was expected as subsidy both from the Union and the State Governments. The Trust would have financed the balance amount by floating loans so that there might not be any strain on the Trust's financial resources or absorb any sizeable portion of

Corporation contribution. Councillor Gupta asserted that this diversion of Rs. 45 lakhs from the Government had benefitted the city and its people. And if it was not done Bombay might have utilized the sum in the State's own interest. He thought that the Corporation's activity in that sphere might have drawn considerable sums from the Union coffer and would have benefitted larger number of lower income groups.

Apart from the subsidized Housing Schemes, the Trust had during the last six years built up about 570 flats of one-room, two-rooms and three-rooms for the general public at a cost of about Rs. 48.6 lakhs, the average being Rs. 8.1 lakhs, a small fraction of its normal annual capital expenditure, added the Chairman. The house building was thus a kind of service rendered to the middle and lower middle class population in the city even incurring a loss, he asserted.

Councillor Gupta then submitted the following statement wherein he made an attempt to justify the Trust's activities during the last 23 years. They also spoke for themselves.—

Years.	Road mileage handed over to Corporation.	Road & Sewer mileage taken up for construction.	Area of open space handed over to Corporation. (in Bighas)
1934-35 to 1938-39	7.97	14.25	2.30
1939-40 to 1945-46	5.94	8.59	12.30
1946-47 to 1950-51	Nil	6.07	2.07
1951-52 to 1955-56	8.68	9.57	1.65
1956-57 to 1958-59	5.20	2.11	6.98
(Three years)			

In that connection the Chairman further stated that the roads built up in recent years were of wider in length than those of the previous years and the costs of construction and land prices had gone up so many times over the pre-war years that the total achievements for the last few years had come down.

The charge against the Trust that 'its utility to the Corporation is perilously little' the Chairman answered by saying, "the mere fact of acquisition of certain lands and buildings by the Trust, without more lead to an enhancement of the valuation even though the buildings are razed to the ground and the land remains vacant. Categorically he then took up the Trust Schemes which were operated. Through them he demonstrated how the differences in higher valuations had been achieved. 'A great deal of the present enormous increase in the rateable valuation of Calcutta is due to the activities of the Trust as will be obvious to any one who compares the previous and post-development valuation of lands in South Calcutta, in Park Circus and in Entally areas, in Brabourne Road or anywhere on or around roads constructed by the Trust', pointed out Shri Gupta.

At the present moment the face of the entire eastern fringe of Calcutta is being changed from which the Corporation will reap rich dividends within a year or two', asserted the Chairman of the Trust.

Councillor Gupta at length, concluded by illustrating many of the irregularities in the administration of the Corporation and dismissed the idea stated by the Chairman of the Standing Finance Committee 'to liquidate the Trust and to make it a part of the Corporation.'

COUNCILLOR
KISHORILAL
DHANDHANIA

(WARD No. 27)

REPLYING to different points raised in course of four-day discussion the Chairman said that the framing of the Budget estimates for 1959-60, as well as collective balancing it, was the result of a joint endeavour of the Standing Finance Committee to which the task had been constructed under the Act. And Councillor Dhandhania apprised the House that there had hardly any occasion when a difference arose among the members. Even the work had been rather on a sound basis due to the fact that wisdom was lent on its preparation by the Chairmen of other Standing Committees.

Besides, usual maintenance expenditures, the Revenue Fund had provided adequate sums for many of the essential projects of the recommendations made viz., the Standing Works and Water Supply Committees' projects for Rs. 2.53 lakhs and 5 lakhs respectively. Rs. 7 lakhs for the Standing Health Committee's new ventures and even the Standing Education Committee's annual recurring costs had been increased to a little extent. Thus said the Chairman while appreciating co-operation and co-ordination extended to the Standing Finance Committees by others. He also said that all these projects were included under the Chief Executive Officer's proposal for .29 lakh new works.

The Chairman further said about the complexities of the Budget estimates on the context of present times. The technique had also been equally changed requiring larger number of statements and other illustrations presented with it in order to make them understandable to the man on the street. He denounced the suggestion put up by a few for adopting the procedure of Bank over-draft in case of financing new projects instead of floating loans and to pay interest beforehand. Moreover this procedure had never been prescribed for the operation of public bodies. He also denied the fact that the Corporation had lost its revenue in the way of investments.

Councillor Dhandhania admitted that the number of pending assessment cases for disposal had largely been accumulated recently causing concern to all and he hoped that steps would be taken for their early disposal. He informed the House the number of old objection cases prior to

1950-51 was 485 only. He found no reason for their accumulation and he was frank to say that the 'vested interest of some influential citizens stood in the way of their smooth sailing'. His anxiety also went for the accumulated arrear revenue amounting to Rupees Five Crores.

Speaking of the city's development and improvements Councillor Dhandhanian listed out the new projects undertaken by the Corporation. During the period from 1952-53 to 1956-57, the Corporation approved new schemes and projects entailing the cost of Rs. 44.74 lakhs while it had paid Rs. 125.48 lakhs for similar schemes executed. During these years the Standing Committee had paid equal attention for new projects with particular stress on the under-developed areas. Last year the Corporation had spent Rs. 12.5 lakhs more to check the menace of epidemic diseases which threatened the city.

He was complacent to say that the Corporation was the first institution to prepare a scheme for slum clearance incorporating within the blueprints of its Five-Year Plan. But unfortunately the activities in that sphere had been snatched away by the State Government through enactment. He also thought that Housing schemes should not be undertaken by the Corporation and other Local Bodies. The Industrial Housing Schemes were going to be placed within the purview of the industrialists whose duty it was to provide houses for their employees. He did not understand why the subsidy for building Corporation Sweepers'

Quarters was then diverted elsewhere as stated by the Chairman of the Trust.

Through a nice little speech Councillor Dhandhanian also covered up many other points raised by members in the House. He felt the need of realising the arrear dues and informed the House that the Standing Committee was engaged in considering a report of Messrs. Ibcon & Co., whereby rationalization in working might be possible. It would also reduce the cost of establishment of the departments to a large extent.

Speaking on the employees' grievances the Chairman assured the House that proper implementation would not be wanting after the Standing Committee had fully examined them in details. Already the Employees' Grievances' Sub-Committee's report was under consideration. This Report suggested for granting them weekly leave and other concessions. He also felt that there should be Work Committees in every Department of the Corporation for their smooth running. Funds were there for appointment of four Labour Welfare Officers. The Corporation has already taken up the Employees' Housing Scheme and the Union Government had promised Rs. 14 lakhs for the purpose out of their Two-Crore Housing Scheme.

In a reminiscent mood the Chairman of the Standing Committee said that unless the Act was amended conferring larger powers in the hands of the Corporation there would hardly be a free play of Democracy in this Local Self-Government institution. He also felt the need for larger responsibilities in tackling the situation.

THE CORPORATION AT WORK

[A GIST OF PROCEEDINGS OF THE THIRTY-NINTH ADJOURNED MEETING OF THE CORPORATION
HELD ON WEDNESDAY, THE 25TH MARCH, 1959.]

CONDOLENCES

The House, at the outset, condoled the deaths of two great educationists—Prof. Sunit Kumar Indra, a former Principal of the Central Calcutta College and Dr. Dharendra Nath Dey, the founder—Principal of the Calcutta Women's College. These unfortunate incidents took place recently and with their deaths there had been voids in the city's educational sphere which would be difficult to filled up soon.

Eloquent tributes were paid to their memory by the Mayor, Dr. Triguna Sen.

GRANTS-IN-AID TO CITY'S HOSPITALS

In view of the difficulties experienced by city's hospitals receiving grants-in-aid from the Corporation, the House sanctioned release of 50% of the total amount of aids and grants to them in anticipation of proper sanction. The House authorized the Chief Executive Officer to proceed with the matter.

RE-SINKING & REPAIRS TO TUBE-WELLS

The Corporation also sanctioned a sum of Rs. 1.5 lakhs for the purpose of re-sinking and re-surgings of tube-wells found out of order. The House further requested the Chief Executive Officer to prolong the services of the pipe-laying staff whose term of service was going to be expired on the 31st March, 1959. The technical staff entrusted with the task of repair and re-surgings, would also continue beyond the period of appointment as desired by the House.

While putting up matters of urgent public importance, several members including Councillor Dhiman Dhar, M.L.A., wanted that these defunct tube-wells should be put into commission immediately when the summer advancing fast.

A CONFLICTING CASE

Councillor Ratan Manick Chatterjee pointed out how a conflicting case had been reached at with the ban of three-wheeled vans from the city. He said that the Corporation had already issued necessary licenses for those vans. He also acquainted the House the critical situation faced by the Corporation when a case had been ensued by one of the sufferers in the Hon'ble High Court of Calcutta. The orders had been issued by the Calcutta Police Chief in view to solve the traffic problem to a certain extent.

INEFFICIENT POSTAL SERVICES

Councillor Nripendra Nath Banerjee pointed out many of the irregularities in the postal delivery system in the Dhakuria area, southern part of the city. He alleged that about 1000 postal Money Orders were lying undelivered in the Dhakuria Sub-Post Office, Calcutta-31. Councillor Banerjee also said that in spite of repeated representations from the local citizens the authorities could not be moved in this regard.

Councillor Banerjee hoped that the Corporation should draw the Postal Officers' attention in order to mitigate the citizens' hardships.

DETERIORATED HEALTH CONDITION OF SCHOOL CHILDREN

Recent revelation showed that nearly 88% of the children belonging to the Corporation Primary Schools had been suffering from acute mal-nutrition and other ailments. In a broader way, according to Councillor Dr. K. P. Ghosh, the ills had spread over to 384 boys out of 435 studying in three Corporation Schools.

Councillor Dr. Ghosh felt that in these days of scientific advancement steps should be taken so that the ailments might be wiped out soon.

CLUBS & BARS IN CALCUTTA

The recent decision of the West Bengal Government to stop issuing of licenses to clubs and bars in this city who had refused admission to non-whites, caused much resentment among a section of people in the Western countries. 'The Times' in London, a much circulated paper, has also written a few days back an editorial headlined 'White Clubs Blackboiled' pleading in favour of exclusiveness. It stated :—

"There are clubs in London—American, French and others—where national getting together is appropriate and resented by none."

"Such an exclusiveness can and does operate everywhere—in 'all that is needed in Calcutta is a throwing over of old attitudes both by the club members and by Indians whose past memory of affronts need not be kept alive to-day."

"Reason and emotion may both seem to support the Bengal Government's case, but it would be an empty victory for India of to-day to win."

"India has no lack of its own exclusiveness and it applies to clubs founded by Indians."

Referring this in the House, Councillor Dr. Sukhabehari Mukherjee said that he could not see eye to eye with the views expressed therein. He said that the Corporation had earlier passed an unanimous resolution for the abolition of colour prejudices and he urged that the House's old decision should stand as before.

Councillor Dr. Mukherjee was then cheered by from all sections.

NEW TEACHERS

The House, on the joint recommendation of the Standing Education Committee and the Standing Finance Committee, created a set of posts permanently for a Primary School to be taken over by the Corporation at 104, Christopher Road, eastern part of the city. The list of teachers included one Headmaster, four Assistant Teachers, Bearers and other menials.

In course of sanction, one of the members objected to this on the alleged ground that the number of increased teachers did not stand in direct proportion to the number of growing pupils.

IMPROVEMENT OF CORPORATION RAILWAYS

The House, on the recommendation of the Standing Works Committee, accepted tenders totalling to the amount of Rs. 5.28 lakhs for the improvement of the permanent way of the Corporation Railways with implements and machinery. The tender was submitted by Shri S. Ganguly.

STORM WATER CHANNEL

Based on a similar recommendation, the House accepted a tender for Rs. 4.33 lakhs for Remodelling Town & Storm Water Head Cuts and Storm Water Reservoirs forming the Storm Water Outfall Channel up to Bantala including supervision work.

A FEW SANCTIONS

The House, on the recommendation of the Standing Town Planning and Improvement Committee, accorded administrative sanctions to the Engineer's estimates in respect of repairs to a damaged wall of Victoria Square as well as for

fencing the island at the junction of Dr. Sankar Road and New C.I.T. Road No. 58.

PRAJNANANDA PATHAGRIHA

The Corporation accepted with thanks from Shri Arun Chandra Guha, M.P., a Library named Prajnananda Pathagriha. The letter of offer was addressed to the Mayor, Dr. Triguna Sen by Shri Guha and it was duly recommended by the Standing Education Committee.

TWO PARKS IN NEW ALIPORE AREA

The House, on the recommendation of the Standing Town Planning and Improvement Committee, gave administrative sanction to build up two parks in the New Alipore area, on lands gifted to the Corporation. Area of the first one would be about 1½ bighas under Block 'H' and the other one would be approximately two bighas in area under Block 'O'.

NEW ASSESSMENT PROCEDURES

While referring to the Standing Finance Committee, the Corporation accepted a motion "in principle" suggesting systematization of the Assessment Department. The motion which stood in the name of Councillors S. K. Rudra, S. K. Dutta, N. N. Banerjee and others directed the Department to prepare a sketch of every house, plot of land and bustee and to maintain, together with the Assessment records, a copy of every building plan at the time of every General Re-valuation.

Pleading for the motion, Councillor Rudra said that the city's property, including land and buildings, had been greatly under-assessed by the Corporation. According to him, the ratable valuation of Calcutta was Rs. 1,200 crores, while the Corporation assessed it at Rs. 400 crores.

Councillor Rudra based his claim on the fact that out of 37 square miles, the Corporation's jurisdiction, 26 square miles coverable by buildings, and taking Rs. 3,000 as the average price of a *cottah* of land and the cost of a building as twice that of the land, the rateable valuation of Calcutta would be three times more than that had been assessed.

ADDITIONAL INCREMENT TO CLERKS ETC.

The House, on the recommendation of the Standing Finance Committee, passed a resolution of the Employees' Grievances Sub-Committee, which stated :—

(i) The Clerks, Assistants, Typists who were made permanent under the Ad-hoc regulation adopted by the Corporation on 1st October, 1956, and 14th October, 1956, be granted one additional increment on confirmation irrespective of the special increment granted to them, in consideration of the past services, rendered by them in temporary capacity for a long period.

(ii) Those Clerks, Assistants and Typists who have not yet been made permanent but are likely to be made permanent under the Ad-hoc regulation in near future should also get the additional increment on confirmation even if the service regulations have been framed since then.

CITY NEWS PARADE

OBITUARY: Shri Gopal Chandra Ganguli, a distinguished scholar and educationist, died at his residence in the city on Tuesday, the 24th March.

The late Shri Ganguli served as Professor of English in Uttarpara, Krishnaganore and Dacca colleges, Ravenshaw College, Cuttack, and St. Columbia's College, Hazaribagh. Among his pupils are Dr. Harekrishna Mahatab and Shri Nilakantha Das. In 1955 he presided over the Founders' Day Celebration of the Presidency College, Calcutta.

CALCUTTA CELEBRATED 'HOLI' SPRING FESTIVAL this year with much restraint than in previous years. The advent of spring and the festival of sprinkling coloured water to persons are closely linked from the days gone by. Their association has enriched people with songs and poems from time past. And this was repeated this year also.

This year the festival spread over two days. Tuesday, the 24th March, was observed as DOL JATRA by the Bengali Hindus and the city's communication service was suspended till 1 P.M. from morning. Restrictions of holi revellers were imposed on the main streets. On Wednesday, the 25th March, the festival was confined to the upper India people mainly. The day's only incident reported was a clash between two groups on Brabourne Road, over spraying of coloured water on passing vehicles. About 200 holi revellers were arrested on Tuesday, in North and Central Calcutta. A majority of them were arrested under the Calcutta Police Act for spraying coloured water on public thoroughfares and for disorderly conduct and pleaded guilty. They were warned and discharged by the trying Magistrate. Wednesday's arrests also numbered about 180.

A two-mile long procession was taken out from Deshabandhu Park to mark the advent of Sri Gouranga. Many kirtan parties took part in the procession which went along several streets of North Calcutta. A meeting was then held at Deshabandhu Park inaugurating a three-day festival under the auspices of the Shree Shree Gouranga Mahaprabhu Abirbhav Mahotsav Committee. The largely attended meeting started with singing of 'Gour Leela' by the famous singer, Shri Krishna Chandra Dey. Many other artistes also regaled the audience.

Paying his homage to Lord Gouranga, Shri Bishnu Ram Medhi, Governor of Madras, said that the Lord saved Bengal and its people from the confusion that was prevailing at the time of His birth by preaching and practising the cult of devotion to God amongst all sections of the people, irrespective of caste, creed, and colour.

Continuing his speech, Shri Medhi who presided, said that it was the period of crisis and confusion when the Mahaprabhu Shree Shree Chaitanya was born. His advent at that juncture was of great significance. He preached the truest teachings of the Vedanta as revealed in Shrimat Bhagvatham and brought them out prominently before every human being, irrespective of caste and creed.

The Mayor, Dr. Triguna Sen, Treasurer of the Committee, said that people in general were afflicted in their minds for various stress and strain in life. The Mahaprabhu's life and teachings could give them real solace and that was why they responded so much in the name of the Lord.

Dr. Prafulla Chandra Chatterjee, M.L.A., said that the workers and leaders of the country were conscious of the great significance of the advent of Shri Chaitanya and the great lesson that he gave the country as a whole. He said that the country was a whole and it was not divided for that matter.

Dr. Kallidas Nag said that Bengal would have to play the great role which she played in the past. The advent of Shri Chaitanya Mahaprabhu was a mighty revolution. Bengal would have to rouse hundreds of the people to rise again in the name of the Lord.

At the outset Prabhupad Shri Jitendra Nath Goswami while inaugurating the celebrations said that Sri Chaitanya's religion of Love knew no bounds. It embraced all irrespective of caste and creed.

Earlier, Shri Prafulla Chandra Sen, President of the Committee, welcomed all.

A NO-CONFIDENCE MOTION AGAINST THE SPEAKER OF THE STATE LEGISLATIVE ASSEMBLY was the greatest attraction during its Budget Session which prorogued on this morning, the 29th March. That motion was discussed for long over five years on the 21st March last and it was ended dramatically on its withdrawal by the mover, the Ex-Mayor, Shri Sudhir Chandra Roy Choudhury. The visitors' gallery was packed to its capacity and they anxiously waited the fate of the motion which anticipated voting at the end. The Deputy Speaker, Shri Anutosh Mallick, conducted the proceedings. The charge against the Speaker was for his association with the National Sugar Mills as a Director which received a loan of Rs. 10 lakhs from the State Government.

The motion stood in the names of Shri Roy Choudhury, Shri Hemanta Kumar Basu, Shri Jatin Chakraverty, Shri Sidhartha Ray, all representatives of this city, Shri Jyoti Basu, leader of the Opposition, Shri Subodh Banerjee and Shrimati Labanyaprobha Ghosh. And while the initiator, Shri Roy Choudhury was winding up the discussion Shri Sankardas Banerjee announced that 'If I continue as the Speaker, I shall resign my Directorship straight away'. This concluded one of the liveliest debates in recent years. This was the second time in the history of Bengal State Legislature when such a motion was discussed.

There were occasional furores also. The first occasioned by Alderman Bejoy Singh Nahar's moving an amendment opposing the motion. A point of order raised by the Opposition, was ruled out by the Deputy Speaker in that connection.

Counteracting Shri Rai Choudhury's charge that the Speaker had accepted favours from the Ministers etc. the Government for securing loans to the extent of Rs. 10 lakhs and other concessions for the Sugar Mills as one of its Directors, Shri Banerjee said that every machinery part was mortgaged either to the Centre or to the State Government. The schedule of the deed referred to by Shri Roy Choudhury did not mention machinery because none had arrived when it was executed. The last balance sheet presented to the Registrar of Joint Stock Companies related to 1957.

"Whatever I have done I feel I have done like an honourable gentleman and I therefore, do not stand in need of any support from anyone", concluded the Speaker.

In an emphatic denial of the charges against the Government, the State Chief Minister, Dr. B. C. Roy said that the Government had seen into it that its loans were fully covered by the company's assets. It had been stipulated that the money the Government advanced should go through the Company's bankers to the manufacturer of machinery abroad directly and not to the company, and that it was paid on the basis of deliveries made. When machinery worth Rs. 18 lakhs arrived, the Government paid Rs. 9 lakhs.

The House also agreed that there should be a convention to guide them in such matters. Both the State Chief Minister and the Speaker suggested the formation of a Committee to go into the terms of office of the Speaker because, apart from the legal aspects involved, there was also the question of propriety. Shri

Banerjee, however, warned members that conventions would not have the force of law. They must be acceptable to future Speakers. In the House of Commons the Speaker enjoyed a pension. In this country, unfortunately, many had to make their living through politics. Nevertheless, he would welcome any move to formulate such a convention and "I am willing to be its author", added the Speaker.

Moving the resolution for removal of the Speaker for his association with the National Sugar Mills, the Ex-Mayor of Calcutta said that it was painful to bring in the motion against one of his colleagues. They had to decide on this course because "his conduct strikes at the very root of parliamentary democracy". The Representation of Peoples Act did not disqualify a member of a legislature unless he held an office of profit. A director of a company, if he did not accept his fees, did not come under the disqualifying provision of the Act. This rule, Shri Ray Choudhury argued, did not apply in the case of the Speaker.

Shri Ray Choudhury further alleged that the company had not submitted its accounts for years after 1956. For this alone the Company might have to face trouble. In that eventuality the Speaker would be in a very awkward position. The affairs of the National Sugar Mills had become all the more complicated because of its amalgamation with a South Indian firm.

Besides, a few movers, the ex-Mayor, Syed Badruduzza, Shri Jyoti Basu, Shri Tarapada Chaudhury and others also participated in the debate.

Earlier on the 18th March last, the House discussed the Public Accounts Committee's Report for 1952-53 and the Public Service Commission's Report for 1956-57.

In course of debate, the Speaker, Shri Banerjee said that the House was trying to follow principles laid down in May's Parliamentary Practice. The British convention was that the Opposition leader became the P.A.C.'s Chairman. He saw no reason why there should be a departure from that principle in this respect.

The Speaker's remark was occasioned by a critical statement by Shri Jyoti Basu, the Opposition Leader, that West Bengal was following "a strange practice" in having the Chief Minister as the Chairman in his capacity as Finance Minister.

Replying to the debate on Public Service Commission's Report, Shri P. C. Sen said that the Government had not made any delay in presenting the Report. Of over 1,400 recommendations by the Commission, the Government failed to accept only two cases.

Shri Bankim Mukherjee said that every member of the Commission at present was a retired Government employee. This was done deliberately to ensure that the Commission might oblige the Government in the matter of appointments. New regulations for the Commission had been framed without any reference to the House.

The Assembly on Wednesday, the 25th March, unanimously passed a resolution showing anxiety on the border incidents in the districts of Nadia and Murshidabad and urged the State Government to take up the matter with the Union Government for the safety of the people there. The motion stood in the name of 16 members in the House.

On Thursday, the 26th March, the House rejected a non-official resolution which suggested the appointment of a committee to inquire into primary education in the State.

The Education Minister Rai H. N. Chaudhuri, said that 85 per cent. of children between 6 and 11 years had been covered by primary schools. With limited resources, it was not possible to make primary education free and compulsory up to the age of 14. A State Board for this system was possible under a totalitarian system.

On that day the House also rejected a non-official resolution which suggested the purchase of land by the Government for the purpose of land, building and industrial development. The resolution stated that all the transactions were economical and suitable for the purpose.

Moving the resolution on Government purchases, Shri Ganesh Ghosh, a representative from the Belgachia area, gave a list of properties which, according to him, had been purchased by the Government at much inflated prices. About 30 bighas of land had been sold by a resident of Belgachia for Rs. Seven Lakhs. After some time the seller bought back the land from the purchaser at almost the same price and sold half of it to the Government for Rs. 10 lakhs.

The building in Baghbazar, replied Dr. Roy, had been assessed at Rs. 8.65 lakhs and purchased at the same price. The land at Belgachia was valued by the Land Acquisition Collector at Rs. 12.17 lakhs but the Government had purchased it for Rs. 10.50 lakhs.

Referring to the requisition of the building for a Press of a daily, Dr. Roy said that the Government had done it to open a Central Commercial College, the fund for which had been offered by the University Grants Commission.

Calcutta will have a University of Dance Drama and Music named after Rabindranath. The university will be centred round his ancestral residence in the city at Prince Dwarka Nath Tagore Street. Announcing this, Dr. Roy said that it would be the best tribute the West Bengal Government could pay to Tagore on his 100th Birthday. This was given out on the last day during a discussion.

The Government's Academy of Dance, Drama and Music did not have any Governing Body to guide its policies. Contrary to the earlier assurance that students passing out of this institution would be given degrees, they were offered certificates. Moreover the Academy had failed to attract an adequate number of students, the Opposition accused the Government.

Replying to all these Dr. Roy said that the Government hoped to finalize the scheme, estimated to cost Rs. 18 lakhs, for a National Theatre soon. One reason for the delay was that the Government had to pay, Rs. 4 lakhs towards the purchase of Abanindranath and Gaganendranath's property in Calcutta which had earlier been sold to a non-Bengali. There a new building had been constructed at Rs. 7 lakhs for Rabindra Bharati and to house the Academy of Dance, Drama and Music.

CALCUTTA UNIVERSITY ROWING CLUB'S NEW HALL was formally opened by Dr. K. L. Shrimali, the Union Education Minister, on Saturday, the 21st March last. The hall, said Dr. Shrimali, which had been built partly by the students, was a good example of what students could achieve by co-operative endeavour. The creative energy of youth had not been released to the extent necessary for building up the country since independence.

Prof. N. K. Saha, the Vice-Chancellor, said that the University had been trying to encourage the Rowing Club's activities. The Club, with its beautiful surroundings, offered facilities both for rowing and relaxation. Rowing had an educative value as it encouraged team spirit. The Club has been equipped with modern racing boats and bars, thereby becoming the only Varsity rowing club in India.

The hall and other additions forming the first floor of the Club's pavilion have been constructed with a grant of about Rs. 60,000 from Calcutta University and Rs. 30,000 from the Union Education Ministry. Besides the hall, the new floor provides accommodation for a library of sports books and offices.

Started in 1916 on the Mandukia canal with 11 jolly boats as its rowing equipment, the Club came under the

Students' Welfare Committee of Calcutta University under the patronage of the late Sir Asutosh Mookerjee in May, 1920. The Club was transferred to the Dhakuria Lakes in 1933. Two Clinker built Junior Fours were purchased from the Calcutta Rowing Club and the first inter-collegiate regatta was held in 1935.

BUREAU OF EDUCATIONAL AND PSYCHOLOGICAL RESEARCH at David Hare Training College, southern part of the city, held its third Annual Conference recently. The Teacher-Councillors of West Bengal also held a conference by that time at the College-School Assembly Hall.

Rai Harendra Nath Chaudhuri, Education Minister, West Bengal, inaugurated the conference and gave away the certificates. He laid emphasis on the importance of the training of career teachers for successful running of the diversified courses in multilateral schools in the State.

Shri A. K. Chanda who was among those present also spoke. Earlier the Principal welcomed the guests.

UNITED STATES-PAKISTAN BILATERAL PACT was protested through a meeting held at the University Institute Hall, on Sunday, the 22nd March. Janab Abdur Rezak Khan, M.P., presided. Jointly organized by the Communists and the Marxist Forward Bloc, the meeting passed a resolution stating that the ceaseless violation of Indian frontiers across Assam and West Bengal borders, the use of American ammunition in the border skirmishes and the "belligerent call for a crusade against India by Pakistani Dictators" were not only an extension of the cold war, but a real threat to peace and the frontiers of India.

It deplored the "weak-kneed stand taken by the Indian Prime Minister, Shri Jawharlal Nehru, on this deliberate act of hostility towards India by the U.S.A." and urged him to revise it.

The meeting hoped the peoples of India and Pakistan would strengthen their ties of friendship.

Shri Bhupesh Gupta, M.P., said that the pact was against the U.N. Charter, and India, enlisting the support of Russia, Indonesia and other Bandung countries, should bring it before the United Nations.

Protesting against the Bilateral Pact, about 500 dock and engineering workers demonstrated outside the U.S. Consulate-General in Calcutta on Friday, the 20th March last. They dispersed after handing a memorandum to a representative of the Consulate-General.

SOCIAL CRIMES.—Police raided about 700 Chakki shops in co-operation with the State Food and Supply Department recently.

The Police, wanted to enquire into the allegation of existence of Chakki shops which were not on the Government's approved list but which used to draw quota of wheat by various means.

C. S. P. C. A.'S ANNUAL MEETING was held at its premises in Bowbazar Street, on Thursday, the 19th March last. Sir B. P. Singh Roy who presided, referred to some of its problems, the most important being the replacement of its ambulance vans. The West Bengal Government, he said, had turned down its request for a grant of Rs. 10,000 for the purpose. An exemption from the municipal tax which had been raised from Rs. 1,722 to Rs. 2,001 was demanded by him.

According to the Secretary's Report over 2,800 cases were instituted in court in 1958 under the Bengal Cruelty to Animals Act, of which 2,594 ended in conviction and fines imposed totalled Rs. 19,821. Over 8,000 animals were involved in the convicted cases. Orders prohibiting the use of bullocks as draught animals in loaded carts were enforced during midday hours in summer from April to

June and 14 cases were started for violation of the orders. Ten cases, involving 20 animals, ended in conviction.

The Calcutta Society for the Prevention of Cruelty to Animals collected and disposed of diseased and unclaimed dogs, about 4,280 in number against 4,061 last year. Calcutta Corporation entrusted the Society with the execution of its pilot scheme in this regard and provided funds for staff maintenance and equipment for the purpose.

About 1,000 animals were treated in hospital by the Society, of which 146 were given free medical aid. The Society's ambulance attended 233 calls, 93 being free of charge. First aid was given liberally to animals suffering from minor sores or injuries.

A NEW LADIES' PARK OPENED IN CHETLA AREA

ABOUT a month back Chetla area was thronged with rejoicings and merriments when a new Park was inaugurated in the Chetla area, Ward No. 72 by the local Councillor Mani Sanyal. Councillor Ganapati Sur, Chairman, Standing Town Planning & Improvement Committee, acted as the Guest-in-Chief while Shri P. C. Mazumdar, I.A.S., (Retd.), Chief Executive Officer, presided over the function. (Picture below).

The function which was a nice and tidy one, attracted a large number of local citizens. A bevy of girls presented a dance recital to mark the occasion. Music also formed

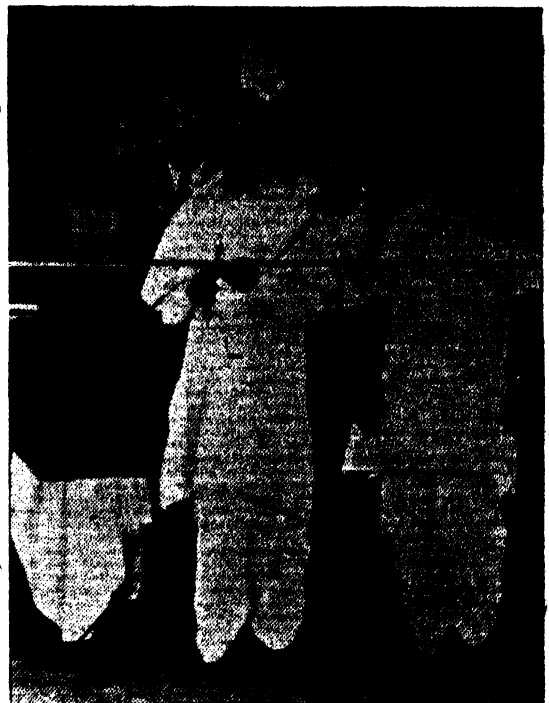

PHOTO : ANJAN GUPTA.

a part of it. The function concluded with a variety programme of exhibition games played between two sections of girls representing the local organizations.

The newly built park, as described by Councillor Sanyal, was once a breeding ground for mosquitoes, and was considered as one of the plague spots in the locality. With the opening of a park it would provide a better standard of amenity to the locality.

As an important member of the Standing Town Planning Committee, Councillor Sanyal felt that there should spring up similar parks throughout the city as 'lungs' to the growing congestion. He also hoped that the organizations of that locality would make a full utilization of that newly built park.

Shri Sailendra Nath Banerjee, Headmaster, Chetla Boys' School, Shrinati Niva Das Gupta, Headmistress, Chetla Girls' School, and a number of Corporation officials were present. A few of them also spoke on the occasion.

CORPORATION NOTICES

Offg. Secretary.

Central Municipal Office:
The 18th March, 1959.

Public Notice.

Houses to house collection of refuse in District No. I (portion)

In exercise of the powers vested in the Corporation under Section 424(1) of the Calcutta Municipal Act, 1951 read with Section 537 of the said Act and in supersession of all previous notices in the matter, it is hereby notified for the information of the public that all rubbish and offensive matters accumulating in all premises, excepting those wherefrom trade refuse accumulates and the occupiers thereof are required to make their own arrangements for removal of the said trade refuse to Corporation Dumping Grounds at Dhippa and Nawpara, situated in District No. I (portion) within the boundary specified hereunder shall be collected by the occupiers of such premises and deposited in suitable receptacles of the kind prescribed

hereunder and kept ready by 8 A.M. for removal of the contents once a day, at a suitable place near the entrance to or within the premises where open space is available affording easy and free access to the Corporation staff engaged for the purpose. Non-compliance with this notice will render the defaulter after a fortnight from the date hereof, liable to prosecution under Section 424(1) read with Section 537 of the Calcutta Municipal Act, 1951.

Boundary of the above area in Portions of Ward Nos. 28, 29 & 32:

North—Vivekananda Road (Included).

East—Acharya Prafulla Chandra Road (Upper Circular Road).

South—Keshab Chandra Sen Street (Included).

West—Cornwallis Street (Excluded).

Each receptacle shall be of non-corrosive metal with a strong bottom, fitted with handles and a detachable lid with 2 in. rim overlapping the top of the receptacle by at least 3/8 in. all round and shall have a capacity not exceeding 2 c.ft.

Note:—Receptacles of the prescribed kind with 1 c.ft. and 2 c.ft. capacity can be had for sale in the Central Municipal Stores at 149, Lower Circular Road at scheduled prices.

P. C. MAJUMDAR,
Chief Executive Officer.

Central Municipal Office:
The 13th March, 1959.

Panel for Corporation Primary School Teachers.

Applications are invited for preparing panels of candidates (men and women) for appointment to the posts of teachers in Corporation Primary Schools from Bengali speaking and Urdu speaking children. The scale of pay is Rs. 60-64-4-80 (E. B.)-5-120 plus T. A. Rs. 10/- in the case of women teachers. The above scale of pay is exclusive of Dearness Allowance and House Rent Allowances. The panels will be prepared with the candidates who will be found suitable, and the vacancies that may occur up to 31st March, 1960, will be filled up from the panel.

Qualifications.

Essential:

- (1) School Final Examination certificate or its equivalent not below 2nd Division.
- (2) Age not less than 21 years and not more than 30 years on the 1st January, of the year in which the appointment is made.

Notes:—A candidate who has passed the examination referred to above in the 3rd Division and has passed I.A. or I.Sc. or I.Com. Examination or has passed the Training will be eligible.

Desirable:

- (1) Recognized certificate of Training.
- (2) Two years' experience in a Primary or Secondary School.

Applications stating in full name, father's name, husband's name in cases of married women, date of birth, permanent and present address, academic qualifications stating Division in which the candidate was placed in such Examination, experience etc., should be submitted so as to reach the undersigned not later than 17th April, 1959.

A. BARUA,
Education Officer.

Central Municipal Office:
The 23rd March, 1959.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-numance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

ARCHBISHOP VISITS CALCUTTA CORPORATION ACCORDS CIVIC RECEPTION

CALCUTTA'S history added a new chapter when THE MOST REV. & RIGHT HON'BLE DR. GEOFFREY FRANCIS FISHER came to this city towards the close of March. The first Archbishop of Canterbury ever to visit India, reached Dum Dum airport on Thursday, the 26th March last in the course of his tour of the South-East Asian countries. He was accompanied by Mrs. Fisher, a former President of the Mothers' Union, the largest women's organization in the Commonwealth. They were received by the Metropolitan of India, Dr. Aurabindo Mookerjee, the Senior Chaplain of the St. Paul's Cathedral, Rev. Cannon P. Catley, the Deputy High Commissioner for the United Kingdom in Calcutta, Maj. Gen. W. H. A. Bishop and others.

The visit of this city by the 97th Primate of all England was unique as it marked the occasion of the Easter Week. The Highest Officer of the Church celebrated Holy Communion at St. Paul's Cathedral, Chowringhee Road, and at St. Thomas Church, Free School Street, delivered a Sermon on the Easter Day, and attended prayer meetings in Churches and in religious congregations. His other activities included visits to city's old churches and attending Receptions, arranged for their honour. The Governor Shrimati Padmaja Naidu was present in one of them.

HIS GRACE, Dr. Fisher and Mrs. Fisher were the guests of the British Deputy High Commissioner and Mrs. Bishop at their residence, Hastings Park Road, Alipore. The Archbishop also addressed a Press Conference there soon after his arrival from Karachi.

The most pleasant event in this connection, the citizens would ever remember, was the CIVIC RECEPTION accorded to the Highest Ordeal of the British Church on the sacred occasion of Easter Saturday, the 28th March last, in the Council Chamber, Central Municipal Office Buildings, S. N. Banerjee Road, towards the afternoon. The warmest felicitations extended by this premier Civic Body of the East to the Archbishop of Canterbury was also unique one along with other memorable events in the city's history. Beyond all questions, it brought the world nearer, it elevated this city to an exonerative position hallowed with the memory of the past happenings related to religious toleration, universal brotherhood and genuineness of purpose in order to maintain world peace.

Both the Welcome Address and the Reply given by the Primate were utterings of the great minds. They sang the Halleluiahs of the mankind, acknowledged the glorious achievements of the human race for the common cause, and sought the goodness in the minds of the politicians for furthering world peace. The Divine Father appealed 'on earth join all ye creatures to extol Him first, Him last, Him midst and without end' and so on. The Archbishop was then distressed by politics whereby reconciliation became more difficult.

The Council Chamber was beautifully bedecked with flowers and foliage. Decorated large size portraits of the great past appeared to be enlivened on the occasion. Packed to its capacity the Chamber also burst into prolonged cheers when Dr. Fisher said that his announcement recommending independence for India in the House of Lords was the best speech he made in his career.

সমগ্র ইংল্যান্ড ও ক্যান্টারবেরীর ধর্মগুরুপ্রধান

পরম স্মরণ ও নমস্কা

ডাঃ জিওফ্রে ফ্রান্সিস ফিশার মহোদয়ের প্রতি পৌর সম্বর্ধনা।

স্বাগত হে মহানুভব!

তোমাকে নমস্কার। তুমি প্রসন্ন হও।

তোমার শূভাগমনে আমাদের এই প্রিয় নগরী কলিকাতা আজ ধন্য। এই মহান উপলক্ষে তাই আমি আমার সতীর্থ পৌর-শাসকগণের এবং লক্ষ লক্ষ নাগরিকের পক্ষ হইতে তোমাকে সপ্রশ্ন ও সানন্দ অভিবাদন জানাই। তুমি গ্রহণ কর।

সুপ্রাচীনত্বের দাবী আমাদের এই নগরীর নাই। কারণ, ইহার জন্ম-ইতিহাস সুদূর অতীতের নয়। তবু এই ইতিহাসের সপক্ষে জড়াইয়া আছে জব্ব চার্চ নামে তোমারই সগোত্র এক ইংরাজের নাম। তাহারই মনে একদিন জাগিয়াছিল ভবিষ্যৎ কলিকাতা নগরীর পরিকল্পনা। সেই পরিকল্পনাকে তিনি রূপায়িত করিলেন আগাছা ও জলাভূমি-বোঁটত কয়েকখানি ছোট ছোট গ্রামের সমষ্টিতে লইয়া। খৃষ্টীয় সপ্তদশ শতকের শেষের দিকের কথা সে। তারপর ক্রমবর্ধমান কলিকাতা নগরী হইয়াছে কলিকাতা মহানগরী; তাহার জীবনে ঘটিয়াছে কত না বিচিত্র ঘটনা, কত না গৌরবোজ্জ্বল স্মৃতি তাহার বৃক্ষে। কিন্তু আমরা গর্ব করি এই বলিয়া যে, এইখানেই জন্মিয়াছিলেন দুইজন মহামানবী—পদ্রুৎসিংহ স্বামী বিবেকানন্দ আর বিশ্বকবি রবীন্দ্রনাথ ঠাকুর—যাহারা প্রচার করিয়া গিয়াছেন বিশ্বভ্রাতৃত্বের প্রেমনিষ্পান্নী বাণী। আর, এই নগরীই ছিল একদিন যুগগুরু, শ্রীরামকৃষ্ণের সর্বধর্মসম্বলয়ের লীলাভূমি, এইখানেই ধ্বনিত হইয়াছিল সকল ধর্মের প্রতি প্রাধিকার ও সহনশীলতার উদাত্ত বাণী। সেই বাণীর মহাধ্বনির অনুরণন আজও বাজে এই নগরীর রম্ভে রম্ভে। তুমি আসিয়াছ এই পবিত্র ভূমিতে। তোমার শূভাগমনে শূভের সূচনা করুক। তুমি প্রসন্ন হও।

এই প্রথম আমরা পাইলাম ইংল্যান্ডের ধর্মপ্রাণকে আমাদের মধ্যে। আমাদের উভয় দেশের রাজনৈতিক সম্পর্কের সকল তত্ত্বতার যখন অবসান ঘটিয়াছে, আছে শুধু চিরন্তনতার দৃঢ়তাকে ভাস্বর ইংল্যান্ডের সংকর্মের স্মৃতিটুকু, তিনি থাকিবেন আমাদের মধ্যে সেই পরম মহত্ব—পরমেশ্বরের আশীর্বাদ ইহা।

হে মহামানব!

প্রাথ্যার সহিত স্মরণ করি তোমার অগাধ পাণ্ডিত্য, স্মরণ করি তোমাকে একজন সুদক্ষ কর্মপ্রাণকরূপে, দৃষ্টি ও নিপীড়িত মানবাত্মার এক পন্থা বন্ধুরূপে। কিন্তু তোমার গুণাবলীর মধ্যে যাহা সর্বাপেক্ষা আকর্ষণীয়, যাহা প্রাচ্যবাসী আমাদের মনে গভীর রেখাপাত করিয়াছে তাহা হইল সকল প্রকার জাতি ও বর্ণবৈষম্যের বিরুদ্ধে তোমার নিষ্ঠুর সংগ্রাম। মূলতঃ জগতে শান্তিপ্রতিষ্ঠা ও মঙ্গলসাধনের উহাই হইল প্রকৃষ্ট পন্থা। উহারই জন্য হাসিমুখে দুশাবন্ধ হইয়াছিলেন যীশুখৃষ্ট, উহারই জন্য স্বেচ্ছায় ত্যাগ করিয়াছিলেন গৌতম বুদ্ধ তাহার রাজৈশ্বর্য।

হে ধর্মপ্রাণ!

খৃষ্টধর্মীদের গীর্জার বিভেদ ও বৈষম্য দূর করিয়া একসাধনের যে অক্লান্ত প্রচেষ্টা তোমার, তাহা আমরা লক্ষ্য করিয়া আসিতেছি আকুল আগ্রহে। কমণী তুমি, তোমার কর্মযোগ জাগাইয়াছে আমাদের মনে এই পরম আশা ও আশ্বাস যে, আমরা চলিয়াছি এক চরম লক্ষ্যের দিকে—সর্ব-মানবের একতন্ত্রী একত্বের দিকে। সকল দেশের সর্বকালের চিন্তাশীল মনীষীগণের সাধনার ধারা বহিয়াছে এই দিকেই—শূনিয়াছি আমরা তাহাদের সুদৃঢ় কঠোর সংকল্পধ্বনি।

বিশ্ব-পরিচিতির ক্ষেত্রে দিন দিন আমাদের জ্ঞান যতই বৃদ্ধি পাইতেছে, আমাদের এই পরিচিত পৃথিবীর পরিসর হইয়া আসিতেছে ততই সম্প্রীর্ণ। আধুনিক বিজ্ঞানীদের অগ্রগতির ফলে মানুষের হাতে আসিয়া পড়িতেছে যে সব নব নব অস্ত্র সেগুলির ব্যবহার সে করিবে কী প্রকারে?—আজ এই প্রশ্ন জাগিয়াছে অনেকেরই বিভ্রান্ত ও সংশয়-সম্বল মনে। আমাদের এই পৃথিবীতে মানুষের জীবন নয় আদৌ অপ্রতিহত ও অবিচ্ছিন্ন—একথা আমরা সকলেই জানি। যাহারা সমসাময়িককালের মানবকুলের মনকে প্রভাবিত করিয়া তাহাদের চিন্তাধারাকে বহাইয়া দেন নতুন নতুন খাতে তাহাদেরই উপর অর্পিত হইয়াছে আজ আর এক নতুন দায়িত্ব। কারণ, একমাত্র তাহারাই পারেন মানব-জাতিকে এবং মানবের অধুষিত এই পৃথিবীকে সুনিশ্চিত ধ্বংসের হাত হইতে রক্ষা করিতে; পারেন তাহারাই মানুষকে প্ররোচিত করিতে এই নবলব্ধ জ্ঞানকে সংঘর্ষে বাঁধিয়া মানবেরই কল্যাণে নিয়োজিত করিতে।

হে মহামানব!

সর্বশক্তিমান ভগবানের অপার করুণার বর্ষিত হউক তোমার উপর তাহার অকুপণ আশীর্বাদ। প্রার্থনা করি তুমি দীর্ঘায়ু হও। তোমার কর্মক্ষেত্রের সুউচ্চ আসন হইতে তুমি সঞ্চারিত কর, তোমার আশ্রিত শক্তি। সফল হউক তোমার উৎসর্গীকৃত জীবনের সুমহান আদর্শ।

ও শান্তি!

তোমারই গুণগ্রাহী—

শান্তি, সহনশীলতা ও বিশ্বভ্রাতৃত্বের উপাসক

কলিকাতা কর্পোরেশনের অণ্ডারম্যান ও

কার্ডিনালারবন্দ এবং নাগরিকগণের পক্ষ হইতে

জিওফ্রে ফ্রান্সিস ফিশার,

মেরর।

কলিকাতা,

২৮শে মার্চ, ১৯৫০।

**Civic Reception
To
The Most Reverend & Right Honourable
DR. GEOFFREY FRANCIS FISHER
Lord Archbishop of Canterbury,
PRIMATE OF ALL ENGLAND**

MAY IT PLEASE YOUR GRACE,

ON the occasion of your Grace's visit to our beloved City I offer Your Grace, on behalf of the Aldermen and Councillors of this Corporation as also the citizens of Calcutta, our warmest welcome and felicitations.

OURS is no ancient city. It was in 1690 that an Englishman, named Job Charnock, decided to establish a settlement among a few tiny villages surrounded by marshes and swamps which constituted the site of the future city of Calcutta. But we take pride in the fact that this city is the birthplace of Swami Vivekananda and Poet Rabindranath Tagore, two of the greatest apostles of universal brotherhood, and that it is the city suffused with the spirit of religious tolerance propagated by Sri Ramkrishna.

IT is for the first time that we have the Primate of All England in our midst, and we consider it a blessing of Providence that he should be here with us when all the bitterness generated by strained political relations is over, leaving only the things of lasting value arising out of England's work in India.

YOUR GRACE !

WE recall with admiration your achievements as an erudite Scholar, as a capable Administrator and as an unfailing Minister to stricken and suffering humanity. But what has profoundly impressed the peoples of the Orient is your valiant stand against all colour bar and racial discrimination—in fact, for that peace on earth and goodwill among men for which Jesus of Nazareth smilingly faced crucifixion and Gautama The Buddha renounced his principality.

MY LORD ARCHBISHOP !

WE have watched with considerable interest your untiring activities for the cause of the ecumenical movement—that is, the unity of the Church, as it raises high hopes in our minds that it will help the realisation of the ultimate objective of the Parliament of Man towards which thinkers of all ages and climes have steadfastly beckoned.

THE world is becoming smaller as our knowledge about the universe is expanding. There may be many who are perplexed by the question—what use man is probably going to make of the weapons he has acquired as a result of scientific advance. As we all know, man's career on this planet is not at all unchequered. An added responsibility now devolves upon those who influence and guide the thought-currents of contemporary humanity, because they alone can induce man to harness his new knowledge for the good of his species and not to use it as a weapon for annihilating himself along with the planet he inhabits.

MAY The Almighty, in His infinite mercy, bless you and spare you to employ the high office which you occupy in fulfilling the lofty mission to which you are dedicated !

Yours in the Common Cause of PEACE
Tolerance & Universal Brotherhood,
TRIGUNA SEN,

Mayor of Calcutta,

CALCUTTA,
The 28th March, 1959.

ON BEHALF OF THE ALDERMEN AND COUNCILLORS OF THE
CORPORATION AND THE CITIZENS OF CALCUTTA.

The Mayor Dr. T. Sen, in his Address, said: "The world is becoming smaller as our knowledge about the universe is expanding. There may be many who are perplexed by the question—what use man is probably going to make of the weapons he has acquired as a result of scientific advance."

The full text of both the speeches are being published herewith.

Earlier, the Mayor presented the Archbishop with a gold-topped silver replica of an Asoka Pillar and Mrs. Fisher with a bouquet of red roses. They were received at the South-West gate of the Municipal Office Building by the Mayor himself and others.

A distinguished gathering was present to place their homage to that Head of the Anglican Church—ever visited India. A large number of churchmen and priests in Calcutta, including the Metropolitan of India, Dr. Mookerjee and Shrimati Mookerjee, the Senior Chaplain of the St. Paul's Cathedral and others watched the function. The Deputy High Commissioner Maj. Gen. Bishop, and Mrs. Bishop and members of the Consular corps in the city were invited. Among the elderly citizens Shri Hemendra Prasad Ghosh, Dr. Hemendra Nath Das Gupta, Shri N. K. Bose, Dr. Pratap Guha Roy, Shri Ashutosh Mullick and others witnessed the function. Legislators representing this city, Aldermen and Councillors, and a large number of Corporation officials were also present.

It may be recalled here that the idea of according Civic Reception to the Archbishop was first mooted in the minds of Councillor S. K. Roy and the House accepted his proposal as soon as it was put up in the House.

On the first day His Grace called on the Governor, Shrimati Padmaja Naidu, at Raj Bhavan and the State Chief Minister, Dr. B. C. Roy at Assembly House. He had tea with members of the Vestry of St. John's Church and visited the Old Mission Church at Mission Row. At evening he spoke to people at St. John's Church and gave them his blessings. In all these engagements he was accompanied by Mrs. Fisher.

The Archbishop of Canterbury visited the Armenian Church on Good Friday. There he was received by Bishop Ghazarian and the Rev. Petrossian.

The Archbishop of Canterbury and Mrs. Fisher left the city for Hongkong Wednesday, the 1st April en route to Tokyo.

He was seen off at the airport by Dr. Mookerjee, Metropolitan of India, the Senior Chaplain of the St. Paul's Cathedral, Maj.-Gen. W. H. A. Bishop, Deputy High Commissioner of U.K. and others.

Before emplaning Dr. Fisher said that he had immensely enjoyed his visit to India and hoped to visit this country again.

PEACE, TOLERANCE AND UNIVERSAL BROTHERHOOD—ARE THE COMMON CAUSES.

FEELINGLY moved on the sentiments expressed through the Mayoral Address, Dr. Fisher said that the kindness the city had shown to His Grace and Mrs. Fisher would be long remembered. "Deeply moved", the Archbishop said, "I am not unfamiliar with Mayoral Addresses." Unlike that which had been accorded to him in Calcutta, most of them seemed to him to be wanting in substance. "I have a common cause with you—to establish peace, tolerance and universal brotherhood," he said.

Replying to the Address Dr. Fisher said that he had been Headmaster of a school for many years. His experiences as an administrative head of an institution was that authority and administrative power, if properly exercised, could be utilized for the good of the people. He also said that the Headmaster's authority was identical to that of the Mayor which he himself had felt.

Referring to administrative affairs, Dr. Fisher said that there were tremendous problems to be faced with. Fundamentally, the problems were the same—the problem of providing 'food and shelter'. What was required was co-operative efforts to have these problems solved.

Referring to the problem of Calcutta he said that it was to give aid to the displaced persons numbering millions. He emphasized the need for solution of the problem above party politics. If they were to cure the real evil the political ambition should be considered to be purely secondary.

The Archbishop emphasized that the Commonwealth relationship between Great Britain and India was not only fraternal but maternal relationship was also needed. "What is the remedy?" Poising this question he replied himself that the remedy was 'patience'. The Head of the Anglican Church asked his audience to hold patience in political strifes. He said that this exquisite quality had to be learnt.

To a profound speech the Head of the English Church added colour and humour when he referred to an event in history with which he had personal association. The occasion was a discussion in the British House of Lords on India's Independence. Equipped for a good speech, he had gone there to find Lord Halifax giving an admirable address with all the power at his command. After Lord Halifax, the Archbishop rose to announce: "All that I have to say has been said by Lord Halifax, I recommend India's Independence."

Referring to the past strained relationship between India and Great Britain, the Head of the Anglican Church said that it was an act of wisdom not complete wisdom, on the part of Great Britain to have solved the problem.

It was once a peculiar virtue for everyone to go honest. It went then non-corrupted by France. Every Englishman to the core was honest. During the Eighteenth Century a high sense of honesty prevailed when nothing was allowed to be deceived

so soon. No good can be done without honesty," emphasized the Archbishop of Canterbury. Continuing, he said that under pressure of modern age when everything had changed everything became complex. All these relevant facts had been created by ignorance. Dishonesty also became a menace all the world over. It led to divergence. He added that one aspect of man excluded from other aspects. But the spiritual Bishops possessed that another aspect.

In political life, the Archbishop remarked, man is a fallible creature. One thing that distressed him most was that politicians made reconciliation more difficult. Politicians, the Archbishop said, at times used 'damnable' words. Because of the politicians the chances of reconciliation had become more difficult. Those who were in power and authority, used to speak so much and spend so much against other nations and people.

ARCHBISHOP'S SERMONS DURING THE EASTER

Speaking at the Armenian Holy Church of Nazareth, on Good Friday, the 27th March last, the Archbishop of Canterbury referred to the fights and fears that still existed in all the Churches. At this moment in Jerusalem, he said, there was an affliction upon the Armenian Church as "they are faced by what is purely known as a political controversy."

Welcoming the Archbishop earlier, Bishop Assoghik Ghazarian, Prelate of Armenians in India and the Far East, said that the Church which His Grace was visiting was the oldest edifice of Christian worship in Calcutta.

AT ST. PAUL'S CATHEDRAL

The Archbishop in his Sermon for Easter Day at St. Paul's Cathedral, Calcutta, took as his text a sentence from St. Paul's epistle to the Colossians: "God has translated us into the kingdom of His Son." Declaring that this was the central message of Easter, His Grace spoke of his joy at being in Calcutta sharing in worship with his fellow Christians.

His Grace said that in God's providence Britain and India had had a long association. Some things in it were good, others bad. Britain had recognized India's need for independence just in time. Now both nations had to face similar responsibilities and difficulties.

Among the good things that had resulted from England's association with India had been the bringing of the Gospel of Jesus Christ. This was no invention of the West but sprang from the proclamation of the Christian message by men like St. Paul.

The State Chief Minister, Dr. B. C. Roy, who attended the service, was greeted by the Archbishop. The Sermon was delivered in English and later translated into Bengali. There was all Bengali music.

HIS GRACE'S OPINION ON DIVORCE, FAMILY PLANNING & OTHERS

At the Press Conference, His Grace said that Anglican Church's policy had always been to hand over the churches to "indigenous" diocesans. He was proud to say that during his 14 years of office he had supervised the handing over of many churches in his jurisdiction, among others, those in West Africa and in part of Central Africa.

The solution to present-day problems lay in "reconciliation of those who have too much with those who have too little". From his own experiences as a parson of administration and authority he knew that power, despite its tremendous corrupting influences, could be utilized for the good of man.

Before conclusion, Dr. Fisher said that peace, tolerance, universal brotherhood and reconciliation should be their common cause to minimise the tension of the world. And he was happy to notice that the Mayor had also mentioned those in his Address.

'Any political answer to this is meaningless. I am convinced that politicians have a great job of 'furfication'. I know that there are temptations. Yet if we are to cure the real evil the politician's job is purely secondary', the Archbishop ended.

SERMON FOLLOWED RECEPTION

The Archbishop and Mrs. Fisher were given a Reception on the lawns of the St. Paul's Cathedral, Chowringhee, on the Easter Monday, the 30th March, by the Metropolitan. The Governor, Shrimati Padmaja Naidu, the Mayor, Dr. Triguna Sen, and distinguished citizens attended.

After that the Archbishop delivered another Sermon there at special evening prayers. The theme was a need for harmony and love amidst the conflicts and distresses of the modern world.

The Anglican Church did not recognize political and racial divisions. Each country had its own character and different way of life but the whole Church had only one Gospel. If one had to live up to the "colossal ideal" of the Church one must have virtues like compassion, forgiveness and love that bound everything in perfect harmony. Whatever the future held he was confident that Christians in England would continue to feel a deep sense of brotherhood with Christians in India as both sought to be faithful to the one Lord.

The Head of the Anglican Church, who took the same text as on Sunday evening at the Bengali service, recalled the past links between the Church of England and that of India, Pakistan, Burma and Ceylon and referred to plans for Church union in North India. There was a better atmosphere between the Christian Churches because they were leaving behind past controversies and rediscovering the whole Gospel of God's triumph and redeeming love in Christ. Disputes could not be solved if each side tried to prove that it was right. The truth and the spirit of God were on each side.

His Grace gave his blessings to the congregation and a crowd outside. Earlier the Metropolitan, welcoming the Archbishop, said that they rejoiced to know that his visit would strengthen the ties of the Church in India with its spiritual mother, the Church of England.

"War is against the will of God and nuclear war is the most beastly form of war ever invented by man", said the Archbishop, describing the efforts of the Church to find a solution to the present problems, at the residence of the U.K. Deputy High Commissioner, Hastings Park Road, Alipore.

The Archbishop also asserted that science could never be able to replace religion whatever its achievements might be. Even the present atomic age would be left far behind them.

Segregation, the Archbishop said, was a social problem which could trace its origin to the days of Old England when a Norman and a Saxon were as far apart as the black and the white man were to-day in some parts of the world.

Replying to another question the Primate of England said that the South African Government was determined that its country should be a "White State". The Church declared such a step was unchristian and thought it would lead to disaster. The Archbishop said that personally he had preached and taken service in churches where black men and white men sat side by side and received the Holy Communion, kneeling together.

There had not been much news about churches in China for sometime, said the Archbishop, when referring to the desirability of churches being governed by indigenous people. The last that he had heard about churches in China was that all diocesans were in the charge of Chinese Bishops.

Clarifying the views of the Anglican Church on divorce, His Grace said that the Church and its tradition beyond any doubt that one woman and one man married for life "till death do us part". The Anglican Church would not remarry a divorcee. However, the Christian Church did not stand in the way of such marriages outside the Church.

The Head of the English Church also felt the need of family planning, when asked. With the change of time when the family maintenance become so complex His Grace thought that the system would save the modern society from many of its complexities.

THE ARCHBISHOP OF CANTERBURY

BORN, on the 5th May 1887, the tenth child of the Reverend H. Fisher, Rector of Higham-Higham-on-the-Hill, Nuneaton, Warwickshire The Most Rev. & Rt. Hon. Dr. Geoffrey Francis Fisher was educated at Marlborough, from where he went to Exeter College, Oxford, after winning an open scholarship. A fine classical student at Oxford, he

THE ARCHBISHOP OF CANTERBURY

took at double first in Moderation and Litaræ Humaniores and later, another first in Theology. After Oxford he studied for a short time at Wells Theological College and then became Assistant Master at Marlborough. In 1914 he took over the charge at Repton, being the youngest Headmaster ever appointed. He was then only 27. Thus a notable Churchman with a genius for administration as shown in two Bishoprics of Chester and London,

Dr. Fisher was also an educationist of the first rank. For 18 years he was Headmaster of Repton succeeding Dr. William Temple, to the Chair of St. Augustine, and made it one of the best equipped and architecturally one of the most beautiful of the greater Public Schools. He also played a leading part in the creation of the Association of Governing Bodies of Public Schools in 1941. Appointed in 1942 as a member of the Fleming Committee Dr. Fisher contributed largely to the Education Act of 1944 in Great Britain.

Though ordained Deacon in 1912 Dr. Fisher then became a priest a year later still having no experience of parochial work he was translated to the See of Chester in 1932 from Repton. However, sceptics were proved wrong, for he endeared himself to the clergy and people of his diocese as much by his innate goodness as by his habit of making as many personal acquaintances as physically possible. He was there an industrious and well-loved Bishop. He became Bishop of London towards the end of 1939, remaining there for the most period of the war. He housed 300 homeless people in his residence, Fulham Palace during war.

When Dr. Fisher was enthroned Archbishop of Canterbury and Primate of All England on January 22, 1945, it was clear that a new force was at the head of affairs. Detesting the colour bar, his first public statement after assuming office included an appeal asking that it be ended throughout the Commonwealth. As Bishop of London he had attended the conference, called by Missionary Societies to discuss this subject. A further end which he seeks to achieve is the reunion of Christian Churches and is in close touch with the Orthodox and Reformed Churches of Europe.

Dr. Fisher has also travelled widely in Europe, the Commonwealth countries and the United States. In 1946 he toured Canada. During spring time of 1951 he visited Africa and other adjoining lands. Created a Privy Councillor in 1939, the Archbishop received different Decorations and Honours from time to time.

In 1917, Dr. Fisher was married to Rasmond Chevallier Foreman, daughter of a former Repton housemaster. Mrs. Fisher herself was active also during war years and became Chairman of an International Committee.

VIEWS AND REVIEWS

UNION VICE-PRESIDENT IN CITY

The Union Vice-President, Dr. Sarva Radhakrishnan, had a brief stay in this city during the Easter Holidays. On his arrival at Dum Dum airport from Madras on the 27th March last, the Vice-President was received by the Vice-Chancellor, Prof. N. K. Sidhanta and Government officials.

On that day, Dr. Radhakrishnan delivered the 'Keshab Chandra Sen Memorial Lecture', in the Senate Hall. Speaking on "Religion and Modern Life", the subject of the talk, the Vice-President regretted that religions were separated like Nation States which had torn the world into compartments. Unless the philosophy that all men were brothers was treated more seriously it would not be possible to recast society, he added.

The present age had its particular problems and the relevance of the central principles of religion for this age had to be properly appreciated. He wanted religious leaders who spoke of peace to assert themselves against such activities. The evil effects of racial bigotry, idolatry and caste segregation were also explained by him. Man's conduct, he said, should be governed by knowledge and inspired by love. This personality must be integrated.

The Vice-President prefaced his speech with a reference to the ideals of men like Keshab Chandra Sen who had sought after truth amidst the greatly confused condition of India in the 19th century.

A Special Convocation of the Calcutta Sanskrit College, conferred Dr. Radhakrishnan the title of "Sarvagama Sarvabhauma", (one who has sovereign power over all sciences of knowledge). The Principal, Dr. Gaurinath Sastri, put *tilak* on his forehead. Girl students of the College garlanded him and offered him a tray of fruits.

Paying respect to the memory of Pandit Iswar Chandra Vidyasagar, the first Principal of the College, Dr. Radhakrishnan said that Vidyasagar was orthodox in his principles but did not hesitate to revolt against abuses and contradictions in society.

Dr. Radhakrishnan also said on that occasion that a world religion should be evolved in which there would be no sectarianism, exclusiveness and rigidity.

DR. AMAL ROY CHAUDHURY PASSES AWAY

We deeply regret to announce the passing away of Dr. Amal Kumar Roy Choudhury, M.D., an eminent physician of this city and a former Principal of the R. G. Kar Medical College, in Giridih, Bihar, on the 30th March. He was a leading physician in this city for over three decades. Besides, the late Dr. Roy Choudhury's activities spread in other spheres also. He was 67.

The late Dr. Roy Choudhury was suffering from various ailments and was removed to Giridih for a change of climate. The illness developed into severity suddenly and before any medical help reached there the end came. The dead body

was brought down to Calcutta on the next day. A funeral procession followed by medical students, admirers and citizens, started from his residence, Williams Lane, central part of the city. It was taken first to the R. G. Kar Medical College and Hospitals, with which he had been associated long years. The bier was taken round the different wards of the institution. While returning the procession halted in front of the Indian National Ambulance Corps Health Clinic and Medical College and went to Keoratala, where the body was cremated.

Wreaths were placed on behalf of different organizations and institutions including the Calcutta Corporation. Wreaths were also placed on his bier on behalf of the Indian Medical Association, a number of medical organizations and all the hospitals in Calcutta. Earlier hundreds of people, including some West Bengal Ministers, leading physicians and medical students, visited his residence at Williams Lane, when the last remains reached the city.

There was wide mourning throughout the city due to the loss of so eminent a physician. To different organizations particularly those belonging to the medical men, the loss was severe. Immediately, on the next day, the 1st April the Calcutta Branch of the Indian Medical Association held a meeting at its premises, Dhurumtolla Street to mourn his death. So also did other similar organizations.

The Calcutta Corporation, at its meeting on the 31st March, condoled the death and adjourned its sitting for the day as a mark of respect to his memory.

Referring the death in the House, the Mayor, Dr. Triguna Sen, described the late Dr. Roy Chowdhury, as one of the most eminent physicians that Bengal had ever produced. The Mayor then detailed out the career of the late Dr. Roy Chowdhury which shone brilliantly to guide others who followed his profession. Not only as a physician of repute, but the late Dr. Roy Chowdhury was also associated with a number of social and humanitarian organizations in the city. 'His death has created a void in the city's medical profession which is not likely to be filled for many years to come', remarked Dr. Sen.

The House's sympathy also went to the members of the bereaved family particularly to the Ex-Mayor, Shri Sanat Kumar Roy Chowdhury, the eldest brother of the deceased.

We also extend our sincerest condolences to the members of the family.

Coming of a well-to-do zaminder family of Taki, in 24-Parganas, the late Dr. Roy Chowdhury was born in Calcutta, in June, 1892. After a brilliant career in the Medical College, he was graduated in Medicine in 1914. He obtained the M.D. degree in 1917. Earlier, he joined the R. G. Kar Medical College as a Demonstrator and later became its Assistant Professor in the Department of Anatomy. He was the Principal of the institution

THE**WORK**

A GIST OF PROCEEDINGS OF THE FORTY-FIRST ADJOURNED MEETING OF THE CORPORATION
HELD ON MONDAY, THE 30TH MARCH, 1959.

EMPLOYEES' GRIEVANCES

At the outset, Councillor K. L. Dhandhanja, Chairman, informed the House that the Standing Finance Committee would be able to make its final recommendations on the employees' demands for revision of grades, increased dearness allowances and others, in course of two months.

Councillor Dhandhanja said that the Finance Committee had been examining a comprehensive scheme for revision of grades. It had already accepted the recommendations of the Special Committee appointed by the Corporation in order to avert the token strike declared earlier, relating to revision of the grade of the lowest paid employees, numbering over 20,000. Following the suggestions of that Special Committee, the Corporation would authorise the Chief Executive Officer to arrange for one day's holiday in a week for all categories of employees without affecting the essential services. This would require to be considered and recommended by the Standing Finance Committee. Already a few recommendations related to House Rent Allowances and others have been put up before the House, he added. Councillor Anil Majtra suggested that these recommendations should be given effect to from the 1st March, the beginning of the Establishment Financial Year.

Councillor Nripendra Nath Banerjee pointed out that anomalies still existed in many of the recommendations put up by the Employees' Grievances Committee. These needed further considerations, urged Councillor Banerjee.

The House, however, agreed to request the future Standing Finance Committee to close up their considerations within sixty days from that day onward as urged by Councillor Dharendra Nath Dhar, M.L.A. Many others also spoke in a similar tone sympathizing with the employees.

A section of the House including Councillor Dr. B. C. Basu did not favour the idea of having concessions of one-day leave at the present critical moment, particularly when more than 50 per cent.

CALCUTTA ASSOCIATION FOR UNITED NATIONS

At the 12th Annual General Meeting of the Calcutta Association for United Nations held recently, the following have been elected office-bearers for the year 1959 :—

Patron : Shri P. C. Sen, Minister, *President* : Shri S. N. Modak, *Vice-Presidents* : Shrinati Ila Pal Chaudhuri, M.P., Shri Satinath Roy, Shri B. K. Chaudhuri, Prof. N. C. Bhattacharyya, M.L.C., and Shri Radhika Prasad Banerjee.

Hon'y. Secretaries : Prof. A. B. Dutta, and Shri Harendranath Mozumder, M.L.C.

Dy. Secretaries : Shri Sudhir Kumar Ghosh, Shri Naranarayan Haralalka.

Treasurer : Shri Kamal Krishna Palit.

of the conservancy lorries remained idle due to dislocation of machinery.

A NEW ALIGNMENT

The House, on the recommendation of the Standing Town Planning and Improvement Committee, approved the proposal for prescribing a 40 ft. wide alignment at Lokenath Bose Garden Lane to meet Hughes Road from the 60 ft. alignment of projected public street connecting Canal South Road with Topsia Road at the junction of Topsia Lane for the development of the locality.

—VIEWS & REVIEWS

(Continued from Page 523)

from 1955 to 1957. He was actively connected with various other medical institutions in this city. Since the establishment of the National Medical Institute, he was its Professor of Medicine. He was appointed a physician to the Governor immediately after independence.

The late Dr. Roy Chowdhury was the author of a considerable volume of medical literature. He was the editor of the Indian Medical Forum since its inception and wrote many medical books in collaboration with others. He took an active part in the formation of the Indian Medical Association and was the Founder-Chairman of the Indian National Ambulance Corps Health Clinic.

Maintaining his leading position in the profession for over three decades, he was honoured and respected from everywhere. Most of the eminent physicians in Calcutta are his pupils and they had high regard upon him until his death.

KALA VENKAT RAO'S DEATH MOURNED

The Corporation on the 31st March, condoled the death of Shri Kala Venkat Rao Revenue Minister, Andhra Pradesh, and a former General Secretary of the Indian National Congress. The death took place after his brief illness in Hyderabad, away from his native district, on the 28th March last. He was 59.

Paying tributes to his memory, the Mayor, Dr. Triguna Sen, said that the late Shri Venkat Rao was one of the foremost Congress leaders of the country. Joining the freedom's struggle in 1921 under the call of Mahatma Gandhi, he spent about ten years of his life within prison bars. As a Minister he was no less distinguished than as a leader of the Congress, the Mayor added.

The late Venkat Rao was General Secretary of the Congress from 1949 to 1951. He was Revenue Minister of Madras from 1947 to 1949, Health Minister from 1951 to 1952 and Minister for Planning and Industries in Andhra from March, 1955 till the last election.

CITY NEWS PARADE

OBITUARY: Capt. S. K. Chakraborty was killed in an worst air crash on Sunday, the 29th March on the sky of Assam near Talakandi. He was Commander of the I.A.C. Dakota which crashed near Silchar on that day causing casualty to all the passengers. He was only 32.

The late Captain Chakraborty started his flying career in 1932. Before joining the I.A.C. he worked in Himalayan Airways and Airways India. He got his command in 1956. He had legged 2,000 hours and was recently made a Senior Captain.

Son of a retired railway officer, the late Shri Chakraborty studied in St Michael's School, Lucknow, and St. Patrick's School, Asansol. Graduating in Science from St. Xavier's College in 1948, he entered into his profession.

The Corporation on Tuesday, the 31st March, mourned the death of the 24 occupants of the Indian Airlines Corporation Dakota which crashed on March 29.

A resolution moved by the Mayor, Dr. Triguna Sen, urged the Union Government to consider whether Dakotas should be allowed to be in commission any further. It added that the Government should thoroughly investigate this aspect of the question to put a stop to recurrence of such tragedies. It also conveyed the Corporation's heartfelt sympathy and condolences to the members of those bereaved families.

The death of Shri Bankim Chandra Mukherjee, an eminent lawyer of Calcutta High Court and the Supreme Court of India, and a member of the Legislative Council of undivided Bengal, occurred on the 23rd March last, at his city residence. He was 73.

The late Shri Mukherjee had a brilliant academic career. He was enrolled at the Bar in 1911 and soon rose to and maintained for over four decades an eminent position as a lawyer. He conducted, among other important cases, the Bhowal Sanyasi case and the Tikari Raj case.

As a leader of the Hindu Mahasabha he was returned to the Council. He set up social and educational institutions, hospitals and health centres in Calcutta.

The Corporation at its adjourned meeting on the 31st March mourned his death. It was referred to in the House by the Mayor, Dr. Triguna Sen, who remarked that in his death the city had lost one of its prominent citizens.

CALCUTTA ZOOLOGICAL SOCIETY'S Annual Meeting was held on Sunday, the 29th March at the Society's Office, Indian Museum, Chowringhee. Presiding over the function Dr. H. N. Ray pointed out the danger that biology, in its rapid advance, tended to break up into isolated blocks, splitting up into more sub-divisions of specialization. Unless the common goal of understanding and

SHRI SUSHIL CHAKRABORTY

Shri Sushil Kumar Chakraborty, Secretary, Calcutta Corporation Clerks' Union, an employee attached to the Accounts Department, has been elected as one of the Trustees to the Employees' Provident Fund Trust Body. His election went uncontested as the three other contestants withdrew their candidatures.

As a representative of the employees and workers, Shri Chakraborty through a statement recently extended his heartfelt thanks to all his colleagues and requested them to keep him informed about their grievances, if any, so that they could get the Government on the employees' part.

controlling life processes was constantly kept in biologists might lose contact and their common purpose. The unity of life must find its true reflection in unity among biological sciences. Biological science had become a group enterprise with many servants in varied stations.

In his report the Secretary, Dr. D. N. Roy Chowdhury, said that the West Bengal Government's Education Department had sanctioned a grant of Rs. 2,000 and the Union Ministry of Scientific Research and Cultural Affairs Rs. 1,000 in the current financial year towards the cost of publication of the Society's proceedings.

A HELICOPTER, A NEW KIND OF AEROPLANE landed in the city for the first time in India. The Helicopter landed on the roof of a building on Tuesday, the 31st March according to the Ministry of Defence in Calcutta. The I.A.F. aircraft, touched down on the terrace of Rani Kutir, the Headquarters of No. 1 Group (I.A.F.), Tollygunge, Calcutta. It was piloted by Squadron Leader S. K. Majumdar.

FOUNDATION STONE OF PROTAP CHUNDER MEMORIAL HALL AND LIBRARY was laid by the Vice-President of the Indian Union Dr. Sarvapalli Radhakrishnan on Acharya Prafulla Chandra Road, northern part of the city, on Saturday, the 28th March last. The West Bengal Government has sanctioned Rs. 75,000 towards the cost of the building estimated at Rs. Two Lakhs. The Trustees have collected Rs. 20,000.

Dr. B. C. Roy, Chairman of the Memorial Trust, who welcomed Dr. Radhakrishnan, spoke about the achievements of Protap Chunder, the Brahmo (Navavidhan) leader, as a thinker, orator and writer who had inspired nationalism and love for social work in young men and women. The Chief Minister hoped that young men and women would imbibe Protap Chunder's nationalism and zeal for social work by discussing his ideals in the hall and library to be built.

Dr. Radhakrishnan said that the world was grouping for conciliation. Science and technology could not supply the answer which must come from religion. They had to acknowledge the truth found in all religions and in spiritual fellowship establish the "kingdom of God on earth" by crucifying selfishness and growing in wisdom. Keshub Chunder and Protap Chunder advocated that "ideal of reconciliation."

On the basis of the reconciliation of religions of the world, where "weapons of destruction" were increasing, could be brought together, said also the Vice-President of India.

A WORKER'S EDUCATION CENTRE was inaugurated at 43, Sarat Bose Road, South Calcutta, on Sunday, the 29th March under the auspices of the Ministry of Labour and Employment, Government of India. Janab Abdus Sattar, Labour Minister, West Bengal, formally inaugurated the Centre.

Addressing the gathering Janab Sattar said that the responsibility of leading the workers to the right path lay on the Trade Union Movement. He expressed the view that the training that would be imparted to the worker-teachers would help much to guide the movement properly.

Shri S. M. Bhattacharjee, Labour Commissioner, the Chairman of the Local Committee of the Centre, explained the aims and objects of the Centre.

Dr. Mottreyee Bose, M.L.A., said that the success of the scheme depended on how far the teacher-administrators would be able to correlate the knowledge of the workers with their work in training them. Shrimati Bose, who had long experiences in the Trade Union Movement, hoped that the Education Centre would be able to set up a labour community who might bring about its welfare keeping themselves aloof.

DEMONSTRATIONS: There were three demonstrations in the Hare Street Thana area on Tuesday, the 31st March. About 400 bus workers demonstrated before the State Transport Office on Mission Row. They dispersed after placing their demands before the authorities. The second one was staged by about 200 tally clerks in front of the Port Commissioners Office, Strand Road. The third demonstration was in Esplanade East. About 300 hawkers attempted to proceed to Writers' Buildings in violation of the order under Sec. 144 Cr. P. C. demanding license to hawk goods in trains and concessional railway tickets for the purpose or alternative employment.

About 50 representatives of the Democratic Workers' Committee went from Gokhale Road to the Chinese Consulate-General on Lower Circular Road on Wednesday, the 1st April to meet the Consul-General to express their concern at the news of "conflict between Tibetans and the Chinese Army."

AN ACCIDENT: Shri Abhimanya Paramanik, a worker, aged about 35 years, succumbed to his injury on Sunday, the 29th March. The man while engaged in dismantling an improvised structure at Marcus Square got seriously hurt by a big wooden pole which fell on him suddenly.

CALCUTTA'S WEATHER WITNESSED A VARIED NATURE within recent days. Due to gusty winds coming from the south-westerly direction a thunder squall occurred in the city on the 25th March last. It was followed by a shower and a big drop in temperature. The day

AN ENTERPRISE DESERVING COMMENDATION

We have much pleasure to state that Shri Tarak Nath Chatterjee, a member of the staff of the Market Department, has obtained Master's Degree in Ancient Indian History & Culture from the University of Calcutta last year. He was a regular student of the University College devoting to study only during his leisure hours.

Inspiration from within and self-confidence had once prompted him to prosecute his studies even at an advanced age of 46 when the flow of milk and honey of an average Indian appears to be on the ebb tide.

SHRI T. CHATTERJEE

Entering the Corporation in 1931, Shri Chatterjee has been rendering appreciable amount of services in different markets. In 1938 he had the privilege of visiting Europe.

On a recommendation from the Guild Hall and with an introduction from the Lord Mayor of London, Shri Chatterjee was allowed to work in different markets managed by the London Corporation.

Though aged fifty Shri Chatterjee still aspires to add laurels to his credit and thus he has enlisted himself as a research student on the subject he has specialised himself. His enterprises are praise-worthy no doubt, and we pray for his brighter future and prosperity.

was also cloudy. A fair weather and little change in day's temperature was followed with the mercury gradually rising due to the advancement of summer. Possibility of thunder shower towards the evening otherwise fair weather, were the forecasts also.

Calcutta experienced lighting flashes and thunder claps followed by intermittent showers on Tuesday, the 31st March. From early morning the sky was overcast. The speed of the gusty wind at one time reached 40 miles per hour. Up to 8-30 P.M. the rainfall recorded in the city was 1.6 mm or .06 in. Because of squally weather air services from Dum Dum had to be cancelled.

After the heavy rain in city on Tuesday night there was an appreciable drop in temperature. The recorded rainfall was about one inch. Tram services in Tollygunge, Chitpore, College Street, Strand Road and Howrah sections were suspended for about two hours in that night because of accumulation of rain water at a number of points in these areas. Cloudy weather prevailed over the city throughout the day on the 1st April but improved towards the evening. The weather improved later on.

VITAL STATISTICS

For the City of Calcutta for the week ending
7th March, 1959.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 577 against 531 and 517 in the two preceding weeks and less than the corresponding week of the last year by 45. The general death-rate of the week was 9.55 per mille.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, BAR-AT-LAW

OUR GOOD WISHES

CALCUTTA's atmosphere was charged with fresh vigour and energy when the Corporation elected COUNCILLOR BEJOY KUMAR BANERJEE as the MAYOR OF CALCUTTA and COUNCILLOR KISHORI LAL DHANDHANIA as the City's DEPUTY MAYOR. Both of them are elected members and both have left marks of their past services to the citizens through their devotion and sincerity. Particularly the Mayor has built up his edifice of public career by laying stones on it one after another.

Councillor Banerjee is not new in this Corporation. His attachment to this Civic Body is for generations. He has inherited this spirit of public service from his illustrious grand-father, the late Rai Ramtaran Banerjee Bahadur. Personally he has crossed twenty summers to see the citizens' plight. He is also much familiar with the workings of the House.

We consider his election as a recognition of his great devotion to the cause of Civic Welfare of Calcutta and his excellent past services to this city. Shri Banerjee has the gifts and graces of a pleasing personality and a genial and urbane temperament. He is deservedly popular not only among those who have the privilege of knowing him intimately but also to those to whom he had the chance of opening his mind even for once. His election, thus is a welcome feature to all sections of community in this critical time when the city is passing through many trials and tribulations.

The present malady has already been realized by the Mayor when he remarked 'The Rate-Payers want our services and not our politics'. This inspires us to hope that under his suave guidance the differences would be liquidated in the Corporation and all will combine together to make the administration a success. With his forensic talents, he will be able to guide the most tempestuous hours of debate to reach in peaceful conclusions.

To the new Deputy Mayor, Shri Dhandhanias, we accord a similar welcome and convey our congratulations. Though he has sat on the Corporation for the last seven years still his merit had been displayed in tackling some of the main problems facing the Corporation finances. He performed creditably the duties of his office as Chairman of the Standing Finance Committee. A man with a considerable amount of ability and suppleness he can speak on any subject ranging from town planning to health matters which has always been a welcome event in the House.

We offer our hearty welcome to the new Mayor and the Deputy Mayor.

In bidding adieu to the retiring Mayor, we take the opportunity of recalling the past services of DR. TRIGUNA SEN who showed great energy and resourcefulness in dealing with the most intricate problems during the last two years. A new man was asked to adorn the Mayoral Chair and he retired with a fund of knowledge of this House rarely displayed by many. He has a career of high academic order accompanied by public service and this he placed at the services of the Corporation being ably supported by his Deputy Mayor, SHRI KESHAB CHANDRA BASU. His two years' office of Mayoralty was full of events and incidents. To both of them we offer our sincerest tribute of admiration.

SHRI BEJOY BANERJEE ELECTED MAYOR

SHRI DHANDHANIA AS DEPUTY MAYOR

CALCUTTA CORPORATION at its first meeting of the year 1959-60, held on Wednesday, the 8th April, elected COUNCILLOR BEJOY KUMAR BANERJEE as the MAYOR OF CALCUTTA and COUNCILLOR KISHORI LAL DHANDHANIA as the DEPUTY MAYOR amidst cheers and rejoicings. The Council Chamber was decorated tastefully with flowers and foliage. The oil paintings of the great leaders who adorned the Mayoral Chair in the past were also equally bedecked with flowers. As soon as the results were announced the newly elected Mayor and the Deputy Mayor were led to the Mayoral dais. Both of them were profusely garlanded by the President of the meeting and different other allied organizations including the Corporation officials. Flower petals showered on their heads. The Chamber was full to its capacity including the visitors' galleries who watched the year's first ceremonial function.

The out-going Mayor, Dr. Triguna Sen, presided over the meeting according to the convention. The name of Councillor Banerjee was proposed by Councillor Jogindra Lal Saha, M.L.C., and was seconded by Councillor Nandalal Banerjee. The name of Councillor Anil Maitra was also proposed for Mayoralty by Councillor Krishna Chandra Kundu and was seconded by Councillor Nil Ratan Sinha. Councillor Banerjee polled 49 votes against 35 by Councillor Maitra. The voting was by show of hands. The demand for voting by ballot was pressed forward earlier by Councillor Sachindra Kumar Sen and was, however, lost when put to vote. After counting, Councillor Bejoy Kumar Banerjee's name was declared as Mayor. Councillor Nripendra Nath Banerjee could not participate in voting due to his illness which overtook him a few days back.

The name of Councillor Dhandhania was proposed by Councillor Mihirlal Ganguli and it was seconded by Councillor Amulya Charan Sarkar. Councillor Chandra Sekhar Bhowmick proposed the name of Councillor Ranajit Coomer Mitter and Councillor Prasanta Kumar Sur seconded it. The result of voting was 47 to 35 votes. Two members present in the House abstained from voting. Thus Councillor Kishori Lal Dhandhania was elected Deputy Mayor.

WARM FELICITATIONS were offered to the newly elected Mayor and the Deputy Mayor by nearly three scores of members including Shri P. C. Mazumdar, I.A.S. (Rtd.), the Chief Executive Officer, who spoke on behalf of the employees. The outgoing Mayor, Dr. Sen, and the outgoing Deputy Mayor, Shri Keshab Chandra Basu, were the first and the second to extend their felicitations to them. They were followed by others. All of them praised their qualities. They hoped that as premier citizens their activities would be marked by dignity and ability. They also said that in every sphere both of them had moved, and carved out for themselves places of honour by their individual gifts and graces.

IN REPLY, the Mayor, Shri Bejoy Kumar Banerjee, said that the Councillors' duties were not making strong speeches in the Chamber and doing hardly anything else. He invited them to devote at least ten hours a day for Corporation work and said: "If you do it from to-morrow, I can change the face of Calcutta."

In his appeal to the members to stand by the Mayor irrespective of their party affiliation and discarding the feeling of majority or minority Shri Banerjee said that he did not think that the Mayorship was a decorative post. He felt that the Chair gave him opportunities to do better work.

In a reminiscent mood, Shri Banerjee recalled the dignity and solemnity of the Corporation's proceedings during the days of the Ex-Mayor, Deshabandhu Chittaranjan Das and the Ex-Mayor, Shri Subhas Chandra Bose.

The newly elected Deputy Mayor, Shri Kishori Lal Dhandhania, replied that there was no scope for opposition in the discharge of duties and responsibilities in civic affairs. The common objective was how best they could look into the interest of the rate-payers. With the co-operative efforts of all they would be able to tackle various problems and go ahead with their work, felt Shri Dhandhania while assuring his personal services to the Corporation.

Congratulating the new Mayor and the Deputy Mayor, Dr. Sen said that he would continue to assist them in all measures meant to serve the interests of the citizens, but if anything was sought to be done against the citizens in the interest of any group, he would take an individual stand. He believed, however, that the new Mayor and Deputy Mayor would serve the citizens and he would be with them.

The term of office of the Mayor and the Deputy Mayor will expire on the 31st March 1957.

The Corporation with all its departments including schools and workshops remained closed on Thursday, the 9th April in honour of the newly elected Mayor and Deputy Mayor. According to the conventions the holiday was announced from the Mayoral Chair.

'LET NOT THE HOUSE BE AN ARENA FOR POLITICAL FIGHTS'

Expressing his gratitude to the members of the House for the honour that had been conferred upon him by electing him Mayor. Shri Banerjee sought the full co-operation of the members from both the sides in the discharge of his duties and responsibilities of the high office of the Mayor. With assistance, co-operation and co-ordinated efforts, Shri Banerjee hoped many of the problems and difficulties of the civic administration could be solved effectively.

In his first speech from the Chair the Mayor said that in discharging his duties in the Corporation he would rise above party politics and treat all members equally. "Let not the House be an arena for political fights," he said. The ratepayers wanted the City Fathers' services not political ideas. Rising above party politics in future he hoped that he would be able to hold the scale. What he wanted was the good of the city and for which he had been pledged long ago and would spare no pains to render his personal services.

Shri Banerjee also recalled that he had attended this sacred as well as solemn ceremony of Mayoral elections for more than thirty occasions, even from his college days, and the Chair had never failed to promise for the well-being of the citizens. He had also seen illustrious leaders of India adorning this Mayoral Chair who had guided not only this Corporation but also the destiny of the nation as a whole. Shri Banerjee reminded his audience of Deshbandhu Chittaranjan's first address after being elected to that elevated post as Mayor of Calcutta. Shri Banerjee also acknowledged his indebtedness to

Shri Subhas Chandra Bose who first brought him in this Council Chamber in 1940. And he said 'if we imbibe their ideals truly, if we are inspired by those gallant fighters, then we must serve the rate-payers irrespective of party affiliations.'

The Mayor, Shri Banerjee, continued that the city's problems had been referred to in the House without number. There were certain types of work which could be taken up immediately without much expenditure, such as repair of pot-holes on roads, defective water mains, street lights, and others. Public complaints could be attended to promptly. He also mentioned on that occasion that water-supply and drainage were the main problems of the city which should be attended to without hesitation.

Denunciation of the administrative machinery, passing of resolutions or marches to Writers' Building, the Mayor said before concluding his speech would not solve problems of the city which were many though he was prepared to lead such marches if the citizens wanted it. The Corporation employees were ill-paid, he admitted, and without proper housing. They should be treated with sympathy. It was a wonder that the Corporation's machinery which was meant for ten lakhs of people had not collapsed when it catered to about forty lakhs. Lapses could be corrected, he added.

Concluding his speech, the Mayor said that he was aware of the difficulties of the middle class in the recent Tax Assessment. His speech was loudly applauded from all parts of the House when he renewed his pledge to look into their interests and to serve them faithfully as before.

'CALCUTTA ATTRACTS PEOPLE FROM ALL PARTS OF INDIA'

Assuring his best services to the citizens as well as the rate-payers of Calcutta, Councillor Kishori Lal Dhandhanian, the Deputy Mayor, was complacent to declare the liberal-hearted activities of the city. He also said that Calcutta was still then a living city with its bosom breathing an air of freedom and open-mindedness.

As a past Chairman of the Standing Finance Committee Shri Dhandhanian said that he would devote more time for Corporation work and if necessary give up as much of his business activities as possible.

The newly elected Deputy Mayor hoped that the Opposition would work in a spirit of co-operation. During the last six years he was associated with the Standing Finance Committee, it had passed about 20,000 resolutions and only a few of them had evoked dissension, he admitted.

Giving his personal tributes to the original inhabitants of this city, Shri Dhandhanian concluded his speech with the words that Bengalis were not parochial or provincial. 'Calcutta is a city that attracts people from all other places' he added.

FELICITATIONS CONTINUED FOR HOURS

The out-going Deputy Mayor Shri Keshab Chandra Basu congratulated Shri Banerjee on his election as Mayor and hoped that he would utilize his high position for the cause of the citizens of Calcutta.

Councillor Basu also expressed satisfaction over the election of Shri Dhandhanian as Deputy Mayor. He hoped that Shri Dhandhanian's experiences in the Corporation affairs would help much in solving many knotty problems of the civic administration.

Councillor Ganapati Sur, in course of his congratulations, said that the newly elected Mayor and the Deputy Mayor would rise above anything else to maintain the decorum of this House whom he considered to be the sole custodian of the citizens of Calcutta. He recalled the incidents which resulted in staging of a drama *স্বপ্নাঙ্কন*. He also placed his differed view of the present Calcutta Municipal Act, as found unsuitable for the purpose.

Welcoming the newly elected Mayor Shri Banerjee, Councillor Anil Maitra said that he had acquired great experiences in Corporation affairs and displayed a co-operative spirit and some understanding of the opposition points of view in his activities of the past. Councillor Maitra also extended his fullest measure of co-operation in the endeavour of serving the people of Calcutta. He hoped that he would never allow unnecessary tensions to be introduced in the administration.

HEAVY TASK AHEAD.

Continuing Councillor Maitra said that the new Mayor has been bred in the atmosphere of fighting traditions because of the fact that his grandfather had been belonged to the group of memorable *সাবাস আটাস*. He also said that the task ahead was heavy enough to test their mettle. Assuring fullest co-operation he hoped that the citizens' destiny would be guided in a right way under them.

Welcoming Shri Dhandhanía, the leader of the Opposition said that as Deputy Chairman and then the Chairman of the Standing Finance Committee he had a hand for many years in shaping the policies of the Corporation. He had thus been able to acquire considerable knowledge and experiences. He hoped that he would strive shoulder to shoulder alongside the Mayor in establishing municipal autonomy which was seriously at stake.

Councillor Dr. Parimal Kumar Sen Gupta while congratulating both the Mayor and the Deputy Mayor, hoped that both of them would rise above party politics and would look into the citizens' grievances as the civic matters had plunged deep into the darkness unknowingly.

Drawing attention of the newly elected Mayor and the Deputy Mayor, Councillor Ranajit Coomer Mitter mentioned that at least water supply, drainage and adult education should receive priority in their hands.

MAYOR ALONE CANNOT DELIVER GOODS

Offering his felicitations to the newly elected Mayor and the Deputy Mayor, Councillor J. L. Saha, M.L.C., felt that the occasion had necessitated to establish a close compactness in the House.

He hoped that this compactness would continue ere-long and divert its path towards the general well-being of this city as well as the citizens. He also told of each and every member's rights and responsibilities in this regard as the Mayor or the Deputy Mayor could not deliver the goods in their individual capacities. Councillor Saha urged for a combined endeavour in this regard.

While congratulating Councillor Sushil Kumar Roy spoke on the popularity and open-mindedness of the newly elected Mayor. He said that the House's choice in selecting a right man at the right moment was never wanting in the past and hoped that it would never be in the future. And the present occasion was no exception to that according to him.

'NOT FIGUREHEAD BUT FOUNTAIN OF INSPIRATION'

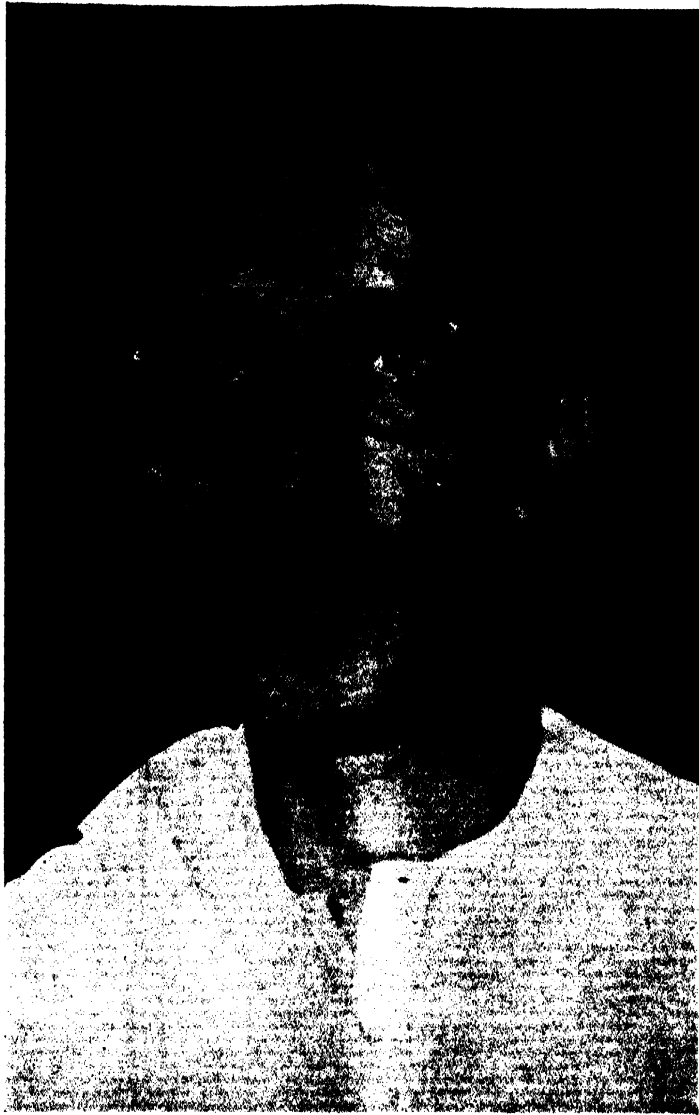

Offering his felicitations Shri P. C. Majumdar, I.A.S. (Rtd.), Chief Executive Officer, said that the Mayor was not a figurehead but the fountain from which others in the Corporation drew inspiration to discharge their responsibilities properly. Speaking on his personal behalf the Chief Executive Officer said that the Corporation officials would be placed in a more advantageous position due to the fact that the Mayoral dais had been occupied with persons having ripe experiences on Corporation affairs. And their guidance, he hoped, would lead the House to a right direction. His claim went particularly to the Mayor, the seniormost member in the House. Shri Mazumdar also paid tributes to the outgoing Mayor, Dr. Triguna Sen for his zeal in toning up the administration.

The speakers included Councillors Raj Satyendra Mitra, Naren Sen, Satyananda Bhattacharyya, Chandra Sekhar Bhowmick, Subrata Kumar Sen Sarma, Dr. Birendra Chandra Basu, Dulal Chandra Mukherjee, Mihirlal Ganguli, Abdur Rouf Ansari, Dr. Sukhabehari Mukherjee, Budridas Burman, Devaprosad Chatterjee, M.L.C., Sudhangshu Sekhar Mitter, Pannalal Das, Shiv Kumar Khanna, Panchanan Sarkar, Gahar Alam Shami, Harinarayan Sadani and others.

THE SENIORMOST MEMBER ADORNS THE MAYORAL CHAIR

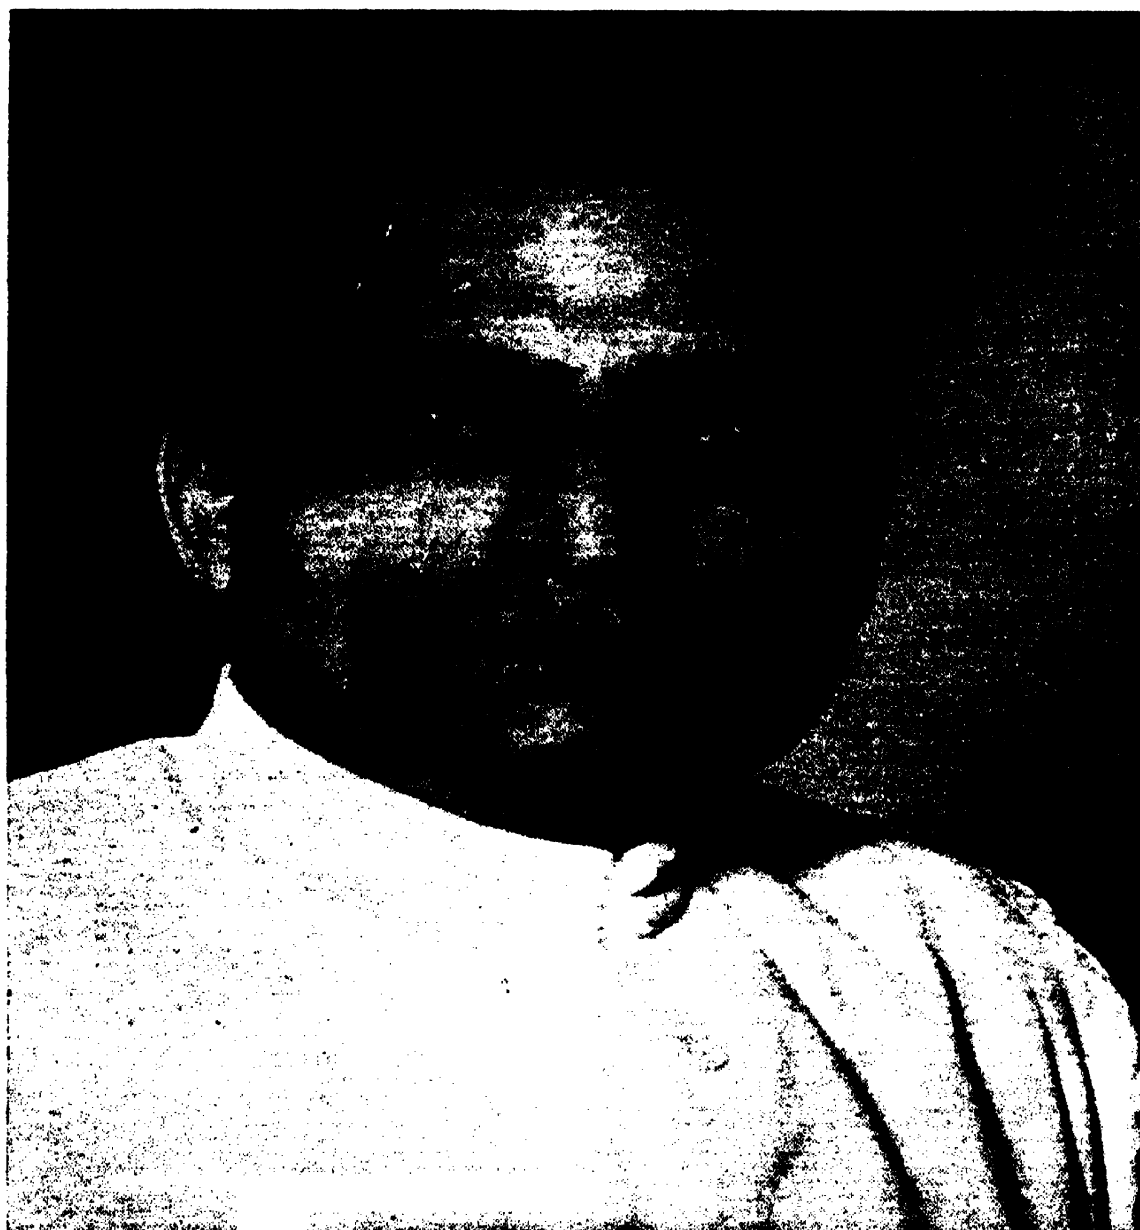

THE newly elected Mayor, Shri Bejoy Kumar Banerjee, claims the seniormost position in the present House. He is also one of the senior members in the Alipore Bar practising in the Judges' Court for the last thirty years. First entering the Corporation in the year 1940, he has the chances of knowing this institution thoroughly and intimately. Even before that he acquainted himself with its activities under the care and guidance of his grandfather the late Rai Ramtaran Banerjee Bahadur, then a prominent citizen as well as a leading member of the Calcutta Bar. Moreover, the late Rai Bahadur was attached to this institution for long 42 years, at first as a Commissioner and later on an elected Councillor. Besides, he was the Chairman of different Standing Committees. Many of Shri Banerjee's uncles were also elected members of this House. His father the late Shri Sushil Kumar Banerjee was an employee of the Corporation.

Shri Banerjee's election in the Corporation was not so smooth sailing on the first occasion. He had to face a stalwart like the late Shri B. C. Chatterjee, Bar-at-Law. Since then he had been seeking election from the same constituency namely No. 59, as a nominee of the Congress Municipal Association and his election was little disputed later on. His long continuity except a few years of supersession period, has enabled him to grasp the Corporation affairs unequivocally. During these years the present Mayor has served a number of Standing Committees and Special Committees. When the new Corporation was set up in 1952 the House found in him a strong hand to tackle many of its problems and intricacies. And he was taken in many of the important Committees. He was the first Chairman of the Standing Water Supply Committee, set up in 1953. He was also the Chairman of the Standing Buildings Committee till the other day. As the senior member his

Calcutta's New Mayor
SHRI BEJOY KUMAR BANERJEE

THE CALCUTTA MUNICIPAL GAZETTE

**Calcutta's New Deputy Mayor
SHRI KISHORI LAL DHANDHANIA**

opinion and advice were sought for whenever such occasion arose. He had represented the Corporation in different institutions and organisations. Last year he was elected as a Trustee of the Calcutta Port Trust from this House.

The outstanding quality of the present Mayor is his intimacy and acquaintance with not only the people whom he had pledged to serve but also to citizens living throughout. This popularity he has earned and gained by his simple manners, suave behaviour and lovely appearance. It would not be exaggeration if we say that this has placed him in an un-enviable position. That is why he

was chosen to fight last year a Bye-election for an Assembly seat in his locality, the Bhowanipur Constituency.

In the Corporation also he is a popular figure both among the members as well as among the officials. He never has hesitated to put up the grievances of the rate-payers nor he has undermined the cause of the employees. This has, no doubt, paved his way towards the Mayoral Chair.

Born in this city in 1904, Shri Banerjee had his education in this city. He was graduated in Science from the St. Xavier's College in 1924 and joined the Alipore Bar in 1929.

SERVICE & SINCERITY PAVED HIS WAY TO BECOME DEPUTY MAYOR

BORN in 1913 Shri Kishorilal Dhandhanial had his education at Amraoti, Rajasthan. But his family had settled in this city long ago. The young Dhandhanial started his business life in this city and soon built up his career here in different spheres of business field. Gradually he spread his field of activity and became the Deputy Chairman of the Bharat Chamber of Commerce, an association of Calcutta merchants and businessmen. Soon he became its Chairman which post he continued for years un-interruptedly till this year. His Chairmanship brought many concessions and other privileges to its members due to his able guidance and care.

shown much talent and efficiency for the improvement of Corporation finances.

As a man of amiable disposition and gentle manners Councillor Dhandhanial is being loved and endeared by all. Kind-hearted and open-minded Shri Dhandhanial has always enjoyed trust and confidence from all hands. The employees of the Corporation still have faith in him and they hope that his experiences and wider knowledge on the Corporation finances would sure to deliver goods for them in the shape of improving their lots.

Shri Dhandhanial's election as the Deputy Mayor has proved that sincerity of purpose and matured knowledge lead one to rise on the occasion for the good of the people. And in that Councillor Dhandhanial's life is a glaring example. At the same time the citizens have displayed a kind of liberal-mindedness in electing one to that elevated position who is not a son of the soil.

NOTICE

'THE CALCUTTA MUNICIPAL GAZETTE' will not be published for the next week viz., the 18th April, on account of Chaitra Sankranti and Bengali New Year Holidays.

The Market Prices Current will, however, be issued on that date

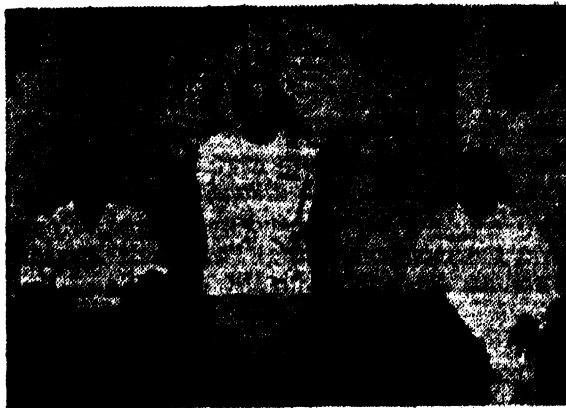

The next issue of the 'Gazette' will appear on the 25th April, 1959.

Shri Dhandhanial first started his public life within the fold of his own community, Marwaris, to which he belonged. And later on he was acquainted with others to become a Corporation Councillor. In 1952 he was elected for the first time. In 1957 he was re-elected to the House. And on both the occasions he had to face contests from his rivals.

In 1952 Shri Dhandhanial became the Deputy Chairman of the Standing Accounts Committee. But a larger field awaited him. Becoming a member of the Standing Finance Committee in 1953 he was elected as its Deputy Chairman at the same year and which post he held till the end of 1956-57. After the general election Shri Dhandhanial was elected unanimously as the Chairman of that Standing Finance Committee. By his untiring zeal, energy and other qualities he has brought a new outlook in tackling Corporation finances which was so long considered to be a tough job. A balanced budget for the Corporation was his ideal for which he had endeavoured long six years, the period he was associated with that Committee. Besides, he has

INTER-NATIONAL HAHNEMANNIAN SOCIETY

ATTENDED by many of the city's medical practitioners following the science of Homeopathy and an equal number of lovers and admirers of that branch of medical science, a paper on "SCIENTIFIC RESEARCH OF HOMOEOPATHY IN INDIA" was read by Dr. S. Seal, President of the Indian Homeopathic Research Association (sitting below on right),

at a Conference of Homeopathic physicians. It was held about a month hence in the Municipal Museum Hall, College Street Market, central part of the city. After the illuminating speech was appreciated by all Dr. D. K. Roy (speaking above) concluded the Conference with his timely remarks. Among others present Dr. P. B. Chakravarty is seen sitting on the left in the picture above.

Deaths & Reviews

PUNDIT BIDHUSEKHAR SHASTRI DEAD

With the passing away of Pundit Bidhusekhar Shastri, Calcutta nay the country as a whole, has lost one of the renowned Sanskrit Scholars. His massive learning on oriental studies had received admiration and appreciation not only in this country but also in abroad. He made commendable research work in Pali, Prakrit and Tibetan languages. He was an authority on the Buddhism and wrote a number of books on it. Thus his death has created a void in the field of oriental scholarship which is not likely to be filled in the near future.

The end came at his Gariahata residence, South Calcutta, after a brief illness on Saturday, the 4th April last. The death was due to Cerebral Haemorrhage. On receipt of the sad news many of his pupils and admirers, and distinguished persons attended the funeral. He was 82.

Born of a Brahmin family of Malda in 1877 with traditional oriental culture the late Mahamohopadhyaya was attracted in his early life to Sanskrit which he studied deeply and comprehensively. He then went to Benares to study the Hindu Philosophy and came in intimate contact with many of the erudite scholars there and from whom he drew added inspiration. Subsequently he came to Viswa-Bharati, Santi-Niketan, where he spent nearly three decades as a colleague and close associate of Rabindranath Tagore. He was the Principal of the Vidya Bhavan, Santi-Niketan, for long. As the Head of the Sanskrit Department of Visva-Bharati University, he came in contact with such well-known Professors as Sylvain Levi, Winternitz, Lessy, Germanus and others who came to Santi-Niketan and worked with him. His contributions in building up a University there, were immense.

The late Mahamohopadhyaya also held the Chair of Asutosh Professorship of Sanskrit in the Calcutta University for some time. Furthermore, he presided over the Vedic Section of the All-India Oriental Conference held in Patna and also over the 150th Anniversary of Government Sanskrit, College, Benaras.

On the occasion of the last Independence Day the late Mahamohopadhyaya was honoured by the Government of India with a *Sanad*, a life-time grant of Rs. 1,500/- per annum and a Robe of Honour. He was the recipient of the "Padmasree" award in 1958 for his outstanding literary contributions.

But the highest honour conferred on this great savant was during the centenary celebrations of the Calcutta University when he was admitted to the Doctorate Degree in Literature *Honoris Causa* in 1957.

The late Mahamohopadhyaya's death was mourned from all quarters and from all walks of life.

The Corporation, at a later date, paid eloquent tributes to his memory. The Mayor described his

death as a distinct loss not only to Bengal alone but also to India as a whole. The House acknowledged with gratitude his outstanding contributions in the field of Oriental learning and scholarship while it expressed its deep sense of sorrow at the death of that octogenarian savant. It prayed for rest and peace of the departed soul.

We also extend our sincerest condolences to the members of the bereaved family.

DEATHS & DISEASES IN THE CITY

Although the city had passed through a period of apprehension with the approach of an epidemic season, still the number of attacks and deaths from those diseases were comparatively less this year.

Attacks and deaths from cholera during the latter fortnight of February last in the city numbered one in each case. There were only two cases of attacks from small-pox and deaths were two during the same period. 65 persons died of Tuberculosis altogether during the last half of February. Typhoid tolled five lives while Malaria caused one death during the same period.

Altogether 1048 persons died from all causes during the last fortnight of February.

During the four weeks of March ending the 7th, the 14th, the 21st and the 28th attacks and deaths from cholera totalled 14 and 8 respectively. Attacks from small-pox during March last numbered 12 and deaths were 10 respectively.

13 persons died of Typhoid while Malaria caused three deaths during the same period.

Tuberculosis was responsible for 136 deaths during the month of March last.

Deaths from all causes totalled 2,119 during the four weeks ending the 7th, the 14th, the 21st and the 28th March last.

Attacks and deaths from cholera in the city during the week-ending the 4th April were three and two respectively against 132 and 59 respectively during a similar period last year.

Small-pox attacks and deaths numbered one in each case during the above week against 14 attacks and the same number of deaths during a corresponding period last year.

Tuberculosis tolled 35 lives during the week ending the 4th April last against an almost same number during the corresponding week last year. Six persons died of Typhoid during the above period against eight last year's similar period.

509 persons died of all causes during the first week-end of April against 649 deaths during a corresponding period last year.

MY EXPERIENCES IN CORPORATION

(By Ex-Mayor Dr. TRIGUNA SEN)

When I started in the Corporation, all the experience of life and men that I had, were confined within the four corners of educational institutions. Public service in a wider sense was a new thing to me even then. Still my contacts and impressions gathered in several spheres of activities connected with the affairs of the Corporation might be of interest to others.

My first attempt was a visit to the Ministry of Finance, New Delhi, to whom I approached for two matters, viz., (1) Drainage and augmentation of Water Supply of the city, and (2) Housing for the employees of the Corporation. I was surprised to find that the Minister concerned readily agreed to sanction a loan of Rs. 2.25 crores to implement the Corporation's Scheme of Drainage and augmentation of Water Supply and also to sanction another sum of Rupees Two Crores for the housing of Corporation employees. In Delhi when I came in contact with the Ministers of Finance, Housing and Health, I found how eager they were to help the Corporation in those matters. During my second visit to Delhi I was again helped to solve the difficulties of foreign exchange standing in the way of implementing the Corporation Schemes. The Minister of Steel & Mines was found ready with his plans for supplying steel plates for the Corporation's requirements.

FARAKKA BARRAGE—A VITAL POINT

The vital importance of the Farakka Barrage Scheme and its absolute necessity for removal of salinity of the Ganges water and for saving the Port of Calcutta had already been fully realized by the Minister of Health as well as by the Prime Minister and by the Foreign Agencies like Technical Mission and the World Health Organization who were all eager to help the city in this regard. The Minister of Relief and Rehabilitation was also found to be sympathetic towards the development of the Squatters' Colonies and establishment of a Chest Clinic in Tollygunge area where the concentration of the refugees had been the highest.

GOVERNMENT HELP ASSURED

Much against the wish of many of the Councillors I tried to create a convention by meeting every month the Minister of the Local Self-Government Department, West Bengal, to settle across the table many problems confronting the administration of the Corporation which otherwise dragged on for months without a solution or settlement. Many problems of the Corporation pending with the Government were solved through the monthly meetings attended by representatives from both sides.

The West Bengal Government professes to be with the people, for the people, and by the people. I have a feeling that the Government thinks that since only 25 per cent of the popu-

lation of the State live in the cities, the necessities of the city must be the concern of the rate-payers. This angle of vision resulted in many plans of the Corporation which were to be routed through the State Government to the Central not getting the required attention of the State Government. Secondly, the Corporation cannot do anything to give relief to the tax-payers particularly to the middle-class families for the reason that the State Government is apprehensive that if the Corporation coffers are depleted through giving relief to the tax-payers, the Corporation might make demands on the Government for financial aid or might put forward claims for shares on some of the taxes which are now levied and appropriated entirely by the State Government. The Government would be well advised to consider that the problems of Calcutta are not the problems of the rate-payers alone, nor have those problems been created by them. Many of these problems are of a national character, often created by the State Government or through larger national causes and policies.

KNOTS UNITED

There was a deadlock between the Corporation and the Municipal Service Commission on different issues. I met the Chairman of the Municipal Service Commission a few times and was able to solve many knotty problems and to re-establish a friendly relation between the Commission and the Corporation.

So long as the Corporation has to work within the limits of the Calcutta Municipal Act, I feel that the Corporation will do well by maintaining good relationship with both the State Government and the Municipal Service Commission.

Against the past conventions I attended several meetings of the different Standing Committees. I have great pleasure to state that the Chairman and the members of the Standing Finance Committee were so accommodating and co-operative in spirit towards me that whenever I attended the Committee meetings on specific items for the augmentation of water supply, for solving the drainage problems, sinking of big-size tube-wells in bustees, or for allotting more funds to the under-developed areas or for sanctioning housing schemes for Corporation labour, to name only a few of the items, I was always given a favoured treatment for which I am extremely grateful to the Chairman and the members of the Finance Committee. I am also grateful to the Chairman and the Members of the Works Committee which I attended particularly for the improvement of the conservancy services in the city in order to introduce house-to-house collection of garbage. The members of the Committee were very prompt to take necessary action in the matter and also in other matters for which I pleaded with them, such as, appointment of *rikshi* gangs and special gangs for cleaning sewers.

I also took opportunity of attending the meetings of the Education Committee and joined in their deliberations to house Corporation schools in our own premises instead of, as at present, in rented houses as most of which are unsuitable for the purpose. I am grateful to the Chairman and the members of the Committee for the courtesy shown to me. I also joined the Standing Health Committee in their deliberations concerning drives against epidemics and I have had the full co-operation of the Chairman and the members of the Committee for which I thank them. I had also the good fortune to work with the Chairman and the members of the Markets Committee during the Pujas and I had had the pleasure of working with a band of selfless workers, the young Councillors of that Committee. I cannot but thank the Chairman of the Standing Town Planning and Improvement Committee, who accepted all my requests to provide accommodation for the Chest Clinic in Baghbar and allotting plots of land to different charitable institutions.

AN ACT DESIGNED TO PLAY RED-TAPISM

The question thus arises that if I have had the good fortune of obtaining the co-operation, sympathy and help of all the members of all the Committees, how was it then that the progress of different items of Corporation work was negligible. To my mind, this is due to two things: (1) the provisions of the Calcutta Municipal Act, 1951, and (2) the present administration of the Corporation. I have a feeling that the whole Municipal Act of 1951 was drafted in an atmosphere of suspicion and lack of confidence on the representatives of the people by the Government. This is an Act designed to give the fullest play to red-tapism. It takes two long years for a scheme to start on its implementation. So also is the case with regard to the appointment of staff in the higher ranks. I approached the State Government with request to see if the procedure could be simplified. The matter is still under their consideration.

'ADMINISTRATION IS VIRTUALLY DICTATORSHIP'

Secondly, this Act has provided an administration which is virtually no better than dictatorship. Power spoils a man, and absolute power spoils a man absolutely. Nowhere in the world one comes across this spectacle as provided under the present Municipal Act of 1951 that a man who fixes the tax is also the final authority for disposing of objections thereto. This procedure is bound to bring in favouritism and nepotism and is one of the major causes why we find to-day crores of rupees lying as unrealized arrears. Similarly, the other provisions of the Act have vested one individual with absolute powers to distribute favours to whomsoever he pleases, thereby creating a vicious circle. And, when he is caught in his own nets, a dictator is obliged to introduce a policy of divide and rule in his administration and to muddle in group politics in order to maintain his position.

To cite a few concrete instances as to how this improper exercise of power undermines discipline in an administration, I will make a passing reference to a few cases of recruitment. We have a vast array of able, qualified and experienced teachers; now,

how would they feel when they find a number of people, who are not even carrying the same privileges and responsibilities who do not possess even the minimum specified qualifications? How could you expect a sweeper to do his duties cheerfully when he finds that a Mukherjee or a Chatterjee who is never to be seen to sweep anywhere, or who is perhaps working elsewhere and coming to draw his salary along with the genuine sweepers? When a large number of people who are working for years in temporary capacity see that new people with no better qualifications than they have are being appointed permanently over their heads, how can we expect solid, good and contented services from them? Can any one reasonably expect faithful and honest services under such circumstances, or can there be any discipline in an organization where such conditions prevail?

A COUNCILLOR'S TEDIOUS JOB

A Councillor unlike a Member of the Legislature, has to face from dawn to dusk thousands of complaints from his constituents regarding their inconvenience as well as requests from them, sometimes undue requests. The success of a Councillor is to be measured by how far he can remove or remedy the people's inconveniences and comply with the requests of his voters. But here he is absolutely in the hands of the administration. Then again, each Councillor is naturally zealous to see that his Constituency gets the prior consideration for measures to improve conditions there, even in preference to other Constituencies. And due to distrust among fellow Councillors and between the Councillors and the administration, we often fail to come to any practical and workable formula concerning many matters of vital importance to civic administration.

In this connection, I may recall an experience of mine. Once I met all the Councillors of the under-developed areas in the city and tried to evolve a scheme for the development of these areas, and I proposed that instead of haphazard and piecemeal work we should perhaps concentrate on, say, water-supply in Ward X, drainage in Ward Y, roads in Ward Z, in the first year, and reverse the order in the second and subsequent years. But unfortunately, we could not come to any decision as I could not guarantee that the agreement would be honoured in the years following. I am afraid, party politics are at the root of this distrust and uncertainty.

PRESS & PEOPLE'S ROLE

There is no denying the fact that certain sections of Press and the people are very bitter about our bonafides; they would prefer to have the Corporation superseded and run by an Administrator. I tried to ascertain the reasons for their antagonism towards us. I was told point-blank that we came here to utilise this institution for our personal interests, that we reclaimed our own private lands at the cost of the Corporation, that we gave Corporation contracts to contractors favoured by us, that we gave jobs to our supporters, relations, etc. I do not know how far these allegations are true. There may be one or

two amongst us who carry favour with the administration and who profit by their mutual good relationship, but I can assert with all sincerity at my command that they do us a wrong by painting all of us with the same brush.

CORRUPTION CORRUPTS A PART ONLY

One subject, however, is of such importance that I must make special mention of it. When I took a full view of the wide world I found that corrupt ways and practices had become the usual and general vogue of the times. One finds it everywhere and in almost all the institutions. But while admitting the existence of corruption we should not be blind to the basic fact that corruption corrupts only a part and not the whole organization. Were not the majority of the people intrinsically good and honest, the picture of the world would have been altogether different from what it was recently. In this Corporation also were not the rank and file good, it would have been impossible to live and survive in this city with its complex problems. It is my belief that unless the top administration can command love and respect of those below, unless there be justice and fairplay in matters of appointment, promotion and distribution of allowances, and unless systuned to the service of the citizens are introduced in all its departments, we cannot expect the organization to be clean.

A PLEA FOR RE-ORGANIZATION

Members of different Committees formed to re-organise different departments, and they worked hard. My thanks are due to them. I hope their suggestions would be implemented. I consider that I received my greatest reward from the workers of the Corporation when I was told by their leaders that no injustice had been done to any one during the last few months at the whims of any individual. Most sincerely I thank all the employees of the Corporation, from whom I received nothing but love and good wishes. Let them live and serve in peace and harmony.

POWERS, POSITION AND FUNCTIONS OF MAYOR

Last thing I will touch upon is the powers, position and functions of the Mayor in the present set-up. Every day I used to receive several letters from the citizens complaining about municipal services to their houses or in their localities. Most of them wrote to me after they had failed to receive any relief from the administration. I, in my turn, sent those letters to the respective departments for reports and with a request to attend to the grievances and complaints. The reports called for. I was told, were sent to me through the Commissioner, but unfortunately, they never reached me, nor could I ever know the action, if any, which was taken on my request. Naturally I could not reply to the letters of the citizens. On enquiry I was told that the Mayor was just a figure-head whose only function was to preside over the meetings of the Corporation; that he had no executive function; and as such, those reports and papers were not returned to me. A nice position indeed for the Mayor of Calcutta! This is the Calcutta Municipal Act of 1951 under which I had to labour hard for about 1½ years of my two years' stay. I am glad that that attitude has changed and I had the fullest co-operation from the Chief Exe-

cutive Officer. No word is sufficient to thank him for his logical and rational outlook and his sense of justice and fair play.

People are apt to compare the Corporation services of Calcutta and Bombay. I would only request them just to compare the two Acts, as well as the service conditions of the Commissioners of the two Corporation, and then come to a judgment.

CORPORATION IS A TRUST FOR CITIZENS

Corporation is a Trust of the citizens of Calcutta for the benefit of the citizens. Without their co-operation, the Trust cannot do its duties. How can we elicit their co-operation when they come here for relief but receive harassment in return, when with the increased burden of taxation the middle class families are being compelled to sell off their abodes and take shelter in slums, when they are being asked to pay heavy taxes, and they are not getting even the minimum amenities of civic life? The present Act must be thoroughly amended in this regard.

-ALL INDIA CONFERENCE FOR AFRO-ASIAN SOLIDARITY

(Continued from Page 547)

A number of important citizens including Prof. Hiren Mukherjee, M.P., Dr. Nalinakshya Sanyal, Shri Amar Bose, M.L.A., Shri Shibnath Banerjee, Shri Vivekananda Mukherjee, Editor, 'Jugantar' and others spoke on the significance of the Afro-Asian solidarity in maintaining world peace.

SECTIONAL CONFERENCES

The Political Commission held in that connection unanimously adopted a resolution on Saturday, the 4th April last, suggesting that the Heads of the Afro-Asian Governments should consider the possibility of convening another Afro-Asian conference to assess the present world situation. The resolution stated that solidarity among Afro-Asian people had gained momentum and that its strength could no longer be ignored.

Dr. Anup Singh, M.P., presided. Among those present were Prof. Hiren Mukherjee, M.P., Shri Sunil Das, M.L.A., Shri Suhrid Mullick Chowdhury, M.L.A., and others.

The Economic Commission adopted a resolution on economic colonialism and economic backwardness of the Afro-Asian region. It felt the need for a permanent organization to promote international co-operation and development of the region.

The Cultural Commission also recommended that steps should be taken to organize Tagore Birthday Centenary celebrations in all Afro-Asian countries.

The Trade Union Convention in a resolution, moved by Shri Jatin Chakravarty, M.L.A., expressed solidarity with the workers of all Afro-Asian countries. It stated that only a contended working class, secured in its rights and free from exploitation, could provide a sound foundation for the reconstruction of the national economy in under-developed countries.

Besides, there was a Women's Convention which emphasized to give light in the dark world and to have equal rights of women with their male counter-parts in social, political and other spheres.

THE EX-MAYOR, DR. TRIGUNA SEN, WELCOMES THE DELEGATES

The President, Shrimati Rameswari Nehru sitting in the midst of foreign observers who attended the Conference. Among others present are Dr. Suniti Kumar Chatterjee, President, West Bengal Legislative Council, Dr. Anup Singh, M.P., Shri Jyoti Basu, M.L.A., Alderman Bejoy Singh Nahar, M.L.A., Shri Vivekananda Mukherjee, Editor 'Jugantar', Dr. Pratap Chandra Chunder, Secretary, Reception Committee. The packed up visitors' gallery also includes several Aldermen and Councillors.

All India Conference For Afro - Asian Solidarity Four-Day Session Concludes With A Big Maidan Rally

CALCUTTA had the unique privilege of holding an All-India session wherein peace prospects of the world were once again re-iterated by cementing the solidarity of Asian and African countries. Delegates from different States of India numbering nearly 1,700 and a larger number of visitors attended the inaugural session held in the Mahajati Sadan Hall, Chittaranjan Avenue, northern part of the city on the 2nd April last. The session concluded with a big mass rally at the foot of the Ochterloney Monument, Calcutta Maidan, on Sunday, the 5th April. It was followed by a mile-long procession parading over the main streets of the city.

The first Conference was held in Hyderabad about two years back.

A large number of observers from foreign countries, including those from Bulgaria, Ceylon, China, Italy, Iraq, Japan, Cameroon, Soviet Russia and Pakistan participated in the Conference. All of them brought messages of goodwill and peace from their respective lands and expressed them both on the inaugural day as well as in the concluding session. Thus they acted as fraternal delegates. Besides, the Ambassadors to India, of the United Arab Republic, the Mongolian Peoples' Republic and members of the foreign Consular staff were present on the inaugural day.

Messages for the success of the Conference as well as for world peace were received from important personages and world figures. The Soviet Prime Minister's message believed that the Conference would thwart the evil designs of the imperialists and war-mongers to keep weaker nations in subjugation. Read out before a largely attended open-rally on the concluding day it was cheered by all.

Others read included one from Mr. Chou En-lai, Prime Minister of the Chinese Peoples' Republic, assuring that the people of China would fight shoulder to shoulder with the people of India in safeguarding the principles embodied in the *Pancha Shila Charter* and on the Bandung resolutions.

That meeting also heard delegates from various countries of Asia, Africa and Europe emphasizing closer relationship amongst peoples to force colonial powers yield ground and to halt new imperialistic aggressions.

On the first day, a message from Dr. Sarvapalli Radhakrishnan, the Vice-President of the Indian Union, stated that Asia and Africa had wished to meet the rest of the world on a basis of equality.

Presiding over the Conference, Shrimati Rameswari Nehru made a strong plea for declaring Asia and Africa 'Atom-Free Zones' where all nuclear tests should be stopped, and manufacture and stock-piling of nuclear weapons banned.

The Ex-Mayor, Dr. Triguna Sen, the Chairman of the Reception Committee, said: "We have no doubt, every sympathy for our great neighbours and friends, the Chinese, but our heart goes out to the Tibetans also in their great distress."

There were sectional conferences also during the intervening days wherein political, social, cultural, economic and other aspects of the nations were discussed so that the world might meet at a common platform participated by all.

The Inauguration Ceremony was preceded by the opening of an Exhibition by Shri Tarasankar Banerjee, M.L.C., the well-known litterateur in the University Institute Hall, central part of the city. The Exhibition depicted the life and culture of the peoples of Asia and Africa, their struggle for independence, the history of the development of the Afro-Asian solidarity movement and others.

A cultural programme inaugurated by Pandit Onkarnath Thakur was arranged after the open-air rally. The Conference ended formally with the presentation of dance recitals by the I.P.T.A. group.

NUCLEAR WEAPONS STILL HANG OVER OUR PEOPLE

SHRIMATI NEHRU, in her speech, said that the threat of nuclear weapons was still hanging over the heads of Asian and African people. The East Asian Military bases in Okinawa, Thailand, South Korea and Taiwan, equipped with nuclear weapons were threatening the weak nations. She demanded stoppage of all kinds of tests for devising destructive weapons as well as banning of the manufacture, stock-piling and use of all nuclear weapons.

Referring that the bilateral treaties between the U.S.A. on one side and Iran, Turkey, and Pakistan on the other had assumed new forms, the President described them as forces of violence. "This has brought the danger of war to India's doors" she assumed. The military Government of Pakistan was constantly issuing disturbing statements. All this had caused great anxiety to the people of India and "we have to be alert". She pleaded for a better understanding between the two neighbouring countries.

Referring to the distressing situation in Africa Shrimati Nehru said that the whole of that ancient land was in a state of acute turmoil. Algeria, Cameroon, Nyasaland, Congo, Uganda, Kenya and Togoland and practically all dependent countries were in revolt. They called for support.

The President appealed to the people and Governments of Afro-Asian countries to recognise the provisional Government of Algeria. To the United Nations Organizations her appeal was to wake up to a sense of their primary objectives, which once pledged to protect the weak nations. Criticizing the organization's policy she said that the scales of their judgments were biased on the side of the strong.

Passing references to the recent happenings in Tibet were also made both by Shrimati Nehru and by Dr. Sen. Both wanted a happy settlement of the issue.

Shrimati Nehru expressed the hope that the Tibet Autonomous Region would soon march forward to progress hand-in-hand with the other parts of the Chinese People's Republic.

PEOPLES' STRUGGLE AGAINST COLONIALISM

Welcoming the delegates and guests, the Chairman said that the peoples of Asia and Africa, while struggling against colonialism and domination of any kind, looked particularly towards India to give them that moral and material support which was expected from a country holding a vital position in world affairs. The voice of the Indian people could be of great value to each of the peoples in their battles. 'Let the voice of India ring out in solidarity with the brave people of Algeria, Cameroon, Nyasaland, Congo, Kenya, Uganda, Angola and Monambique, Oman, West Iranian and Goa', said Dr. Sen.

The Ex-Mayor also said that this city had seen recently spontaneous demonstrations of friendship and sympathy for other people, whenever they had become victims of aggression and violence. The citizens had felt genuinely concerned for the righteously indignant on behalf of Hungary, Lebanon, Algeria, and Jordan, he continued.

On behalf of the Reception Committee, the Ex-Mayor welcomed all in the struggle against very sort of domination by another people, against war on any pretext, as common partners in the great victories which India had just won while others were still winning, for the sacred cause of Liberty, Progress and Prosperity.

Speaking on the ideal of Universal Brotherhood and International Peace which once spread from the heart of this city, the Rector of an University said that formation of a world community was first emphasized by the Poet Rabindranath Tagore. Even at the age of twenty he criticized against the vicious Opium War staged by Britain against China.

Shri Jyoti Basu, leader of the Opposition in the State Assembly, on the first day said that occasions on which all parties could unite were relatively few. The question of independence of African and Asian nations provided such a rare occasion. And he thought that Indians liquidating their political differences would speak from the same platform.

Alderman Bejoy Singh Nahar, M.L.A., declared that the Afro-Asian nations would not rest content till the last man on their soil was liberated.

MAIDAN RALLY

In that mass rally on the 5th April, Dr. Anup Singh M.P., referred to the happenings in Tibet. He said that nothing should be said or done which might impair the age-old friendship between India and China. This was a corner stone of the greater Afro-Asian solidarity and a powerful factor for world peace, he emphasized.

Mr. George Prinsky from Bulgaria said that the U.S.-Pak military pact and the Baghdad Pact were not defensive pacts. They were designed to weaken Afro-Asian solidarity.

Dr. Thampiah of Ceylon said that the British Government was doing all in its power to create dissension among the peoples of the Maldives.

China's representative, Mr. Chin Chung Hua, said that India and China would make unswerving efforts to maintain peace and to strengthen the Bandung principles.

A representative of Japanese people regretted for his Government's policy in not participating in the Bandung and other Afro-Asian conferences.

A BIG DIA. TUBE-WELL IN DHAKURIA AREA

THE acute scarcity of drinking water in Dhakuria area within Ward No. 77 was expected to be lessened to a certain extent when a big size tube-well was put into commission at the junction of K. P. Roy Road and Sarat Ghosh Garden Road, by the Ex-Mayor, Dr. Triguna Sen, on Saturday, the 4th April last in presence of a large number of citizens. The site is about a mile away from Dhakuria Railway Station on the eastward direction, a remotest corner of the city.

Referring to the acute water supply problem faced by the citizens, Dr. Sen said that sinking of tube-wells meant only temporary solution of the difficulties. Steps had also been taken to tackle the problem permanently by laying the new 72 inch Pulta-Tallah main. If everything goes well the water supply question might be solved permanently within the next five years, the Ex-Mayor hoped. But he could not foresee any definite time when it might be possible for the city to get rid of another acute problem, namely drainage.

The Ex-Mayor also said that over 70 such tube-wells had already been sunk in different parts of the city (photo above).

RAILWAY WEEK IN CITY

Inaugurated through a meeting on Friday, the 10th April, the authorities of the Eastern Railways observed Railway Week within the compound of the Divisional Office, Sealdah. 'Help us to protect your own Railway' said a poster displayed by the Protective Force there. An art and handicrafts exhibition, opened in Clemi Browne Institute, Sealdah, and a tattoo in which about 200 R.P.F. men participated were other features of the function.

Dr. Kalidas Nag, as Chief Guest, said that there had been phenomenal improvement in the Indian Railways during the last ten years. He congratulated the authorities on providing increased amenities for third class passengers.

Shri Kripal Singh, General Manager, said that the Eastern Railway carried 43 million tons of goods and 184 million passengers in 1958-59. The Week was being observed to ensure closer contact between railwaymen and users and polite and prompt service to the travelling public.

The South Eastern Railway's celebration of the Week was inaugurated by its General Manager, Shri G. P. Shahani, at the Railway's headquarters, Garden Reach, south-western part of the city on the same evening.

In a broadcast message through the All-India Radio, Calcutta Station, Shri Kripal Singh, announced on that day that work for electrification of the Sealdah-Ranaghat and Sealdah-Bongaon sections would be taken in hand after the work on the heavily congested sections on Grand Chord was completed. He also emphasized that electrification of these two sections was the only way to increase the frequency of service.

The Mayor, Shri Bejoy Kumar Banerjee, thought that very little would be done by sinking a single tube-well in that part of the city which needed larger numbers. Shri Banerjee as a former Chairman of the Standing Water Supply Committee, also narrated the difficulties he had experienced in implementing water supply schemes in the city.

Shri P. C. Majumdar, I.A.S. (Retd.), Chief Executive Officer, was complacent of whatever had been done in this regard. 'This little would go a long way as a stepping stone for future progress', remarked the President of the meeting.

Councillor Anil Maitra and others also spoke on the occasion.

In welcoming all Councillor Nripendra Nath Banerjee, Chairman, Borough Committee No. 16, said that the new tube-well would give some amount of relief to the people of Roypara of Dhakuria only. He also equally felt for a larger number.

NEW ENTERPRISES OF CORPORATION VACCINATORS' ASSOCIATION

SERVICE to humanity have prompted a large number of vaccinators to undertake a kind of extra work for completing the mass vaccination drive in the city efficiently and effectively. The Association itself has inspired a large number of its members to work even at night to catch the foothold of those who could not be pursued even at day

time. The beggar population in the city as well as a large number of footpath dwellers are examples of such nomadic race. The above picture shows the members of the Association inoculating a batch of footpath-dwellers at mid-night about a month back at the crossing of Hazra Road and Syamaprasad Mookerjee Road, southern part of the city.

Such enterprises should receive appreciation on all hands.

CITY-NEWS-PARADE

OBITUARY. Dr. Ranjit Sinha, a well-known physician and Secretary of the Indian Journal of Medicine Guide, died at his city residence on Saturday, the 4th April last. He was 52.

The death of Shri Manmatha Nath Ghosh, the veteran litterateur and biographer, occurred on the 7th April. He was the grandson of the late Shri Girish Chandra Ghosh, Founder-Editor of the 'Hindu Patriot' and the 'Bengalee', and son of the well-known poet Late Shri Atul Chandra Ghosh.

Born in 1884 the late Shri Manmathanath Ghosh was educated in the Central Collegiate School and General Assembly's Institution. He showed efficiency particularly in Mathematics and soon interested himself in Mathematical research holding office in Indian Accounts Department. He was better known among the writers of Bengal. He devoted his whole life in writing biographies, of which Hemchandra, Rangalal, Jyotindranath Tagore and Kali Prasonno Singha are memorable in many ways. He carried out fruitful researches on the Nineteenth Century, Bengal and contributed more than twenty volumes. The Corporation at one of its meetings mourned his death.

One of Calcutta's oldest residents, Miss Rachel Florence Martyr, died in New Theatre Road on Saturday, the 4th April last. She was 94.

A remarkably healthy woman, she had seen four generations. Up to the end she kept all her teeth but one.

Between 1909 and 1925 the late Miss Martyr resided with friends in Edinburgh. Her hobby was needlework in which she excelled. She was a deeply religious woman. Priests and nuns valued her concern for social welfare.

SOCIAL CRIMES: The Enforcement Branch Police raided nine West Bengal Government milk distribution depots in different parts of the city on the 6th April and seized 64 bogus milk ration cards from people alleged to have been waiting to take delivery of skimmed milk powder against those cards. Fourteen persons were arrested.

It is further believed that many sell the milk powder received by them against their ration cards—to small retail traders and sweet shops. Much of the quantity was obtained through such ghost cards surely. The price of one pound of milk powder is being sold through the Government supply depots 72 nP. against Rs. 1.50 nP. to Rs. 1.75 nP. in the open market.

THE ARMY MEDICAL CORPS UNITS IN CALCUTTA celebrated its Sixteenth Anniversary with a ceremonial parade at the Ballygunge Maidan camp on Friday, the 3rd April last. Col. Sivasankaran, Assistant Director of Medical Services, took the salute. The parade, which comprised 206 officers and men, was commanded by Lt-Col. Nair, O.C. 93 Field Ambulance.

After the parade, a message from Major-General B. M. Rao, Director of Medical Services, Army Headquarters, was read out.

A variety entertainment got up by AMC personnel was held at the Military Hospital in the afternoon.

ID-UL-FITR, one of the greatest Muslim festivals during a year, was celebrated by the community numbering over five lakhs in the city, on Friday, the 10th April. It was a day of serene joy for them.

The day's principal event was a congregational prayer held on the grounds of the Calcutta Maidan towards the earlier part. It was attended by nearly one lakh Muslims. Held under the joint auspices of the Calcutta Khilafat Committee and the Jamiat-ul-Ulema Hind the prayer was led by Maulana Ismail Sanbhuty, a former Secretary of the Jamiat-ul-Ulema. The Deputy High Commissioner for Pakistan, Janab Ahmed Ali also participated in that prayer meeting.

In his sermon Maulana Sambhuty advised Muslims to devote themselves to the service of mankind. He said that in fasting they had enjoined upon themselves the duty of guarding against evil propensities. If they had been able to control the lawful cravings and demands of human nature, such as hunger and thirst, it was much easier for them to subdue other propensities as hatred and jealousy.

The Ex-Mayor, Syed Badrudduja, M.L.A., said that apart from its spiritual significance, fasting enabled them to realize the miseries of the hungry millions who sought in the streets a morsel of food. It engendered the spirit of co-operation, fellow-feeling, and amity between different communities and peoples.

Congregational prayers were held in many other places and mosques in the city. The Nakhoda mosque in Zakaria Street and the Tipu Sultan mosque on Dharramtolla Street also attracted large numbers of devout Muslims.

As in previous years Muslim women attended the congregational prayers held under the auspices of the All-India Muslim Ladies' Conference (Bengal Branch) at the Muslim Institute Hall in Rafi Ahmed Kidwai Street. Maulana Haji Mohammed Abul Nais conducted the prayer and delivered the sermon there. In the Muslim areas, well-decorated wayside stalls were opened where large number of people took their refreshments. After the "kurbani", feasts were held in most of the Muslim houses.

DR. SAMUEL HAHNEMAN'S 204TH BIRTHDAY ANNIVERSARY was celebrated in the city by various institutions on Friday, the 10th April. This was the occasion to pay homage to the founder of Homoeopathy, an important branch of medical science. The West Bengal Registered Homoeopathic Practitioners' Association observed the day at Ahiritola Street, northern part of the city, with Dr. D. C. Dutt presiding. It was also celebrated at Sevak Baldya Street, premises of the Bengal Homoeopathic Institute, southern part of the city.

The staff and the students of the Modern Homeopathic Medical College arranged a function at the Students Hall, College Square, central part of the city, under the Chairmanship of Mr. Justice Sankar Prasad Mitra.

The Birth Anniversary was also celebrated at Dr. M. M. Choudhuri Memorial Homeopathic Medical College, Cornwallis Street, central part of the city.

A BIG FIRE on Keshab Sen Street, Rajabazar area, central part of the city, leaping up its flames to a height above 30 ft., caused considerable damage to bustee huts and properties inside them, on Wednesday-Thursday midnight, the 9th April. The blaze on the moonless night was visible from a distance even more than a mile. Within one hour the fire was brought under control with the help of six fire engines and special equipment under the West Bengal Fire Service officials.

So far it has been traced that a kerosene lamp burning near a heap of waste paper and rags caused the fire which completely destroyed a small bustee of rag-pickers. The fire spread to eight other huts and a car repair shop.

A few days back another fire caused considerable damage to the city's bustees in the Park Circus area, eastern part of the city. The fire was fought by the West Bengal fire service men.

CORPORATION NOTICES

To Contractors

TENDERS are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed—"Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

A. K. DUTT,
Licence Officer.

CENTRAL MUNICIPAL OFFICE:
The 20th September, 1958.

ART IN INDUSTRY'S EXHIBITION

The annual exhibition of Art in Industry was opened at Artistry House, Park Street, Calcutta, by Shrimati Kamaladevi Chattopadhyay on the 3rd April last. She emphasized the need for more arduous research into tribal art and craft which constitute one of the main features of the Exhibition. She regretted there had so far been little effort to understand folk craft.

There had been continuity of Indian culture since the earliest times and this could only be fully appreciated with a better understanding of the Adivasis, their life, art, craft, dance and music, she also said.

Introducing the Exhibition, Shri Ajit Mookerjee, the Art in Industry Institute's Director, gave an account of his survey of tribal arts in the Dandakaranya area.

SHOPS TO LET

PARK CIRCUS MARKET

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA BOMBAY KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-annoyance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CORPORATION OF CALCUTTA.

Preparation of fresh Electoral Roll of the Constituencies Nos. 1 to 75 of the Corporation of Calcutta under the Calcutta Municipal Act, 1951, as amended.

FORM I.

NOTICE.

For the purpose of preparation of the electoral roll for the Constituencies Nos. 1 to 75 of the Corporation of Calcutta, applications are invited from persons who are qualified to be included in the electoral roll for any of the aforesaid Constituencies by virtue of the provisions of clause (b) or clause (d) of sub-section (1) of section 48 of the Calcutta Municipal Act, 1951. Such application shall be made in Form III so as to reach the undersigned not later than the 22nd day of May, 1959, corresponding to the 7th day of Jaistha, 1366 (B.S.).

Election Department,
Central Municipal Office,
April 22, 1959.

H. DAS GUPTA,
Registering Authority.

N.B.—Copies of Form III will be supplied free by the Registering Authority on application at the Central Municipal Office, the District Municipal Offices (except the District III Municipal Office), the Coasipur Municipal Office and the Manicktala Municipal Office during working hours. Applications will also be received at these places by agents of the Registering Authority. They may also be sent by post to the Registering Authority, Central Municipal Office. Applications may also be made in typed or manuscript copies of the form a specimen of which is printed below.

Persons possessing the aforesaid qualifications and having attained the age of twenty-one years are required to make fresh application for enrolment in the fresh electoral roll now under preparation, even though their names may appear in the existing electoral roll.

Qualifications under clause (b) or clause (d) of sub-section (1) of section 48 of the C. M. Act, 1951, are as follows :—

Clause (b)—Payment of rent for at least six consecutive months during and in respect of the year 1958-59 as occupier of a premises valued for Assessment purposes, at Rs. 4/- or more per month in the case of a hut in a bustee and at Rs. 8/- or more per month in the case of the premises not being a hut in a bustee.

Clause (d)—Passing the Matriculation or any equivalent Examination* or holding a diploma of a technical or vocational Institution* recognised in this behalf.

Residence in Calcutta for the greater part of the year 1958-59 is essential in either case.

*List of Examinations prescribed as equivalent to the Matriculation Examination and list of recognised technical and vocational Institutions can be inspected at the Election Department, Central Municipal Office.

FORM III.

CLAIM FOR INCLUSION IN THE ELECTORAL ROLL OF A CONSTITUENCY.

CORPORATION OF CALCUTTA.

Constituency No. (a).....
Claim for inclusion in the electoral roll of (b).....
(c) Son/Wife/Daughter of.....
(d) Resident at No.....Street.....

VIEWS AND REVIEWS

NETAJI'S STATUE IN CITY

A life-size statue of Netaji Subhas Chandra Bose, in military uniform, will be installed at the vacant space on the north-west corner of the Chowringhee Road—Ochterlony Road crossing opposite the Metropolitan Building.

This was the unanimous decision of the All-Party Advisory Committee appointed by the State Government under the Chairmanship of Shri Khagendra Nath Das Gupta, Minister, Works and Buildings. It was convened to decide location and shape of the proposed statue. The details will be worked out soon.

The Calcutta Corporation will also install a statue of Netaji separately at the Shyambazar five-point crossing.

Calcutta will be happier to have as many statues as possible of that great leader of men.

CONGRESS PRESIDENT IN CITY

The President of the Indian National Congress, Shrimati Indira Gandhi, had a brief stay in this city on the 16th April last. She was then returning to Delhi at the end of her tour of border areas. She had been to Assam to see the damages done by the Pakistani firings on the borders.

During her three-hour stay in the city the Congress President met the Chief Minister, Dr. B. C. Roy and the State Congress President, Shri Jada-vendra Nath Panja, General Secretary of the West Bengal Congress Committee, Shri Bejoyananda Chattopadhyaya and Shrimati Labonyaprova Dutt.

All of them also gave her a hearty send off when she emplaned.

NEW MAYOR AND DEPUTY MAYOR FETED

Since their election, the newly elected Mayor, Shri Bejoy Kumar Banerjee, and the Deputy Mayor, Shri Kishori Lal Dhandhanian, have been felicitated

on behalf of different organizations and institutions. The one organized by the Sisir Kumar Institute, held at Sanskrit Sahitya Parishad Hall, Raja Dinendra Street, northern part of the city, on the 18th April last, drew a large number of citizens from all walks of life.

Replying to the sentiments expressed on the occasion, the Mayor, Shri Banerjee, said that advice and inspiration that had been given on that occasion would be of great benefit to them to discharge their duties and responsibilities. He sought the co-operation and help from all sections of the people irrespective of party affiliations. He reiterated the view that in civic matters there should have no scope of politics.

The Mayor further said that he fully appreciated the services of the social welfare institutions. He opined that if he could really do something vital for the benefit of the citizens such Receptions would be of worth accepting.

The Deputy Mayor, Shri K. L. Dhandhanian, said that the inspiration from the press and the public would be of much helpful for the efficient running of the administration. He hoped that with co-operation from all they would be able to provide improved services to the citizens.

When a demand was made from among the speakers for a Central Public Library in the city Shri Dhandhanian said that in 1955 the Corporation had set apart a sum of Rs. 50,000 for the establishment of a Library but the amount could not be utilized as yet.

Earlier, in welcoming the Mayor and the Deputy Mayor, Shri Tushar Kanti Ghosh, President of the Institute, hoped that the efforts of the Mayor and the Deputy Mayor would prove helpful in solving the difficulties experienced by the citizens.

The President of the meeting also admitted that in a big city like Calcutta it was not

possible for the Corporation alone to solve all civic problems. The services of the social welfare institutions were essential. He emphasized that Corporation should help these bodies according to its capacity.

Among those present were Shri P. C. Majumdar, I.A.S. (Retd.), Chief Executive Officer, Councillors Dr. B. C. Basu, Mohan Lal Ghosh, Krishna Chandra Kundu, Subrata Sen Sarma, Dr. Sudhangshu Kumar Sett, Krishna Chandra Bysack, Raj Satyen Mitra and Ranajit Coomer Mitter.

MAYOR'S STATEMENT ON WATER & LIGHT

With the taking over of the office, the Mayor, Shri Bejoy Kumar Banerjee, took no time to go into the malaise of the city. The summer in the recent past, had always been accompanied by scarcity of adequate quantity of potable water resulting in rise of the incidence of epidemic diseases. As a former Chairman of the Standing Water Supply Committee, Shri Banerjee's attention was diverted to this growing illness. He next took up the item of street lighting whose utility could not be under-estimated.

Through a statement before the House, on the 17th April last, the Mayor, Shri Banerjee, presented the actual water supply position in the city.

The Mayor pointed out that a large number of tube-wells, both of big and small diameter sizes, were lying out of commission. He assured the House that immediate steps would be taken to repair those tube-wells. Necessary expenses for the repair work would also be made available.

DEATHS AND DISEASES IN THE CITY

The trend of the epidemic disease cholera had witnessed towards rise of incidences during these two weeks. Attacks and deaths from cholera during the week ended the 18th April in the city were ten and four respectively against three each on the week previous to this namely the 11th April last. During the week previous to this, attacks and deaths were three and two respectively. In the corresponding weeks last year there were 702 and 161 attacks and 248 and 81 deaths.

Small-pox attacks and deaths during the week ended the 18th April numbered three in each case against three and one the week before the 11th April last. In the corresponding fortnight last year there were 27 attacks and 23 deaths.

Typhoid was responsible for 17 deaths altogether during these two weeks of April. This showed a slight rise in attacks from Typhoid while the city was quite free from Malaria.

Tuberculosis claimed 28 lives, during the third week of April, against 39 in the previous week and 28 and 36 in the corresponding weeks last year.

Deaths from all causes totalled 550 during the week ended the 18th April and 625 the week before viz. the 11th April and 625 and 649 during the corresponding weeks last year. During the week ended the 4th April deaths totalled 509.

In course of his speech the Mayor brought to light a note submitted by the Executive Engineer, Water Works, which stated that out of 90 million gallons of filtered water 80 million gallons were being supplied daily from the Pulta Main Pumping Station and the remaining 10 million gallons from the tube wells. Altogether 73 big-dia. tube-wells had been sunk so far, of which five were not functioning properly. Out of them 13 were sunk about 15 years back. The sites of defective tube-wells are at Jorabagan Park, Chingrihatta Road, Cossipore Road, Ratan Babu Road and at Sradhananda Park. The number of small dia. tube-wells was 4,300 of which about 400 were found defunct and 546 were out of order. They comprised of 15 per cent of the total number. Besides, there were 260 tube-wells which were yielding very scanty supply. Arrangements had already been made to supply filtered water by lorries in the scarcity areas.

The Mayor said repair work of the tube-wells which were not working, would be undertaken immediately. The estimated expenditure for the purpose would be nearly Rs. 2.5 lakhs. Provision has to be made out of the Borough fund for nearly Rs. 1.40 lakhs as the Budget of this year had provided Rs. 1.2 lakhs only.

It may be noted here that out of 754 small dia. tube-wells sanctioned by the Borough Committees, during the year 1958-59 orders for sinking all of them have already been placed with the contractors. The progress in this regard is that 670 tube-wells have been put into commission.

Referring to the badly maintained street electric lights, the Mayor, Shri Banerjee, said that many lamps were found not burning throughout the nights together. For the improvement and maintenance of street lighting particularly at late hours of the night, he announced, two sets of night emergency gangs would be appointed. Of the sets one would be stationed at No. 1 District Engineer's Office which would serve Districts Nos. I and II and another at Lansdowne Market which would serve Districts Nos. III and IV.

The Lighting Superintendent in a note also stated, that the department could not take measures to maintain street lights properly with such promptness as desired for due to paucity of men and materials. The Lighting Superintendent used to receive telephonic messages every night regarding the non-functioning of the street lights, but he could hardly take any action as he had no arrangement for night emergency gang.

There were about 40,000 electric lights against 12,000 in 1952 according to him. Although the number had increased about 300 p.c., the strength of the staff, wiremen and majdoors, remained the same as before.

On the basis of the report of the Lighting Superintendent the provision of two sets of night emergency gangs was made at a recent conference in the Mayor's room, Shri Banerjee said.

When the Mayor's attention was drawn to another vexing problem as to the delay in prescribing list of text books in the Corporation Schools, the Mayor said that he was earlier informed by the Education Officer that the matter had already been expedited and it would soon be available to the children.

The Mayor's statement was cheered by all in the House.

SHRI JAMINI ROY IS 72

The renowned artist, Shri Jamini Bhusan Roy, has stepped into seventy-second year of his life on the 15th April last. Comparatively older in age, Shri Roy is still contributing in the field of art by dint of his accumen and genius in this line. His specimens of drawings and paintings have not only been recognized and appreciated in this country but also in abroad as an object of superior and rare quality. These have brought him laurels from different Art Societies of the world.

In order to mark the occasion, a pleasant but brief function was arranged in his residence, Ballygunge Place, East, southern part of the city on that morning. A large number of city's art lovers, Shri Roy's followers and admirers attended. Shri Roy was garlanded on behalf of the Jatiya Sahitya Sangha, a literary organization and many others including Lady Ranu Mukherjee, President of the Academy, of Fine Arts, Calcutta. Among others present were Shri Sambhu Mukhopadhyaya, an artist, Shri Budhadev Basu, Shrimati Prativa Basu—literateurs of repute along with many of his pupils who had the chance to learn under his feet. Councillors Anil Maitra, Mukur Sarbadhikary and others were also present there. All of them expressed their hearts' feelings for Shri Roy while greeting him on his Birthday Anniversary, and those were befittingly replied by him. They were also acquainted with the magnificent art creations of Shri Roy.

About fifty years back, Shri Roy started his career as an artist and painter even when he was

SHRI JAMINI ROY

INOCULATION DRIVE INTENSIFIED IN CITY

EPIDEMIC CONTROL measures under the Corporation have reached to a level of efficiency and effective to a certain extent no doubt. And this was amply witnessed on the 13th April last when the staff of Ward No. 66 under Dr. B. C. Dutta, Epidemic Officer, undertook a special programme of mass inoculation against cholera on the occasion of the Sikh festival being observed at Rash Behari Avenue Gurdwara, southern part of the city. More than six hundred people were inoculated in a single day in that vicinity. The

site was also inspected by Dr. D. Mitra, District Health Officer and other supervisory staff (picture above).

On an earlier occasion there was a meeting within that Ward wherein the local Councillor Chittaranjan Chatterjee presided. The meeting requested the citizens to help the Corporation in their campaign for mass vaccination drive as well as for success of mass inoculation, particularly in that thickly populated area. The Deputy Health Officer, Major I. N. Sarkar, Dr. Mitra, District Health Officer also spoke. The Public Relations Department made an intensive propaganda in that area for the same purpose.

THE CORPORATION AT WORK

[A GIST OF PROCEEDINGS OF THE SECOND ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 17TH APRIL, 1959.]

CONDOLENCES

At the outset, the House condoled the death of Shri Motilal Roy, a renowned revolutionary leader of Bengal and Founder-President of the Prabartak Sangha. Shri Roy died on the 10th April last in Chandernagore, Hooghly, the field of his activity. He was 77.

The late Shri Roy's contribution to the country was recalled by the Mayor, Shri Bejoy Kumar Banerjee, who paid eloquent tributes to his memory. The Mayor also referred to the late Shri Roy's participation in the revolutionary movement as a close associate of Shri Kanailal Dutta and others. Many of them gallantly mounted the gallows of death. He was also responsible for planning and executing many of the inspiring episodes of those days.

Born in a Rajput family in Chandernagore, the late Shri Roy had shown devoutness in early boyhood.

In his youth, he devoted himself wholeheartedly to the revolutionary movement. Shri Aurobindo Ghosh took refuge in his Chandernagore residence for about a month in 1910. It was at Shri Aurobindo's instance that he transformed his revolutionary urge into constructive efforts.

In 1915, Motilal Roy published the "Prabartak" journal from Chandernagore. A long period of creative writing followed during which he wrote and published about 30 books on religion, literature, philosophy, history and nationalism.

EMPLOYEES TO BE TRAINED IN TRADE UNION ACTIVITIES

The House accepted a suggestion from the Administrative Officer, Workers' Education Scheme, Government of India, Ministry of Labour and Employment, to send two of its employees there to undertake a three-month training course, in Trade Union activities.

In a letter, addressed to the Corporation it stated that the object of training was to provide any worker, an opportunity to understand what a Trade Union was, and how it could be operated and could be developed with necessary skill, confidence, and knowledge to participate in any level of Trade Union activities from active membership to the highest offices. Full wages to such selected workers have also been guaranteed during the training period. The Selection Sub-Committee has chosen two of the Corporation employees viz., Shri Bejoy Kumar Das of Entally Workshop and Shri Manabendra Banerjee of a Pumping Station.

LAND FOR CHILDREN'S PARK

The House, on the recommendation of the Standing Town Planning and Improvement Committee, re-affirmed its decision to open a children's corner in the Hanspukur First Lane, Burrabazar's the most congested area. It has been estimated that ten kottahs of land would be purchased at the cost of Rs. 90,000/- only, to be provided in the Loan

Budget. The Hanspukur Mohalla Committee would also contribute Rs. 10,000/- only for the purpose under certain conditions.

A FEW ESTIMATES

The House, on the recommendation of the Standing Works Committee, sanctioned a revised estimate amounting to Rs. 2.14 lakhs for laying sewer in Panchanantala area, southern part of the city, Ward No. 61.

Based on the recommendation of the Standing Water Supply Committee, the House sanctioned an Engineer's estimate amounting to Rs. 82,000/- for construction of the Pressure Station Building at Pulta Pumping Station.

A MARKET IN NEW ALIPORE AREA

The House, on the recommendation of the Standing Finance Committee, decided to open a Municipal Market in New Alipore area, Ward No. 72. This was in confirmation of a Conference held in the Mayor's room some time ago, between the representatives of the Life Insurance Corporation and those of the Corporation. It decided to purchase a piece of land from the Life Insurance Corporation for construction of the market. It further decided to construct the market within two years. Another condition laid down in this connection was that the payment for the value of the land would spread over a period of 18 years in equated annual instalments @ 3½% interest from the date of transfer of land.

A FREE GIFT OF LAND

The House, on the recommendation of the Standing Town Planning and Improvement Committee, accepted a plot of land measuring 29 sq. ft. at premises No. 15, Mati Lal Sen Lane, Manicktala area, under certain conditions.

TAKING OVER ROADS

The House, on the recommendation of the Standing Town Planning and Improvement Committee, took over 30 ft. wide roads Nos. 1, 2, 3 and 4, under C. I. T. Plan No. B. I. S-55.56 within the Singhee Bagan area under certain conditions.

IMPROVEMENT OF CHINGRIHATTA ROAD

The House, on the recommendation of the Standing Works Committee, accorded administrative sanction to the Engineer's estimate amounting to Rs. 68.5 thousands for construction of roads and such like in connection with the proposed modification of a part of the 60 ft. wide alignment for Chingrihatta Road, at its bend at the premises Nos. 36, 37, 38 and 58.

ST. JOHN AMBULANCE BRIGADE

The House, on the recommendation of the Standing Health Committee, appreciated the services rendered by the St. John Ambulance Brigade, Calcutta Corporation Division, from time to time and enhanced the annual rate of grants-in-aid to the institution.

HEALTH & HYGIENE**CHOLERA CASES ON INCREASE**

THERE has been sudden increase in the incidence of cholera cases in the city since the beginning of the week before last. Attacks and deaths from the disease during the week ended the 18th April were ten and four respectively according to the statistics maintained by the Corporation. During the week before the number was three attacks and a similar number of deaths. There was comparatively a higher number of attacks and deaths during the corresponding weeks last year than present times.

The increase in the number of incidence surprised the citizens when it was reported that about 30 persons suspected to be suffering from cholera were removed to hospitals from different parts of the city on the 13th April last. Subsequent inquiries showed that attacks in all cases had not been proved to be of cholera and most of the so-called cholera patients taken to hospital, had been found to be suffering from gastro-enteritis, bacillary dysentery or acute diarrhoea.

One of the main cholera-treating hospitals in the city admitted about 57 patients in that ward during the week ended the 11th April last. But hardly 25 per cent of those cases had all the symptoms of the disease. Bacteriological tests of those few cases had not confirmed actual attacks of cholera. According to them also bacteriological examination for detecting cholera was not expected to yield positive results in every genuine case. About 10 patients were being admitted daily on an average in another hospital and some of them had been clinically diagnosed as cholera.

Whatever might be the cause, with the rise of mercury in this city towards the early part of this week, the incidence of cholera cases was on increase. Nearly 115 suspected cases were taken to city's hospitals during the four days of this week, from the 20th to the 23rd April. The patients were generally from Shampukur, Burrabazar, Muchipara, Maniktala and Jorabagan Thana areas. The congested bustees in the Cossipore, Ultadanga, Maniktala, Tangra and Tollygunge areas, where cholera broke out in a virulent form last year, have so far been remained unaffected till we go to press.

During the year, the temperature has yet to rise at its maximum level and it is uncertain what would be the actual havoc and ravages in the city from the disease. Whether the weather has anything to do with the incidence is a question that has been raised in some quarters. Inquiries show that a study under the auspices of the Indian Council of Medical Research is now being conducted to find out the relationship, if any, between temperature, humidity and the incidence of cholera. According to a Government specialist research on the subject would have to be necessarily prolonged as an attempt and a conclusion could be made only on adequate data collected over a long period.

During last year's March the city was in the grip of an unusual hot spell. And cholera had been declared epidemic from the early week of April.

Daily cases of suspected cholera rose around the middle of April. There was a bigger margin between the maximum and minimum humidity in a day than so far this year. The salinity of the Hooghly was also appreciably high last year. This year the temperature did not rise so high till the 8th April.

This year when the trend in the rise of temperature showed an abnormality particularly on the 10th April with the rise to 104°F precautionary measures, already undertaken against the spread of the disease, became more intensive.

The Mayor, Shri B. K. Banerjee, held an informal discussion, in his office room, S. N. Banerjee Road, on the 11th April last, to find out ways and means in this regard. The Deputy Mayor, Shri K. L. Dhandhanian, Councillors A. Maitra, J. L. Saha, M.L.C., Dr. P. K. Sen Gupta, A. C. Sarkar and others took part in it. It was also attended by Shri P. C. Mazumder, I.A.S. (Retd.) Chief Executive Officer, Dr. A. Mukherjee, Health Officer, Shri S. C. Mukherjee, Executive Engineer, Water Works, and other officials. Among other things, it decided to take steps to meet water scarcity in hot season and to combat the outbreak of cholera. It was estimated that about 650 out of 752 tube-wells, for which money was provided in the 1958-59 budget, had been sunk. The rest were expected to be sunk within this month.

Some Councillors complained that the new tube-wells were not working properly. It was further agreed that each Councillor would inspect the tube-wells in their respective areas. The department concerned was asked to look into the complaints and take necessary steps immediately. Laying of filtered water mains, necessary repairs of big tube-wells and re-sinking of tube-wells put out of commission, were urged also.

Regarding anti-cholera measures, the Mayor emphasized the need of impressing upon the people that inoculation was the most effective preventive. When it was reported that some bustee dwellers had opposed to inoculate themselves the Mayor requested the Public Relations' Department to intensify the propaganda work as far as practicable.

The anti-epidemic campaign started this season on the 1st October last. Encouraged by the success of vaccination campaign to prevent small-pox epidemic this year, the health authorities have intensified the inoculation drive to immunize as many people as possible against cholera. Bustees, which are more vulnerable than other parts of the city, are receiving special attention.

The unwillingness among the bustee-dwellers to inoculate themselves are mainly responsible for the slow progress in this regard. According to an official this arises mainly from the temporary pain following inoculation. Bustee people, generally do not take inoculation unless a case has broken out or someone has been taken to hospital. In spite of this special inoculation campaign in bustees twice a week had produced appreciable results.

(Continued on page 4(d))

THE MAYOR, SHRI B. K. BANERJEE ADDRESSES A RALLY AT SHYAM SQUARE
NORTH CALCUTTA

Bengali New Year Heralded In City

CALCUTTA ran amok with joy and rejoicings when the day dawned with a New Year ringing out the old, on the 15th April last. There were 'Prabhat Pheris' and other demonstrations announcing the birth of another year in life's journey of each and every Bengalee. The weather was favourable and the day's main features included mass drills, route marches, flag hoistings, singing of national songs, addresses and similar others. In parks, squares and open spaces thousands of city's boys and girls, in uniform dresses participated in them. Deviated from the usual practice of arranging them in the morning some of the organizations arranged their physical feats and demonstrations towards the close of the day. And these were little disturbed by light showers which made those functions pleasant rather.

Being a holiday in Government and other offices, schools and colleges, the day was observed not by business men alone. Women blew conch-shells at early morning, children in groups sang songs, the elderly bathed in the Ganges and young unmarried girls began a month's worship of the Shiva.

During the day, many visited the Alipore Zoological Gardens, some held picnics in the shades of trees in bloom. Dramas were staged and variety entertainments held in a number of halls. The popularity of the Day was also evident from the decoration of innumerable shops in the city. Customers were entertained at night.

There was also rush and crash in the Kali temple, Kalighat, southern part of the city. Prominent among the worshippers were business men who took their account books

to place them before the deity. Similar scenes were witnessed outside the Thanthania Kali temple, in Dakshineswar and in other areas of the city and suburbs.

Among the mass rallies organized at different corners of the city, the one organized by the 'Sab Peyechir Asar', the children's corner of the daily 'Jugantar' was really attractive. About three thousand boys and girls participated in that function held at Deshabandhu Park, northern part of the city, towards that evening. The Sanskrit Hymn song by the girls of the *Ashar* at the beginning was quite befitting to the pleasant occasion.

Dr. Kalidas Nag, who presided, presented a very nice plan and programme of the *Satabarshiki Jammotsav* of Rabindranath. He blessed the children on that auspicious occasion.

Under the auspices of the *Jatiya Krira O' Sakti Sangha*, Uttar Kalikata Nababarsotsav was celebrated at Shyam Square. More than 3,000 boys and girls representing various clubs, schools, and institutions of North Calcutta participated in a mass drill. A larger number also came from the Corporation Primary Schools.

The function was presided over by Shri Kalipada Mukherjee, State Home Minister, and was graced by the presence of Shri Ashoke Kumar Sen, Union Law Minister, Shri Hemanta Kumar Basu, M.L.A., Shrimati Sudharani Dutta, M.L.A., Councillors Ranajit Coomer Mitter, Purnendu Sen Gupta, and others.

(Continued on page 4(d))

Shri Vivekananda Mukherjee, Editor, 'Jugantar', addresses a rally of boys and girls at Kalighat Park, South Calcutta, on the New Year Day.

Calcutta Mourns Barin Ghosh's Death

A GREAT REVOLUTIONARY PASSES AWAY

CALCUTTA was shocked to hear the death of the great revolutionary leader and a journalist of repute, Shri Barindra Kumar Ghosh, on the 19th April morning when the newspapers carried the news home. The death occurred on Saturday, the 18th April night at Seth Sukhlal Karnani Hospital due to heart diseases from which he was suffering. He was removed to the hospital when the first attack came a few days back. He was 79.

The bier was brought in the Congress Bhavan, Chowringhee Road, the same night. The funeral procession headed by the Mayor, Shri B. K. Banerjee, the Deputy Mayor, Shri K. L. Dhandhanja, Alderman B. S. Nahar, M.L.A. and others paraded the streets on next morning. Several legislators and Councillors also attended the funeral. Amidst high shouts of *Bandemataram*, his last rites were performed at Keoratollah Burning Ghat. A big crowd of youngmen, women, ex-revolutionaries and relatives and admirers watched the mortal remains of that leader passing into flames.

Floral wreaths were placed on the bier on behalf of the West Bengal Chief Minister, Dr. B. C. Roy, Ministers Shri P. C. Sen, Shri K. P. Mookerjee, Shri B. C. Sinha, Shri Bhupati Majumdar and Shrimati Purabi Mukherjee. The Mayor, Shri B. K. Banerjee, and the Deputy Mayor, Shri K. L. Dhandhanja also placed wreaths on the bier. Wreaths were also given on behalf of the West Bengal Pradesh Congress Committee, Calcutta Corporation, Indian Journalists' Association, Congress Municipal Association and some District Congress Committees.

Condoling the death at the meeting of the Corporation held on Friday, the 24th April, the Mayor, Shri Banerjee, said that the death of Barindra Kumar Ghosh closed as it were an epic in the history not only of Bengal but also of India. So far as Bengal and Bengalees were concerned, a glory which had almost assumed the proportion of a legend had vanished for ever. The Mayor added that there was a time about two generations ago when Barindra Kumar Ghosh was a name to conjure with. The glamour and romance of the great heroism and acts of martyrdom which youthful Bengal achieved in her revolutionary zeal and fervid love of Motherland centred round two names Barindra Kumar and his great and illustrious elder brother Sri Aurobindo. They together sowed the seeds out of which sprung hundreds of brave young Bengalee souls who mounted the gallows and sacrificed their lives in a noble ardour to break the shackles of their beloved Motherland.

The Mayor also characterized that Barindra Kumar would live in history as the man who first kindled the torch of revolutionary fire and it was from that torch the succeeding generations of young Bengal lighted their beacons.

Recalling his past activities Shri Banerjee said that his death was a mournful event but surely he had passed from fleeting and brief human existence on this earth into the immortality of history.

'We bow down our heads in deep sorrow and reverence to his memory and pray for eternal peace of the great departed', the Mayor concluded.

The House also adjourned for that day as a mark of respect to his memory.

It was also suggested in the House by Councillor Kumar Dutta that the Manicktala Main Road should be re-named as Barindra Kumar Ghosh Road. There was another suggestion to re-name Muraripukur Road after him according to Councillor Naren Sen.

AN EVENTFUL CAREER

YOUNGEST son of Dr. K. D. Ghosh, Civil Surgeon of Bengal, and a man known to be much fond of European civilization and culture at that time, Shri Barindra Kumar Ghosh was born at Crydon in England in the year 1880. Within a year the baby was brought down to India.

On passing the Entrance Examination, the late Barindra Kumar went up for his First Arts course in the Jagannath College, Dacca, where his eldest brother Shri Monomohan Ghosh was a renowned Professor of English literature. After sometime, he gave up his studies and went to Baroda where his another elder brother, Shri Aurobindo Ghosh, was a Professor in the Gaekwar's State College. There under the guidance of Shri Aurobindo he devoted himself to study politics and history.

Returning to Bengal in 1902, Shri Ghosh covered the whole of Bengal to impart revolutionary ideas as conceived by Sri Aurobindo. The response he actually received fell far short of his expectations. Tired and disappointed, he returned to his brother in Baroda and devoted himself again to studies for about a year.

Soon the Swadeshi Movement was on in Bengal following the Partition of the province in 1905. Barin came again to Bengal on a mission from Sri Aurobindo to organise a secret revolutionary society in the province. Sri Aurobindo himself came later after resigning his job as a Vice-Principal of the Baroda College.

For long, the two brothers had a number of faithful adherents and collaborators. They were Shri Jatindranath Bandopadhyaya, Shri Abinash Bhattacharyya, Shri Hem Chandra Das Kanungo, Shri Ullashkar Datta, Shri Jatin Mukherjee, Shri Upendranath Bandopadhyaya, Shri Bhupendranath Datta, Shri Jnanendra Nath Bose, Shri Satyen Bose and others. Many of them to-day have passed into the world of hallowed memory.

The organization they started was named 'Yugantar Party' after the journal *Yugantar*, founded by him at the instance of Sri Aurobindo in March, 1906.

Barin's interest was then how to secure arms and amunitions for the party, and especially to manufacture bombs. For the latter purpose, he even established a factory in the garden house of his father at Muraripukur. Bombs were manufac-

tured by Shri Ullashkar Datta with the active assistance of Barin himself and others including Shri Indu Bhushan Roy, Shri Bibhuti Sarkar and Shri Prafulla Chaki.

Barin then turned his attention to hatch revolutionary plots in advancement of his party's ultimate goal of a violent mass uprising in order to overthrow the British Government in India.

Of the attempts plotted by Shri Barin Ghosh one was to blow out the trains of the then Lieutenant Governor in different places. Another was to take the life of Mr. Kingsford, District Magistrate of Muzaffarpur, in which Mr. and Mrs. Kenedy Pringlay were killed and Khudiram was hanged. Later many plots and intrigues were carried out under his direct guidance. This created a great stir in the country and infused patriotic enthusiasm among the youth. They also greatly alarmed the Government.

On May 2, 1908, the police rounded the house of Dr. K. D. Ghosh at Muraripukur and took into custody some thirty-four persons, including Sri Aurobindo and Shri Barin Ghosh. They were all put into the Alipore Central Jail as under-trials.

The accused were sent up for trial in two separate batches to the Sessions Judge at Alipore, Mr. C. P. Beachcroft. The first batch including Barin was sent up on August 19, 1908. The case which acquired a historic importance came to be popularly known as the "Alipore Bomb Case", the "Manicktolla Bomb Case" and the "Muraipukur Conspiracy Case".

In course of trial Barin and three others, namely Ullashkar Datta, Hrishikesh, Kanjilal and Upen Bandopadhyaya made confessions giving the whole story of their association with the revolutionary party and their implicity in the matter of bomb manufacturing. The confessions, were made in order that innocent persons who had nothing to do with the revolutionary plots or with bomb manufacture might not be unnecessarily harassed or wrongly punished.

Mr. Beachcroft, in delivering his judgment in the case on May 6, 1909, recorded his appreciation of the spirit in which the confessions had been made. But he inflicted the highest penalty he could under the law on Barin and Ullashkar. Both were sentenced to death. After hearing an appeal, the High Court of Calcutta commuted the sentence to transportation for life for both of them.

Along with many others Barin was soon taken to the Andamans and put into the notorious Cellular Jail. There he spent long ten years. During this period he devoted himself mainly to literary work. He produced quite a volume of poems entitled 'Dwipantarar'.

NEW CHAIRMAN OF CORPORATION CREDIT SOCIETY

Dr. Sunil Biswas of the Manicktala Health Department, has been elected Chairman of the Calcutta Corporation Co-operative Credit Society Ltd., at the last general meeting of Society. Dr. Biswas was formerly a Vice-Chairman of the Society. Besides, he is associated with the institution for long years both as one of its Directors and as a Delegate.

Shri B. C. Guha of the Education Department has also been elected as its Deputy Chairman.

Banshi". Barin also later wrote his autobiography mainly recording the experiences of his life as a revolutionary and his thoughts during his imprisonment in that distant island.

In 1919, on the eve of the inauguration of a new Constitution Government of India released them.

On returning the late Shri Barin Ghosh became the Editor of "Narayan", a paper founded by Deshabandhu Chittaranjan Das. Then he joined "Bijoli" a weekly paper. The paper, however, ceased publication before long. Much later, in 1950, Barin became Editor of the *Basumati*, and he served the dail-paper up to 1957.

--CHOLERA CASES ON INCREASE

(Continued from page 4(a))

The inoculation figure this year is nearly 4.86 lakhs up to the end of last week.

The Mayor, Shri B. K. Banerjee, has already issued an appeal to the citizens to undergo cholera inoculation. Public meetings are being arranged regularly by the Public Relations' Department in different corners of the city in order to induce people for inoculation as well as to cultivate healthy habits to check the spread of the disease.

The scarcity of filtered water forces busteedwellers to use water from street hydrants, ponds and tanks. And realising these difficulties the Standing Water Supply Committee members and officials of the Department decided recently that immediate arrangements would be made to withdraw 400 defunct tube-wells in the city and re-sink half of them within a period of six weeks. The Mayor, Shri B. K. Banerjee, also presided them.

It was further decided that re-sinking of the other 200 defunct tube-wells would be taken up later. For early completion of the present work procedural difficulties would be cut short.

Thus we are to await and see how the things take shape and how the city becomes free from all its evils, the epidemics being the foremost.

BENGALI NEW YEAR DAY

(Continued from page 4(b))

The Mayor, Shri Bejoy Kumar Banerjee, as Chief Guest, Congress Committee, hoisted the National Flag.

The Mayor, Shri Bejoy Kumar Banerjee as Chief Guest, appreciated the demonstrations displayed by boys and girls at that function. He also praised their other qualities.

To mark Bengali New Year's Day, the All-India Radio, Calcutta Station, broadcast a musical feature entitled *Bansa Baran* by Shri Haraprasad Mitra based on the songs of Rabindranath.

Earlier the same evening, a feature programme entitled *Batsakh Elo*, also based on songs of Rabindranath, was broadcast in the *Galpadadur Asar*.

Tuesday, the 14th April was Chaitrasankranti, the last day of the Bengali year 1365. The year finished when the sun moved from Constellation Pisces to Aries. Bengali housewives spent the day tidying their homes and clearing all furniture and utensils. The day was dedicated to the worship of the Shiva. There were 'Charak Melas' in different corners of the city.

JUBILEE FUNCTION INAUGURATED.

The President of the meeting Justice Mr. S. P. Mitra sitting middle while Kaviraj Bimalananda Tarkatirtha, M.L.A., on the mike. Principal N. Niyogi seen sitting on a chair in the back. Others seen in the picture Shrimati Labanyaprova Ghosh, M.L.A., Shrimati Ashoka Niyogi, Dr. Roma Niyogi, Shrimati Santosh Kumari Gupta, Prof. R. K. Chakravarty, Shri S. Dey, Shri P. C. Ray, Shri J. Ghosh and Dr. S. Paul.

CALCUTTA WORKINGMEN'S INSTITUTION GOLDEN JUBILEE CELEBRATIONS

THREE-DAY LONG festivities marked the occasion of the Fiftieth Birth Anniversary of the Calcutta Workingmen's Institution at 15, Raja Dinendra Street, eastern part of the city. The institute was founded with the object for social, moral and intellectual upliftment of the working class, and it was established on that part of the city where men lived in the depth of misery and ignorance. It was philanthropy which prompted a band of energetic youngmen to undertake such an arduous task in the midst of so many odds and ends. Pioneership in this regard was then taken by the late Dr. D. N. Mullick, the late Shri Jnananjan Niyogi, the late Dr. Satyananda Roy and other foremost social workers during the Swadeshi Days. They founded this institution first in a rented house at Amherst Street.

During the first year of its existence, the institute pledged to impart lessons on three R's to those downtrodden in the society. A Report published on the occasion stated that during its first year of existence the classification of students stood as follows:—

Bengalis 69, Biharis 23, Hindus 27, Muhammedans 65. Most of the students were from class of shoe-makers, servants, book-binders, printers, hawkers and brick-layers living in the neighbourhood.

Much trouble was then taken to induce them to join classes and it is interesting to know that the starting number was the unlucky 13.

During the primary stage inspirations and encouragements were given by men like the world

renowned Poet Rabindranath Tagore, Sir P. C. Roy, Dr. Brojendra Nath Sil and others. Even a few of them had occasionally visited the institute.

With the gradual increased needs for accommodation and due to its expanding activities the institute had to be shifted from one site to another in that locality unless and until the present building was built up on a plot of land leased out by the Corporation on a nominal rent basis under certain conditions. The building fund was met on simple charities and donations, made by a few philanthropers. Even a part had to be provided by loans raised from others.

The then President of the Institute the late Sir Debaprasad Sarvadhikary and its Secretary the late Shri Niyogi had hard times to maintain that philanthropic institution.

While on a tour round the United States of America in connection with Temperance Movement, the late Shri Niyogi was able to secure considerable amount from that country. He was then also helped by many of his close associates like Prof. Rajkumar Chakravorty, Shri Monomohan Bhattacharyya, Shri Indu Bhusan Beed and others. They were then inspired by those great savants of the nineteenth century Bengal. Many of them even now hold the lamp of philanthropy burning.

In the meantime the trunk of the Institute spread and different branches of primary schools were established in bustee areas along with charitable dispensaries with little equipments. The task of medical relief was largely patronised by men like

the present Chief Minister, Dr. B. C. Roy, and others. And on this happy occasion it would be pleasant to remark that the development of progress of the Institute was so uniform and systematic, in spite of several handicaps, that the number of students receiving primary education under the Institute have touched a figure of about 2000 in registers. Medical aid is also being extended to people numbering 15,000 annually.

In order to fulfil the ideals of the Workingmen's Institute true to its name as well as to open the avenues of life in other directions an Industrial Section was added to the Institute in 1913. Started with a Bookbinding Section it later on attached Painting and Commercial Art, Tailoring and Leather Embossing. It thus enabled a number of youngmen to earn their livelihood in those hard days of life's struggle. In course of time it attracted larger number of people from the poor workingmen to join the Institute.

But with the hey days when famine, communal disturbances, influx of refugees and other accompaniments betook over the city evil days befell upon the Institute and it had to shut the doors of the Industrial Section only maintaining its skeleton part. At present the management is giving considerable thought as to how best the vocational branch can serve the people in these days by providing training in electric wiring, plumbing and others to the unemployed youth with little learning.

Thus the story of birth, nourishment, and fostering of an Institute, which has survived fifty summers with a mission to serve those who had so long been remained neglected and ignored, appreciated and admired. At the same time with the changing circumstances it had kept its banner unfurled in order to benefit thousands and inspired other thousands to learn and to earn their own bread. And now it is the citizens' turn to extend their sympathy and goodwishes for the future survival of the Institute in the interest of the society still engulfed in darkness.

THE GOLDEN JUBILEE CELEBRATIONS recalled the past history of the Institute. It apprised the citizens with what amount of devotion and sincerity the band of 24 volunteers brought up this Institute to its present form, as well as how best it could serve the people in its future life. Tributes were paid to the memory of those who had passed to the other world particularly to Shri Niyogi who died in harness while serving this Institute. Good sentiments were expressed for those who are still in this world. A few of them also graced the occasion. Mention may be made of the names like Shri Niranjani Niyogi, Shrimati Santosh Kumari Gupta, Kaviraj Bimalananda Tarkatirtha, M. L. A., Shri Satish Chandra Dey and others.

On the inaugural day, the 10th April, presiding over the function, Justice Shri Sankar Prasad Mitra, Bar-at-Law, paid eloquent tributes to the founders of the Institute. Categorically he classified them as workers belonging to the superior order. He said that these people could do very little for the mundane affairs while they kept the fires of lofty ideals burning all through their lives.

On the first day the speakers included Councillor S. K. Khanna, J. P., President of the Managing Committee, Kaviraj Tarkatirtha, Shri Dey, Prof. Chakraborty, Shrimati Gupta, Shri Prafulla Roy, Md. Mokbul Ansari and Shri Jyotish Ghosh.

On the second day, Swami Punnananda of Shri Ramkrishna Mission, presided. He spoke on the constructive aspect of the Institute. It was a day of social workers and many of the speakers narrated their personal experiences in this sphere of activities. They were Principal A. C. Banerjee, Principal Niranjani Niyogi, Shri Monomohan Bhattacharyya, Aldermen Bejoy Singh Nahar, M.L.A. Shri Brojendra Nath Bhadra, Shri Jibananda Bhattacharyya and others.

At a Workers' and Ex-students' Convention, on the concluding day, Dr. Kalidas Nag, presided. A pleasant atmosphere prevailed when the old and new met together and exchanged greetings each other. Prizes were also distributed to the successful students. They were also entertained.

The first two days' functions ended with screening of films which attracted larger number of people from the locality. On the third day arrangements for variety entertainments were there.

A NEW APPARATUS IN CANCER HOSPITAL

UNDER the aid of the Colombo Plan new plants and apparatus are being added to city's hospitals in order to equip them for introducing modern systems and advanced methods of treatment. The first of its kind in India, a Cobalt Therapy Apparatus is being installed (picture below) in the Chittaranjan Cancer Hospital, southern part of the city. The plant would be used for treat-

PHOTO : ANJAN GUPTA.

ment of cancer patients in the eastern region of India. The installation is expected to be completed within a month.

The Cobalt-60 gun utilises very high frequency Gamma rays from Cobalt 60 for treating cancer which do not respond to the conventional means of Radio Therapy. The Cobalt 60 delivers Monochromatic Gamma Rays of energy 1.3 million Electron Volt more than 2 million volt of X-Ray energy. It utilises almost 2,800 curies Cobalt-60 source to deliver 60 Rontgen at a metre.

Of the four such apparatus reached India for the hospitals one each would be installed in Ludhiana, Bombay, Madras and Calcutta.

CITY NEWS PARADE

OBITUARY: Shri Kohinoor Ghosh, a well-known revolutionary leader of Bengal, died at the Sambhunath Pandit Hospital, South Calcutta, on the 12th April last. He was suffering from high blood-pressure and suddenly became unconscious at his Paikpara residence on the 27th March last. He was removed to hospital later on. He was 64.

The late Shri Ghosh had an eventful career and he suffered detention for a considerable period. At an early life he imbibed the revolutionary ideas and since then as an active member he carried on the task allotted to him. An animals, social and of suave manners the late Shri Ghosh was loved and respected by all.

The death was referred to at the weekly Corporation meeting on the 17th April last by the Mayor, Shri B. K. Banerjee, who paid eloquent tributes to his memory.

The death of Shri B. K. Sen, Ex-Dewan and Chief Minister of Tripura State, occurred on the 10th April last in the city. He was 87. His connection with the Tripura State was for more than half a century. He was the Chairman of the Bholananda Trust.

The Corporation at its meeting on the same day mourned his death. The Mayor, Shri B. K. Banerjee, who referred the death in the House described him as a man of extreme religious temperament and charitable disposition.

The death of Prof. Bejoy Kumar Roy, a veteran educationist and a former Professor of Philosophy, Ripon College, now Surendranath College, occurred at his city residence on the 10th April last. He was 75. Dedicated himself to the cause of spreading education the late Shri Roy was an enthusiastic worker during the Swadeshi Days of early twenty's.

The Corporation, at its weekly meeting on the 17th April last, mourned his death. The Mayor, Shri B. K. Banerjee, described him as an ideal teacher and a genuine friend of the students.

HOUSE COLLAPSES—A portion of a veranda of a two-storeyed house in Sarat Ghosh Street, Entally collapsed on the 11th April last. None was injured. One half-paralytic woman who was trapped inside a room of the building was rescued by Fire Brigade.

The balcony of the first floor of a two-storeyed building on Beniatala Street, Shovabazar, collapsed on the 14th April last. The falling debris hit a rickshaw-puller, and a five-year-old boy, who were passing along the street. The old building had on the ground floor a hosiery factory and several godowns. A Corporation officer inspected the building which was cordoned off by police.

A 52-ft. steel structure with bamboo scaffolding around it on the top of a three-storeyed building on Ashutosh Mukherjee Road, southern part of the city, collapsed on the 16th April last.

The structure's base before collapse remained fixed to the roof while the major portion of it hung perilously over the side of the building, and its topmost part touched the pavement below.

The falling superstructure broke a number of overhead electric wires, with one of which a passing car got entangled. Tram service on the route were suspended for a few minutes.

The structure was intended as a frame for advertising.

Referring the collapse of the structure Councillor Barin Chatterjee said at the weekly Corporation meeting on the 17th April last that his information was that the structure was constructed without proper sanction of the Corporation. He demanded that an enquiry should be made into the matter and those who were found guilty should be adequately punished.

The Mayor, Shri Bejoy Kumar Banerjee, stated in the House that he had already visited the site and asked the Department to place the relevant papers before him. So far, he could know that the party submitted the plan to the Corporation about a month back this year for necessary action. Shri Banerjee believed that the structure was an unauthorised construction. He assured that further enquiry would be made to find out the offenders.

ACADEMY OF DANCE, DRAMA & MUSIC'S NEW FOUR-STOREY BUILDING was opened by the State Chief Minister, Dr. B. C. Roy, when he lit a lamp to mark the occasion at Prince Dwarkanath Tagore Lane, northern part of the city, on the 15th April last. The lighting was followed by a chorus song by the Academy students proclaiming the triumph of light over darkness.

Completed at a cost of about Rupees Seven Lakhs, the new building stands on a special raft foundation over an area of 9,300 sq. ft. With class rooms for the Academy's three faculties the building provides a modern stage and an auditorium with 300 seats. Dr. Roy laid the building's foundation-stone on the 18th May, 1956.

The Academy's primary aim is to revive West Bengal's traditional art forms and harmonize them with the needs of contemporary existence, its broad objective is intensive study and research. It proposes to investigate the cultural links between Bengal and those of other countries.

The Academy has overcome the initial difficulties in framing comprehensive syllabuses for the three-year course under the faculties. They will be able to provide a basis on which to build and elaborate the country's art. There is provision for 20 seats in each year in each course of study. The medium of instruction is Bengali.

The Academy is also trying to evolve a properly balanced and systematic course for the histrionic arts and to co-ordinate sporadic activities in the field. Young talents will be given opportunity to take regular courses of theoretical and practical training and to build up careers.

In that function Dr. Roy said that the teachers of the Academy should try to give their students a vision of life as expressed in Rabindranath's works. Only in recreation of that vision could the poet survive as a vital force for future generations. Out of discord and clash of opposite forces the poet built a conception of the superman. The students in the Academy should keep in view that grand conception.

Bengal, he said, was a land of music. It was the land of lyric poets like Chandidas, Vidyapati and Jaydev. The process of integrating music with literature began with Iswar Gupta. Rabindranath was a great climax of that process. In fact, he did more, he presented a new philosophy of life.

WEST BENGAL COMMUNIST PARTY CONCLUDED ITS FIVE DAY SESSION on the 13th April last, with a mass rally at Maidan, on the foot of the Ochterloney Monument, by stating the party's new policy for the coming year. To build up a "determined mass struggle" in fields, factories and offices was the new task before the Committee. The new policy was explained there by Shri Jyoti Basu, Secretary. He said that a real people's front could be built on the basis of struggle alone and not through the so-called left unity which the party had attempted since the last general election.

In what he described as self-criticism Shri Basu, the leader of the Opposition in the State Assembly analysed failures in the party's leadership. During the last few years, popular movements mounted at a much faster pace than the party could comprehend. The party associated itself with the struggles and movements which people staged. He pleaded for larger mass contact in rural areas.

Shri Bhupesh Gupta, leader of the Communist Party in the Rajya Sabha, said that imperialism was exploiting the reactionary revolt in Tibet to drive a wedge in Sino-Indian solidarity.

Among the resolutions passed earlier, one stated about the party's aim to wrest power from the Congress in the State. The Conference thought for further political isolation of the ruling party. This could be done by exploiting "the widespread resentment among the people against the existing Government's policies" and unleashing mass struggle of workers, kisans and other sections of the people.

The Conference further decided to campaign against the pact between the U.S.A. and Pakistan, for 'Afro-Asian solidarity, and against Janab Nasser's "disruptive move". It emphasized the "supreme importance" of friendship between India and China.

ALL-INDIA CHILDREN'S CONFERENCE WAS INAUGURATED, by Shrimati Violet Alva, Union Deputy Home Minister on the 11th April last at Mahajati Sadan.

The Minister said that recent incidents in some examination halls in the city had pained her deeply. Children must develop a spirit of adventure. They might do "healthy mischief." But they must not be allowed to tear up question papers and bring disgrace to their schools and colleges.

The Minister further said that unless human material was properly moulded plans for the country's development would lead people nowhere. She advised children to behave in a way that would bring happiness to their parents and teachers.

Dr. Kalidas Nag, Chairman of the Reception Committee, said that a proper atmosphere should be developed for children.

THE INTER-NATIONAL CALENDAR EXHIBITION, was inaugurated by Alderman G. Basu, Sheriff of Calcutta at the Artistry House, Park Street, on the 10th April last. The exhibition remained open for one week only.

Over 250 exhibits from 25 countries were displayed. The representing countries included the U.K., the U.S.A., the U.S.S.R., China, India, Japan, Czechoslovakia, Switzerland and Pakistan. The International Calendar Exhibition Society under whose auspices the exhibition was held, has been organizing similar exhibitions as well as those of handmade calendars in Calcutta, Bombay and Allahabad for the past four years.

The exhibition expressed deep faith in the international brotherhood of man. It covered a wide range of pictorial subjects and printing techniques. It laid stress on the representational skill, designs and arrangement of objects and lettering. Colour reproductions of landscape photographs and works of famous artists, old and modern made excellent illustrations for some of the calendars.

Indian calendars were faced with a curious mixture of subjects presenting gods and goddesses, dancing girls, historical sequences and film stars.

CALCUTTA EXPERIENCED A THUNDER SHOWER on Sunday, the 19th April. The rainfall recorded at Alipore Meteorological Office was about one inch till early night when it rained with varied intensity. The shower was preceded by a squall from an easterly direction which lowered the temperature from 35°C to 29°C at noon. The wind recorded a maximum speed of 41 miles per hour at Alipore.

Before evening water levels under the railway overbridge Tollygunge and near the Thanthania Kalibari reached knee-deep. Water also accumulated at several stretches of Chittaranjan Avenue and a number of other points. Tram services were dislocated on all northern and eastern sections. I.A.C.'s afternoon services between Dum Dum and other stations in the eastern regions were suspended.

There was another thunder-squall on Monday, the 20th April with welcome fall in temperature. The maximum windspeed recorded at Alipore was 47 miles per hour. The wind blew from a south-westerly direction. The temperature dropped by 9°C (15°F)—from 32°C (89°F) to 23°C (74°F)—and the rainfall was 31.3 mm. or 1.23 inches.

Plane services in the eastern region of India were considerably affected because of bad weather. Five I.A.C. flights were cancelled. Tram services were also dislocated till evening.

Earlier on the 16th April last the city experienced first Nor-wester. The storm was accompanied by thunder, lightning and rain, continuing for about an hour. The wind reached a maximum speed of 44 miles per hour blowing from a north-westerly direction. In the squall's wake there was a 9°F fall in temperature, from 86°F to 77°F. Rainfall recorded at Alipore was 0.11 inches. Air services were also delayed.

A big wayside tree on Canal East Road, eastern part of the city, was struck by lightning and caught fire. An engine of the Fire Brigade extinguished the blaze. Another tree fell on Judge's Court Road, Alipore, South Calcutta.

Some evening functions in connexion with Bengali New Year's Day and sales at many shops and business houses were affected by that inclement weather.

On Thursday, the 16th April, the maximum temperature was below normal, but gradually it rose above normal.

For the rest of the recent period there was brighter sunshine and fair weather with a leaning towards summer.

ADULTERATIONS IN CITY :—The first substantive sentence of imprisonment in a case of adulteration was passed by a Municipal Magistrate wherein Shri Hariram Sarma was sentenced to a month's rigorous imprisonment and fined Rs. 500 in default to two months simple imprisonment on a charge of storing with a view to sell adulterated ghee. Shri Sarma was tried under the Prevention of Food Adulteration Act.

The defence plea was that it was not ghee but a cooking medium. The Magistrate said that it was nothing but ghee and customers were deceived by the term "cooking medium".

It has been stated from a source of the West Bengal Government that about 20 per cent of the *rosogollas* sold in the markets is prepared from the imported skimmed milk powder, supplied to the manufacturers nearly through 400 stalls against family ration cards. A part of the supply also found its way into the open market. The recent drive undertaken by Enforcement Branch police against spurious milk cards disclosed the facts.

The quantity that goes to the open market bears popular brands, and sold at Rs. 1.50 a lb. against 0.72 nP. fixed by the Government. Under existing distribution arrangement, of the quantity received through the State Trading Corporation, 80 per cent is distributed by the Government through its milk stalls against ration cards. The remainder being stocked and cornered by the traders for a considerable period is sold when Government stocks run out at considerable profit.

SOCIAL CRIMES: The Calcutta Enforcement Branch police seized over 180 ghost milk ration cards during a recent week. Forty-two persons were arrested on a charge of drawing skimmed milk powder from West Bengal Government milk distribution depots against bogus ration cards.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 28th April, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

1. Maintenance to Pipe Sewer by providing L. H.s, Y. G.s etc., at the back side of the premises No 125, Akhul Mistry Lane—Rs 1,877/- (1 month).

2. Construction of a Lamp hole in connection with the H. D. connection of premises No 2, Esplanade Row West—Rs 381/- (10 days).

3. Repairs to footpath pavement of Lower Circular Road (portion) from the junction of Bowbazar Street towards south, Const. No. 46—Rs 4,755/-, dated 16th April, 1959 (1 month).

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed shield and badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

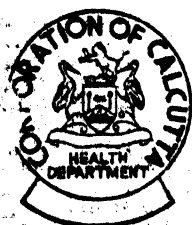

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, BAR-AT-LAW.
Supt., S. S. Hogg Market.

SHRI B. K. SEN RESIGNS

Shri Benoy Kumar Sen, B.Sc. (Cal.), B. Com. (Manchester), F.C.A. (India), A.C.A. (Eng.), A.S.A.A. (London), Commissioner, has resigned from the Corporation services. The letter of resignation was submitted by Shri Sen to the Government of West Bengal, Local Self-Government Department, on the 25th of April last which was subsequently forwarded to the Mayor, Shri Bejoy Kumar Banerjee, along with a forwarding letter containing certain information from their side. Another copy of the letter was also submitted to the Corporation directly.

The Corporation at its special meeting on Friday, the 1st May, accepted the resignation of Shri Sen and directed that three months' pay be given to him in lieu of notice or earned leave. The resolution, in this connection, was moved by the Ex-Mayor, Dr. Triguna Sen, and was accepted by the House. Councillor Dr. P. K. Sen Gupta sought to modify the resolution through an amendment which failed.

In the resolution it was stated that the Government of West Bengal having accorded their approval to the acceptance of the resignation tendered by Shri Sen by his letter, the Corporation hereby recorded its acceptance of the resignation submitted by Shri Sen with immediate effect, from the 1st May, 1959 and further suggested that three months' pay of Shri Sen be given in lieu of notice or earned leave as advised by the Government.

The Corporation further requested the State Government to apprise the Public Service Commission, West Bengal, of the resignation tendered by Shri Sen and the acceptance of the same by the Corporation and the approval thereof by the West Bengal Government.

SHRI B. K. SEN

Some members tried to speak on the activities of Shri Sen with their pros and cons. This was, however, not favoured by another section of the House.

The third ordinary meeting of the Corporation held thereafter sanctioned payment of salaries to Shri Sen, as Commissioner, during the period he did not act as such. Earlier, on the 27th April, a special meeting of the Corporation was convened to

consider a motion requesting the West Bengal Government to remove Shri Sen from the office of the Commissioner on the grounds of 'inefficiency and incompetence'. This was adjourned with a view to allowing the House to consider the resignation tendered by Shri Sen of his office as Commissioner.

At the outset of that special meeting, the Mayor, Shri Banerjee, said that no discussion or decision on the motion would be possible in a proper and fair manner unless the members of the House first duly be apprised of and studied the implications of the significant development caused by the resignation tendered by Shri Sen.

The Mayor read the text of the letter submitted by Shri Sen, Commissioner, to the State Government which was received by the Chief Executive Officer on that very day. The letter was handed over to him later on. A similar letter was sent to the Mayor by the Chief Minister. The original letter of resignation of Shri Sen had also been received by the Mayor on Monday. In his letter Shri Sen stated, "I have decided to resign from the office of the Commissioner. One of the terms and conditions is, that I have to serve three months' notice if I intend to resign and, accordingly, I am serving three calendar months' notice. I am entitled to three months' earned leave. I want this period to be adjusted against three months' notice."

The Mayor also read a letter written to him by the Joint Secretary, Government of West Bengal, Department of Local Self-Government and Panchayats, which stated that according to the terms and conditions of appointment to the post of Commissioner of the Corporation the incumbent was required to give three months' notice to the State Government and the Corporation to resign his office. Accordingly Shri Sen asked for three months' leave and wanted this period to be adjusted against the three months' notice required for his resignation.

The letter further stated that as the appointment of Shri Sen as Commissioner was renewed by the Corporation on the recommendation of the State Public Service Commission and with the approval of the State Government according to the proviso to Sub-Section (2) of Section 19 of the Calcutta Municipal Act, 1951, the Government advised that the resignation tendered by him was to be accepted by the Corporation. The Government accorded their approval to the acceptance of the resignation. Under Section 21 of the Calcutta Municipal Act, the leave asked for by Shri Sen had to be sanctioned by the State Government on the recommendation of the Corporation. The Government also requested the Corporation to communicate its recommendation to them for the grant of such leave as might be due to under the rules applicable to him. The Government advised that the Corporation might allow Shri Sen the leave with three months' pay or give him pay in lieu of notice.

With the acceptance of the resignation the post of Commissioner thus did not deem to have fallen vacant before the expiry of three months. Meantime, the present Chief Executive Officer, Shri P. C. Mazumder, I.A.S. (Retd.) will continue to discharge the functions of the Commissioner as he has been doing for some time past. His present term of his office will expire on the 18th May.

Under the existing Calcutta Municipal Act, if the post of Commissioner falls vacant on account of

death, resignation or removal, the State Government may appoint another person to that office for two months, pending the appointment of the Commissioner on the recommendation of the State Public Service Commission on such terms and conditions as the State Government may determine.

SHRI SEN joined Corporation on the 1st May, 1952 after the end of the supersession period for four years. He was appointed by the State Governor, on the recommendation of the State Public Service Commission, in exercise of the power conferred by Sub-Section (1) of Section 19 of the Calcutta Municipal Act 1951. His appointment was extended for another term of five years with the expiry of the first term in 1957. The Corporation had earlier recommended for his re-appointment. The post carries a grade of Rs. 1,900-2,300, usual Dearness Allowances and actual House Rent paid or Rs. 250/- per month whichever is less. He is also entitled to free use of a Corporation car for official work.

SHRI BENOY KUMAR SEN has in his credit too many outstanding qualities. After obtaining B.Sc., Degree from the Calcutta University he went to England to join the University of Manchester as a student. There he received his Degree in Commerce. He also qualified himself both as a Chartered as well as an Incorporated Accountant in which capacities he became connected with two firms of repute in England. Later, he was appointed an Officer of the Finance Department, Manchester Corporation. As a foreigner he was the first to enjoy that privilege and he was attached to it for several years. He was then also a Member of the Institute of Municipal Treasurers and Accountants, England, a Member of the Incorporated Association of Rating & Valuation Officers in Great Britain and also a Member of the National Association of Local Government Officials in England.

During his stay in England he got special opportunities to gather experiences in other manifold branches of Municipal activities and this paved his way for appointment as a Commissioner of the Corporation of Calcutta, the premier city of the East.

Shri Sen is now 51.

MR. A. C. T. BLEASE DEAD

We deeply regret to announce the sudden passing away of Mr. A. C. T. Blease, Agent, Calcutta Tramways, and a former Councillor of the Corporation. He was 55.

The late Mr. Blease took over from Mr. Thomas Godley as the Company's Agent on the 1st January 1952, the day the new Tramways Act came into force.

Mr. Blease, who was President of the Calcutta Club, died in the midst of the Club's Annual Meeting on Friday, the 24th April last. He was conducting the meeting. After a brief intermission, he asked a member to speak. Suddenly he was noticed to be shivering. The Club Secretary, seated beside him, helped him into his chair. And he expired before any medical aid reached him. Among the members there were a few physicians also.

The funeral service of the late Mr. Blease was held at Calcutta Cathedral the next afternoon. Many officers and employees of the

Company attended the funeral and wreaths were received from many organizations and individuals. Tram services were suspended for two minutes, the time of the service, as a mark of respect. The cremation took place at Nonapukur Cemetery, Lower Circular Road.

Mr. Blease's death was widely mourned. The Calcutta Tram Mazdoor Panchayat mourned the death and offered condolences to the members of the bereaved family.

The Calcutta Corporation, at one of its meetings, mourned the death recently. Eloquent tributes were paid to his memory by the Mayor, Shri Bejoy Kumar Banerjee, who referred the event in the House. His services as a Councillor was recalled by the Mayor. He showed much interest in Corporation affairs and was an important member in many of the Standing Committees.

The Corporation offices, schools and other allied institutions were also closed earlier on Saturday, the 25th April last, as a mark of respect to his memory.

We also extend our sincerest condolences to the members of the bereaved family.

The major portion of the late Mr. Blease's life was spent in this country. After graduating in engineering from Cambridge University, the late Mr. Blease joined the Tramways as an assistant officer in the Traffic Department in 1926. He was promoted to the top position of the department in 1933.

During World War II, the services of the late Mr. Blease was requisitioned as Deputy Inspector of Ammunition and finally A.Q.M.G. in Borneo. He left the Army as a Major.

Mr. Blease's returned in 1949. He became Deputy Agent of the Company and played an important part in the negotiations with the West Bengal Government for a new Company agreement.

A Cambridge Blue (Rugby), the late Mr. Blease was an outstanding athlete in college, being captain of his cricket team and president of the Athletic Club. He also brought to the Company his immense interest in sports. He was Secretary and later Vice-President of the Office Football League. He also started most of the Company's welfare activities.

Before the last war he was a Councillor of this Corporation, being nominated by the Bengal Chamber of Commerce during the year 1935-36. From 1952-58 he was a Trustee, Calcutta Improvement Trust. He was also for many years a member of the State Government's Traffic Advisory Committee, member of the Industrial Affairs Sub-Committee of the Bengal Chamber of Commerce and Industry and President of the West of England Society.

Immediately after an announcement was made appointing Mr. R. W. Turnbull as an Agent of Calcutta Tramways Company succeeding the late Mr. Blease. Before joining the Tramways Company, Mr. Turnbull worked as Assistant United Kingdom Trade Commissioner in Calcutta for six years. He joined the Company in 1955 as Establishment Officer and became its Executive Manager early in 1958.

NEW MAYOR OF MADRAS

Mr. A. P. Arasu has been unanimously elected as the Mayor of Madras for a mid-term period till

November, by the newly elected Corporation Council. The present Mayor belongs to the D. M. K. group.

The general election of the Madras Corporation was held towards the early part of April. The results displayed no absolute majority for any of the contesting groups. Recently, there were confusions and conflicts in this. The aid of law courts was also sought for in that connection. However, a notification from the State Government eased the situation to a certain extent. Hence the election of the Mayor for a mid-term period.

We extend our warm felicitation to Mr. Arasu on his election as Mayor of Madras.

CORPORATION MOURNS DEATHS

The Corporation at its meeting on the 24th April last mourned the death of Shri Ushanath Sen, a veteran journalist and a former Managing Editor of the Associated Press of India, who died in Delhi on the 20th April last. The late Shri Sen was 79.

The House adjourned its sitting for the day as a mark of respect to his memory.

The Mayor, Shri Bejoy Kumar Banerjee, paid eloquent tributes to the memory of late Shri Ushanath Sen, whose eventful career was recalled on the occasion. In 1930-31 the late Shri Sen covered for the Indian Press the historic Round Table Conference in London. During the last War, the late Shri Sen was the Chief Press Adviser to the Government of India. He was a member of the former Central Legislative Assembly and was attached to different other organizations.

Feelingly the Mayor, Shri Banerjee, referred all these events. The Mayor said that for well over half a century the late Shri Sen was an institution and in his hey days he was unrivalled for his contacts and the influence he built as a journalist. A man of kind disposition, he was always sympathetic and eager to help the juniors in the profession. His unremitting endeavours for building up a News Service and raising a high standard of journalism will be ever remembered by his countrymen. Thus his death has removed an outstanding personality, the Mayor added while he described him as a pioneer of News Agencies in India.

The House also condoled the death of Shri C. K. Sarkar, an eminent engineer and architect. The death occurred on the 19th April last at the age of 85.

As an engineer the late Shri Sarkar was associated with numerous partition, valuation, design and construction matters spreading his activities over half a century. As a Consulting Engineer he was associated with many well-known buildings in the city among which mention might be made of the Hindusthan Buildings, the R. G. Kar Medical College, and the Medical College Hospital. Thus he established a good reputation by dint of his sharp intellect and unflinching devotion.

Paying eloquent tributes to his memory, the Mayor, Shri Bejoy Kumar Banerjee, said that in his death 'we have lost an eminent engineer, scholar and a distinguished personality'.

MAYOR AND DEPUTY MAYOR FELICITATED

Shri Atulya Ghosh, M.P., welcomes the Mayor, Shri Bejoy Kumar Banerjee sitting on his right. The Deputy Mayor, Shri Kishorilal Dhandhanian sitting on his left. In the picture also seen Shri Jadavendra Nath Panja, President, the Pradesh Congress Committee, Alderman B. S. Nahar, M.L.A., Alderman G. Basu, M.L.C., Councillor J. L. Saha, M.L.C., and others.

MAYOR & DEPUTY MAYOR FELICITATED

Congress Municipal Association Arranges A Function

THE newly elected Mayor, Shri Bejoy Kumar Banerjee, and the Deputy Mayor, Shri Kishorilal Dhandhanian, were given warm felicitations on behalf of the citizens at the Mohan Bagan-East Bengal Club Grounds, Calcutta Maidan, on Sunday, the 26th April. The function was held under the auspices of the Congress Municipal Association.

Shri Atulya Ghosh, M.P., presided over the function. The President of the Association welcomed both of them. The function was largely attended including Legislators, Aldermen and Councillors, and others.

Replying to the sentiments expressed on the occasion the Mayor, Shri Banerjee, said that Calcutta's civic problems could only be solved if the city's limits were expanded. The execution of the first Plan had benefited the city very little. On the other hand, the Union Government was responsible for the pressure the city had to put up with as a result of the Partition of India. People should remember these factors when they criticize the civic administration, the Mayor asserted.

In a reminiscent mood Shri Banerjee sought the co-operation and co-ordination of the citizens in bringing about improvements of the civic administration. He also believed that honest and sincere efforts put up jointly by the citizens as well as their representatives would sure to result in changing the face of the city.

Before conclusion, the Mayor assured his audience that in discharging his duties Shri Banerjee would try to follow the footprints of those great leaders of the past who once had adorned the Mayoral Chair.

Earlier, the President of the Congress Municipal Association, Shri Atulya Ghosh, appealed for the rate-payers' co-operation in solving civic problems. Shri Ghosh said that the Association welcomed criticism of the administration's working. At the same time the President reminded both the Mayor and the Deputy Mayor of their duties and functions in helping the rate-payers.

At the outset, Councillor J. L. Saha, M.L.C., gave an account of the achievements made by the Corporation in the past. He claimed that the majority group in the Corporation was responsible for such progress. He hoped that the newly elected

Mayor and the Deputy Mayor would surely smoothen the path of progress on those lines as they had already gained ripe experiences in handling Corporation affairs.

FUNCTION AT DHAKURIA

PHOTO : S. B.

On Saturday, the 25th April last, the Mayor, Shri Bejoy Kumar Banerjee, was heartily received by the members of the Deshabandhu Pathagar, Sarat Bose Road, southern part of the city. The Pathagar is situated in the locality represented by Shri Banerjee himself.

The Mayor was greeted and cheered by all present when he himself recalled his long association with that organization in different capacities. Councillor Dr. P. K. Roy Choudhury, a Vice-President of the Pathagar, presided over the function. Councillor Subrata Kumar Sen Sarma and the President of the meeting spoke highly on the newly elected Mayor. They also hoped that with his election the civic services would be much improved.

The Mayor, Shri Banerjee, in his reply, asked all to extend their services for the well-being of the city. He also said that he would be failing in his duty if he could not serve the people he represented not only in their civic matters but also other spheres of life.

The Operations Of The Calcutta Improvement Trust For The Year 1956-57

(SHRI NRIPENDRA K. GUPTA)

No less than two official years have had their run after the period covered by the report under review. The Chairman himself has apologised for this belated appearance. An element of unreality is inevitable in my comments, but still I hope they will not fail to interest all real lovers of my city. For the annual report is always a chronicle of much progress and advance in the development of our city, area by area.

Before I take up the report itself, I must regret that our City Fathers (I refer especially, to Sree K. L. Dhandhanian), should, in discussing the Corporation Budget proposals for 1959-60, uttered the old and unrealistic grouse against that body's contribution to the revenues of the Trust. He (Sree Dhandhanian) should have realised the utter fatuousness of calling the total contribution, between 1938-39 and 1957-58, *viz.* Rs. 5,34,77,532 as "colossal". It is only about one-sixth of the total amount of expenditure incurred by the Trust to the end of 1956-57 (Rs. 29,73,33,583). In return for this contribution, the Corporation has received 84.91 miles of new, widened and extended roads. The insanitary and almost village-like areas of Bhowanipur, Beniapukur, Entally, Kalighat and Gobra have been transformed out of all recognition. New towns such as the Park Street Extension area, Gariahat area, Ballygunge area, the entirely newly developed area of swamps *viz.*, the area between Hazra Road and the Eastern Railway (Budge Budge Section) have not only provided beautiful sites for the city's residents, but also added at least ten thousands modern dwellings to the city, and no less than 46 new parks including Cossipore-Chitpore Maidan (156 Bighas), Deshabandhu Park at Shambazar (53 bighas), the Eastern Park (Park Circus—65 bighas), the Deshapriya Park (20 bighas), not to speak of the Dhakuria Lakes (now renamed 'Rabindra Sarobar'),—an open area of 575 bighas including a beautiful lake (covering 244 bighas).

SREE DHANDHANIAN'S EXTRAVAGANT CLAIM

I have already said that the Trust has spent Rs. 29,73,35,583 upto the end of 1956-57, out of which Rs. 22,18,15,690 was spent on Land Acquisition. Not a single pice contributed by the Corporation, has been spent in meeting the Trust's Establishment expenses. No less a sum than Rs. 742,71,325 out of revenue surpluses has gone to meet the expenditure on engineering works. The Trust has also raised Rs. 615,50,000 by public loans. Sree Dhandhanian has talked of amalgamating the Trust with the Corporation, one wonders if he does not talk through his hat. A body which is incapable of spending its own loans raised by it, year after year and which has failed to solve its problems of water supply, conservancy, drainage, lighting and public health uptil now, should avoid additional burdens and responsibilities. The Corporation has not the technical resources and the organised staff to tackle adequately big undertakings. In my opinion, the two authorities should be kept apart for at least 15 years more. The whole of the Cossipore and the Tollygunge areas are now

to be developed, and have to be provided with amenities at least measuring upto the city proper's standard, before an amalgamation can be thought of.

THE TRUST'S ACHIEVEMENTS

I would place in the forefront the developments which have occurred in the Maniktala area. It would astonish many that no less a sum than Rs. 367,81,944 had been spent in this area upto the period under review. A brief resume of the schemes taken up will I hope, be appreciated in this connection:

Scheme No.	Brief description	Width of Main Road	Amount spent to date
			Rs.
IV M—	Beliaghata Main Rd. to Narkeldanga Main Rd.	100 ft. ..	65,70,111
V M—	Upper Cir. Rd. to Ultadanga Main Road	100 ft. ..	47,49,751
VIM—	Narkeldanga Main Rd. to Maniktala Main Road	120 ft. ..	1,24,15,350
VII M—	Maniktala Main Rd. to Ultadanga Main Road	120 ft. ..	54,62,170
IV M—	Supplementary	" ..	43,20,933
IV M—	Second do	60 ft. ..	32,63,724
	Total	..	3,67,81,994

It is deserving of mention that the third highest amount (Rs. 97,04,144) has been spent on land acquisition in Scheme No. VI M above; the two other high expenditures were incurred on Brabourne Road (Rs. 102,37,122) and the Howrah Bridge Approach (Rs. 130,58,565).

I am glad that the Trust has drawn up schemes, which when finished will completely transform the highly congested and insanitary area bounded on the south by the Bowbazar Street, on the East by Chittaranjan Avenue, on the North by the Colootolah Street and on the West by Lower Chitpore Road. It comprises Schemes No. LVII, LXX, LXXVII and LXVI. Schemes LVII and LXVI are complementary, and envisage a 60 ft. East-West road connecting Chittaranjan Avenue and Lower Chitpore Road, of a total length of 527 yards (known as the "Bowbazar Parallel").

The great central thoroughfare known as Chittaranjan Avenue and after crossing Grey Street, as Jatindramohan Avenue, has now been extended to Baghbazar Street, the total length and end to end, being 4,539 yards. Only a small length covered by Scheme No. LXVII (Baghbazar Street to Califf Street) remains to be undertaken. When this is completed, it will provide the city with a continuous South-North Road from Tollygunge Tram Depot to Chitpore Bridge, and from there to Baranagar Bazar—a total length of about 14 miles *viz.* Russa Road South, Shyama Prasad Mookerjee Road, Ashutosh Mookerjee Road, Chowringhee and Central Avenue and thereafter the Cossipore Road.

* This is the New Lake Area upto 31st March, 1957. A little over 35 Bighas have been surveyed.

THE PROBLEM OF SLUMS

Sree Dhandhanja in a sarcastic mood, has called the C. I. T. 'a house building society'. This is unfortunate, as the city administration has been widely condemned by Indians and foreigners alike for its complete failure to tackle the great slum problem of Calcutta. The C. I. T. should be praised for having contributed, within its limited means, (1) fine barracks (Beliaghata) consisting of 11 blocks of four-storied buildings with 553 single-room tenements, (2) several blocks in the Christopher Road area including a 4 storied hostel building working women, (3) one fine block of 4 storied building in Singhee Bagan constructing of 4 Nos. 3-Room and 24 Nos. 2-Rooms flats for the lower middle-classes. I cannot go into minute detail, but it is sufficient to mention that the Trust's annual income, by way of rent, from the above and previously executed Relhousing Schemes was Rs. 42,0347, in the year under review.

THE TRUST'S FINANCIAL POSITION

Some anxiety exists regarding the Trust's future financial resources for executing schemes involving very heavy outlay in the Cossipur, Chit-pore and Tollygunge areas. The cost of land acquisition and materials is rising steadily, while recovery from sale of surplus lands has been dwindling over the last 3 years. For the latter, I am convinced the authorities are responsible to some considerable extent. Demand for sites is as keen as ever, but the authorities have forsworn their former policy of selling lands according to the prices fixed by their own Valuation Department. They are trying to force up prices by auction, taking advantage of several competitors' keenness for the same sites. This is highly objectionable, as the Trust is not a trading concern, but was founded for providing cheap healthy sites for the citizens. It was a purely humanitarian object and must be adhered to at all costs. Where there are such keenness, either the principle of "first come first served" or allocation by casting lots should be followed. The result is that the price of land is rising to unheard of heights all over the city and housebuilding of which there is a great necessity on account of intolerable congestion, is being held up. The Trust collected a sum of only Rs. 11,31,520 from sale of lands in 1956-57 which included Rs. 7.44 lakhs on account of repayment of "charges". It is necessary to compare this sum with the cost of acquiring land during the same year—Rs. 77,94,182. "The excess capital expenditure of Rs. 64,58,448 was met out

A HOMOEOPATHIC CONVENTION

Members of Homoeopathic Associations and teaching institutions and Homoeopathic Practitioners held a meeting at the Municipal Museum Hall, College Street Market on Monday, the 27th April. The Convention welcomed the West Bengal Government's efforts to frame a syllabus of Homoeopathic teaching but it opposed the proposed inclusion of M.B.B.S. subjects in the course of study for a qualification in Homoeopathic medicine.

An organization was formed to take necessary action for the development of Homoeopathy in the State.

On previous years Closing Balance of Rs. 77.73 lakhs, on the 31st March, 1957, the Trust had surplus lands valued at Rs. 81.82 lakhs, and acquired during the year under review a further area measuring 1,61 Bighas, valued by the Land Acquisition Collector at Rs. 83,22,014.

On the other hand; out of Rs. 6,15,50,000 raised to date by loans practically all the high interest bearing sterling and local loans had been paid off. There is an unpaid balance left of Rs. 3,92,00,000 against which a sum of Rs. 1,93,55,232 is lying in the Sinking Fund. The Trust is therefore in a position to pay its way for the next 5 years by raising wherever necessary loans from year to year. It must not however be overlooked that both the Central and State Government besides local bodies are competitive, and it would be difficult to raise loans bearing less than 4% per cent interest. It is true the Corporation's contribution will continue to rise, but cost of land acquisition and engineering expenditures will also rise progressively.

The Revenue Income for the year was Rs. 79,79,734, and expenditure Rs. 56,93,388, bearing a surplus of Rs. 22,86,346. This surplus must be mainly utilised in paying interest on future loans and in making provision for the Sinking Fund. Receipts from (a) Duty on Trustee of Property (b) Terminal Tax and (c) Duty on Jute are in elastic, and new sources are not in sight. I am not pessimistic by any means, but the Trust must watch its own step and proceed cautiously and warily.

When all is said and done, one cannot but be deeply impressed by the Trust's achievements. I wish its live-wire Chargeman, his very competent staff and the Board itself all success; for the Trust is the hope of present and future citizens, and one must wish all power to its elbow. Let it go forward with its wonted idealism & enthusiasm, and do all it can to maintain its reputation of a high standard of achievements in terms of its past history.

—MAYOR AND DEPUTY MAYOR FELICITATED

(Continued from page 28)

Earlier to that, the Yuba Sammilani, A. T. Chatterjee Road, Dhakuria, Ward No. 77, arranged another similar function on the city's southern extremity.

In presence of a distinguished gathering Addresses of Welcome were presented both to the Mayor and the Deputy Mayor. Both of them replied befittingly on the occasion. They assured the audience that the rate-payers' grievances stated in those Addresses would be looked into.

Shri Probodh Kumar Sanyal, the well-known Bengali novelist, presided. Among others present was Shrimati Banerjee, wife of the Mayor.

Besides, the Mayor had to fulfil different other public engagements. Presiding over a Bridge Tournament, organized recently by the Patrika-Jugantar Office, the Mayor, Shri Bejoy Kumar Banerjee, stressed upon the world-wide popularity of the Contract and Auction Bridge and congratulated the winners while he distributed prizes to them. He also thanked the organizers for conducting the tournament to the entire satisfaction of all concerned.

CITY-NEWS-PARADE

OBITUARY The death of Shri Haripada Bhaumik, O.B.E., former Postmaster-General of Madras, occurred at his residence, Mayville Gardens, southern part of the city, on the 28th April. He was 78.

Born in 1881, the late Shri Bhaumik had his early education in Cooch Behar and graduated from the Roorkee Engineering College in 1906. He joined the Telegraph Department as an Assistant Engineer and rose to be the Engineer-in-Chief. During his period of service radio-link between India and U.K. was established and trunk telephone services introduced. He retired as Postmaster-General of Madras in 1938. The late Shri Bhaumik was made O.B.E. in 1934.

Besides, the late Shri Bhaumik was a member of the Institute of Engineers and its President in 1945. For two terms he was the Dean of the Faculty of Engineering of Calcutta University and for some time a member of its Syndicate and Senate. He was also connected with the Ramakrishna Mission Institute of Culture, Calcutta. He was a member of the Corporation Inquiry Commission, appointed by the Government of West Bengal in 1948. It was headed by Shri Charni Chandra Biswas.

The Corporation at one of its meetings condoled the death. Eloquent tributes were paid to his memory by the Mayor, Shri B. K. Banerjee.

Shri Bijoy Kumar Sarkar, a former Lecturer of Economics, Calcutta University, and younger brother of the late well-known economist, Prof. Binoy Kumar Sarkar, died at his residence on Friday, the 24th April last. He was 71.

The late Shri Sarkar was sent by the National Council of Education to the U.S.A. where he obtained a degree in Economics at Harvard. He was for four years Professor of Economics, Central Hindu College, Banaras before joining Calcutta University's Economics Department.

The Corporation also condoled his death at one of its meetings.

ACCIDENTS IN CITY. A 50 year-old employee of the Central Telegraph Office fell down on the floor, while he was coming out of the bath room in the early morning of Monday, the 27th April. After removal to the Medical College Hospital, he was found dead.

A sweeper of the Calcutta High Court fell down on the floor unconscious and died on the spot.

A 27-year-old man, working on the second floor corridor of the north-eastern corner of the Raj Bhavan, accidentally fell down on the ground on Sunday, the 26th April. He was removed to the Medical College Hospital, where he was declared dead.

The Fire Brigade hauled up a 52-year-old sweeper, Banarashi Mala, from a septic tank in the dock area, on Wednesday, the 30th April. Doctors pronounced Mala dead. He was suspected to have died from the effect of poisonous gas. The man had waited for about two hours at the mouth of the tank with the lid open for the gas to go out before he entered into it.

IQBAL DAY was observed at the Pakistani Deputy High Commission, Park Circus area, on Tuesday, the 28th April. The Deputy High Commissioner, Janab Ahmed Ali, presided. There was a large gathering.

The programme comprised of recitations from Iqbal and brief speeches explaining Iqbal's philosophy and literary achievements.

Janab Ali said that the remarkable thing about Iqbal was his versatility. He was a poet, philosopher, prose writer, and a leading politician. He sought to interpret Islam in the context of modern thought.

Dr. M. Z. Siddiqui, Professor of Calcutta University, emphasized that Iqbal belonged not to any particular strip of land but to the whole world.

Janab E. H. Enver of the Deputy High Commission said that Iqbal was Pakistan's national poet as Pakistan sought to identify itself with Iqbal who could not, however, be appropriated by any particular country.

DR. JANAN GHOSH'S DEATH WAS MOURNED by the Calcutta citizens at a meeting held in the Mahajati Sadan Hall, Chittaranjan Avenue, on Monday, the 26th April. The Sheriff of Calcutta, Alderman G. Basu, convened the meeting.

The meeting adopted a resolution expressing profound grief at the death of Dr. Ghosh, who, by dint of patient and hard work and devotion, had established for himself a unique position in the rank of scientists, educationists, thinkers and administrators of modern India.

Paying his tribute to the memory of the late Dr. Ghose, the Chief Minister, Dr. B. C. Roy said that he was one of those brilliant sons of Bengal who were trained by their master, the late Sir P. C. Roy. He was a great scientist and an ideal teacher. He was, above all, a great patriot who came forward to serve his Motherland when the call came to him from the Planning Commission. His life was "really dedicated to the service of the country", added the President.

Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, recalled the services rendered by the late Dr. Ghose at the University of Dacca, then as Director of the Institute of Science at Bangalore, as the Vice-Chancellor of the University of Calcutta, Director, Institute of Technology at Kharagpur and lastly as member of the Planning Commission. Through his sincere devotion and deep love for the students he had endeared himself to the boys so much that they could not forget him. Dr. Ghose could be acknowledged as the architect of technological education in India and through his care and zeal Kharagpur Technological Institute had become a "model institution" of its kind in India.

Shri Sankardas Banerjee, Speaker, State Legislative Assembly, Shri Hemendra Prosad Ghose, and Dr. Protap Gula Roy also paid tributes to the memory of Dr. Ghose.

A Committee, with Dr. B. C. Roy, as Chairman, was formed to devise ways and means for raising a suitable memorial of Dr. Ghose. The Committee members included the Ex-Mayor, Dr. Triguna Sen, Shri P. C. Sen, Shri S. D. Banerjee, Prof. N. K. Sidhanta, and Shri T. N. Singh, a member of the Planning Commission.

A 14-MEMBER PARLIAMENTARY DELEGATION FROM EAST GERMANY came on a three-day visit of this city towards the close of April last week. The Delegation had already visited Bombay, Agra, Ceylon and Delhi.

Members of the Delegation headed by Dr. Johannes Dieckmann met the State Chief Minister, Dr. B. C. Roy at the Writers' Buildings on Saturday, the 25th April last and discussed various questions of mutual interests.

Other members of the Delegation also met the Indian Statistical Institute and other places. Many members of the Delegation visited the Indian Museum.

Later, they went to the Assembly House and met the Chairman, the Speaker and prominent members of the State Legislatures. The Delegation saw the working of the electrical vote-recording machine in the Assembly House. They were later entertained at a luncheon by the Speaker of the State Legislative Assembly. The leader of the Delegation, Dr. Johannes Dieckmann spoke there.

Other members of the Delegation also met the Mayor, Shri Bijoy Kumar Banerjee and the Deputy Mayor, Shri Kishorlal Dhandhanla in the Central Municipal Office Buildings, S. N. Banerjee Road.

At a Press Conference on next day, Herr Matern, who was proud of East Germany's industrial and economic development, said "we had to work hard to overcome our difficulties. We now want peaceful competition with West Germany."

The Delegation left the city on Sunday, the 26th April.

SECONDARY AND PRIMARY SCHOOL TEACHERS STAGED A DEMONSTRATION in the city on Thursday, the 30th April. As the procession, which included many women, approached the south-east gate of Raj Bhavan, near the Esplanade East-Old Court House Street junction, it was stopped by the police. The demonstrators squatted on the road. Their leaders tried to contact the Chief Minister who had earlier sent a message that he would look into their demands and convey to them his reactions later. The demonstrators then dispersed. The teachers started from the Maidan at the foot of the Ochterloney Monument, where a few speeches were also made. They were led by Shri Satyapriya Ray, M.L.C., Dr. M. M. Chakravorty, M.L.C., and Shrimati Anila Devi, M.L.C.

The teachers' demands included legislation to replace the Primary Education Acts of 1919 and 1930, a democratic and autonomous Board of Secondary Education, integration of the three stages of education and fixation of the minimum salary of teachers at Rs. 100/- only.

According to State Government sources not more than 40 per cent. of the Secondary Schools in the city was affected. Attendance of teachers in primary schools was less than in Secondary schools. Government and Missionary schools were unaffected.

A FIRE: Newsprint rolls, wrappers and bags of clay caught fire in shed No. 3 at King George's Dock in Kidderpore, Calcutta, on Thursday, the 30th April. The fire spread to the bags of fireclay lying nearby. An engineer, and the Shed Superintendent, with the help of some porters, turned a hose on the flames. Two fire engines extinguished the fire soon.

Most of the newsprint rolls, which had come from Sweden, were saved. The fireclay was to be sent to a steel plant.

TRAM SERVICE WAS SUSPENDED FOR A SHORT PERIOD IN CITY on Sunday, the 26th April, when workers refused to take out the cars as they had to undertake a new duty schedule. The workers protested against implementation of the rule in regard to what is termed by the management "correct reporting time."

Accompanied by three workers, Shri Nepal Roy, M.L.A., met the authorities, which was friendly, that the new duty schedule would be kept in abeyance when the management would discuss the matter with the Joint Committee of Tramwaymen.

The workers resumed duty at Kidderpore and at Rajabazar and normal services were restored at noon.

SOCIAL CRIMES: Enforcement Branch police seized 10 lbs of skimmed milk powder near the Government Milk Distribution Centre in Central Calcutta on Friday, the 24th April last. Eighty-two forged milk ration cards were found among those who had formed queues outside the centre. Nine persons, who are suspected to have drawn milk powder from the centre against false ration cards, were arrested.

DR. ROY SPEAKS ON CO-OPERATIVE ENTERPRISES.

PHOTO : S. B.

WHILE opening the show-room of THE NORTH CALCUTTA LEATHER WORKERS' CO-OPERATIVE SOCIETY, at E-92, College Street Market, central part of the city, on Tuesday, the 28th April, the State Chief Minister, Dr. Bidhan Chandra Roy, praised the workers' activities in bringing about economic development of the country through their personal efforts. He also felt that an intensive campaign on co-operative movement would sure to bring about changes in the economic face of the country.

The largely attended inaugural function was held through a meeting in the Municipal Museum Hall, adjoining the shop. There Dr. Roy paid eloquent tributes to the memory of late Shri Jnananjan Niyogi, who had dedicated his life for the welfare of the people through corporate bodies. The late Shri Niyogi was once a colleague and associate of the present Chief Minister.

The State Chief Minister further said that economic improvement of each and every community in the society was possible if the workers acted in a spirit of co-operation. He said that work in an isolated manner would take them nowhere. Expressing satisfaction over the formation of the co-operative society by the cobblers, Dr. Roy hoped that other communities should appreciate the importance of work on co-operative basis and come forward to organise such societies.

It may be recalled here that the Co-operative Society owes its existence to its Chairman, Shrimati Asha Roy, due to her untiring efforts and enterprises. The State Government had also made an advance of considerable sum to make a good share as an aid to the leather industry on a hypothecated basis. About 200 cobblers have been provided with proper training from the State Government's Leather Institute, Tangra.

Shri Sankardas Banerjee, Speaker, West Bengal Assembly, said that so long the cobblers were the most neglected people of the society. In the rural areas most of the cobblers' families were landless. He was glad that, of late, some change in the social life among the cobblers had taken place. The President of the meeting also emphasized the need for the formation of co-operative societies of the cobblers living in the rural areas also.

Earlier, Shrimati Asha Roy, welcomed the Chief Minister, Dr. Roy and the Speaker Shri Banerjee. An address of welcome on behalf of the workers of the Society, was presented to the Chief Minister.

Among those present were Dr. Narayan Roy, M.L.A., Shri Amar Basu, M.L.A., Shri Ganesh Ghosh, M.L.A., Dr. Hirendra Nath Chatterjee, M.L.A., Councillors Govinda Chandra Dey, Dr. K. P. Ghosh, Samar, Mukta, Dr. Sudhanshu Sengupta and others. The audience also included among others Shri L. N. Roy, Deputy Commissioner, and Shrimati Bidhan Chandra Roy.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

Water Works Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 11th May, 1959 upto 2 p.m.

The abstract of the estimate can be seen at the Chief Engineer's office (Estimating Section). The Corporation Standard Specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P. I. works may at the discretion of the Commissioner be forfeited.

Construction of a compound wall for securing the tube-wells at Mogalbagan on Narkeldanga Main Road—Rs. 4,561, dated 24th April, 1959 (one month).

Please note that the words in italics (7 days notice) as printed in Clause 6 of the Petty Tender form is to be read as "5 days" Notice.

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

S. C. MUKHERJEE,
Executive Engineer,
Water Works.

Central Municipal Office,
The 30th April, 1959

District No. III Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 6th May, 1959 upto 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within 1 week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works

may at the discretion of the Chief Executive Officer be forfeited. Agreement and Security Deposit are not necessary for works valued below Rs. 2,500/-.

16. Repairs to footpath along northern side of Convent Road in Ward 47—Rs. 4,757, dated 29th April, 1959 (two months).

17. Repairs to footpath of Rawdon St., bet. Theatre Road and L. C. Rd.—Rs. 3,425, dated 29th April, 1959 (one month).

18. Repairs to footpath of Dehi Sirampur Road bet. Junc. of Tiljala Road and New C. I. T. Road—Rs. 4,097, dated 29th April, 1959 (1½ months).

19. Repairs to southern footpath of Camac Street bet. L. C. Road & Theatre Road—Rs. 3,477, dated 29th April, 1959 (one month).

20. Repairs to footpath of Dehi Sirampur Road (Portion) bet. premises No. 4 & 6—Rs. 3,819, dated 29th April, 1959 (1½ months).

21. Maintenance to sewer by providing a Manhole in front of 43, Paddapukur Road—Rs. 517, dated 29th April, 1959 (21 days).

22. Repairs to footpath of Dilkhusa Street (portion) from junc. of Tiljala Road to the culvert—Rs. 2,937, dated 29th April, 1959 (one month).

23. Repairs to footpath of Gora Chand Road from junction of New C. I. T. Road to junc. of Tiljala Road—Rs. 3,828, dated 29th April, 1959 (1½ months).

24. Repairing and protecting the arched roof of south wing of Electrical Shop at Entally Workshop—Rs. 4,761, dated 29th April, 1959 (two months).

25. Repairs to footpath in Lower Circular Road (from premises No. 167-170) —Rs. 3,778, dated 29th April, 1959 (two months).

26. Repairs to eastern footpath of Nafar Kolay Road in Ward 48—Rs. 3,822, dated 29th April, 1959 (two months).

27. Repairs to footpath of Rammohun Behra Lane bet. Dehisirampur Road and overhead rail line—Rs. 3,407, dated 29th April, 1959 (one month).

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—Four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

NINETY-EIGHTH BIRTH ANNIVERSARY

[By DR. KALIDAS NAG, M.A., D. LITT. (Paris)]

RABINDRANATH'S Ninety-ninth Birthday is being celebrated in his native city, Calcutta. It may surprise and shock the City Fathers that their hypothetical existence was for the first time recognized by a Catholic Viceroy, Lord Ripon (1880-1884), who saw through the passing of the Local Self-Government ushering into existence of this Calcutta Municipality. Rabindranath returned from his first European tour (1878-1880) and began plying his pen not only in writing and producing his "Valmiki Pratibha" but also some prose articles, scattered in the then local periodicals. Even local politics of the Banerjee and Mukherjee groups created a furore in those days and we appreciate to-day the Poet's high admiration of Sir Surendra Nath Banerjee, who in 1923 caused the emergence of the Calcutta Corporation from a Municipality. With his prophetic voice the Poet inaugurated the historic Calcutta Congress of 1917 in Wellington Square, where we saw the memorable procession with Dr. Annie Besant as President, Mahatma Gandhi, Bal Gangadhar Tilak, Pandit Madan Mohan Malaviya, Shri Surendra Nath Banerjee, Shri Chittaranjan Das and others. That year we saw Chittaranjan and Bipin Pal holding a diplomatic meeting in the Jorasanko House of the Poet.

The end of the first World War did not end the sufferings of the Indians. The reward of the British victory was Amritsar Massacre. And the first protest against that inhuman treatment came from the non-Party man Sir Rabindra Nath Tagore, who flung the personal honour to vindicate the honour of his people. With what solemn grimness his English admirers received him in England, I personally saw when I joined the Poet in his London apartment. It took nearly ten years for the Britishers to forget the rejection of Knighthood and to invite him to Oxford to deliver his memorable Hibbert Lecture on the "Religion of Man". After that lecture I saw him plunging into the vast Soviet

World and thence emerged the historic 'Epistles'.

I was busy then collecting messages and contributions from admirers of the Poet in Europe and America, published as 'THE GOLDEN BOOK OF TAGORE'. The book opened with a touching four-line message from Mahatma Gandhi, then in Jail and so transmitted by the Officer-in-charge who sent it to us with multi-coloured stamps and symbols all over.

The Seventieth Birthday celebrated worthily in the Town Hall of Calcutta and my friends Shri Prasanta Mahalanabis and Shri Arsal Home worked hard to make the *Tagoriana Exhibition* a grand success.

A special issue of 'The Calcutta Municipal Gazette' first time gave the complete bibliography and biographical sketch of the Poet up to his 70th Birthday. So the GOLDEN BOOK OF TAGORE won the warmest appreciation of the international elite of Arts and Letters.

Our Chief Minister, Dr. Bidhan Chandra Roy, then Mayor of Calcutta, personally handed over to the Poet the gold-embossed copy of the Book to the Poet who graciously received it and expressed his thanks, then printed in all the leading papers. I had the honour of re-counting the story on the grounds of the Government House before Her Excellency, Shrimati Padmaja Naidu, who warmly offered to welcome the women and children of Calcutta in her lawns during the Tagore Centenary Festival. The first consultative meeting was invited by her in her Council Chamber where various suggestions relating to the Centenary celebrations were offered. But the most creative idea and dynamic planning came from our Chief Minister, Dr. Roy, who publicly announced the read in the Assembly House also) that he would do his level best to worthily perpetuate the memory of the immortal Poet by acquiring his ancestral house on

911936 VICTIMS AND REVIEWS

APPROVED BY THE GOVERNMENT OF INDIA

MAYORS' CONFERENCE IN OOTACAMUND

The Corporation at its meeting on the 8th May, requested the Mayor, Shri Bejoy Kumar Banerjee, to attend the All-India Mayors' Conference scheduled to be held in Ootacamund on the 19th June. The Conference was suggested by the Mayor of Delhi, Shrimati Aruna Asaf Ali, and the invitation was extended by Shri A. P. Mathur, Under Secretary, Union Health Ministry.

The Delhi's Mayor thought that the meeting would not only strengthen the forces of unity but would also be a step in the much-desired direction.

The Mayor, Shri Banerjee, would be accompanied by the Corporation Secretary, Shri Benoy Jiban Ghosh, and the Mayor's Personal Assistant.

NEW ELECTORAL ROLLS

Calcutta Corporation's Election Department has undertaken the arduous task for preparing new electoral rolls of general elections on Constituency wise basis, numbering 75. The preparation work in Tollygunge area has also been undertaken later on. According to the provisions of the Calcutta Municipal Act, 1951, the process of preparing new rolls have to be repeated at three years' intervals in order to modify as well as to make the rolls most up to date.

The Act further provides that all the rate-payers and the license-payers' names would be included in the rolls. Besides, persons having educational and other qualifications have to apply to the Registering Authority in prescribed forms for inclusion of their names after proper scrutiny. In compliance with that, the Department concerned has already distributed about 50,000 forms among the qualified voters in the city. Arrangements have also been made to distribute them locally through public organizations and institutions so that it might reach to each and every prospective voter. Notices have been published through newspapers and other agencies. For wider publicity mikes and loudspeakers have been used in order to attract larger number of citizens. Arrangements have also been made to exhibit slides regarding this through the city's twelve cinema houses and to broadcast the news through the All-India Radio, Calcutta Station. The Registering Authority, Shri H. Das Gupta, who also happens to be the Assistant Secretary of the Local Self-Government Department, further contemplates for a wider and intensive publicity, as the response from the citizens has not been made in a desired way.

In the meantime, deputations are being sent to the Mayor and the authorities for introducing adult franchise system in the city instead of the present limited franchise.

It may be recalled here that in the last General Election in 1957, 1.95 lakh voters were enlisted. It is expected that this year the total number would far exceed the previous ones.

CORPORATION MOURNS THE FIRE VICTIMS

The Corporation mourns the death of the fire victims occurred recently in the district of Nadia a few days back. The Mayor, Shri Bejoy Kumar Banerjee paid tributes to their memory when it was referred to in the House by Councillor Anil Maitra at its meeting on the 8th May.

The incident referred to was that seven persons were burnt to death in a devastating fire in Fajilpur village in the Karimpur Thana, Nadia, on Sunday, the 3rd May. About one thousand houses were destroyed by the fire. Nearly 300 families were affected.

A fire in a village in the Tehatta Thana, Nadia, also destroyed 60 huts and killed a person, according to another report received in the city.

CALCUTTA'S METROPOLITAN WATER BOARD

Suggestions are being poured in from time to time for the formation of a Metropolitan Water Board comprising of this great city and its adjoining municipal areas in order to fulfil the long felt grievances of removing of scarcity of water supply. The idea was mooted long ago in the minds of the authorities and it had been found that unless a comprehensive scheme was adopted there was little chance of the problem being solved specially when every municipality was vexed with the same. The drainage difficulties were no less important.

Paucity of adequate funds for the purpose stood in the way probably and a recent announcement in this regard would bring relief to all concerned. The work to plan and programme a Rs. 100-crore scheme for the formation of a Metropolitan Water and Sewage Board would be undertaken soon. The West Bengal Government in co-operation with the World Health Organization and the Technical Co-operation Mission, will start a research centre in this city at an estimated cost of Rs. Four Lakhs for the collection of data and other queries on the Hooghly water soon.

The Water Board Scheme has been designed to supply drinking water to the entire area covered by 32 municipalities in and around the city and also for the formation of a common sewage system. The water will be drawn from the Hooghly and will be carried to those municipal areas.

The scheme will be taken up for implementation by the end of the Second Five Year Plan or in the early part of the Third Plan period. The location of site for the formation of the Board would be made by a survey team of the World Health Organization, Technical Co-operation Mission and the State Government and it would take at least two years to complete the implementation work.

After completion the different Municipalities will be given the supply of water and be provided

with suitable arrangement for sewage against payment of rates and charges.

In order to collect all the relevant data regarding the sample of water in the Hooghly, the ebb and flow conditions and other factors of the river, the State Government has already formed an Expert Committee with representatives of the W.H.O., T.B.M., the Calcutta Port Commissioners and the Calcutta Corporation. The collection of data will continue for a period of about six months.

For implementation of the gigantic scheme, which was drafted by the State Government several years ago, the W.H.O. have offered assistance to the extent of Rs. 70 crores, in the shape of machinery and implements. The balance of Rs. 30 crores will be shared by the Government of India and the State Government.

But it is to be reminded here that this Corporation had felt the need of such a scheme long ago in view of the urgency of the work. Moreover, the position of many of the adjoining municipalities as regards water supply and drainage is most disappointing and unless immediate help is given to them either by individuals or jointly there would be little improvement in extending civic amenities to people residing there.

CORPORATION MEASURES TO CHECK SPREAD OF CHOLERA

The Calcutta Corporation at its weekly meeting on Friday, the 8th May, took adequate measures in order to check the spread of cholera in the city. Water Supply forming the main part of it, was pointed out earlier. The Mayor, Shri Bejoy Banerjee, put up those measures. They were discussed informally in the Mayor's office room beforehand due to the absence of any Standing Committee to function and to deal with them.

The House authorized Shri P. C. Mazumdar I.A.S. (Retd.), the Chief Executive Officer, to purchase materials worth about Rs. 2.5 lakhs to sink 500 small dia. tube-wells out of Borough Funds. Spare parts worth Rs. 1 lakh for sinking deep tube-wells were also sanctioned by the House. There was provisions in the Budget estimates for the same.

The House further authorized the Chief Executive Officer to proceed with the re-sinking of about 200 out of 400 old and defunct tube-wells, at least two in each Constituency, with the help of Borough Funds. The House accepted all these in anticipation of sanction of the relevant Committees.

In the city proper, the fall in the pressure of filtered water supply and a large number of tube-wells going out of commission, have created a problem, assuming to be of a serious proportion. In all these areas, the scarcity has not only resulted in a failure to meet the domestic needs of the people, but also affected the supplies in schools, and public institutions.

Councillors Tulsi Charan Paul, Brojendra Nath Banerjee, Ratan Manick Chatterjee, Susil Kumar Paul and others felt that the delay in sinking tube-wells should not be allowed any longer and the work should be taken in earnest.

Supporting the views expressed earlier, in regard to water scarcity and epidemics, the Ex-Mayor, Dr. Triguna Sen said that the

members were also to be blamed for the state of affairs experienced almost every year during the summer. For better functioning of the Corporation the Standing Committee should have been constituted earlier, he remarked.

It was further decided that a sum of Rs. One Lakh would be provided for the purchase of five new ambulance vans. The addition of new vans replacement of the old ones were felt urgent. A few members wanted to know why steps had not been taken earlier in the year to ensure smooth working of that essential service. At the request of the Mayor, Shri Banerjee, the Chief Executive Officer read a report by the Health Officer which stated that efforts were being made to press into service 12 vans during each of the morning and evening shifts and eight vans at night and to appoint the necessary staff for which a sum had been sanctioned by the Standing Finance Committee earlier. The provision is Rs. 10,000 for an extra staff of five drivers and 13 attendants.

Of the ambulance fleet of 21 cars 14 could be properly utilized. Of the total five were new, nine bought in 1953-54 and the rest were old. About six or seven cars had to be daily sent for repairs, the statement added. The police had offered the services of two cars and another might be available from a social service organization. Considering the number of calls the working fleet was not inadequate, admitted the Chief Executive Officer, Shri P. C. Mazumdar.

According to the statement the Officer said that in spite of full utilization of the services of the drivers and stretcher-bearers, maintained for the purpose, there were dislocations in the services due to the fact that the strength of the staff there was on the marginal point. Shri Mazumdar presented a duty chart of the staff.

In regard to the proposal to decentralize the service, the Chief Executive Officer said that a site had been selected on Belvedere Road, Alipore, for the south garage. A plan has also been drawn up. The station is expected to be completed this year but not in time to operate during the current cholera season. Provisions were there in the last year's Budget, the officer said.

Not satisfied with the statement Councillor Brojendra Nath Banerjee strongly criticised the inefficient way of functioning of the section. Citing a particular case Councillor Banerjee said that an ambulance visited the spot at Pathuria ghata Street, 90 minutes after receiving the call and found the patient, an Electric Mistry, to be dead.

Councillor Naren Sen said that the improvement of ambulance service would not be possible by mere increasing the number of vans or drivers and attendants but what was essential was to see that the staff of the section discharged their duties properly. He demanded that a thorough enquiry should be made in this respect. Councillor Sen also emphasized the need for proper maintenance of ambulance cars. He said that it was found that the same ambulance was sent for repair twice in a particular day.

Eleven ambulance vans were pressed into service between 6 A.M. and 10 P.M. instead of the nine that usually operated during the same period. At

night, there would be six instead of seven as the cholera cases were generally reported in the morning hours.

The Department had attended nearly nine hundred calls so far from the 27th April last, the majority of them reported towards the morning on a categorical basis.

The Chief Executive Officer further assured the House on that day that he had asked the Department concerned to see that no delay occurred over repair of breakdowns in ambulance vans. The Engineering Department had expedited repair work as far as possible but not all spare parts were easily available and the garages were insufficiently staffed.

In the meantime the intensiveness of the disease has not been calmed down. Nearly 450 persons were removed to city's different hospitals during the first eight days of this month. The incidence of the disease continued to rise. During the week ended the 2nd May attacks and deaths were 41 and 13 against 27 and 12 the week before. During the corresponding weeks last year, attacks numbered 508 and 648 and deaths 159 and 310.

During the last seven days of April, nearly 300 persons suffering from suspected cases of cholera were removed to city's different hospitals dealing in infectious diseases. The majority number of cases came from the bustee areas, namely Tangra, Cossipore, Belgachia, Manicktala and others. The disease spread in such a magnitude that it had not spared a City Father-Councillor Amulya Charan Sarkar, representing one of the water scarcity areas. He was removed to the Chittaranjan Hospital, Cholera

Ward. He soon came round by the Almighty's Grace.

Thus a tendency towards rise in incidence has already been witnessed. The exact period of the disease's virulence is generally towards the close of May every year when 30 deaths from the disease in each of the three consecutive weeks resulted in to declare the disease said to have broken out in an epidemic form. The oppressive heat, scarcity of filtered water, unhygienic surroundings were then its accompaniments. Again when the monsoon set in the disease appeared to be subsided in its gradual course. This picture was repeated for the last 15 years and there were exceptional years also. Time is not yet ripe to survey the position this year.

The inoculation drive has also been intensified along with the help of mass propaganda work undertaken by the Publicity Department. During the above-stated week 94,372 people were inoculated against cholera compared with 85,276 the week before. According to Corporation authorities at least 85 per cent of the persons inoculated lived in the bustee areas. The attendance at the temporary inoculation and vaccination centres at least one in each of the 80 constituencies was very low. The centres are open every morning and evening except on Sunday evenings.

Public meetings are being arranged by the Public Relations' Department to persuade citizens to undertake inoculations. Poster exhibitions and other demonstrations are also in work in the city.

Special arrangements have also been made to keep the city clean as far as practicable. Services of Bustee Cleansing Gangs have also been enlisted for the purpose.

Hospitalisation of patients—another method to check the spread of the disease has proved successful to a certain extent.

We are then to watch and wait how the things take shape.

NIKHIL BHARAT BANGA-BHASA PRASAR SAMITY

The special Convocation of the Banga-Bhasa Prasar Samity was held in Tilak Hall, Maharashtra Nivas, Hazra Road, southern part of the city, on the 2nd May last. It distributed prizes and certificates to non-Bengali students who passed primary and middle examinations in Bengali. Non-Bengali girls sang songs and recited poems in Bengali.

Mr. C. W. Naas, the U.S. Consul, spoke in Bengali and Shri Sajani Das, a litterateur, recited Bengali translations of some poems of Bharati, the Tamil poet.

The Mayor, Shri Bejoy Kumar Banerjee, inaugurating the function, appreciated the activities of the Samity. He also assured the audience that he would make his best endeavours to see that the Samity was provided with suitable plot of land from the Corporation in order to house the organization.

Expressing appreciation of the Samity's efforts to help non-Bengalis in learning Bengali Janab Humayun Kabir, the Union Minister for Scientific Research and Cultural Affairs, emphasized the need to translate the best works of different regions into each other's languages. The Government would bear half the cost of such translations, the President assured.

Referring to the Samity's proposal to have a building of its own, the Minister said that he would see whether the Union Government could help in the matter or not? The Samity could expect a grant of between Rs. 1,000 and Rs. 2,500.

Earlier, the Samity's Secretary, Shri J. C. Ghosh, said that one of its patrons, Shri Narasingdas Agarwala, had promised to give Rs. 11½ lakhs to the Samity's Building Fund.

—NINETY-EIGHTH BIRTH ANNIVERSARY

(Continued from page 49)

behalf of the nation and to develop there the TAGORE UNIVERSITY. He has vindicated the honour of his nation by this magnificent idea and jester and we are eagerly waiting to see the different stages in the implementation of his master Plan of the Tagore University.

I venture to suggest to the City Fathers who spend generously for spreading education among the neglected children that they should come forward to the worthy edifice of the Tagore Centenary Hall (1861-1961). That will be the meeting ground in joyous collaboration of the veteran teachers and the boys and girls undergoing a system of new education making themselves as worthy citizens of Free India. The Hall should have an amphitheatre viz. TAGORE AUDITORIUM with an adjoining library and art gallery. The poet, painter, musician and seer RAJENDRANATH will thus be happy and will bless both the young and the old of his Motherland for their loving remembrances.

THE CORPORATION AT WORK

A GIST OF THE PROCEEDINGS OF THE THIRD ADJOURNED MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 1ST MAY, 1959.

DR. L. M. BHATTACHARYYA

The House nominated Councillor Dr. Lalmohan Bhattacharyya, as a representative of the Corporation on the Governing Body of the School of Tropical Medicine, Calcutta, for the term commencing from the 1st May, 1959.

Alderman Dr. Amiya Kumar Bose was the representative during the last term.

ARREAR RATE BILLS

The House re-iterated its old decision in allowing certain concessions to the rate-payers in the payment of arrear Rate Bills. The resolution which was passed by the House unanimously on the 2nd January last, stated as follows :—

That the Assessor and Collector be directed to realize rates and taxes through Supplementary Bills for not more than two quarters at a time and to recall Bills if these have been issued for more than two quarters to a party. Fresh Bills should be prepared and rate-payers should be given the usual time for payment of the Bills.

The resolution was examined thoroughly by the officers concerned and the Chief Executive Officer himself, who gave his anxious thoughts about the implementation of the resolution. But this could not be done so long due to certain controversies arising out of it.

The Standing Finance Committee also examined the resolution on the 17th March last and agreed to adopt the following formula in the matter of realization of Supplementary Bills covering for several quarters and thus recommended the following to the Corporation for consideration :—

- (1) For bills upto 8 quarters—Normal.
- (2) For bills exceeding 8 quarters and upto 12 quarters—
 - (a) 8 quarters—normal, and
 - (b) balance 4 quarters within the financial year.
- (3) For bills exceeding 12 quarters and upto 20 quarters—
 - (a) 8 quarters—normal.
 - (b) 4 quarters within the financial year, and
 - (c) for the balance, 2 quarters in each quarter after the aforesaid financial year.
- (4) For bills exceeding 20 quarters—
 - (a) upto 20 quarters as before, and
 - (b) the balance within the next 4 quarters.

On that day's meeting, several members spoke on the issue. They included Councillors Dharendra Nath Dhar, M.L.A., Mihirlal Ganguly, Dr. Birendra Chandra Basu, Ganapati Sur and others.

The Mayor, Shri. Bejoy Kumar Banerjee, wondered how the Corporation resolution could not be implemented in spite of the House's unanimous decision.

GRANTS-IN-AID TO HOSPITALS

The House, on the recommendation of the Standing Health Committee, released grants-in-aid

to hospitals and dispensaries for 1957-58. The list of hospitals receiving grants also included a few new institutions. It was further decided that no grants should be sanctioned to any of the institutions run by the State Government except under special circumstances.

HOUSE-RENT ALLOWANCES TO EMPLOYEES

The House, on the recommendation of the Standing Finance Committee, passed the following resolution in connection with granting of house rent allowances to its employees :—

"(i) That it be recommended that all staff of the Corporation on pay not exceeding Rs. 45/- per month excepting those who have already been classified as superior staff or be hereinafter classified specifically as superior staff, be classified as inferior staff with immediate effect, and the Regulation 5(9)(a) of the Corporation of Calcutta Service Regulations be modified accordingly.

(ii) That it be further recommended that all labour staff (skilled and unskilled) on pay not exceeding Rs. 45/- per month shall belong to the inferior service.

(iii) The House further reiterates its previous resolution No. (i) dated the 18th August, 1958, that pending decision on other grievances of employees, the benefits of the Fifth Industrial Tribunal Award so far as it relates to house rent allowance to the staff of the Motor Vehicles Repairing Shop, be also extended to all staff of superior service drawing a salary of more than Rs. 45/- per month as recommended above."

MUNICIPAL SERVICE COMMISSION

NEW APPOINTMENTS

Sub: Permanent appointments to the five newly created posts of Inspector, Collection Department in the grade of Rs. 125-5-150-10-300.

In pursuance of the Municipal Service Commission's letter No. 630 M. S. C. 11/2/59 dated the 14th March, 1959 the following resolution was passed by the Standing Finance Committee dated the 23rd March, 1959 :

"That accepting the recommendation of the Municipal Service Commission as communicated in their letter No. 630 dated the 14th March, 1959, Shri Amiya Kumar Bose, Shri Paresch Chandra Bhattacharyya, Shri Nandakrishna Batavyal, Shri Nityananda Dutta and Shri Tarapada Banerjee be appointed to the permanent newly created posts of Inspector, Collection Department, Corporation of Calcutta, in the grade of Rs. 125-5-150-10-300 plus T. A. of Rs. 25/- per month and other usual allowances, subject to the Service Regulations of the Corporation and provided the candidates appointed agree to their transfer to equivalent posts subsequently if so required as a result of reorganisation or rationalisation of the Department."

INDIA-CHINA FRIENDSHIP ASSOCIATION

ARRANGES AN EXHIBITION ON CHINA'S
HANDICRAFTS

The artistic creations and the handicrafts of the Peoples' Republic of China have reached to-day at such a stage that appreciations and admirations are being drawn towards the country not only by her neighbours but also by countries of distant lands. Organized by the India-China Friendship Association, West Bengal, the citizens had recently an occasion to witness such an exhibition where specimens of different objects of arts and crafts were displayed. The exhibition was inaugurated at the Indian Museum House, Sudder Street, by the State Revenue Minister, Shri Bimal Chandra Sinha. The Chinese Consul General in Calcutta, Mr. Lu Hsi and the U.S.S.R. Consul General, Mr. Kosilev were present.

The exhibition was a rich collection of handicrafts in ivory, jade, crystal, porcelain, pottery, stone and of lacquer work. Articles made of bamboo, wood, wax and of braided articles were there.

A specimen of basket made of
braided articles.

A girl with a musical instrument was carved in ivory, a flower vase and paper weight in jade, a cigarette case and basket in lacquer and a covered vessel in crystal attracted the visitors' notice. The porcelain and pottery exhibits included flower vases and art figures. All the exhibits were modern products and showed progress in developing old arts and crafts in China.

There were embroidery work also and one which became most attractive was of a portrait of Rabindranath prepared on fine needle work. The cross-stitching in it was unique. Among the specimens of ivory work was a ball with 20 layers inside placed on a stand. It attracted larger number of visitors. A vessel for cooking made of lacquer ware was marked. The braided articles were made of bamboo, straw and others.

The Minister, Shri Sinha said on that occasion that the cultivation of arts and crafts through centuries had enriched the civilization of India and China.

At the opening function, the President of the West Bengal Legislative Council, Dr. Suniti Kumar Chatterjee, said that China was doing her utmost to revive old arts and to modernize them, if necessary. Chinese arts and crafts had a long history, pottery, for instance, dated from 4,000 years ago, he added.

Film shows were also arranged on Chinese art and artists on the 17th, 22nd and the 26th April. Lasting for about one week there was a symposium on Chinese Art wherein Dr. Nihar Ranjan Roy, M.P., and Shri Chintamoni Kar were speakers.

CHITTAGONG ARMOURY RAID RECALLED

TWENTY-NINE YEARS ago during the evening hours of the 18th April a band of youngmen raided the strong Armoury of Chittagong and carried away whatever they could find there. Panick-stricken European families fled and boarded a ship which remained in anchor at the Port. The raid caused partial paralysis of the Government then in power and the town remained free for three days. The brave youngmen about 40 in number left the town and went to a hill nearby in order to defend themselves. The most heroic fight in the history of independence movement began then between those brave youngmen with limited powers and a battalion of Indian Army with all the resources of the then alien Government at their support. Yet the army had to fall back several times under the heavy fire made by the patriots and their skill of maneuvering. In the end when the army moved to their own position they found a dozen young dead laying down their lives for the liberation of the country and the rest had left the place.

The Armoury Raid shocked India and the death-defying gallantry of the youngmen under the leadership of "Masterda" Surya Sen had paved the path to make sacrifice for thousand others and to plunge into by the independence movement later on, till the end.

The Chittagong Armoury Raid was recalled on the same day and evening at the Municipal Museum Hall, College Street Market, through a public meeting organized on the occasion. It was attended by many of the participants of that historic raid and revolutionary workers. Among them mention might be made of Shri Ganesh Ghosh, M.L.A., Shri Ambika Chakraverty, Shri Lokenath Bal, Deputy Commissioner and others.

The Mayor, Shri B. K. Banerjee as the Chief Guest, paid eloquent tributes to those who had lost their lives in that fight for freedom. Memory of those men and women would help the Bengalees, nay the Indians to work and sacrifice for the country, said the Mayor.

Shrimati Charusila Devi, who presided over the meeting, urged youngmen and women of the country to imbibe the spirit of sacrifice as instanced by Chittagong. The raid was an eye-opener movement that Bengalees could achieve and they would do more in future in times of need.

Feelingly Shri Chakraverty paid his personal tributes to the martyrs and to the great leader Surya Sen whose untiring energy, uncompromising spirit and wonderful genius in organizing skill made the raid possible.

DEATHS AND DISEASES IN THE CITY

The incidence of cholera registered a sharp rise in the city during the week ended the 2nd May. 41 persons were attacked and 13 died of the disease during the week against 27 attacks and 12 deaths in the week before.

Attacks and deaths from small-pox during the week were three and two respectively against attacks and deaths numbering two each in the preceding week.

Tuberculosis claimed 30 lives during the week as compared with 36 in the previous week.

The number of deaths from all causes during the week totalled 694 against 554 the week before.

Assessment Of Calcutta Properties

(By SHRI RABINDRA NATH BHATTACHARYA, M.A.)

DEMAND for revision of the present method of assessing Calcutta properties was urged by a section of citizens' representatives when a deputation met the West Bengal's Chief Minister, Dr. Bidhan Chandra Roy, in the Writers' Building, Dal-housie Square, on Monday, the 5th May. Their main grievances were that the rate-payers had been hard hit with the recent General Revaluation undertaken by the Corporation. The deputation included Shri Sidhartha Sankar Roy, Shri Hari-das Mitra, Dr. Jnan Mazumdar, and Shri Basanta Kumer Panda, all M.L.A.s. Councillors Anil Maitra, Prasanta Kumar Sur and Sachin Sen were also in that deputation. They represented the South Calcutta Citizens' Co-ordination Committee.

Through a Memorandum they characterized the present system of procedures followed in assessment, according to the Calcutta Municipal Act, 1951, as "both inequitable and inefficient" and said that it gave rise to "discrimination and arbitrariness." They also suggested that an independent authority be established for the assessment of properties in the city which would yield Consolidates Rate. They further urged that a Tribunal be appointed to deal with assessment cases so that the long standing arrears might be quickly disposed of. The Chief Minister is stated to have assured them that he would consider their suggestions.

As a result of the recent General Revaluation taxes had been increased "four to five times" and all houses, whether residential, partly residential or entirely let out, were assessed on the same rental basis. Unfortunately there was no definition of fair or standard rent in the 1951 Act, they alleged.

The Memorandum further felt that the basis of taxation should be changed by amending the Act of 1951. The Memorandum suggested that all houses should be assessed on the basis of five per cent of cost of construction plus the value of land at the time of assessment less depreciation at a certain percentage to be fixed on proper enquiry.

The privilege of paying a lower rate of taxes, so long enjoyed under the Calcutta Municipal Act, 1923, by house-owners who were widows or minors, had been abolished with the introduction of the new Act. Another cause of serious hardship to occupiers of bustee huts and flats in big houses was that these properties were assessed as single units and were taxed at a high rate, as a proportionate share of which had to be paid by the occupiers. These were among matters which, the deputationists stressed, needed rectification so that the middle and lower income groups might get relief.

A special reference to the Tollygunge area was also made by the deputation. A large concentration of refuge population there, who were mere occupiers of squatters' colonies, should not be made liable to pay the owners' share of Corporation taxes until the ownership of plots of land concerned vested in them.

A rebate of 5 per cent in the taxes should be allowed where there was no street lighting and another rebate of 5 per cent where there was no conservancy service, they also demanded.

The method of assessment of holdings under the existing Act, had been a subject to criticism on

all hands since the days of its introduction. Not only the floor of the Council Chamber was utilized as the venue for voicing the rate-payers' grievances but also the public platform and the press was used to make an equivocal protest against the new system. Special Committees were appointed from time to time since the introduction of the New Corporation in 1952 to devise ways and means as well as to put up suggestion to suitably amending the Act. Almost all of them were forwarded to the Local Self-Government Department, Government of West Bengal. But they were able to move the authorities very little.

During the discussions on Budget estimates every year the majority of the Councillors concentrated their speeches against the assessment of properties and holdings. And there was no exception during this year also. As many as three scores of speakers raised their voices and urged the House to accept new processes and procedures in assessing holdings. They had suggested at least a revision of the rates of slab system so that the Corporation might not lose its total target revenue. Rather it aimed to benefit the poor and middle class families in the way of further lowering the slabs on the downward side and by raising the higher slabs to still higher.

It may be recalled here that the Corporation's proposal for the revision of rate structure was passed in the form of a resolution during last August and was forwarded to the State Government for necessary action. The Government had then asked the Corporation to furnish a detailed report on the financial implications of the proposal both loss and gains.

From the report of the Corporation, it was learnt, that the institution would have a fall in revenue income by Rs. 7.72 lakhs approximately for the year 1959-60 if the percentage of the rate on the annual valuation of land and premises was altered from the existing rates to the proposed ones.

The resolution suggested a graduated Consolidated Rates on the annual valuation of land and premises. It proposed that the rate should not exceed 12 p.c. on annual valuation which did not exceed Rs. 1,500, 16 per cent on annual valuation exceeding Rs. 1,500 but not exceeding Rs. 3,000, 20 per cent on annual valuation exceeding Rs. 3,000 and upto Rs. 5,000, 22 per cent on the annual valuation exceeding Rs. 5,000 but not exceeding Rs. 10,000, and 25 per cent on annual valuation exceeding Rs. 10,000. It provided that where the annual valuation exceeded Rs. 10,000, a maximum of 33 per cent might be imposed as Consolidated Rate. This was the unanimous decision of the House when it considered an ad-interim report of a Special Committee appointed for the purpose headed by the then Deputy Mayor.

Similar suggestions were, however, made during the last budget discussion with very little effects.

The Corporation at its weekly meeting on the 1st May considered the State Government's letter in that connection. The letter also pointed out that under Section 165 of the Calcutta Municipal Act it was within the competence of the Corporation to alter the percentage rates on the annual

valuation for fixing the Consolidated Rate so long as the annual valuation is not more than Rs. 500 per year.

The House agreed to comply with the request of the Government. Members did not look favourably with the attitude of the Government. They remarked that the Government should have been more prompt in this regard taking sympathy on the poor rate-payers.

Councillor Biman Mitra found no reason for financial implications as the Corporation was going to reap good harvest when the work of General Re-valuation would come into effect.

The Ex-Mayor, Dr. Triguna Sen, urged the Government to accept the proposals as the financial implications would little disturb the Corporation Finance.

Although the Government of any country do not currently levy direct taxes on real and personal properties at all still the cities, in the Western countries, derive their chief sources of income from general property taxes. However, in Municipal finances of these days the importance of the general property taxes is not as great as it had been in the past.

In the United States of America, the most important type of general-property tax is that which is levied directly upon real properties located within the bounds of a city. There are wide variable tax rates in the cities of the United States. With the move for urbanization assessed valuations of properties in that country are generally somewhat higher now than they were several years ago.

The 'Municipal Finance Administration' (published by the City Managers' Association, Chicago, U.S.A.) has divided properties within the bounds of a city into real and un-real. The former is visible, bulky and immovable. Furthermore the system of assessing has been put into some technical and mechanical processes aiming to achieve the uniformity of the system.

Good assessment practice demands continuous accumulation of data concerning real property values. If these data are to be put to their highest use, the assessment process must also be virtually continuous. Every real property should be subject to re-valuation each year. In practice one-third of the States permit re-valuation by the Assessor in alternate years, while others allow re-valuation in one out of three or four years.

The main difficulties arising in connection with determination of valuation of real properties, have been enumerated in the 'Municipal Finance Administration' as follows:—

(1) No two parcels of real property are identical, since one of the principal factors affecting the value of the real property is its location and no two parcels of land can have identical locations;

(2) Sales of real property occur at relatively infrequent intervals;

(3) Land is virtually irreplaceable and so has no re-production cost which can be used in the valuation process; and

(4) Both land and buildings have long economic lives, which make it difficult to estimate income over the whole future life span and confronts the appraiser with difficult depreciation problems:

One of the fundamental requisites of all standardized assessment system, yet to be developed,

is the separate valuation of land and improvements. Entirely different methods are used in the appraisal of improvement which begins with the establishment of approximate reproduction costs. But land, being for all practical purposes irreproducible and as such, does not have a reproduction cost. Land appraisals for tax purposes are made by means of comparison with parcels whose market values have been established by recent sales or it can be estimated with some degree of accuracy by capitalization of land income.

Moreover, by means of annual revision of valuations, injustices or faults done in one year can be eliminated before they have wrought serious hardships or created serious dis-satisfaction in the minds of the tax-payers. Furthermore, cyclical and even seasonal fluctuations can be removed to a certain extent if it can be performed by a full-time staff of carefully chosen, trained, and experienced employees.

In Great Britain, the rating system appeared to be not so complex as in many other countries. Their rates are an annual payment made by a householder to the Local Authority based on the value of the property. The rateable value is based on the rent that the property would reasonably fetch from year to year in the open market. These values are calculated by Government Valuation Officers. The amount of rates paid by each rate-payer depends firstly on the rateable value of his property and secondly on the 'rate in the pound' fixed by the local council for the current year.

But in this city much water has been poured for the determination of assessment valuation. According to the present Act of the Calcutta Corporation the annual valuation is generally determined on the net annual rent earned by a property. Differential treatments in fixing rent have also been witnessed. An annual rent fixed by the Assessor very often differ largely from a rent fixed by the legal authorities, viz., the Rent Controller or the Government Land Acquisition Collector. Some time ago, the Ex-Mayor, Dr. Triguna Sen, appointed a Committee of experts to find out ways and means in order to smoothen the act of assessment. He was then also under the impression that the State Government would accept the suggestions put forward by the Corporation and would cause amendment of the Act accordingly. But things did not move as it was expected. Hence the crux of the situation faced by the Corporation.

NEW BRITISH INFORMATION OFFICER

Mr. F. J. F. Storrs has taken up the post as Regional Information Officer, British Information Services, Calcutta, on the 2nd May last, Mr. Storrs' previous appointments included a period with the Control Commission in Berlin, with the Organization for European Economic Co-operation in Washington, and with the English Speaking Union in London, where he was in charge of the Commonwealth-American Affairs Education Unit. Later Mr. Storrs had been Director of Public Relations to the Government of Cyprus.

Mr. Storrs met Calcutta's newspapermen on Tuesday, the 5th May in his office, Harrington Street, and assured them that co-operation and co-ordination in having information and non-committal news would never be wanting from his

CITY NEWS PARADE

OBITUARY: The death of Shri Nalini Nath Maitra occurred at the Sukhlal Karnani Hospital, Calcutta on Saturday, the 2nd May last after a short illness. He was a veteran Congress leader and a co-worker of Deshabandhu Chittaranjan Das. He was 81.

The late Shri Maitra hailed from Tangail, Mymensingh now East Pakistan. In 1921, at the instance of Deshabandhu, he joined the national struggle for independence. He gave up his profession as a lawyer. He was in-charge of the famous Tarakeshwar Satyagraha Movement. He suffered several terms of imprisonment for the cause of freedom. He was served with externment order from his home District Mymensingh after his release from jail in 1933 for participating in revolutionary activities. He also worked as a disciple of Mahatma Gandhi in his Wardha Ashram for sometime.

The Corporation at its weekly meeting on the 8th May mourned the death. Eloquent tributes were paid to his memory by the Mayor, Shri Bejoy Kumar Banerjee.

The death of Dr. Premnihar Ray, an eminent Surgeon of the city occurred on the 27th April last. He was 60.

After graduating from Hazaribagh College, the late Dr. Roy entered Calcutta Medical College and took his M.B. Degree in 1924. He secured the gold medal for proficiency in surgery and was awarded the Duke of Edinburgh prize. He then joined St. Bartholomew's Hospital, London, where he became an F.R.C.S. Returning to Calcutta, he worked in several leading hospitals. He was Additional Surgeon and officiated as Professor of Clinical Surgery at the Medical College. During the war, he was Resident Medical Officer at the Presidency General Hospital. He was also a leading member of the Branhoo Samaj.

At the same meeting the Corporation also condoled his death. The Mayor, Shri Banerjee, said that in his death the city had lost a charming personality. He was one of the best loved surgeons in the city. Widely admired and respected not only for his professional skill, but also for his personal integrity and his upright character. Dr. Ray's death is a great shock to all, the Mayor added.

MAY DAY was observed in the city by different Trade Union organizations in the city on Friday, the 1st May, with rallies on the Maidan and in Subodh Mullick Square, central parts of the city. A large number of processions of workers, carrying their respective union flags and in some cases playing bands, converged at the meeting places from different areas in the city.

Speeches were made at both meetings expressing concern over the prevailing economic conditions in the country and emphasizing the working class people's responsibility to achieve a really socialistic society.

Organized jointly by the United Trade Union Congress, Hind Mazdoor Sabha and Labour Co-ordination Committee, the largely attended meeting, held under the foot of the Ochterloney Monument, Maidan, adopted a resolution stating that neither the First nor the Second Plan was calculated to further the establishment of a socialistic pattern of society.

The meeting also called upon the working people to unite and start a struggle for effective control on food prices; for the opening of an adequate number of Fair Price shops to serve all urban and rural areas; for the reduction of taxes and duties levied on commodities consumed by the

middle class and the working class; and for a fair deal for labour.

The meeting, organized by the West Bengal State Trade Union Congress in Subodh Mullick Square, passed a number of resolutions on the national and international situation. Some of them were also of the above nature.

Headed by the Mayor, Shri Bejoy Kumar Banerjee, a group of Councillors stood in silence for a minute on that day in memory of those who died in the cause of labour. Councillor Biman Mitra moved the motion in the House. The House was then in progress of its weekly meeting.

AN EXHIBITION OF POLISH POSTERS was opened by Shri P. C. Sen, Food Minister, at Artistry House, Park Street, on Tuesday, the 5th May. Shri Sen and Shri S. D. Banerji, Speaker, West Bengal Assembly, and President of the Calcutta Art Society, who spoke at the inaugural meeting, hoped that the exhibition would be interesting and educative.

Mr. B. Musielak, Counsellor, Polish Embassy, said that the posters exhibited were related to post-war development in Poland. They were something more than mere advertising for commercial or other purposes. They played a definite role in cultivating the artistic taste of the Polish people.

A TWO-DAY CONFERENCE OF POLITICAL SUFFERERS held at the Indian Association Hall, central part of the city, passed a number of resolutions in the interest of those who suffered either detention or imprisonment in connection with the country's struggle for freedom. It commenced on Monday, the 4th May.

Shri Amrita Lal Chatterjee offered garlands at the martyrs' column, specially erected on the occasion.

A resolution, adopted on the second day's sitting, urged upon the Central and the West Bengal Governments, the urgency of rehabilitating the families of the patriots on the basis of self-respect by setting apart Rs. One Crore as capital for their rehabilitation through organization of industry—big or small, by affording facilities of loans to individual sufferers or by starting different co-operative societies amongst the sufferers under proper supervision of a Business Board.

Resolutions urging the Government to increase the rate of pensions and other kinds of help for political sufferers were also adopted.

Raja Mahendra Pratap, M.P., regretted that when a sweeper in New Delhi got Rs. 70/- to Rs. 80/- a month, former political sufferers received monthly pensions of Rs. 10/- to Rs. 30/- or Rs. 40/-.

Dr. Pratap Chandra Guha Roy, Deputy Chairman, West Bengal Council, inaugurated the conference.

Presiding over the conference, the Mayor, Shri Bejoy Kumar Banerjee, pleaded for adequate help for these workers and said that the conference itself was a censure on the Government. He was told that there were about 10,000 such people in West Bengal. Calcutta citizens should do their duty in this respect, he urged.

The concluding day was presided over by Shri Shyamapada Bhattacharjee, M.L.A., The Ex-Mayor, Dr. Triguna Sen, among others addressed the gathering. Shrimati Sailaja Devi, widow of late Barindra Kumar Ghosh, also spoke.

Shri Narendra Nath Sen, M.L.A., Chairman of the Reception Committee welcomed the delegates.

AN INDUSTRIAL MUSEUM, first of its kind in India, was opened in the Birla House, Gurusaday Road, southern part of the city, on Saturday, the 2nd May last. It was organized under the auspices of the Birla House.

The Museum contains models of plants and machinery exhibiting the latest developments in technology.

One can, among other things, measure the intensity of his voice on an instrument. There are models to show that sound, heat and light can be converted into electrical energy. A radio is operated by electricity generated by the heat of a burning kerosene lamp. The movements of a model ship is controlled by radio. Other models show a blast furnace and open hearth furnace and an oil refinery. There are also exhibits showing various processes connected with oil and radio-active minerals in exploration. Most of the models have been designed and built locally. Seven models have been received from abroad.

Galleries devoted to the telephone, railway, automobile, electric power generation and transmission, plastics and coal will be added later.

Inaugurating the Museum, Janab Humayun Kabir, Union Minister for Scientific Research and Cultural Affairs, said that science and technology were no longer something mysterious and distant, confined among a few. They should be brought nearer to the average man so that he understood some of the processes that moulded his life.

Congratulating the Birlas for their gift, the Minister said that the museum, was indeed a kind of modern university where children could develop a scientific outlook. There is a proposal to build such a museum in Bombay, he announced.

In India, Janab Kabir said, there had been a tendency to impart a kind of unintelligibility to scientific truths: as a result they had not become the common heritage of the people. Knowledge in medicine and steel production, for instance, did not spread. Western people, on the other hand, made progress in science because they believed in co-operative endeavour.

The State Chief Minister, Dr. B. C. Roy, who presided, said that Shri G. D. Birla in 1937 had seen in Munich a museum which provided a knowledge of science and arts to younger people. Since then he had been trying to set up such a museum in the house. And he hoped that it would grow into eminence in public eye.

Dr. M. S. Thacker, Director-General of the Council of Scientific and Industrial Research, which sponsored the museum, said that a very good beginning had been made in setting up a proper industrial museum.

Shri B. M. Birla said that in the West scientific and industrial museums could be found in all important cities. In these days of scientific and technological progress children should grow up in an atmosphere where they had an opportunity to see mechanical gadgets and instruments. He hoped that by visiting the museum children would discover how science played its part in their everyday lives.

HOUSE COLLAPSES: Two balconies of a four-storeyed building in the Dalhousie Square area collapsed on Wednesday, the 6th May. Four men were injured who were on the ground floor preparing snacks for office workers. There was none on the balconies when the incident occurred. A car nearby, was badly damaged. The balconies faced the India Exchange Building, adjacent to a petrol pump station.

It was stated that the balcony on the eastern side of the third floor of the building which accommodated a bathroom first gave way. The falling masonry brought down a portion of the balcony below and smashed the tin shed.

The Mayor, Shri B. K. Banerjee, accompanied by two Councillors, inspected the site later on. He requested the City Architect to have the building thoroughly inspected. Repainted a few months ago, it appeared to be well-maintained.

According to the City Architect, the building's portion was suspected to be insecure a year back and wanted

renovated. He had not noticed anything wrong with the balconies which collapsed on that day.

A CONFERENCE FOR WORLD FEDERATION, organized by the World Congress at the University Institute Hall, adopted a resolution stating that the union of India and Pakistan was in the interests of both units and of world peace. It was held on the 3rd May.

Raja Mahendra Pratap presided and the speakers included Shri Devaprasad Ghosh and Shri Soumeyendranath Tagore.

The resolution appealed to the President of India and the President of Pakistan to take steps for abolition of the visa system, restoration of the money order system, trade, communication by railways, airways, steamers and otherwise, for the rehabilitation of refugees, both Hindus and Muslims, in their homes: for the re-union of Kashmir and those parts held by Pakistan on a reasonable basis by friendly negotiations; and for the avoidance of border disputes as constructive and interim steps towards the reunion of India and Pakistan.

SOCIAL CRIMES: The Enforcement Branch of the police arrested one Ganesh Prasad Shau from R. G. Kar Road on Tuesday, the 5th May for alleged refusal to sell five seers of rice to a customer although he had a stock of 165 maunds of the same in his shop under the West Bengal Anti-profiteering Act. The entire stock of rice was also seized.

Shri Ram Narayan Marwari was arrested on the same day for selling one seer of rice at 11 as. per seer to a customer in contravention of the West Bengal Rice and Paddy Control Order, 1959. The stock of six maunds of rice in his shop was also seized.

KESHAB SEN'S MANUSCRIPTS: The National Library at Belvedere, has received a gift of valuable manuscripts associated with the memory of Acharya Keshab Chandra Sen.

They are records of the minutes of the meetings of the Brahmo Samaj's Missionary Conference. They were made over to the Library by Prof. Humayun Kabir, Union Minister of Scientific Research and Cultural Affairs.

The records start with the minutes of the meetings held on Sravan 22, 1794—Saka (August 5, 1872), and end with the meeting of Sravan 7, 1805—Saka (July 22, 1883).

There are also two original drafts of letters addressed to Prof. Monier Williams and Prof. Max Muller by the Secretary of the Missionary Conference about the activities of Brahmo Samaj.

POURA PRATISTHAN NATYA SAMITY

STAGES 'POSHYAPUTRA' ON BISWAROOPA BOARD

The Thirty-Seventh Annual Social function of the Poura Pratisthan Natya Samity was synchronized with the staging of Shrimati Anurupa Devi's 'Poshyaputra' by its members on the Board of the Biswaroopa, some time ago.

A large audience was regaled to witness the performance of the drama participated in by Shri Abani Banerjee, Shri Baidyanath Banerjee, Shri Nirmal Banerjee and Shrimati Kamala Adhikari and others. The back-ground music rendered by a section of the Samity's members enriched the performance.

The drama was directed by a veteran on the stage Shri Jogesh Kamal Das Gupta.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors*Water Works Department*

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for Painting of Steel-chimney" on 14th May, 1959 upto 2 p.m.

The abstract of the estimate can be seen at the Water Works Department. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

1. Painting of 5 Nos. of Steel Chimney at T. P. S.—Rs. 1,740, (3 months).

Please note that words "two months" as printed in italics in Clause, 2 of the tender form is to be read as "3 months" and may be scored and noted accordingly and initialled.

S. C. MUKHERJEE,
Ex. Engr. W. W.

Central Municipal Office,
The 5th May, 1959.

District No. II Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 12th May, 1959 upto 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

14. Repairs to the southern footpath of Bowbazar Street between the junction of College Street and Sashibhusan Dey Street—Rs. 4,681, dated 5th May, 1959 (1½ months).

15. Paving footpath of southern side of Bowbazar Street from the junction of Sashibhusan Dey Street upto Upper Circular Road—Rs. 4,500, dated 5th May, 1959 (one month).

16. Maintenance to footpath of College Street—Rs. 4,442, dated 5th May, 1959 (1½ months).

17. Maintenance to pipe sewer by removing chokeage at the junction of Benitala Lane and Harrison Road (opposite 8A, Benitala Lane—Rs. 1,099, dated 5th May, 1959 (15 days).

Please note that words "two months" as printed in italics in clause 8 of the tender form is to be scored and noted in ink as "3 months" and initialled in case of works valued above Rs. 1,000.

S. K. MUKHERJI,

Qualification for the post:

"Must hold Govt. Electrical License for High Tension Electrical installation having practical experience in repairs and maintenance of A.C. & D.C. Electrically Driven pumps Motors, Starters, etc., for at least 3 years in a reputed concern."

Age should not exceed 50 years on 1st May, 1959.

Application stating name, address, qualification and experience should reach the Executive Engineer, Water Works on or before 16th May, 1959.

S. C. MUKHERJEE,
Ex. Engr. W. W.

Central Municipal Office,
The 8th May, 1959.

Sir Stuart Hogg Market

NOTICE.

To all whom it may concern, that an application has been received from Sri Harendra Chandra Saha for the registration of his name to the exclusion of Sri Hara Lal Saha and Sri Ahmaddulla in respect of Stall No. N.B. 30 in the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asst. Superintendent.

S. S. Hogg Market,
The 7th May, 1959.

Notice

Water Supply by Lorries

It is hereby notified that as an emergent measure for filtered water supply in the different parts of the city we require

lorries in sound running condition to carry 800 gallons of water per trip at the rate of Rs. 40 per lorry per day.

The lorry must work from 6 a.m. to 6 p.m. with one hour's recess and will have to make these trips daily within the area of Calcutta Corporation. If due to break-down, any of the lorries make less than 6 trips, payment will be made proportionately for the number of trips divided by six.

The tanks with all accessories will be fitted by the Corporation and no claim will be entertained for the day, required for fitting of the tanks, etc., as well as for the day required for dismantling the same.

Parties, willing to supply lorries as per terms and conditions as stated above are requested to submit their applications to the undersigned at once.

S. C. MUKHERJEE,
Ex. Engr., W. W.

Central Municipal Office,
The 7th May, 1959.

CORPORATION PRIMARY SCHOOLS.

ANNUAL PRIZE DISTRIBUTION CEREMONIES

With the advent of summer and the spring ebbing on Calcutta's mirth and merriment did not end this year. Functions and celebrations went on even with the close of the financial year.

The Annual Prize Distribution Ceremony of the SASHI BHUSAN DEY SCHOOL for the Boys and the RAJ RAJESWARI School for Girls, came off some time ago through a three-day long joint festival held in the premises of the School, Sashi Bhushan Dey Street, Central Calcutta. Two other schools holding in the same premises, arranged similar function.

Dr. Dukhaharan Chakraverty, D.Sc. F.N.I., Registrar, Calcutta University, Prof. K. K. Mookherjee, Head of the Teachers' Training Department, Calcutta University and Councillor Barendra Krishna Daw, the then Chairman of the Standing Education Committee, presided respectively on those days. Shri Woodhub Chandra Mullick was the Guest-in-Chief in one of the days.

The programme in all the days included renderings of solo songs, recitations, dance recitals and staging of playlets.

Pleased to look into such nice renderings, appreciations were made by all the honoured guests. They also encouraged the little children to devote themselves in philanthropic deeds.

Shri Bipradas Dutta, Secretary of the two premier primary schools in the city, presented the Annual Reports.

In a similar fashion came off the Annual Prize Distribution Ceremony of the [CORPORATION PRIMARY SCHOOL FOR GIRLS] at Gangulipara Lane, Pailpara, northern end of the city on the 25th April last. The function was held at a Corporation School Building, Balaram Ghosh Street, where-in Councillor Nandalal Banerjee presided. Miss O. Pemantle, Inspectress of Schools, gave away the prizes.

A large number of citizens of that locality were regaled to witness the performances of the school girls. The results of the last Final Primary Examination, achieved by the girls of that school, received appreciation on all hands.

Some time ago thousand school children of the Chetla area assembled together to watch a day's function arranged

by the Joint Annual prize Distribution Ceremony of a number of schools in Chetla area, holding within the premises of the Sarada Institution. Nearly three hundred children received prizes from the hands of Alderman Shrimati Pratima Basu. Wearing multi-coloured dresses gaylooking children took much interest when they watched and heard a special programme of dance recitals, recitations, renderings of solo songs and performances of playlets, being participated in by themselves. Appreciations were also drawn from a large number of local citizens gathered there. The function was held sometime ago.

Presiding over the function, the then Mayor Dr. Triguna Sen, hoped that the future members of the society would never be failing in their duties if they were properly trained in their early years. Appreciations were also made by him on procedure and method of education imparted in Corporation Primary Schools. However, he was pleased to note that the future would be equally bright for them.

Explaining the significance of holding prize distributions in schools Shri Akhil Neogy, alias "Swapon Burro" said that the impetus provided on the occasion would mould the future career of a boy or a girl to withstand life's struggle.

The first Annual Prize Distribution Ceremony of the CORPORATION PRIMARY SCHOOL, at 43, Shivamaprasad Mookherjee Road, southern part of the city, was held towards the same period in the premises of the Deshapran Balika Vidyalaya. The function was presided over by Shri P. C. Mazumdar, I.A.S. (Retd.) Chief Executive Officer, Dr. Jyotirupa Das Gupta, Member, Calcutta University and Academic Council, was the Chief Guest on the occasion.

Towards the same period, was arranged another Prize Distribution Ceremony, of two CORPORATION PRIMARY SCHOOLS for boys and girls at Mahendra Srinagar Street and Amherst Street respectively. Councillor Barendra Nath Mazumdar presided over that joint function of the two schools while Shri P. C. Mazumdar, I.A.S. (Retd.), was the Chief Guest.

SHOPS TO LET

SIR STUART HOGG MARKET

Applications with offers of initial rent for the privilege of occupying the undermentioned stalls on stalls noted against date are invited and will be received by the Superintendent in the Market Office daily between the hours of 11 A.M. and 5 P.M. CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—Four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the goods paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No carts, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop keeper if any spurious coin is alleged to have been detected after they leave the shop.

CORPORATION OF CALCUTTA.

Revision of Electoral Rolls of the
Constituencies Nos. 76 to 80.

FORM V.

NOTICE

[Rule 27 of the Calcutta Municipal Electoral (Preparation and Publication and Revision and Republication of Electoral Rolls) Rules, 1952]

For the purpose of revision in the year 1959-60 of the electoral rolls of the constituencies Nos. 76 to 80 of the Corporation of Calcutta, claims for being included in the electoral rolls and objections to the inclusion of any names included in the electoral rolls are invited. The claims shall be made in Form III and objections in Form IV duly filled in, and they must reach the undersigned not later than the 29th day of June, 1959, corresponding to the 14th day of Ashar, 1366 (B.S.)

ELECTION DEPARTMENT,
CENTRAL MUNICIPAL OFFICE,

H. DAS GUPTA,
Registering Authority.

The 15th May, 1959.

N.B.—Copies of Forms III and IV will be supplied free by the Registering Authority on application at the Election Department, Central Municipal Office and the Tollygunge Municipal Office.

Instructions :—

Subject to the provisions of the Bengal (Aliens) Disqualification Act, 1918 (Citizens of the United Kingdom and Colonies and citizens of Eire being exempted) and subject also to the disqualifications mentioned in sub-sections (2) and (3) of section 49 of the Calcutta Municipal Act, 1951, any person who has ordinarily and actually resided in Calcutta during the greater part of the year 1958-59 and whose name is not on the electoral roll as finally published on the 29th January, 1959, which (roll) is now under revision for the year 1959-60 and who possesses any of the qualifications mentioned in section 48 of the Calcutta Municipal Act, 1951, must file a claim in the prescribed form (Form III) for being included in the electoral roll of a constituency. Provided that a person who is already included in the electoral roll of a constituency may file a claim for his name being included in the electoral roll of a different constituency.

A company, body corporate, firm, joint family or other association of individuals possessing the qualification of an elector prescribed under clauses (a), (b) or (c) of section 48(1) of the Act, as such, shall not be registered in its own name in the electoral roll, but may obtain the registration of one of its members as its representative on the rolls by filing a claim in the prescribed form (Form III).

A claim shall be signed either by the person desiring his name to be included in the electoral roll or by an agent authorised in writing by such person.

Provided that when a company, body corporate, firm, joint family or other association of individuals desires to have the name of its representative included in the electoral roll, the claim shall be preferred by such company, body corporate, firm, joint family or other association of individuals, and shall on its behalf be signed by or marked with the thumb impression of, in the case of a company, body corporate or firm, one of the persons who are qualified to be nominated by it as its representative, and in the case of a joint family or other association of individuals, all the members thereof unless the Registering Authority for reasons considered sufficient by him exempts any such members from joining in the claim.

No person shall prefer an objection to the inclusion of any name in the electoral roll of a constituency unless his name is already included in the electoral roll of that constituency or unless he has filed a claim for being included in the said electoral roll.

Every claim and objection shall be in writing and shall state the grounds on which it is based and when it relates to an entry in the roll shall contain a reference to or the particulars of that entry.

Claims and objections shall be addressed to the Registering Authority only and shall either be handed or sent by post to him so as to reach him at the Election Department, Central Municipal Office, 5, Surendra Nath Banerjee Road, Calcutta-13, or to the Officers duly authorised by the Registering Authority to receive such claims and objections at the Tollygunge Municipal Office not later than 5 p.m. of the 29th June, 1959, after which no claims or objections will be entertained.

A complete copy of the electoral roll of every constituency now under revision will be kept at the Election Department, Central Municipal Office and the Tollygunge Municipal Office for public inspection during office hours from the 15th May, 1959 to the 29th June, 1959 both days inclusive and copies of such roll are available for purchase at the Record Department at the Central Municipal Office.

Further particulars may be obtained from the Registering Authority, Election Department, Central Municipal Office. (Telephone No. 24-1495).

CORPORATION OF CALCUTTA.

NOTICE

ATTUOJAO TO MOITAFOSHO

[Rule 28(2) of the Calcutta Municipal Electoral (Preparation and Publication and Revision and Republication of Electoral Rolls) Rules, 1952].

With reference to the notice published to-day under Rule 27 of the Calcutta Municipal Electoral (Preparation and Publication and Revision and Republication of Electoral Rolls) Rules, 1952, inviting Claims and Objections in connection with the revision in the year 1959-60 of the electoral rolls of the Constituencies Nos. 76 to 80, it is hereby notified under Rule 28(2) of the said rules for general information that a complete copy of the electoral roll of the Constituencies Nos. 76 to 80 now under revision will be kept for public inspection at the following places during office hours throughout the period from the 15th May, 1959 to the 29th June, 1959, both days inclusive, during which claims and objections will be received:

(i) Office of the Registering Authority at the Election Department, Central Municipal Office, 5, Surendra Nath Banerjee Road.

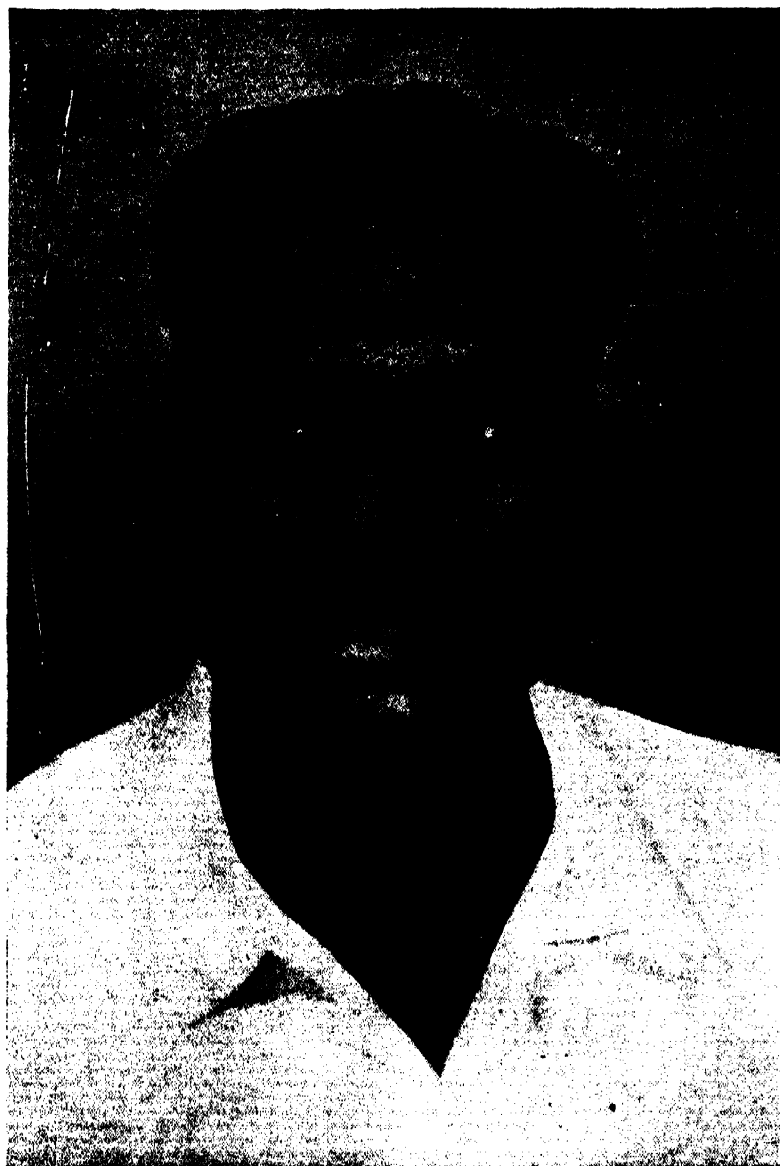

(ii) Tollygunge Municipal Office at 28, Prince Anwar Shah Road.

COUNCILLOR PANCHANAN SARCAR PASSES AWAY

With a heavy heart we have to announce the sudden passing away of Councillor Panchanan Sarcar, a representative from Ward No. 36. The mournful event took place at about 1 A.M. of the Thursday-Friday night, the 14th May, at his residence, 69, Belliaghata Main Road, Calcutta-10. He was 42 only.

For some time past, the late Councillor Sarcar was suffering from high blood pressure which had compelled him to stay confined in bed occasionally. On that evening he had a severe attack from the same disease. As the night advanced his condition gradually deteriorated and the end came within a few hours. He has left behind his widow and three children besides numerous friends and relations to mourn his death.

With the break of day the news spread throughout the city. The Mayor, Shri Bejoy Kumar Banerjee, and a large number of Aldermen and Councillors rushed to his residence. They placed wreaths on his bier. Other important citizens mostly from the Beliaghata and Narkeldanga areas also went there to pay their last respects to the departed soul.

A procession carrying the bier, bedecked with flowers, was taken out on Friday morning. It was then led to the Nimtala Burning Ghat, northern part of the city. His last rites were performed there in presence of the Mayor, Shri Banerjee, Councillors Dr. B. C. Basu, A. Maitra, and others.

Amiable with suave manners, and lovely appearance, the late Councillor Sarcar entered the

Corporation in the year 1952 when the new Corporation was set up. He was re-elected in the General Election of 1957. During the major part of this period he was a member of the Standing Markets and Buildings Committees. He hardly opened his mouth in the House. Due to protracted ill health he rarely attended special functions and other engagements. Still he was earnest and sincere in bringing about civic welfare in the city as a true and sincere representative.

The Corporation on Friday, the 15th May, condoled his death and adjourned its sitting for that day. Eloquent tributes were paid to his memory by the House.

Referring the death, the Mayor, Shri Banerjee said :

'Like a bolt from the blue came the most tragic and melancholy news this morning that the cruel hand of Death had snatched away from our midst last night a young friend and a colleague of ours, Councillor Sarcar. All of us are deeply shocked and grieved at the untimely passing away of our beloved friend.' The Mayor also said :—

'A promising career of public service has ended most prematurely. And the death snaps assunder the long association of this Corporation with the well-known Sarcar family of Beliaghata. The late Shri Bidhu Sarcar was his uncle'.

Shri Banerjee also referred the past activities of the late Shri Bidhu Bhusan Sarcar, who figured as an important Councillor almost during the major period that the Surendranath's Calcutta Municipal Act was in operation.

LAST HOMAGE TO THE DEPARTED FRIEND.

The Mayor, Shri B. K. Banerjee (in the centre), Councillors Dr. B. C. Basu, K. C. Bysack, A. Maitra, Dr. S. Sett, H. N. Sadani, and others are seen in the picture. Dr. S. Nath, D. H. O. I is also in the picture.

Photo : Shyamal Bose.

The Mayor continued :—

"In this House we feel a keen pang of sorrow in our hearts to-day for the void created in our ranks by his passing away. We wishfully remember how dear he was to all of us and we all cherish his love and friendship, he extended to us."

Describing the death as a personal loss to all, Shri Banerjee said :—

"We have sustained a grievous loss in his death. We have been for years closed friends. He always gave us the love and support that is due to us and we also reciprocated his sentiments towards us by looking on him almost as our own brother."

The House prayed for peace for the departed soul and sent its sincerest condolences to the members of the bereaved family.

The Corporation offices, schools and workshops remained closed on Friday, the 15th May, as a mark of respect to his memory.

A meeting, held at the Manicktala District Municipal Office, of the Borough Committee No 6, also mourned the death of its Chairman, Councillor Sarcar. Councillor Chandra Sekhar Bhowmick, presided while Councillor Kali Charan Paul and others paid tributes to his memory.

We also extend our sincerest condolences to the members of the bereaved family.

SON of the late Shri Surendra Nath Sarcar, elder brother of the late Councillor Bidhu Bhusan Sarcar, the late Shri Panchanan Sarcar was born in this city in the well-known Sarcar family of Beliaghata. He was attracted towards the Congress ideals even before the country had attained freedom. He then took the vow of service to the people of the locality. His activities spread mainly in the Bustee areas of that locality wherein people suffered most from various ailments. He was also associated with many of the philanthropic organizations working there. Though he was associat-

ed with a political party still he restricted his activities only on social lines. And this paved his way to become an elected Councillor from Ward No. 36, as a nominee of the Congress Municipal Association. As an important member of the Congress he was loved and endeared by all and appreciations of his services came from the higher circles also. On both the occasions he defeated his rivals on vast margins.

The late Shri Sarcar was the Vice-President of the East Calcutta Sports' Federation, President of the East Calcutta Bustee Development Committee, Vice-President of the Indian Cultural Association, and President of the Beliaghata Seva Sangha. He was associated with different other committees. He was one of the founders of the Beliaghata Milan Mandir and was its Vice-President till his death.

Thus his death has created a void which would be difficult to fill in soon.

CALCUTTA'S FIRST STADIUM

The foundation of a Sports Stadium in the city was laid through a pleasant ceremony on the Lake Maidan, Southern Avenue, under the auspices of the Calcutta Improvement Trust, on the 3rd May last. Shri J. N. Roy (Kanu) and Shri Sirish Sarkar (Habul), two members of the Mohan Bagan's 1911 I.F.A. Shield winning team, laid the first bricks of the pavilion and the wing of the gallery respectively.

Constructed at a cost of about Rs. 18 lakhs the proposed stadium, will have six wings consisting of a gallery with a sitting accommodation for at least ten thousand visitors. Out of them the construction of two will start soon and is likely to be completed within this calendar year.

The play-field will be a football ground of Association standard measuring 328 ft. by 220 ft. Separate pits for high jump, pole vault and broad jump athletic events will be provided on both sides

of the goal-posts. A special spot has also been marked in the plan for other athletic field events. Around the turf there will be a 400 metres cinder running track, 8.54 metres wide according to international specifications. The cycling track will be 452 metres long and 7.32 metres wide. Subsoil drainage arrangement would also be provided.

The ground will be encircled by an "open gallery" type of seating accommodation while an one-storied visitors' pavilion, with open sitting space on the roof, will face the ground. The pavilion will contain a big central hall which can be used for lectures and discourses on sports subjects. The usual amenities will be provided in the pavilion.

Attempts are being made by the West Bengal Government to secure financial aid from the Union Government for meeting the cost of construction.

The Chairman, Shri S. K. Gupta, I.C.S., said on that occasion that the Trust had no pretensions of meeting the citizens' demand for a central stadium. He was, however, confident that the stadium would afford facilities for the training of youngmen in the locality.

Councillor Gupta added that though this stadium would not be able to fulfil the public demand for a football stadium which was essential in a city like Calcutta, it would, however, serve the purpose of zonal activities.

The Union Government which had earlier promised for constructing stadia in and around the city has at last agreed to part with about 15 acres of land on the Calcutta Maidan for the purpose. The actual site has yet to be selected. This was disclosed by the West Bengal's Chief Minister, Dr. B. C. Roy, just after his return from Delhi on Thursday, the 14th May.

The Ellenborough Course, situated very close to the Fort, might be selected for the purpose. This was known when the Union Defence Minister, Shri V. K. Krishna Menon, visited this city a few days ago. He then devoted a good time in consultation with the State Chief Minister, Dr. B. C. Roy, at his residence, Wellington Street. It was further learnt that the Union Minister had assured all his assistance in this regard. Furthermore, the suggestions made at that time have possibilities of being examined by the authorities at higher levels before a final decision is taken.

In the meantime citizens' eagerness for adequate number of stadia in the city have not been dimmed. Deputations and delegations are being sent to the proper authorities demanding fulfilment of their grievances.

A Convention for the demand of a stadium in the city was also held towards the middle of April in the Indian Association Hall, Bepin Ganguly Street, central part of the city. Presided over by a veteran footballer, Shri Gosto Paul, the Convention adopted a resolution requesting the State Government to build a stadium and to form West Bengal State Council of Sports. The latter has already been assured to.

The Mayor, Shri Bejoy Kumar Banerjee, as the Chief Guest, sided with the convenors and wanted to remove that long-standing grievances of the citizens at his best.

Headed by the Mayor, Shri Banerjee, a 14-member Committee was also formed in that Convention, with the object to give lead to the movement, as well as to re-organize the existing system of sports and games in this city. The Committee includes many of the sports-lovers.

While the efforts of the citizens were rather gaining strength to lead a forceful movement for having a stadium in this city, many others have made forward steps in this regard. Bombay, Madras, Patna, Gauhati, Cuttack and others have already been favoured with sports stadia. Even a mufussil town like Jalpaiguri, in northern Bengal, and not so important as the aforesaid ones, has ventured to have a stadium there. But Calcutta's efforts have been undermined in different ways. It seems that one has to look into the loopholes and latches either on the sincerity of the movement or the indifferent attitude on the part of the authorities. Even the city's old sports' clubs had not been united in the past to put up a joint demand.

Thus the efforts of the Calcutta Improvement Trust in this regard should receive appreciation.

SOARING PRICES OF ESSENTIALS

Recently, the citizens have experienced the gradual increase in the price of rice in the open market, the staple food of the majority number in this city, in spite of the fact that there has been a Government enactment fixing scheduled prices for this. The higher price in rice has caused sympathetic rise in other essentials resulting in pecuniary hardship to the poorer section. The high prices have also accompanied scarcity of those goods.

It appears that the battle of trade against the Government food policy is being fought in this city. The retailers complain that they are not getting supplies at the rates fixed by the Government, the wholesalers also complain that paddy growers are not selling at fixed prices. And thus the Government's role to compel paddy-growers to sell their produce at controlled prices has not been effected properly since the price control orders came into force.

In this city food prices have not been moved on its usual orbit rather a deviation was noted by all. With the rise in price of rice, prices of pulses, vegetables, oils, sugar and other essentials showed a sympathetic trend towards rise. Citizens' grievances had been voiced since then as their misery had filled to the cup and very little appreciable was effected in removing them. The State Government had earlier efficiently admitted that the State would face food shortage this year in this State to the extent of seven lakh tons. They had at the same time provided incentives so that there might be an increased production of additional four maunds per acre.

In order to tide over the difficulties as well as to minimise the hoarding activities as far as possible Shri A. P. Jain, Union Food Minister, discussed this matter with the State Chief Minister Dr. B. C. Roy and Shri P. C. Sen, the State Food Minister, during his recent visit of this city. He had asked the State Government to use increasingly the storage facilities provided by the State Ware-Housing Corporation.

During the earliest part of this month the State Government denied all the charges of the consumers that rice was being sold in open market at prices higher than those statutorily fixed ones. The Minister also assured that there was sufficient quantity of stocks of foodstuffs in city's fair price shops for the use of citizens. The wheat position was most favourable according to him.

In the meantime, all possible measures have been taken to ensure the supply. Hotels and eating houses have been prohibited from supplying rice on any of the week days. The State Government's measures were further confirmed with the Centre's assurance to maintain a regular supply of rice, in order to meet the requirements of the fair price shops. The Union Government has already advanced three months' supply at the rate of 35,000 mds. a month.

A citywide raid against unlicensed godowns and shops for undeclared and hoarded stocks of rice was undertaken by the Enforcement Branch Police in collaboration with the Food Department to check the hoarding activities of both the retailers and the whole-salers. The drive "was to verify whether the dealers possessed the requisite licence, regularly submitted returns, sold rice at the scheduled rates and to know the stock positions". There are about 3,000 such dealers in the city. Altogether 60,000 maunds of rice was found stocked in different places. On a recent day, the police raided an unclaimed godown in Dr. Suresh Sarkar Road, Entally, East Calcutta and seized 194 maunds of rice, 78 maunds of flour and 38 maunds of atta. On the first day, the stocks of 359 such shops were checked.

Enforcement Branch police arrested the proprietor and two employees of a grocer's shop in Grey Street, northern part of the city, on Saturday, the 9th May last, on a charge of selling rice at a price higher than that fixed by the Government. Sixty maunds of rice were seized. For serving customers, with cooked rice on that day in violation of the West Bengal Restrictions on Meals in Establishments Order, 1958, a man was arrested in a hotel in Moti Sil Street near Chowringhee area.

On Monday, the 11th May, the checking operations of stocks continued but no stock was seized nor any arrest was made. Satisfactory explanations were given by the shop-keepers when the police visited their places. On the third day, rice stocks in city's 532 shops were checked. The Police seized 320 maunds of rice, two maunds of wheat and 40 lbs. of skimmed milk powder from two grocers' shops and made three arrests. One of the shops involved was in Burrabazar and the other in Orphon-gunge Market, Kidderpore.

During the previous week a shopkeeper in Bhowanipur was arrested for selling rice at a price higher than the scheduled ones.

The West Bengal's Food Minister, Shri P. C. Sen, himself made surprise visits to two fair price shops in the Lansdowne Market, southern part of the city. He noticed citizens' eagerness to have fine quality of rice which the State Government had failed to provide in those shops. The Minister also visited over a dozen markets and shops in north

and southern parts of the city. They had sufficient stocks of medium rice but little of the fine variety. According to Shri Sen the supply of fine variety of rice was then restricted and it represented 25 per cent of the total available stock. Registers also showed that at least 75 per cent of the people enrolled at fair price shops bought rice from them.

During the past few days fine quality of rice could hardly be available in the city's open market. Not only the price had gone up by a few rupees per maund than the controlled price but also no receipt was granted to the purchasers. This had caused more than 60 per cent. of the card-holders to accept compulsory ration quota of wheat most reluctantly. And whatever was obtained of the fine it was not of sufficient quantity nor of amenable prices.

In other matters, although there was no scarcity of sugar still its price was on the increase. The manufacturers as well as the wholesalers had caused the rise through some muddle and playing of fishy games, according to some circles.

The State Food Minister himself had admitted that so long wholesalers would be allowed to hold stocks of rice for a huge quantity, the simple tragedy of demand and supply would play in order to corner the consumers. He further said that the existing enactments were helpless in this regard.

Thus it is apparent that the Government by their own policy had allowed them to behave in an irresponsible manner leaving the consumers at the mercy of the traders. The whirlwind raids in this city and its suburbs have failed to bring rice at the controlled prices benefitting the poor. And it is difficult to utter at this moment how long will it take to do so.

ANTI-CHOLERA MEASURES CONTINUE

Calcutta's cholera menace remains unabated rather the number of incidences indicate an inclination towards steadily high figures. Although the disease has not yet been declared in an epidemic form, still about 450 persons, suspected to be suffering from cholera, were removed to different hospitals in the city during the second week of May as gathered from the Daily Press.

According to Corporation's Vital Statistics, there were 75 attacks and 19 deaths from the disease in the city during the week ended the 9th May compared with attacks and deaths 41 and 13 the week before respectively.

During the corresponding weeks last year, attacks numbered 284 and 508 and deaths 107 and 159 respectively.

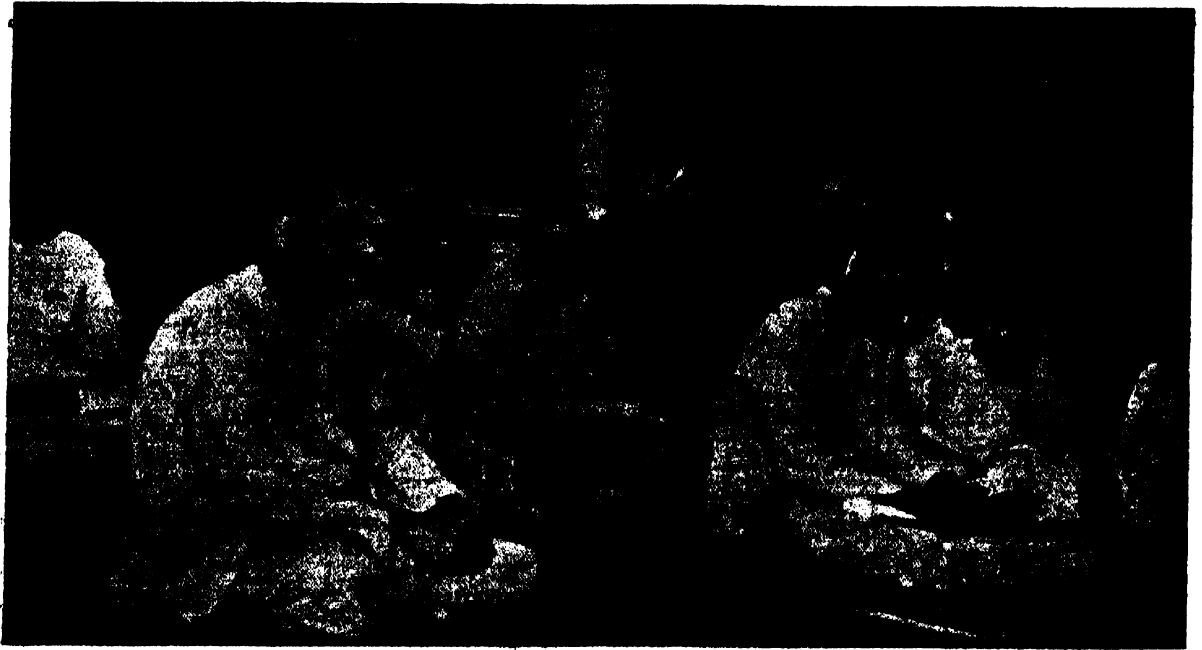

Accumulation of garbage on street corners, filthy and unhealthy habits of the citizens and some of the old associates of the disease have again appeared in the city as reported in the Press. Scarcity of adequate quantity of filtered water and others have multiplied to cause the rise of incidences.

Poet's Birthday Observed

THE MAYOR SPEAKS AT A FUNCTION ORGANIZED BY 'RABINDRA PATH-CHAKRA', SENATE HALL

Dr. Kalidas Nag, Shri Hironmay Banerjee and others are also seen in the picture

Calcutta's Homage To The Poet And Seer

With the fast approach of the date line for the Birth Centenary Celebrations of that immortal Poet and Seer, RABINDRA NATH TAGORE, city's air has been charged with that idea of how best the citizens could observe the occasion. The celebrations of the Ninety-ninth Birthday of the Poet spread over throughout the length and breadth of the city covering fortnight functions rounding about the 9th May, when the Poet was born.

Rabindranath's music, like his literature, was based on a foundation of classics. But unfortunately almost all the celebrations did not reach the expected level. Still there were attempts on many occasions to do so. The Poet was remembered through his music in all these functions. Recitations, dance recitals, performances of dramas and playlets were not totally absent anywhere. Speeches by eminent litterateurs and learned teachers occupied important place in those functions. All these attracted larger number of citizens particularly in those arranged in parks and open spaces with erected pandals. The celebrations performed by different sects and sectarians amply demonstrated that the Poet did not belong to any society or to any age. In a wider sense he did not belong to any particular country.

In many of the functions the essentially creative aspect of the Poet was manifested through the speeches made by learned teachers and through other objects of art and culture, while in others stereotyped programmes went through. The Poet's Message of fundamental unity in the midst of diversity in the universe was also relayed through many of the functions. The living realities of the present days, the humdrum in current life with all its ugliness and indecencies, sorrows and sufferings, which the Poet witnessed and tried to solve through his writings were again iterated by the speakers made by those who keenly felt for the coming in the world.

Main concentration of functions was on the 9th May, the 25th of *Baisakh* according to the Bengali calendar. Organizers of that day's functions represented educational institutions, libraries, literary associations and clubs. Decorated with *alpanas*, earthen pitchers and other objects of art in those places, the functions continued till late in the evening. Many of them also started with morning celebrations.

Under the joint auspices of the Visva-Bharati and the Rabindra Bharati the Poet's Birthday was celebrated at the premises of Rabindra Bharati in the morning where the highest congregation was witnessed. Eminent litterateurs gathered there. A delightful programme of songs and recitations was gone through. An address by a well-known litterateur, Shri Rajsekhar Bose, was read out at the function by Shri Bimal Chandra Sinha, its Secretary.

The Rabindra Bharati also celebrated a week-long function there ending on that day.

The Union Minister for Information and Broadcasting, Dr. B. V. Keskar, inaugurated a Celebration Week at Mahajati Sadan. Shri Tarasankar Bandopadhyaya, the well-known writer, presided over the function organized by Rabindra Mela there. A group of students of the Gita Bitan, a Tagore music school, sang songs, while girls blew conch-shells and showered flower petals. Dr. Keskar lit a lamp to mark the inauguration of the celebrations.

Shri S. R. Das, Chief Justice of India, inaugurated the celebrations, organized by the Nikhil Banga Rabindra Sahitya Sammelan at Mohammad Ali Park, central part of the city on that evening. The Mayor, Shri Bejoy Kumar Banerjee, was the Chief Guest at a function held at the University Senate Hall under the auspices of Rabindra Patha-Chakra held on the same day.

Many of the Corporation schools also celebrated the Birth Anniversary. In one such function, Councillor B. K. Daw presided. In another, held jointly by the teachers and students of the S. B. Dey School for Boys and Raj Rajeswari School for Girls on the 14th May. Shri B. N. Bhadra, our Acting Editor presided.

The All-India Radio, Calcutta Station, broadcast a special programme on that day.

The room at Jorasanko Tagore House, 6, Dwarka Nath Tagore Street, where the Poet lived and drew his last breath, eighteen years ago, was visited by streams of people throughout the day. The room was decorated with *Alpana* and was decorated with flowers. Several people paid their homage to the Poet by placing garlands and bouquets.

Thus the city bowed down to the Poet and the Prophet who preached peace and harmony in the world, who paused with sublimity so that all dissonances might disappear like a mist, in that silence, in that quietude.

BIRTHDAY CELEBRATIONS THROUGHOUT THE CITY

The week-long programme to observe the Birthday of the Poet was inaugurated at Rabindra Bharati on the 30th April last. The first day's programme included among others a selected programme of Tagore songs by the students of the Academy of Dance, Drama and Music under the direction of Prof. Ramesh Chandra Banerjee. In this connection the students of Dance and Drama Section also successfully produced the dance-drama "Chitrangada" and "Bashikaran" under the supervision of Shri Ashit Chatterjee and Shri Ahindra Choudhury the Dean of Drama Section, respectively.

On that occasion Prof. Banerjee, sang a beautiful classical Rabindra Sangeet and students took part in other solo and group items successfully.

THE ALL-INDIA RADIO

A programme of Tagore songs was presented by Shri Suvo Guha Thakurta and Party in the morning.

A talk in Bengali—*Shikshak Rabindranath*—by Prof. Pramatha Nath Bishi, was broadcast in the evening.

Prof. Charuchandra Bhattacharyya spoke in Bengali on "*Bakta Rabindranath*" which was followed by *Samalochak Rabindranath*—the theme of a talk in Bengali by Shri Sujani Kanta Das.

Shri Khitish Roy discussed on "*Anubade Rabindra Sahitya*" later on.

A programme of music entitled '*Jatiya Jagarane Rabindra-sangeet*' was produced by Shrimati Niharbindu Sen.

A talk in Hindi—*Rabindranath Ka Mukti Bhabna* by Shri Shivnath was heard also at night.

RABINDRA PATHA CHAKRA

At the function organized by Rabindra Patha Chakra, in Senate Hall, College Street, the Mayor, Shri Banerjee said that the city's great ideal had been fully emphasized by the Poet who took it to be the city of his birth.

Dr. Kalidas Nag, who presided, said that the Poet stood for the cause of international co-operation, and goodwill for bringing nation and nation, culture and culture closer to each other. He knew there were obstacles on the way for realizing this objective but he never lost sight of it. He added, "A Rabindranath was always essential to defend faith in Man".

Mr. Semen Gennandy, a member of the Consulate of the U.S.S.R. in Calcutta, paid his tributes to the Poet in a written address in Bengali. He went on narrating the stories of Tagore's sojourn in Russia in 1931. He said Tagore's Letters from Russia had been translated into Russian and nearly 90,000 copies had been sold.

Mr. C. Nass, Consul for the U.S.A. also paid his homage to the memory of the Poet in Bengali which was equally appreciated by all.

Janab Ahmed Ali, Deputy High Commi of Pakistan, recalled the services of the Poet to the country and the people at large.

Dr. Dukhaharan Chakraverty, Register, Calcutta University, remembered vividly the day when the Poet in the same hall in 1924, delivered the memorable 'Kamala Lecture' in Bengali which had emphasized the unity of man. He also distributed prizes to the meritorious students on that occasion.

The function was introduced by Shri Hironmoy Banerjee, I.C.S., through a neat speech on Rabindranath.

AT MOHAMMAD ALI PARK

The Chief Justice of India, Shri Sudhi Ranjan Das, inaugurating the week-long programme of the Birth Anniversary of the Poet held under the auspices of Nikhil Banga Rabindra Sahitya Sanmela at Mahammad Ali Park gave an account of Shantiniketan School as it was 55 years ago. The speaker said that he was then merely a child and not yet in his teens.

Reminiscences replete with anecdotes—series after series were given to the audience—as when he was a student of Rabindranath's Brahmacharya Ashram at Santiniketan.

The story of '*Gupta Dhan*' (Hidden Treasure) which Shri Das heard for the first time from the Poet himself had frightened him not a little. The mystic clue suggested in the verse made them inquisitive to unravel it.

The function was invoked by Dr. Gourinath Shastri and by singing an Upanishada's chorus song sung by Kathakali group of artistes.

AT MAHAJATI SADAN

The Union Minister, Dr. Keskar said that the role played by Rabindranath towards the achievement of Freedom was greater than political leaders. While many of the political leaders would be forgotten, Rabindranath would shine in the minds of the nation for all times to come.

Dr. Keskar also said that personally he felt Rabindranath who represented a great spirit of India, in choosing Bengali as the medium of writing at an age when Indian languages were looked down upon. The Poet and Michael Madhusudan showed to the world that Bengali language could serve as the medium of expressing feelings. The Minister shuddered to think what Rabindranath would be to them had he chosen English the language of his poetical and literary compositions.

Shri Tarasankar Bandopadhyaya, President, Rabindra Mela, gave a discourse on Rabindranath and said that in the Poet they could find a great revival of the cultural and intellectual traditions of ancient India in a form which was acceptable to the moderners.

At Kumartuli Park, a week-long function was inaugurated by Dr. Nihar Ranjan Roy, M.P. He recited two selected pieces from '*Sanchayeeta*'.

Prof. Bijon Behari Bhattacharjee spoke on 'Love' in Rabindra literature.

The 'Tagore Society of Calcutta' arranged to celebrate the occasion through a pleasant function in the northern part of the city, at the residence of Shri Satindra Nath Laha, on the 8th May last.

-VIEWS & REVIEWS

(Continued from Page 76)

An intensive drive for conservancy services has been undertaken by the Corporation in this regard. The services would further improve if ratepayers throw their refuse into dustbins in prescribed hours everyday before 9-30 in the morning and again between 2 P.M. and 4 P.M. for the second clearance. Many of the big markets in the city have refuse collection sheds. The Raja Katra Market, Falpati, Natun Bazar on Chitpore Road, Nebutala Row market and Bowbazar are those lacked in prompt removal of garbages.

At present about half the houses in the city have been served by the house-to-house refuse collection scheme. Recently, there have been complaints of irregular collection of refuse from houses in some parts of the city. In some localities in the Lake Road area in the southern part of the city collection of refuse has stopped for some days as alleged by a section. The reasons are still unknown. Occasional breakdowns in vehicular services cannot be avoided. To meet the increasing need for vehicles to remove refuse the Corporation has provided funds for the purchase of over 60 lorries this year. At least 10 of these lorries are expected to be put into service within a month or so.

At present a strength of 250 lorries and about 50 tractors are engaged to remove the city's 2,000 tons of refuse daily. Most of the tractors could not work recently for want of repairs because of the alleged non-availability of spare parts. The city's refuse has in the meantime, increased to over 2,200 tons a day. With the advent of summer season mangoes, lichis, jack-fruit, water-melons, palm-fruit and green cocoanuts and other fruits are sold on a large scale. The remains of them are ultimately thrown into dustbins or on to the streets and add to the city's refuse.

Drive against exposed foodstuffs and unprotected fruits are continuing. In collaboration with the police the health staff of the Corporation destroyed 63 maunds of exposed food during the fortnight ended the 9th May last.

In spite of all these, allegations have been made that improvement in the city's conservancy services, in general had not been satisfactory. There are areas like Burrabazar, Bowbazar, Shovabazar, Tal-tolla, Bhowanipore and Kalighat where even a casual visitor would feel inclined to dispute the statement.

During the week ended the 9th May, about 95,000 persons were inoculated against cholera. Since October over eight lakh persons have been inoculated in this drive. It may be recalled here that the effective inoculation drive started in last October last. This is the most important single factor contributing to the control of cholera. Last year the inoculation drive started in April where the disease had already made its appearance.

In order to prevent any slackening of effort, the Mayor, Shri B. K. Banerjee confers with senior officers daily and takes stock of the situation. The Corporation's four District Officers and those of the added areas are being provided with lorries to disinfect affected areas more speedily.

Still more the present indication is towards the rise in incidence of the disease.

CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE FOURTH ORDINARY
MEETING OF THE CORPORATION HELD ON
FRIDAY, THE 8TH MAY, 1959.

TRUSTEES TO PROVIDENT FUND

The House elected two representatives as Trustees to the Corporation Employees' Provident Fund from amongst the Aldermen and Councillors under Rule 5 of the Provident Fund Rules for the year 1959-60 or until their successors were appointed in the next financial year. They are Councillors Chittaranjan Chatterjee and Nripendra Nath Banerjee. Besides, them, two *ex-officio* members *viz.*, the Commissioner, Shri P. C. Mazumdar and the Chief Law Officer along with an elected representative from among the subscribers forming the five-member Board of Trustees of the Fund.

The House on the previous occasion elected Councillors Binan Behari Mitra and Chitta Ranjan Chatterjee as the Trustees from amongst the Aldermen and Councillors.

PRESERVING OF MARTYRS' MEMORIALS

The House recorded a letter received from the Government of West Bengal, Local Self-Government Department, informing that the Board of Trustees of the Victoria Memorial had been requested to consider the Corporation's proposal to preserve memorials of all the heroes, martyrs and patriots who took part in the country's struggle for freedom.

This was in compliance with a request made by the Corporation on a motion tabled by Councillor Shiv Kumar Khanna.

SEN'S RESIGNATION SEQUEL

On the 11th May, the Corporation met at a special meeting to re-consider a no-confidence motion against Shri B. K. Sen, the former Commissioner. The first meeting on this issue being scheduled on the 28th April last, could not be held on the development of certain happenings. Shri Sen tendered a resignation letter from the post of Commissioner on the 25th April last.

In view of the fact that a special meeting of the Corporation on the 1st May last, accepting the resignation tendered by Shri Sen, the motion fell through. The Mayor, Shri Bejoy Kumar Banerjee, closed the meeting with the words :—

'It is obvious that Shri B. K. Sen, having already tendered his resignation from the office of the Commissioner, and this House having already accepted Shri Sen's resignation on the 1st May there can be no question now of removing Shri Sen from the office of the Commissioner.'

THE MAYOR GIVES OUT A PROGRAMME FOR CIVIC WELFARE IN CITY.

Sitting from right : The Deputy Mayor, Shri K. L. Dhandhanian, Dr. A. K. Pal, President, Dr. N. Bhattacheryya, Secretary, Ex-Councillor Dr. M. N. Sarker and Councillor Dr. K. P. Ghosh.

Photo : S. B.

MAYOR AND DEPUTY MAYOR FETED

REPLYING to the sentiments expressed on the occasion THE MAYOR, SHRI BEJOY KUMAR BANERJEE, admitted that there were faults and defects in the civic services still he was optimist enough that those would be tided over soon. He appealed to all for co-operation and co-ordination in the matter of well-being of the citizens in general. He was then speaking to a section of medical men. The function was arranged on Monday, the 11th May, under the auspices of THE ALL-INDIA MEDICAL LICENTIATE'S ASSOCIATION, CALCUTTA BRANCH, in order to felicitate Shri Banerjee and Shri K. L. Dhandhanian, on their being elected as the Mayor and the Deputy Mayor respectively.

The Mayor further hoped that service to the humanity would also be best served by the professional physicians provided they were sympathetic towards the ailing people.

The Deputy Mayor narrated the pecuniary difficulties the Corporation had to face in providing amenities to the citizens. He urged that unless adequate aid from the Union Government would come forth very little improvement could be effected in this line. The former Chairman of the Standing Finance Committee also asserted that in order to implement the schemes of better planning for this growing city help would be essential both from the Union and the State Government's levels.

Both of them were presented with Addresses of Welcome and garlanded.

Earlier, offering his personal homage to both of them Councillor Dr. K. P. Ghosh hoped that under their guidance the premier civic body of the East would bring about a change in the outlook of civic matters. He was, however, happy to note that the Corporation had proposed to give a fair deal to the medical licentiates.

The speakers included Dr. Sunil Biswas, a staff of the Manicktala Health Department, Dr. R. N. Ghosh, Dr. Amar Paul, President of the Association and others.

Under the auspices of the North Calcutta Boxing Association, Sinthee, the Mayor, Shri Bijoy Kumar Banerjee and the Deputy Mayor, Shri K. L. Dhandhanian, were felicitated at a Reception held recently at 47, South Sinthee Road. The function was inaugurated by Shri Rajendralal Banerjee and presided over by Dr. Probodh Chandra Lahiry. Many distinguished persons were present on the occasion.

CALCUTTA WEATHER

The oppressive heat in the city was visible again towards the close of this week due to scanty rainfall in most of the districts of Gangetic West Bengal. There were also fewer nor'westers so far this year. The maximum and minimum temperatures both on Thursday and Friday, the 14th and the 15th May were above normal. The temperature was also above normal on the 12th May.

Earlier, towards the last week end, the 9th May, the city was comparatively cooler when on the 8th May last the temperature dropped from 87°F to 78°F due to an unexpected welcome nor'wester after more than a fortnight's oppressive heat. The squall was accompanied by flushes of lightning and peels of thunder. But there was negligible rainfall—0.02 inch at Alipore.

The city's atmosphere was cooler also on the 9th May last and onward due to visits of nor'westers on almost each day. On Sunday the 10th May, there were light showers also.

Before that, though the maximum temperature did not rise very high still the heat was oppressive. The stuffy and sticky weather was caused by the moist air current of Bay origin from south and south-westerly directions. The only reason so far traced was occurrence of fewer nor'westers this year, as one against three in March last year, three against five in April and none against three in the first week of May.

Rabindra Nath Tagore—The Cultural Representative Of India

[BY SHRI BISHU BHUSAN BOSE]

ABOUT eighteen years have elapsed since the worldly remains of the Poet Rabindranath Tagore had passed away in that unknown region. His sonorous voice had also been stopped forever. But unfortunately, Indians have not been able to understand the hopes and aspirations, dreams and ideals of that great Poet. Even now they have not at all understood the deep spiritual significance of the messages, ideals and aspirations of that great Poet and Seer.

Rabindranath is well-known to us as the greatest Poet of Bengal. But it can be asserted unhesitatingly that he is also one of the greatest poets of all countries and of all ages. He was a philosopher, a novelist, an artist, and a critic-politician. Indeed, in every sphere of human knowledge and art he left an abiding mark and impress. Therefore, many learned men will hesitate to apprise his contributions to human knowledge and art. To the world Rabindranath is simply a wonder. He discussed the various problems of humanity in many articles, lectures and addresses. We find the stamp of his genius on different subjects, viz., nationalism, religion, sociology, politics and such like. For instance, it can be mentioned that when the different nations of the world were engaged in feuds, animosities, hatred and vilifications, and the noble conception of Nationalism was camouflaged in a strategic way for the purpose of murder and aggression, it was Rabindranath who first sounded a note of warning against that Aggressive Nationalism armed with all modern weapons. No doubt, Nationalism is a noble conception, but when it is interpreted in a selfish and popped at manner, it becomes an evil principle. Said Tagore in his famous lecture on 'Nationalism in the West':—

"This history has come to a stage when the moral man, the complete man, is more and more, giving way, almost without knowing it, to make room for the political and commercial man, the man of the limited purpose. This process, aided by the wonderful progress in Science, is assuming gigantic proportion and power, causing the upset of man's moral balance, obscuring his human side under the shadow of soulless organization. We have felt its iron grip at the root of our life and for the sake of Humanity we must stand up and give warning to all, that this nationalism is a cruel epidemic of evil that is sweeping over the human world of the present age and eating into its moral vitality."

Many savants of the world have discussed the life and ideal of Rabindranath from their individual angles of vision, and thus attempted to search out the ideal and purpose of human life on earth. But very few has discussed the contributions which Rabindranath made in the field of Indian culture. Tagore is not only known to the world as the great Poet and Philosopher; but he is also known to the West as the expounder of Indian culture and message. The West knows him as one of the greatest exponents of Indian culture and civilization through his immortal books, viz., *Gitanjali*, *Sadhana*, *Religion of Man* and others. This leads us to feel the magnitude of

Rabindranath's contribution to the Message of India in this materialistic age.

It is known to many that in 1907 when Sri Aurobindo was prosecuted by the then British Government on charges of seditious activities, it was Rabindranath who first paid tribute to that Great Seer as 'the embodiment of the spirit of the Motherland'. In fact, Rabindranath himself was 'the embodiment of the spirit of the Motherland'. After the passing away of Swami Vivekananda no Indian had preached the Message of India in abroad in such a large scale as did Rabindranath. Eleven years after the death of the Great Saint, Rabindranath was awarded Nobel Prize for literature (in 1913) and from then he found an opportunity of preaching the Message of India to the Western World—a thirst for a nobler life. Indeed, the eternal message, spiritual endeavours and teachings of India were embedded in the *Gitanjali* for which he was appreciated so nobly. Besides, Rabindranath preached the spiritual message, dreams, ideals and conception of the comprehensive ideal of human life in the light of Indian civilisation through his different lectures, articles and poems (e.g., *Sadhana*, *Santiniketan*—a Bengali book consisting of prayers and religious discourses, *Religion of Man*, *Nationalism*).

The Message which he preached through his immortal book, the *Gitanjali*, was the message of Indian culture and civilization. We find therein the notes of unconditional surrender of the human soul to the supreme soul and the eternal prayer of man to the Divine Being for a pure and perfect human life. However, few topics may be mentioned here so as to give an idea of Rabindranath's dreams and aspirations. Firstly, Rabindranath believed in international unity and co-operation. Each nation of the world must co-operate with each other and exchange individual ideas and conceptions. According to him as the mission of the rose lies in the unfolding of the petals so the rose of humanity will be perfect only when the diverse races and nations will come on a common platform for co-operation, peace, friendliness and equality. In spite of the fact that the nations of the world are engaged in aggression, Rabindranath did not lose his faith in the eternal peace of the world which lies in distant future. He was an optimist and fervently hoped that the fountain-head of the water of everlasting life had not run dry in Europe and from thence she would have her re-birth time after time. Secondly, it may be mentioned that though he was a patriot, his conception of patriotism differs from that of the West. His patriotism was not narrow and selfish but was quite compatible with universal love. He wanted freedom of India not from the narrow national angle of vision. He deeply felt in the bottom of his heart that the western domination had entirely killed the soul of India, its ideals, thoughts and conscience. He, therefore, strongly advocated the freedom of the Motherland from the foreign yoke. Thirdly, it must be borne in mind that Rabindranath was a national poet and thinker. India's sorrows and sufferings, dreams and aspirations, music and dances, insults and humiliations—all have found a proper channel of expression.

(Continued on Page 80(b).)

Spit—And No Polish

[BY CHARLES NEWTON, ESQ.]

THROATS in Calcutta appear to be afflicted with a surfeit of phlegm, noses with an abundance of mucous, and mouths with surplus saliva. These maladies manifest themselves with disconcerting abandon on the public highways.

One evening, as I was walking along Theatre Road, a man, a little ahead of me, cleared his throat with fierce gusto, marshalled the 'waste' into his mouth, and emptied it just as I came abreast of him. To my chagrin, my new woollen suit, received from the laundry that day, was spattered with an ugly mass of phlegm. When I remonstrated to the perpetrator of this act, he merely guffawed. An act of this kind would not be so heinous if it was merely an isolated one, but it is performed with disgusting indifference on all busy thoroughfares throughout the city.

Despite warnings, such as, 'do NOT SPIT' and further qualifications, such as, 'spit carries germs', throats continue to empty themselves in public.

Not only are throats apparent reservoirs of phlegm, but the habit of chewing *pan* adds to the problem. People talk with a mouthful of gory fluid, and it is difficult to know when and in which direction they will eject it.

Public walls are the commonest targets and appear to wear a perpetual distemper of this particular variety.

Many of the humbler folk live on pavements, and more eat their meals at the side of them. In rinsing their mouths, either as part of the morning toilette, or after a meal, they have to be watched carefully, or else pedestrians run the danger of being doused with a singularly unpleasant 'mouthwash'.

Sometimes, people refresh themselves with water from a public vendor, swivel the last mouthful in the maw, and release it as though from a hydrant. Thus, spitting takes many novel forms, and confronts unwary pedestrians with as many dangers. Germs are not the only fear. Clothes run the risk of being soiled, and, above all, there is the affront to our aesthetic sensibility.

If offenders were brought to book by being fined on the spot, perhaps the unsightly and dangerous practice of spitting in public would diminish.

A habit just as common as spitting on pavements is that of doing so from a public vehicle in motion, without heeding the fact that spray can fall on passengers at the back, or on pedestrians on the street. I often see offenders of another variety. They press one nostril and release a copious jet through the other.

Sailors, who chew tobacco, are prolific spitters, but they are said to be good marksmen.

Sometimes, disgust compels us to indulge in the practice arraigned in this article. On one occasion, Mark Twain was taking a walk in the country, when a little girl ran up to him, held on to his hand, and laughingly walked alongside him. Much elated at this honour, the famous humourist told his young admirer: 'Little girl, when you grow up, marry, and have children, you can tell them that, one day, you went for a walk with Mark Twain.'

'Mark Twain', she cried, and as the tears welled up in her eyes, the best-selling author metaphorically struck his chest out, thinking that they were caused because of the pain she felt in leaving him.

'Mark Twain' she spat on the ground, I thought you were Buffalo Bill!

Perhaps, when Calcutta's residents spit on their co-citizens, it might well be an expression of their disgust for them. Happily, they do not appear to be aware of the joke, reproduced below, about the Maltese Cross.

Little Boy: Do you know how to make a Maltese cross?

Mr. A.: No.

Little boy: Spit in his eye!

—RABINDRA NATH TAGORE—THE CULTURAL REPRESENTATIVE OF INDIA

(Continued from Page 80(a))

through him. The ideal which Tagore tried to set before India was the ideal of simplicity of life, clarity of spiritual vision, purity of hearts and harmony with the Universal Spirit. To the world, torn assunder by strifes and hatred, lust and temptations. Rabindranath preached the ancient and immortal message of India in the following words:—

"The ancient civilization of India had its own ideal of perfection towards which its efforts were directed. Its aim was not attaining power and it neglected to cultivate to the utmost its capacities and to organise men for defensive and offensive purposes, for co-operation in the acquisition of wealth and for military and political ascendancy. The ideal that India tried to realise led her best men to the isolation of a contemplative life and the treasures that she gained for mankind by penetrating into the mysteries of reality cost her dear in the sphere of worldly success. Yet this also was a sublime achievement—it was a supreme manifestation of that human aspiration which knows no limit and which has for its object nothing less than the realization of the Infinite."

Thus, it has been made clear that through Rabindranath the voice of India was thrown not only to any single country but also to the world at large. It may be mentioned in this connection that it was Rabindranath who attracted the attention of Romain Rolland and other western savants to the spiritual treasures of India and thereby promoted the cause of the propagation of Indian culture to the world at large. To-day, dark clouds are engulfing the blue firmament of India's horizon from all sides. Never in the history of India so many ugly and beastly customs corrupted the social, cultural and moral life as it is at present. In these circumstances, it seems to us that time has come when we should thoroughly discuss the conception of Rabindranath about the various problems of humanity and must not allow to deteriorate the standard of our national culture. Rabindranath called upon the Indian youth to break up the spell of old traditions and return to the ancient through despised ideals of spirit and liberty. May the life and noble ideal of Rabindranath, the immortal expounder of Indian culture and civilization, inspire and stimulate the youth of our Motherland to lead a life nobly devoted to the cause of humanity and universal religion—this is the only prayer of our hearts.

CITY-NEWS-PARADE

OBITUARY: Shri Basanta Kumar Chattopadhyay, noted Bengali litterateur, died due to an attack of *Coronary Thrombosis* at his residence at 123/1, Upper Circular Road on Monday, the 11th May. He was 68. The late Shri Chattopadhyay felt the first attack on a previous evening when he was delivering a speech at a function in North Calcutta to celebrate the Rabindra Jayanti. He was removed to his residence immediately.

Born of a Brahmin family in Katwa, the late Shri Chattopadhyay served in the Postal Department. Later he published three weekly journals—*Dipali*, both English and Bengali, and a monthly journal for women, "*Mahila*". He made his mark as a poet, novelist and short story writer in Bengali. His death was condoled in all circles including the literary world.

The death of Kaviraj Jatindra Mohan Das Gupta took place on the 5th May last at his residence at Barrackpore Trunk Road, northern part of the city. He was 74. An ex-member of West Bengal State Faculty of Ayurvedic Medicine, the late Kaviraj Das Gupta was a Professor and Physician of Patipukur T.B. Hospital and Jaminibhusan Ashtanga Ayurveda College and Hospital.

Shri Arun Kunnar Ghosh, Barrister-at-Law, died at his residence 25C, Haris Mukherjee Road, southern part of the city, on Tuesday, the 12th May. He was 70. A grandson of the late Sir Chandra Madhab Ghosh, the late Shri Ghosh was a popular figure in the Bar and in the locality.

AN X-RAY PLANT & A PATHOLOGICAL CLINIC was put into operation at 36-2, Cornwallis Street, North Calcutta, on Sunday, the 10th May, in presence of a distinguished assemblage under the auspices of the Paschim Banga Samaj Seva Samity. The clinic's newly acquired Imperial 500 Ma X-ray unit was commissioned by Prof. Satyendra Nath Bose, National Professor. This unit will be able to take X-ray pictures of 500 poor patients every month free of any charge.

Prof. Bose stressed the need of hospitalisation of T.B. patients as effective. He felt that the large majority of the people could not afford nursing and care a tubercular patient required. He was glad to look into the efforts made by the Samity to reach succour to the suffering people.

Dr. Anath Bandhu Ray, Minister of State for Health, West Bengal, who presided, described the T.B. menace as a national problem. The number of tubercular patients in West Bengal was estimated at about four lakhs. As against that only 3,500 hospital beds were there. He said that four per cent. of the population in the plains of the State and eight per cent. in Darjeeling District were suffering from this disease. He also detailed out the various steps taken by the Government to check further spread of the disease and to rehabilitate the cured patients.

Dr. P. K. Ghosh, Chairman of the Medical Sub-Committee, gave a brief outline of the efforts made by the Samity to fight out the T.B. menace.

The Ex-Mayor, Dr. Triguna Sen proposed a vote of thanks.

A POSTER EXHIBITION OF POLISH GRAPHIC ART was organised in the Artistry House, Park Street, Calcutta. It presented an opportunity to verify the reputation that Polish graphic art has enjoyed recently during the post-war period. The conception and the way to give shape to it was

that by its colour composition as well as by depiction it became attractive and retained its individual distinction. This was noted in almost all the exhibits.

Amazingly successful were also the three posters of three well-known Indian films, *Bala*, *Do Bigha Jamin* and *Pather Panchali*. It was totally strange that it touched the core of these complex film stories.

OPPOSING PROPOSED SALT LAKES RE-CLAMATION SCHEME, a Conference of Congressmen and the members of a Co-operative Society was held at Dattabad, Dum Dum, on the outskirts of the city, on Sunday, the 10th May. It appealed to the Government of West Bengal to abandon "in the best interests of all" the proposed Reclamation Scheme.

Inaugurating the Conference, the Mayor, Shri Bejoy Kumar Banerjee, said that it was time that the State Government was convinced of the genuineness of the difficulties of 50,000 people affected by the scheme. In a Welfare State the interests of the people could not be sacrificed. Expressing his sympathy for any peaceful agitation for the cause, the Mayor made it clear that he would not hesitate to give up his office, if the people wanted him to do so.

The Conference, which was presided over by Councillor Devaprosad Chatterjee, M.L.C., passed a resolution explaining the difficulties that people of the neighbouring area would face if the scheme was implemented. The State would then be deprived of the supply of about 2,00,000 mds. of fish, about 2,50,000 mds. of aman paddy and several thousand maunds of green vegetables annually, it added.

Apprehending unemployment for about 20,000 agricultural and non-agricultural labourers, displacement of about 50,000 people, including nearly 2,000 refugees, settled permanently, and a complete dislocation of poultry farms in the area, the Conference strongly opined that instead of implementing the proposed scheme the Government should develop the Salt Lakes area by making roads, building schools and hospitals and providing it with modern irrigation and drainage facilities.

A 14-member Committee, headed by the Mayor, Shri Banerjee, was formed to carry on negotiations with the Government for withdrawal of the scheme. It included Councillors D. P. Chatterjee and Kali Paul, Shri Kanai Das, Shri Rabi Ghosh, Shri Nishit Mitra, Shri Abinash Bhattacharyya and others.

INDIAN RED CROSS SOCIETY'S BIRTH CENTENARY CELEBRATIONS was held in the Marble Hall, Raj Bahan, on Friday, the 8th May last.

Of all types of social welfare services the work of the Red Cross Society with its infinite variety was foremost, said Mr. Justice J. P. Mitter at that function. Shri P. C. Sen, Food Minister, West Bengal, presided.

In his message to the Society, the President of the Indian Union, characterized it as the greatest humanitarian organization in the world. The Union Vice-President, Dr. S. Radhakrishnan and the Union Prime Minister, Shri Jawaharlal Nehru also sent messages.

The Chairman of the Society, West Bengal Branch, Shri S. C. Roy, said that the founder of the Red Cross movement, Mr. Henry Dunant, was born in Geneva in 1828. Florence Nightingale's report on the horrors of the Crimean War inspired him to organize relief in a military operation.

The President, Shri Sen said that although the Society had made rapid progress in the State and raised its annual income through public donations to Rs. 12 lakhs. More funds were needed for the people of West Bengal among whom there was such sickness and suffering. The Society had started a few ventures, by trying to provide employment to needy women.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. III Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 20th May, 1959 at 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of the tender.

The successful tenderer will have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the Authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited. Agreement and Security Deposit are not necessary for works valued below Rs. 2,500/-.

42. Thorough repairs including painting and white washing of P. C. Market outside A & B Block—Rs. 2,857, dated 13th May, 1959 (one month).

43. Repairs to and replacement of the doors and windows of the stalls P. C. Market—Rs. 2,856, dated 13th May, 1959 (one month).

44. Repairs to footpath in Ripon St.—Rs. 3,151, dated 13th May, 1959 (two months).

45. Repairs to passage and drain at P. C. Market near the new Chandney & in front of old stall—Rs. 2,953, dated 13th May, 1959 (one month).

46. Thorough repairs to stall Nos. B-1-4, 5-7 & 10-12 at P. C. Market—Rs. 3,810, dated 13th May, 1959 (two months).

47. Repairs to footpath of Royd Street bet. Free School Street and Rafi Ahmed Kidwai Road in Ward 53—Rs. 3,698, dated 13th May, 1959 (two months).

48. Repairs to the Councillors' Club Room in C. M. O. Building—Rs. 2,735, dated 13th May, 1959 (1½ months).

49. Repairs to eastern footpath of Rafi Ahmed Kidwai Road bet. Ripon Street & S. N. Banerjee Road—Rs. 3,375, dated 13th May, 1959 (two months).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form is to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000.

A. C. SINHA,
Dist. Engr., III.

District III Engr.'s Office,
The 10th May, 1959.

District No. IV Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Tuesday, the 26th May, 1959 upto 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited. Agreement is not necessary for the works below Rs. 2,500/-.

18. Improvement of passage at Annada Banerjee Lane leading towards Justice Dwarkanath Road (portion) Constn. 69—Rs. 3,610, dated 11th May, 1959 (2 months).

19. Repairs to footpath of Mohini Mohon Road (portion) Constn. 69—Rs. 1,957, dated 11th May, 1959 (1 month).

20. Repairs to footpath of Chowringhee Road (portion) Constn. 70—Rs. 1,896, dated 11th May, 1959 (1½ months).

21. Repairs to narrow passage leading to premises Nos. 31/1, 31/2, etc., Rupanarayan Nandan Lane (portion) Constn. 70—Rs. 571, dated 11th May, 1959 (3 weeks).

22. Repairs to footpath of Ashutosh Mukherjee Road from Justice Chandra Madhab Road to Mohini Mohon Road Constn. 70—Rs. 2,332, dated 12th May, 1959 (1½ months).

23. Repairs to Latrine at the Junction of R. B. Avenue & S. P. Mukherjee Rd.—Rs. 1,806, dated 12th May, 1959 (2 months).

24. Maintenance to sewer at Pitambar Ghatak Lane, Constn. 72—Rs. 1,467, dated 11th May, 1959 (2 months).

25. Repairs to Dispensary building at Chetla Central Road—Rs. 2,974, dated 11th May, 1959 (2 months).

26. Maintenance of drainage adjuncts at Mondal Temple Lane, Constn. 72—Rs. 528, dated 11th May, 1959 (15 days).

27. Maintenance of drainage adjuncts by constructing one L.H. in front of 85 Joyraddi Mistri Lane, Constn. 72—Rs. 544, dated 11th May, 1959 (1 month).

28. Repairs to sewer by providing manhole in Belvedere Road near Presidency Jail—Rs. 543, dated 11th May, 1959 (3 weeks).

29. Repairs to sewer by providing manhole in Orphanage Road near gate of Zoo Garden—Rs. 535, dated 11th May, 1959 (3 weeks).

30. Repairs to kerb and channel stones at Ballygunge Place—Rs. 647, dated 12th May, 1959 (1 month).

31. Repairs to raised platform at Gariahat Market—Rs. 1,952, dated 12th May, 1959 (2 months).

32. Repairs to standpost platform at Constn. Nos. 61, 62, 63—Rs. 374, dated 12th May, 1959 (15 days).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000.

N. MAZUMDER,
Dist. Engr., IV.

District IV Eng'g. Office,
The 12th May, 1959.

Renaming of Road

NOTICE.

It is proposed that the common passage under premises No. 46/44, S. N. Banerjee Road in Ward No. 50 be renamed as Sachindra Mukherjee Road.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Thursday, the 11th June, 1959.

A. BHATTACHARJEE,
Assessor.

Central Municipal Office,
The 11th May, 1959.

It is proposed that the portion of Aswini Dutta Road, which is a branch of the main Aswini Dutta Road which begins from 20/7A, Aswini Dutta Road and runs towards the west to join the main road at 25D, Mahanirban Road in Ward No. 62 be renamed as K. D. Ghosh Road.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Tuesday, the 9th June, 1959.

A. BHATTACHARJEE,
Assessor.

Central Municipal Office,
The 11th May, 1959.

Auction Sale

NOTICE.

It is hereby notified for information of intending buyers that carts seized under Section 227(1) of the Calcutta Municipal Act, 1951 and not claimed within ten days of such seizure, will continue to be sold by public auction, as heretofore, everyday after 3 p.m., excepting holidays by the City Registration Officer at his office at 185/1, Lower Circular Road, Calcutta, until further orders.

A. S. DUTTA,
City Registration Officer.

Central Municipal Office,
The 10th May, 1959.

SHOPS TO LET

SIR STUART HOGG MARKET

Applications with offers of initial rent for the privilege of occupying the undermentioned stalls on rents noted against each are invited and will be received by the Superintendent in the Market Office daily between the hours of 11 A.M. and 1 P.M. It should be noted that 25% of the offer of initial rent would have to be deposited immediately on the acceptance of same by the Committee, the balance to be paid within 7 days.

CALCUTTA BOMBAY KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour as part of an hour—four annas.
2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.
3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.
4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.
5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.
6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the goods paid.
7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.
9. For the convenience of the public a stand is provided at the south-west corner, where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycles 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycles 0-18-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.
10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.
11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.
12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

VIEWS AND REVIEWS

SHRI P. C. MAJUMDAR AS NEW COMMISSIONER

Shri Probodh Chandra Majumdar, I.A.S. (Retd.) has been appointed as the Commissioner of the Corporation, by the Government of West Bengal, for two months. He has assumed charge of his duties as such on the 19th May, on completion of his nine months' term as the Chief Executive Officer.

With the submission of resignation by Shri B. K. Sen, the permanent Commissioner, and the acceptance thereto this appointment was necessary. Earlier, Shri Majumdar was appointed as the Chief Executive Officer under an Ordinance specially

SHRI P. C. MAJUMDAR

promulgated for the purpose due to some legal complexities whereby Shri Sen was prevented from continuing his office.

In the meantime the question of the appointment of the permanent Commissioner for the prescribed period of five years is receiving attention of the Government of West Bengal, Local Self-Government Department. The appointment is also subject to the approval of the State Public Service Commission, as provided under the Calcutta Municipal Act, 1951.

During this brief period of nine months Shri Majumdar has earned a name worth-mentioning.

His sympathy also goes to the employees and workers of this premier civic institution, whose number is also considerable.

We hope that the institution would be benefitted much by his service and devotion whatever the period he might serve.

SHRI SANKAR BANERJEE RESIGNS

Shri Sankardas Banerjee, Speaker, West Bengal Legislative Assembly, has resigned from his office. In a letter addressed to the Deputy Speaker, Shri Asutosh Mullick, on Friday, the 15th May last he stated that he was resigning with immediate effect.

Being interviewed, Shri Banerjee said that he had resigned wholly for personal reasons. There was nothing political about it. He said he had "thoroughly enjoyed" his office as Speaker. He had received full sympathy from all members of the House and was really sorry that he had to resign. He would continue to take an interest in the work of the House and do his best as an M.L.A. to assist it in its work.

Shri Banerjee's intention to resign had been known for some time and on more than one occasion in the past he was stated to have discussed the matter with Dr. Roy and some other important members of the Congress Legislative Party. He had been persuaded then to change his mind. Previously he had a long meeting with the State Chief Minister, Dr. B. C. Roy, and Shri P. C. Sen, in the Chief Minister's room in Writers' Building.

Shri Asutosh Mullick will carry on the duties of Speaker until a fresh election to the office takes place. The Assembly is likely to be summoned in July when a new Speaker may be elected.

Shri Banerjee who was a Standing Counsel until his election as Speaker in 1957, would return to Bar.

MUNICIPAL EMPLOYEES' MINIMUM WAGES

The Municipal Employees' threatened state-wide strike, proposed to have started on the 19th May, has been deferred in view of the West Bengal Government's declaration to pay two-third amount

to the Municipalities required for the implementation of the Minimum Wages Committee's Awards. This decision was taken at a meeting of the Employees' Federation just prior to the scheduled date.

Another strike notice of the Howrah Municipal Workers was withdrawn following an agreement between the workers' representatives and the Municipal Authorities in the matter of payment of an *ad hoc* Dearness Allowance of Rs. 5/- per month to all employees drawing a salary from Rs. 95 to Rs. 250 a month, as one of their main demands.

The implementation of the Awards of the Minimum Wages Committee was a long standing grievance of the municipal workers. While welcoming the Award many of the municipalities admitted their inability to implement them due to the stringency of their funds. They also reminded the Union and the State Government their responsibilities towards the Local Bodies particularly the municipalities whose duties and obligations had been over-burdened in the post-war era.

Implementation of the Minimum Wages Committee's recommendations for workers has been estimated to involve an additional annual expenditure of Rupees Forty lakhs. This would benefit

employees of 84 municipalities other than those of Calcutta and Howrah.

The Executive Committee of the West Bengal Municipal Association, at a meeting on the 17th May considered the State Government's offer in that connexion. The Government had agreed to grant the balance as a loan in addition to the original offer to bear two-third expenses.

The Committee requested the Government to reconsider its decision and give the total sum required for the implementation of the order as subsidy till arrangements were made to improve municipal finances. For the time being, it urged the municipalities which were in a position to do so, to accept the Government's present offer.

Truly, the financial position of many of the Municipalities is far from satisfactory, and unless Government help even in matters of essential services is not forthcoming they would be put into difficult days. The current fiscal crisis is more acute in those municipal towns where the pressures of population growth, heavy commitment to broad social and educational programmes, have been felt more intensively.

THE MAYOR POSES WITH THE 'DAVIS CUP' PLAYERS

PHOTO : SHYAMAL BASU.

DAVIS CUP PLAYED IN THIS CITY

INDIA became the 1959 East Zone Champions of the Davis Cup when the doubles combination, Shri Ramnathan Krishnan and Shri Naresh Kumar, defeated Mr. Raymendo Deyro and Mr. Juan Ma Jose of the Philippines on the centre court of the Calcutta South Club on Sunday, the 17th May in the Final Tournament. India met later on with the winners of the Inter-zonal tie between the American and the European Champions.

The path for becoming East Zones Champions was paved on Saturday, the 16th May last, when Shri Naresh Kumar and Shri Ramanathan Krishnan easily won their singles matches against Mr. Raymendo Deyro and Mr. Felicismo Anpon of the Philippines respectively, at the same place.

Earlier, on the 15th May last, the Mayor, Shri Bejoy Kumar Banerjee and Shrimati Ramma Shankardas, the

daughter of Dr. Handoo, the acting Secretary of the All-India Lawn Tennis Association, conducted the Draw of the East Zone Davis Cup Final at the Mayor's office room Central Municipal Office Buildings, S. N. Banerjee Road. (Photo above).

At a simple and rather informal function two handsome silver Trophies of the National Lawn Tennis Championships served as the "hat." At the request of the Philippine Captain, Mr. Noli Reyes, Shrimati Shankardas drew out the white envelopes, containing the marked slips of his players, while the Mayor drew out India's lots.

Speeches were made by the Mayor Shri Banerjee, Shri Ganesh Dey, Dr. Handoo and the two Captains, Mr. Noli Reyes and Shri Naresh Kumar. Both of them shared the same sympathy that the best team would win the tie.

MAYOR INAUGURATES YOUTH FESTIVAL WEEK-LONG CELEBRATIONS IN THE CITY

THE WEST BENGAL YOUTH FESTIVAL holding its celebrations in the fields of Ranji Stadium, Eden Gardens, attracted a larger number of people this year than in the previous ones. The festival was opened with the staging of an impressive mass drill participated in by thousands of boys and girls, on the 16th May, last. Earlier, two big processions, one from the north and the other from the south, merged into the site after parading over the city's main thoroughfares. Attractive cultural and entertaining programmes for the celebrations continued till Friday, the 22nd May and was scheduled to continue till the 24th May.

The programme included symposia, debates, moot parliaments and other features being participated in by experts and other important citizens. The Festival Committee had also simultaneously arranged for physical demonstrations, outdoor games, display of physical feats and such like. Each day's function ended with performance of dramas and others. There were film shows also.

INAUGURATING the function the Mayor Shri Bejoy Kumar Banerjee, said that the world youth should make its contribution to the fulfilment of the aspirations of the new humanity in the context of the modern scientific and technological progress. Youth should devote itself to the task of fighting poverty, ignorance, superstition and social inequalities.

Messages were also received from, among others, Dr. Sarvapalli Radhakrishnan, the Vice-President of the Indian Union, Mr. Paul Robeson, the World famous singer, Col. Nasser, President of the United Arab Republic, Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, and the Delhi's Mayor, Shrimati Aruna Asaf Ali.

In a resolution on Rabindranath's Birth Centenary, the Festival Committee said that in order to commemorate the memory of the Poet in an appropriate manner higher education should be given in Bengali from this year. The resolution also suggested that arrangements should be made for translation into Bengali of books on science and philosophy and sale of Tagore's works at a cheap price. Collections were raised on these days for a fund after the name of the Poet.

Principal, Ramani Mohan Roy, of Surendranath College, presided on that day.

Second day's programme included a symposium on "Space Travel" under the Presidentship of Dr. B. D. Nag Chaudhury, music, dance, drama, acrobatic feats and film shows.

On Monday, the 18th May, a symposium on 'Disarmament "issue on the present world situation" was arranged wherein Dr. Dharendra Nath Sen presided. Calcutta's well-known artistes regaled the audience on that day.

A procession of rural youths, hailing from different corners of the country, started from the Raja Subodh Mullick Square towards the Eden Gardens on the 19th May.

There was a discussion on 'Land Reforms' presided over by Shri Hare Krishna Konar, M.L.A.

The greatest attraction of the festival week was an informal Bandung Conference as originally held four years back. Prof. Nirmal Chandra Bhattacharyya, M.L.C. in the role of the Indonesian Premier, presided. Shri Sidhartha Sankar Roy, M.L.A. inaugurated the moot conference. Among those who represented the views of different participating countries included, Prof. Gautam Chatterjee, Shri Utpal Dutta and others. The day was also marked as the Asia-Africa Solidarity Day, opened by Dr. Pratap Chandra Chunder, who emphasized the need of unity between the two big continents in the world.

The seventh day was observed with the singing of songs, dance recitals and staging of dramas all from Rabindranath. An interesting discussion on 'Dramas and Staging of them' was presided over by Shri Sachindra Nath Sen Gupta, the well-known Dramatist of Bengal, and a few artistes from the stage.

Saturday, the 23rd May, was scheduled for the young girls. A procession was followed by a discussion presided over by Dr. Rama Chaudhury, Principal, Lady Brabourne College. The day's another scheduled feature was staging of Maxim Gorky's 'Mother' in the indoor stadium.

On Sunday, the 24th May, the concluding speech is expected to be made by the Ex-Mayor Dr. Triguna Sen. A programme of dance recitals, singing of songs and others would follow then.

Photo : S. B.

CITY FATHERS CELEBRATE 'RABINDRA-JAYANTI'

Through a solemn function 'Rabindra Jayanti' was celebrated in the Councillors' Club Room, Central Municipal Office Buildings, S. N. Banerjee Road, on Friday, the 22nd May, under the auspices of the Club.

A beautiful portrait of Rabindranath bedecked with flowers was placed inside the Club room. The hall was also decorated with flowers and foliage.

The Mayor, Shri Bejoy Kumar Banerjee, presided over the function while Councillor Rajendra Nath Mazumdar was the Chief Guest. As the Mayor had to leave earlier Councillor Chandra Sekhar Bhowmick took the chair. (Picture left).

The programme included vocal songs, recitations, and such like. Songs were rendered by the Jatiya Sahitya Sangha. Councillors Taraprasad Mittra, Sadhangshu Sekhar Mittra and others recited from the poems of the Poet. All these regaled the gathering assembled there.

Speeches paying tributes to the Poet were also made on the occasion. Among them one made by Councillor Shyamal Kumar Dutta was really attractive and instructive.

Similar functions spread over throughout the city till that day and it continued even after.

3. Shri Salauddin Ahmed, 10A, Rajabali Lane.

BOROUGH COMMITTEE No. 16.

1. Shri Amal Kumar Das, 9, Ramanath Das Road.
2. Shri Sukhendra Nath Sen, 24, Lady Willingdon Road.
3. Shri Sachin Sen, 19, Kali Bari Lane.

'Tornado' Swept Over The City

CALCUTTA was hit hard by a violent storm that blew over it on Thursday evening the 21st May. It was accompanied by hail and other natural accompaniments. The southern part of the city was the worst sufferer in this regard, and the full fury of the thundersquall, lasting even not more than half an hour, fell upon Ballygunge, Alipore, Bhowanipore, Chetla, Kalighat and other adjoining areas causing untold misery to almost all the people, living either in some improvised huts or under temporary sheds. A few thousands were rendered homeless.

The violent storm described as a 'Tornado', was the worst one of its kind in recent memory. The magnitude of devastations and damages has yet to be estimated. Nearly eleven persons lost their lives due to this and some of them were killed under tragic circumstances. The number of injured mounted upto 150. A section of them were removed to the hospitals. Within that small area innumerable trees were uprooted, resulting in cut-off of overhead electricity supply and telephone communication wires, and suspension of transport services for a few hours. Cases of electrocution were not absent. Bustee sheds, damaged roofs and boundary walls, temporary structures of advertisement hoardings, all collapsed. The sufferings of the refugee camps in Lake area were the worst. The landscape completely changed demolishing all that had stood there. Still considering the fury of the storm in the southern sections of the city, and the unprecedented destruction of trees, damage to telegraph and electric poles and wires, water mains, huts and tin sheds, casualties were happily few.

The damages and the devastations on the northern part of the city were not so serious as in the south. The central part was said to have been free from all troubles although rains and thundersquall caused suspension of traffic and other damages of minor nature.

The losses of the Corporation properties were also considerable. The sweeper bustees at Garcha Road, the three Municipal Markets in that part, and others have suffered damages. A Corporation employee, Shri Baliraj Prasad was killed on the spot by an uprooted palm tree at Akshoy Mukherjee Road, Cossipore, northern part of the city.

The Mayor, Shri Bejoy Kumar Banerjee, at once rushed to the affected areas and himself took the task of giving immediate possible relief to the suffering succour. According to him about 10,000 people were affected. He went round the whole area to see things himself till late hours of that night. He was then accompanied by Councillors Anil Maitra and Raj Satyendra Nath Mitra. Arrangements were also made to mobilise all forces of relief at Corporation disposal under the charge of the Commissioner, Shri P. C. Mazumdar, the Chief Engineer, Shri A. K. Sen and others.

The Fire Brigade, the Ambulance and others rendered appreciable services then.

ONE OF THE WORST CALAMITIES BETOOK OVER THE CITY

The thundersquall started at about 6 P.M. The wind hit a peak speed of 61 miles per hour in the city. It came from the south-west and traversed a horse-shoe course to the west. The highest ever windspeed in Calcutta was recorded as 80 miles per hour on the 1st May, 1946. On May 27, the Alipore Meteorological Office registered a 77 miles per hour gale. The wind on Thursday did not match the previous records.

The day's thundersquall was otherwise welcome after a long hot spell. The temperature dropped by 16 deg. F from 88 deg. F. before the storm to 72 deg. F immediately after. The Alipore Office recorded 1.30 inches of rain on that day.

The city had been experiencing abnormal temperature previous to that day. Two days' back the maximum temperature was 39 deg. C (103 deg. F) 4 deg. C above normal. The minimum temperature was 29 deg. C, (84 deg. F), 4 deg. C also above normal. The maximum humidity was 87 p.c. and the minimum 47 p.c. The maximum wet bulb temperature was 29 deg. C, (84 deg. F).

DEVASTATIONS & DAMAGES

The refugee camps in the Lake area presented a scene of total devastation. Almost all the roofs were blown away or damaged. Nine of the inmates had to be rescued from under-collapsed huts by Fire Brigade men and the police. Several were admitted to hospital—one of them, a two-year-old girl, died later.

There were about 150 families in the camp. Many were removed to the adjoining brick structures. Shelter was also given in the Muralidhar Girls' College. All were given dry doles. Dhutis, saris and children's frocks were also supplied.

The iron structure of an advertising hoarding broke away from the roof of a two-storeyed building at the crossing of Syamaprasad Mookherjee Road and Sambhunath Pandit Road. A portion of a verandah in Bhowanipore collapsed, seriously injuring two persons. Some more huts in Kali Temple Road, Govinda Roy Lane and Beltala Road, were also damaged.

Falling trees and branches affected the power supply in the Karaya, Ballygunge, Watgunge and Ekbalpore areas. Telephone services in the Fort area were affected.

The storm caused considerable loss also to the Royal Agricultural and Horticultural Society of India's garden in Alipore. About 150 trees were damaged and 15 of them uprooted. Falling trees killed a four-year-old daughter of an employee and seriously injured two persons. In the Ekbalpore thana area most of the bustee huts lost their roofs to the howling wind. A corrugated-iron roof was tossed high in the air and brought crashing down on Ekbalpore Lane. About 12 people in the locality were injured.

The Government supplied tents to many families among those bustee dwellers whose huts had been badly damaged or had collapsed in the storm.

Damages to the Municipal Markets lying on that part of the city amounted to blowing up of Central Chandiwy of the Lake Road Market and tin sheds in all of them. The damage to the Lake Road Market was comparatively heavier.

MAYOR ESTIMATES THE LOSS

MEANWHILE, the Mayor, Shri Bejoy Kumar Banerjee, who went round the area on that evening made a fresh stroll on next morning. Legislators and Councillors of that affected area also accompanied him. The Corporation Commissioner, Shri P. C. Mazumdar, the Chief Engineer, Shri A. K. Sen, rushed to the site and started relief and rehabilitation work.

The Mayor, Shri Banerjee, also said at the Corporation meeting on Friday, the 22nd May, that he had requested Shri P. C. Sen, the Food and Rehabilitation Minister, to give all possible help to those affected by Thursday's tornado.

Through a statement presenting before the House the Mayor said:—

Last evening, while we were all welcoming the good shower of rain after the long spell of drought and gruelling heat we did not realise that a tornado was sweeping over the southern parts of the city and the southern suburbs. The storm was creating havoc, uprooting a very large number of trees, devastating bustees and demolishing hutments; electric and tramway wires were snapped assunder at different places by heavy trees falling across them. The storm was followed by a rather heavy shower of rains.

Most tragic of all was a number of precious lives lost including those of at least two children. Over a hundred people were injured all over the city, the case of some of whom were rather serious necessitating their removal to hospitals. An employee of the Corporation lost his life due to electrocution.

We express our deep sense of sorrow and sincere sympathy to the citizens who have suffered grievously due to the ravages of the storm. We also express our sincere condolences for those who have lost their lives and we also offer our sincerest sympathy to the members of the bereaved family.

Accompanied by Councillor Anil Moitra, Leader of the Opposition and Councillor Raj Satyendra Mitra, Asstt. Secretary, Congress Party, I moved round the area covered by Lansdowne Road, Hazra Road, Rash Behari Avenue, Gurusaday Dutt Road, Ballygunge Circular Road, Syamaprosad Mookerjee Road, Judges Court Road, Southern Road, Chetla Road, Baker Road, etc. The storm had uprooted a very large number of trees which blocked the roads. Overhead wires had been cut putting out street lights and dislocating tram services. Some of the roads were water-logged. A number of skysigns had toppled down on the roads and created road blocks. I rang up till midnight the Commissioner, the Chief Engineer, Lighting Superintendent, Deputy Chief Engineer, City Architect, and District Engineer IV and asked them to mobilise all Corporation resources from all the districts and also from the Entally Workshops and employ them in rehabilitating as far as possible and as quickly as possible the affected areas.

I am glad to inform the House that work has been taken up in right earnest under the direct supervision of the Commissioner, Shri Mazumdar, Chief Engineer, Deputy Chief Engineer, District Engineers and other officers concerned. We also visited quite a large number of bustees affected by the tornado including those of Panchanontola area.

This morning I have visited the *methar* barrack at ~~111, Gurusaday Dutt Road~~ and ~~other~~ *other* ~~in~~ *in* ~~distress~~ *distress*. I requested the Commissioner and the Chief Engineer to repair the barracks immediately. I visited the victims of last evening's storm in Shambhunath Pandit Hospital, Ramkrishna Mission Seva Pratisthan and Hospital, and Magniram Bangur Hospital. I also spoke to the Minister for Rehabilitation and requested him to render financial and other help in the city and other adjoining areas out of the resources of the State Government.

I am glad to state that the Corporation employees, Fire Brigade people, Police and other public bodies co-operated in this work most gladly and to the best of their abilities.

When at the end several members urged Shri Banerjee to sanction, an amount out of the Mayor's Fund, he assured them that a meeting would be called soon to decide what relief could be given to the distressed and homeless.

About 60 per cent. of the essential services in the affected areas were restored on Saturday, the 23rd May. Although all tree branches could not be removed still those falling on pavements had been cut and removed. Erection of telegraph and lamp posts and restoration of water mains continued.

According to a Government Notification, owners of huts damaged in the storm should get adequate aid from the West Bengal Government's Relief Department, for assistance in securing corrugated iron sheets.

The Mayor, Shri Banerjee, who was anxious to arrange adequate relief to the affected areas, immediately called a meeting to decide how much relief could be given to the distressed people from the Mayor's Fund. The Government's relief work, he felt, must be done with the assistance of selected representatives of the area who had close contact with those affected by the storm and had listed the sufferers. According to him the work should be carried on in co-ordination with the local Councillors and M.L.As in the area for distribution of relief to the distressed people.

Regarding rehabilitation of people whose huts collapsed during the storm new situations have been developed. The Building Department has been instructed to permit tenants to re-construct them. Usually, landlords' permission is needed for such re-construction. It has further been learnt that the landlords are not moving in right direction in this sphere.

The Corporation has also asked the Department concerned not to issue further licences for skysigns. The Department will soon submit a report on skysigns damaged by the storm.

FOURTH BANDUNG ANNIVERSARY

Through a three-day function at Mahajati Sadan, central part of the city, Calcutta solemnly celebrated the Bandung Anniversary. This was to commemorate the historic Bandung Conference wherein attempts were made to establish peace in the East through non-aggression treaties and by following a policy of neutrality.

The celebrations were inaugurated on Saturday, the 16th May last through a meeting there under the auspices of the Institute of Asian and African Relations.

On the first day, a number of Consular representatives from different countries of Asia and Africa emphasized the need of establishing peace in that war-torn world. Dr. Kalidas Nag presided. It ended with cultural functions. On the second day an International Cultural Programme was arranged with Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, in the chair. The Mayor, Shri Bejoy Kumar Banerjee, presided on the concluding day's function—International Film Festival.

A larger number of visitors gathered on each day in the Hall.

Calcutta Looks Ahead

NEW HOUSING SCHEMES IN CITY

The West Bengal Government has formulated schemes for construction of two multi-storeyed tenement houses, one at Tiljala and the other at Cossipore, to re-house dehouseed people from *bustees* under the Slum Clearance Act. Each building will have 4,000 tenements. The two schemes are expected to cost about Rs. 65 lakhs. The land at Tiljala has already been acquired and construction work will begin soon.

The State Government has also acquired the Orphanange Market at a cost of Rs. 25 lakhs to construct a third multi-storeyed tenement house there. The State Government has provided Rs. 2.80 crores in this year's budget for Slum Clearance and Re-housing of displaced Bustee dwellers.

The Calcutta Improvement Trust has also undertaken construction work in this connexion. A multi-storied tenement house has already been completed in the Cossipore area, Barrackpore Trunk Road, and another building is nearing completion.

BRAIN SURGERY UNIT IN A CITY'S HOSPITAL

A special unit for Brain Surgery will be set up at the Sukhlal Karnani Hospital, formerly Presidency General Hospital, Calcutta. The State Government's Health Services Directorate has worked out details of the scheme. A donation of Rs. Three Lakhs has already been received.

Fitted with 25 beds the unit will be air-conditioned and will be equipped with modern surgical aids and instruments. The unit will be manned by Indian doctors, capable of doing brain operations.

CHILDREN'S HOSPITAL IN CITY

The State Government has proposed to establish a second 240-bed children's hospital in the city. Of a total cost of Rs. 30 lakhs Rs. Six lakhs will be raised by donations and the balance will be met by the Government. Fifty beds will be set apart for Diphtheria patients.

ADI-BRAHMO SAMAJ BUILDING TO BE RENOVATED

The West Bengal Government has sanctioned an ex-gratia grant of about Rupees Twenty-eight thousands to the Trustees of the Adi-Brahmo Samaj for repairs to its buildings at 55, Upper Chitpore Road, northern part of the city.

CHILDREN'S CORNER IN ALIPORE ZOO

Children will be more attracted towards the Alipore Zoological Gardens with the establishment of a "children's corner" there. The West Bengal Government has sanctioned over Rs. Four lakhs for the project.

The scheme for the proposed corner, to be situated on the eastern side, includes carnivora to

be kept in "caves" and natural surroundings, display of animals in the open and construction of aviaries. Arrangements for pony riding and playing of records of animal voices will be made. Some famous children's stories will be illustrated by pictures on the walls of a tower.

Guides will be employed to explain the animals' ways to children. Merry-go-rounds will be installed and there is a proposal to show films depicting animal life.

A new gate with decorative designs will shortly be opened on the Strandale Road side of the Garden.

BOOK BANK FOR STUDENTS

A "Book Bank" for the students in the city who are unable to purchase their text books will be started by the University of Calcutta at an estimated cost of Rs. 15 lakhs.

Other than a library in one sense the students would be permitted to take text books from there on loan for an year or more, till the examinations were over. Started by the Calcutta University the Bank would preserve different sets of text books. The authorities have decided to spend the money from the Centenary Fund of the University, earmarked for the students' welfare amenities.

So far it has been gathered that the Bank will be established near the College Street area to suit the convenience of the students.

A POLYCLINIC FOR STUDENTS

The Calcutta University has decided to start a Polyclinic for the out-door treatment of the students at an estimated cost of Rs. Three Lakhs. The polyclinic will be situated on Wellesley Street, central part of the city.

BUILDING FOR RABINDRA UNIVERSITY

Negotiations are going on between the West Bengal Government and the Rabindra Bharati about the purchase of properties owned by the latter. The properties now owned by Rabindra Bharati would be taken lease by the Government.

The annual general meeting of the Rabindra Bharati has desired to build up a University in Calcutta to perpetuate the memory of Rabindranath Tagore. The State Government has offered about one lakh of rupees to rebuild the present hall of Rabindra Bharati.

NEW GOVERNMENT BUILDINGS IN CITY

In order to meet the increasing demand of the West Bengal Government's office accommodation, the Government has decided to construct more buildings and enclaves in its existing sites in Calcutta.

To house food and other departments' staff a new eight-storeyed structure will go up in Free School Street, within the compound of the recently constructed Government building. Two-storeys will be added to the existing six-storeyed structure. The New Secretariat annexe on Strand Road will have four storeys added to its six. A building in Hastings Street acquired by the Government has also been renovated.

NEW HOSPITAL IN RISHRA

The newly-built Rishra Seva Sadan Hospital was inaugurated by Shri Bhupati Mazumdar, Minister for Commerce and Industries, West Bengal, at Rishra recently. Family Planning, Maternity and Child Welfare Sections were included in the hospital. The construction of the hospital building cost Rs. Thirty Thousands.

NEW MUNICIPAL BUILDING

In presence of some legislators of the locality and the Chairmen and Commissioners of the North and the South Dum Dum Municipalities, the new municipal building of Dum Dum was declared open by Shri D. W. Telang, S.D.O., Barrackpore, some time ago. The building was constructed at a cost of about Rupees Thirty thousand.

NEW MUNICIPAL BILL IN ANDHRA

The Andhra Pradesh Government have published a Bill recently to amend further the Hyderabad District Municipalities Act, 1956.

Almost all the city and town Municipal Committees in Telengana area were constituted in 1953-54 and the term of office of every Municipal Committee was three years. Though this term had expired long ago, since the rules for the conduct of elections have not been framed, elections have not been conducted. In order to ease the difficulties it was considered whether the Legislative Assembly rolls could be adopted or not? As there were certain differences in the mode of preparation of electoral rolls for the Assembly Constituencies under the Representation of People's Act 1950, and the list of members for the Municipalities in Telengana under the Hyderabad District Hyderabad Municipalities Act it was not possible to do so.

The proposed legislation hoped to remedy this position by including provisions similar to those contained in Section 44 and other relevant Sections of the Madras District Municipalities Act, 1920.

CANCER WING IN KAMALA NEHRU HOSPITAL

The Vice-President, Dr. S. Radhakrishnan opened the Cancer wing of the Kamala Nehru Memorial Hospital recently in presence of a distinguished gathering including several Union Government's Ministers.

Built at a cost of Rupees Four Lakhs the wing is a double-storeyed building with two general wards of ten beds each. Besides, there are two radiation rooms for males and females.

Speaking on the occasion, Dr. Radhakrishnan said that cancer had become a serious disease. In the beginning of this century in U.S.A. it was the seventh cause of death, but to-day it has become the second cause of death in the last decade, added the Union Vice-President.

GANDHIJI'S STATUE IN MADRAS

The statue of Mahatma Gandhi, was recently inaugurated in Madras by the Indian Prime Minister, Shri Jawharlal Nehru. Installed at the Marina, opposite the Office of the Inspector-General of Police in San Thome, the statue has attractive features. Shri Nehru also addressed a public meeting on the foreshore of the beach at the same time.

DUM DUM MUNICIPALITY'S BUDGET ESTIMATES

The budget estimates of Rs. 2.29 lakhs of Dum Dum Municipality for 1959-60 were sanctioned at a Special Meeting of its Commissioners recently. Shri Kamta Nath Tewari, Chairman of the Municipality, presided.

Expenditure for 1959-60 has been estimated at Rs. 2.98 lakhs. Actual expenditure during the preceding year was Rs. 2.85 lakhs.

The expenditure plan for 1959-60 include Rs. 25,000 for the construction of a charitable dispensary building, Rs. 15,000 for the construction of stalls in the municipal market and Rs. 12,000 for the construction of a municipal park.

The Municipality has been promised substantial contributions by the State Government. A sanction of Rs. 51,000 for the development of roads in this municipal area has been assured. In addition, the Municipality would get a grant of more than Rs. One Lakh for the development of its refugee colony areas. If these amounts are added the estimated receipts will total over Rs. Four Lakhs.

DEATHS AND DISEASES IN THE CITY

Attacks and deaths from cholera during the week ended the 16th May in the city were 101 and 29 respectively as compared with 75 attacks and 19 deaths the week before.

Small-pox attacks and deaths during the week were three in each case. Tuberculosis claimed the largest number of human lives in the week when 39 persons died of the disease against 35 in the preceding week.

Total number of deaths from all causes during the week under review was 671 against 526 the week before.

TEMPORARY SUSPENSION OF TRAM SERVICES

Tram Services from Kalighat Depot, southern part of the city, remained suspended for a few hours on Friday, the 22nd May when the drivers, and conductors refused to ply the cars on the plea that they had to work till late at night following a heavy squall over that part of the city. They had placed some demands before they resumed the services.

CITY NEWS PARADE

GAUTAM BUDHA'S 2503RD BIRTHDAY ANNIVERSARY OR BUDHA JAYANTI was celebrated by various Buddhist organizations in the city on Friday, the 22nd May. In one, held under the auspices of the Mahabodhi Society of India, at Sri Dharmarajeka Vihara, Bankim Chatterjee Street, central part of the city, Gautam Budha's message of compassion and amity was emphasized by different speakers, including Consular representatives of different countries stationed in Calcutta.

Shri C. C. Biswas, a former Minister of the Union Cabinet, was the President of the function while Lady Ranu Mukherjee was the Chief Guest. Two inspiring songs of Rabindranath on Gautam Buddha invoked the function.

On behalf of their respective Governments the Consular representatives read greetings and wished success for the celebration and explained in what spirit Budha and his message were taken and heard in their respective countries. They represented the United States of America, the United Kingdom, France, Germany, Indonesia, Japan, Thailand and Pakistan. The last speaker said that there lived three and a half lakh Buddhists in Pakistan enjoying full religious freedom.

Among others who took part in the proceedings were Shri Keshab Gupta and Shrimati Chhritra Gupta.

The Thrice Sacred Festival, the Birth, Enlightenment and Mahaparinirvana of Lord Budha was held at the Japan Sad-Dharm Vihara, Lake Road View on that day. Dr. Nalinaksha Datta presided and Mr. Kazuo Kaneua, Vice-Consul of Japan, was the Guest-in-Chief.

The sacred 'Buddha Purnima' festival and the Buddha Jayanti were similarly observed at the Vihara premises, 1, Buddhist Temple Street, central part of the city, under the auspices of Buddha Dharmankur Sabha, Bengal Buddhist Association, on that day also.

The Mayor, Shri Bejoy Kumar Barua, presided and Sir Bijooy Prosad Singh Roy, was the Chief Guest there.

The day was also observed at 63, Tollymore Road, under the auspices of Sri Guru Sangha Ashrama, South Calcutta.

The Bengal Theosophical Society also celebrated the day.

The All-India Radio, Calcutta, broadcast special programmes on the occasion of 'Buddha Purnima'. The programmes included "Budha Van" and "Panchasheel" two features written by Suman Vatsayan.

A talk in Bengali entitled 'Parinirvan' by Dr. Arabinda Barua, Education Officer, followed by readings from "Dhammapadam" by Bikshu N. Jinaratna was broadcast in the evening.

In this connection a procession with the image of Lord Buddha was scheduled to be started from the foot of the Ochterloney Monument in the Maidan to reach Dharmarajika Chaita Vihara after parading through main thoroughfares of the city.

BENGAL AUXILIARY AIR FORCE, SQUADRON NO. 55 staged the first passing-out parade on Sunday, the 17th May. The Squadron was formed in October, 1956, at Barrackpore. It was commanded by Flying Officer, Y. Dutt. A Gurkha band was in attendance.

Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, who took the salute, pinned the badges on the officers and airmen. In a brief speech he appreciated their service of duty and discipline and stated that in an emergency they

would be able to shoulder the responsibility entrusted to them.

Seven officers and 27 airmen of the Squadron received their badges. They had recently completed their training at the Indian Air Force Station, Barrackpore.

Group Captain R. Sen, Officer Commanding, I.A.F. Station, Barrackpore, said that these members of the Squadron, who were employed elsewhere, had to report for training at weekends and on holidays.

FIRES ETC. An out-break of fire in NAAZ CINEMA, Lower Chitpur Road, on Thursday, the 21st May, caused much panic in that locality. Crowds screamed when they noticed the fire engulfing over the horizon. Among them were some who had come to attend the matinee show.

The fire broke out in a store room at the back of the stage on the first floor. Burning wood soon charged through the sound-proof ceiling of the auditorium and fell on to the stage. Clouds of smoke came from the store room and filled the narrow staircase leading to it. The hall was also full of smoke.

The fireman, attached to the cinema, detected the fire and immediately Fire Brigade was called. Seven engines, including five water carriers took nearly an hour to extinguish the fire. The fire was also attacked from inside the hall.

Another fire broke out in a godown, stacked with tamarind seeds, in Hyde Road, Kidderpore area on Saturday, the 16th May last. Three engines of the West Bengal Fire Services brought the blaze under control within an hour.

The wooden floor of a two-storeyed godown in a jute press in Cossipore, Calcutta, was damaged due to a fire on Wednesday, the 20th May. Four engines were used to extinguish the fire.

DEMANDING AMENDMENTS OF THE BENGALI SHOPS & ESTABLISHMENT ACTS in order to improve their service conditions, several hundred employees working in city's shops and establishments took out a procession in Central Calcutta on Thursday, the 21st May. They held a meeting at Subodh Muttik Square, Central Calcutta with Prof. Hiren Mukherjee, M.P., in the chair.

The employees' demands included eight working hours a day and 44 hours a week against 10 hours a day and 56 hours a week as provided in the Act; one and a half days' weekly holidays for all categories of shops and establishments without any discrimination; application of the Minimum Wages Act to those that are not yet covered by the measure, provident fund and gratuity.

Shri Haripada Chatterjee, Secretary of one of the seven employees' unions which jointly organized the demonstration, said that there were over one lakh shops and establishments, including cinemas, in the State. The total number of employees would be well over twenty lakhs who needed better deal.

A CASE OF FOOD POISONING: A doctor and two of his daughters died in Nilratan Sarkar Hospital, Calcutta, on Friday, the 15th May last. Doctors suspected food poisoning was the cause of death. The grief-stricken relatives and curious neighbours speculated wheat as the source of the material that had already caused the sudden tragic death of three other members of the same family.

Dr. Hiralal Baidya and his five children, were taken to the hospital from 7, Vaitab Biswas Lane, Jorasanko, North Calcutta.

According to a relative of the late Dr. Baidya, Dr. Baidya and the children had taken bread the previous night, after which they fell ill. They were unconscious when they were taken to hospital.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 26th May, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

18. Repairs to footpath pavement at Netajee Subhash Road from its junction of Harrison Road to Canning Street—Rs. 4,751/-, dated 14th May, 1959 (1½ months).

PHENEOL LAMP BRAND

A POWERFUL DISINFESTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—Six annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the sales paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or rickshaws are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

MAYOR'S EFFORTS TO RELIEVE THE DISTRESSED

Since the city's Mayor, Shri Bejoy Kumar Banerjee, made a statement before the House on the 22nd May last about the untold sufferings of the people affected by the tornado, which swept over the city on the 21st May last, he moved the four corners for providing adequate relief to them. On Sunday, the 24th May, the Mayor, Shri Banerjee, impressed on the Food and Rehabilitation Minister, Shri Prafulla Chandra Sen, the need for a Co-ordination Committee in the matter of distribution of relief to them.

The Mayor's Relief Fund Committee, on Monday, the 25th May, sanctioned a sum of Rupees Ten Thousand, out of the fund for relief among the sufferers.

The Corporation, at its adjourned weekly meeting on Tuesday, the 26th May, also sanctioned a contribution of Rupees Ten Thousand to the Mayor's Fund for relief to the people affected by the devastating storm. The request for the contribution came from the Mayor, Shri Bejoy Kumar Banerjee, who informed the House that a similar sum was already diverted from the Mayor's Relief Fund for the purpose.

The Mayor, Shri Banerjee explained that relief to the storm-stricken was primarily the duty of the Government. The Corporation would co-operate with the Government in this task.

In the meantime, with the acceptance of the Mayor's suggestion, The Relief Co-ordination Committee was provisionally formed headed by Shri Banerjee himself and the Corporation Commissioner, Shri P. C. Mazumdar, I.A.S. (Retd.), as its Secretary (*Ex-officio*). It included Shri Sadhan Gupta, M.P.,

Shri Sidhartha Sankar Roy, Shri Naren Sen, Dr. Maitreyee Basu, Shrimati Manikuntala Sen, Shri Somenath Lahiri, Shri Sunil Das, Dr. Jnan Mazumdar, all members of the State Legislative Assembly, and Councillors representing those areas namely Ward Nos. 56 to 80 covering five Boroughs on the southern side of the city. It also included Shri S. C. Roy, President of the Indian Red Cross Society, Calcutta Branch.

The first informal sitting of the Co-ordination Committee was held on the 26th May wherein the Mayor presided. Shri H. L. Roy, Deputy Director of Relief, appointed Special Officer, was also present in that meeting as an *Ex-officio* member. The Committee was officially formed later on.

The meeting considered first the distress of those who had lost their homes mainly hut dwellers and who had been facing difficulties in re-constructing their houses due to the indifferent attitude of the landlords. It was proposed to move the West Bengal Government to issue an Ordinance in order to facilitate the work. The Mayor also felt that the local Councillors and M.L.A.s would persuade the landlords not to stand in the way. Under the Municipal Act, the landlords' consent was necessary for any reconstruction. But the humanitarian aspect of the question, in opinion, was more important than the legal aspect. The last few days' rain had worsened the condition of those damaged huts.

Later on, according to the Mayor, many landlords in the Chetla area had withdrawn their objections to reconstruct demolished houses. Opposition had come mainly from the comparatively prosperous and enlightened section of landlords.

The Government have recently told the Corporation that it has not sufficient men to organize relief in this city and that it would take Corporation employees' help. It has agreed to supply corrugated iron sheets, bamboo poles, coir and other building material free to the needy families.

The Government's response for collaboration in giving relief to distressed people "has not been disappointing even if not up to expectation", remarked the Mayor on the 27th May. The Government, he said, had agreed to extend help only in "extreme cases" viz., house-building material worth Rs. 150 per family free of cost.

On Wednesday, the 27th May, the Corporation started purchasing bamboo poles and other house-building material for distribution to homeless people. Comparatively well-off hut-owners will obtain assistance from the Corporation in securing permits for corrugated iron sheets.

It was decided at a meeting on the 28th May in which the Mayor presided, that relief should primarily be given through Ward Committees in the shape of building material for the reconstruction of damaged huts. Cash or other doles would be given only in special cases recommended by both the Ward Councillors and the local representatives in the Assembly.

The damaged tiled hutments in Lake Refugee Camp No. 2, by the side of the Rabindra Sarobar had been declared to be in an extremely dangerous condition requiring to be demolished earlier. As many of the inmates had not removed themselves elsewhere, the Corporation could not pull down the damaged structures. But there was an anti-climax when a process server appeared with a court injunction for stay of the demolition work. The Corporation might seek the State Government's help to carry out the demolition work as soon as possible.

Relief from other sources being poured into. The Governor, Shrimati Padmaja Naidu, sent a cheque for Rs. 500 from Darjeeling to the Red Cross for relief of the victims of thundersquall in Calcutta. Shri S. C. Roy, Chairman, Indian Red Cross Society appealed to the public to contribute in cash or in kind towards the Red Cross Fund. Relief from other sources are also encouraging.

DRIVE AGAINST FOOD ADULTERATION

As the time advances different new methods and methodologies are being adopted in the matters of adulteration of foodstuffs and preparation of spurious drugs. Interesting revelations have been made in this regard within recent times. These must have caused much injury to the citizens, nay the nation's health as a whole.

Adulteration has now become a 'big business' being promoted by anti-social elements who are at work to stab the nation in the back. And the menace has spread from the child's milk to adult's rice in a 'scientific way' paying good dividends to the unscrupulous traders.

The menace has made inroads in many of the commodities of daily use and they do not follow the traditional crude methods in many cases. Different reasons are given for the existence of an appreciable amount of gravel and stone chips in the bulk of the rice now sold in this city and suburbs.

Government sources believe that the most opportune time for mixing gravel and rice, would be during storage when the weight of rice is supposed to diminish in the process of drying.

Shocking revelations have been made recently by an esteemed daily which stated that food adulteration is now-a-days a highly developed and skilled technique. This has resulted in the genuine products either to go under-ground or they are not produced on a large scale as before because of the appearance of spurious goods on cheaper prices.

The 'Report' runs as follows :—

To-day, adulterators in Calcutta do not fancy stone chips or other hard materials for mixing with *atta*. Instead, they prefer powdered husk, bran or similar waste products. Rice starch is also used. Stone chips may now be found "once in a blue moon." Even if they are mixed now on a large scale the resultant product, it is believed, is not meant for the Calcutta market. Occasionally *atta* is found in a deteriorated condition. A case has been mentioned of *atta* which had hardened into a solid mass being reground and offered for sale.

The chief alien substances in adulterated *ghee* are said to be vegetable oil products, *lard* and other animal fat. Some adulterators do not now include sesame oil, which is easily detectable, in their products. These ingredients are not usually harmful.

In impure mustard oil, the most widely used adulterant is ground-nut oil. But linseed oil and some unidentified oils are also used. Among the injurious substances used are *pakra* oil and argemone oil. The former may generate hydrocyanic acid, which is highly poisonous, and the latter is said to cause some diseases. Dyes and essences are available to give refined ground-nut oil the smell and appearance of mustard oil.

Groundnut oil has also been found in coconut oil, which sometimes contains indigestible mineral oils. Sesame oil is not adulterated to a great extent, but olive nut oil the smell and appearance of mustard oil.

Inquiries show that among the expensive and most adulterated ingredients for the kitchen are spices. Whole turmeric is often coloured with lead chromate. The powdered variety frequently contains wheat and rice starch and a substance with a high lead content. An injurious dyeing material is said to be used. Red pepper is also freely adulterated with starch and has been found to contain dust and dirt.

A most ingenious form of adulteration is used in the case of cummin seeds (*jira*). Many bags sold in the market have been found to contain no *jira* at all but uniformly thin bits of wood or pieces of stalk coated with mud. During an inquiry about market rates it was found that the price of *jira* alone has fallen.

Catechu (*khayer*), and essential ingredient for making *pan* (betel), is the same red coloured mud or chalk sometimes acquired. Black pepper is in some cases the shells without the kernel. Mustard seeds often contain argemone and other seeds. Deteriorated seeds are also being sold.

"Pure milk" is sometimes nothing but water, sugar and skimmed milk powder. The weight of butter is sometimes increased with water and vegetable oils. Dust and dirt are the main impurities in sugar.

A poisonous dye is widely used to improve the appearance of some varieties of *dal*. A large portion of the honey sold in the market is sugar or *gur* boiled with empty bee-hives in water. In some cases essences are also used. Vinegar is often diluted acetic acid.

Almost the entire stocks of "sago" now on sale in the market are said to be globules of the juice of tapioca or casava, a tuber plant, which could form hydrocyanic acid. The same is the case with "satti food". Imitation cloves are also reported to have been sold.

It is bewildering to note not only that adulteration is being done on a large scale, but also the authorities do not appear to have taken adequate measures to stop the menace. According to a section, in any other country in the world, people who adulterate food and those who sell this adulterated food to the public, would have been punished in an exemplary manner long ago. Even when there is strong evidence against certain suspects the police are never informed. Further, when culprits are brought to book, the penal provisions are so mild that no deterrent punishments are inflicted.

As adulteration of edible oils and food generally endanger public health seriously, so the Government should take necessary steps to protect the health of Calcutta's citizens. Whatever is being done by the Corporation in this regard does not always appear to be sufficient to root out the menace. A large number of food adulteration cases is still pending in the Municipal Magistrates' Courts. The Corporation has recently destroyed 915 tins of ghee found adulterated, being sold in the garb as fit for human consumption. They were of Guntur Brand Pure Cow Ghee packed in one and two pounds sealed tins. The accused was convicted to pay a fine of Rs. 400/- only. Still now

a few hundred are being punished every week by the Municipal Magistrates' Courts on charges of adulteration and more than that number are being discharged from any offence during the same period due to the absence of any definite charge report against them or due to loopholes and lacunae in the existing Food Adulteration Acts.

The menace of spurious drugs has little been checked due to reasons obvious. So far it has been learnt that the Enforcement Branch police squads, dealing with food and drug adulteration, will soon be reorganized to begin an intensive drive against adulterated food and spurious drugs.

The citizens then have no other alternative than to wait and watch how the things take shape.

DEATHS & DISEASES IN THE CITY

Attacks and deaths from cholera during the week ended the 23rd May in the city were 105 and 37 as compared with 104 attacks and 29 deaths the week before.

Small-pox attack and death was one each against 3 each in the week before.

Tuberculosis claimed 27 lives during the week against 39 the week before.

Total number of deaths from all causes during the week under review was 685 against 671 in the preceding week.

ANTI-ADULTERATION CAMPAIGN IN PROCESS

In presence of the District Health Officer, Dr. S. B. Nath (third from left) a large number of adulterated ghee containers are being destroyed. Dr. H. S. Mandal, F. I. who is responsible for detection, is standing on his right.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE FOURTH AND FIFTH ADJOURNED MEETINGS OF THE CORPORATION HELD ON TUESDAY, THE 26TH MAY, 1959.

CIVIC RECEPTION TO FOREIGN DIGNITARIES

The House accepted a resolution drafted by the Mayor, Shri Bejoy Kumar Banerjee, in connection with an offer made by the Government in connection with Civic Reception to foreign dignitaries. The resolution runs as follows :

"The Corporation thankfully accepts the offer of the Union Government provided it does not impose an obligation on the Corporation to give receptions at the behest of the Union Government."

Towards the close of April last a letter was received by the Corporation from the Assistant Secretary, Government of West Bengal, Local Self-Government and Panchayats' Department, which appreciated the activities of the Municipalities and Corporation who were frequently called upon to accord Civic Reception in honour of visiting dignitaries, the number being on increase, caused substantial financial burden upon them. The letter in which the Corporation was requested to furnish its views regarding the offer of the Central Government also felt that these institutions had 'some benefits from such receptions'. In pursuance of the procedure followed in Delhi the West Bengal Government proposed that the Government of India should bear two-thirds of the cost of Receptions and the Local Bodies, the remaining third.

So long, the Reception accorded to such persons was governed under Section 526(XVIII), which stated :—

526 :—"In addition to the other powers, duties and functions conferred or imposed on it by or under this Act or any other Act for the time being in force, the Corporation may, in its discretion, provide, from time to time, either wholly or partly, for all or any of the following matters, namely :

(XVIII) :—The presentation of addresses to or holding of civic receptions or other functions in honour of persons of distinction."

In an earlier occasion, the question was discussed thread-bare and two opposite views—one for acceptance of the offer and the other for refusal was shared by the members. Some members opposed acceptance of the Union Government's offer on the ground that Corporation's rights and privileges to give civic receptions to foreign dignitaries might be jeopardized. The House could not take decision on the subject as the time scheduled for the meeting was over. Councillors Mihirlal Ganguli, Ganapati Sur, Devaprasad Chatterjee, M.L.C., Nandalal Banerjee, Dulal Chandra Mukherjee, Biman Bihari Mitra, Satyananda Bhattacharyya, Abdur Rouf Ansari and others were the participants on the first day.

Councillor S. K. Gupta, I.C.S., also doubted whether by accepting the offer the Corporation might be bound to accord civic receptions to all the visiting dignitaries or not?

RAISING OF ADDITIONAL LOAN

The House on the recommendation of the Standing Finance Committee, recorded the Government's sanction to raise an additional of 41¼ per cent. 10-year Calcutta Municipal Debenture Loan of 1958-59 for Rupees Twenty-seven Lakhs, forming a part of consolidated loan of Rs. 73.36 lakhs.

Based on a previous resolution, the House also approved the departmental action in allotting the entire amount of the additional loan to the Calcutta Corporation Provident Fund subject to certain conditions on a prescribed rate of commission. The transaction was completed earlier in anticipation of sanction.

A COMMON PASSAGE

The House, on the recommendation of the Standing Town Planning and Improvement Committee, took over a common passage leading through premises No. 9/2, Gopalnagore Road, Ward No. 72.

EMPLOYEES' MEDICAL EXPENSES

The House agreed to meet the medical expenses incurred by the Deputy Commissioner, Shri Lokenath Bal, who had lately suffered an attack of Coronary Thrombosis. The Corporation also adopted this procedure to be followed in case of all employees who happened to fall ill in course of discharging their duties.

When the matter came up for final approval some controversy developed over an earlier resolution of the Corporation promising to meet all medical expenses to be incurred in connexion with the treatment of Shri Bal.

The Finance Officer and Chief Accountant's report said that there was no provision in the Municipal Act for such expenses and the Government had asked the Corporation to take competent legal advice as there was no precedent.

The Chief Accountant further stated :—

"That the State Government be requested to issue a declaration under Section 526(xxi) of the Calcutta Municipal Act, 1951, that the payment out of the Municipal Fund of medical expenses of the members of the Corporation and its employees who may happen to fall ill while discharging their duties as such, is a matter likely to promote public health, safely and convenience for the purpose of carrying out the provisions of the Act."

But Government in their letter No. M.C/82/53 dated 10th September, 1953 regretted their inability to make such declaration as they were advised that the matter did not come within the scope of the said Section of the Act. Government Auditors were thereupon consulted and their views were 'that the question was essentially a legal one and the best thing would

SHRIMATI INDIRA GANDHI INAUGURATES THE CONFERENCE.

PHOTO : SHYAMAL ROSE.

Calcutta—A Venue Of Political Conference

Shrimati Gandhi's Call To Calcutta Citizens

ONCE AGAIN, the city was selected as a site to hold the three-day session of the West Bengal Congress Political Conference commencing from Saturday the 23rd May last. The site was Beadon Square, on the northern part of the city, and held within an erected pandal. It abounded in historical reminiscences. The very site bears the memory of holding All-India Congress Conferences during the earlier days of that premier political organization. This is the site where the Conference was held in 1896 with Janab Rahimutalla Shiwani of Bombay as the President. A unique occasion was provided then with the singing of the *Bande Mataram*, for the first time, by the world famous Poet Rabindranath himself, recognized then as the National Anthem of India. An exhibition of India's indigenous products was arranged there. The All-India Conference in 1901 was also held at that very site, and it was presided over by Sir Dinshaw Wacha then.

Besides, the locality bears memories of Nineteenth Century events of historical, cultural and political changes. Three great Indians, Raja Rammohan, Swami Vivekananda and Rabindranath lived and moved in that locality. Sri Anurobindo established his field of activity there. Great educationists and cultural leaders found opportunities in displaying their achievements there. In one word North Calcutta played an important role in the life of the city.

Thus the Conference, by adopting a number of timely resolutions, added another chapter in that locality's history. It also condoled the recent deaths of notable Bengalis whose name and fame had spread throughout the land viz., Dr. Jnan Chandra Ghosh, Shri Barindra Kumar Ghosh, Sir Ushanath Sen and others.

The policy for implementing the Nagpur Session's resolution, occupied the main issue of the Conference. It was referred to by Shrimati Indira Gandhi, President, All-India Congress Committee, Shrimati Sucheta Kripalani, M.P., who presided and others. Both of them spoke on the significance of the Nagpur resolution on co-operative farming and urged Congressmen to do their best so that the food crisis might be successfully tackled with.

Much heat was generated on this issue resulting in differences of opinion. The resolution was moved by Shri Sailo Kumar Mukherjee, a former Speaker of the State Legislative Assembly.

The second important issue was the immediate construction of Furrakka Barrage. A resolution urging the Union Government to implement the scheme as early as possible was unanimously adopted. It was moved and supported by members of the Lok Sabha within the Congress fold including Shri Atulya Ghosh, Shri Satish Samanta and others.

Shri Chapalakanto Bhattacharyya, M.P., welcomed the delegates and visitors of the main Conference which was high-lighted by youth and students' and women's conventions on the second day. It was concluded with a convention of the labour in that same pandal on Monday, the 25th May.

A cheque of Rupees Fifty Thousand was presented to the Congress President by the Pradesh Congress Committee's President, Shri Jadavendra Nath Panja, who also unfurled the National Flag earlier.

Inaugurating the Conference, Shrimati Gandhi urged Congressmen to sink their differences and work unitedly to fulfil the task of achieving Socialism, which it had set before itself and the country.

Earlier, the first day morning, on arrival of the distinguished guests at Dum Dum airport, they were cordially received by the city's Mayor, Shri Bejoy Kumar Banerjee, Shri Bhattacharyya, the President of the Reception Committee, Shri Panja, Alderman G. Basu, M.L.C., Sheriff of Calcutta, Alderman Bejoy Singh Nahar, M.L.A., and other important citizens. A rousing welcome was given to them when they were taken to the venue of the Conference through a long drawn procession.

WHILE CALCUTTA GOES TO DESTRUCTION INDIA'S ECONOMY COLLAPSES

MOVING the resolution on Farakka Barrage, Shri Satish Chandra Samanto, M.P., said that the project would not only benefit Calcutta or West Bengal but entire India because if Calcutta was destroyed India's economy would collapse. The resolution urged upon the Union Government to take up the work of the Farrakka Barrage as early as possible.

Addressing the audience Shrimati Kripalani, General Secretary of the All-India Congress Committee, said that there was no doubt that the need for immediate construction of the Farakka was vitally necessary. If the Port of Calcutta became inoperative not only West Bengal but India, as a whole, would also suffer. Shrimati Kripalani acquainted the audience that Dr. B. C. Roy, Chief Minister of West Bengal, was taking a keen interest in this matter. She, however, failed to understand the cause of delay in the implementation of the scheme. She hoped that the scheme would be included in the Third Five-Year Plan.

Through a forceful speech, Shri Atulya Ghosh, M.P., Vice-President of the Pradesh Congress, said that the leaders of the Centre did not sufficiently understand the problems of the State. West Bengal's problems were not insoluble but they were not appreciated.

Shri Theodore Manaen, M.P., also said in those lines.

FEASIBILITY OF CO-OPERATIVE PROGRAMME

The resolution on Co-operatives said that whole-time directors, vested with due powers, should be appointed at the Pradesh and lower levels, training camps should be set up with selected workers

for the purpose, literature on Service Co-operatives and Joint Co-operative farming should be compiled, a drive should be started to make people understand the essentials of the movement, constant touch with the Government machinery and the higher Congress Committees for the implementation of the scheme should be maintained and at least five Service Co-operatives should be set up in each of the thanas by the end of this year.

Earlier moving the resolution, Shri Sailo Kumar Mukherjee, said that Co-operatives were the only democratic method to bring about a radical change in the village life of the country. He described the movement as the biggest in the country after Non-co-operation. He suggested formation of Jute Marketing Co-operatives also. These could provide for a large section of the middle class.

Dr. Nalinakshya Sanyal said that although he sided with the fundamental principles underlying the resolution still he doubted the feasibility of the programme. He considered the proposals incomplete in some respects.

Another resolution urging upon the Government to rehabilitate the former political sufferers economically was adopted. This was moved by Shri Naren Sen, M.L.A.

A fourth resolution urged upon the Central and State Governments to solve the unemployment problem of West Bengal.

Moved by Alderman Bejoy Singh Nahar a resolution urged upon the Government to solve the refugee problem within a limited period. It suggested that the refugees, who had taken shelter at the Sealdah Station, should be rehabilitated within a period of six months.

CONGRESS STILL WIELDS MUCH INFLUENCE UPON PEOPLE

Inaugurating the Conference, Shrimati Indira Gandhi hoped that West Bengal would make the Co-operative slogan successful. To prove how essential Co-operatives were in increasing food production, Co-operative farming should be organized on land which had been given to landless farmers. Service Co-operatives should be taken up by Congressmen with zeal and workers at all Congress levels should be trained to shoulder the task.

Shrimati Gandhi advised Congressmen to mix with all people irrespective of whether they were their supporters or not and establish close contact with them. That would enable party workers to feel the pulse of the country, she added.

The President of the Indian National Congress emphasized that in the country's politics a stage had been reached when people might leave the organization if it failed to fulfil its programme. The Congress

still wielded much influence with the people, but it was not as great as before.

Presiding over the Conference Shrimati Kripalani spoke almost on the same tune as Shrimati Gandhi in dealing with organizational matters. She laid particular stress on the State's peculiar problems, most important of which was that of the refugees and spoke at some length to explain the new Co-operative movement organized by the Congress.

In this context, the President referred to the frustrated and old political workers who were unable to contribute their mite in the task of national re-construction. Their sacrifices had been considerable. Many of them still wanted to work, but found it difficult to fit themselves in the new set up. The State Congress should make an effort to bring all such people within its organizational fold.

the numerous demonstrations in Calcutta, the Secretary of the Congress, said there were thousands in the city who were discomfited and distressed and whose grievances were not attended to.

WOMEN'S CONVENTION

Both Shrimati Indira Gandhi and Shrimati Sucheta Kripalani, stressed the important part women had to play in building a new India at a Women's Convention held just prior to the open Session of the State Congress on the 24th May.

Shrimati Gandhi said that every one of them had the duty to see that no woman was oppressed anywhere. No legislation could serve any purpose if it was not backed by social consciousness.

The Congress President further appealed for women's full participation in constructive work, such as the illiterary drive in their neighbourhoods.

Doubting that even 2 per cent. of women actually enjoyed the rights and privileges ensured for them, Shrimati Kripalani stressed that women themselves would have to make conditions suitable so that they could enjoy those rights.

THE YOUTH CONVENTION

At Youth Convention the Congress President invited young men and women to ventilate their reactions to the draft outline of the Third Plan. They must at the same time remember that this was the time for them to learn.

The President further emphasized that it was essential for the youth to understand the implications of the attempts to establish democracy in an undeveloped and largely illiterate country.

Referring to student unrest in Calcutta over examinations, Shrimati Kripalani said that while she did not like to check their exuberance, they must realize where they were being led.

Both of them opined that youth was the formative period of a nation. It was the youth which should create the climate of progress in the country in matters of social reform and in all other matters. Youngmen and women through their educative deliberations should provide leadership for the country and the people.

Speakers included the W.B.P.C.C. Vice-President, Shri Atulya Ghosh, M.P. and Prof. Nihar Ranjan Roy, M.P., who presided over the convention. A large number of delegates and visitors attended the convention.

SHRIMATI INDIRA DEVI WINS RABINDRA BHARATI PRIZE

Shrimati Indira Devi Chaudhurani has been awarded the Rabindra Bharati Prize of Rs. 3,000 for her contribution to the study of an aspect of Rabindranath Tagore's songs and for preparing notations of many songs composed by the Poet. She is the first recipient of the prize.

Shrimati Indira Devi Chaudhurani, has in recent years, prepared notations of a large number of songs composed by Rabindranath not available so long. Her book entitles "Rabindra-Sangiter Triveni Sangam."

-THE CORPORATION AT WORK

(Continued from Page 124)

be for the Corporation to be guided by competent legal advice. They further remarked that there was no provision for such expenditure either in the Port Trust or in the Calcutta Improvement Trust nor was there any precedent." On this report the Corporation on 28th May, 1954 recorded the Government letter. In the circumstances, no effect can be given to the Corporation resolution dated 5th December, 1958.

The Chief Law Officer also opined that the 'Law of Tort' had hardly any application in this particular case.

Some members argued that there were Sections in the Act providing for such expenses. A demand was made for making it a general rule to render similar help to all category of employees under similar circumstances.

Referring to a C. I. T. case cited, Councillor S. K. Gupta, I.C.S., said that the Law of Tort had been applied there and the Corporation should accept the master's liability where a servant was concerned in accordance with the ordinary rules of 'master and servant'.

The Ex-Mayor, Dr. Triguna Sen, said that when the aid had been promised, if it could not be paid legally the expenses should be shared by members of the House as it would be unbecoming of them to go back on their word.

Another member said that existing rules should be followed. One suggested seeking fresh opinion of the Law Officer while a third one thought this would be of no avail.

The Mayor, Shri Banerjee, ultimately carried the House with him by suggesting that the Corporation should not go back on its word and should reiterate the resolution.

Alderman B. S. Nahar, Councillors Nanda Banerjee, Mihir Ganguly, Dr. Biren Bose, Sachin Sen, Pannalal Das and others participated in the debate.

RELAXATION OF AGE LIMITS

The House, on the recommendation of the Standing Finance Committee, modified age restrictions on certain categories of appointments while recruitments were made. The House was then approving qualification rules for recruitment of certain posts.

The House decided that there should be no relaxation of age limit for appointment to posts in the Corporation. This was an amendment of the regulations for recruitment to a number of posts. Initially suggested by Councillor Mihir Ganguly and supported by another member and Councillor S. K. Gupta, I.C.S., the House accepted the modifications.

The rules originally prescribed relaxation of the age limits for "otherwise well-qualified" candidates. Councillor Gupta pointed out that this was a meaningless provision. Relaxation, if allowed at all, should be for exceptionally qualified people. The provision that the age limit will not apply in case of promotions was, however, approved by the House.

THE MAYOR DELIVERS HIS ADDRESS

The Vice-Consul of Japan, Mr. K. Kaneuku, Shri Surendra Mohan Ghosh, M.P., Shri Hemendra Ghosh and others are seen in the picture. The photographic exhibition on Rashbihari Basu is also on view.

PHOTO : ANJAN GUPTA.

Rashbihari Basu—A Great Revolutionary

Birth-Day Observed In The City

CALCUTTA, inspired by that traditional history and heritage, paid tributes to the memory of that great revolutionary leader, Shri Rashbihari Basu, who paved the path for India's Independence by organizing the liberation army in a foreign land and with foreign aid. Through a series of functions held on the 25th May, his Seventy-Fourth Birth-day Anniversary was observed. The most important was the celebration in the Mahajati Sadan Hall, central part of the city.

The arch revolutionary of Bengal knew no rest in his life. Even when he was leading an exiled life in that distant land of Japan he sought several opportunities in order to bring about the end of an alien rule in India. He had always tried his level best to secure foreign aid in this regard. At last when the Second World War approached towards the Far East, Shri Rashbihari Basu seized the opportunity and caused to sow the seeds of the first batch of the Indian National Army. It was then organized under the command of General Mohan Singh with Rashbihari as the guide and inspirer. When Netaji Subhas Chandra Bose appeared on the scene, he offered him the command of a vast army of liberation built under his guidance.

Thus he saw his dreams going to be successful and he sighed relief. But he did not live long to see his Motherland enjoying complete freedom.

The Birth-day Anniversary held under the auspices of the Rashbihari Basu Smarak Samity, reminded the citizens of the achievements of that great leader. An exhibition depicting different activities of Rashbihari, in photos was arranged on the occasion there. Flowers and wreaths were placed on a portrait of that leader on behalf of different organizations and individuals including a few of his associates, still living. The Mayor, Shri Bejoy Kumar Banerjee, also placed a wreath on behalf of the Corporation. This was done ceremoniously amidst shouts of the *Bande Mataram*.

The President of the Indian Union, Dr. Rajendra Prasad, in a message, recalled Rashbihari Basu's

unique sacrifices for the struggle for freedom of the country and paid eloquent tributes to his memory.

The Consul General of Japan in India, in a message in Bengali, read by Mr. Kaneuku, Vice-Consul of Japan in Calcutta, also paid tribute to the memory of Rashbihari Basu.

The largely attended meeting was inaugurated by the Ex-Mayor, Dr. Triguna Sen, who observed while paying his personal tribute to that leader as "a life dedicated to the service of the nation. Biplabi Mahanayak Rashbihari Basu's only object in life was to achieve freedom of India."

Symbolizing the birth moment, a lamp was enkindled by Shri Bhupati Mazumdar, Minister of Commerce and Industries, just at 8 P.M. Addressing the gathering Shri Mazumdar said that with the lighting of a candle he hoped that every citizen of India should be enlightened to dedicate his life for the building of New India after the aspiration of the great revolutionary Rashbihari Basu.

The Vice-Consul of Japan also paid homage to Shri Basu's achievements and aspirations which he had chances to notice in Japan.

The Mayor, Shri Bejoy Kumar Banerjee, said that Rashbihari Basu was a great son of Bengal, who dedicated his life for the freedom of the country. He stressed that his biography should be included in the text books in schools so that boys and girls could learn his ideals and achievements.

Shri Hemendra Prosad Ghosh, President of Rashbihari Smriti Samity, said that he was one of the ranks of those who placed Bengal in forefront of the country. Shri Ghosh regretted that very little had been known of his services and achievements of which the citizens should acquaint themselves in detail.

Shri Surendra Mohan Ghosh, M.P., said that the youths of India be inspired by the activities of Rashbihari Basu, whose love for the country was so great that nothing could damp his energy.

Shri Ratanmani Chatterjee said that Indians should not forget the ideals of those,

JANAB A. K. M. ZAKARIAH

Born : 1894.

Died : 18th May, 1959.

REPRODUCED FROM THE CALCUTTA
MUNICIPAL GAZETTE, DATED
THE 7TH MAY, 1938.

JANAB A. K. M. ZAKARIAH

A Former Mayor Passes Away

AFTER protracted illness, Janab A. K. M. Zakariah, an Ex-Mayor of Calcutta, died at his residence, Syed Amir Ali Avenue, eastern part of the city, on the early morning of Monday, the 18th May last. He was 65.

The late Janab Zakariah adorned the Mayoral Chair during 1938-39. He was Deputy Mayor of Calcutta just prior to that. A prominent businessman of the city he was elected from the Burrabazar area, then Ward No. 7, to the Council Chamber in 1933 and was re-elected in 1936 from the same Ward. He was in the Corporation till 1940. He was also Chairman of the Standing Works Committee for one term. He visited Tokyo at the invitation of its Mayor in early 1939.

As soon as the death news spread over the city a large number of his friends and relations rushed to his residence. Wreaths were placed on the bier. He was buried in that evening at Tiljala Burial Ground.

The Corporation at its weekly meeting on Friday, the 22nd May last, mourned his death and adjourned its sitting for the day as a mark of respect to his memory. Eloquent tributes were paid to his memory by the Mayor, Shri Bejoy Kumar Banerjee.

The Corporation offices, schools and workshops remained closed on the 18th May last as a mark of respect to his memory.

Janab Zakariah has left behind his widow and a married daughter to mourn his loss besides a number of friends and relations.

We also extend our sincerest condolences to the members of the bereaved family.

A STAUNCH ADHERENT OF NATIONALIST CAUSE

BORN of a well-known family in his native village Salar, Murshidabad district, the late Janab Zakariah was educated first at the Edward-Zakariah High School in his village Salar. Later on he joined the Presidency College, Calcutta, and passed the B.Sc. examination from the St. Xavier's College. He became that High School's Life Member and was its Secretary for more than thirty years.

The late Janab Zakariah imbibed a great respect for Shri Subhas Chandra Bose, even when Subhas Chandra was in India. The late Janab Zakariah's association with Subhas Chandra dated back even during his college days and he supported him unquestionably in all his activities.

A well-known figure in the public life, the late Janab Zakariah served for some time on the East Indian Railway's Advisory Committee. He was during different periods a Commissioner of Calcutta Port Trust and a Fellow of Calcutta University. He was also the President of the Exchange & Bullion Brokers' Association and a member of the Indian Chamber of Commerce.

Those who have the privilege of knowing him, will bear testimony of a man who had the courage of his convictions. He was a man whom it was impossible to dislodge from a position he had taken up once. Neither fear, nor favour, nor threat—nor even personal violence could force him to change his views.

CORPORATION CONDOLES THE DEATH

Referring the death in the House, the Mayor, Shri Banerjee, feelingly "described the Corporation's deep sense of sorrow and the city's heavy loss at the passing away of Janab Zakariah". The Mayor also said that those who were Councillors of this Corporation when the Calcutta Municipal Act of 1923 was in force, had the privilege of working with him and to know him intimately. "We also know what an important part the late Janab Zakariah played in the civic affairs of those times", added Shri Banerjee.

Concluding his speech, the Mayor remarked :—

"The reason for which Janab Zakariah will be remembered long by the people of Bengal was his staunch adherence to the nationalist cause in times when communal feelings and outlook ran rampant in our unfortunate province. Janab Zakariah never allowed his political vision to be clouded by narrow sectarian communal war-cries and remained a steadfast follower of the Indian National Congress and the Nationalist ideal".

Really, the Mayoral Chair was once adorned by a man who was bold enough to utter—"I have always been a non-communal man, I regard myself as a Bengali first and I look upon Bengal as being the home of Bengalis, irrespective of caste, creed or community". Thus as a sturdy Nationalist the late Janab Zakariah had always resolutely set his face against narrow sectarianism.

—RASHBIHARI BASU—A GREAT REVOLUTIONARY

(Continued from Page 128)

who first kindled the light of revolution and sacrificed their lives for freedom of the country. In Independent India, Shri Chatterjee said, it was essential that people should be imbibed by the lofty ideals of the great men.

Earlier on that day, a procession was taken out in city's streets headed by a big size portrait of the hero in celebration of his birthday.

The Mayor, Shri Banerjee, has taken a special interest in erecting a suitable memorial of that harbinger of India's freedom in this city. He has issued an appeal to the citizens to contribute their mite for the purpose.

It has been learnt that the ashes of Rashbihari Basu would be brought down to this city some time later by his daughter and would be preserved in a memorial as a memento of his services to the country.

CITY-NEWS-PARADE

OBITUARY: Shri Giritja Bhusan Mukherjee, a senior Advocate and a former Additional Public Prosecutor of Alipore, died on Monday, the 25th May due to an attack of Coronary Thrombosis. He died on the way to hospital from his Bhowanipur residence.

A full-court reference was made before the Judges and Lawyers who assembled in the Court room of the District Judge of Alipore. At a meeting of the lawyers of the Alipore Bar, a resolution was passed condoling Shri Mukherjee's death.

THE THIRTY-FIFTH DEATH ANNIVERSARY OF SIR ASHUTOSH MOOKERJEE was observed in the city through different functions on Monday, the 25th May. Wreaths were placed at the foot of Sir Ashutosh's statue at the crossing of Bentinck Street and Chittaranjan Avenue, central part of the city on the occasion.

Alderman G. Basu, M.L.C., placed the wreath on behalf of the Ashutosh Memorial Committee under whose auspices the function was arranged. The Sheriff also said that under Sir Ashutosh's inspiration, young men sought higher education not only to build their career but also to gain advanced knowledge in arts and science.

In another meeting at Darbhanga Building, Calcutta University, College Street, speakers referred to Sir Ashutosh's untiring efforts to reshape the country's education system, his devoted service to the University and his force of character. The Vice-Chancellor, Prof. N. K. Sidhanta, presided and Pandit Kalipada Tarkacharyya performed the 'Mangala Charan'.

In the morning wreaths were placed at Sir Ashutosh's memorial at the Keoratala Burning Ghat and devotional songs were sung.

CALCUTTA EXPERIENCED HEAVY SHOWERS in recent days indicating approach of monsoon at hand.

On Tuesday, the 26th May, the widespread rainfall caused the city traffic almost stand-still for another few hours. The sky was overcast throughout the morning and it began to rain towards the close of the day. The rainfall recorded was 30.0 mm (1.18 inches). A heavy downpour continued for nearly two hours. Low-lying areas were flooded. The condition of huts which had been severely damaged by storm on the 21st May last became worse and many homeless people crowded into the Muralidhar Girls' College in South Calcutta.

Two people of a hut in Musalmanpara Lane were trapped when the hut collapsed in the morning.

Still experts could not describe Tuesday's weather as a precursor of the monsoon. The showers, they said, resulted from a pronounced incursion of moisture into Gangetic West Bengal following the formation of a trough of low pressure over east Madhya Pradesh and adjoining areas in Orissa.

Earlier, on Saturday, the 23rd May last, a dust-storm swept through the city attaining a maximum speed of 46 miles per hour. Some parts of the city were waterlogged after the rain and tram services to Nimtolla and Baghbazar were suspended for two hours. There was also a sharp 13 degree F drop in the temperature—from 88 degree F to 75 degree F—immediately after the downpour.

There were little variations during the rest of the week.

POET KAZI NAZRUL ISLAM'S SIXTIETH BIRTH-DAY ANNIVERSARY was observed in the city through a number of functions on Tuesday, the 26th May. A large

number of Poet's friends and admirers assembled at his residence Madanthe Datta Street, Tala, northern part of the city, to greet him on that occasion. They went in numbers throughout the day. Many garlanded the Poet while others paid their hearts' tributes to that immortal voice which inspired thousands once. Others also annointed the Poet's forehead with *Chandan*.

Unfortunately that voice has been stopped to-day and the Poet is lying ill in his residence completely dumb. All attempts for the Poet's recovery have almost failed.

In the evening a pleasant function was arranged at his place. The Poet's old associates and admirers including Shri Pabitra Ganguly, Shri Satish Chandra Pakrashi, M.L.C., Janab Abdul Halim, M.L.C., Janab Azharuddin Khan and others were present. Important artistes rendered songs from the Poet's composition.

In another function, to celebrate the Birth-day, in Pakistan Deputy High Commissioner's Office premises, Circus Avenue. Dr. Kalidas Nag, presided, while Shri Pabitra Ganguly was the main speaker. Songs were sung and recitations made by artistes from the Poet's composition.

There were similar functions under the auspices of the All-India Youth League, Nazrul Pathagar and others.

BANGIYA SANSKRITA SIKSHA PARISHAT'S Annual Convocation came off on Sunday, the 24th May, in the premises of the Calcutta Sanskrit College, Calcutta. The Parishat is the only Government institution for co-ordination of traditional Sanskrit learning within the State. Mr. Justice P. B. Mukherji said that it was high time for the Government to declare a Sanskrit University for West Bengal out of the nucleus of the Sanskrit Parishat. The President emphasized that to all intents and purposes the Parishat was functioning as a Sanskrit University since 1958. He urged to make Sanskrit compulsory at the secondary education stage.

Dr. Jatindra Bimal Chaudhuri, Secretary of the Parishat, said that the Parishat was first started under a different name in 1887, for co-ordinating traditional Sanskrit studies all over the country.

This year 336 students were present for receiving degrees. More than 11,000 students sat for the different examinations of the Parishat this year from 56 centres all over India in nearly 300 papers. He also opined that Sanskrit alone was fit to be the national language of India, specially in these days of linguistic controversies.

DEMONSTRATIONS IN CITY continued as before. On Monday, the 25th May, the employees of the Damodar Valley Corporation, working in Calcutta and Howrah, demonstrated outside the Chairman's office in Anderson House, Alipore. Representatives of the Staff Association met the Chairman, Shri T. Sivasankar, and handed over a Memorandum addressed to him. It demanded, among other things, cancellation of retrenchment orders, construction of the Aiyer Dam and withdrawal of the decision to move the Corporation's headquarters from this city to Maithon and Panchet and the proposed transfer of the control and administration of the canal system to the West Bengal Government.

A rally of the employees of the Life Insurance Corporation was held on Saturday, the 23rd May last under the auspices of the Insurance Employees' Association, Eastern Zone in the Indian Association Hall, Bepin Ganguly Street.

A resolution asking the authorities to re-open fresh negotiation under the present circumstances with them on the issue of bonus and allied subjects, was adopted.

Shri Soumen Tagore supported the cause of the workers and criticized the authorities and the Government of India for their sporadic approach on the basic problems of bonus.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 5th June, 1959 upto 2 P.M.

Added Areas (Wards 28-32 and Tollygunge.)

The number of deaths registered was 119 against 117 and 148 in the two preceding weeks. Of these, 5 were from cholera, nil from small-pox, 1 from influenza, 4 from fevers, 30 from bowel-complaints and 18 from respiratory diseases. The death-rate of the added areas was 8.50 per mille.

There was no imported death. Excluding this, the death-rate was 8.50.

There were 2 deaths from tuberculosis against 4 in the previous week.

A CASE OF ELECTROCUTION

Ramdas Dasg, aged 25, was electrocuted on Monday, the 25th May in a factory on Hyde Road Extension, Kidderpore, Calcutta.

Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA BOMBAY KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—Four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bearer purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the losses thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weights used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weights will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-numbers by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CHOLERA IN CALCUTTA

Some Observations Of Epidemiological Interest And The Problem Of Its Control

By

Dr. S. K. Chatterjee, M.B., D.T.M., D.P.H., Deputy Director of Health Services.

and

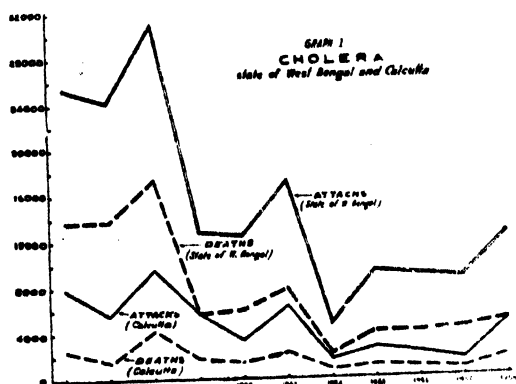

Dr. Atulananda Das Gupta, M.B., D.P.H., Dy. Asstt. Director of Health Services, West Bengal.

Introduction :

This article is intended to place bare facts, our experiences in the field and some observations at the disposal of those who are engaged in "Cholera Research" as well as those who are concerned with the control of Cholera in the city.

Cholera in West Bengal and Calcutta—their trends:

Calcutta contributes a considerable proportion to the total incidence and deaths from cholera in West Bengal. The official figures of the last ten years from 1948 to 1957 (Graph-1) illustrates the position, and shows the trend which appears to be steadily declining both in West Bengal as well as in Calcutta.

Cholera is prevalent more or less in all the districts of West Bengal. The prevalence

is less in the northern districts being almost nil in Darjeeling and Cooch Behar whereas it is considerable in the southern districts. Of the latter again the areas situated around the tidal reaches of the Hooghly which are also predominantly industrial areas, suffer most, the worst being Calcutta and Howrah. The districtwise distribution (as per mortality rates) has been shown in the Sketch No. 1.

Calcutta absorbs our interest for the present study which is based mainly on statistical analysis supplemented by some field surveys. In the interest of comprehensiveness we have preferred to base our observations more on the cases admitted to the City's hospitals than on the mortality figures. The average figures of 3 years viz., 1956, 1957, 1958 have been taken into consideration as they are expected to represent more recent conditions. So far as 1958 is concerned the actual figures till 31-7-58 have been taken whereas for the rest of the year still to come the rates have been estimated on the basis of the averages of the corresponding periods of the two previous years.

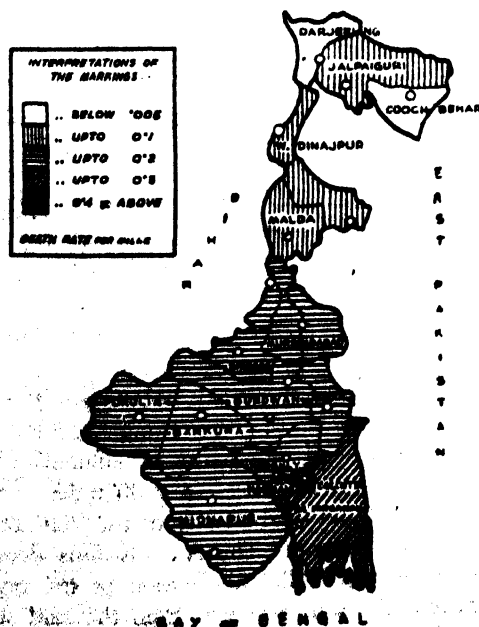

Geographical Distribution :

Calcutta is divided into 80 wards distributed over an area of 23,907 acres including Tollygunge and other added areas and having an approximate population of 2.7 million as per 1951 census.

In these years the average number of cases per year admitted to the City's hospitals as suspected cholera was 10,823, of deaths 1060 and the average case fatality rate 9.6 per cent (See Table No. 1).

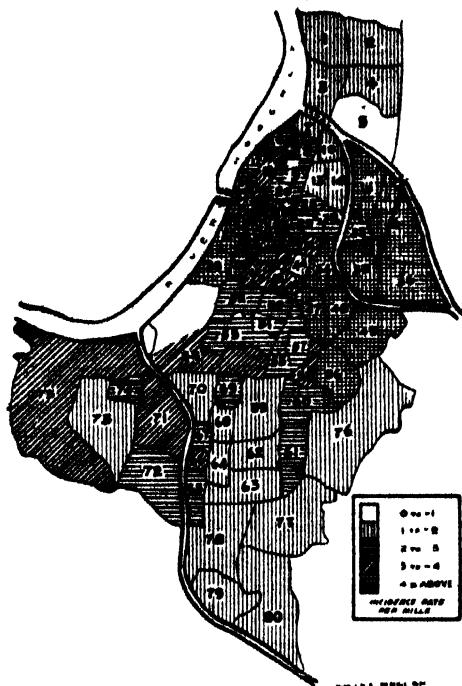

An analysis of these suspected cases removed from different wards have been shown in Table No. 2. These have been mapped out in Sketch No. 2. The wards sending 4 patients per mille of population and above in a year have been shown in deeper shade in the Sketch whilst the wards sending at lesser rates, have been shown in varying lighter shades. From above it would appear that cholera is most prevalent in wards Nos. 15, 16, 17, 19, 24, 26, 27, 34, 35, 36, 37, 38, 39, 41, 44, 47, 48, 49 and 56. These localities are popularly known as Ultadanga, Maniktala-Bagmari, Beliaghata, Topsia, Tangra, Sealdah, Mechuabazar-Burrabazar and Nimtollah. Last four localities are situated round-about the Harrison Road and the Strand Road. It is worth mentioning here that the first six localities are situated around or about the Circular and Beliaghata Canals whereas the last two are situated on or about the Hooghly. All these areas taken together constitute what is popularly called the Central Calcutta, and include the terminuses of the two principal Railway Systems across the country, one being located within the city itself viz., Sealdah whereas the other viz. Howrah

SKETCH. I
MAP OF WEST BENGAL SHOWING THE DISTRICTWISE AVERAGE MORTALITY DISTRIBUTION OF CHOLERA DURING THE YEARS 1952 - 1956

being connected with the city by a bridge across the Hooghly.

SKETCH 2
WARDWISE MESSAGE DISTRIBUTION OF THE PRESENT
CHOLERA CASES ADMITTED INTO THE
CALCUTTA HOSPITALS (1924-25)

It would also appear from this Sketch that the incidences become less as one proceeds northwards and southwards from the said central portion till he reaches the two extremities, viz., Talla-Cossipur on the north and Tollygunge in the south.

It is interesting to note from the Diagram No. 1 (showing distribution of cholera in the 80 wards during the 52 weeks of the year) that cholera prevails in appreciable quantity almost throughout the year in the wards noted above whereas in Talla-Cossipur area as well as in the five wards (76-80) constituting Tollygunge it prevails only during a few weeks. These wards may be considered as the areas of highest endemicity.

Distribution by Social and Religious groups :

In these wards again which has an average density of population of about 73,000 per sq. mile or 114.20 per acre, the patients are mostly drawn from the bustee and slum areas, where, as a rule, water supply per capita is far too scanty and sanitation is anything but satisfactory. From this view point many of the stately buildings in the Burra-bazar area are nothing but genteel slums, sanitary conveniences being far too scanty for heavy load of residents that they have to carry leading to the accumulation of filth, flies and nuisance.

Lower middle classes and still lower economic groups constitute the majority of the patients to the City's hospitals. In a survey based on mortality statistics Dr. Seal found that about 80 per cent. of cases were contributed by families paying rent upto Rs. 20/- per month.

Of the patients, on the average 88 per cent. are Hindus, 10 per cent. are Mahamedans, 2 per cent. the rest. (Vide Table-3). Calculated per mille of the specific populations in the city, the incidence works out at 3.9 per mille of the Hindus, 3.6 per mille of the Mahamedans, 0.9 per mille of the others. It is interesting to note that the rate of

incidence community-wise is almost the same for the two major communities viz., the Hindus and the Mahamedans in the city. The view held so long that the disease predominates amongst the Hindus therefore does not hold good.

Distribution by sexes :

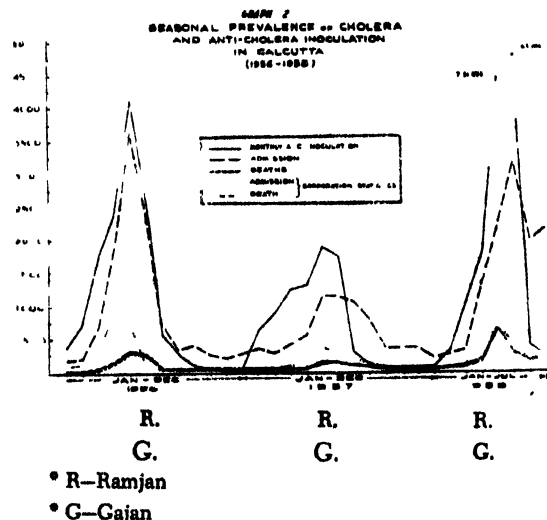

Both sexes contribute, males being 66 per cent. and females being 34 per cent. of the total admissions. Calculated per mille of the population by sexes in the city the incidence for males works out at 3.9 and for females at 3.5.

Distribution by ages :

Table No. 3 illustrates the distribution by ages. It may be seen that about 47 per cent. of cases are drawn from the age group of 11 to 30 years whereas at least from those at the either extremities of life.

Season :

Graph No. 2 illustrates the distribution of cholera by months. It appears that cholera is endemic in the city throughout the year and reaches its peak between March-April to June-July. The popular notion that cholera visits the city only periodically during certain seasons therefore can not be held as correct.

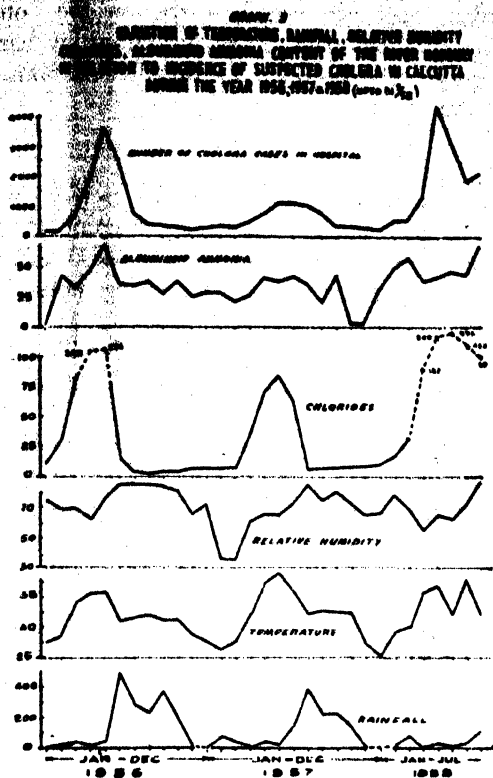

Climate :

The graph No. 3 illustrates the curves of the rainfall, temperature, the humidity, Albuminoid Ammonia and the salinity (measured as chlorides) of the water of the River Hooghly in relation to the curve of cholera. The River Hooghly is a tidal river and constitutes the ultimate source of water supply to the city.

It may be seen that of these, the Albuminoid Ammonia and the salinity curves closely correspond to the cholera incidence curves throughout the year.

The increase in the albuminoid ammonia and salinity in the water of the Hooghly is attributable to the fact that during the season the volume of the water in the Hooghly shrinks because of the flow of the upland water becoming feebler and feebler, whereas the discharge of effluents of the industrial towns stretching over 30 miles on her both banks and the tidal flow from the 'Bay' remain more or less constant. The river is thus deprived of the benefit of a liberal dilution of the organic matters and the salts received from the said source till the rains set in and swell her volume.

24th January 1950

Socio-religious observances :

The peak season coincides with a period when certain important religious observances of both the Mahamedans and the Hindus are held e.g., the "Ramjan" spreading over a month ending with the Id festival, and the "Gajan" also spreading over a month and ending in Chaitra Sankranti and New Year's Day festival.

The graph No. 2 illustrates the relation of these observances to the incidences of cholera in the city. The periods of these observances coincide with the initial spurts in the cholera curves of the years under consideration.

Contributions by the neighbouring areas :

From the Table No. 4 it may be seen that about 19 per cent. of the admissions in the City's hospitals are contributed by the suburban and the urban areas forming the industrial belt around Calcutta.

Reporting of Cholera in Calcutta :

The graph No. 2 offers a comparison between the cases admitted to the hospitals as suspected cholera and those officially announced as cholera by the City's Health Authorities.

It may be seen that though the curves of deaths are more or less similar, the curves of incidences widely vary. This implies that either the incidences are not duly notified to the City's Health Authorities or that majority of these are not accepted by them as cases of cholera or both. The last seems to be the case.

Cholera—its local definition :

Cholera has been defined, in the temporary regulations under the Epidemic Diseases Act, for Calcutta and West Bengal as "any diseases accompanied by vomiting and diarrhoea".

Obviously the above definition is crude beyond measure and is of an "omnibus" type. Any case of Diarrhoea of whatever aetiology; dysentery, food poisoning and the like can be declared as "cholera"

CHOLERA IN CALCUTTA—SPECIAL SUPPLEMENT

and sent to hospital. As a matter of fact it is actually being so done.

Undoubtedly the definition has to be improved upon. But until the City's water supply and sanitation has been made satisfactory, it would be unwise to do so from the administrative point of view. This omnibus definition at least reduces the risk to the society that might arise out of a missed diagnosis in true cholera cases. Besides, the people become inoculation minded only when there is a scare of cholera in the locality.

True "Cholera" :

The question naturally arises as to what proportions of these cases admitted to the hospitals are cases of true cholera.

Out of 32,468 patients, 16,756 samples of stools were examined in these years of which 2,657 were found vibrio positive which works out at 15.8 per cent. positive (see Table No. 1). The stools were collected mostly by the rectal swab method and examined within a few hours of their admissions. The organisms were identified serologically.

Though the vibrio negative cases can not be taken without further investigation as being not cases of true cholera, yet the percentage of vibrio positive cases read with the percentage of case fatality rate would strongly suggest that by far the majority of the cases are not true cholera cases.

THE CHOLERA VIBRIO

(a) In nature :

Dr. Krishnan's (of the All-India Institute of Hygiene and Public Health, Calcutta) studies revealed that the true cholera vibrios in considerable numbers can be isolated from the raw waters of the Hooghly, as well as the waters of the Circular and Beliaghata Canals. The water from the city's tanks, lakes and, strangely enough, the raw water of the Tolly's Nallah failed to show the presence of any such vibrios (*vide* Report of the Scientific Advisory Board, Indian Council of Medical Research, 1950, p.p. 8 and 9).

Dr. Krishnan further found that these vibrios could be isolated in increasing numbers and with greater ease and frequency from the aforesaid water several weeks before the epidemic outbreak starts and begins to be scarce a few weeks before such outbreaks subside. For about three months in the year during the monsoon these waters failed to offer any such vibrios open to isolation (*vide* Report of the Scientific Advisory Board, Indian Council of Medical Research 1951, pages 6 and 7).

The exact relationship between the appearance of true cholera vibrios in increasing numbers in the said waters during the season to the epidemic outbreaks of cholera in the city is yet to be established and the whereabouts of the said vibrios in nature in the apparent recess period during Monsoon are yet to be explored.

(b) In man :

From the (Table No. 1) it may be seen that the vibrio positive cases have been found almost throughout the year, though their proportion increases considerably during the epidemic season.

The true cholera vibrios are thus present in the human beings throughout the year in the city.

WATER SUPPLY OF CALCUTTA

(a) *Drinking water :*

The city population gets a daily supply of 92 million gallons of piped water consisting of filtered and chlorinated water augmented by water of giant tube-wells pumped into the water mains at the different zones of the city. Samples of water from the peripheral taps and elsewhere are, as a rule, periodically examined and corrective measures taken according as necessary.

The above supply does not cover the entire city area but leaves large pockets in the shape of bustees, parts of recently added areas etc. The people in these localities have to fetch drinking water from a distance or to collect it from some nearby tube-well, if there be any.

The supply is intermittent in character in most parts of the city being available a few hours only in the morning and in the evening. This creates a temporary scarcity in the areas supplied, besides exposing the supply to contamination through suction.

Another type of scarcity also results from the relatively low pressure in areas within the distribution zone but situated higher up.

The distribution pipe lines are old and worn out and therefore liable to cracks leading to contamination of water. The liability to cracking increases particularly when water is pumped into the mains at too high pressure.

(b) *Unfiltered Water Supply System :*

About 90 million gallons of raw water from the Hooghly are daily pumped and distributed throughout the city through a separate distribution system for the purposes of flushing, street watering, fire fighting etc.

This supply is continuous in character, available day and night and covers a wider area.

It is common knowledge that this water is used for bathing, washing the utensils and sometimes even for drinking in the scarcity areas e.g., the Bustees, the slums or during the scarcity periods in well supplied areas as well.

(c) *Other Sources :*

Besides the above, there are about 1,703 tanks and dobas, the water of which is also used by the people in scarcity areas.

From above it would appear that the raw water of the Hooghly has access to the very homes of the people through the unfiltered water supply system and because of the continuous nature of the supply day and night, this system offers a very handy source of water for the people to fall back upon whenever the necessity arises. Such necessities are not infrequent particularly in view of the temporary scarcity created by the intermittent supply of filtered water.

Sanitation :

Only 2/3rd of the city area is covered by sewerage, whereas the rest, accommodating a population of about 10 lakhs, is non-sewered and have to depend on conservancy. The latter comprises of about 42,000 service privies in addition to a number of sanitary latrines. On the one hand these privies have to deal with a load many times

more than they can usually carry, on the other, servicing in these days of labour unrest, is hardly satisfactory. The resultant fly breeding is immense during the season.

Food :

(a) The season coincides with a period when fruits e.g., mangoes, guavas, liches, cucumbers, pine apples etc., are plentiful and often hawked about in a peeled condition ready for consumption by customers.

There are many green vegetables e.g., Tomatoes, Chillies, Salads, Betels etc., which are eaten raw.

The chances for their contamination go high if and when they are sold exposed to dirt, dust and flies or washed with unfiltered water during the scarcity periods in order to keep them supple.

(b) *Contamination by flies :*

Flies being generally abundant during the season, all kinds of prepared food-stuff, if and when kept uncovered, are exposed to the risk of contamination by flies.

Anti-Cholera Inoculation :

Graph No. 2 illustrates the influence of Anti-cholera Inoculation on these outbreaks. It may be seen that the Anti-cholera Inoculation exerts a profound influence in reducing the admissions to hospitals of suspected cholera cases. It also illustrates the social factor that the urge of the people to take the inoculation varies directly proportioned to the incidences of the suspected cases of cholera.

From the above Graph read with Table No. 1 it may be seen that the number of people inoculated was much higher in 1956 and 1958 than in 1957 but the incidences of vibrio positive cases in 1957 was much lower than those in 1956 and 1958.

One of the interesting features worth mentioning is that in 1957 Anti-cholera Inoculations were generally confined to the selected areas viz., the bustees and slum areas which were considered more vulnerable. In these areas the majority of the population were inoculated before the expected season of cholera. The curve of progressive inoculation has preceded the ascending limb of the cholera incidence curve in 1957 whereas the former has succeeded the latter both in 1956 and 1958. The entire operation was conducted in a planned manner working on the hypothesis that if the number of susceptibles in these areas, could be reduced by giving them Anti-cholera Inoculations in time, the size and the duration of the outbreaks in the whole of Calcutta might at least be reduced. The results obtained tend to support the hypothesis and encourage further trials of the method.

Further, in 1958 Anti-cholera inoculations following the same pattern as in the years prior to 1957, were started in all the wards of the city in a uniform manner. Cholera spurted up through the progressive number of inoculations performed was considerably high. The plan was modified with effect from 19-4-58 to the extent that particular attention was paid to the completion of mass Anti-cholera Inoculation within a couple of weeks, of the people residing in the vulnerable wards stated elsewhere. The

usual activities in this regard in other wards of the city were however left undisturbed. This procedure of putting special emphasis on the vulnerable wards seems to have a relation with the sharp downward trend of the cholera curve which later started in 1958 as early as May. The months of May usually constitute the middle of the peak season in other years. This tends to support further the idea that concentration of attention to these vulnerable wards, so far as Anti-cholera inoculations are concerned, helps in controlling the outbreak even if it be introduced at the highest of the epidemic outbreaks.

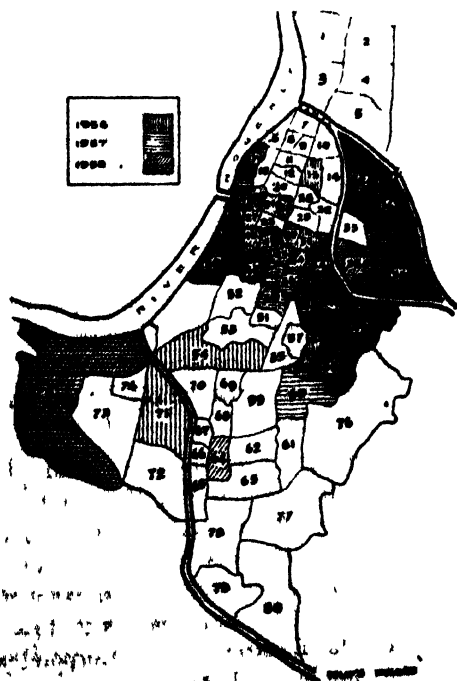

A. The features of the outbreaks :

- Almost from the beginning of the year sporadic cases occur in some of the wards particularly in the endemic zones described elsewhere.
- With the progress of summer a number of cases crop up in these areas constituting the outbreaks. The incidences are rarely simultaneous but spreads over days and weeks.
- The intensity of these outbreaks continues through all the summer months abating only with the advent of the monsoon. In any given area as a rule intensity seldom aggravates so much as to be called "explosive".
- The outbreaks are generally localised within a furlong or two of the sporadic cases.
- The outbreaks show very little correlation to the distribution systems of unfiltered or filtered water, where these exist.

B. The spread—whether water or fly borne :

A generalised contamination of the filtered water supply system leading to the outbreaks, as is sometimes alleged, does not appear to be likely because the nature of the outbreaks is not so explosive as to justify an outright conclusion in favour of it.

SKETCH 5
THE WARDS WITH MAXIMUM
INCIDENCE OF CHOLERA CASES ADMITTED
IN THE YEARS 1956, 1957 & 1958

Secondly because the localities where the supply of filtered water is either scanty or absent contributes more of the cases whereas the localities having a plentiful supply send the least number of cases.

There may be local contaminations here and there due to cracks in the distribution system but these are as a rule regularly checked and readily attended.

On the other hand, in those localities which constitute the actual sites of the outbreaks what catch the eyes of the field workers most are, (i) scarcity, relative or absolute, of piped drinking water supply, (ii) Tremendous nature of fly nuisance because of the insanitary conditions prevailing, (iii) frequent association of the resident population with the raw waters of the Hooghly or the canals either directly or through the unfiltered water supply system. These considerations suggest that the spread is more of fly borne than of water borne type.

Annual Recurrence—the features :

The geographical distribution and other features of these outbreaks follow almost the same pattern year after year varying only in their magnitudes. From the Sketch No. 3 in which the maximum incidences of the three years in order of severity in the wards have been plotted it may be seen that the wards suffering from the maximum incidence are almost identical in the years 1956, 1957 and 1958. These wards, again, are almost the same as those that we have found, elsewhere, to be of highest endemicity and situated on or nearabout the Hooghly or the canals, the waters of which were incriminated by Dr. Krishnan for harbouring true cholera vibrios in increasing number during the season.

Causes of the outbreaks :

In the state of our present knowledge it is difficult to exactly state the factors responsible for these periodic outbreaks. In the Table No. 2 an attempt has been made (after actual survey in the field), to study the influence of the more important of the environmental factors involved. It may be seen that in the worst-affected wards the common features are:

(1) Scarcity of safe drinking water, either due to the pressure not being enough and/or due to intermittent supply and/or due to overcrowding leading to relative scarcity.

(2) Easy access to the questionable water sources e.g. The Hooghly, the Canals, directly or indirectly through the unfiltered water supply system all of which are continuously available.

(3) (A). The bustees and the slums, which are most unsatisfactorily sanitated, abound in these wards, the percentage of the bustee population to the total population of the whole wards being considerably high.

The bustees and slums again abound with service privies in numbers inadequate to their users and with unsatisfactory servicing arrangements, leading to immense fly breeding and nuisance.

Or,

(B) High density of population (Dr. Seal in his survey found that the space per capita was less than 25 sq. ft. in 85 percent of the affected families)

rendering the existing sanitary conveniences of whatever type insufficient and thereby leading to nuisance and fly breeding and to the creation of a favourable atmosphere for the spread of communicable diseases.

On the other hand in the least affected wards e.g., wards of Tallah-Cossipur what we find is that there is adequate protected water supply, either being continuous in its system of supply or copious in volume supplied. The important point to note is that there are very few cases of cholera in these wards though one or more of the rest of the above factors are also present.

In Tollygunge area, however, there are few cases of cholera though the protected water supply is neither continuous nor copious the rate of supply being about 3 gallons per capita daily and the sanitation none too satisfactory. This may perhaps be explained by the fact that the inhabitants have no easy access to the incriminated waters of the Hooghly or the canals or the unfiltered water supply system there being no such service there. It is true that there are the Tolly's Nullah and many tanks but the vibrios could not be isolated from them by Dr. Krishnan. Perhaps the absence of infective organisms in sufficient numbers during the season in natural waters account for the difference.

From above it would appear that the scarcity of safe water supply together with an easy access to the infected waters of the Hooghly or the canals directly or through the unfiltered water supply system, play the vital role in the causation of these outbreaks. The other factors play contributory roles. All of them combine together in shaping the sizes of the outbreaks. The periodic exacerbation during the season, almost exactly corresponds to the appearances of the true cholera vibrios in the said waters as found by Dr. Krishnan. The geographical distribution of the maximum incidences of cholera cases also lie in the areas around the said waters.

The chain seems to work as follows ;

Apparently the scarcity of drinking water compels the people to use unfiltered water supply occasionally. Those who use the waters of the Hooghly, the canals or the unfiltered water supply system render themselves liable to infection. The susceptibles amongst those infected develop the disease, which subsequently spread in the locality through the agency of the flies, as is suggested by the manner of the distribution of the cases, discussed elsewhere. The spread may be carried to other localities through the flies as well as by human intercourse.

The phenomenon of the appearance in large numbers of the true cholera vibrios during the season in the water of Hooghly and the canals during the season followed by their subsidence remain to be explained. The heavy load of pollution that the Hooghly receives from the Industrial areas on both her banks together with the shrinkage in its volume of water during the season leading to concentration of organic matters and salts (See Table No. 5) in her water seems to have an important relation with the phenomenon. Even the pH value of the said water remains as high as 8.2 during the season (See Table No. 6). Apparently the seasonal deterioration in the quality of the water of the Hooghly

accounts for the seasonal appearance of the true cholera vibrios in her waters. But, no definite and conclusive opinion can be formed at this stage, without further investigation.

Permanent Measures :

Permanent measures therefore would mainly be

- (a) Establishment of a Metropolitan Water and Sewage Board covering the population of the entire Greater Calcutta area ensuring adequate safe and continuous water supply and safe disposal of excreta and other organic wastes.
- (b) Clearance of slums, bustees and khatahs from these areas.
- (c) Reducing the congestion in these areas by suitable dispersal schemes.
- (d) Elimination of unfiltered water supply system.

It has to be appreciated however that the above measures would take considerable time to be implemented because it would depend on the availability of adequate funds as well as materials and equipments.

Some Temporary Measures :

Pending above we have to persist with the temporary and palliative measures only, the more important amongst which are :

(A) Timely immunisation of the population particularly those who are exposed to immediate risks of infection, e.g. those living in bustees, slums, etc., or nearabout the Hooghly and the canals. Mass inoculation of this population have to be completed before the usual epidemic season starts and repeated six months thereafter.

The ideal thing would have been if the individual citizen could get themselves and their wards inoculated in time periodically and maintained a record which could be produced before the Health Staff during the latter's routine rounds of checking. In introducing the system however education rather than legislation should be the method of approach.

(B) Water Supply

- (a) Augmentation of safe water supply may be arranged particularly in the scarcity areas at the rate of one source (which may preferably be a tube-well with storage tanks fitted with several taps) for each 200 people within a distance of 100 yds. Special adjustments may be made in areas where the pressure of water is relatively low.
- (b) Preventing the wastage from house and street taps by suitable devices has to be ensured. The quantity so conserved may help in making the supply period longer, if not continuous.
- (c) Preventing the creation of artificial scarcity in the premises by the landlords who often use filtered water supply as a lever against the tenants has to be prevented. This can be achieved by arranging separate supplies in the same way as is done by the Calcutta Electric Supply Corporation for the supply of electricity.

(4) In view of the fact that the distribution system is old and worn out at many places exposing the supply to the risk of contamination, the presence of residual chlorine may be ensured in tap waters at all parts of the city.

(e) Filtered water supply system may be made inaccessible to the people for purposes of using or even handling it. Otherwise it may be adequately treated before distribution. The same remarks held good for other unauthorised sources of water e.g. tanks and dobas, etc.

C. Conservancy :

(a) The existing service privies may either be connected or converted into sanitary latrines with arrangements for servicing them at least once daily.

(b) The general sanitation of the city may be improved eliminating the ugly sights of huge refuse dumps at street corners breeding flies.

The system, that is in the process of implementation by the Civic authorities, of collecting the garbages in covered bins by individual householders and subsequently removed by the Corporation conservancy may be expedited so as to cover the entire area as quickly as possible.

D. Health Education .

This should include educating the people on the dangers of using the unauthorised water and taking exposed food stuffs without further adequate treatment and on the necessity of protecting themselves in time against cholera by taking Anti-cholera inoculation every six months.

E. Food and Drinks, Sanitation :

All Food and Drink establishments, markets etc., may be regularly inspected and provisions of the sanitary bye-laws strictly enforced. The same may also apply to all Food and Drink materials particularly those which are taken raw or without further treatment e.g. cooking or boiling, sold or hawked about in the streets and markets.

F. Other Measures :

The usual anti-epidemic measures e.g. proper notification, adequate ambulance and hospital service, disinfection, disinfestation, safe disposal of the dead and of all-infected materials, etc., may be tightened up and properly supervised.

G. Organisation :

An adequate organisation may be provided to carry out the above measures in a thorough manner after carefully drawing a detailed plan in advance. These organisations must be under the direct control of the technical officers e.g., the Health Officer, the Chief Engineer, etc., and should consist of whole-time men.

Summary :

(1) The statistics of the last ten years show that the trend of cholera is declining in the State of West Bengal including Calcutta.

(2) The cholera cases admitted into the city's hospitals include all cases of acute gastroenteritis of whatever aetiology including food poisoning.

(3) Cholera is endemic in the city throughout the year and assumes epidemic proportions during the summer between April to the middle of July. The peak season coincides with a period when the salinity, albuminod Ammonia and pH value of the water of the tidal river Hooghly increase sharply due to shrinkage in the volume of her water.

(4) The seasonal spurts in the incidences of cholera coincide with the two major festivals viz., "Ramzan" of the Mohammedans and "Gajan" of the Hindus, both observed for about a month by the respective communities in the city.

(5) The incidence is highest in the localities situated around and near the canals and the Hooghly, e.g., Ultadanga, Maniktala, Beliaghata, Sealdah, Burrabazar, Nimtollah etc., and these happen to be the Central part of Calcutta.

The incidences become thinner and thinner till they are found to be the lowest at the northern and southern extremities of the city e.g. Cossipur, Talla, Paikpara on the north and Tollygunge on the south.

(6) In these areas again, cholera rages most in those wards where percentage of slum and bustee population and/or the average density of population is high.

(7) The rate of incidence is more or less the same amongst the Hindus and the Mahamedans, as well as in the two sexes; highest amongst these aged between 10 to 30 years, lowest at either extremities of life. A considerable number of cases have been reported amongst children under 1 year of age which suggests infection through contaminated milk or water.

(8) In view of their usual features, and in the absence of sufficient explosiveness in their character, the outbreaks in their spread seem to be more of fly borne than of water borne type.

(9) So far as the causation of these periodic outbreaks are concerned, a combination of several environmental factors seems responsible, e.g. scarcity of protected water supply for drinking and cooking purposes, access of the people to the waters of the Hooghly or the canals directly or indirectly through the unfiltered water supply system.

(10) Anti-cholera inoculations have a profound influence in controlling the outbreaks.

(11) Concretely speaking, the above would require as permanent measures,

(a) The establishment of Metropolitan Water and Sewerage Board covering the entire Greater Calcutta area from Bansberia- Kalyani to Uluberia-Budge-budge on either sides of the Hooghly.

(b) Elimination of the unfiltered water supply system; if it proves costly, then to make it altogether inaccessible to people.

(c) Removal of service privies or connecting them with sewers or replacement with sanitary latrines.

(d) Elimination of the unsanitary slum and bustee areas from Greater Calcutta.

(e) Reducing the intense overcrowding by suitable disposal schemes.

Unless the above has been established the prevention of cholera would continue to remain a far cry only.

12. Pending above, which may cost much money, materials and time we have to persist with temporary measures yielding only indifferent results. The more important amongst them are:

- (a) Timely inoculation of the people particularly those exposed to immediate risks and repeating it every six months.
- (b) Augmentation of the filtered water supply so that there may be one source for each 200 people within 100 yds.
- (c) Improving the general sanitary service

of the city. The individual householder may be held responsible for collecting garbages and other refuse matters in covered bins within their premises to be subsequently removed by the Municipal Conservancy Service.

- (d) Adequate measures may be taken for food sanitation both by the City's Health Authorities as well as by the individuals.
- (e) Educating the people on the dangers of using the unauthorized waters, contaminated foods and on the necessity for taking Anti-cholera inoculations in time as well as in healthful living.

TABLE I.

Statement showing admissions, death of suspected cholera cases admitted in Hospitals, Corporation Statistics, stools examination results and anti-cholera inoculations.

1936

	No. of cholera cases in Hospital.	No. died	% of death.	No. of stools examined	No. found positive.	Percentage of stools found positive	Corporation Statistics.		Anti-cholera Inoculation.	
							Attack.	Death.	done during the month.	Total since the beginning of the year.

VIEWS AND REVIEWS

DELHI MAYOR RESIGNS

The Mayor of Delhi, Shrimati Aruna Asaf Ali, has resigned from the office on the 1st June. She has addressed her letter of resignation to the Deputy Mayor. This marked the end of a two-week old dispute between her and the Congress group in the Corporation arising out of a letter written to her by a Corporator, Shri R. N. Aggarwal.

Shrimati Asaf Ali had described this letter as "insulting, discourteous and casting aspersions on the office of the Mayor".

The Delhi Corporation at a special meeting on the 2nd June accepted the resignation through a resolution appreciating her selfless services to the Corporation. It was adopted unanimously. The speeches made on the occasion were marked by some heart-searching remarks. More than one speaker admitted that the Councillors would have to give a better account of themselves if the reputation of the Corporation was not to suffer further.

According to a source, it was learnt that the Union Government had been keenly watching how the Councillors behaved in future. If there was "bungling" in the smooth running of the Corporation, it might come down with some drastic steps. The fear of supersession was also in the air according to a source.

Condemnation of the Sundaram Committee Report, as stated by knowledgeable circles, was perhaps a little beyond the jurisdiction of the Corporation and might attract the provisions of Section

490 of the Corporation Act. According to this provision, "if, in the opinion of the Central Government, the Corporation is not competent to perform, or persistently makes default in the performance of the duties imposed on it by or under this Act or any other law or exceeds or abuses its powers, the Central Government may declare the Corporation to be incompetent and supersede it for such period as may be specified."

The story behind the scene went further. It was stated that some wordy duel between the Mayor, Shrimati Aruna Asaf Ali and Shri R. N. Aggarwal, a former President of the Delhi Municipal Council, resulted in such a plight. A series of meetings followed between Shrimati Asaf Ali and various group leaders but those proved unsuccessful. The services of the Union Minister for Parliamentary Affairs, Shri Satya Narain Sinha, were utilized to bring about a rapprochement between them.

After talks with the two parties Shri Sinha issued a statement saying that he had come to the conclusion that "under the present set-up, it is not possible for the Corporation to function in a normal way beneficial to the citizens of Delhi".

"The present malaise is rather deep-seated and it has not been possible for me to bring about any working arrangement".

The statement admitted Shrimati Ali's difficulties as she found it almost impossible to function as a Mayor under the circumstances and, therefore, in keeping with the dignity of her high office and

also to maintain high standards of public life she tendered her resignation.

The dispute began when at the Corporation's meeting on the 19th May several members objected to the recording in the minutes of an earlier incident in which a scuffle took place between two members in the House. Out of them was a former Deputy Mayor, and the other a Chairman of the Standing Committee.

We refrain from making any comments on this issue.

CHOLERA SITUATION APPEARS TO BE CONTROLLED

Calcutta has recorded a slight decline in cholera cases during the week ended the 30th May last. There were 27 deaths from the disease against 37 and 29 deaths the weeks before, i.e., the 24th and the 17th May last, when the deaths witnessed a tendency towards an increase in number. The recorded number of attacks moved almost on the same level during these three successive weeks as stated 102, 105 and 101 respectively. The adjoining city of Howrah also showed a downward tendency towards a decreasing number during this period.

Nearly 400 persons suspected to be suffering from cholera were removed to hospitals from different corners of the city during the first five days of this month. Manicktala, Burrabazar, Shyampukur, Bowbazar and Colootola were stated to be the affected areas. Earlier, the disease had its havoc in the *bustees* of Dum Dum and Bellighata.

Occasional showers and a slight drop in temperature in the city during the past few days have been found to be contributory factors for the increase of the disease in the city.

According to an epidemiologist low temperature with greater humidity have probably helped the flies to breed quickly. In hot and dry weather, breeding is restricted. Occasional but not heavy showers scatter garbage and increase the number of insanitary pockets making equal contributions to the menace. Only heavy monsoon showers could wash away dirt and germs of the disease and up till now such has hardly been found.

The Corporation has not received any report yet from the hospitals giving the number of cholera cases found vibrio-positive. About a month ago letters were written to those hospitals asking for fortnightly reports on how many of the suspected cholera cases admitted were found positive. The five hospitals in the city treating cholera cases are Nilratan Sarkar Infectious Diseases, North Suburban, R. G. Kar and National Medical College Hospitals. Thus the magnitude of the disease has yet to be ascertained.

An inference so far has been drawn indicating that with the falling number of inoculation cases during the past two weeks there was a rise in cholera incidence in the city. Response to the inoculation campaign has been less since the showers. And thus the citizens had a false sense of security and were guided by misconceptions and others.

In order to help the inoculation campaign the Corporation has organized centres at the important street crossings. The Health Department Staff inoculated 90,791 persons during the week ended the 23rd May last. 94,372 persons were inoculated against cholera during the week under review. One anti-cholera inoculation centre in each of the 80 constituencies in the city have been functioning for sometime past but the work of immunizing the people was not satisfactory because of their indifferent attitude. Lack of consciousness among the people stood in the way of administering anti-cholera vaccines to them.

As a preventive measure against cholera Corporation's Health Department Staff launched drive against exposed food stuffs also since the middle of April. As the danger of a cholera epidemic was still present the Mayor Shri Banerjee has issued appeals to citizens, particularly bustee-dwellers, not to be complacent rather to undergo inoculation in a mass scale.

GREATER CALCUTTA PLANNING COUNCIL

The Corporation at its meeting on Friday, the 5th June, unanimously elected the *Ex-Mayor*, Dr. Triguna Sen, as a Corporation's representative on the Advisory Committee set up by the Government of West Bengal to assist the foreign consultants in all matters connected with the planning of water supply, sewage disposal, drainage of Greater Calcutta areas.

The Chief Engineer, Shri A. K. Sen, B. Sc. (Glas.), was also nominated as a member of the General Advisory Committee as well as of the Working Sub-Committee set up by the Government to assist the foreign consultants in this matter. Shri Sen's nomination was suggested by the Government and the Corporation approved the suggestion at that meeting.

The Secretary to the Government of West Bengal, Department of Health, in a letter requested the Corporation to nominate its representative as well as the Chief Engineer on the General Advisory Committee and the Working Sub-Committee.

The letter stated that for some time past the problem of improvement of water supply and sewage disposal arrangements in Greater Calcutta had been engaging attention of the State Government. In view of the gravity of the situation, the State Government had invited the World Health Organisation and the Technical Co-operation Mission, through the Government of India, the services of foreign specialists to survey and advise on the preparation of a long range plan for water supply, sewage disposal and drainage of Greater Calcutta. The first batch of foreign consultants would start work of survey by 1st October this year, so far arranged.

CORPORATION CONCERNS OVER FOOD SITUATION

Calcutta Corporation at its weekly meeting on the 5th June, expressed great concern over the present scarcity of food in the city and the consequential difficulties experienced by the citizens

in obtaining the required quantity of food-stuffs. About half a dozen members participated in a discussion on the issue raised while the House was discussing matters of urgent public importance.

A resolution in this connection was passed by the House on the 6th March last, which requested the State Government to take necessary steps so that there might be improvements both in respect of quality as well as of quantity of the supply. It further requested the West Bengal Government to seek citizens' co-operation so that hoarding and cornering might be checked to a certain extent.

Referring the above, Councillor Biman Mitra initiated the debate in the House. He said that the supply position had deteriorated since then in all respects. There were influx of hungry men not only from nearabout the city but also from the distant corners. Throughout the State, said Councillor Mitra, people rushed to the areas wherein modified rationing system had been introduced. According to him the rush had become of such a magnitude that the quantity of supply through this system had reached a level of 173 lakh tons this year against 53 thousand tons during the last year.

Criticizing the Government policy on food, Councillor Mitra sought to put the entire blame for the present crisis on the Government. He accused the Government for not creating sufficient rice stocks earlier although the necessity for the creation of such stock was stressed by the Famine Resistance and Price Increase Committee long ago. He further suggested that the Government should, even now intensify procurement, increase the percentage of levy on the output of rice mills and also unearth hoarded stocks lying with the big producers and stockists.

Councillor Dulal Chandra Mukherjee urged that the Government should immediately take adequate steps to ensure availability of rice in retail shops at controlled prices.

Though the House could not arrive at a conclusion still its anxiety for the deteriorating food position was amply demonstrated.

Food position in the city was not encouraging for some time past. The West Bengal Government has also taken the stock of the situation and expressed anxiety in feeding the citizens in view of the deteriorated position.

Within a few days, the State Chief Minister, Dr. B. C. Roy, gave a clear picture of the State's food position which stated that West Bengal needed 46 lakh tons of food-stuffs. The total production of rice in the State would be 37 lakh tons and the balance nine lakh tons would be met by the Union Government for which arrangements would have to be made.

The statement stated that in spite of supply of a large quantity of rice through 10,000 fair price shops in the State, prices did not appear to have stabilized. The Chief Minister pointed out that the average price of rice in May this year had been estimated at Rs. 22.75 against Rs. 24.46 during the corresponding period last year. The total offtake of rice from fair price shops this year was three times

greater but the wheat offtake was less than the previous years.

The formation of Local Committees with citizens' representatives might not be helpful in procuring hoarded paddy and rice. "There will always be an attempt on the part of one group or the other to forget the objective for which the Committees are formed", the statement added.

The statement was made towards the earlier part of this week when the meeting of the State Food Advisory Committee vainly met after a long gap. Many of the members possessing a different political view, could not be satisfied with the statement made by the State Food Minister regarding non-availability of food-stuffs in the open market at controlled prices in spite of the fact that an Act of price fixation had been in force since January last.

Government measures for the enforcement of the said Act as well as to keep a strict vigilance over the hoarding and profiteering were never wanting. Reports of arrests of hoarders and profiteers on such offences are being published in the Press from time to time. In order to ensure better vigilance police squads have been posted in different areas particularly in market areas where shops multiply. A specially deputed force—Market Squads—is continuing the job more efficiently as stated. During May this Branch detected about 100 cases of violation of price control orders, over 30 of refusal to sell rice to customers, and over 120 cases of infringement of the Anti-Profiteering Act in the city. About 3,000 maunds of rice have been seized mostly from retailers. Members of these Squads have prepared a list showing the stock position of each retailer in different markets. Daily sales are also recorded.

According to some officials of the Enforcement Branch Police the overall rice stock position in Calcutta is not inadequate and the normal supply could be maintained if fresh influx of people do not infringe into city areas. This impression is based on the fresh check conducted by the Branch on the stocks in over 30 wholesalers' declared godowns during the second half of May. Rice from these stocks would be allocated to markets where the commodity is scarce or unavailable.

On Monday, the 1st June the Police intercepted a lorry carrying about 200 maunds of rice from a licensed wholesaler of this city to another in Howrah. This quantity was distributed to retailers in Lapsdowne Market who had run out of stock. The rest of the wholesalers' godowns are also under strict vigilance and any unauthorized or clandestine deal is being detected.

Even with the scarcity of rice there has been an abnormal increase in rise of prices of other commodities. The wholesale prices of *dal*, some spices, potatoes and other vegetables rose further in Calcutta during the week ended the 18th May last according to a review of the Agriculture Department, West Bengal.

Masur dal, (whole) almost universally used by the citizens, is being sold at Rs. 25.00 per maund, *Mug* at Rs. 2.50 and *gram* at Rs. 19.00 against Rs. 23.00, Rs. 26.50 and Rs. 15.00, respectively, during the corresponding period last year.

The price of comminised (*hirs*) is comparatively lower than last year's.

Coriander is being sold at Rs. 40.00 per maund against Rs. 27.00 and chillies at Rs. 90.00 against Rs. 52.00 per maund. The price of ginger has risen a steep high price, selling at Rs. 2.00 per seer against .75 nP. last year.

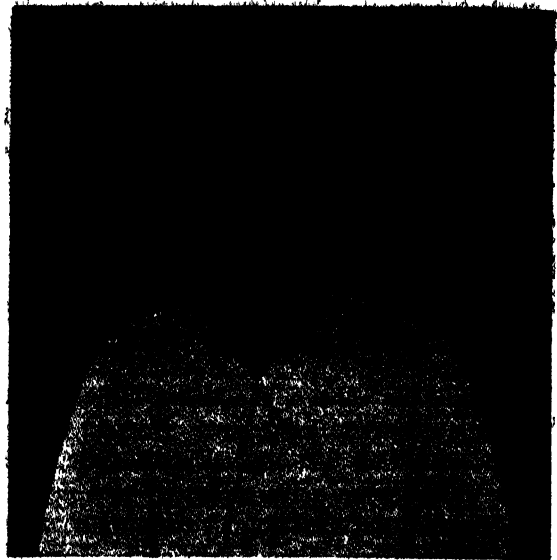

The prices of Naini Tal potatoes and the Behar variety are Rs. 15.00 and Rs. 13.00 against Rs. 9.75 and Rs. 8.50 during the corresponding period last year.

The price of *hilsa* has considerably appreciated due to decreased supplies. It is Rs. 100.00 per maund against Rs. 90.00 during the corresponding period last year. *Rohi* and *katla* are being sold at Rs. 100.00 and Rs. 95.00 against Rs. 110.00 and Rs. 105.00 respectively.

Thus a constant increase in prices are being witnessed in city's markets and the trend of the future cannot be foretold at this stage.

SHRI BISWANATH CHAKRAVERTI IS DEAD

We deeply regret to announce the death of Shri Biswanath Chakraverti, Superintendent, Park Circus Market, and an important political worker in this city. The death was due to sudden heart attack on the 30th May last. He was 58. The late Shri Chakraverti was also the General Secretary of the West Bengal *Jatri Sangha*, a

SHRI CHAKRAVERTI

prominent social organization. Besides, he was associated with a number of other philanthropic Born of a respectable Brahmin family in

organizations and cultural institutions in the city. Benares, U.P. 1901, he had his early education in Gaya, Bihar. Having passed the Matriculation from the Patna University, he came to Calcutta for higher studies. After graduating in Law he joined the Bar for some time. The late Shri Chakraverti also took a keen interest in city's sports activities.

He joined Corporation in the year 1931 in the Assessment Department, and later transferred to the Market Department in 1944 as Inspector of Market Revenues. He was promoted as Superintendent of Market in 1955.

At the time of his death he was a member of the West Bengal Pradesh Congress Committee and an Executive Committee member of the Central Calcutta Congress Committee. He was the first Secretary of the Entally Congress Committee. Even when he was a student he joined the national movement and courted imprisonment by participating in the *Satyagraha* movement during 1930-32. He joined the political movement under the influence and inspiration of the late Shri Bepin Ganguli, a name of revered memory to the people of Bengal.

The Corporation at its weekly meeting on Friday, the 5th June, condoled his premature death. The death was referred to in the House by the Mayor, Shri Bejoy Kumar Banerjee, who said that a popular and fluent speaker the late Shri Chakraverti was associated with a number of public institutions in Central Calcutta and Entally area. He was loved by all for his sweet and charming behaviour. In his death we have lost a prominent Congress worker and a dutiful employee, the Mayor added.

Besides, a number of organizations and institutions of different levels mourned the death of that sincere and ardent worker.

We also extend our sincerest condolences to the members of the bereaved family.

PRE-MONSOON SHOWERS

Calcutta experienced two heavy showers during this week, indicating the early approach of monsoon this year. The 2nd June's heavy rains flooded many areas and disrupted tram services on several sections. Many cars were immobilized in almost knee deep water on parts of Chittaranjan Avenue and Lower Circular Road. Tuesday's rainfall was caused by a low pressure area over Orissa and adjoining Gangetic West Bengal. It confined mainly to the city of Calcutta where it was recorded as 0.50 inch.

Friday's (5th June) rain inundated many parts of the northern part of the city where tram services in all sections were suspended for about four hours towards the afternoon. A portico collapsed in Beadon Street. The rainfall was 12.2 mm. (0.48") and caused a drop in temperature by 30°C (140°F) from 33°C to 25°C. The maximum windspeed during the squall was 72 km. (45 miles) per hour. According to a meteorologist, the nor'wester with which the rain was associated might been the harbinger of the monsoon.

Earlier, on Saturday, the 30th May last, the city had a heavy downpour for about half an hour. Saturday's rainfall was 3.3 mm. (0.13) inch. During the squall the maximum windspeed was 56 km. (35 miles) per hour. The temperature dropped by 50°C (90°F) from 30°C to 25°C.

Since May 21, last when a tornado swept over the city 6.6 inches of rain has fallen in pre-monsoon showers, a seasonal condition which formerly used to be called *chitra* season.

'Tibet Issue' Caused Much Anxiety To The Citizens Demonstrations And Meetings Featured In The City

CALCUTTA's air was thick for some days past with the recent happenings in Tibet consequent upon the influx of Tibetan refugees on the borders of India. Certain incidents there caused anxiety in the minds of a section of citizens while another imbibed a different view. Demonstrations and counter-demonstrations were witnessed in different parts of the city in that connection.

Among them the notable one, THE ALL-INDIA TIBET CONVENTION, holding a two-day session during the last weekend in the city, expressed sympathy to those Tibetans who had trodded their feet towards any alien land being ousted by the stand created by the 'Communist China's aggressive policy' and desired that the Tibet situation should be presented before the world in its reality.

Shri Jai Prakash Narain, an All-India Socialist leader, who presided on the opening day, the 30th May last, also emphasized that no attempt should be made for reasons of diplomacy to play down, cover up, belittle, or mis-represent what was happening in that country.

Being attended by delegates from all over the country, the Convention deprecated the threat held out by some Chinese leaders to India that unless this country stopped expressing sympathy with the Tibetans, she would be crushed to pieces under the iron fist of 600 million Chinese people. An 800-worded resolution was adopted at the Convention at its second day's sitting. Prof. Mukut Behari Lal presided then. The resolution was moved by Dr. R. C. Majumdar, who also welcomed all on the first day.

The Convention concluded with a mass rally at the Raja Subodh Mullick Square, central part of the city, on Sunday, the 31st May with Dr. Prafulla Chandra Ghosh, M.L.A., a Praja Socialist Party-leader, presiding. Speakers championed the right of the self-determination of all countries, specially those under subjugation by others.

As a counterpart to this the All-Bengal Conference on Tibet, was held on the second day in the University Institute Hall, 'a near about site'. It urged the need for creating a strong public opinion to repulse all attempts directed to interfere into the internal affairs of China on Tibet question and to damage the India-China friendship. The Conference was presided over by Dr. Dharendra Nath Sen, and addressed by a number of prominent legislators and leaders.

TIBET ISSUE SHOULD BE RAISED IN INTERNATIONAL PLATFORM

Messages from different organizations and international institutions gave a special impetus to the All-India Session.

In his speech, Shri Narain said that the Tibetans were fighting to win their national freedom and not to defend the feudal rights of a few nobles and monasteries. The leaders of the movement were not feudal lords but the most progressive elements in the Tibetan society, who stood for reform and change. These facts must be made known and on their basis a strong and united world opinion should be created against Chinese aggression and for Tibetan independence.

Continuing his speech the President said that Tibet's independence and foresworn should be maintained. The imperialist notion of suzerainty should have made a treaty with Tibet of equality and friendship. Tibet was never a region of China. The country had sometimes been under Chinese authority by virtue of conquest and never out of its own choice. Still Chinese suzerainty had always been nominal and meant hardly more than some tribute from Lhasa to Peking. After the fall of the Manchu Empire in 1911 Tibet had been an independent country till 1951 when Communist China invaded it.

Speaking on the question of reforms in Tibet which worried the Chinese Shri Narain said that the question plainly was not that of subjugation of the country. But the Chinese interfered in everything. Revered Loans were purposely ill-treated and humiliated. Monasteries were demolished and their properties confiscated. A new system of administration was imposed in which the Chinese were posted to all key points. Post and telegraphs, the mint and the hydro-electric plant were taken over. Printing of Tibetan currency was prohibited.

Shri Narain felt that India's acceptance of Chinese suzerainty over Tibet was a major mistake. The idea that

country might have suzerain powers over another was imperialist in conception. It was also wrong to believe that a powerful totalitarian State could be trusted to honour the autonomy of weak country.

'It is true that Tibet's annexation by China could not be prevented. But India's acceptance of Chinese suzerainty gave the Chinese action in Tibet a moral and legal sanction and prevented the formulation of Afro-Asian opinion on the question,' said Shri Narain before conclusion.

Strongly criticizing the proposed India's acceptance of Chinese suzerainty over Tibet the President felt that the Tibetan question should be raised in the United Nations and that the Afro-Asian bloc must present a common front on it.

PRINCIPLES WHICH FREE INDIA PREACHES

Sonam Gyatso, a Tibetan Lama, also suggested that an impartial Commission constituted by representatives of neutral Asian countries should visit Tibet and find out the facts.

Dr. R. C. Majumdar, Chairman, Reception Committee, said that the Convention's main object was to make known to the world the real attitude of India towards Tibet. Chinese suzerainty must recede and Tibetans must have the right to self-determination.

'In the present day world, the last voice in regard to Tibet should be the voice of the people of Tibet and of nobody else. This is the principle which Free India has preached and practised so far; let her not falter in the present instance when a friendly nation at our very door has fallen a victim to imperialism and is passing through the agony of death' said Dr. Majumdar.

Shri Soumyendra Nath Tagore said that no occupation was for strategic motives. The progressive benefits that an annexed territory received were natural and a by-product of

history. Expansionism could not be supported on this ground.

Dr. Ghosh criticized Shri Nehru and the Congress for their drift towards totalitarian dictatorship. India wanted to be friendly with China but China should recognize the self-determination of Tibet, he demanded.

Shri Hari Bishnu Kamath alleged that vandalism was rampant in Tibet where images of Buddha and priceless ancient scrolls were being burnt. Indian merchants in Yatun and Gyantse were not having a peaceful time. The other day an Indian trader was insulted by a Chinese at Yatung. He also narrated other atrocities there.

Principal Devaprasad Ghosh, said that apart from moving the United Nations, India should sound the free nations of Asia outside the Communist orbit on the issue of China's "aggression" in Tibet so that they might make common cause in support of Tibetan independence.

WORLD OPINION TO BE MOBILISED

Among the other resolutions passed in the conference one authorized Shri Narain, the President, to set up an Afro-Asian Committee on Tibet to mobilise world opinion in favour of self determination for her people and also to arrange for appointment of an international commission of neutral countries to inquire into the alleged violation of human rights in Tibet. It also expressed the hope that Prime Minister Nehru would exert his influence in the world in this regard.

The resolution further expressed concern over the threat to the security of India as a result of the changed political situation in Tibet and particularly "by the existence, in this country, of political party or parties who have given clear evidence of their anti-national outlook and extra-territorial allegiance by their attitude towards the present Sino-Tibetan question."

STRONG PUBLIC OPINION TO BE MOULDED

On the second day, Dr. Ghosh reiterated his stand that he wanted friendship with China which existed long before the present rulers of China came into power and told the Communists in India to act in this matter in a dispassionate manner.

On that day, Shri Kamath said that the explanations put forward by Chinese leaders to support their action in Tibet

was untenable. It devolved on them to prove if they really wanted solidarity of Asian people to resist Tibet.

Dr. Majumdar also urged the people of India to think about the danger of aggression which the present Chinese leaders might choose to follow on the pretext of reviving her claim over Nepal or Bhutan as part of China.

Shrimati Leela Roy asked the people to organise strong public opinion all over the country in favour of Tibet.

Prof. Haripada Bharati, Prof. Mukut Behari Lal, Kazi Abdul Wadud and others also addressed the gathering.

YOUTH RALLY INAUGURATED

The Convention was virtually opened earlier with the inauguration of a YOUTH RALLY in the University Institute Hall, by Dr. Ramesh Chandra Majumdar, the Convention's Chairman. Reiterating the Indian Prime Minister, Shri Jawaharlal Nehru's statement, Dr. Majumdar said that it was the voice of Tibet and of nobody else that should determine the future of Tibet.

The youth rally decided that a permanent forum should be established through which Indians and Tibetans would have greater opportunity to know and understand each other. It should also arrange for the expression of Indian opinion on the Tibetan struggle for self-determination.

The rally, sponsored by the Youth Convention Committee comprising several All-India Youth and Students' Organizations, passed a resolution expressing sympathy for Tibetans in their struggle against foreign domination and urging China to withdraw its army from Tibet. The meeting felt that China's "vilification campaign" against India would spoil Indo-Chinese friendship.

Dr. Majumdar said that India as a true friend of China should point out that it did not support the Chinese action in Tibet. His knowledge of history told him, he said, that China had no right to interfere in Tibet's internal affairs.

Shri Sisir Das, M.L.A., said that for the military action in Tibet only one political party and not the Chinese people should be blamed.

Shri Soumyendranath Tagore said that China by its action in Tibet was doing a great disservice to the cause of Socialism.

LIQUIDATION OF TIBET ISSUE

TAKING an opposite view on the situation the All-Bengal Conference, was organized by the Socialist Unity Centre, in the University Institute Hall, to express solidarity with People's Republic of China on Tibet issue. This was presided over by Dr. Dharendra Nath Sen and addressed by Shri Sridas Ghosh, Shri Samar Mukherjee, M.L.A. and Shrimati Sudha Roy amongst others.

A resolution expressing satisfaction over the liquidation of Tibetan rebellion in the shortest possible time by the Chinese forces, was adopted at the Conference. It also congratulated the Chinese people for the establishment of socialism and emancipation of the Tibetan masses from the feudal regime.

Addressing the gathering, Dr. Sen pleaded firmly for strengthening the tie of Sino-Indian friendship. They should not do anything which would damage the age-old friendship between the two great nations.

Shri Samar Mukherjee said that they would not tolerate any distortion of the data and the historical facts regarding Tibet. He asserted that the Dalai Lama had been kidnapped to India and that the rebellion in Tibet was engineered at the instigation of the imperialist forces.

On the first day of the Convention a demonstration, advocating Indo-Chinese friendship and non-interference in China's internal affairs and condemning the "imperialist conspiracy" in Tibet was organized on Saturday jointly by the Communist Party, Forward Bloc (Marxist group), Socialist Unity Centre and one section of the Revolutionary Communist Party of India.

Led by Shri Bhupesh Gupta, M.P., Shri Jyoti Basu, M.L.A., and Shri Amar Bose, M.L.A., it went in procession from Raja Subodh Mullick Square through College Street and Cornwallis Street and terminated in Deshbandhu Park, Shambazar.

A meeting, organized jointly by the Communist Party and the Marxist Forward Bloc at Subodh Mullick Square, re-stated the views of the Communist Party supporting the activities of China. Dr. Haren Sen, M.L.A., presided on that day's meeting held on the 26th May last.

Prof. Hiren Mukherjee, M.P., said that the Western Powers were putting pressure on India to change its independent foreign policy and disrupt India-China friendship. He called upon people to defeat this conspiracy.

Shri Amar Bose, M.L.A., was surprised to find that some leaders sympathetic with the Tibet cause had not with the Tibetan people who had been long in struggle for socialism.

THE CORPORATION AT WORK

A GAZETTE OF PROCEEDINGS OF THE SEVENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 5TH JUNE, 1959.

STADIUM IN CITY

In view of the intensiveness of the citizens' desire to have a stadium built in the fields of Calcutta, the Mayor, Shri Bejoy Kumar Banerjee, assured the House of all possible help in this regard. Shri Banerjee said that the Corporation should take up the matter in right earnest and should allocate a portion of its open land for the purpose and the money should be obtained from other sources.

The Mayor also referred to his personal feelings in his matter which he had expressed a few days ago while presiding over a meeting of the Stadium Demand Committee in the Indian Association Hall.

Earlier, putting a strong demand for construction of a stadium in the city, Councillor Dr. Birendra Chandra Basu, said that the long-standing grievance of the citizens was being ignored from time to time.

Councillor Dr. Basu said that while many other important cities 'are being provided with stadia Calcutta lacks in that respect. Even those who do not possess would soon start to construct them' He failed to understand at whose interest the proposed football stadium at the Mohan Bagan-East Bengal Ground, Calcutta Maidan, could not be built up. He was surprised to find that tenders for the construction had not even been called up even then.

Councillor Dr. Basu further desired that the State Government should be urged upon to start the construction at that proposed site. He also felt that the Sports Bill, passed a few years back, should be given effect to immediately.

ASPHALTUM WORKERS DEMONSTRATE

The House referred the case of the seasonal unemployment of the workers of the Asphaltum Department to the Standing Finance Committee, when Councillor Amulya Charan Sarkar, put up their grievances before the Corporation. The employees who were staging demonstration outside, when the meeting was in progress, demanded for the continuance of their employment throughout the year.

According to Councillor Sarkar those workers remained out of employment for a few months during the rainy season when the work of the department was not possible to continue. With the approach of that season those demonstrating workers were apprehending similar fate. And when recruitment would re-start there would be difficulties on their part to be enlisted in view of the introduction of new Service Regulations, which came into force in April last. Technique in age bar and other regulations might stand in the way of the present staff to re-enter into service, he emphasized.

WATER LOGGING IN CITY STREETS

Councillor Shri Rudra drew the attention of the House to the growing menace of water logging

due to rains in city's main thoroughfares. Complaining against the working of the night sewer gang, entrusted with the task of cleansing sewers and drainage, Councillor Rudra brought specific charges against these mazdoors who were found in neglect of duty.

The Mayor, Shri Bejoy Kumar Banerjee, however, assured the House that the matter had already received his attention and he had earlier stated in the House on the 29th May last that opinions of outside experts had been sought for in order to give relief to the citizens in their difficulties of such magnitude.

A DELEGATION OF POWER

Under Section 526 (xviii) of the Calcutta Municipal Act, 1951, the Corporation delegated certain powers to the Commissioner authorizing him to spend a sum upto Rs. 500/- only, in connection with presentation of Addresses to or holding of Civic Receptions or other functions in honour of persons of distinction visiting this city. In the same way, the Corporation also delegated powers to the Secretary to spend a sum up to Rs. 250/- only for similar purposes.

A note put up by the Secretary in this connection stated :—

This is one of the special powers of the Corporation under Section 526 of the Calcutta Municipal Act, 1951. When a Civic Address or Civic Reception is accorded to a very distinguished Indian or foreign visitor, the Corporation usually passes a resolution to that effect and sanction an 'Advance of Money' to the Secretary for the purpose. But difficulty is being experienced in respect of numerous other smaller functions. For instance, important foreign visitors often call on the Mayor and some sort of a small party has to be organised on the occasion necessitating some expenditure.

A sum of Rs. 20,000 has been provided under B. I. 89B(p) for the purpose in the current year's Budget to be spent at the discretion of the Mayor. But the difficulty is how to draw the sum from the Budget provision and spend. As matters stand the expenditure can be incurred and can be sanctioned by the Corporation alone.

OFFICIATING ARRANGEMENTS BANNED

The House, on the recommendation of the Standing Finance Committee, passed the following :—

Except in case of a statutory post, no officiating arrangement should be made in case of short vacancy in a post not exceeding one month unless otherwise decided by the appropriate authorities and that the work should be managed departmentally.

STREET LIGHTING

(BY SHRI D. M. DESAI, Britt. I.R.E.,

Managing Director, Hindco Lighting Industries (Private) Ltd., Bombay)

With expansion of power generation and supply, development of roadways, increase in vehicular and other traffic, and with the increasing awareness to have modern lighting on streets and highways; it is imperative that the attention must be focused on the development of street lighting on most modern and scientific lines. It is further necessary to highlight certain salient features of this aspect because of the unplanned, haphazard and unscientific manner in which various small Municipalities are installing street lights at present in India.

Modern means of road transport have caused changes in human habits, and the flow of traffic on roads and streets is considerable even after sunset. Every road user, be he a pedestrian or a motorist, knows at his cost how hazardous it is to move on the streets when the sun sinks beyond the horizon and darkness prevails. The increasing rate of traffic accidents, thefts and mischief can be directly attributed to the low lighting standards on the streets. This often compels a motorist to switch on his headlights causing glare to the incoming traffic and discomfort to the pedestrian, both of which help to increase the traffic accidents. Owing to bad lighting the motorist is unable to make out in good time the dangers ahead, and before he can apply his brakes very often the damage is done.

And how can this greatest of hazards in modern times be avoided? The answer though simple has many economical problems. It must, however, be tackled, and the only way to do it is to have scientific street lighting. The beginning must be made in the right direction, and though the progress may be slow proper planning assumes importance and demands immediate attention.

PURPOSE

Scientific street lighting besides providing good visibility must reduce glare to the minimum. Safety of road users and smooth flow of traffic are essential. It is a well-known fact that inadequate and poor lighting causes quick fatigue to the motorist, and provides a death-trap to the pedestrian.

QUALITY

The quality of street lighting depends on various factors, the most important being correct illumination level, uniformity of brightness and minimisation of glare. The colour of the light, contrasts, type of luminaire and source of light are also of importance.

While one would appreciate the increasing awareness on the part of small Municipalities in the country to have modern lighting, it is considered necessary to strike a note of warning against the use of cheap and unscientific types of lighting fittings purely because of the consideration of finances. It is noticed that open troughs which are not necessarily water-proof or dust-proof and which are fraught with the danger of failure and short-circuiting, being unscientific are being installed in a number of towns. They are unscientific because they do not obtain the dispersion of light as required in street lighting, and cause dark patches on

the roads reducing traffic safety. It will be realised that such lighting fittings rather than serving the purpose for which they are installed, defeat the same. Initially they may be economical, but in the long run they are costly. This tendency must be immediately checked lest it might create greater hazards. It is further necessary that proper care must be taken in selecting the lighting fittings for different types of lighting sources and for different uses.

A few manufacturing units of lighting fittings in this country have Illumination Engineering Service Bureaus, and it would be advisable to take their expert advice before finalising street lighting programmes.

ILLUMINATION LEVELS

The road safety and the illumination level are directly related. Poorer the level, lesser is the safety. It is, therefore, recommended that proper care should be taken before arriving at an illumination level on a scientific basis. The foot candle level depends to a large extent on the number and type of luminaires installed which is generally determined by the availability of financial resources. The following levels of illumination are recommended for use in India, though higher levels are accepted in other advanced countries of the West, because of their traffic and climatic conditions:

TABLE I

Type of Road.	Footcandles
Highways with heavy traffic (over 10 cars per minute) ..	0.5 to 0.7
Roads with medium traffic (about 5 cars per minute) ..	0.3 to 0.5
Business streets with light vehi- cular traffic ..	0.1 to 0.2
Streets with very low traffic and residential areas ..	0.05 to 0.1

(Notes :—These levels are recommended for roads with bright surface, whereas in case of roads with dark surface these should be increased by 50 per cent or more).

The factors like dirt, dust and ageing of lamps in individual cases which reduce the level of lighting over a period of time should be taken into consideration before arriving at the initial illumination level, and a provision for a minimum of extra 10 per cent level should be made at the outset for this purpose.

SOURCES OF LIGHT

With the development of science there has been an evolution in the sources of light. Beginning with the stone age when wood fire was known to be the only source of artificial light, the ingenuity of man has made life worth living and night more pleasant by successive inventions of producing artificial light by the use of vegetable oils, wax, kerosene, coal-gas and last but not the least, electrical energy. The use of electrical energy has not only brought a new source of artificial light but has helped to transform the ways and habits of the life

of people. Planned lighting has been made possible after the invention of electrical energy, because it is free from the handicaps of smoke and of keeping the height of a lamp-post to a level easily accessible for lighting by a mere man every evening. This form of lighting is so easy and convenient, because a switch or switches installed at a great distance can light a lamp or lamps whenever it is required.

Starting with the well-known and commonly used incandescent lamp which has passed through various stages of transformation over a period of several decades since it was first invented and introduced by Thomas Alva Edison, the greatest of benefactors of mankind; the gaseous discharge

lamps in different categories, popularly known as fluorescent lamps, mercury vapour lamps and sodium vapour lamps have been developed.

Since science is never known to be static, various factors such as economic utilization of same amount of energy for greater and better use, utilization effects of colour, and the most important factor of comfort for the well-being of the people, have been responsible for the development of these different types of lamps.

The following table will give a comparative idea about the life, lumens per watt, colour and brightness of each of the types of lamps commonly used in street lighting :

TABLE II

	Life in hours	Lumens per watt.	Colour	Brightness
1. Incandescent	1000	8 to 20	Warm white	Very bright
2. Fluorescent	7500	30 to 55	Daylight white, warm-white etc.	Bright
3. Mercury vapour	2500	27 to 45	Bluish	Very very bright
4. Mercury vapour fluorescent coated	2500	20 to 40	White	Very bright
5. Mercury vapour Blended	..	16 to 25	White	Very very bright
6. Sodium	6000	40 to 65	Monochromatic yellow	Bright

This would lead us to an important question of power consumption of various types of lamps as compared to that of the incandescent lamp for an equal luminaire flux.

The following table will highlight the economics of the use of different types of lamps :

TABLE III

1. Sodium lamps	.. 30%
2. Fluorescent lamps	.. 33%
3. Mercury lamps	.. 45%
4. Mercury lamps blended	.. 80% to 85%
5. Incandescent lamps	.. 100%

As it will be seen from the above Table, Sodium lamps are most economical, but the monochromatic yellow colour and very costly controlgear have prevented its general acceptance for street lighting in India, though Sodium lamps are indispensable in countries where fog conditions prevail.

This leaves us with a choice between fluorescent lamps and mercury vapour lamps. Both these sources of light have their advantages and disadvantages, and the final decision should be taken by the individual consumer after taking into

consideration various factors and circumstances as applicable to him.

COST COMPARISON

A great deal of confusion exists about the advisability of otherwise of installing one or the other type of luminaire in India, and therefore an attempt is being made to give hereunder a cost comparison table of incandescent, Mercury Vapour, and fluorescent street lighting luminaires. To illustrate this point a street one mile long and 40 ft. wide including footpaths on either side for average illumination level of 0.3 foot candles is taken. If the mounting height is reckoned at 25' and the distance between each luminaire is fixed at 85' the total number of luminaires required to cover a distance of one mile would be 62. In the following table the cost of poles and installations have not been included because they would remain identical in each case, except that in the case of incandescent lanterns the cost of laying cables would be approximately one and a half times as compared to that of the other 2 types of luminaires.

TABLE IV

Description	Incandescent	Mercury	Fluorescent
1. Type of fitting	Lantern with asymmetric refractor	Lantern with asymmetric refractor	Plastic covered with built-in reflector
2. Lamps	1x200 w.	1x80 w.	3x20 w.
3. Power consumption per lantern (including ballast if any)	200 w.	95 w.	75 w.
4. Total No. of lanterns	62	62	62
5. Total power consumption	12,400 w.	5,890 w.	4,650 w.
6. All-in approx. cost per lantern including lamps	Rs. 75	Rs. 160/-	Rs. 160
7. Total cost of 62 lanterns	Rs. 4,650	Rs. 9,920/-	Rs. 11,160
8. Cost of electricity at 15 nP. per watt. for 10 hrs. per day	Rs. 8,700	Rs. 2,355	Rs. 2,505

TABLE IV—Contd.

Description	Incandescent 1,000 hrs.	Mercury 2,500 hrs.	Fluorescent 7,500 hrs.
9. Life of lamp			
10. Replacement of lamps per fitting per year	Rs. 3.75	15	15
11. Cost of replacement of lamps per fitting	Rs. 9	Rs. 60/-	Rs. 9/-
12. Total cost of lamps per year for 62 lanterns	Rs. 558	Rs. 3,720/-	Rs. 558/-
13. Grand total of cost in first year (total of items 7, 8 & 12)	Rs. 11,997	Rs. 16,865/-	Rs. 14,264/-
14. Total cost in two years	Rs. 19,344	Rs. 23,810/-	Rs. 17,368/-
15. Total cost in five years	Rs. 41,385	Rs. 44,645/-	Rs. 29,680/-

OTHER FEATURES :

1. Glare	Glare	Glare	No. Glare
2. Choice of colour	Nil	Bluish or colour corrected	Daylight or white
3. Starting	Instantaneous	After 15 mins.	Within a few seconds with ordinary chokes and instantaneous with instant-start chokes
4. Restarting due to power failure	Instantaneous	After 30 mins.	do
5. Partial lighting after mid-night	Not possible	Not possible	Possible

It would be interesting to analyse some of the above figures and features. To economise power consumption in low traffic hours slightly before at midnight, partial even lighting is possible by the use of fluorescent luminaires. An argument may be advanced that in the case of incandescent and mercury vapour lamps alternate lamps may be switched off, thus obtaining partial lighting. It will be appreciated that this would create heavy dark patches in-between and hence is not advisable. In the case of failure of an incandescent or M. V. Lamp there would be no light whatsoever, whereas in a fluorescent luminaire having more than one lamp, failure of one lamp would not cause darkness as the other lamp or lamps would continue to give light.

Another important aspect which must be borne in mind is about the possible failure of the power supply for any reason whatsoever during the lighting time. When the power supply is restored the incandescent lamps will start instantaneously and the fluorescent lamps would take a few seconds to do so; whereas the M. V. lamps would take approximately 15 minutes to cool down and another 15 minutes to start, thus leaving darkness for a period of nearly half an hour.

The failure of starters and the cost of maintenance therefore have often been quoted against the use of fluorescent luminaires, but with the introduction of instant-start ballasts this problem has been successfully tackled, because it eliminates the use of starter altogether.

UNIFORMITY

After selection of proper luminaire the next important question to the uniformity of illumination levels which would depend upon the mounting height and the spacing of luminaires. A mounting height: luminaire interval ratio of approximately 1:3 to 1:5 depending upon the individual requirements and the design of luminaire are recommended for straight roads. In other words this means that

if the mounting height is say 25 ft. the distance between the 2 luminaires should be between 75 ft. to 125 ft. depending upon the type of luminaire used. It may, however, be noted that uniformity of illumination is governed by the reflecting properties of the road surface. Bright and rough road surfaces have advantages as far as reflection qualities are concerned since they reflect and diffuse the light very well.

Shining or glossy road surfaces have an adverse effect which is clearly noticed in heavy monsoon on asphalt roads. Therefore, the need for proper arrangements of luminaire in such a way as to provide uniformity of illumination cannot be over-emphasised. Dark patches blurring the vision and creating illusions of objects should as far as possible be avoided.

Though the problem of glare is not present in fluorescent luminaires proper care needs to be taken while using incandescent or M. V. lanterns. To eliminate or reduce glare lamps of high brightness must be shielded at a distribution angle of more than 65 degrees to the vertical. However, modern scientifically designed luminaires reduce glare to the minimum.

To achieve uniformity in lighting different positions of installations of luminaires are adopted.

In the case of fluorescent luminaires the best method of installing is to have them in the centre of the road in a single row, where the width of the road does not exceed one and a half times the mounting height.

In the case of a very wide road a double-row staggered system or two-sided staggered system with cantilevers at an angle perpendicular to the centre of the road is recommended.

In the case of M. V. Luminaires symmetric co-axial and asymmetric types of glass refractors are generally used. The symmetric co-axial types are used for centre suspension; whereas the other for side suspension, two-sided staggered. M. V. luminaire

should be mounted at a height of not less than 25 feet because of extra glare.

Street lighting on curves, junctions of roads, squares, houses, gardens and tunnels required special application and scientific approach. These are specialist jobs requiring expert advice.

Very often it is noticed that street lights are switched on after considerable darkness in the evenings. A proper care must be exercised by noting sunset time in different seasons of the year, and street lights switched on before visibility becomes poor, and in case of M. V. luminaires 15 minutes earlier.

MAINTENANCE

One aspect of street lighting that is neglected most in this country is that of maintenance, though it is the most important aspect. In enthusiasm expensive luminaires are installed, but are always neglected thereafter. Street lighting installations require to be checked constantly to make sure that : (1) all lamps are actually operating, and operating data corresponds to rated values, (2) the brightness is not perceptibly affected and reduced by the accumulation of dirt and dust, (3) Water does not accumulate, (4) ageing of lamps checked constantly, (5) the lamps are properly adjusted to give desired light distribution, (6) the luminaires are properly fitted and kept in position, (7) shielding reflectors or diffusers are not missing or damaged to avoid glare, and last but not the least, (8) the colour and/or light transmission values of the bowl or refractor do not change when in use.

It is noticed that due to defective workmanship and poor quality not only dirt and dust collect inside the bowls or refractors, but water also finds its way in. Under all circumstances, such luminaires should be rejected. Another important aspect that may be borne in mind is about constant colour retaining qualities of the bowls or refractors. Many a times, poor workmanship or neglect in quality or use of non-standard materials change the colour and light transmission values of the bowls or refractors. Such products should not be accepted under any circumstances.

The accessories used in the luminaires should conform to the international standards, and no compromise for the consideration of initial low cost should be permitted, because in the long run such installations work out to be very costly. This is a "must" in view of their exposure to the vagaries of climatic conditions in India.

CONCLUSION

It is heartening to note that modern and scientific street lighting is engaging the attention of right thinking men in India. At a time when planning is made a proper and scientific approach to this problem and a little extra care on the part of the powers that we will help to achieve scientific lighting and desired results.

Due to financial considerations there is an evidence of a great tendency on the part of some authorities to show so-called results by lighting, say one and a half miles of road instead of one mile, by use of inferior quality products or inadequate lighting levels, which needs to be immediately checked. Such a short term view of effecting savings in initial investment by looking at nays and pains at the cost of quality will spell disaster and work out to be very costly in the long term.

Hence the need to keep an eye on quality, proper selection of luminaires, scientific designing of layout, correct mounting height, and proper spacing of poles. Let this scientific problem be handled in a scientific way only.

—THE CORPORATION AT WORK

(Continued from Page 148 (c))

LIGHTS IN A BUSTEE PASSAGE

The House, on the recommendation of the Standing Public Utilities & Markets Committee, sanctioned installation of three 100-watt electric lamps on the Bustee-passage at 75 and 77, Kailash Bose Street, Ward No. 28.

UNDER-DEVELOPED CONSTITUENCIES

Based on the recommendation of the Standing Finance Committee, the House included Constituencies Nos. 16, 34, 36, 55 and 57 in the list of under-developed areas. The areas are Manicktala, Sealdah, Beliaghata, Beniapur and adjoining parts.

AN ALIGNMENT

The House, on the recommendation of the Standing Town Planning and Improvement Committee, sanctioned a street alignment at Gangulipara Lane, Chetla area, to a width of 30 ft. as prescribed under Section 356 of the Calcutta Municipal Act, 1951.

A NEW PARK

Based on the recommendation of the Standing Town Planning and Improvement Committee, the House gave administrative sanction for opening a Park in Ward No. 55 by utilizing the land at 35-A, Girish Bose Road, measuring about one and a half bighas in area. The House also sanctioned about Rs. 2.37 lakhs for the purpose.

CONSTRUCTION OF A ROAD

The House, on the recommendation of the Standing Town Planning and Improvement Committee, sanctioned the proposal for construction of a 'U' shaped 20 ft. road at premises Nos. 8, 9 and 10, Kankulia Road, for the development of that area.

CALCUTTA CHARITABLE SOCIETY

Based on the recommendation of the Standing Town Planning and Improvement Committee, the Corporation leased out a plot of land measuring about eight *kottahs* located near the Baghbazar Metal Depot, to the Calcutta Charitable Society, for erection of a building thereon, at the Society's own cost for a period of 99 years under certain specified terms and conditions and on payment of a nominal rent of negligible amount.

One of the conditions stated that the Society should keep three seats reserved on the Council of the Society for the Corporation representatives.

A SPECIAL COMMITTEE

The House appointed a Special Committee, with Councillors M. L. Ganguly, S. K. Rudra, K. C. Bysack, Dr. S. K. Sett, and H. N. Sadani, to deal with the Public Relations work of the Corporation and to advise the Department concerned to improve the work with necessary arrangements so that civic senses of the citizens might be raised.

CITY NEWS PARADE

OBITUARY: Shri Harishadhan Mukherjee, Assistant Engineer, Calcutta Port Commission, died on Wednesday, the 3rd June, while surveying a plot of land at Haldia, Midnapore, about 56 miles from the city. He was 57.

The late Shri Mukherjee accompanied a party of Port Commission engineers and men to acquire land there. While working he fell unconscious and was pronounced dead when the village doctor arrived.

While engaged in dredging operations in the Hooghly near Falta Mr. Jenhannes P. Van Hussen, an engineer, slipped off the deck of a Dutch dredger, "Lake Sithian," and was crushed to death by the tug "Liberty." The tragedy occurred on Monday, the 1st June. Mr. Van Hussen, who was about 50, was buried in the Tollygunge Cemetery later on.

CIVIL AVIATION DEPARTMENT'S EMPLOYEES' UNION'S First Regional Conference was inaugurated at the Airport Club on Saturday, the 30th May last, by the State Labour Minister, Janab Abdus Sattar. He requested the employees to organise on constitutional lines and keep up the effort ceaselessly through their Trade Unions for better terms and conditions of work and other amenities.

Janab Sattar said that the progress of the civil aviation of a country was the pointer to the progress of the country. Moreover, he said that being in public sector additional responsibilities were upon the employees. He also requested the employees to play their role "willingly, honestly and with a spirit of mutual co-operation."

Replying, the General Secretary of the Union, Shri S. Madhusudan, said that the co-operation among the employees and the Government should not be unilateral but reciprocal.

The Chairman of the Reception Committee, Shri J. C. Routh pointed out the difficulties of the employees, which they were facing due to lack of accommodation, educational facilities of their children, medical aid and the transport facilities.

FOLLOWING THE ORDER OF TRANSFER an imposition of a fine of Rs. 3/- on a fireman for disobeying the directions of the Station Officer, the firemen resorted to Fall-in strike from the 19th May last. During the last 16 days, the firemen had only responded to fire calls and participated in drills but did not undertake the cleaning work of the machines and appliances.

The West Bengal Government issued notices on 10 firemen asking them to show cause why their services should not be terminated for resorting to 'fall-in', despite the circular issued by the Director, Fire Services in which they were ordered to return to normal work. Notices were expected to be issued in course of the next few days.

The State Chief Minister Dr. B. C. Roy intervened on Wednesday the 3rd June in the firemen's dispute which had led them to protest by restraining from doing fall-in duties. The Chief Minister met their representatives in Writers' Building and assured them to look into their grievances.

Shri Rajani Pramanik, President and Shri Subodh Banerjee, M.L.A., Vice-President of the men's union, attended the meeting. At a meeting at the same night the workers decided to call off the "fall in."

FIRES, ETC. A big fire destroyed a fan manufacturing factory in Gouribari Lane, North Calcutta, on Thursday, the 4th June. Column of thick black smoke were seen several miles away. It covered the 200 square feet area on which the factory stood. It was roofed with charred corrugated iron sheets, electric fans and furniture.

It was not known how the fire originated. One of the factory's 160 employees said that it was spotted in its Painting Section. It caused panic in the neighbouring area.

Working with nine engines, firemen brought the blaze under control in about an hour. They had prevented the fire from spreading beyond the factory. There were a number of shops, oil mills and bustees within the half square mile area in which the factory was situated. The Fire Brigade's main handicaps, according to Mr. A. V. Murary, the West Bengal Fire Services' Deputy Director, were scarcity of water and the crowd that had collected. There was low pressure of water in hydrants. Water had to be relayed through hose pipe from the Utdanga Canal about 300 yards away.

TRAMS STARTED PLYING ON NEW LAID TRACKS INSIDE DALHOUSIE SQUARE AREA with effect from Monday, the 1st June, leaving the adjoining roads free for the exclusive use of automobiles. The authorities hope that this would go a long way towards relieving traffic congestion in that area during peak office hours. New tracks have been linked up with the old tracks in front of the Telephone Bhavan.

Costing Rupees Ten Lakhs the Company has realigned the tracks, keeping in view the need for quicker movement of trams. But the speed of trams would ultimately be governed by the movement of traffic at the exit points.

The company has further provided loops inside the Square to give high-frequency services through passage and avoid congestion. Services on the Writers' Building side have little chances of being affected by flooding as the level of the new tracks is higher than the existing ones. For passengers' convenience stops have been numbered and waiting platforms constructed. The platforms are proposed to be equipped with shelters in future. Near the Hare Street and a control tower will be built and a public address system to guide passengers might be introduced.

Removal of the tram tracks will surely make it possible to extend the roadway for vehicular traffic for which an additional lane will be opened. The railing and the footpaths around the Square will be moved inwards, the additional space being used for car parking. It is estimated that there will be ample room for 1,000 cars. Part of the parking space may be reserved for a bus terminus.

According to the police traffic in the area will be re-aligned and made to flow more quickly and smoothly. Some of the existing traffic signals will become redundant and the direction of traffic on some of the one-way approach roads may be reversed.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. III Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 10th June, 1959 upto 2 P.M.

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of the tender.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the Authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited. Agreement and Security Deposit are not necessary for works valued below Rs. 2,500/-.

65. Repairs to roadside railing at Gobinda Khatik Road from Kankurgachi Chord to opp. premises No. 12. (Eastern side)—Rs. 2,536, dated 3rd June, 1959 (one month).

66. Improvement of sewer by providing 9 in. S. W. pipe in place of existing 6 in. S. W. pipe at 27B, Gardner Lane in Ward No. 50—Rs. 2,049, dated 3rd June, 1959 (one month).

67. Paving southern footpath of North Range (portion)—Rs. 3,707, dated 3rd June, 1959 (3 weeks).

68. Repairs to drainage arrangement of the yard along south side of Loco-shop at Entally Workshop—Rs. 3,569, dated 3rd June, 1959 (1½ months).

69. General repairs to the Lighting Dept. in the 2nd floor of Hogg Building—Rs. 4,739, dated 3rd June, 1959 (two months).

70. General repairs to License Dept. and Tiffin Room (G. floor—East wing) in C. M. O. Building—Rs. 2,415, dated 3rd June, 1959 (one month).

71. Essential repairs in offices in C. M. O. Building—Rs. 837, dated 3rd June, 1959 (1½ months).

72. Repairs to Store room of moulding shed at E.W.S.—Rs. 2,105, dated 3rd June, 1959 (1½ months).

73. Kerbing and channelling of Dilkhusha Street (portion) in Ward No. 20—Const. No. 58—Rs. 1,954, dated 29th October 1958 (one month).

74. Repairs to southern walls of Victoria Square (portion)—Rs. 4,760, dated 3rd June, 1959 (1½ months).

75. Repairs to flank of Gobinda Khatik Road (portion) near Kankurgachi Chord (Eastern side)—Rs. 2,808, dated 3rd June, 1959 (one month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form are to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000.

A. C. SINHA,
Dist. Engr., III.

District III Eng'g. Office,
The 2nd June, 1959.

District No. IV Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Wednesday, the 17th June, 1959 upto 2 P.M.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited. Agreement is not necessary for the works below Rs. 2,500/-.

65. Repairs to footpath of Kalighat Road from Hazra Road to Harish Mukherjee Road, Constn. 67—Rs. 2,899, dated 1st June, 1959 (2 months).

66. Repairs to B. O. E. passage on the west of 16, Chandra Nath Chatterjee Street Constn. 70—Rs. 1,939, dated 1st June, 1959 (1½ months).

67. Repairs to footpath of Hazra Road (portion)—Rs. 2,029, dated 1st June, 1959 (2 months).

68. Providing drainage adjuncts at the passage leading to 46, Chandra Mondal Lane—Rs. 504, dated 1st June, 1959 (3 weeks).

69. Repairs to footpath of Tollygunge Circular Road (portion), Ward 72—Rs. 2,107, dated 1st June, 1959 (1 month).

70. Repairs to footpath of Chetla Road near its junction of Mondal Temple Lane, Ward 72—Rs. 1,192, dated 1st June, 1959 (1 month).

71. Repairs to Seamen's House at Watgunge Street Constn. 75—Rs. 529, dated 1st June, 1959 (1 month).

72. Construction of road side railing at Mayurbhanj Road, Constn. 73—Rs. 752, dated 1st June, 1959 (1 month).

73. Repairs to footpath of Sarat Chatterjee Avenue from Russa Road to Southern Avenue—Rs. 2,051, dated 1st June, 1959 (2 months).

74. Construction of pucca surface drain and Tube-well platform at Panchanantala Road, Constn. 61—Rs. 308, dated 1st June, 1959 (1 month).

75. Repairs to culvert at the junction of Panditla Road and Garcha 2nd Lane—Rs. 770, dated 1st June, 1959 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, are to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000.

N. MAZUMDER,
Dist. Engr., IV.

District IV Eng'g. Office,
The 2nd June, 1959.

Tollygunge Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 10th June, 1959 upto 2 P.M.

The abstract of the estimate can be seen at the above office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

1. Repairs to surface drain at the southern side of Dhakuria Station Road in Const. No. 77, Tollygunge—Rs. 1556.00, dated 27th May, 1959 (8 weeks).

Please note that words 'two months' as printed in italics in Clause 8 of the tender form, are to be read as '3 months' and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

College Street Market

NOTICE.

To all whom it may concern, that an application has been received from one Sri Purna Chandra Shaw of E. 34, College Street Market for recognising him as recorded occupier of Stall No. E. 33, College Street Market in place of Sri Sudhamoy Manna, recorded occupier of the stall.

Objections if any, may be submitted to the undersigned within 15 days from the date of publication of this notice.

S. BOSE,
Superintendent.

College Street Market,
The 3rd June, 1959.

Auction Sale

NOTICE.

It is hereby notified for information of intending buyers that carts seized under Section 227(1) of the Calcutta Municipal Act, 1951 and not claimed within ten days of such seizure, will continue to be sold by public auction, as heretofore everyday after 3 p.m., excepting holidays by the Cart Registration Officer at his office at 185/1, Lower Circular Road Calcutta, until further orders.

A. K. DUTT,
Licence Officer.

Calcutta Municipal Office:
The 30th September, 1958.

CORPORATION NOTICES—Contd.

Sir Stuart Hogg Market

NOTICE

To all whom it may concern, that an application has been received from Sri Manik Lal Ghosh for registration of his name as sole occupier of Stall No. B 65 in the S. S. Hogg Market to the exclusion of Sri Benode Behari Ghosh, Sarat Chandra Ghosh, Lal Behari Ghosh and Santosh Kumar Ghosh.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asst. Superintendent.

S. S. Hogg Market,
The 2nd June, 1959.

To all whom it may concern, that an application has been received from Sri

Mahesh Narayan Barman for the registration of his name in place of Sm. Kusum Sukla in respect of Stall No. B 44 in the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asst. Superintendent.

S. S. Hogg Market,
The 4th June, 1959.

To all whom it may concern, that an application has been received from Sri Sanker Lal Shaw for the registration of his name in place of Sm. Basanti Devi in respect of Stall No. P 19 in the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asst. Superintendent.

S. S. Hogg Market,
The 4th June, 1959.

Lansdowne Market

NOTICE

To all whom it may concern, that an application has been received from Sr Lalmohan Saha for the registration of his name in place of Sri Gopal Ch. Sahoo in respect of Stall Nos. E-7 and Misc. 58.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

A. K. CHOSE
Superintendent

Lansdowne Market,
The 2nd June, 1959.

VITAL STATISTICS

For the City of Calcutta for the week ending
23rd May, 1959.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 679 against 672 and 526 in the two preceding weeks and higher than the corresponding week of the last year by 114. The general death-rate of the week was 11.24 per mille.

Town (Wards 1-27).

The number of deaths registered during the week ending 23rd May, 1959, was 528 against 553 and 409 in the two preceding weeks. There were 31 deaths from cholera against 24 and 18 in the two preceding weeks. There was 1 death from small-pox during the week against 3 in the previous week. There was nil death from influenza against nil in the previous week. The mortality from fevers and bowel-complaints amounted to 18 and 81 respectively against 16 and 33 in the preceding week. The general death-rate of the week was 11.36 per mille per annum.

There were 77 imported deaths. Excluding these, the death-rate of the Town was 9.72.

There were 62 deaths from respiratory diseases against 55 in the previous week.

There were 26 deaths from tuberculosis against 37 in the previous week.

Added Areas (Wards 28-32 and Tollygunge.)

The number of deaths registered was 151 against 119 and 117 in the two preceding weeks. Of these, 6 were from cholera, nil from small-pox, 1 from influenza, 9 from fevers, 36 from bowel-complaints and 29 from respiratory diseases. The death-rate of the added areas was 10.79 per mille.

There was nil imported death. Excluding these, the death-rate was 10.79.

There was 1 death from tuberculosis against 2 in the previous week.

INDIAN JOURNALISTS ASSOCIATION

Sri Adhir Chandra Banerjee and Sri Profulla Nath Ganguly were re-elected President and Secretary respectively of the Indian Journalists Association for 1959-60. At the general meeting held on the 24th May last 31 members were elected to the Executive Committee. It included many prominent journalists of the city.

THE WORLD OF BOOKS

SARAT-CHANDRIKA—(A life sketch of the late Shri Sarat Chandra Chattopadhyaya, the well-known litterateur of Bengal). By Shri Nandalal Chakraverty. Published by the Signet Press 10/2, Elgin Road, Calcutta-20. Price Rs. 4.50 nP.

WRITTEN in a lucid, grace and simple style the life story of that well-known litterateur contains almost all the important incidents in his life, many of them were unknown to his countrymen till the other day. The author had taken much pains in gathering and compiling before he presented them to his readers. The data so far collected are found to be accurate and correct. What has been added to the treasures of the Bengali Literature was a chronological incident of that eventful career, a most valuable document. This has no doubt paved the path to study and draw inferences from Sarat Chandra's life to the future research workers in Bengali Literature. Thus a contribution of immense help like this should receive appreciation and admiration on all hands.

We cannot but help to quote here a few lines of comments made by Dr. Kalidas Nag, M.A., D.Litt, who wrote:—*It gave me much pleasure and delight to go through the book. The life-story written in such a style is rarely found and the literature would be enriched with additions like these. The wielding of pen in this regard is worth-mentioning.*

Another well-known litterateur, Shri Saumyendra Nath Tagore, remarked—*The writer has presented a volume written lucidly and gracefully. A living memoir has been done really.*

LITHOGRAPHS & SKETCHES BY MR. GEORGE BIDDLE, a contemporary American artist, with the qualities of his pictorial organization were kept on view at the United States Information Service, 7, Chowringhee Road, Calcutta since the 5th June for a fortnight. The 42 signed exhibits included portraits (an excellent one of Ezra Pound), figure studies, landscapes, pictures of birds and flowers, several imposing studies of elephants and satirical and humorous compositions. They cover over four decades in his career. The exhibition showed the many-sided versatility of the artist who dramatized his protest against human brutality and all kinds of apathy and at the same time drew refreshing sketches and offered many lyrical and purely decorative pictorial compositions.

SHOPS TO LET

SIR STUART HOGG MARKET

Applications with offers of initial rent for the privilege of occupying the undermentioned stalls on rents noted against stalls are invited and will be received by the Superintendent in the Market Office daily between the hours of 11 A.M. and 1 P.M. It should be noted that 25% of the offer of initial rent would have to be deposited immediately on the acceptance of same by the Committee, the balance to be paid within 7 days.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. $\frac{1}{2}$ Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchase are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the market.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M., between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

Views & Reviews

COUNCILLOR ROUF ANSARI

It is gratifying to note that Councillor Abdur Rouf Ansari, has been nominated by the Government of West Bengal, as a Member of the Calcutta District Minority Board. He is also a Justice of Peace for Ward No. 23.

COUNCILLOR ANSARI

Elected to the Corporation from the Kalabagan area, Ward No. 23, central part of the city, Councillor Ansari has always tried his best to maintain peace and amity in that part of the city. The area is particularly inhabited by people of the minority community viz., Muslims.

Councillor Ansari is also attached to different social, educational and cultural organizations. Expansion of primary education among the Bustee children is his another motto in life.

We extend our congratulation to Councillor Ansari on this occasion and pray for his long life.

MUNICIPALITIES CONFER

The two-day session of the West Bengal Municipal Chairmen's Conference, held at Darjeeling, during the last week-end, made a review of the future development projects within different Municipalities. It envisaged that at least Rupees Seventy Crores would be needed to carry out those schemes and projects.

The Conference was attended by 77 representatives out of 88 Municipalities within the State. Councillor Dharendra Nath Dhar, M.L.A., also attended the Conference on behalf of the West Bengal Municipal Association who presented a Memorandum stating the difficult financial position of the Municipalities in extending amenities to the citizens.

The Chief Minister asked representatives of different Municipalities to formulate schemes on the basis that they would have to take the responsibility of paying back these loans. Though he could not assure them still Dr. Roy stated that the Government would take the responsibility of finding funds for many of them. He asserted that the ultimate responsibility for paying back the loans would remain with the Municipalities themselves.

Shri I. D. Jalan, Minister for Local Self-Government suggested for raising additional funds by the Municipalities whereby they could implement their development plans.

Dr. Roy said that there was the tendency of people to migrate particularly of intellectual class from rural to town areas with the result that population in urban areas began increasing. This had two results—rural areas were being depleted of intellectual man-power and urban areas were being over-crowded. This has necessitated to undertake planning and development projects under the Municipalities. Thus the influx has caused a reverse process of urban development. 'Well-knitted township are going to be established in different corners making the people more conscious about themselves', he added.

The Chief Minister, Dr. Roy further suggested that the capacity to repay the loan, given to the Municipalities by the Government, might be created by introducing Service Rates in many areas, or enhancing the same where possible.

The Chief Minister in course of his speech, gave the outlines of different schemes regarding the development of Municipal areas. He said that these schemes would not be included so far, in the Third Five Year Plan and for working out them loans would be arranged by the Government and the Municipalities would have to repay it in 20 to 30 years.

But for plans excluded from the Third Plan, the Chief Minister desired that the entire capital cost

for the development should be taken as loan by the Municipalities. He asked the Municipalities to prepare schemes or revise the schemes already submitted according to their own repaying capacity. He, however, mentioned that the small Municipalities having poor income, would certainly deserve some consideration from the Government. He was of the opinion that the cost of executing some works could be minimized if two or three neighbouring Municipalities would combine for specific purposes.

The Memorandum, submitted by the Association, stated :—

"The total demand of Rates and Taxes of all these municipalities is of the order of Rs. one and a half crores and the total arrear of the same is nearabout this amount against which the annual collection is of the order of a similar amount. The arrears have not been increasing, at all, by any appreciable extent. This is a sound position and is perhaps more satisfactory than the conditions obtaining in the Central and the other State Governments with respect to their revenues from direct taxes. Municipal collection could be further improved if adequate and timely Government help could be obtained. There is also a strong grievance

against the Central and the State Governments in the matter of payment of their Municipal dues and, in fact, these are accumulating from year to year. It is well-known that out of a total outstanding of about Rs. 4.5 crores of the Calcutta Corporation, dues from the Central Government alone are more than Rs. 1.2 crores."

Thus it is clear that there is hardly any scope for improvement of collection by the Municipalities themselves.

Further, it was re-iterated times without number that the rate-payers had reached at a saturated point at the stage. The average rate of Municipal Taxation in West Bengal is 19% as admitted by the State Chief Minister. And in Baranagore Municipality, adjoining to this city it is as high as 27% but amenities fall there far below the level of this city.

Moreover, the Chief Minister's suggestion to the individual Municipalities about repayment within a stipulated period at the rate of 7% both interest as well as building up sinking fund would of a great hardship on their part.

Thus Roy's appeal for 'co-operation and not control' would hold no good in this circumstances.

The Mayor, Shri Bejoy Kumar Banerjee round the plants of the Chemical firm. In the picture are seen Shrimati Sujata Banerjee, wife of Shri Banerjee and Dr. Naresh Chandra Ghosh, Proprietor of the firm.

MAYOR VISITS 'SADHANA AUSHADHALAYA' WORKSHOP AT PATIPUKUR

APPRECIATING the activities of the Sadhana Aushadhalaya, the Mayor, Shri Bejoy Kumar Banerjee, said that new systems introduced in the production of indigenous drugs gave the nation a fresh impetus, and at the same time drew admiration from the rest of the world for the superior quality they produced.

Replying to an 'Address of Welcome' presented to him by Dr. Naresh Chandra Ghosh, Proprietor of the 'Sadhana Aushadhalaya', the Mayor who had the chance to look into the preparation of those indigenous drugs said that the present level of those drugs had reached a stage scientifically perfect and genuine in many respects. He

wondered why the age-old drugs should be allowed to discontinue for want of State recognition. He was ready to recommend them for the same purpose and inclined to accept them for public use in the city.

Earlier, accompanied by his wife, Shrimati Sujata Banerjee, the Mayor took a round in the Workshops, going into the working details. He was acquainted with all the systems of working by Dr. Ghosh. The Mayor further re-named the locality as 'Sadhana-Nagore' as a site for the preparation of drugs from herbs. The site is within the jurisdiction of the South Dum Dum Municipality.

THE CORPORATION AT WORK

A LIST OF PROCEEDINGS OF THE EIGHTH ORDINARY MEETING OF THE CORPORATION HELD ON
FRIDAY, THE 18TH JUNE, 1958.

APPOINTMENT OF COMMISSIONER

At the outset, Councillor Dulaj Chandra Mukherjee, referred to a report published in city's newspapers about the proposal for promulgation of an Ordinance modifying the present procedure in the appointment of the Commissioner to the Corporation. The existing procedure stated that the appointment would be made by the Government of West Bengal, Local Self-Government Department, subject to the approval of the State Public Service Commission. But the right of removal lay with the Corporation. The proposed Ordinance would waive the latter clause putting the Officer fully independent and autonomous to do his job without any interference from the Corporation but responsible to the State Government only, according to the speaker.

Pointing out the attitude of the Government in the appointment, Councillor Mukherjee stated that the proposed Ordinance would enable the Government to fix a suitable man of its own hold. And at the same time he apprehended that the Corporation's powers would be much curtailed rendering the House as a mere debating society. He emphasized that the news was shocking to the members even when they had already suffered bereft of powers due to the existence of Section 58 of the Calcutta Municipal Act, 1951.

Harping on the same tune Councillor Biman Mitra, rather urged that the present Act should be amended suitably bringing larger powers to the Corporation in the appointment of the Commissioner. This would place the Corporation in a position befitting a House of Representatives, thought Councillor Mitra.

The Mayor, Shri Bejoy Kumar Banerjee, also remarked that whatever had been in the air was mere individual opinions and speculations. The issue was premature according to him.

ALIGNMENTS LAPSED

Councillor Samar Kumar Rudra pointed out that many of the road alignments sanctioned by the House from time to time were going to be lapsed due to the fact that a few of them had crossed the prescribed period others had aroused suspense in the minds of the concerned about their future progress.

The Mayor, Shri Banerjee, however, assured the House that the matter would be looked into.

UNAUTHORIZED CONSTRUCTIONS

The House appointed a Special Committee with six members with powers to co-opt one representative from the Indian Journalists' Association and one from the Institute of Engineers to investigate into the complaints and all cases of unauthorised construction, sanctioning of building plan, insecure buildings and grievances of the rate-payers in respect of the Building Department and submit a report including steps to be taken to deal with the same. The members are Councillors Mr. B.

Ganguli, G. C. Dey, A. Maitra, S. K. Roy, S. Bhattacharjee and S. Sen.

REVISION OF ASSESSMENT RATES

The Corporation requested the Mayor, Shri Bejoy Kumar Banerjee, to lead on behalf of the Corporation, a deputation of selected members to wait upon the Chief Minister in order to impress upon the State Government the urgency of approving the Corporation proposal for increasing the maximum percentage for imposition of the Consolidated Rate to twenty seven per cent. where the annual valuation exceeded twelve thousand rupees.

The proposal came in the shape of a motion tabled by Councillor Dr. Parimal Kumar Sen Gupta, about a year back impressing upon the urgency of the matter. The mover also quoted, in that connection, a resolution passed by the Corporation on the 22nd March, 1958, while adopting annual budget estimates for 1958-59 along with his personal comments. The resolution stated :—

"The State Government be informed that it is the desire of the Corporation to levy the Consolidated Rates and Taxes at the following percentages as soon as the approval of the State Government is obtained to raise the present 23 per cent. slab to 27 per cent. :—

(i) Twelve per cent. on the annual valuation where the annual valuation does not exceed one thousand rupees,

(ii) Fifteen per cent. on the annual valuation where the annual valuation exceeds one thousand rupees but does not exceed three thousand rupees,

(iii) Twenty-two per cent. on the annual valuation where the annual valuation exceeds three thousand rupees but does not exceed twelve thousand rupees, and

(iv) Twenty-seven per cent. on the annual valuation where the annual valuation exceeds twelve thousand rupees, provided that in case of bustee properties the existing rates and taxes shall continue until the present Act is amended."

Since the above scheme would augment the Corporation revenue by about Rs. seven lakhs, apart from affording relief to the impecunious owners of properties, all possible steps should be taken to obtain immediate Government sanction to the proposal under Proviso to Section 165 of the Act.

CORPORATION CONDEMNS DESTRUCTIVE APPLIANCES IN WARS

The Corporation condemned the modern methods invented for the purpose to carry on destructive warfare and welcomed the suggestion put up by one of the biggest blocks of the

the Union of Soviet Socialist Republic to stop the use of Atomic Bombs as a deterrent in the interest of the future growth of mankind and human civilization.

The motion moved by Councillor Dr. K. P. Ghosh, stood as follows :—

রাশিয়ার কল্লিক এককভাবে আণবিক অস্ত্র পরীক্ষা বন্ধ রাখার সিদ্ধান্ত মানব-জাতির পক্ষে এক মহা শুভ সূচনা। ইহার ব্যবহারে শতাব্দী পর্যন্ত ধারাবাহিক মৃত্যু, বিকলাঙ্গ ও দৈহিক ও মানসিক বিকৃতিতে পূর্ণ শিশু, মানবসমাজকে বিবাস্ত করিবে। বর্তমানে যে আণবিক পরীক্ষা চালানো হইতেছে, ইহার তৎক্ষণাতই থামনের পক্ষে যথেষ্ট।

The motion was debated in the House and Councillor Nandalal Banerjee and others including the mover took part in it.

APPOINTMENTS

The Corporation accepted the following motion as a principle to be followed in case of appointments. The motion was tabled about eight months back by Councillors S. Rudra, P. L. Das, S. Bhattacharji, N. R. Sinha, C. S. Bhowmick, K. Dutt, S. K. Dutta, Dr. K. L. Sarkar, G. Sur, Dr. K. P. Ghosh, M. Sarvadhikari, N. N. Banerji, Dr. A. P. Das Gupta, M. Sanyal, Dr. B. C. Basu, D. C. Mukherji, D. L. Dutt, Raj S. Mitra, K. C. Bysack, R. M. Chatterji and B. L. Ghosh. It runs :—

In giving appointments in the various departments of the Corporation preference should be given to Bengalees particularly to the citizens of Calcutta as far as possible.

MEMORIAL TO RABINDRANATH

About ten months back, Councillor Naren Sen put up a motion in connection with the object to perpetuate a suitable memorial to Poet Rabindranath. The House at this meeting accepted the motion which runs as follows :—

কলিকাতা কর্পোরেশনের এই সভা কবিগুরু, রবীন্দ্রনাথের সুমহান স্মৃতির প্রতি বোধোদ্ভূত মৰ্যাদা প্রদর্শনের জন্য কলিকাতা ময়দানের অভ্যন্তরে অথবা ইতেন উদ্যানে “রবীন্দ্র-উদ্যান” নামে এক রমণীয় উদ্যান রচনা করিবার সিদ্ধান্ত গ্রহণ করিতেছে।

এই উদ্যান বাহাতে ভারত, তথা বিশ্বের সাংস্কৃতিক চেতনাসম্পন্ন জনগণের প্রেরিতম আকর্ষণের বস্তু বলিয়া গণ্য হইতে পারে, সেই উদ্দেশ্যে এই বিষয়ে সম্বন্ধিত বিশেষজ্ঞদের নিযুক্ত করিয়া ১৯৫৯ সালের ৩০শে ডিসেম্বরের মধ্যে এই সার্বক পরিকল্পনা প্রস্তুত করিবার জন্য এই সভা স্ট্যান্ডিং টাউন প্ল্যানিং কমিটিকে নির্দেশ দিতেছে।

কর্পোরেশনের এই শুভ প্রচেষ্টাকে বাস্তবে রূপান্তর করিবার জন্য বিশেষজ্ঞদের পছন্দমত স্থানে উপযুক্ত পরিমিত জমি কর্পোরেশনের হাতে তুলিয়া দিবার জন্য এই সভা কেন্দ্রীয় সরকারের নিকট অনুরোধ জানাইতেছে এবং এই উপলক্ষে প্রয়োজনীয় ব্যয়ভারের শতকরা পঞ্চাশ ভাগ কেন্দ্রীয় সরকার এবং শতকরা পঞ্চাশ ভাগ পশ্চিমবঙ্গ সরকারকে বহন করিবার জন্য এই সভা বিশেষভাবে অনুরোধ জানাইতেছে।

প্রস্তাবকের মন্তব্য :—

এই প্রস্তাবের গুরুত্ব সম্পর্কে আলোচনা নিঃপ্রয়োজন, এই প্রয়োজনীয়তা সম্পর্কে বাঙ্গালী, তথা ভারতবাসীরাই একমত। এই পরিকল্পনা গ্রহণ হইলে ও জাতির সম্মানের পক্ষে অপরিহার্য।

OPENING OF A SCHOOL

The House approved that a school of infant type would be opened at 321, Judge's Court Road. The

item was placed before the House on the recommendation of the Standing Education Committee.

At first certain members did not agree with the views of the Standing Committee as they thought that the financial implications in opening a new school was not examined in detail by the Standing Finance Committee. But it was recorded later on.

COACHING CLASSES

The House, on the recommendation of the Standing Education Committee, granted permission to 'Anusilancee' of 5, Harish Chatterjee Street, to hold free coaching classes free of all charges towards the evening hours at the premises of a Corporation Primary School at 8, Saburban Road, southern part of the city, under certain terms and conditions.

During the previous day's discussion Councillor S. K. Gupta, I. C. S., Chairman, Improvement Trust, initially opposed it on the ground that these institutions were “money-making classes” and the Corporation should not allow them to run free on Municipal premises. He criticized the general run of such classes which were “a menace to education”.

When Councillor Mukur Sarbadhikary maintained that the organizations, sought to be helped, aimed at social service and would coach students free, the House agreed to grant the permission.

PERMISSION TO HOLD SCHOOLS

The House, on the recommendation of the Standing Education Committee, allowed Vidyasagar Samaj Kalyan Parishad to run Free Primary School in the same premises of a Corporation School located at 50, Surya Sen Street, Ward No. 44.

Based on the same recommendation the House allowed the 'Inan Chakra' of 115, Sitaram Ghosh Street, to hold a Night School, towards the evening at the Corporation Primary School premises, 36½/2, Beniatola Street, Ward No. 30.

DEATHS & DISEASES IN THE CITY

ATTACKS and deaths from cholera in the city during the two consecutive week-endings, the 30th May and the 6th June, were 102 and 129, 27 and 49 respectively, while in the week-ending previous to the 30th May the number was 105 and 37 respectively.

Small-pox attacks and deaths during the first week-ending was one in each case while the city was quite free from the disease during the latter period. During the week previous to the number of attack and death was almost negligible.

Tuberculosis took toll of 32 and 38 lives during these two weeks against 27 lives in the week previous to this.

Deaths from all causes totalled 539 during the week-ending the 30th May against 673 in the week previous to this. There were altogether 621 deaths during the week-ending the 6th June.

The Mayor, Shri B. K. Banerjee, distributes relief to the distressed people in the Nandalal Jew Road, Ward No. 64. The relief is in the shape of corrugated iron sheets for roofing their huts and in cash. Ward Councillor Dr. B. C. Basu, the Commissioner Shri P. C. Mazumdar are seen in the picture.

RELIEF TO THE STORM-STRICKEN

SINCE the Mayor's Relief Committee was formed towards the close of last month, the Mayor, Shri Bejoy Kumar Banerjee, took no time in distributing relief to the distressed persons. The local Councillors and legislators put forward their recommendations to the Committee stating the urgency of individual cases. Distribution of cash doles and others have also been started within a short period.

Storm-stricken people of Ward No. 64 were the first recipients of such help by the Mayor on the 9th June though a function organized at Nandalal Jew Road, near the junction of Rashbehari Avenue. More than one hundred people assembled there. Councillor Mani sanyal helped in rendering the relief.

Shri Sunil Das, M.L.A., thanked the Mayor and the Commissioner for the humanitarian work they had undertaken and the execution of the project within such a short period. It was not the quality of things given that counted much but the heart that moved to relieve the grief of the people on this occasion, said he.

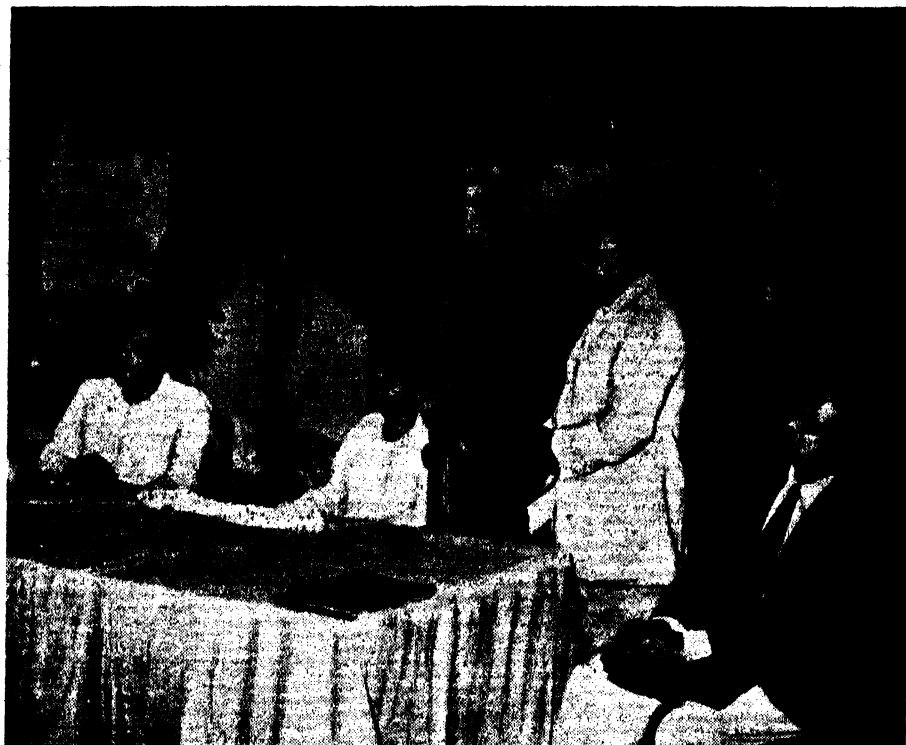

Councillor Dr. Birendra Chandra Basu, Chairman of the Standing Health Committee, narrated the history of the formation of the Storm Relief Committee and eulogized the Mayor for his energy and devotion to the work. He described the help

as insufficient and inadequate in comparison to loss suffered by the people but he assured the people that if possible, more would be given to them when contributions would be put forth. He also said that the Government of West Bengal had also been approached for the purpose.

Shri P. C. Majumdar, I.A.S. (Retd.), the Secretary of the Committee, said that immediately after the storm they had visited the affected areas and came to realise the magnitude of the sufferings of the people. Shri Majumdar, the Commissioner, disclosed that Corrugated Iron Sheets which were difficult to secure were received from the Government without delay. He expressed satisfaction for the energy of the Councillors without whose help and co-operation distribution of relief would have been impossible.

The Mayor, Shri Banerjee said that the Committee was formed taking in view of the human consideration only. He assured the people of more help if it could be arranged. The Mayor supervised the distribution for a long time and was glad to find little boys and girls helping their parent in taking away the Iron Sheets to their houses.

Many residents of the locality came forward and thanked the Mayor for the humanitarian work undertaken by him.

MAYOR AT A RECEPTION ARRANGED BY PERIODICALS' ASSOCIATION
Sitting from left: the Ex-Mayor, Shri N. N. Mookerjee, the Mayor, Shri B. K. Banerjee,
Dr. K. K. Sen Gupta (standing), President of the meeting and Councillor S. K. Roy.

City's Culture Would Continue To Throw Light

CALCUTTA's Mayor, Shri Bejoy Kumar Banerjee, assured the members of the All-Bengal Periodicals' Association that Corporation's help would never be wanting in keeping the light of culture burning in this city. He extended all possible help when the Association arranged a Reception for the Mayor, Shri Banerjee, at a temporary built pavilion, within the Congress Exhibition Park, known as Park Circus Maidan, eastern part of the city on Thursday, the 11th June. At the same time the Mayor appreciated the services rendered by the Periodicals in up-grading the country's standard of learning and culture.

The Ex-Mayor, Shri Naresh Nath Mookerjee, also wished that specialization in publishing journals and periodicals should be the motto of the enterprisers in this line. As a Chief Guest of the function he was not fully complacent with the standard of periodicals published in India. From his personal experiences the Ex-Mayor thought that publicity and propaganda work in foreign lands through these journals should be more accurate and definite.

Dr. Kalikinkar Sen Gupta, a member of the Association, who welcomed all, narrated many of the handicaps experienced by the Association seeking adequate aid and sympathy from the Corporation. Either complete exemption from payment of License Fees or reduction of the existing amount in case of running journals by the individuals and enterprisers was emphasized by the speaker.

This had not only caused much pecuniary hardship to them but also a tax on knowledge and culture. The Association also felt the need of an accommodation for housing the Association's Office with a Reference Library as well as a place of rendezvous where the members could meet each other and exchange their views. This was also stressed by Dr. Sen Gupta.

The role of the Periodicals in bringing national consciousness among the citizens was narrated by the President of the meeting when he paid tributes to the great leaders of the past who had wielded their pen through journals and periodicals.

Earlier, Dr. Sen Gupta referred to the past history of that locality associated with the names of the great minds. He said that many of them had adorned the Mayoral Chair.

The function was well-attended. Many of the city's editors and litterateurs were present.

L. I. C.'S NEW BUILDING OPENED

The Life Insurance Corporation's building, Calcutta Division, was opened by Shri S. D. Srinivasan, Acting Managing Director of the Corporation of India, at 16, Hare Street, on Thursday, the 11th June. Shri A. R. Sen, Senior Divisional Manager, said the Divisional Office had functioned for a long time at four places in the city. Lack of space had proved an almost insurmountable difficulty. He hoped that the new office, a seven-storeyed building, would ease it.

Shri A. L. Dutta, Zonal Manager, said that there had been 32% increase in business in the Calcutta Division, 44% in the Eastern Zone and about 30% in the whole of India in the first five months of the year compared to the corresponding period of last year.

Shri Srinivasan also distributed cash prizes, totalling about Rs. 17,000 to 47 Agents who had done good work last year.

KERALA CHIEF MINISTER VISITS THE CITY

The 6th June last, was an important day in city's life, when Shri E. M. S. NAMBOODIRIPAD paid a brief visit to this city. He attended several functions. Out of which one arranged at the Maidan, on the foot of the Ochakoney Monument, wherein he addressed a big gathering, was a most impressive one. The functions were mostly of political nature still the State Chief Minister eloquented his speeches with social and educational reforms he wanted to undergo within his State. He reached the city in that morning.

Speaking on the main force behind the proposed movement against the Education Act, Shri Namboodiripad said in that big meeting that all the main political parties had been 'curiously' combined together in spite of their contradictory political ideas and ideologies against the implementation of the Act.

The meeting, in which many processions from different parts of the city and suburbs converged opened with songs sung among others by Shri Sadhan Gupta, M.P., Shrimati Manjushri Chatterjee, and a Corporation employee who recited his own composition. Shri Jyoti Basu, M.L.A., who

SHRI E. M. S. NAMBOODIRIPAD

ADDRESSES MAIDAN RALLY

PHOTO : SANTOSH MUKHERJEE.

presided, wondered how the Congress would have reacted if the Opposition in West Bengal or any State other than Kerala should start a campaign to oust the Government.

The meeting in observance of the Kerala Week in the city, also appealed to "all progressive-minded people, irrespective of their political or other beliefs to raise their voice against the present undemocratic movement in Kerala and uphold standards of democracy and secularism by defeating the plans of the vested interests."

At a meeting of teachers, in the Muslim Institute Hall, central part of the city, Shri Namboodiripad explained the objectives of the Kerala Education Act and the factors that had created the agitation against it. He said that the Act had been passed in accordance with a long-standing demand in the State for radical educational reform.

The State Chief Minister continued that declining to take the full responsibility for education, the alien rule in the past, had introduced the system of grants-in-aid to privately run schools. But Constitution had placed a great responsibility on State Governments and the Act was an attempt by the Kerala Government to discharge that responsibility.

The Act provided for maintenance of schools, aided and recognised. Managers of recognised schools were free to run them as they liked, provided they adhered to prescribed syllabuses, but the Government would not bear any financial burden for them. Schools run by philanthropic institutions had thus been assured a place in the new system, asserted Shri Namboodiripad.

The Government would take over full financial responsibility for aided schools and pay teachers directly through headmasters. Only managerial expenses would be given to managers, who were required to credit the Government with all realization from fees. Teachers of these schools would have to be appointed from a panel to be prepared by the Public Service Commission. As suggested by all parties, reservations in the teaching profession had been made for scheduled castes, scheduled tribes and backward communities, according to him.

The meeting was presided over by Prof. K. P. Chattopadhyaya, M.L.C., who also narrated his personal experiences in introducing compulsory primary education in the city as the first Education Officer of this Corporation under the guidance and inspiration of the late Deshabandhu Chittaranjan Das.

Earlier at a Press Conference, Shri Namboodiripad said that he would agree to the Kerala Education Act being sent to a referendum, provided the same procedure was followed in respect of legislation that had roused criticism in other States.

The Chief Minister denied that the Kerala Government was trying to indoctrinate people through text-books. The only thing the Government had done so far was that it had withdrawn the ban on publications glorifying the achievements of Communism. Kerala was the only State, he claimed, which had prescribed Planning Commission's publications as school text-books.

The Chief Minister left the city by the night air mail on that day.

THE WORLD OF BOOKS

BHARAT-CHIN—(A quarterly journal in Bengali)—published by the India-China Friendship Association, West Bengal, 84-A, Sambhunath Pandit Street, Calcutta-20. Each copy Rupee One only.

Started with the object to promote better relationship between the two great countries in Asia the journal's third number has just seen the light of the day, the other day. Although the second and the third numbers contain a large number of articles translated into Bengali from many of the eminent writers of China still they are enriched with compositions which would enlighten the reader more about that country so long put under curtains. There are poems written by contemporary poets of these days in Bengal.

The third number also, contains an article on the progress of China's economy specially written by Dr. Jnanchand, an eminent economist.

Each number contains special articles of the world famous Poet Rabindranath written on China and a few art plates depicting China's arts and crafts.

CITY NEWS PARADE

OBITUARY : Death of Dr. Rai Mohan De, a physician of repute in this city, occurred on the 4th June last.

Hailing from Bilgrampur, Dacca, now the East Pakistan, the late Dr. De passed the M.B. examination from the Calcutta Medical College. Later on he built up an extensive practice in this city. Connected with many social and educational institutions of the locality he belonged, the late Dr. De was a most popular medical practitioner in the city.

The Calcutta Corporation at its weekly meeting on the 5th June last mourned his death.

The death of Shri Probodh Chandra Chowdhury, a well-known businessman, occurred at his residence in southern part of the city on Monday, the 9th June. He was 84.

A Director of several business firms the late Shri Chowdhury was closely associated with Messrs. Shaw Wallace and Co., as a Director.

Having graduated from the Calcutta University, the late Shri Chowdhury started his career in a humble way and rose to prominence in the business world.

Unostentatious in his manners, the late Shri Chowdhury came of a well-known landlord family of Baksa near Jamal in the District of Hooghly, where he made considerable charities to various public institutions. He was also associated with many social and educational institutions. He had several publications in Bengali including one of the Upanishad.

The Corporation mourned the death of Shri Chowdhury, at its weekly meeting on Friday, the 12th June. The death was referred to in the House by the Mayor, Shri Bejoy Kumar Banerjee, who paid eloquent tributes to his memory. In his death the city has lost a well-known businessman and a prominent citizen of outstanding personality, added the Mayor.

FIRES ETC.: A six-year-old girl, Shrimati Saraswati was drowned in a pond in Uradanga, eastern part of the city on Tuesday, the 9th June.

A fire in a jute godown in the Coostpore area, was brought under control in over an hour on the same evening. The West Bengal Fire Service's men continued to operate eight pumps there till night.

CALCUTTA HAD AN UNUSUAL HEAVY MONSOON SHOWER ON FRIDAY, THE 12TH JUNE when within twelve hours, the rainfall recorded 5.5 inches. The intensity was so much that it recorded over 2.5 inches in a little over an hour's rainfall towards that morning. The heavy down-pour was caused by a low pressure area lying north of the city, according to Alipore Meteorological Office.

This was the season's heaviest shower so far. There was hardly any area in the city which was not flooded by the morning shower. In parts of Central, North and South Calcutta, the accumulation of water was waist-deep. Water rolled along the pavement and swept into many houses through doors and windows whenever a bus or taxi crawled along the flooded streets. The rain caused inconvenience to hundreds of office-goers who were stranded because of disruption of tram and bus services.

Tram services on all routes were suspended till about 4 P.M.

Among a few minor mishaps were a hut collapse on Upper Chitpore Road, northern part of the city and about a dozen small fires in the electric meter boxes of some houses. Three trees also fell, including one on Cathedral Road, Maidan area. No one was injured. Plane services from the airport were almost unaffected. Thirty-three Up and Down trains in the Eastern Railway's Sealdah Division were delayed. Trains in the Howrah Division were unaffected. Trunk telephone lines from Calcutta to other places were disrupted.

According to Corporation authorities the intensity of Friday's rain was too much for the city's drainage system which was designed for rainfalls no heavier than a quarter of an inch an hour. Since the previous night the Pumping Stations worked to full capacity draining out 50 million gallons of water an hour but still late in the afternoon, some parts of North and South Calcutta were under water.

As an emergency measure the Corporation at its weekly meeting on that day passed a resolution for the citizens' relief and showed its anxiety for them when the matter was referred to in the House.

It authorized the Commissioner, in anticipation of all sanction of proper authorities where necessary, to appoint staff immediately for operating the six portable pumps of the Corporation, and also to borrow the services of such pumps from the Calcutta Improvement Trust and the Fire Brigade on payment of usual incidental and running costs for such pumps.

This action was taken when Councillor Brojendra Nath Banerji, Chairman, Standing Works Committee, asked the House to sanction appointment of additional men to operate the Corporation's six newly acquired pumps. The pumps will be useful only in the low-lying areas and in those served by sewers.

Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, said that the Corporation could borrow the C. I. T.s pumps if it was willing to pay the running costs.

Speaking on the magnitude of the rainfall, the Mayor, Shri Bejoy Kumar Banerjee, stated that he had personally toured the flooded areas in a jeep in that morning and saw to it and all that could be done under existing circumstances was done. Had steps been taken earlier matters would have been different. Street-flooding had occurred for some years, he added.

The monsoon appeared to have set in so far as Calcutta was concerned, on Thursday, the 11th June when an afternoon shower indicated its approach.

A weather expert based his opinion on the fact that the temporary advance of the monsoon noticed on Wednesday was being maintained. Any break in the monsoon current after that was unlikely.

Two measurable showers were recorded on Thursday evening. Occasional drizzles were also noticed. Rainfall during the 24 hours ended 5-30 P.M. on the 11th June was 9.8 mm. (0.39 in.)

At about 11 P.M. of that night there was a another shower, accompanied by thunder and claps and flashes of lightning. The downpour lasted well into the early hours of Friday morning.

The city had overcast skies on Tuesday, the 9th June and the preponderance of clouds was largely attributed to the penetration of moisture. One or two feeble monsoon pulses might have influenced the weather. On the 10th June there were light rains also.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. I Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 19th June, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer I's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Commissioner be forfeited.

9. Repairs to sewer at Brindaban Mullick Lane, Ward No. 29—Rs. 1,385/-, dated 3rd June, 1959 (1 month).

10. Repairs to pipe sewer at Madan Chatterjee Lane, Ward No. 21—Rs. 1,134/-, dated 3rd June, 1959 (1½ months).

11. Construction of lampholes for maintenance of sewers in Ward No. 10—Rs. 1,226/-, dated 26th May, 1959 (4 weeks).

12. Repairs to sewered ditches and narrow lanes in Ward No. 7—Rs. 2,358/-, dated 3rd June, 1959 (1½ months).

13. Repairs to sewered ditches and narrow lanes in Ward No. 8—Rs. 1,993/-, dated 3rd June, 1959 (1½ months).

14. Repairs to footpath of Strand Road near junction of Nimtolla Ghat Street, Ward No. 19—Rs. 4,757/-, dated 3rd June, 1959 (1½ months).

15. Repairs to footpath of different roads in Ward No. 24—Rs. 4,739/-, dated 3rd June, 1959 (1½ months).

16. Repairs to footpath of different roads in Ward No. 19—Rs. 4,608/-, dated 3rd June, 1959 (1½ months).

17. Repairs to S/D in Ward No. 6—Rs. 2,275/-, dated 3rd June, 1959 (1 month).

18. Repairs to S/D in Ward No. 17—Rs. 2,618/-, dated 3rd June, 1959 (1 month).

19. Construction of carriageway at 39, Kali Krishna Tagore Street on Jogendra Kavraj Road side—Rs. 131/-, dated 13th May, 1959 (1 week).

20. Repairs to kerb and channel stones at Grey Street (portion) in Ward No. 8 & 9—Rs. 1,185/-, dated 3rd June, 1959 (4 weeks).

21. Supplying earth at Deshabandhu Park, Ward No. 10—Rs. 940/-, dated 3rd June, 1959 (4 weeks).

22. Preparation of bed for roads in C. I. T. Scheme V. M. (Grey Street Extension)—Rs. 3,857/-, dated 3rd June, 1959 (1½ months).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

CORPORATION NOTICES—Contd.

Registration of Carts

NOTICE.

(Section 224 of the Calcutta Municipal Act, 1951. West Bengal Act XXXIII of 1951)

1st half-year 1959-60.

Further to the notification dated the 13th April, 1959, issued by this office regarding renewal of registration of carts, it is notified for information of the owners or keepers of carts within the jurisdiction of the municipalities of Calcutta, Howrah, Garden Reach and South Suburban that the renewal of registration of carts, under Section 224 of the Calcutta Municipal Act, 1951, for the 1st half-year 1959-60, will continue up to the 30th June, 1959. All concerned are requested to have their carts duly registered by the said date.

A. K. DUTT,
License Officer.

Central Municipal Office :
The 9th June, 1959.

Workshop Apprenticeship Examination.

NOTICE.

As per resolution dated 5th June, 1959 of the Corporation, the date for holding the Competitive Examination for admission of ten Apprentices (Paid) in Entally Workshops, which was previously announced to be held on 12th June, 1959, is deferred by two weeks.

The Examination will now be held on 26th June, 1959 at Entally Workshops at 1 P.M. (One Paper from 1 P.M. to 4 P.M.)

P. K. CHATTERJEE,
Manager.

Entally Workshops :
The 10th June, 1959.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchase are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the market.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-0 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CITY'S FOOD POSITION

Corporation's Anxiety Over Food Crisis

THE fast deteriorating position of the supply of food-stuffs in the city was discussed by the Corporation for two subsequent days, Wednesday and Friday, the 17th and the 19th June respectively. Although different views were expressed on the floors of the House as to liquidate the crisis, a common object of expressing anxiety for the citizens in obtaining requisite quantities of rice, were voiced by all. Equal concern was sounded by almost all the speakers. They were also unanimous in impressing upon the Government the need to give an exemplary punishment to the profiteers who were alleged to be partly responsible for this crisis.

After a prolonged debate the Corporation on the 19th June passed a resolution urging the Union Government to take full responsibility of supplying adequate quantity of good quality rice at the lowest available price in the country. It further recommended to the State Government to introduce State Trading in rice and paddy deals as prescribed earlier by the Union Ministry as well as to take special measures against the anti-profiters and hoarders.

The resolution was placed before the House in the shape of a motion tabled earlier by Councillors J. L. Saha, A. C. Sarkar, S. S. Singh, D. N. Bose, Raj S. N. Mitra, R. M. Chatterjee, K. Hossain, Dr. E. Ebrahim and others, and was formally moved by Councillor M. L. Ganguly as one of the signatories.

The House further accepted an amendment to the original motion, duly moved by Councillor Dr. P. K. Sen Gupta, which requested the Government to form an independent tribunal to inquire into the causes of the deteriorating food situation and fix responsibility on persons concerned.

The Deputy Mayor, Shri K. L. Dhandhanian, who presided over the two days' discussions assured the House as a former Chairman of a traders' organization that any dealer who violated the Government's price control measures should be socially boycotted.

The discussion was initiated in the House on the 17th June by Councillor C. S. Bhowmic who through a motion tabled on the previous day, sought to impress the House about the urgency of the situation, and to solve the crisis. Motions of almost similar nature were tabled by Councillors B. Mitra, S. Sen, and N. Sen and moved on the first day. They alleged all the responsibilities of the food muddle upon the West Bengal Government. All of them moved their individual motions and these were duly seconded by others. There was a well-thought motion amending of a previous one and duly moved by Alderman Dr. A. K. Bose. The Ex-Mayor, Dr. Triguna Sen also took part in the debate.

One of the motions sought to express the Corporation's support for the movement being organized by the Price Increase and Famine Resistance Committee, while another clearly stated the programme of another political party. There were points of agreement among them. One of the common was a demand that there should be a summary method of trial through Tribunal for hoarding and profiteering. One also advocated whipping for such offenders and demanded that the Food Minister should resign.

THE RESOLUTION PASSED

This House expresses great concern on account of the scarcity and consequent increase in the price of rice in West Bengal, particularly in the City of Calcutta. In spite of recent food production in the country during the current year and in spite of various kinds of control measures, the people of West Bengal have been very hard hit in respect of high prices and non-availability of rice at controlled rates.

This House further feels that the Government of India have not given due consideration to the fact for the aid extended by the State of West Bengal in earning Foreign Exchange, in the way of largely producing jute and tea, the two largest cash crops, by sacrificing rice cultivation in the country.

As it is not possible for the people of West Bengal to change the food habits overnight and as it is not possible for the middle class people to substitute rice by any other food, particularly for economic reasons, it is essential that the Government of India should take full responsibility to supply adequate quantity of good quality rice at the lowest available price in the country.

(On account of lack of proper application of control measures and imperfect action of the Enforcement Branch, the hoarders, blackmarketeers and profiteers have taken the fullest advantage and have made the situation from bad to worse.

This House, therefore, offers the following suggestions for immediate consideration of the Government of West Bengal as well as of the Government of India, with a view to help the people of the State to overcome the difficult situation with the least possible delay :-

(i) The present problem should be considered as a national problem and people's co-operation should be solicited irrespective of any party affiliation and should be utilized with all seriousness.

(ii) Severest measures should be taken against anti-social elements and hoarding, blackmarketing and profiteering in rice and paddy should be immediately stopped with all the force at the command of the State and the Union Governments.

(iii) State Trading of paddy and rice should immediately be introduced including procurement, milling and distribution. The cottage industry of using 'shank' should be encouraged to create more employment for the children of the soil.

(iv) All efforts should be made to increase rice production within the State and the Agriculture Department should be made more active in the matter of giving loans and supply of better quality seeds and manure.

(v) Buffer stocks should be built up in all the districts in order to relieve inordinate pressure on the city which is already over-populated.

(vi) Banks should be prohibited to make any advance against purchase of rice and paddy to private persons or firms and any money-lending against paddy and rice should be declared illegal with retrospective effect, if necessary.

(vii) Anti-hoarding measures should be enforced strictly and if necessary, unnecessary stocks of paddy and rice should be seized and confiscated.

(viii) Special Tribunals should be appointed to try and decide cases of hoarding, blackmarketing and profiteering in rice.

(ix) Influx of villagers from nearby areas should immediately be prevented as otherwise, the citizens will find it difficult to get the minimum supply of rice at reasonable prices.

(x) The Government of India is requested to release twelve lakh tons of rice and wheat immediately for the State of West Bengal to meet the emergency situation.

(xi) Active co-operation of the Aldermen and Councillors should be utilized in respect of distribution of rice through retailers and also detection of cases of hoarding, blackmarketing and profiteering, with adequate powers.

TWO-DAY LONG DISCUSSION

MOVING the motion Councillor Ganguly said that because of distressing condition prevailing at the present moment in rural areas the villagers had been migrating to the city for food. But the citizens were also facing difficult situation. They were not in a position to provide distressed villagers with food. They required test relief and gratuitous relief every year. This help would also be extended this year.

Continuing his speech Councillor Ganguly said that in apprehension of food crisis those who had the means might have hoarded rice to tide over the difficulties. He impressed upon the Government the need for issuing notice that every citizen should declare the position of the rice stock. By so doing the Government would be able to have an idea of the present position of food.

He also alleged that though India achieved independence twelve years back the mentality of the officials had not changed at all. The elected representatives also find it difficult to do good for the people. He emphasized the need for taking strong measures by the Government to tide over the difficulty. Those who would be found guilty of the violation of control orders should be severely dealt with, Councillor Ganguly added.

Among others stated by him was that on account of lack of proper application of control measures and imperfect action of the Enforcement Branch, hoarders and profiteers have taken the fullest advantage and had worsened the situation.

Before conclusion, Councillor Ganguly asserted that distribution should be checked with an

"You have even if it meant victimization of a few innocents."

The motion was seconded by Councillor Dr. Sukhdev Mukherjee who also alleged that the rice seized by the Enforcement Branch Police went back to the trade. He demanded a stop to this practice.

FORMATION OF CITIZENS' COMMITTEE

Moving another motion, Councillor Biman Mitra said that mere agitation would not take them anywhere. Instead, he suggested that a broad movement be built up in all parts of the State against the Government's inefficient and corrupt handling of the food situation.

The motion also re-iterated a former resolution of the House in the same connection which demanded formation of Citizens' Committees in localities in order to ease the supply position by preventing all nature of hoarding and cornering.

Councillor Naren Sen moved another motion suggesting that Food Minister of West Bengal should resign. His other suggestions were to increase the number of fair price shops, to create a stock of 15 lakh tons of rice for West Bengal to seize ghost ration cards, to distribute rice through small dealers who should show an account of the stock and distribution to the Citizens' Committees free from political biasness. Those who would be found guilty of Rice Control Orders should be whipped, and sentenced, he added.

According to Councillor Sen the suggested measures might be given effect to through a movement sponsored by the citizens in order to prevent the repetition of the 1943 situation of Bengal.

STATE-WIDE MOVEMENT

Councillor Chandra Sekhar Bhowmick planned that the Corporation should extend its full support to the State-wide movement to be launched by the Price Increase and Famine Resistance Committee. His motion incorporated many of the measures suggested by that Committee.

EXEMPLARY PUNISHMENT FOR OFFENDERS

Councillor Chandra Sekhar Bhowmick suggested that the Enforcement Branch Police and District Intelligence Branch Police should be empowered to seize from the custody of any person or persons or firm or mill-owner or trader any quantity of rice exceeding ten maunds and seal them up in presence of the people of the locality and stack the same in the Government godown for sale to the public at the controlled price. A Special Tribunal should be formed consisting of a retired District Judge and two distinguished non-official persons from the public to complete the enquiry within a week from the date of the seizure of any stock. The offenders should be whipped publicly. The Tribunals should also be empowered to punish in a summary way the offenders with illegal possession of over one hundred maunds of rice without any reasonable explanation to a sentence of guillotining on the charge of 'mass man-killing'.

It was suggested that the Indian Penal Code and other Penal Laws should be suitably amended to give effect to above measures. The Food Minister should be asked to tender resignation forthwith and the Chief Minister be requested to take charge of the Food portfolio. The State of West Bengal

should be declared a deficit province and a famine area. The Union Government should be requested to export rice and wheat to meet requirements of West Bengal. In case there was no appreciable improvement of the food situation in the State within a fortnight the present Ministry should be dissolved and Governor's rule should be imposed in West Bengal. The Central Government should take the full responsibility for supplying food to the people of West Bengal.

At the outset moving his motion, Councillor Bhowmick remarked that there was no appreciable improvement in the State's food situation within a fortnight since the issue was raised in the House.

DETECTIONS GO UNATTENDED

Councillor Satyananda Bhattacharyya narrated his experience in the city's rice market. He said that recently he and some other people had detected 806 bags of rice in a godown in North Calcutta. The godown keeper pleaded that all the stocks had been sold out, but the bill he showed did not bear the address of the buyer. In spite of repeated calls for their help, the Enforcement Branch Police did not turn up. He also doubted about the movements of Police Officers in that connection.

Categorically, Councillor Bhattacharyya gave a list wherein rice was stated to be cornered by the wholesalers.

Supporting one of the motions, Councillor Shyamal Dutta argued that the Government's price control orders were designed to safeguard the interests of wholesalers whom he described as the Government's "adopted children".

AN AGREED RESOLUTION

Towards the close of first day's proceedings, Alderman Dr. Amiya Bose, sought to meet the opposing viewpoints by suggesting amendments to one of the motions, but he failed. The suggestion for the formation of People's Committees at different levels to watch implementation of the Government's food policy instead of utilizing the Councillors' and Aldermen's co-operation in the "distribution of rice through retailers and for detection of cases of hoarding", was disagreed to by the majority members of the House.

STATE TRADING—AN EASY PROCEDURE

The second day's discussion was opened by Councillor Dr. K. P. Ghosh, who pleaded that the State Government was primarily responsible for creating the crux of the situation. He showed his anxiety regarding the attitude of the State Government and supported the earlier resolution of the House introducing State Trading.

The Ex-Mayor, Dr. Triguna Sen, took the issue in other perspectives. According to him 'unless there is a change in the minds of the people very little could be achieved in this regard.' He took noble ideals as the motto of life and for which he wanted to inspire the younger generation so that they might imbibe those ideals in their daily life and could blow an atmosphere of honesty and integrity. And for this Dr. Sen wanted that they should be free from the present vices and should be built up in an air wherein strength and determination might add their strength to fight out the evils existing around the society. The Rector of an University was applauded by the House

when he suggested the above for the interest of the citizens' better mode of living.

Councillor Dulal Mukherjee alleged that mal-administration of food dealings within the State was partly responsible for this. He also supported a resolution passed by a political organization in this regard within a few days.

UNSCRUPULOUS MOVEMENT OF TRADERS

Through a comparatively long speech, Councillor Sushil Roy tried to seek the real issue in bringing about the situation. He alleged that unscrupulous movement of a section of traders were responsible for this "man-made famine" in this country. He cited an incident recently happened in a mufussil district wherein interference from upper levels had helped the hoarders to move in their own way.

Feelingly Councillor Roy also said that reports of un-natural deaths published in the Press were mostly of deaths due to starvation, if proper enquiries were conducted up to that end.

Councillor Dhiren Dhar, M.L.A., re-iterated that the Government could have saved the situation if proper steps were taken earlier in this regard. The campaign for 'Grow More Food' has proved failure according to him although it continued for years. The Union Government had imported food-stuffs worth Rs. 95 crores till the year 1951 and paid several lakhs as freight charges. He apprehended that there would be larger imports in these years also. He stressed that peoples' agitation could only divert the present food policy of the Government.

Councillor Samar Rudra wanted to give ultimatum to the State Government before a movement was launched in this regard.

Referring to a Minister's resignation on the point of State's food policy Councillor Anil Maitra hoped that the State Government should take a lesson from the situation and would change its policy.

Quoting statistical data, Councillor Tulsi Paul tried to impress upon the House that the Government had not moved in a right direction so that there might be an easy flow of food-stuffs to this city.

Councillor Amulya Sarkar also wanted a strong hand in this regard.

Councillors Dharendra Nath Bose, Prasanta Sur, Kamal Paul, Shiv Kumar Khanna, Mukur Sarbadhikary, Nanda Banerjee, Ratan Manick Chatterjee, Barin Chatterjee, Dr. Aurobinda Prasad Das Gupta and others spoke emphasizing the need of change in Government's food policy.

FOOD POSITION FROM OTHER CORNER

Much concern was also expressed about the State's Food Supply position by the West Bengal Cabinet. Towards the earlier part of this month when the Cabinet met in Darjeeling discussion on food took the topmost position. Throughout this week there were also top-level discussions continuing for six days between the representatives of the Union Government and the State Chief Minister, Dr. B. C. Roy. The State Food Minister, Shri P. C. Sen and other food officials were also present on all these days' inconclusive discussions held in Writers' Building, Calcutta. The Union Food Ministry's Secretary,

Shri B. B. Ghosh represented the Centre. They were to find a solution of the problem of high prices and apparent scarcity of rice supply in the State, particularly in this city of Calcutta and its suburbs.

After six days' continued discussion, it has been learnt that the State Government has submitted its tentative proposals to deal with the food crisis on Wednesday, the 17th June. The proposals will be placed before the Union Government for their approval.

One of the main points in the suggestion is said to be West Bengal's demand for 200,000 tons of foodgrains in addition to 9,50,000 tons, the State's earlier estimated deficit. The State Government is also said to have pleaded for more rice rather than wheat in the additional supply.

Through a statement on Friday, the 19th June, the State Food Minister has defended his policy of distribution in the country.

According to him 'about 98 lakhs of people or nearly a third of the total population are enjoying the benefits of modified rationing in West Bengal against the number covered last year 42 lakhs.' He also said that the quantity supplied to this city and the industrial area was comparatively greater than other parts. During May 50,000 tons of rice and 35,000 tons of wheat were supplied to the people. 'The procurement position is also satisfactory', he added.

In the meantime, people's agitation is gaining ground in the city. Food demonstrations are taking place in almost every day in every corner of the country. Demands have been made for holding a special session of the State Legislature to discuss the issue. Criticisms are being made about the Government's food policy from many other corners.

AN EX-MAYOR'S BEREAVEMENT

We deeply regret to announce the sudden and premature death of Shrimati Supriya Sen, wife of the Ex-Mayor, Dr. Triguna Sen, after a brief illness on Thursday, the 18th June. The incident took place due to an attack of Cerebral Haemorrhage accompanied by High Blood Pressure, at the residence of the Rector, Jadavpur University, Jadavpur. She was 46. The cremation took place at the Sahanagore Burning Ghat, southern part of the city, on that evening. The bier was followed by a large number of mourners.

The Corporation at its adjourned meeting on Friday, the 19th June, mourned the death. The death was referred to in the House by the Deputy Mayor, Shri K. L. Dhandhaniala, who paid eloquent tributes to her memory. The House's sympathy went to the Ex-Mayor, Dr. Triguna Sen who was also present in the House. Loss of life's consort was considered as an irreparable loss to Dr. Sen, as remarked by the Deputy Mayor. Expressing condolences also to the surviving two daughters the House adjourned its sitting for ten minutes as a mark of respect to Shrimati Sen's memory.

Several Aldermen and Councillors went to Dr. Sen to express their sympathy on his bewildered bereavement at such a heavy loss.

We also extend our sincerest condolences to the members of the bereaved family.

HOW CALCUTTA REMEMBERS DESHABANDHU**Corporation Canonises Deshabandhu's Ideals**

CALCUTTA has diligently pursued many of the programmes and welfare schemes enunciated by its FIRST MAYOR, DESHABANDHU CHITTARANJAN DAS. But the 'City Beautiful' campaign started by that leader would have to be imbibed by citizens with fresh ideas of life's beauties. Pregnant with that prophecy the shock of his light has yet to be realized. These were the ideals given expression to by the citizens in observing the Thirty-Fourth Death Anniversary of Deshabandhu on Tuesday, the 16th June. Meetings and memorial services spread throughout the city on that occasion. Those who had the chances to live up to those ideals were found to be complacent in re-iterating Deshabandhu's teachings and sermons while others spoke in different tones.

Calcutta's homage started with a Memorial Service in the morning in front of the Mausoleum, Sahanagore Burning Ghat, southern part of the city, where the last remains of Deshabandhu were put to ashes. Garlanding the bust formed the main part in it. The Mayor, Shri Bejoy Kumar Banerjee, the Ex-Mayor, Shri Santosh Kumar Basu, M.P., Shri Satcowripati Roy, who conducted the service, Shri Hemanta Kumar Basu, M.L.A., and others both individuals as well as institutions and organizations, placed wreaths there.

In the evening at Deshabandhu Park, northern part of the city, tributes were paid to his memory by different speakers including the Mayor, Shri Banerjee, who presided over the function. The function was held at the foot of the life-size statue of Deshabandhu installed within that spacious park. Earlier the Mayor garlanded the statue, beautifully decorated on the occasion. Both these functions were held under the auspices of the Corporation of Calcutta. The day was also observed as a holiday there.

In the West Bengal Assembly House the portrait of Deshabandhu was also garlanded. Similar functions were arranged in other places particularly in those associated with the memory of that great philanthropist.

A MEMORABLE DAY IN CITY'S HISTORY

DESCRIBING the Sixteenth of June as a memorable day to be remembered by citizens the Mayor, in course of his speech, re-iterated the trends of happenings followed in this city when that mournful event took place in 1925. Chittaranjan was then living in 'Step Aside', Darjeeling and the whole of India burst into tears with his death news.

Shri Banerjee also said that Deshabandhu was an institution in itself. He had definite planning regarding education, health, sanitation, water supply and general improvement of the city of Calcutta. The Primary Schools, Maternity Homes, 'Calcutta Municipal Gazette' and such like were all his creations and what the present generations had done only added their number by extending those welfare activities. All these he enunciated while he took the Mayoral oath in 1924. If they could carry out the programme laid down by him and later on pursued by Deshapriya Jatindra Mohan and Netaji Subhas Chandra, citizens would bless them as true followers of those patriots.

Concluding his speech, the Mayor said that Chittaranjan Das lived a glorious life and had left behind an inspiring ideal for others to follow. He

remarked further that by erecting more statues of those noblest souls country's progress would little be achieved. The only advice of the Mayor to the citizens was to imbibe his ideals and to follow them.

Councillor Anil Maitra narrated Deshabandhu's immense sacrifices for the cause of country. His messages on 'Service to *Daridra Narayan*' would ring over the citizens' minds till the end of humanity. He also foretold that those ideals would never die out in people's minds.

Earlier, welcoming all Councillors Mihir Ganguly, presented the history of the erection of the statue. He referred the criticisms made about the accuracy of the work, still he added that the impressive statue would inspire the citizens of that locality with the ideas and ideals of a great patriot and philanthropist.

National songs were rendered on the occasion, Councillor Purnendu Sen Gupta, Shri Abinash Bhattacharyya, Secretary, Employees' Association, and others also spoke. Among those present were Councillors Ratan Manick Chatterjee, and Raj Satyendra Nath Mitra, and several Corporation officials.

'A FRIEND OF THE DISTRESSED PEOPLE'

Through an impressive but solemn function the Memorial Service was held in the morning. The gathering was vast including a large number of Deshabandhu's followers and admirers who had

assembled there to pay their heart's homage to their leader.

Wreaths were placed on Deshabandhu's bust located in the steps of that mausoleum on behalf of

the Calcutta Corporation, Pradesh Congress Committee, District Congress Committees, Corporation Employees' Association and allied organizations, Deshabandhu Pathagar and individuals from different walks of life.

As a close associate of Deshabandhu for a brief period Shri Satcowripati Roy, re-iterated the events in Chittaranjan's life since he became 'Deshabandhu'—a friend of the country, a name really significant to his ideals and ideas.

Speaking of Deshabandhu's sacrifices and patriotism Shri Roy his utterings which amply demonstrated how ardent and sincere he was to end the alien rule. He was sorry to notice that many of his programmes to re-build the country were not accepted to even after the country's Independence had been achieved as long as twelve years ago. In that connection he referred to an incident from Deshabandhu's life

DESHABANDHU MEMORIAL COMMITTEE

The Corporation in one of its recent meetings has re-constituted the Deshabandhu Memorial Committee, with the following:—

- (1) The Mayor, Shri Bejoy Kumar Banerjee,
- (2) & (3) Councillors Dr. Birendra Chandra Basu and Shyamal Kumar Dutt, representatives of the Corporation.
- (4) Councillor Dr. Parimal Kumar Sen Gupta, Chairman of Borough Committee No. 14,
- (5) The Commissioner, Shri P. C. Mazumdar, I.A.S. (Retd.),
- (6) The Chief Engineer, Shri A. K. Sen,
- (7) The Health Officer, Dr. A. Mukherjee,
- (8) and (9) The Ex-Mayor, Shri Santosh Kumar Basu, M.P., and Shri Indu Bhusan Beed, representatives of the donors and subscribers to the Deshabandhu Memorial Fund, and
- (10) Councillor Ganapati Sur, Chairman, Standing Town Planning & Improvement Committee.

which he had chances to witness. It was in 1921 when Deshabandhu chalked out a programme to re-build the country as one of the conditions and terms for co-operation with the then Government authorities as well as to end the Non-Co-operation Movement launched by the Mahatma Gandhi then. It also showed the political far-sightedness of a great nationalist and patriot.

The task of village re-construction inspired him most and he called upon his followers to undertake that task as he realized that unless such was done the country's progress would hamper much. In conclusion the president asked his audience to realize those things in the context of modern times.

Signifying the appearance of Deshabandhu in the political arena of the country was meteoric the Ex-Mayor, Shri Basu said that it was then the melting point of the country's political history, and Deshabandhu took the helm of affairs in his own hands. If men like Deshabandhu did not appear in

the field the present new chapter of country's history would have been impossible to imagine at any stage, he added.

The Mayor, Shri Bejoy Kumar Banerjee on behalf of the Memorial Committee, welcomed all.

Devotional songs were also sung at that site in the evening.

OTHER FUNCTIONS

Deshabandhu Chittaranjan's Death Anniversary was observed in the office-room of Dr. Pratap Chandra Guha Roy, Deputy Chairman, West Bengal Legislative Council, at "Assembly House", on that day. The portrait of Deshabandhu was decorated with garlands and flowers.

The Deshabandhu College and School for Girls observed the Death Anniversary towards that evening. There were readings from the Chaitanya Charitramrita by Pandit Dwijapada Goswami at 58A, Sadananda Road, college premises. A public meeting was held at that address.

Under the auspices of Burrabazar-Jorabagan Citizens Committee, Deshabandhu Day, was observed at 7, Kali Krishna Tagore Street. Dr. Mani Bysack presided. Shri Kartick Ch. Mullick, Shri Dhiren Bhowmick, Shri Benoy Goswami and others addressed the gathering.

Kidderpore "Surabitan" paid homage to Deshabandhu Chittaranjan Das through a simple ceremony at 83, Monsatala Lane. Prof. Rabindranath Bose conducted the proceedings.

In observance of the Death Anniversary of Deshabandhu Chittaranjan Das and Acharya Prafulla Chandra Roy a meeting was held on 16th June under the auspices of the Shyamadas Vaidya Shastra Pitha Parisad, 294/3/1, Acharya Prafulla Chandra Road, eastern part of the city.

Shri Bidhu Bhusan Serr Gupta took the chair. Shri Satcowripati Roy inaugurated the function.

Kaviraj Bimalananda Tarkatirtha, M.L.A., the Rector of the institution, stated that it was at the advice of Deshabandhu Das that Kaviraj Shiromani Shyamadas Bachaspati started this institution in 1921. Deshabandhu was its first president and so long as he was alive he took affectionate care for this institution.

There was another function at College Square, central part of the city under the auspices of the India To-Morrow Club.

UNAUTHORIZED OCCUPATION OF CORPORATION LANDS

The Commissioner, through a Circular, has directed the staff of the Engineering, Chief Valuer's and City Architect's departments to spot out and detect unauthorized occupation of Corporation lands in parks, squares, road-islands, footpaths, and streets in the city often used for holding religious congregation and others and to report those cases to the Engineering Department, immediately so that necessary action might be taken under the relevant provisions of the existing Calcutta Municipal Act. It has further been noticed that many of these unauthorized occupations have developed into small religious units as temples, dargahs and such like of permanent nature. The police help has also been sought in this regard.

Acharya Prafulla Chandra Roy's Contributions Re-Called

SYNCHRONIZING with Deshabandhu Day came off the fifteenth Death Anniversary of Acharya Prafulla Chandra Roy, the great savant and scientist, on the same day. The city observed it with due solemnity.

On this occasion a memorial service was held at Nimtala Burning Ghat, northern part of the city, which was presided over by Shri Chapala Kanta Bhattacharjee M.P. The site was tastefully decorated with flowers and foliage wherein wreaths were

MEMORIAL SERVICE AT NIMTALA

PHOTO SHYAMAL BOSE

placed both by individuals as well as on behalf of different organisations. Many others including Shri Phanindra Nath Mukherjee, Editor, 'Bharatbarsha' paid their tributes to the memory of the great patriot. Besides, many other cultural and educational institutions offered floral tributes.

Referring to many of the events in Acharyadev's life Shri Bhattacharyya said that the respect and honour, that great savant earned was unique in the world. And this he did by dint of his ardent devotion and service to the country. He was not only a philanthropist but also at the same time a patriot and a pioneer in promoting national industries in the country. He was equally great as scientist and a teacher, added the President. As an ideal teacher Acharyadev's name would ever shine in the pages of country's history.

AN EXHIBITION ON ROAD SAFETY

Being organized jointly by the traffic department of Calcutta Police and the Safety First Association of India, an Exhibition of models of Safety First appliances was opened at Shambazar A. V. School, northern part of the city, on Saturday, the 13th June last. Such exhibitions are held to make children and their parents safety conscious.

The exhibition included posters, some of them showing the traffic signals, a miniature model of a road crossing and an electrically animated board to answer questions relating to road safety.

There were film shows on road safety towards evening.

Shri Mukherjee felt the need of proper spread of the ideas with which Prafulla Chandra lived. To pay proper homage to his memory would be to follow the teachings of that great teacher of humanity, he also said.

Towards the morning at College Square, the central part of the city, the Registrar of the University of Calcutta Dr. Dukhaharan Chakraborty placed wreaths at the statue of Acharya Roy along with Shri S. P. Sen, formerly of Bengal Chemical and ex-President of Bengal National Chamber of Commerce. The bust was also garlanded by different students' organisations and other institutions.

Tributes were paid to his memory by different speakers at a meeting presided over by Dr. Promode Kumar Ghoshal. They referred to the different spheres of Acharyadev's life and activities. They included Shri Sachindra Narayan Guha, a member of the Senate, Shri Biren Basu, Shri Kalipada Bhattacharyya and others.

DEATHS & DISEASES IN CITY

During the week ended the 13th June, attacks and deaths from the cholera in the city numbered 93 and 33 against 129 and 49 in the previous week. In the corresponding weeks last year there were 127 and 102 attacks and 36 and 21 deaths.

The city was quite free from small-pox during the week. Tuberculosis claimed 32 lives against 38 the week before and 40 and 36 in the corresponding weeks last year.

Deaths from all causes totalled 544 against 621 in the previous week and 650 and 624 in the corresponding weeks last year.

THE ALL-INDIA MANGO SHOW

An exhibition of mango fruits was organized for the second year in the Ranji Stadium, Eden Gardens by the Indian Council of Agricultural Research towards the close of the last week. The State of West Bengal, winning the largest number of individual prizes, received a special Shield, from the hand of the State Chief Minister, Dr. B. C. Roy. Dr. Panjabrao Deshmukh, Union Minister for Agriculture, was present.

The Chief Minister said that mango was rich in nutritive value, containing vitamins A and C: 1½ chataks would mean 50 calories. It was not a mere luxury in areas where food was scarce, mango should be grown as subsidiary food, remarked the eminent physician.

More research was necessary to evolve new varieties of mangoes, available over a longer period. The Chief Minister said that two research laboratories in West Bengal were trying to develop methods of preserving mango, in different forms. The experiment to preserve the fruit in powder form was proceeding satisfactorily. Powdered mango tasted like amrat (dried mango juice). He had been told that a mango, if coated with fat, could remain fresh for 1½ days.

Dr. Deshmukh assured that by the end of the Second Plan period, cheap, abundant and excellent fruits would be available in India at all times of the year. He explained Government efforts to develop orchards through establishment of regional experimental stations.

CITY-NEWS-PARADE

OBITUARY: The death of Shri Jatindra Kumar Biswas, retired Chief Presidency Magistrate, Calcutta, occurred in Patna, Bihar on Tuesday, the 16th. He was 74. The late Shri Biswas fell down 10 days ago and was seriously injured.

Born in 1865, the late Shri Biswas was educated in Calcutta. Joining Government service as a Deputy Magistrate, he retired in 1939. He was once President of the Calcutta Rotary Club and was the Chairman of the Club's Famine Relief Committee in 1942-43. At one time he was Chairman of the Indian Red Cross Society.

The late Shri Biswas devoted many years of his life for the promotion of education and was connected with several charitable institutions. He made a gift of his house in Lansdowne Terrace to the Ramakrishna Mission.

The body was brought down to Calcutta by car. Burial took place at the Lower Circular Road Cemetery on the 17th June.

The Corporation, at its weekly meeting on Friday, the 19th June mourned the death. It was referred to in the House by the Deputy Mayor, Shri K. L. Dhandhanian who eloquently many of the qualities of the deceased. The House also adjourned for ten minutes as a mark of respect to his memory.

Prof. Devendra Nath Sukul, Lecturer, Bangabasi College, and General Secretary, Workers' and Peasants' League, died on the same day at the Calcutta National Medical College Hospital. He had been suffering from high blood pressure, kidney troubles and other complications.

Formerly a Vice-President of the All-India Trade Union Congress and a member of the All-India Congress Committee, the late Prof. Sukul suffered imprisonment in the Civil Disobedience Movement. After Independence he worked as a prominent member of the Revolutionary Marxist Party, League of Radical Congressmen and the Independent India group founded by the late Shri M. N. Roy. He resigned from the Radical Democratic Party and joined the Workers' and Peasants' League and the United Socialist Organization and worked in the United Trade Union Congress and in many Unions.

The Corporation, at its weekly meeting on the 19th June also mourned the death.

ID-UZ-ZUHA, OR BAKAR-ID, popularly known Muslim festival, was celebrated in the city by over 400,000 Calcutta Muslims on Thursday, the 18th June. Prayers were held in the morning in mosques where Maulvis delivered sermons and explained the significance of the celebrations. They stressed the need for communal amity and understanding between different sections of the people.

The congregational prayer on the Maidan, on the foot of the Ochterloney Monument, organized by the Namaz-e-Idain Committee, was led by Hazrat Maulana Hamiduddin Sahib. Maulana Syed Ahmed Abarabadi, Principal, Calcutta Madrasa, addressed the congregation on Islamic doctrines with special reference to the brotherhood of man.

Greetings were exchanged. Alms were distributed to the poor. The members of the community visited their friends' and relatives' houses during the day, participating in fairs, Alipore Zoo and other places of interest attracted crowds.

Special police arrangements were made to maintain calmness, peace and harmony in the city. About 100 persons were arrested on the previous night. Two were

were taken into custody in the Amberst Street area on that morning when they tried to interfere with the movement of sacrificial meat. The police issued about 2,000 permits for korbani, (sacrifice of animals).

CALCUTTA HAD HEAVY RAINS again on Thursday, the 18th June, after many sultry days since the 12th last. Accompanied by thunderclaps and sheet lightning—the heavy showers began at 11 P.M. and continued for hours. As usual many parts of the city were water-logged but it caused little inconvenience to the citizens due to an advanced night. This had resulted in an appreciable drop in temperature welcomed by all. That good start the monsoon made was caused by the location of a trough line over the southern districts of West Bengal, according to the Alipore meteorologist.

Due to weak monsoon conditions the localized rainfall continued in the city till 2 P.M. on Friday, the 19th June, when the total rainfall recorded for 14 hours was 2.83 inches. Both the maximum and the minimum temperatures ran below normal on that day. Till, the rains flooded low-lying areas in different parts of the city causing dislocation of transport services. Tram services remained suspended for a few hours, both in the north and south sections while the buses maintained their services diverting their normal routes.

Scheduled air services from Dum Dum to stations in Assam were suspended on that day when the I.A.C. cancelled all their flights to Assam on reports of poor weather conditions there. The afternoon service on the Calcutta-Bagdogra route did not also operate.

Variable conditions of sky with possibilities of one or two showers along with thunders were the forecasts for the rest of the week. The temperatures recorded in those days were also above normal.

HAWKERS' ASSOCIATION holding its annual meeting in this city on Sunday, the 14th May, urged proper facilities for their trade. Shri Arabinda Bose, M.L.C., presided. Shri M. C. Khanna, Union Rehabilitation Minister, and the Mayor, Shri Bejoy Kumar Banerjee, were present.

Shri Bose said that the association had appealed to the police and Corporation for sanction of suitable sites for use as hawkers' corners. Many refugees who had been earning their livelihood through trade had so far received no relief from the Rehabilitation Department. He hoped that the Union Rehabilitation Ministry would extend its relief measures to the refugee hawkers.

Shri Khanna assured the Association of his Ministry's full co-operation with the refugee hawkers. He said he was happy that refugees had tried to establish themselves by individual initiative instead of waiting for Government relief.

DEMONSTRATIONS continued in front of the Mahareja Mandir, Chandra Nandy College, Bankante Bose Street, northern part of the city, with hungerstrikes, meetings and other accompaniments when the College re-opened on Monday, the 15th June after summer vacation. Three Professors of the College went on hungerstrike from Tuesday noon the 16th June demanding the re-employment of Prof. Pijush Das Gupta of Economics, who was dismissed by the College authorities in March. The three teachers held their demonstration in the Professors' Common Room. Prof. Das Gupta also addressed a meeting there. Four students began hunger-strike in that evening.

About 40 other Professors of the College in another meeting in the Common Room condemned their colleagues' action. Prof. N. Kundu, Vice-Principal, presided.

The demonstration continued till we go to press, being forced by fresh batches of students and teachers in similar manner as usual. Picketing formed a part of it.

CORPORATION NOTICES

To Contractors

CORPORATION NOTICES—Contd.

District No. IV Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Wednesday, the 1st July, 1959 upto 2 P.M. ...

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited. Agreement is not necessary for the works below Rs. 2,500.

84. Repairs to narrow passage off Balam Bose 2nd Lane (portion) Constituency 69—Rs. 528, dated 9th June, 1959 (1 month).

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. $\frac{1}{2}$ Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the market.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CORPORATION AT WORK

A CONDOLENCE

At the outset of the weekly meeting on the 26th June, the Corporation condoled the death of Shri Kasturi Srinivasan, Managing Editor of 'The Hindu'. He died in Madras on the early morning of the 22nd June at the age of 72 after ailing for some time past.

Referring the death in the House, the Mayor, Shri Bejoy Kumar Banerjee, put up the eventful career of the late Shri Srinivasan. After graduating from the Madras Presidency College he joined 'The Hindu' at its Joint Manager and in 1934, he assumed the editorship of the paper. For 25 years he was intimately connected with that journal.

The late Shri Srinivasan's varied interests included promotion of the fine arts and many public causes. He visited Europe about half a dozen times on different missions connected with his own business and in the promotion of Indian Journalism. He also made a world tour recently, the Mayor added.

Shri Banerjee continued that he was largely instrumental in the renaissance and growth of Karnatic music in South India and took a prominent part in the establishment and functioning of the Madras Music Academy. He was a Director of the Local Board of the State Bank of India.

The late Shri Srinivasan became the Press Trust of India's first Chairman in 1948. He was also Chairman of the Indian Section of the Empire Press Union for three years from 1943. From 1940 to 1944 he was President of the All-India Newspaper Editors' Conference and was President of the Indian and Eastern Newspapers Society in 1947, the Mayor's tribute went on.

Elected as Vice-President of the International Press Institute in 1952, the late Shri Srinivasan was Chairman of the Indian National Committee of that Institute. He was awarded the 'Padma Bhushan' in January, 1956.

The Corporation conveyed its sincerest condolences to the members of the bereaved family.

STADIUM IN CITY

The House re-iterated its old demand for building up a Sports Stadium in the city. There was a lively debate on the issue when as many as 20 members spoke on the same subject repeating the long-felt need for a big Sports Stadium in the city so that nearly a lakh of visitors might be accommodated there. Through a motion moved by Councillor Dr. Birendra Chandra Basu, the Corporation decided that it would ask the State Government for immediate selection of the site for the erection of a Stadium and announcement of the exact date of the commencement of the work of the Stadium. It was also suggested that the Government should nationalize the existing contractor's stands in the Mohan Bagan-Muhammedan Sporting Ground.

The question of Stadium came up before the House when it was considering a letter from the Deputy Secretary to the West Bengal Government, Department of Local Self-Government and Panchayats, addressed to the Commissioner regarding the Stadium.

On the 19th March, 1958 the Corporation forwarded the copy of a resolution to the State Government. The resolution adopted by the Corporation on the 14th February, 1958 stated, that "the Corporation notes with approval and pleasure the decision of the State Government to construct a Stadium and requests the Government of West Bengal to provide for two representatives of the Corporation on the proposed Board of Trustees for the construction and management of the same."

"That the Corporation further requests the State Government to try to complete the Stadium within a year", the resolution added.

After several reminders to apprise the Corporation for further developments in the matter, the Deputy Secretary to the Department of Local Self-Government and Panchayats wrote on the 2nd June to the Commissioner that the matter was under consideration of the Government.

At first, the letter caused resentment in the minds of the members as to the delay made by the Government in replying the same. One of the Councillors suggested that the Chief Minister Dr. B. C. Roy.

CIVIC RECEPTION TO MAYORS IN MADRAS

An Informal Conference of the visiting Mayors to Ootacamund Conference from the various parts of India, was held at the Mayor's Chamber, Corporation of Madras, on the 17th of June. The Mayor of Madras, Shri A. P. Arasu, presided over the function.

Mayors of Poona, Ahmedabad, Calcutta, Bombay, Delhi, Jubbalpur, Nagpur, Hyderabad, Secunderabad, Chandranagore, Udaipur and Deputy Mayors of Indore and Madras were present at the Conference.

The Mayor of Madras extended a hearty welcome to the distinguished visitors.

After an informal discussion about the various problems confronting the Municipal administration of cities in India, all agreed that detailed discussion on the various problems might be taken up at the official Conference at Ootacamund where all the Mayors interested in civic administration of the big cities in India would be present.

After the informal conference, the distinguished visitors sojourned to My Lady's Garden, People's Park, Madras, where a Civic Reception was accorded to them by the Mayor of Madras.

While welcoming the distinguished Mayors of the principal cities in India the Mayor of Madras Shri A. P. Arasu said that he was paying homage to the cities which the Mayors represented. His admiration for work also went to those who worked tirelessly in the field of Municipal Government.

The Mayor of Madras opined that the Conference of Mayors at Ootacamund for the first time, started under the joint auspices of Government and Municipal Corporations. The enterprise was bound to bear fruit. From his short experience he might say that the Mayor could function effectively only if he had the support of the Government. He thought that official backing for this Conference was assured as the Union Health Minister had become the champion of their cause.

"It is time that the democratic ideals are translated into reality. In the realm of Local Self-Government, and the Mayor and Council are invested with powers and authority to manage the affairs of

the City" said the Mayor. But there must be either the Presidential type or the Cabinet type of Democracy in the sphere of Local Government. The urge for it, was fast gathering momentum. The Government could not throttle Municipal Democracy any more and run the affairs of Municipal Corporation through their Secretariats and bureaucratic set ups.

Shri Arasu explained that Madras City had a rustic look—and the rustic look was symbolic of India, more so of the Dravidian culture.

On behalf of all the Mayors present there, the Mayor of Calcutta Shri B. K. Banerjee thanked the host, the Mayor of Madras, for honouring them with the reception.

The Mayor Shri Banerjee said that the Government took the initiative to convene the Mayors' Conference and it was in the interest of the Government, the people and the Corporations, that the Corporations should function well. If the Corporations did not function well, it would adversely affect the interests of the Government also. He also said that the Corporations were doing good to the people just as the Government were for the people. Their objects were the same as that of the Government and if they wanted to quarrel with the Government on some matters, it was not for any other motive but to place their demands as effectively as possible in the interest of the common man and the Corporations. 'Municipal Corporations wherever they are, are interested in the future well-being of the people' added Shri Banerjee.

The Mayor of Calcutta confessed that the Mayors were powerless. No power had been given to the Mayors, to have an effective control on the civic administration, opined the Mayor. The Mayors were attending the Conference to impress upon the Government, the necessity for having more powers for them.

"Municipal Corporations must be autonomous bodies, within the limitations of the Act, and we will not tolerate any interference from any quarter, however high, nay, even from the Government," observed the Mayor of Calcutta.

IN MEMORY OF SYAMAPRASAD

Dr. Syamaprasad Mookerjee's Death Anniversary Observed In The City

The Deputy Mayor, Shri K. L. Dhandhanía pays his tributes to that Leader of men.

PHOTO : S. B.

THROUGH a number of functions citizens paid their hearts' tributes to Dr. Syamaprasad Mookerjee, who till the other day espoused the cause of Bengal and Bengalis and moved India's corners to bring redress to many of the country's grievances. The observance of the Fifth Death Anniversary of that leader, patriot, politician and above all an educationist, had not been restricted to any particular section or community alone, on Tuesday, the 23rd June.

In the morning a memorial service was arranged at the Sahanagore Burning Ghat, at the very site where the last remains of Syamaprasad was put to ashes. The site was tastefully decorated with white flowers. The Syamaprasad Smarak Samity arranged the function, which was invoked with recitations from the Upanishad.

Wreaths were placed on the site on behalf of the University of Calcutta, the Government of West Bengal, Calcutta Corporation, Ashutosh College and different other cultural and educational institutions.

The Deputy Mayor, Shri Kishorilal Dhandhanía, who conducted the service, felt the presence of Dr. Mookerjee at this critical juncture of the country. Paying his personal tributes Shri Dhandhanía remarked that the farsightedness and other qualities possessed by the late Dr. Mookerjee emboldened Bengal much which had suffered from many of the evils. Particularly he mentioned about the famine that overtook the country in 1943 and the communal disturbances followed by partition of the country and in both calamities Dr. Mookerjee stood above party politics and piloted the country's ship to its safe harbour. At the same time his heart went to remove the distress of the poor, added Shri Dhandhanía.

The service was attended by an elite of the city including the Ex-Chief Justice, Shri Ramaprasad Mookerjee, Dr. Dukshaharan Chakraverty, Registrar, Calcutta University, Principal Khagendra Nath Sen and others.

At a meeting organized by the Bharatiya Jana Sangha over which Principal Devaprasad Ghosh presided eloquent tributes were paid to his memory.

Principal Ghosh pointed out the ideals for which Syamaprasad fought and enunciated his political ideology.

Shri Hemendra Prosad Ghosh, the octogenarian journalist, said that Syamaprasad was ordained to be a martyr. For despite his father's intention he did not keep his activities confined within the boundaries of the Calcutta University. He understood the needs of political movement in the country. Even after the country had achieved freedom he came out and formed a strong opposition against the then ruling Government. All his activities were inspired by unselfish motives and for that he did not hesitate to resign office as Central Minister when time was ripe. Syamaprasad had indomitable courage and farsightedness.

Prof. Batuknath Bhattacharjee said that Syamaprasad was a martyr for his idea—to see a United India. He said that even to this day the ideal for which Syamaprasad died could not be fulfilled.

Prof. Haripada Bharati stressed that people who could not understand Syamaprasad always held that he was advocating a policy which would bring unrest to the whole of India, but that they were wrong which was proved. If the leaders of India could have given their thoughts to what Syamaprasad said, the Kashmir problem would not have existed today.

The other speakers included Prof. Debajyoti Burman, who dealt mainly with the political ideologies of Syamaprasad.

There was another meeting in the Ashutosh Memorial Hall, South Calcutta wherein Alderman G. Basu, City's Sheriff presided. Speakers included Shri Kedar Nath Chatterjee.

COUNCILLOR DR. B. C. BASU INAUGURATES THE WEEK

Sitting beside Councillor B. C. Pal, Dr. A. Mukherjee, Health Officer and others, Dr. B. C. Sarbadhikari, Officer-in-charge, Mansatala Chest Clinic, standing behind.

PHOTO : S. B.

PREVENTION OF TUBERCULOSIS B. C. G. CAMPAIGN BY CORPORATION

B. C. G. WEEK was observed by the Calcutta Corporation by organizing a meeting on June 20, at the Mansatala Chest Clinic, one of the biggest clinics run by the Corporation in Kidderpore area. There more than 150 patients are treated daily for Tuberculosis. As occurrence of Tuberculosis being high among the close associates of T. B. patients it was decided by Dr. B. C. Sarbadhikari, Officer-in-Charge of the Clinic to organise the meeting among the friends and relatives of those serving the Clinic.

Dr. Birendra Chandra Basu, Chairman of the Standing Health Committee of the Corporation who presided over the function, stressed great importance on B. C. G. Vaccination given in mass scale in Calcutta in controlling the disease in the city where T.B. had been found to be the greatest killer. In his opinion 1.6 per cent of the people suffered from this disease and death-rate from T.B. in Calcutta was very high. He said that effectiveness of B. C. G. Vaccination in controlling this disease had been scientifically proved in many countries. The Chairman also emphasized the support of the Corporation to the Government of West Bengal if they started B. C. G. Campaign in the city. He also requested the Government for larger medical supervision in the matter and to help the Corporation in their efforts. Councillor Brojendra Nath Banerjee praised the medical officers and workers of the Mansatala Chest Clinic in their endeavour of humanitarian work. His sympathies went with the sufferers of this fell disease and he considered that an allout effort should be made to eradicate T.B. from the city with the help of B. C. G. Vaccines.

Councillor B. Paul expressed his satisfaction on the working of the Chest Clinic and emphasized the need of protection of the citizens against Tuberculosis.

Dr. A. Mukherjee, Health Officer, Calcutta Corporation, opined that Chest Clinics were best places

of propaganda against Tuberculosis and main sources wherefrom B. C. G. Vaccination Campaign could be planned. Thousands of patients and their relatives were attending these Clinics regularly who could take the message of hope and method of controlling the spread of infection to home. Tuberculin Test and B. C. G. Vaccination should start from the home of infected ones and then spread out in the locality.

Dr. B. C. Sarbadhikari while explaining the necessity of B. C. G. Vaccination in controlling Tuberculosis said that contacts and associates of the Tubercular patients were more in danger of the infection than others. Hence attempts should be made to take care of them first. Among those present were Dr. Salil Dutta of the Indian Medical Association and an Associate Member of the Standing Health Committee and important citizens of the locality.

RUPAYAN ART CENTRE

The Rupayan Art Centre, a cultural organization in the city, while celebrating its First Birth Anniversary, on Sunday, the 21st June, presented a dance-drama 'SHAKUNTALA' before a respectable gathering at Roxy Cinema Hall, Esplanade area.

Inaugurating the function, Dr. Kalidas Nag impressed upon the audience the deep-seated grace and art lying in that world-famous book which once inspired the famous German Poet Goethe to read and learn Sanskrit language in which Kalidas composed his book several centuries back. The book still shines as before, added Dr. Nag.

Shri Iswardas Jalan, who presided, gave the intrinsicness of its objects hidden in that book and which, according to him, were inaccessible to many. He, however, appreciated the attempt of the Centre in presenting the dance-drama.

Being participated by many important artistes of the city, the dance-drama regaled the audience present.

THE CORPORATION AT WORK

(Continued from Page 217)

should be informed of the matter. Another suggested that the Minister of the Local Self-Government should be moved as to know the causes of the delay in replying to Corporation's letter.

Endorsing the view, the Mayor Shri Bejoy Kumar Banerjee said that whenever he, as Mayor of Calcutta, wrote to the Chief Minister, he replied the very next day. The Mayor further remarked that it was "not a commendable attitude" of the State Government that queries from the Corporation sometimes waited years for a reply.

Several members asserted that whatever the decision of the State Government might be the Corporation should have its own Stadium. They suggested Park Circus Maidan and Tallah Park as the suitable sites for the purpose.

Councillor Devaprasad Chatterjee, M.L.C., suggested that there were nearly 200 acres of open land, mainly utilised by the Race Course, a seasonal affair. This should be taken over by the Corporation to build up a Stadium there. He also supported the earlier suggestion of Alderman Bejoy Singh Nahar M.L.A., to utilise any one of the Race Courses out of the existing two for the purpose.

Similarly Councillor Dr. Aurabindo Das Gupta suggested for utilizing the Tollygunge Golf Club spreading over 1200 bighas for the construction of an accommodating Stadium.

As many as nearly 20 speakers including Councillors Naren Sen, Biman Mitra, Samar Rudra, Sushul Roy, Jogen Saha, and others asserted that Corporation should build a Stadium in its selected site. Many of them also suggested that loan might be floated to finance the construction cost.

Alderman Bijoy Singh Nahar M.L.A., said that it was differences of opinion over the site and the controlling authority which had mainly delayed the Government's Stadium plan and vested interests had a hand in it.

Councillor S. K. Gupta, I.C.S., Chairman, Improvement Trust, said that the Corporation might build one or more subsidiary Stadiums such as the one the Trust was constructing at the Dhakuria Lakes but the central Stadium must be on the Maidan.

Councillor Gupta was then replying to a statement of criticism made by Councillor Benoy Lal Ghosh who pointed out that the C. I. T.'s Stadiums were not being built up in a scientific way. Councillor Gupta apprised the House that out of two types of Stadiums being built in European countries, the Calcutta Improvement Trust had proposed for the type meant for practice games and coaching youngmen in sports. It would satisfy only a part of the citizens in a localized area. The big city Calcutta needed a bigger Stadium and that should be built up in the Maidan for the convenience of all aiming to accommodate at least one lakh people.

Councillor Dhiren Bose also suggested formation of a Special Committee with a few eminent members headed by the Mayor, Shri Banerjee, to proceed with the matter of building up the Corporation Stadium but that was not accepted by the House.

A STUDY TOUR

The House approved a recommendation of the Standing Town Planning & Improvement Committee, requesting a team of Councillors to visit the United States of America and the United Kingdom and other European countries in order to study Town Planning and other civic services rendered by municipal authorities there at their own expenses.

LAND FOR A CHEST CLINIC

The House, on the recommendation of the Standing Town Planning & Improvement Committee, handed over an open land measuring about six kottahs near the Baghbazar Metal Yard, to the Mayor's Fund for Clinics and Home Treatment, for construction of a Chest Clinic out of funds to be donated by the Kumar Pramatha Nath Roy Public Charitable Trust, under certain conditions.

The House also conveyed its thanks to the donors for their kind offer.

SUPPLY OF TONED MILK

The House on the recommendation of the Standing Health Committee, decided to make cash purchase of about 5.4 lakh pounds of toned milk from the Milk Commissioner, Government of West Bengal, during 1959-60 at scheduled prices to be used in Corporation Maternity Homes, Chest Clinics and others. The major quantity is being utilized by the Milk Kitchens maintained by the Corporation.

FOOD ADULTERATIONS CONTINUE

Pointing out the menace of adulteration in tea and other foodstuffs, Councillor Dr. K. P. Ghosh complained that a considerable quantity of tea, previously detected to be adulterated, found to be sold again in the open market. According to Councillor Dr. Ghosh there were about 1000 chests of such tea kept isolated in a godown and he alleged that many of the dealers of that quality were punished by the Court.

Councillor Kumar Dutta also referred to the harassment faced by a section of shopowners in obtaining Health Licences from the Corporation.

A SCHOOL BUILDING BADLY USED

Councillor Nandalal Banerjee complained that a School Building located at 90, Gangulipara Lane, Paikpara area, northern part of the city, had not been maintained properly. Recently, when he had a chance to inspect that school he found that a part of the building had been utilized as a dwelling house of a family. He wondered how the dweller obtained the permission to do so when the institution suffered badly from lack of accommodation for school children.

The Mayor, however, assured the House that he would look into the matter.

A. Cts. Of Proceedings Of The Tenth Adjourned Meeting Of The Corporation Held On Friday, The 26th June, 1959.

MINIMUM WAGES FOR MUNICIPAL EMPLOYEES

DURING this week a large number of Municipal employees particularly those belonging to the Greater Calcutta area and suburbs stopped work in protest against non-implementation of the Minimum Wages Committee's Award. Essential services such as water supply, ambulances and hospitals were exempted from the strike. From an earlier decision it was known that about 15,000 employees serving under 67 municipalities out of 88 within the State involved in this strike. The employees of the Howrah Municipality, the biggest one within the State of West Bengal, took a separate decision of not to resort to strike.

According to the Municipal Employees Federation sources, settlements on the implementation of the Award were reached in several municipalities on Saturday night, the 20th June last. As a result of implementation of the Award, workers of the Dum Dum Cantonment, South Dum Dum Municipality and Bhatpara Municipality refrained from taking any drastic action as they were paid a portion of their dues on the previous night.

Employees of 19 municipalities had gone on strike from the 21st June demanding Wages Committee's Awards.

Workers of Kanchrapara, Baranagore, Halishahar, North Barrackpore, Ranaghat and Bhadreswar Municipalities withdrew their strike following the authorities' decision to implement the Award on the second day of the strike.

The employees of Kamarhati Municipality, on the third day, returned to duty.

Municipal employees of Ranaghat resumed work after 36 hours of suspension. Workers of the Garulia Municipality, 24-Parganas, decided to withdraw their strike on the fourth day following the authorities' decision to implement the Award.

The four-day old strike by workers of Baldyabati Municipality, District Hooghly, was called off on Thursday, the 25th June, at the intervention of the Commissioners of the Municipality. Workers of Bongaon and Jhalda Municipalities resumed work on the same day.

The six-day-old strike of 300 municipal workers, menial staff, of Bally, Howrah, was called off on Friday night the 26th June after an agreement that the Municipality would pay the difference of Rs. 19-8-0 a month under the Minimum Wages Act Award from the 1st November, 1958 to April, 1959 to its employees by the middle of July. Strike ended on that day also in Behala, Barasat and Naihati Municipalities. The employees' strike affecting 14 municipalities in the State, at the time of our going to Press, is likely to be called off soon.

Looking into the past we find that the Award was made in July last year. The Employees' Federation took the strike decision in May due to non-implementation of the same by the authorities but deferred the negotiations with the Municipalities and the Government. Immediate payment of wages for May at the notified rate of arrears from November by July 15 and of additional Dearness Allowance of Rs. 5 with effect from April, 1958, to all employees drawing total emoluments up to Rs. 300 before the 30th June, were the main demands.

Since the publication of the Award many pleaded financial inability to meet the additional commitments, involving a total

of Rs. 40 lakhs annually for 88 municipalities. Subsequently the State Government agreed to meet two-thirds of the extra expenditure and advance, as loan, the balance for four months, until the Municipalities made their own budgetary provision. Sixty-six municipalities insisted that the Government should bear the extra expenditure in full and withheld implementation of the Award while the State Government had considered it to be the Municipalities' statutory responsibility to implement the Award.

In the meantime, garbages piled on roads, sullage overflowing from drains and uncleaned service privies have made life unbearable in almost all the Municipal areas where workers had been on strike. Though negotiations went on through Government officials for a settlement no attempts worth mentioning were made by the authorities even to maintain partially the civic services. Unsatisfactory in normal conditions, services in the post-strike situation had seriously threatened the towns' health.

Even in a normal year mosquitoes and flies thrive menacingly in many of the municipal areas during the monsoon and the strike has aggravated the danger. Removal of night soil had scarcely been regular in a few of them and the conditions created by the strike could be well imagined. The public opinion is gathering in the way that unless the strike is settled and the municipal employees resume their normal work soon, epidemics might occur. Many others have equally been perturbed.

The West Bengal Municipal Association at the Municipal Chairmen's Conference at Darjeeling stated the following in its Memorandum :

"The total normal income of Municipalities in West Bengal including Government grants amounting to about Rs. 30 lakhs is about Rs. 240 lakhs as in 1957-58 of which about Rs. 180 lakhs or 75 p.c. is spent on establishment and bare maintenance charges. Out of the remaining Rs. 60 lakhs, the Municipalities spend about Rs. 16 lakhs on education and Rs. 15 lakhs on medical relief, which, long before, had been assured to be borne by the Government. Then barely Rs. 29 lakhs is left for roads, drains, extension of street lighting, and all other amenities.

In the background of this horrible physical picture, have come liabilities for better emoluments for low-paid Municipal employees which are so very necessary for bare existence and efficient services. Additional Dearness Allowance at Rs. 5 per month each has been costing about Rs. four lakhs annually since 1958-59 and minimum wages will cost about Rs. 18 lakhs even under present Government offer. With only about Rs. 29 lakhs to spare for all amenities, Municipalities in general, cannot afford to bear this additional liability of Rs. 22 lakhs without immediate improvement of Municipal finance or further Government help.

Thus it appears that the municipalities in the State have faced a difficult situation. Lying between the two horns—one for extension of civic amenities and the other for implementation of minimum wages, the Municipal authorities would be hard hit unless the State Government comes for their rescue.

CITY NEWS PARADE

OBITUARY: The death of Shri Tulsī Lahiri, well-known play-wright and actor occurred at his residence, Rash Behari Avenue, southern part of the city, on Monday, the 22nd June. He was 62.

Even from his early life the late Shri Lahiri became a prominent amateur actor before he joined the Alipore Bar in 1928. He used to compose songs and set them to tune. From 1930 to 1939 he served as a trainer and composer in His Master's Voice, Columbia and Megaphone Companies. He made his first appearance on the professional stage in the role of 'Akshoy' in Rabindranath's "Chitrakumar Sabha."

Started his film career as a Music Director, the late Shri Lahiri composed the music for "Jamuna Putney" in 1932 and since then was associated with the film world as script writer, composer, actor and director. He first directed a comic picture "Manikanchan" in 1935. He appeared in at least 50 films among which his performance in "Sonar Sansar," "Rikta," "Bamuner Meye," "Pathik," and "Parash Pathar" deserves special mention.

The late Shri Lahiri was also a good play-wright. His "Dukhir Iman" "Chenra Tar" and "Pathik" won wide appreciation.

The Corporation at its weekly meeting on the 26th June mourned the death. Referring the death in the House, the Mayor, Shri Bejoy Kumar Banerjee, described him as an actor of 'sterling character', able music director, and foremost playwright. Eloquent tributes were also paid to his memory and the House extended its condolences to the members of the bereaved family.

The death of Shri Radhapada Chattoraj, a recognized social worker of South Calcutta occurred on Saturday, the 20th June last. He was also an Associate Member of the Standing Accounts Committee for one term 1954-55. He was 57.

The late Shri Chattoraj was connected with many social organizations being the Working President of the West Bengal Social Organisation. Recently he took an active part in rendering relief to the 'tornado' affected bustee people of South Calcutta. Many prominent citizens attended his funeral at the Keoratala Burning Ghat, South Calcutta.

The Corporation at the same meeting mourned his death. The Mayor, Shri Banerjee, appreciated the valuable services rendered by the late Shri Chattoraj while paying his tributes to his memory.

Shri Lalmohan Sinha, founder and senior partner of Messrs. The Ideal Advertising Agency, Calcutta, died of Coronary Thrombosis at his residence at 4, Dr. T. N. Majumdar Street, Calcutta, on Sunday, the 21st June. He was 64.

A member of the well-known 'Anushilan Samiti' since his boyhood the late Shri Sinha later became a devoted follower of Deshabandhu Chittaranjan Das. While a B.A. student of the Bangabasi College he joined the Nagpur Session of the Congress in 1920 to fight for the cause of the Swarajya Party. Whole-hearted worker as he was in the service of nation he was closely associated with many social organisations including Tripura Hitasadhini Sabha and Chandpur Sammilani.

Born of a poor family at Chandpur now, East Patna, the late Shri Sinha struggled hard to get his education and in later life helped many poor students in various ways.

A HEALTH CENTRE FOR STUDENTS was inaugurated at 1, Jhansapukur Lane, northern part of the city, on Sunday, the 21st June under the auspices of the Rotary Club. The Club will also give vocational training to some displaced persons in the same house. The Union Minister for Scientific Research and Cultural Affairs, Janab Humayun Kabir, was present.

Five out of every ten students in Calcutta suffered from diseases, mostly minor ailments, said Prof. N. K. Saha, Vice-Chancellor, Calcutta University, while opening the Centre. The Vice-Chancellor said that the University had itself opened five such Centres in different colleges to attend to eye complaints, toothache and other troubles. The Club's Health Centre would cater to the needs of the students of the three big colleges where about 30,000 students concentrated. The University would soon acquire a mobile X-Ray unit to diagnose chest diseases from which a large number of students were suffering. It would also soon start a polyclinic in the Dalhousie Square area.

Janab Kabir congratulated the Rotary Club for the humanitarian work undertaken by the Club. He hoped it would look after both preventive and curative aspects of diseases. Doctors at the Centre might advise the students about the nutritious value of the food consumed.

Shri S. Deb, President of the Rotary Club, spoke of its different welfare activities, such as, service to crippled children and initiation of rural welfare work in villages.

FORWARD BLOC'S FOUNDATION DAY was celebrated on Monday, the 22nd June when several hundred workers held a meeting at Raja Subodh Mullick Square and took out a procession towards Writers' Buildings, Dalhousie Square area, in support of their demand for food and employment. The police stopped the demonstrators at Esplanade East.

Shri Hemanta Kumar Basu, M.L.A., the President of the All-India organization, and some other leaders went to the Secretariat to present a Memorandum to the Chief Minister, Dr. B. C. Roy. The demonstrators dispersed after their return.

RUSSIAN BOOKS FOR A DRAMA LIBRARY: About 80 volumes of Russian books on drama and stagecraft were presented to Girish Granthagar by the Consul-General for the U.S.S.R. in Calcutta on Saturday, the 20th June last. These books will be preserved in a library built in memory of Girish Chandra Ghose, in the premises of the 'Biswarupa' Theatre.

While welcoming the Russian Consul at a ceremony held on board "Biswarupa", Shri Rash Behari Sarkar, Secretary, Natya Unnayan Prathisthan Committee, thanked the Russian Government and the Soviet Theatre Artists' Association for presenting these volumes to Bengal, from where modern theatre movement in India had its start.

Replying, the Soviet Representative, Mr. V. B. Koselev said that in Soviet Union there was a tremendous love for Indian literature, specially for the works of Rabindranath Tagore which had been widely translated. He hoped this appreciation would continue for establish further Indo-Soviet cultural co-operation.

FIRES, ETC: Five engines of the West Bengal Fire Services fought a big fire that broke out in two jute godowns lying side by side on Gun Foundry Road, Comptore, Ward No. 1 on Tuesday, the 23rd June. The roof of the bigger godown collapsed. The firework continued till next day afternoon.

CALCUTTA'S ACTIVITIES WERE ALMOST FULLY SUSPENDED ON THURSDAY, THE 25TH JUNE, in response to a call of protest given by the Price Increase and Famine Resistance Committee as organisation of a few poli-

tical parties possessing so called leftist views. The demonstration opposed the State Government's "anti-people" food policy. Except for a few minor incidents, it was peaceful. The 12-hour lasting hartal in city began to return to normalcy even before the scheduled time, at 6 P.M.

Trams and buses were off the road. Few taxis were out and many private cars were seen. In some areas rickshaws piled. Train services were completely dislocated as a result of picketing.

All bazars and nearly all shops were closed, even those in the Dalhousie Square and Chowringhee areas. The day was a closing day for most of the city's shops under the Shops and Establishments Act. Attendance in Government and mercantile offices was slight. Not more than 5% of the employees, mainly supervisory staff, were on duty. Transactions in banks were very limited and there was no clearance. The city's 43 delivery post offices worked with staff who had been kept overnight at the offices.

Schools and colleges were closed. Matinee cinema shows were suspended. The Law Courts functioned with skeleton staffs.

The Ambulance Service received more calls than usual. The Corporation's Scavenging and Conservancy Services were seriously affected. Garbage lay on the roadsides. Attendance in the Central Municipal Office, Surendra Nath Banerjee Road and in other outlying offices was practically nil. Later on, the day was declared in the Corporation as a 'special holiday' with usual pay.

In that evening a largely attended meeting at Raja Subodh Mullick Square, the Government's food policy was criticized. Speakers went far to say that under similar conditions any other self-respecting ministry would have resigned.

A resolution demanded supply of good quality food-stuffs with an increased quota from the ration shops at reasonable prices. Supply of rice at Rs. 20/- to Rs. 22/- a maund in the open market, building up of food reserve of 500,000 maunds from internal resources; adequate Central assistance; adoption of stern measures against dishonest traders and intensive drive against hoarding; formation of all-parties' Food Committees at different levels and extensive test relief work and distribution of gratuitous relief were the other demands made through the resolution.

Shri Tridib Choudhury, M.P., who presided, said that if necessary, the programme for direct action to induce the

Government to accept their suggestions would be extended.

Shri Hemanta Kumar Bose, M.L.A., said that the people of West Bengal might have to start a mass movement to force the Government to change its present 'anti-people' food policy.

Shri Jatin Chakravarty, M.L.A., alleged that through price control and its withdrawal, the Congress had ensured for it enough funds for the elections.

Shri Sidhartha Sankar Roy, M.L.A., went further to say that the State Food Minister should have resigned earlier as his pre-control orders had been failed.

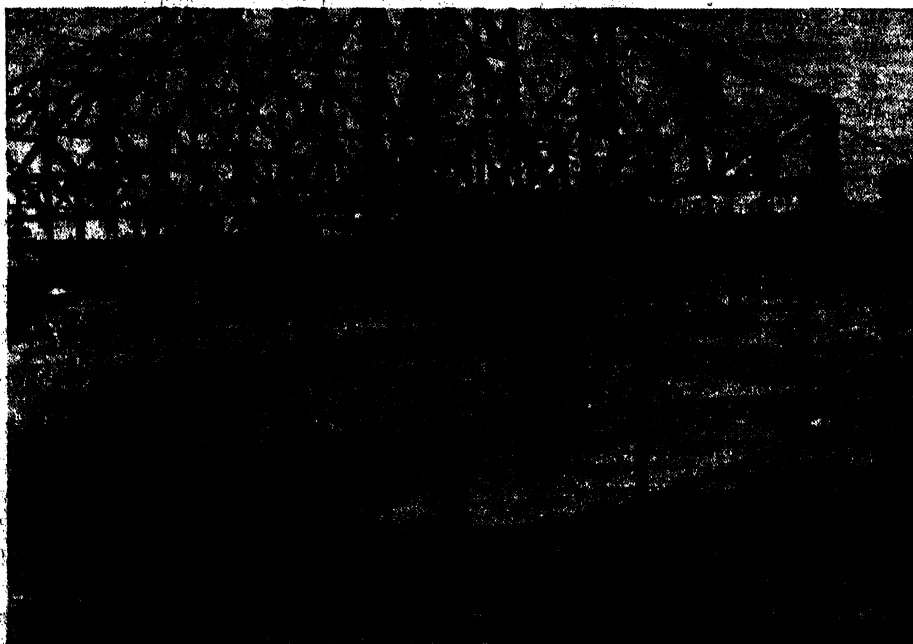

Preparations for observing the protest day started a earlier. Demonstrations were made to that effect. While the Resistance Committee demanded resignation of the State Food Minister, a meeting organized by another political party on Saturday, the 21st June, through a resolution, requested the Central Government "to take charge of the food administration of the State immediately" to tide over the present crisis. That meeting being presided by Dr. Prafulla Chandra Ghosh, M.L.A., marked the inauguration of a protest week.

The Resistance Committee took out a procession on Tuesday from the Maidan being led by Shri Jyoti Basu, Shri Jatin Chakravarty, and some other M.L.A.s and Leftist leaders.

Levelling charges of inefficiency and corruption against the State Food Department, Dr. Ghosh stated that the PSP had demanded Central control of the State's food administration as a temporary measure till the next harvest. Dr. Ghosh also severely criticized the distribution machinery of the Food Department.

On Tuesday, the 23rd June, through a statement the Resistance Committee suspected the Government's latest food policy which was intended to protect the interests of hoarders and dishonest traders in the face of growing mass agitation against hoarding and profiteering. Shri Hemanta Kumar Bose, M.L.A., the Committee's Secretary, described the change in the food policy as astounding.

The entire State, he continued, was in a "near famine condition". The situation had become such that people in some districts were leaving their homes and coming to Calcutta in search of food. The Government by rejecting all suggestions from the Opposition had blocked all avenues of co-operation. It was the Government, he alleged, which had "sabotaged the Price Control Order".

DESERTED CONDITION OF HOWRAH BRIDGE APPROACH ON THE 25TH JUNE

RECORD: SANTOSH KUMAR

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. I Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 3rd July, 1959 up to 2 P.M.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Commissioner be forfeited.

24. Construction of lampholes and manholes at different sites in Ward No. 25—Rs. 1,542/-, dated 22nd June, 1959 (1½ months).

25. Repairs to commandeered building at 140/B, Raja Dinendra Street, Ward No. 10—Rs. 2,443/-, dated 22nd June, 1959 (1½ months).

26. Construction of 6 Nos. of gully pits at different sites in Ward No. 25—Rs. 3,115/-, dated 22nd June, 1959 (1½ months).

27. Repairs to Water Works Office at 79, Cornwallis Street, Ward No. 13—Rs. 1,040/-, dated 1st June, 1959 (1 month).

28. Construction of lampholes and manholes at different sites in Ward No. 19—Rs. 2,460, dated 22nd June, 1959, (1½ months).

29. Construction of manholes and lampholes at different sites in Ward No. 24—Rs. 4,324, dated 22nd June, 1959, (1½ months).

30. Paving the sewered ditches between premises No. 245 and 246, Upper Circular Road, Ward No. 14—Rs. 1,000, dated 22nd September, 1958, (One month).

31. Construction of 3 Nos. of gully pit at different sites in Ward No. 19—Rs. 1,404, dated 22nd September, 1958, (1 month).

32. Supplying earth at 15, Shibtolla Street, Ward No. 25—Rs. 482, dated 22nd September, 1958, (1 month).

33. Laying 6 in. S. W. Pipe sewer (overflow) and construction of a lamphole at the junction of Burtolla St. and Kalakar Street, Ward No. 24—Rs. 837, dated 22nd June, 1959, (1 month).

34. Construction of a lamphole and an yard gully opposite 72, Ram Kanto Bose Street, Ward No. 7—Rs. 477, dated 22nd June, 1959, (2 weeks).

35. Construction of a street island at the junction of Balaram Mazumdar Street and Gossain Para Lane, in Ward No. 6—Rs. 632, dated 22nd June, 1959, (1 month).

36. Repairs to sewers opposite 36/9, Sahitya Parasad Street and 12/A, Raja Raj Kissen Street, Ward No. 13—Rs. 1,148, dated 22nd June, 1959, (1 month).

37. Repairs to sewered ditches and narrow lanes in Ward No. 9—Rs. 2,443, dated 22nd June, 1959, (1 month).

38. Construction of lampholes in Ward Nos. 19, 24 and 25 for the maintenance of sewers—Rs. 1,174, dated 22nd June, 1959, (1½ months).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

P. I. BANERJEE CHOWDHURY,
District Engineer I.

District I Eng'g. Office:
The 22nd June, 1959.

District No. III Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 1st July, 1959 up to 2 p.m.

118. Construction of gullypits & L. H. in front of 6, 511, Rajab Ali Lane, Const. No. 73—Rs. 1,254/-, dated 20th June, 1959 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

N. MAZUMDER,
District Engineer IV.

District IV Eng'g. Office:
The 23rd June, 1959.

CORPORATION NOTICES—Contd.

To All Registered Petty Improvement Lighting Contractors

DISTRICT NO. II

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 2nd July, 1959 up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of the tender. Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500 shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

Water Works.

Central Municipal Office:
The 24th June, 1959.

Food Supply Department.

NOTICE.

Separate sealed quotations in duplicate superscribed "Quotation for Arhar Dal", "Quotation for Masur Dal" & "Quotation for Sugar" with samples in sealed covers are invited by the undersigned for the supply, more or less, of 400 (four hundred) maunds (nett) of Arhar Dal, 250 (two hundred and fifty) maunds (nett) of Masur Dal and 160 (one hundred and sixty) maunds (nett) of Sugar to the Food Supply Department, and will be received by him upto 12 a.m. on Thursday, the 2nd July, 1959. The commodities must be dry and fresh and free from any foreign matters. The rates should be quoted for nett weight in Rupees and Naye paise only, and should include the cost of gunnybags and all other charges with free delivery at the Central Stores, 1, Hogg St., Cal-13, where cent. per cent. weightment will be effected. The supply must be in strict accordance with the samples received from them and any deviation detected within one month, in case of Dal will entail replacement at their cost. Payment will be made after one month in case of Dals and within a period not exceeding one fortnight in case of Sugar from the date of submission of the Bill. The number and date of current year's Corporation Trade License should be stated on the quotation. Delivery is to be completed within a week from the date of receipt of the order. Bill for partial supply will not be accepted. Opening date should be written on the cover of the quotation.

L. N. BAL,

Deputy Commissioner II.

Central Municipal Office:
The 22nd June, 1959.

PHENOL BAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pits, Hospitals, Schools, Lavatories and every place where Dirt and Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA 11 BOMBAY 11 KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour is paid at an hour—four annas.

2. Coolies for carrying bazar purchases are detachable at the principal entrances and care should be taken that only coolies bearing number-badges are engaged. For the purpose of half-yearly list, coolies who have been allowed to work are numbered with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, rickshaws, or accumulators are allowed inside the market.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-0 for a Bicycle and 0-3-0 for a Motor-Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-5-0, Motor Cycle 0-6-0 and after mid-night Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.
